(3) *Credit against the tax.* B is allowed under section 668 (b) a credit of $5,447 against his 1957 tax liability for the balance of the taxes paid by the trust for 1954 and which may not be refunded or credited to the trust under section 667. See paragraph (h) (3) of this example.

## [ 26 CFR (1954) Part 1 ]

### INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

### GRANTORS AND OTHERS TREATED AS SUBSTANTIAL OWNERS

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing, in duplicate, to the Commissioner of Internal Revenue, Attention: T: P, Washington 25, D. C., within the period of thirty days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U. S. C. 7805).

[SEAL] RUSSELL C. HARRINGTON,
*Commissioner of Internal Revenue.*

The following regulations for taxable years beginning after December 31, 1953, and ending after August 16, 1954, are hereby prescribed under sections 671 through 678 of the Internal Revenue Code of 1954.

GRANTORS AND OTHERS TREATED AS SUBSTANTIAL OWNERS

| Sec. | |
|---|---|
| 1.671 | Statutory provisions; estates and trusts; grantors and others treated as substantial owners; income, deductions, and credits attributable to grantors and others as substantial owners. |
| 1.671-1 | Grantors and others treated as substantial owners; scope. |
| 1.671-2 | Applicable principles. |
| 1.671-3 | Attribution or inclusion of income, deductions, and credits against tax. |
| 1.671-4 | Method of reporting. |
| 1.672 (a) | Statutory provisions; estates and trusts; grantors and others treated as substantial owners; definition of adverse party. |
| 1.672 (a)-1 | Definition of adverse party. |
| 1.672 (b) | Statutory provisions; estates and trusts; grantors and others treated as substantial owners; definition of nonadverse party. |
| 1.672 (b)-1 | Nonadverse party. |
| 1.672 (c) | Statutory provisions; estates and trusts; grantors and others treated as substantial owners; definition of related or subordinate party. |
| 1.672 (c)-1 | Related or subordinate party. |
| 1.672 (d) | Statutory provisions; estates and trusts; grantors and other treated as subtsantial owners; rule where power is subject to condition precedent. |
| 1.672 (d)-1 | Power subject to condition precedent. |
| 1.673 (a) | Statutory provisions; estates and trusts; grantors and others treated as substantial owners; reversionary interests. |
| 1.673 (a)-1 | Reversionary interests; income payable to beneficiaries other than certain charitable organizations; general rule. |
| 1.673 (b) | Statutory provisions; estates and trusts; grantors and others treated as substantial owners; charitable beneficiaries. |
| 1.673 (b)-1 | Income payable to charitable beneficiaries. |
| 1.673 (c) | Statutory provisions; estates and trusts; grantora and others treated as substantial owners; reversionary interest taking effect at death of income beneficiary. |
| 1.673 (c)-1 | Reversionary interest after income beneficiary's death. |
| 1.673 (d) | Statutory provisions; estates and trusts; grantors and others treated as substantial owners; postponement of date specified for reacquisition. |
| 1.673 (d)-1 | Postponement of date specified for reacquisition. |
| 1.674 (a) | Statutory provisions; estates and trusts; grantors and others treated as substantial owners; power to control beneficial enjoyment. |
| 1.674 (a)-1 | Power to control beneficial enjoyment; scope of section 674. |
| 1.674 (b) | Statutory provisions; estates and trusts; grantors and others treated as substantial owners; exceptions for certain powers to control beneficial enjoyment. |
| 1.674 (b)-1 | Excepted powers exercisable by any person. |
| 1.674 (c) | Statutory provisions; estates and trusts; grantors and others treated as substantial owners; exception for certain powers of independent trustees. |
| 1.674 (c)-1 | Excepted powers exercisable only by independent trustees. |
| 1.674 (d) | Statutory provisions; estates and trusts; grantors and others treated as substantial owners; power to allocate income if limited by a standard. |
| 1.674 (d)-1 | Excepted powers exercisable by any trustee other than grantor or spouse. |
| 1.674 (d)-2 | Limitations on exceptions in section 674 (b), (c), and (d). |
| 1.675 | Statutory provisions; estates and trusts; grantors and others treated as substantial owners; administrative powers. |
| 1.675-1 | Administrative powers. |
| 1.676 (a) | Statutory provisions; estates and trusts; grantors and others treated as substantial owners; power to revoke; general rule. |
| 1.676 (a)-1 | Power to revest title to portion of trust property in grantor; general rule. |
| 1.676 (b) | Statutory provisions; estates and trusts; grantors and others treated as substantial owners; power to revoke exercisable only after a period of time. |
| 1.676 (b)-1 | Powers exercisable only after a period of time. |
| 1.677 (a) | Statutory provisions; estates and trusts; grantors and others treated as substantial owners; income for benefit of grantor; general rule. |
| 1.667 (a)-1 | Income for benefit of grantor; general rule. |
| 1.677 (b) | Statutory provisions; estates and trusts; grantors and others treated as substantial owners; trusts for support of grantor's dependents. |
| 1.677 (b)-1 | Trusts for support. |
| 1.678 (a) | Statutory provisions; estates and trusts; grantors and others treated as substantial owners; person other than grantor treated as substantial owner; general rule. |
| 1.678 (a)-1 | Person other than grantor treated as substantial owner; general rule. |
| 1.678 (b) | Statutory provisions; estates and trusts; grantors and others treated as substantial owners; exception where grantor is taxable. |
| 1.678 (b)-1 | If grantor is treated as the owner. |
| 1.678 (c) | Statutory provisions; estates and trusts; grantors and others treated as substantial owners; trusts for support. |
| 1.678 (c)-1 | Trusts for support. |
| 1.678 (d) | Statutory provisions; estates and trusts; grantors and others treated as substantial owners; effect of renunciation or disclaimer. |
| 1.678 (d)-1 | Renunciation of power. |

GRANTORS AND OTHERS TREATED AS SUBSTANTIAL OWNERS

§ 1.671 *Statutory provisions; estates and trusts; grantors and others treated as substantial owners; income, deductions, and credits attributable to grantors and others as substantial owners.*

SEC. 671. *Trust income, deductions, and credits attributable to grantors and others as substantial owners.* Where it is specified in this subpart that the grantor or another person shall be treated as the owner of any portion of a trust, there shall then be included in computing the taxable income and credits of the grantor or the other person those items of income, deductions, and credits against tax of the trust which are attributable to that portion of the trust to the extent that such items would be taken into account under this chapter in computing taxable income or credits against the tax of an individual. Any remaining portion of the trust shall be subject to subparts A through D. No items of a trust shall be included in computing the taxable income and credits of the grantor or of any other person solely on the grounds of his dominion and control over the trust under section 61 (relating to definition of gross income) or any other provision of this title, except as specified in this subpart.

§ 1.671-1 *Grantors and others treated as substantial owners; scope.* (a) Sections 671–678 (subpart E of subchapter J) contain provisions taxing income of a trust to the grantor or another person under certain circumstances even though he is not treated as a beneficiary under sections 641–668 (subparts A through D). Sections 671 and 672 contain general provisions relating to the entire subpart. Sections 673–677 define the circumstances under which income of a trust is taxed to a grantor. These circumstances are in general as follows:

(1) If the grantor has retained a reversionary interest in the trust, within specified time limits (section 673);

(2) If the grantor or a nonadverse party has certain powers over the beneficial interests under the trust (section 674);

(3) If certain administrative powers over the trust exist under which the grantor can or does benefit (section 675);

(4) If the grantor has a power to revoke the trust (section 676); or

(5) If the grantor or a nonadverse party has the power to distribute corpus or income to or for the benefit of the grantor (sections 676 and 677).

Under section 678, income of a trust is taxed to a person other than the grantor to the extent that he has the sole power to vest corpus or income in himself.

(b) Sections 671–677 do not apply if the income of a trust is taxable to a grantor's spouse under section 71 or 682 (relating respectively to alimony and separate maintenance payments, and the income of an estate or trust in the case of divorce, etc.).

(c) Except as provided in sections 671–678 (subpart E), income of a trust is not included in computing the taxable income and credits of a grantor or another person solely on the grounds of his dominion and control over the trust. However, the provisions of sections 671–678 do not apply in situations involving an assignment of future income, whether or not the assignment is to a trust. Thus,

for example, a person who assigns his right to future income under an employment contract may be taxed on that income even though the assignment is to a trust over which the assignor has retained none of the controls specified in sections 671–677. Similarly, a bondholder who assigns his right to interest may be taxed on interest payments even though the assignment is to an uncontrolled trust. Nor are the rules as to family partnerships affected by the provisions of sections 671–678. Likewise, these sections have no application in determining the right of a grantor to deductions for payments to a trust under a transfer and leaseback arrangement. In addition, the limitation of the last sentence of section 671 does not prevent any person from being taxed on the income of a trust when it is used to discharge his legal obligation. See § 1.662 (a)–4. He is then treated as a beneficiary under sections 641–668 (subparts A through D) or treated as an owner under section 677 or 678 because the income is distributed for his benefit, and not because of his dominion or control over the trust.

(d) For the effective date of sections 671–678 (subpart E) see section 683 and the regulations thereunder.

§ 1.671–2 *Applicable principles.* (a) Under section 671 a grantor or another person includes in computing his taxable income and credits those items of income, deduction, and credit against tax which are attributable to or included in any portion of a trust of which he is treated as the owner. Sections 673–678 set forth the rules for determining when the grantor or another person is treated as the owner of any portion of a trust. The rules for determining the items of income, deduction, and credit against tax that are attributable to or included in a portion of the trust are set forth in § 1.671–3.

(b) Since the principle underlying sections 671–678 (subpart E) is in general that income of a trust over which the grantor or another person has retained substantial dominion or control should be taxed to the grantor or other person rather than to the trust which receives the income or to the beneficiary to whom the trust may distribute it, it is ordinarily immaterial whether the income involved constitutes income or corpus for trust accounting purposes. Accordingly, when it is stated in the regulations under subpart E that "income" is attributed to the grantor or another person, the reference, unless specifically limited, is to income determined for tax purposes and not to income for trust accounting purposes. When it is intended to emphasize that income for trust accounting purposes is meant, the phrase "ordinary income" is used.

(c) An item of income, deduction, or credit included in computing the taxable income and credits of a grantor or another person under section 671 is treated as if it had been received or paid directly by the grantor or other person. For example, a charitable contribution made by a trust which is attributed to the grantor (an individual) under sections 671–677 will be aggregated with his other charitable contributions to determine their deductibility under the limitations of section 170 (b) (1). Likewise, dividends received by a trust from sources in a particular foreign country which are attributed to a grantor or another person under sections 671–678 (subpart E) will be aggregated with his other income from sources within that country to determine whether the taxpayer is subject to the limitations of section 904 with respect to credit for the tax paid to that country.

(d) Items of income, deduction, and credit not attributed to or included in any portion of a trust of which the grantor or another person is treated as the owner under sections 671–678 (subpart E) are subject to the provisions of sections 641–668 (subparts A through D of subchapter J).

(e) The term "grantor" as used in the regulations under subpart E includes a corporation.

§ 1.671–3 *Attribution or inclusion of income, deductions, and credits against tax.* (a) When a grantor or another person is treated under sections 671–678 (subpart E) as the owner of any portion of a trust, there are included in computing his tax liability those items of income, deduction, and credit against tax attributable to or included in that portion. For example—

(1) If a grantor or another person is treated as the owner of an entire trust (corpus as well as income), he takes into account in computing his current tax liability all items of income, deduction, and credit (including capital gains and losses) to which he would have been entitled had the trust not been in existence during the period he is treated as owner.

(2) If the portion treated as owned consists of specific trust property and its income, all items directly related to that property are attributable to the portion. Items directly related to trust property not included in the portion treated as owned by the grantor or other person are governed by the provisions of sections 641–668 (subparts A through D). Items that relate both to the portion treated as owned by the grantor and to the balance of the trust must be apportioned in a manner that is reasonable in the light of all the circumstances of each case, including the terms of the governing instrument, local law, and the practice of the trustee if it is reasonable and consistent.

(3) If the portion of a trust treated as owned by a grantor or another person consists of an undivided fractional interest in the trust, or of an interest represented by a dollar amount, a pro rata share of each item of income, deduction, and credit is normally allocated to the portion. The share not treated as owned by the grantor or other person is governed by the provisions of sections 641–668 (subparts A through D).

(4) If a grantor or another person is treated as the owner of a portion of a trust, that portion may or may not include both ordinary income and other income allocable to corpus. For example—

(i) Only ordinary income is included by reason of an interest in or a power over ordinary income alone. Thus, if a grantor is treated under section 673 as an owner by reason of a reversionary interest in ordinary income only, items of income, deduction, and credit allocable to corpus (determined as provided in paragraph (b) of this section) will not be included in the portion he is treated as owning. Similarly, if a grantor or another person is treated under sections 674–678 as an owner of a portion by reason of a power over ordinary income only, items of income, deduction, and credit allocable to corpus are not included in that portion.

(ii) Only income allocable to corpus is included by reason of an interest in or a power over corpus alone, if satisfaction of the interest or an exercise of the power will not result in an interest in or the exercise of a power over ordinary income which would itself cause that income to be included. For example, if a grantor has a reversionary interest in a trust which is not such as to require that he be treated as an owner under section 673, he may nevertheless be treated as an owner under section 677 (a) (2) since any income allocable to corpus is accumulated for future distribution to him, but items of income, deduction, and credit included in determining ordinary income are not included in the portion he is treated as owning. Similarly, he may have a power over corpus which is such that he is treated as an owner under section 674 or 676 (a), but ordinary income will not be included in the portion he owns, if his power can only affect income received after a period of time such that he would not be treated as an owner of the income if the power were a reversionary interest.

(iii) Both ordinary income and other income allocable to corpus are included by reason of an interest in or a power over both ordinary income and corpus, or an interest in or a power over corpus alone which does not come within the provisions of the preceding paragraph. For example, if a grantor is treated under section 673 as the owner of a portion of a trust by reason of a reversionary interest in corpus, both ordinary income and other income allocable to corpus are included in the portion. Further, a grantor includes both ordinary income and other income allocable to corpus in the portion he is treated as owning if he is treated under section 674 or 676 as an owner because of a power over corpus which can affect income received within a period such that he would be treated as an owner under section 673 if the power were a reversionary interest. Similarly, a grantor or another person includes both ordinary income and other income allocable to corpus in the portion he is treated as owning if he is treated as an owner under section 675 or 678 because of a power over corpus.

(b) If only income allocable to corpus is included in computing the grantor's tax liability, he will take into account in that computation only those items of income, deduction, and credit which would not be included under sections 641–668 (subparts A through D) in the computation of the tax liability of the current income beneficiaries if all distributable net income had actually been distributed to those beneficiaries. On the other hand, if the grantor or another person is treated as an owner solely because of his power over or right to ordinary income, he will take into account in computing his tax liability those items which would be included in computing the tax liability of a current income beneficiary, including expenses allocable to corpus which enter into the computation of distributable net income. If the grantor is treated as an owner because of his power over or rights to a dollar amount of ordinary income, he will first take into account a portion of those items of income and expense entering into the computation of ordinary income under the trust instrument or local law sufficient to produce income of the dollar amount required. There will then be attributable to him a pro rata portion of other items entering into the computation of distributable net income under sections 641–668 (subparts A through D), such as expenses allocable to corpus, and pro rata portion of credits of the trust. For examples of computation under this paragraph see § 1.677 (a)–1 (g).

§ 1.671–4 *Method of reporting.* Items of income, deduction, and credit attributable to any portion of a trust which, under the provisions of sections 671–678 (subpart E) are treated as owned by the grantor or another person should not be reported by the trust on Form 1041, but should be shown on a separate statement to be attached to that form.

§ 1.672 (a) *Statutory provisions; estates and trusts; grantors and others treated as substantial owners; definition of adverse party.*

SEC. 672. *Definitions and rules*—(a) *Adverse party.* For purposes of this subpart, the term "adverse party" means any person having a substantial beneficial interest in the trust which would be adversely affected by the exercise or nonexercise of the power which he possesses respecting the trust. A person having a general power of appointment over the trust property shall be deemed to have a beneficial interest in the trust.

§ 1.672 (a)–1 *Definition of adverse party.* Under section 672 (a) an adverse party is defined as any person having a substantial beneficial interest in a trust which would be adversely affected by the exercise or nonexercise of a power which he possesses respecting the trust. A person having a general power of appointment over the trust property is deemed to have a beneficial interest in the trust. A trustee is not an adverse party merely because of his interest as trustee. Ordinarily, a beneficiary will be an adverse party, but if his right to share in the income or corpus of a trust is limited to only a part, he may be an adverse party only as to that part. Thus, if A, B, C, and D are equal income beneficiaries of a trust and the grantor can revoke with A's consent, the grantor is treated as the owner of a portion which represents three-fourths of the trust; and items of income, deduction, and credit attributable to that portion are included in determining the tax of the grantor. A person may have a substantial beneficial interest in a trust which would be adversely affected by the exercise or nonexercise of one type of power that he possesses but which would not be adversely affected by the exercise or nonexercise of another type of power. Accordingly, he may be an adverse party as to one power and nonadverse as to another. For example, if a grantor creates a trust which provides for income to be distributed equally to three beneficiaries for 10 years and then for the corpus to go to X, a power exercisable by X to revest corpus in the grantor is a power exercisable by an adverse party; however, a power exercisable by X to distribute part or all of the ordinary income to the grantor may be a power exercisable by a nonadverse party (which would cause the ordinary income to be taxed to the grantor).

§ 1.672 (b) *Statutory provisions; estates and trusts; grantors and others treated as substantial owners; definition of nonadverse party.*

SEC. 672. *Definitions and rules.* • • •

(b) *Nonadverse party.* For purposes of this subpart, the term "nonadverse party" means any person who is not an adverse party.

§ 1.672 (b)–1 *Nonadverse party.* A "nonadverse party" is any person who is not an adverse party.

§ 1.672 (c) *Statutory provisions estates and trusts; grantors and others treated as substantial owners; definition of related or subordinate party.*

SEC. 672. *Definitions and rules.* • • •

(c) *Related or subordinate party.* For purposes of this subpart, the term "related or subordinate party" means any nonadverse party who is—

(1) The grantor's spouse if living with the grantor;

(2) Any one of the following: The grantor's father, mother, issue, brother or sister; an employee of the grantor; a corporation or any employee of a corporation in which the stock holdings of the grantor and the trust are significant from the viewpoint of voting control; a subordinate employee of a corporation in which the grantor is an executive.

For purposes of sections 674 and 675, a related or subordiante party shall be presumed to be subservient to the grantor in respect of the exercise or nonexercise of the powers conferred on him unless such party is shown not to be subservient by a preponderance of the evidence.

§ 1.672 (c)–1 *Related or subordinate party.* Section 672 (c) defines the term "related or subordinate party." The term, as used in sections 671–677, means any nonadverse party who is the grantor's spouse if living with the grantor; the grantor's father, mother, issue, brother or sister; an employee of the grantor; a corporation or any employee of a corporation in which the stock holdings of the grantor and the trust are significant from the viewpoint of voting control; or a subordinate employee of a corporation in which the grantor is an executive. For purposes of sections 674 (c) and 675 (3), these persons are presumed to be subservient to the grantor in respect of the exercise or nonexercise of the powers conferred on them unless shown not to be subservient by a preponderance of the evidence.

§ 1.672 (d) *Statutory provisions; estates and trusts; grantors and others treated as substantial owners; rule where power is subject to condition precedent.*

SEC. 672. *Definitions and rules.* • • •

(d) *Rule where power is subject to condition precedent.* A person shall be considered to have a power described in this subpart even though the exercise of the power is subject to a precedent giving of notice or takes effect only on the expiration of a certain period after the exercise of the power.

§ 1.672 (d)–1 *Power subject to condition precedent.* Section 672 (d) provides that a person is considered to have a power described in sections 671–678 even though the exercise of the power is subject to a precedent giving of notice or takes effect only after the expiration of a certain period of time. However, although a person may be considered to have such a power, the grantor will nevertheless not be treated as an owner by reason of the power if its exercise can only affect beneficial enjoyment of income received after the expiration of a period of time such that, if the power were a reversionary interest, he would not be treated as an owner under section 673. See sections 674 (b) (2), 676 (b), and the last sentence of section 677 (a). Thus, for example, if a grantor creates a trust for the benefit of his son and retains a power to revoke which takes effect only after the expiration of 2 years from the date of exercise, he is treated as an owner from the inception of the trust. However, if the grantor retains a power to revoke, exercisable at any time, which can only affect the beneficial enjoyment of the ordinary income of a trust received after the expiration of 10 years commencing with the date of the transfer in trust, or after the death of the income beneficiary, the power does not cause him to be treated as an owner with respect to ordinary income during the first 10 years of the trust or during the income beneficiary's life, as the case may be. See section 676 (b).

§ 1.673 (a) *Statutory provisions; estates and trusts; grantors and others treated as substantial owners; reversionary interests.*

SEC. 673. *Reversionary interests*—(a) *General rule.* The grantor shall be treated as the owner of any portion of a trust in which he has a reversionary interest in either the corpus or the income therefrom if, as of the inception of that portion of the trust, the interest will or may reasonably be expected to take effect in possession or enjoyment within 10 years commencing with the date of the transfer of that portion of the trust.

§ 1.673 (a)–1 *Reversionary interests; income payable to beneficiaries other than certain charitable organizations; general rule.* (a) Under section 673 (a), a grantor, in general, is treated as the owner of any portion of a trust in which he has a reversionary interest in either the corpus or income if, as of the inception of that portion of the trust, the grantor's interest will or may reasonably be expected to take effect in possession or enjoyment within 10 years commenc-

ing with the date of transfer of that portion of the trust. However, the following types of reversionary interests are excepted from the general rule of the preceding sentence:

(1) A reversionary interest after the death of the income beneficiary of a trust (see paragraph (b) below); and

(2) A reversionary interest in a charitable trust meeting the requirements of section 673 (b) (see § 1.673 (b)–1).

Even though the duration of the trust may be such that the grantor is not treated as owner under section 673, and therefore is not taxed on the ordinary income, he may nevertheless be treated as an owner under section 677 (a) (2) if he has a reversionary interest in the corpus. In the latter case, items of income, deduction, and credit allocable to corpus, such as capital gains and losses, will be included in the portion he owns. See § 1.671–3 and the regulations under section 677.

(b) The grantor is not treated as the owner of any portion of a trust by reason of section 673 if his reversionary interest in the portion is not to take effect in possession or enjoyment until the death of the person or persons to whom the income of the portion is payable, regardless of the life expectancies of the income beneficiaries. If his reversionary interest is to take effect on or after the death of an income beneficiary or upon the expiration of a specific term of years, whichever is earlier, the grantor is treated as the owner if the specific term of years is less than 10 years (but not if the term is 10 years or longer).

(c) Where the grantor's reversionary interest in a portion of a trust is to take effect in possession or enjoyment by reason of some event other than the expiration of a specific term of years or the death of the income beneficiary, the grantor is treated as the owner of the portion if the event may reasonably be expected to occur within 10 years from the date of transfer of that portion, but he is not treated as the owner under section 673 if the event may not reasonably be expected to occur within 10 years from that date. For example, if the reversionary interest in any portion of a trust is to take effect on or after the death of the grantor (or any person other than the person to whom the income is payable) the grantor is treated under section 673 as the owner of the portion if the life expectancy of the grantor (or other person) is less than 10 years on the date of transfer of the portion, but not if the life expectancy is 10 years or longer. If the reversionary interest in any portion is to take effect on or after the death of the grantor (or any person other than the person to whom the income is payable) or upon the expiration of a specific term of years, whichever is earlier, the grantor is treated as the owner of the portion if on the date of transfer of the portion either the life expectancy of the grantor (or other person) or the specific term is less than 10 years; however, if both the life expectancy and the specific term are 10 years or longer the grantor is not treated as the owner of the portion under section 673. Similarly, if the grantor has a reversionary interest in any portion which will take effect at the death of the income beneficiary or the grantor, whichever is earlier, the grantor is not treated as an owner of the portion unless his life expectancy is less than 10 years.

(d) It is immaterial that a reversionary interest in corpus or income is subject to a contingency if the reversionary interest may, taking the contingency into consideration, reasonably be expected to take effect in possession or enjoyment within 10 years. For example, the grantor is taxable where the trust income is to be paid to the grantor's son for 3 years, and the corpus is then to be returned to the grantor if he survives that period, or to be paid to the grantor's son if he is already deceased.

(e) See section 671 and §§ 1.671–2 and 1.671–3 for rules for treatment of items of income, deduction, and credit when a person is treated as the owner of all or only a portion of a trust.

§ 1.673 (b) *Statutory provisions; estates and trusts; grantors and others treated as substantial owners; charitable beneficiaries.*

SEC. 673. *Reversionary interests.* • • •

(b) *Exception where income is payable to charitable beneficiaries.* Subsection (a) shall not apply to the extent that the income of a portion of a trust in which the grantor has a reversionary interest is, under the terms of the trust, irrevocably payable for a period of at least 2 years (commencing with the date of the transfer) to a designated beneficiary, which beneficiary is of a type described in section 170 (b) (1) (A) (i), (ii), or (iii).

§ 1.673 (b)–1 *Income payable to charitable beneficiaries.* (a) Pursuant to section 673 (b) a grantor is not treated as an owner of any portion of a trust under section 673, even though he has a reversionary interest which will take effect within 10 years, to the extent that, under the terms of the trust, the income of the portion is irrevocably payable for a period of at least 2 years (commencing with the date of the transfer) to a designated beneficiary of the type described in section 170 (b) (1) (A) (i), (ii), or (iii); that is, to a church or a convention or association of churches, or to certain educational organizations or hospitals. For definition of these terms see the regulations under section 170.

(b) The income must be irrevocably payable to a single designated beneficiary for at least 2 years commencing with the date of the transfer before the benefit of section 673 (b) will apply. Thus, section 673 (b) will not apply if income of a trust is irrevocably payable to University A for 1 year and then to University B for the next year; or if income of a trust may be allocated among two or more charitable beneficiaries in the discretion of the trustee or any other person.

(c) Section 673 (b) applies to the period of 2 years or longer during which income is paid to a designated beneficiary of the type described in section 170 (b) (1) (A) (i), (ii), or (iii), even though the trust term is to extend beyond that period. However, the other provisions of section 673 apply to the part of the trust term, if any, that extends beyond that period. This paragraph may be illustrated by the following example:

*Example.* G transfers property in trust with the ordinary income payable to University C (which qualifies under section 170 (A) (1) (A) (ii)) for 3 years, and then to his son, B, for 5 years. At the expiration of the term the trust reverts to G. G is not taxed under section 673 on the trust income payable to University C for the first 3 years because of the application of section 673 (b). However, he is taxed on income for the next 5 years because he has a reversionary interest which will take effect within 10 years commencing with the date of the transfer. On the other hand, if the income were payable to University C for 3 years and then to B for 7 years so that the trust corpus would not be returned to G within 10 years, G would not be taxable under section 673 on income payable to University C and to B during any part of the term.

§ 1.673 (c) *Statutory provisions; estates and trusts; grantors and others treated as substantial owners; reversionary interest taking effect at death of income beneficiary.*

SEC. 673. *Reversionary interests.* • • •

(c) *Reversionary interest taking effect at death of income beneficiary.* The grantor shall not be treated under subsection (a) as the owner of any portion of a trust where his reversionary interest in such portion is not to take effect in possession or enjoyment until the death of the person or persons to whom the income therefrom is payable.

§ 1.673 (c)–1 *Reversionary interest after income beneficiary's death.* The subject matter of section 673 (c) is covered in § 1.673 (a)–1 (b).

§ 1.673 (d) *Statutory provisions; estates and trusts; grantors and others treated as substantial owners; postponement of date specified for reacquisition.*

SEC. 673. *Reversionary interests.* • • •

(d) *Postponement of date specified for reacquisition.* Any postponement of the date specified for the reacquisition of possession or enjoyment of the reversionary interest shall be treated as a new transfer in trust commencing with the date on which the postponement is effected and terminating with the date prescribed by the postponement. However, income for any period shall not be included in the income of the grantor by reason of the preceding sentence if such income would not be so includible in the absence of such postponement.

§ 1.673 (d)–1 *Postponement of date specified for reacquisition.* Any postponement of the date specified for the reacquisition of possession or enjoyment of any reversionary interest is considered a new transfer in trust commencing with the date on which the postponement is effected and terminating with the date prescribed by the postponement. However, the grantor will not be treated as the owner of any portion of a trust for any taxable year by reason of the foregoing sentence if he would not be so treated in the absence of any postponement. The rules contained in this section may be illustrated by the following example:

*Example.* G places property in trust for the benefit of his son B. Upon the expiration of 12 years or the earlier death of B the property is to be paid over to G or his estate. After the expiration of 9 years G extends the term of the trust for an additional 2 years. G is considered to have made a new transfer in trust for a term of 5 years (the remaining 3 years of the original transfer plus the 2-year extension). However, he is not treated as the owner of the trust under section 673 for the first 3 years of the new term because he would not be so treated if the term of the trust had not been extended. G is treated as the owner of the trust, however, for the remaining 2 years.

§ 1.674 (a) *Statutory provisions; estates and trusts; grantors and others treated as substantial owners; power to control beneficial enjoyment.*

SEC. 674. *Power to control beneficial enjoyment.*—(a) *General rule.* The grantor shall be treated as the owner of any portion of a trust in respect of which the beneficial enjoyment of the corpus or the income therefrom is subject to a power of disposition, exercisable by the grantor or a nonadverse party, or both, without the approval or consent of any adverse party.

§ 1.674 (a)–1 *Power to control beneficial enjoyment; scope of section 674.* (a) Under section 674, the grantor is treated as the owner of a portion of a trust if the grantor or a nonadverse party has a power, beyond specified limits, to dispose of the beneficial enjoyment of the income or corpus, whether the power is a fiduciary power, a power of appointment, or any other power. Section 674 (a) states in general terms that the grantor is treated as the owner in every case in which he or a nonadverse party can affect the beneficial enjoyment of a portion of a trust, the limitations being set forth as exceptions in subsections (b), (c), and (d) of section 674. These exceptions are discussed in detail in §§ 1.674 (b)–1 through 1.674 (d)–2. Section 674 (b) describes powers which are excepted regardless of who holds them. Section 674 (c) describes additional powers of trustees which are excepted if at least half the trustees are independent, and if the grantor is not a trustee. Section 674 (d) describes a further power which is excepted if it is held by trustees other than the grantor or his spouse (if living with the grantor).

(b) In general terms the grantor is treated as the owner of a portion of a trust if he or a nonadverse party or both has a power to dispose of the beneficial enjoyment of the corpus or income unless the power is one of the following:

(1) *Miscellaneous powers over either ordinary income or corpus.* (i) A power that can only affect the beneficial enjoyment of income (including capital gains) received after a period of time such that the grantor would not be treated as an owner under section 673 if the power were a reversionary interest (section 674 (b) (2));

(ii) A testamentary power held by anyone (other than a testamentary power held by the grantor over accumulated income) (section 674 (b) (3));

(iii) A power to choose between charitable beneficiaries or to affect the manner of their enjoyment of a beneficial interest (section 674 (b) (4));

(iv) A power to allocate receipts and disbursements between income and corpus (section 674 (b) (8)).

(2) *Powers of distribution primarily affecting only one beneficiary.* (i) *A power to distribute corpus* to or for a current income beneficiary, if the distribution must be charged against the share of corpus from which the beneficiary may receive income (section 674 (b) (5) (B));

(ii) *A power to distribute income* to or for a current income beneficiary or to accumulate it either (*a*) if accumulated income must either be payable to the beneficiary from whom it was withheld or as described in § 1.674 (b)–1 (b) (6) section 674 (b) (6)); (*b*) if the power is to apply income to the support of a dependent of the grantor, and the income is not so applied (section 674 (b) (1)); or (*c*) if the beneficiary is under 21 or under a legal disability and accumulated income is added to corpus (section 674 (b) (7)).

(3) *Powers of distribution affecting more than one beneficiary.* A power to distribute corpus or income to or among one or more beneficiaries or to accumulate income, either (i) if the power is held by a trustee or trustees other than the grantor, at least half of whom are independent (section 674 (c)), or (ii) if the power is limited by a reasonably definite standard in the trust instrument, and in the case of a power over income, if in addition the power is held by a trustee or trustees other than the grantor and the grantor's spouse living with the grantor (sections 674 (b) (5) (A) and 674 (d)). (These powers include both powers to "sprinkle" income or corpus among current beneficiaries, and powers to shift income or corpus between current beneficiaries and remaindermen; however, certain of the powers described under subparagraph (2) of this section can have the latter effect incidentally.)

(c) See section 671 and §§ 1.671–2 and 1.671–3 for rules for the treatment of income, deductions, and credits when a person is treated as the owner of all or only a portion of a trust.

§ 1.674 (b) *Statutory provisions; estates and trusts; grantors and others treated as substantial owners; exceptions for certain powers to control beneficial enjoyment.*

SEC. 674. *Power to control beneficial enjoyment.* • • •

(b) *Exceptions for certain powers.* Subsection (a) shall not apply to the following powers regardless of by whom held:

(1) *Power to apply income to support of a dependent.* A power described in section 677 (b) to the extent that the grantor would not be subject to tax under that section.

(2) *Power affecting beneficial enjoyment only after expiration of 10-year period.* A power, the exercise of which can only affect the beneficial enjoyment of the income for a period commencing after the expiration of a period such that a grantor would not be treated as the owner under section 673 if the power were a reversionary interest; but the grantor may be treated as the owner after the expiration of the period unless the power is relinquished.

(3) *Power exercisable only by will.* A power exercisable only by will, other than a power in the grantor to appoint by will the income of the trust where the income is accumulated for such disposition by the grantor or may be so accumulated in the discretion of the grantor or a nonadverse party, or both, without the approval or consent of any adverse party.

(4) *Power to allocate among charitable beneficiaries.* A power to determine the beneficial enjoyment of the corpus or the income therefrom if the corpus or income is irrevocably payable for a purpose specified in section 170 (c) (relating to definition of charitable contributions).

(5) *Power to distribute corpus.* A power to distribute corpus either—

(A) To or for a beneficiary or beneficaries or to or for a class of beneficiaries (whether or not income beneficiaries) provided that the power is limited by a reasonably definite standard which is set forth in the trust instrument; or

(B) To or for any current income beneficiary, provided that the distribution of corpus must be chargeable against the proportionate share of corpus held in trust for the payment of income to the beneficiary as if the corpus constituted a separate trust.

A power does not fall within the powers described in this paragraph if any person has a power to add to the beneficiary or beneficiaries or to a class of beneficiaries designated to receive the income or corpus, except where such action is to provide for after-born or after-adopted children.

(6) *Power to withhold income temporarily.* A power to distribute or apply income to or for any current income beneficiary or to accumulate the income for him, provided that any accumulated income must ultimately be payable—

(A) To the beneficiary from whom distribution or application is withheld, to his estate, or to his appointees (or persons named as alternate takers in default of appointment) provided that such beneficiary possesses a power of appointment which does not exclude from the class of possible appointees any person other than the beneficiary, his estate, his creditors, or the creditors of his estate, or

(B) On termination of the trust, or in conjunction with a distribution of corpus which is augmented by such accumulated income, to the current income beneficiaries in shares which have been irrevocably specified in the trust instrument.

Accumulated income shall be considered so payable although it is provided that if any beneficiary does not survive a date of distribution which could reasonably have been expected to occur within the beneficiary's lifetime, the share of the deceased beneficiary is to be paid to his appointees or to one or more designated alternate takers (other than the grantor or the grantor's estate) whose shares have been irrevocably specified. A power does not fall within the powers described in this paragraph if any person has a power to add to the beneficiary or beneficiaries or to a class of beneficiaries designated to receive the income or corpus except where such action is to provide for after-born or after-adopted children.

(7) *Power to withhold income during disability of a beneficiary.* A power exercisable only during—

(A) The existence of a legal disability of any current income beneficiary, or

(B) The period during which any income beneficiary shall be under the age of 21 years,

to distribute or apply income to or for such beneficiary or to accumulate and add the income to corpus. A power does not fall within the powers described in this paragraph if any person has a power to add to the beneficiary or beneficiaries or to a class of beneficiaries designated to receive the income or corpus, except where such action is to provide for after-born or after-adopted children.

(8) *Power to allocate between corpus and income.* A power to allocate receipts and disbursements as between corpus and income, even though expressed in broad language.

§ 1.674 (b)–1 *Excepted powers exercisable by any person.* (a) Subparagraphs (1) through (8) of paragraph (b) of this section set forth a number of powers which may be exercisable by any person without causing the grantor to be treated as an owner of a trust under

section 674 (a). Further, with the exception of powers described in subparagraph (1) of paragraph (b) of this section, it is immaterial whether these powers are held in the capacity of trustee. It makes no difference under section 674 (b) that the person holding the power is the grantor, or a related or subordinate party (with the qualifications noted in subparagraphs (1) and (3) of paragraph (b) of this section).

(b) The exceptions referred to in paragraph (a) of this section are as follows:

(1) *Powers to apply income to support of a dependent.* Section 674 (b) (1) provides, in effect, that regardless of the general rule of section 674 (a), the income of a trust will not be considered as taxable to the grantor merely because in the discretion of any person (other than a grantor who is not acting as a trustee or cotrustee) it may be used for the support of a beneficiary whom the grantor is legally obligated to support, except to the extent that it is in fact used for that purpose. See section 677 (b) and the regulations thereunder.

(2) *Powers affecting beneficial enjoyment only after a period.* Section 674 (b) (2) provides an exception to section 674 (a) if the exercise of a power can only affect the beneficial enjoyment of the income of a trust received after a period of time which is such that a grantor would not be treated as an owner under section 673 if the power were a reversionary interest. See §§ 1.673 (a)–1 and 1.673 (b)–1. For example, if a trust created on January 1, 1955, provides for the payment of income to the grantor's son, and the grantor reserves the power to substitute other beneficiaries of income or corpus in lieu of his son on or after January 1, 1965, the grantor is not treated under section 674 as the owner of the trust with respect to ordinary income received before January 1, 1965. But the grantor will be treated as an owner on and after that date unless the power is relinquished. If the beginning of the period during which the grantor may substitute beneficiaries is postponed, the rules set forth in § 1.673 (d)–1 are applicable in order to determine whether the grantor should be treated as an owner during the period following the postponement.

(3) *Testamentary powers.* Under paragraph (3) of section 674 (b) a power in any person to control beneficial enjoyment exercisable only by will does not cause a grantor to be treated as an owner under section 674 (a). However, this exception does not apply to income accumulated for testamentary disposition by the grantor or to income which may be accumulated for such distribution in the discretion of the grantor or a nonadverse party, or both, without the approval or consent of any adverse party. For example, if a trust instrument provides that the income is to be accumulated during the grantor's life and that the grantor may appoint the accumulated income by will, the grantor is treated as the owner of the trust. Moreover, if a trust instrument provides that the income is payable to another person for his life, but the grantor has a testamentary power of appointment over the remainder, and under the trust instrument and local law capital gains are added to corpus, the grantor is treated as the owner of a portion of the trust and capital gains and losses are included in that portion. (See § 1.671–3.)

(4) *Powers to determine beneficial enjoyment of charitable beneficiaries.* Under paragraph (4) of section 674 (b) a power in any person to determine the beneficial enjoyment of corpus or income which is irrevocably payable for a purpose specified in section 170 (c) (relating to definition of charitable contributions) will not cause the grantor to be treated as an owner under section 674 (a). For example, if a grantor creates a trust, the income of which is irrevocably payable solely to educational organizations that qualify under section 170 (c), he is not treated as an owner under section 674 although he retains the power to allocate the income among such organizations.

(5) *Powers to distribute corpus.* Paragraph (5) of section 674 (b) provides an exception to section 674 (a) for powers to distribute corpus, subject to certain limitations. If the power is limited by a reasonably definite standard which is set forth in the trust instrument, it may extend to corpus distributions to or for any beneficiary or beneficiaries or class of beneficiaries (whether or not income beneficiaries) without causing the grantor to be treated as an owner under section 674. (It is not required that the standard consist of needs and circumstances of the beneficiaries.) See section 674 (b) (6) (A). If, however, the power is not limited by a reasonably definite standard set forth in the trust instrument, it will not come within the exception unless it is only exercisable in favor of current income beneficiaries, and unless any corpus distributed to a current income beneficiary must be chargeable to the proportionate part of corpus held in trust for payment of income to that beneficiary as if it constituted a separate trust. See section 674 (b) (5) (B). This subparagraph may be illustrated by the following examples:

*Example (1).* A trust instrument provides for payment of the income to the grantor's two brother for life, and for payment of the corpus to the grantor's nephews in equal shares. The grantor reserves the power to distribute corpus to pay medical expenses that may be incurred by his brothers or nephews. The grantor is not treated as an owner by reason of this power because section 674 (b) (5) (A) excepts a power, exercisable by any person, to invade corpus for any beneficiary, including a remainderman, if the power is limited by a reasonably definite standard which is set forth in the trust instrument.

*Example (2).* The facts are the same as in example (1) except that the grantor reserves the power to distribute any part of the corpus to his brothers or to his nephews for their happiness. The grantor is treated as the owner of the trust. Paragraph (5) (A) of section 674 (b) is inapplicable because the power is not limited by a reasonably definite standard. Paragraph (5) (B) is inapplicable because the power to distribute corpus permits a distribution of corpus to persons other than current income beneficiaries.

*Example (3).* A trust instrument provides for payment of the income to the grantor's two adult sons in equal shares for 10 years, after which the corpus is to be distributed to his grandchildren in equal shares. The grantor reserves the power to pay over to each son up to one-half of the corpus during the 10-year period, but any such payment shall proportionately reduce subsequent income payments made to the son receiving the corpus. Thus, if one-half of the corpus is paid to one son, all the income from the remaining half is thereafter payable to the other son. The grantor is not treated as an owner under section 674 (a) by reason of this power because it qualifies under the exception of section 674 (b) (5) (B).

(6) *Powers to withhold income temporarily.* (i) Section 674 (b) (6) excepts a power which, in general, enables the holder merely to effect a postponement in the time when the ordinary income is enjoyed by a current income beneficiary. Specifically, there is excepted a power to distribute or apply ordinary income to or for a current income beneficiary or to accumulate the income, if the accumulated income must ultimately be payable either—

(*a*) To the beneficiary from whom it was withheld, his estate, or his appointees (or persons named as alternate takers in default of appointment) under a power of appointment held by the beneficiary which does not exclude from the class of possible appointees any person other than the beneficiary, his estate, his creditors, or the creditors of his estate;

(*b*) To the beneficiary from whom it was withheld, or if he does not survive a date of distribution which could reasonably be expected to occur within his lifetime, to his appointees (or alternate takers in default of appointment) under any power of appointment, general or special, or if he has no power of appointment to one or more designated alternate takers (other than the grantor or the grantor's estate) whose shares have been irrevocably specified in the trust instrument; or

(*c*) On termination of the trust, or in conjunction with a distribution of corpus which is augmented by the accumulated income, to the current income beneficiaries in shares which have been irrevocably specified in the trust instrument, or if any beneficiary does not survive a date of distribution which would reasonably be expected to occur within his lifetime, to his appointees (or alternate takers in default of appointment) under any power of appointment, general or special, or if he has no power of appointment to one or more designated alternate takers (other than the grantor or the grantor's estate) whose shares have been irrevocably specified in the trust instrument.

(In the application of (*a*) of this subdivision, if the accumulated income of a trust is ultimately payable to the estate of the current income beneficiary, or is ultimately payable to his appointees, or takers in default of appointment, under a power of the type described in (*a*) of this subdivision, it need not be payable to the beneficiary from whom it was withheld under any circumstances; if the trust otherwise qualifies for the exception in (*a*) of this subdivision the trust income will not be considered to

be taxable to the grantor under section 677 by reason of the existence of the power of appointment referred to in (*a*) of this subdivision.) In general, the exception in section 674 (b) (6) is not applicable if the power is in substance one to shift ordinary income from one beneficiary to another. Thus, a power will not qualify for this exception if ordinary income may be distributed to beneficiary A, or may be added to corpus which is ultimately payable to a remainderman who is not a current income beneficiary. However, section 674 (b) (6) (B), and (c) of this subdivision, permit a limited power to shift ordinary income among current income beneficiaries, as illustrated in example (1) of subdivision (ii) of this subparagraph.

(ii) The application of section 674 (b) (6) may be illustrated by the following examples:

*Example (1).* A trust instrument provides that the income shall be paid in equal shares to the grantor's two adult daughters but the grantor reserves the power to withhold from either beneficiary any part of that beneficiary's share of income and to add it to the corpus of the trust until the younger daughter reaches the age of 30 years. When the younger daughter reaches the age of 30, the trust is to terminate and the corpus is to be divided equally between the two daughters or their estates. Although exercise of this power may permit the shifting of accumulated income from one beneficiary to the other (since the corpus with the accumulations is to be divided equally) the power is excepted under section 674 (b) (6).

*Example (2).* The facts are the same as in example (1), except that the grantor of the trust reserves the power to distribute accumulated income to the beneficiaries in such shares as he chooses. The combined powers are not excepted by section 674 (b) (6) since income accumulated pursuant to the first power is neither required to be payable only in conjunction with a corpus distribution nor required to be payable in shares specified in the trust instrument. See, however, section 674 (c) and § 1.674 (c)–1 for the effect of such a power if it is exercisable only by independent trustees.

*Example (3).* A trust provides for payment of income to the grantor's adult son with the grantor retaining the power to accumulate the income until the grantor's death, when all accumulations are to be paid to the son. If the son predeceases the grantor, all accumulations are, at the death of the grantor, to be paid to his daughter, or if she is not living, to alternate takers (which do not include the grantor's estate) in specified shares. The power is excepted under section 674 (b) (6) since the date of distribution (the date of the grantor's death) may, in the usual case, reasonably be expected to occur during the beneficiary's (the son's) lifetime. It is not necessary that the accumulations be payable to the son's estate or his appointees if he should predecease the grantor for this exception to apply.

(7) *Power to withhold income during disability.* Section 674 (b) (7) provides an exception for a power which, in general, will permit ordinary income to be withheld during the legal disability of an income beneficiary or while he is under 21. Specifically, there is excepted a power, exercisable only during the existence of a legal disability of any current income beneficiary or the period during which any income beneficiary is under the age of 21 years, to distribute or apply ordinary income to or for that beneficiary or to accumulate the income and add it to corpus. To qualify under this exception it is not necessary that the income ultimately be payable to the income beneficiary from whom it was withheld, his estate, or his appointees; that is, the accumulated income may be added to corpus and ultimately distributed to others. For example, the grantor is not treated as an owner under section 674 if the income of a trust is payable to his son for life, remainder to his grandchildren, although he reserves the power to accumulate income and add it to corpus while his son is under 21.

(8) *Powers to allocate between corpus and income.* Paragraph (8) of section 674 (b) provides that a power to allocate receipts and disbursements between corpus and income, even though expressed in broad language, will not cause the grantor to be treated as an owner under the general rule of section 674 (a).

§ 1.674 (c) *Statutory provisions; estates and trusts; grantors and others treated as substantial owners; exception for certain powers of independent trustees.*

SEC. 674. *Power to control beneficial enjoyment.* • • •

(c) *Exception for certain powers of independent trustees.* Subsection (a) shall not apply to a power solely exercisable (without the approval or consent of any other person) by a trustee or trustees, none of whom is the grantor, and no more than half of whom are related or subordinate parties who are subservient to the wishes of the grantor—

(1) To distribute, apportion, or accumulate income to or for a beneficiary or beneficiaries, or to, for, or within a class of beneficiaries; or

(2) To pay out corpus to or for a beneficiary or beneficiaries or to or for a class of beneficiaries (whether or not income beneficiaries).

A power does not fall within the powers described in this subsection if any person has a power to add to the beneficiary or beneficiaries or to a class of beneficiaries designated to receive the income or corpus, except where such action is to provide for after-born or after-adopted children.

§ 1.674 (c)–1 *Excepted powers exercisable only by independent trustees.* Section 674 (c) provides an exception to the general rule of section 674 (a) for certain powers that are exercisable by independent trustees. This exception is in addition to those provided for under section 674 (b) which may be held by any person including an independent trustee. The powers to which section 674 (c) apply are powers (a) to distribute, apportion, or accumulate income to or for a beneficiary or beneficiaries, or to, for, or within a class of beneficiaries, or (b) to pay out corpus to or for a beneficiary or beneficiaries or to or for a class of beneficiaries (whether or not income beneficiaries). In order for such a power to fall within the exception of section 674 (c) it must be exercisable solely by a trustee or trustees none of whom is the grantor and no more than half of whom are related or subordinate parties who are subservient to the wishes of the grantor. (See section 672 (c) for definitions of these terms.) An example of the application of section 674 (c) is a trust whose income is payable to the grantor's three adult sons with power in an independent trustee to allocate without restriction the amounts of income to be paid to each son each year. Such a power does not cause the grantor to be treated as the owner of the trust. See also § 1.674 (d)–2.

§ 1.674 (d) *Statutory provisions; estates and trusts; grantors and others treated as substantial owners; power to allocate income if limited by a standard.*

SEC. 674. *Power to control beneficial enjoyment.* • • •

(d) *Power to allocate income if limited by a standard.* Subsection (a) shall not apply to a power solely exercisable (without the approval or consent of any other person) by a trustee or trustees, none of whom is the grantor or spouse living with the grantor, to distribute, apportion, or accumulate income to or for a beneficiary or beneficiaries, or to, for, or within a class of beneficiaries, whether or not the conditions of paragraph (6) or (7) of subsection (b) are satisfied, if such power is limited by a reasonably definite external standard which is set forth in the trust instrument. A power does not fall within the powers described in this subsection if any person haa a power to add to the beneficiary or beneficiaries or to a class of beneficiaries designated to receive the income or corpus except where such action is to provide for after-born or after-adopted children.

§ 1.674 (d)–1 *Excepted powers exercisable by any trustees other than grantor or spouse.* Section 674 (d) provides an additional exception to the general rule of section 674 (a) for a power to distribute, apportion, or accumulate income to or for a beneficiary or beneficiaries or to, for, or within a class of beneficiaries, whether or not the conditions of section 674 (b) (6) or (7) are satisfied, if the power is exercisable by a trustee or trustees none of whom is the grantor or spouse living with the grantor, and if the power is limited by a reasonably definite external standard set forth in the trust instrument. (It is not required that the standard consist of needs and circumstances of the beneficiaries.)

§ 1.674 (d)–2 *Limitations on exceptions in section 674 (b), (c), and (d)—(a) Power to remove trustee.* The powers specified in section 674 (c) and (d) are not excepted from the general rule of section 674 (a) if they are exercisable by the grantor (whether or not as trustee or cotrustee) or if their exercise by the trustees referred to in those subsections requires the approval or consent of the grantor. For example, a power in an independent trustee to allocate income among a class of beneficiaries will not qualify under section 674 (c) if the grantor has the power to remove the trustee without cause and to substitute any other person, including himself, as trustee.

(b) *Power to add beneficiaries.* The exceptions described in sections 674 (b) (5), (6), and (7), and 674 (c) and (d) are not applicable if any person has a power to add to the beneficiary or beneficiaries or to a class of beneficiaries designated to receive the income or corpus, except where the action is to provide for after-born or after-adopted children. This limitation does not apply to a power held by a beneficiary to substitute other

beneficiaries to succeed to his interest in the trust (so that he would be an adverse party as to the exercise or non-exercise of that power). For example, the limitation does not apply to a power in a beneficiary of a nonspendthrift trust to assign his interest. Nor does the limitation apply to a power held by any person which would qualify as an exception under section 674 (b) (3) (relating to testamentary powers).

§ 1.675 *Statutory provisions; estates and trusts; grantors and others treated as substantial owners; administrative powers.*

SEC. 675. *Administrative powers.* The grantor shall be treated as the owner of any portion of a trust in respect of which—

(1) *Power to deal for less than adequate and full consideration.* A power exercisable by the grantor or a nonadverse party, or both, without the approval or consent of any adverse party enables the grantor or any person to purchase, exchange, or otherwise deal with or dispose of the corpus or the income therefrom for less than an adequate consideration in money or money's worth.

(2) *Power to borrow without adequate interest or security.* A power exercisable by the grantor or a non-adverse party, or both, enables the grantor to borrow the corpus or income, directly or indirectly, without adequate interest or without adequate security except where a trustee (other than the grantor) is authorized under a general lending power to make loans to any person without regard to interest or security.

(3) *Borrowing of the trust funds.* The grantor has directly or indirectly borrowed the corpus or income and has not completely repaid the loan, including any interest, before the beginning of the taxable year. The preceding sentence shall not apply to a loan which provides for adequate interest and adequate security, if such loan is made by a trustee other than the grantor and other than a related or subordinate trustee subservient to the grantor.

(4) *General powers of administration.* A power of administration is exercisable in a nonfiduciary capacity by any person without the approval or consent of any person in a fiduciary capacity. For purposes of this paragraph, the term "power of administration" means any one or more of the following powers: (A) a power to vote or direct the voting of stock or other securities of a corporation in which the holdings of the grantor and the trust are significant from the viewpoint of voting control; (B) a power to control the investment of the trust funds either by directing investments or reinvestments, or by vetoing proposed investments or reinvestments, to the extent that the trust funds consist of stocks or securities of corporations in which the holdings of the grantor and the trust are significant from the viewpoint of voting control; or (C) a power to reacquire the trust corpus by substituting other property of an equivalent value.

§ 1.675–1 *Administrative powers*—(a) *General rule.* Section 675 provides in effect that the grantor is treated as the owner of any portion of a trust if under the terms of the trust instrument or circumstances attendant on its operation administrative control is exercisable primarily for the benefit of the grantor rather than the beneficiaries of the trust. If a grantor retains a power to amend the administrative provisions of a trust instrument which is broad enough to permit an amendment causing the grantor to be treated as the owner of a portion of the trust under section 675, he will be treated as the owner of the portion from its inception. See section 671 and §§ 1.671–2 and 1.671–3 for rules for treatment of items of income, deduction, and credit when a person is treated as the owner of all or only a portion of a trust.

(b) *Prohibited controls.* The circumstances which cause administrative controls to be considered exercisable primarily for the benefit of the grantor are specifically described in paragraphs (1) to (4), inclusive, of section 675, as follows:

(1) The existence of a power, exercisable by the grantor or a nonadverse party, or both, without the approval or consent of any adverse party, which enables the grantor or any other person to purchase, exchange, or otherwise deal with or dispose of the corpus or the income of the trust for less than adequate consideration in money or money's worth. Whether the existence of the power itself will constitute the holder an adverse party will depend on the particular circumstances.

(2) The existence of a power exercisable by the grantor or a nonadverse party, or both, which enables the grantor to borrow the corpus or income of the trust, directly or indirectly, without adequate interest or adequate security. However, this paragraph does not apply where a trustee (other than the grantor) is authorized under a general lending power to make loans to any person without regard to interest or security.

(3) The circumstances that the grantor has directly or indirectly borrowed the corpus or income of the trust and has not completely repaid the loan, including any interest, before the beginning of the taxable year. The preceding sentence does not apply to a loan which provides for adequate interest and adequate security, if it is made by a trustee other than the grantor or a related or subordinate trustee subservient to the grantor. See section 672 (c) for definition of "a related or subordinate party".

(4) The existence of certain powers of administration exercisable in a nonfiduciary capacity by any nonadverse party without the approval or consent of any person in a fiduciary capacity. The term "powers of administration" means one or more of the following powers:

(i) A power to vote or direct the voting of stock or other securities of a corporation in which the holdings of the grantor and the trust are significant from the viewpoint of voting control;

(ii) A power to control the investment of the trust funds either by directing investments or reinvestments, or by vetoing proposed investments or reinvestments, to the extent that the trust funds consist of stocks or securities of corporations in which the holdings of the grantor and the trust are significant from the viewpoint of voting control; or

(iii) A power to reacquire the trust corpus by substituting other property of an equivalent value. If a power is exercisable by a person as trustee, it is presumed that the power is exercisable in a fiduciary capacity primarily in the interests of the beneficiaries. This presumption may be rebutted only by clear and convincing proof that the power is not exercisable primarily in the interests of the beneficiaries. If a power is not exercisable by a person as trustee, the determination of whether the power is exercisable in a fiduciary or a nonfiduciary capacity depends on all the terms of the trust and the circumstances surrounding its creation and administration.

(c) *Authority of trustee.* The mere fact that a power exercisable by a trustee is described in broad language does not indicate that the trustee is authorized to purchase, exchange, or otherwise deal with or dispose of the trust property or income for less than an adequate and full consideration in money or money's worth, or is authorized to lend the trust property or income to the grantor without adequate interest. On the other hand, such authority may be indicated by the actual administration of the trust.

§ 1.676 (a) *Statutory provisions; estates and trusts; grantors and others treated as substantial owners; power to revoke; general rule.*

SEC. 676. *Power to revoke*—(a) *General rule.* The grantor shall be treated as the owner of any portion of a trust, whether or not he is treated as such owner under any other provision of this part, where at any time the power to revest in the grantor title to such portion is exercisable by the grantor or a non-adverse party, or both.

§ 1.676 (a)–1 *Power to revest title to portion of trust property in grantor; general rule.* If a power to revest in the grantor title to any portion of a trust is exercisable by the grantor or a nonadverse party, or both, without the approval or consent of an adverse party, the grantor is treated as the owner of that portion, except as provided in section 676 (b) (relating to powers affecting beneficial enjoyment of income only after the expiration of certain periods of time). See section 671 and §§ 1.671–2 and 1.671–3 for rules for treatment of items of income, deduction, and credit when a person is treated as the owner of all or only a portion of a trust. If the title to a portion of the trust will revest in the grantor upon the exercise of a power by the grantor or a nonadverse party, or both, the grantor is treated as the owner of that portion regardless of whether the power is a power to revoke, to terminate, to alter or amend, or to appoint.

§ 1.676 (b) *Statutory provisions; estates and trusts; grantors and others treated as substantial owners; power to revoke exercisable only after a period of time.*

SEC. 676. *Power to revoke.* • • •

(b) *Power affecting beneficial enjoyment only after expiration of 10-year period.* Subsection (a) shall not apply to a power the exercise of which can only affect the beneficial enjoyment of the income for a period commencing after the expiration of a period such that a grantor would not be treated as the owner under section 673 if the power were a reversionary interest. But the grantor may be treated as the owner after the expiration of such period unless the power is relinquished.

§ 1.676 (b)–1 *Powers exercisable only after a period of time.* Section 676 (b) provides an exception to the general rule of section 676 (a) when the exercise of a power can only affect the beneficial enjoyment of the income of a trust received after the expiration of a period of time which is such that a grantor would not be treated as an owner under section 673 if the power were a reversionary interest. See §§ 1.673 (a)–1 and 1.673 (b)–1. Thus, for example, a grantor is excepted from the general rule of section 676 (a) with respect to ordinary income if exercise of a power to revest corpus in him cannot affect the beneficial enjoyment of the income received within 10 years after the date of transfer of that portion of the trust. It is immaterial for this purpose that the power is vested at the time of the transfer. However, the grantor is subject to the general rule of section 676 (a) after the expiration of the period unless the power is relinquished. Thus, in the above example, the grantor may be treated as the owner and be taxed on all income in the eleventh and succeeding years. If the beginning of the period during which the grantor may revest is postponed, the rules set forth in § 1.673 (d)–1 are applicable to determine whether the grantor should be treated as an owner during the period following the postponement.

§ 1.677 (a) *Statutory provisions; estates and trusts; grantors and others treated as substantial owners; income for benefit of grantor; general rule.*

SEC. 677. *Income for benefit of grantor*—(a) *General rule.* The grantor shall be treated as the owner of any portion of a trust, whether or not he is treated as such owner under section 674, whose income without the approval or consent of any adverse party is, or, in the discretion of the grantor or a nonadverse party, or both, may be—

(1) Distributed to the grantor;

(2) Held or accumulated for future distribution to the grantor; or

(3) Applied to the payment of premiums on policies of insurance on the life of the grantor (except policies of insurance irrevocably payable for a purpose specified in section 170 (c) (relating to definition of charitable contributions)).

This subsection shall not apply to a power the exercise of which can only affect the beneficial enjoyment of the income for a period commencing after the expiration of a period such that the grantor would not be treated as the owner under section 673 if the power were a reversionary interest: but the grantor may be treated as the owner after the expiration of the period unless the power is relinquished.

§ 1.677 (a)–1 *Income for benefit of grantor; general rule.* (a) Section 677 deals with situations in which a grantor of a trust is treated as the owner of a portion of the trust because he has retained an interest in the income from that portion. See section 671 and §§ 1.671–2 and 1.671–3 for rules for treatment of items of income, deduction, and credit when a person is treated as the owner of all or only a portion of a trust.

(b) Under section 677, the grantor is treated in any taxable year as the owner of a portion of a trust (whether or not he is treated as an owner under section 674) of which the income for the taxable year or for a period not coming within the exception described in paragraph (e) of this section is, or in the discretion of the grantor or a nonadverse party, or both (without the approval or consent of any adverse party) may be—

(1) Distributed to the grantor;

(2) Held or accumulated for future distribution to the grantor; or

(3) Applied to the payment of premiums on policies of insurance on the life of the grantor, except policies of insurance irrevocably payable for a charitable purpose specified in section 170 (c).

(c) Therefore, under the general rule of section 677 the grantor is treated as the owner of a portion of a trust if he has retained any interest which might, without the approval or consent of an adverse party, enable him to have the income from the portion, at some time, distributed to him either actually or constructively (subject to the exception described in paragraph (e) of this section). Constructive distribution to the grantor includes payment to another in obedience to his direction and payment of premiums upon policies of insurance on the grantor's life (other than policies of insurance irrevocably payable for charitable purposes). If the grantor strips himself permanently and definitely of every interest described in the first sentence of this paragraph, he is not treated as an owner under section 677 after that divesting.

(d) Under section 677 a grantor is, in general, treated as owner of a portion of a trust whose income is or in the discretion of the grantor or a nonadverse party, or both, may be applied to discharge of a legal obligation of the grantor. However, see § 1.677 (b)–1 for special rules for trusts whose income may not be applied for the discharge of any legal obligation of the grantor other than the support or maintenance of a beneficiary whom the grantor is legally obligated to support.

(e) The last sentence of section 677 (a) provides an exception to the general rule when a discretionary right can only affect the beneficial enjoyment of the income of a trust received after a period of time which is such that a grantor would not be treated as an owner under section 673 if the power were a reversionary interest. See §§ 1.673 (a)–1 and 1.673 (b)–1. For example, if the ordinary income of a trust is payable to B for 10 years and then in the grantor's discretion income or corpus may be paid to B or to the grantor, the grantor is not treated as an owner with respect to ordinary income under section 677 during the first 10 years. He will be treated as an owner under section 677 after the expiration of the 10-year period unless the power is relinquished. If the beginning of the period during which the grantor may substitute beneficiaries is postponed, the rules set forth in § 1.673 (d)–1 are applicable in order to determine whether the grantor should be treated as an owner during the period following the postponement.

(f) However, if income is accumulated in any taxable year for future distribution to the grantor, section 677 (a) (2) treats the grantor as an owner for that taxable year. The exception set forth in the last sentence of section 677 (a) does not apply merely because the grantor must await the expiration of a period of time before he can receive or exercise discretion over previously accumulated income of the trust, even though the period is such that the grantor would not be treated as an owner under section 673 if a reversionary interest were involved. Thus, if income of a trust is to be accumulated for 10 years and then will, or at the discretion of the grantor may be, distributed to the grantor, the grantor is treated as the owner of the trust from its inception.

(g) The application of section 677 (a) may be illustrated by the following examples:

*Example (1).* G creates an irrevocable trust which provides that the ordinary income is to be payable to himself for life and that on his death the corpus shall be distributed to a designated charity. Except for the right to receive income, G retains no right or power which would cause him to be treated as an owner under sections 671–677. Under the applicable local law caiptal gains must be applied to corpus. During the taxable year 1955 the trust has the following items of gross income and deductions:

| | |
|---|---|
| Dividends | $5,000 |
| Capital gain | 1,000 |
| Expenses allocable to income | 200 |
| Expenses allocable to corpus | 100 |

Since G has a right to receive income he is treated as an owner of a portion of the trust under section 677. Accordingly, he should include the $5,000 of dividends, $200 income expense, and $100 corpus expense in the computation of his taxable income for 1955. He should not include the $1,000 capital gain since that is not attributable to the portion of the trust that he owns. (See § 1.671–3. The tax consequences of the capital gain are governed by the provisions of sections 641–668. Had the trust sustained a capital loss in any amount the loss would likewise not be included in the computation of G's taxable income, but would also be governed by the provisions of sections 641–668.

*Example (2).* G creates a trust whose ordinary income is payable to his adult son. Ten years from the date of transfer or on the death of his son, whichever is earlier, corpus is to revert to G. In addition, G retains a discretionary right to receive $5,000 of ordinary income each year. (Absent the exercise of this right all the ordinary income is to be distributed to his son.) G retains no other right or power which would cause him to be treated as an owner under subpart E. Under the terms of the trust instrument and applicable local law capital gains must be applied to corpus. During the taxable year 1955 the trust had the following items of income and deductions:

| | |
|---|---|
| Dividends | $10,000 |
| Capital gain | 2,000 |
| Expenses allocable to income | 400 |
| Expenses allocable to corpus | 200 |

Since the capital gain is held or accumulated for future distributions to G, he is treated under section 677 (a) (2) as an owner of a portion of the trust to which the gain is attributable. Therefore, he must include the capital gain in the computation of his taxable income. (Had the trust sustained a capital loss in any amount, G would likewise include that loss in the computation of his taxable income.) Because of G's discretionary right (whether exercised or not) he is treated as the owner of a portion of the trust which will permit a distribution of income to him of $5,000. Accordingly, G includes dividends of $5,208.33 and income expenses of $208.33 in computing his taxable income, determined in the following manner:

| | |
|---|---|
| Total dividends | $10,000 |
| Less: Expenses allocable to income | 400 |
| Distributable income of the trust | 9,600 |
| Portion of dividends attributable to G (5,000/9,600×$10,000) | 5,208.33 |
| Portion of income expenses attributable to G (5,000/9,600×$400) | 208.33 |
| Amount of income subject to discretionary right | 5,000.00 |

In accordance with § 1.671–3 (b), G also takes into account $104.17 (5,000/9,600×$200) of corpus expenses in computing his tax liability. The portion of the dividends and expenses of the trust not attributable to G are governed by the provisions of sections 641–668 (subparts A through D).

§ 1.677 (b) *Statutory provisions; estates and trusts; grantors and others treated as substantial owners; trusts for support of grantor's dependents.*

SEC. 677. *Income for benefit of grantor.* • • •

(b) *Obligations of support.* Income of a trust shall not be considered taxable to the grantor under subsection (a) or any other provision of this chapter merely because such income in the discretion of another person, the trustee, or the grantor acting as trustee or co-trustee, may be applied or distributed for the support or maintenance of a beneficiary whom the grantor is legally obligated to support or maintain, except to the extent that such income is so applied or distributed. In cases where the amounts so applied or distributed are paid out of corpus or out of other than income for the taxable year, such amounts shall be considered to be an amount paid or credited within the meaning of paragraph (2) of section 661 (a) and shall be taxed to the grantor under section 662.

§ 1.677 (b)–1 *Trusts for support.* (a) Section 677 (b) provides in effect that a grantor is not treated as the owner of a trust merely because its income may in the discretion of any person except the grantor not acting as trustee or cotrustee be applied or distributed for the support or maintenance of a beneficiary, such as the wife or child of the grantor, whom the grantor is legally obligated to support. If income of the current year of the trust is actually so applied or distributed the grantor may be treated as the owner of any portion of the trust under section 677 to that extent, even though it might have been applied or distributed for other purposes.

(b) If any amount applied or distributed for the support of a beneficiary whom the grantor is legally obligated to support is paid out of corpus or out of other than income of the current year, the grantor is treated as a beneficiary of the trust, and the amount applied or distributed is considered to be an amount paid within the meaning of section 662 (a) (2), taxable to the grantor under section 662. Thus, he is subject to the other relevant portions of sections 641–668 (subparts A through D). Accordingly, the grantor may be taxed on an accumulation distribution under sections 665 through 668 (subpart D). The provisions of those sections, including the exceptions in section 665, are applied on the basis that the grantor is the beneficiary.

(c) For the purpose of determining the items of income, deduction, and credit of a trust to be included under this section in computing the grantor's tax liability, the income of the trust for the taxable year of distribution will be deemed to have been first distributed. For example, in the case of a trust reporting on the calendar year basis, a distribution made on January 1, 1956, will be deemed to have been made out of ordinary income of the trust for the calendar year 1956 to the extent of the income for that year even though the trust had received no income as of January 1, 1956. Thus, if a distribution of $10,000 is made on January 1, 1956, for the support of the grantor's dependent and the trust received dividends of $5,000 and incurred expenses of $1,000 during that year but subsequent to January 1, the grantor will be treated as the owner of the trust for 1956. He will take into account dividends of $5,000 and expenses of $1,000 in computing his tax liability for 1956. In addition, the grantor will be treated as a beneficiary of the trust with respect to the $6,000 ($10,000 less distributable income of $4,000 (dividends of $5,000 less expenses of $1,000)) paid out of corpus or out of other than income of the current year. See paragraph (b) of this section.

(d) The exception provided in section 677 (b) relates solely to the satisfaction of the grantor's legal obligation to support or maintain a beneficiary. Consequently, the general rule of section 677 (a) is applicable when in the discretion of the grantor or nonadverse parties income of a trust may be applied in discharge of a grantor's obligations other than his obligation of support or maintenance falling within section 677 (b). Thus, if the grantor creates a trust, the income of which may in the discretion of a nonadverse party be applied in the payment of the grantor's debts, such as the payment of his rent or other household expenses, he is treated as an owner of the trust regardless of whether the income is actually so applied.

(e) The general rule of section 677 (a), and not section 677 (b), is applicable if discretion to apply or distribute income of a trust rests solely in the grantor, or in the grantor in conjunction with other persons, unless in either case the grantor has such discretion as trustee or co-trustee.

(f) The general rule of section 677 (a), and not section 677 (b), is applicable to the extent that income is required, without any discretionary determination, to be applied to the support of a beneficiary whom the grantor is legally obligated to support.

§ 1.678 (a) *Statutory provisions; estates and trusts; grantors and others treated as substantial owners; person other than grantor treated as substantial owner; general rule.*

SEC. 678. *Person other than grantor treated as substantial owner.*—(a) *General rule.* A person other than the grantor shall be treated as the owner of any portion of a trust with respect to which:

(1) Such person has a power exercisable solely by himself to vest the corpus or the income therefrom in himself, or

(2) Such person has previously partially released or otherwise modified such a power and after the release or modification retains such control as would, within the principles of sections 671 to 677, inclusive, subject a grantor of a trust to treatment as the owner thereof.

§ 1.678 (a)–1 *Person other than grantor treated as substantial owner; general rule.* (a) Where a person other than the grantor of a trust has a power exercisable solely by himself to vest the corpus or the income of any portion of a testamentary or inter vivos trust in himself, he is treated under section 678 (a) as the owner of that portion except as provided in subsection 678 (b) (involving taxation of the grantor) and subsection 678 (c) (involving an obligation of support). The holder of such a power also is treated as an owner of the trust even though he has partially released or otherwise modified the power so that he can no longer vest the corpus or income in himself, if he has retained such control of the trust as would, if retained by a grantor, subject the grantor to treatment as the owner under sections 671 to 677, inclusive. See section 671 and §§ 1.671–2 and 1.671–3 for rules for treatment of items of income, deduction, and credit where a person is treated as the owner of all or only a portion of a trust.

(b) Section 678 (a) treats a person as an owner of a trust if he has a power exercisable solely by himself to apply the income or corpus for the satisfaction of his legal obligations, other than an obligation to support a dependent (see § 1.678 (c)–1) subject to the limitation of section 678 (b). Section 678 does not apply if the power is not exercisable solely by himself. However, see § 1.662 (a)–4 for principles applicable to income of a trust which, pursuant to the terms of the trust instrument, is used to satisfy the obligations of a person other than the grantor.

§ 1.678 (b) *Statutory provisions; estates and trusts; grantors and others treated as substantial owners; exception where grantor is taxable.*

SEC. 678. *Person other than grantor treated as substantial owner.* • • •

(b) *Exception where grantor is taxable.* Subsection (a) shall not apply with respect to a power over income, as originally granted or thereafter modified, if the grantor of the trust is otherwise treated as the owner under sections 671 to 677, inclusive.

§ 1.678 (b)–1 *If grantor is treated as the owner.* Section 678 (a) does not apply with respect to a power over income, as originally granted or thereafter modified, if the grantor of the trust is treated as the owner under sections 671 to 677, inclusive.

§ 1.678 (c) *Statutory provisions; estates and trusts; grantors and others treated as substantial owners; trusts for support.*

SEC. 678. *Person other than grantor treated as substantial owner.* • • •

(c) *Obligations of support.* Subsection (a) shall not apply to a power which enables such person, in the capacity of trustee or co-trustee, merely to apply the income of the trust to the support or maintenance of a person whom the holder of the power is obligated to support or maintain except to the extent that such income is so applied. In cases where the amounts so applied or distributed are paid out of corpus or out of other than income of the taxable year, such amounts shall be considered to be an amount paid or credited within the meaning of paragraph (2) of section 661 (a) and shall be taxed to the holder of the power under section 662.

§ 1.678 (c)–1 *Trusts for support.* (a) Section 678 (a) does not apply to a power which enables the holder, in the capacity of trustee or cotrustee, to apply the income of the trust to the support or maintenance of a person whom the holder is obligated to support, except to the extent the income is so applied. See § 1.677 (b)–1 (a) and (b) for applicable principles where any amount is applied for the support or maintenance of a person whom the holder is obligated to support.

(b) The general rule in section 678 (a) (and not the exception in section 678 (b)) is applicable in any case in which the holder of a power exercisable solely by himself is able, in any capacity other than that of trustee or cotrustee, to apply the income in discharge of his obligation of support or maintenance.

§ 1.678 (d) *Statutory provisions; estates and trusts; grantors and others treated as substantial owners; effect of renunciation or disclaimer.*

SEC. 678. *Person other than grantor treated as substantial owner.* • • •

(d) *Effect of renunciation or disclaimer.* Subsection (a) shall not apply with respect to a power which has been renounced or disclaimed within a reasonable time after the holder of the power first became aware of its existence.

§ 1.678 (d)–1 *Renunciation of power.* Section 678 (a) does not apply to a power which has been renounced or disclaimed within a reasonable time after the holder of the power first became aware of its existence.

### GENERAL REGULATIONS UNDER INCOME TAX CONVENTION BETWEEN UNITED STATES AND FINLAND

### NOTICE OF PROPOSED RULE MAKING

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commissioner of Internal Revenue, Attention: T:I, Washington 25, D. C., within the period of thirty days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U. S. C. 7805) and Article XXII of the income tax convention between the United States and Finland proclaimed by the President of the United States on December 22, 1952.

[SEAL] RUSSELL C. HARRINGTON,
*Commissioner of Internal Revenue.*

Sec.
511.101 Introductory.
511.102 Applicable provisions of law.
511.103 Scope of the convention.
511.104 Definitions.
511.105 Industrial and commercial profits.
511.106 Control of a United States enterprise by a Finnish enterprise.
511.107 Income from operation of ships or aircraft.
511.108 Dividends.
511.109 Interest.
511.110 Copyright royalties.
511.111 Real property income and natural resource royalties.
511.112 Government wages, salaries, and pensions.
511.113 Private pensions and life annuities.
511.114 Compensation for labor or personal services.
511.115 Dividends and interest paid by a Finnish corporation.
511.116 Visiting professors or teachers.
511.117 Students or apprentices.
511.118 Credit against United States tax for Finnish tax.
511.119 Exchange of information.
511.120 Double taxation claims.
511.121 Beneficiaries of an estate or trust.
511.122 Members of a partnership.
511.123 Withholding regulations.

§ 511.101 *Introductory.* The income tax convention between the United States and Finland, signed March 3, 1952, and proclaimed by the President of the United States on December 22, 1952, hereinafter referred to as the convention, provides as follows, effective for taxable years beginning on or after January 1, 1952:

ARTICLE I

(1) The taxes referred to in this Convention are:

(a) In the case of the United States of America:

The Federal income tax, including surtaxes and excess profits taxes.

(b) In the case of Finland:

The State (National) income tax.

(2) The present Convention shall also apply to any other taxes of a substantially similar character imposed by either contracting State subsequently to the date of signature of the present Convention.

ARTICLE II

(1) As used in this Convention:

(a) The term "United States" means United States of America, and when used in a geographical sense includes only the States, the Territories of Alaska and Hawaii, and the District of Columbia.

(b) The term "Finland" means the Republic of Finland.

(c) The term "permanent establishment" means a branch office, factory, warehouse or other fixed place of business, but does not include the casual and temporary use of merely storage facilities, nor does it include an agency unless the agent has and exercises a general authority to negotiate and conclude contracts on behalf of an enterprise or has a stock of merchandise from which he regularly fills orders on its behalf. An enterprise of one of the contracting States shall not be deemed to have a permanent establishment in the other State merely because it carries on business dealings in such other State through a bona fide commission agent, broker or custodian acting in the ordinary course of his business as such. The fact that an enterprise of one of the contracting States maintains in the other State a fixed place of business exclusively for the purchase of goods or merchandise shall not of itself constitute such fixed place of business a permanent establishment of such enterprise. The fact that a corporation of one contracting State has a subsidiary corporation which is a corporation of the other State or which is engaged in trade or business in the other State shall not of itself constitute that subsidiary corporation a permanent establishment of its parent corporation.

(d) The term "enterprise" includes every form of undertaking whether carried on by an individual, partnership, corporation, or any other entity.

(e) The term "enterprise of one of the contracting States" means, as the case may be, "United States enterprise" or "Finnish enterprise".

(f) The term "United States enterprise" means an enterprise carried on in the United States by a resident or partnership of the United States or by a United States corporation or other entity; the term "United States corporation or other entity" means a corporation or other entity created or organized in the United States or under the law of the United States or of any State or Territory of the United States.

(g) The term "Finnish enterprise" means an enterprise carried on in Finland by a resident or partnership of Finland or by a Finnish corporation or other entity; the term "Finnish corporation or other entity" means a corporation or other entity created or organized in Finland or under Finnish law.

(h) The term "competent authorities" means, in the case of the United States the Commissioner of Internal Revenue as authorized by the Secretary of the Treasury; and in the case of Finland, the Taxation Department of the Ministry of Finance.

(2) In the application of the provisions of the present Convention by one of the contracting States any term not otherwise defined shall, unless the context otherwise requires, have the meaning which such term has under the tax laws of that State.

ARTICLE III

(1) An enterprise of one of the contracting States shall not be subject to taxation in the other contracting State in respect of its industrial and commercial profits unless it is engaged in trade or business in such other State through a permanent establishment situated therein. If it is so engaged such other State may impose its tax upon the entire income of such enterprise from sources within such other State.

(2) In determining the industrial or commercial profits from sources within the territory of one of the contracting States of an enterprise of the other contracting State, no profits shall be deemed to arise from the mere purchase of goods or merchandise within the territory of the former contracting State by such enterprise. In the determination of the net industrial and commercial profits of the permanent establishment there shall be allowed as deductions all expenses, wherever incurred, reasonably allocable to the permanent establishment, including executive and general administrative expenses so allocable.

(3) Where an enterprise of one of the contracting States is engaged in trade or business in the territory of the other contracting State through a permanent establishment situated therein, there shall be attributed to such permanent establishment the industrial or commercial profits which it might be expected to derive if it were an independent enterprise engaged in the same or similar activities under the same or similar conditions and dealing at arm's length with the enterprise of which it is a permanent establishment and the profits so attributed shall, subject to the law of such other contracting

State, be deemed to be income from sources within the territory of such other contracting State.

(4) The competent authorities of the two contracting States may lay down rules by agreement for the apportionment of industrial and commercial profits.

ARTICLE IV

Where an enterprise of one of the contracting States, by reason of its participation in the management or the financial structure of an enterprise of the other contracting State, makes with or imposes on the latter, in their commercial or financial relations, conditions different from those which would be made with an independent enterprise, any profits which would normally have accrued to one of the enterprises but by reason of those conditions have not so accrued, may be included in the profits of that enterprise and taxed accordingly.

ARTICLE V

(1) Income which an enterprise of one of the contracting States derives from the operation of ships or aircraft registered in that State shall be exempt from taxation in the other contracting State.

(2) The present Convention shall be deemed to have superseded, as of the effective date of this Convention, the arrangement between the United States and Finland providing for relief from double income taxation on shipping profits, effected by exchange of notes dated June 6, 1946, and January 7, 1947.

ARTICLE VI

(1) The rate of United States tax on dividends derived from a United States corporation by a resident or corporation or other entity of Finland, not engaged in trade or business in the United States through a permanent establishment therein, shall not exceed 15 percent: provided that such rate of tax shall not exceed 5 percent if such Finnish corporation controls, directly or indirectly, at least 95 percent of the entire voting power in the corporation paying the dividend, and not more than 25 percent of the gross income of such paying corporation is derived from interest and dividends, other than interest and dividends from its own subsidiary corporation. Such reduction of the rate to 5 percent shall not apply if the relationship of the two corporations has been arranged or is maintained primarily with the intention of securing such reduced rate.

(2) The rate of Finnish tax on dividends derived from a Finnish corporation by a resident or corporation or other entity of the United States, not engaged in trade or business in Finland through a permanent establishment therein, shall not exceed 15 percent: provided that such rate of tax shall not exceed 5 percent if such United States corporation controls, directly or indirectly, at least 95 percent of the entire voting power in the corporation paying the dividend, and not more than 25 percent of the gross income of such paying corporation is derived from interest and dividends, other than interest and dividends from its own subsidiary corporation. Such reduction of the rate to 5 percent shall not apply if the relationship of the two corporations has been arranged or is maintained primarily with the intention of securing such reduced rate. For the purposes of this paragraph the combined Finnish tax on such dividends and the Finnish property tax on the capital stock of a Finnish corporation owned by such resident or corporation of other entity shall not exceed an amount computed at such rates as applied to dividends, if any, so derived.

ARTICLE VII

(1) Interest on bonds, securities, notes, debentures, or on any other form of indebtedness derived from sources within one of the contracting States by a resident or corporation or other entity of the other contracting State, not having a permanent establishment in the former State, shall be exempt from tax by such former State.

(2) Bonds, bank deposits and trade balances beneficially owned by a resident or corporation or other entity of the United States shall be exempt from the Finnish property tax.

ARTICLE VIII

Royalties for the right to use copyrights or in respect of the right to produce or reproduce any literary, dramatic, musical, or artistic work (but not inclusive of rents or royalties in respect of motion picture films) derived from sources within one of the contracting States by a resident or corporation or other entity of the other contracting State, not engaged in trade or business in the former State through a permanent establishment therein, shall be exempt from tax imposed by such former State.

ARTICLE IX

(1) Income from real property (not including interest derived from mortgages and bonds secured by real property) and royalties in respect of the operation of mines, quarries, or other natural resources, shall be taxable only in the contracting State in which such property, mines, quarries, or other natural resources are situated.

(2) A resident or corporation or other entity of one of the contracting States deriving any such income from sources within the other contracting State may, for any taxable year, elect to be subject to the tax of such other contracting State as if such resident or corporation or other entity were engaged in trade or business within such other contracting State through a permanent establishment therein during such taxable year.

ARTICLE X

(1) (a) Wages, salaries and similar compensation and pensions, paid by the United States or by the political subdivisions or territories thereof to an individual (other than a Finnish citizen who is not also a citizen of the United States) shall be exempt from Finnish tax.

(b) Wages, salaries and similar compensation and pensions, paid either directly, or from funds or institutions created, by Finland or by the political subdivisions or communities thereof, to an individual (other than a United States citizen who is not also a citizen of Finland) shall be exempt from United States tax. The term "funds or institutions" shall not be deemed to include a corporation even if such corporation is owned, in whole or in part, by the Government of Finland.

(2) Private pensions and life annuities derived from within one of the contracting States and paid to individuals residing in the other contracting State shall be exempt from taxation in the former State.

(3) The term "pensions", as used in this Article, means periodic payments made in consideration for services rendered or by way of compensation for injuries received.

(4) The term "life annuities" as used in this Article means a stated sum payable periodically at stated times during life, or during a specified number of years, under an obligation to make the payments in return for adequate and full consideration in money or money's worth.

ARTICLE XI

(1) A resident of Finland shall be exempt from United States tax upon compensation for labor or personal services (including the practice of the liberal and artistic professions) if he is temporarily present in the United States for a period or periods not exceeding a total of 183 days during the taxable year and either of the following conditions is met:

(a) His compensation is received for labor or personal services performed as an employee of, or under contract with, a resident, or corporation or other entity of Finland, or

(b) His compensation received for labor or personal services does not exceed $10,000.

(2) The provisions of paragraph (1) of this Article shall apply, mutatis mutandis, to a resident of the United States with respect to compensation for such labor or personal services performed in Finland.

(3) The provisions of this Article shall have no application to the income to which Article X (1) relates.

ARTICLE XII

(1) Dividends and interest paid by a Finnish corporation shall be exempt from United States tax except where the recipient is a citizen, resident or corporation or other entity of the United States.

(2) Dividends and interest paid by a United States corporation shall be exempt from Finnish tax except where the recipient is a resident or corporation or other entity of Finland.

ARTICLE XIII

A professor or teacher, a resident of one of the contracting States, who temporarily visits the territory of the other contracting State for the purpose of teaching for a period not exceeding two years at a university, college, school or other educational institution in the other contracting State, shall be exempted in such other contracting State from tax on his remuneration for such teaching for such period.

ARTICLE XIV

A student or apprentice, a resident of one of the contracting States, who temporarily visits the other contracting State exclusively for the purposes of study or for acquiring business or technical experience shall not be taxable in the latter State in respect of remittances received by him from abroad for the purpose of his maintenance or studies.

ARTICLE XV

(1) It is agreed that double taxation shall be avoided in the following manner:

(a) The United States in determining its taxes specified in Article I of this Convention in the case of its citizens, residents or corporations may, regardless of any other provision of this Convention, include in the basis upon which such taxes are imposed all items of income taxable under the revenue laws of the United States as if this Convention had not come into effect. The United States shall, however, subject to the provisions of section 131, Internal Revenue Code, as in effect on the date of the entry into force of this Convention, deduct from its taxes the amount of Finnish taxes specified in Article I of this Convention.

(b) Finland in determining its taxes specified in Article I of this Convention in the case of its residents or corporations or other entities may, regardless of any other provision of this Convention, include in the basis upon which such taxes are imposed all items of income taxable under the revenue laws of Finland as if this Convention has not come into effect. Finland shall, however, deduct from the taxes so calculated that portion of such tax liability which the taxpayer's income from sources in the United States (not exempt from United States tax under this Convention) bears to the taxpayer's entire income but not in excess of the income tax paid to the United States and to the political subdivisions thereof on or with respect to the income so taxable in the United States.

(2) The provisions of this Article shall not be construed to deny the exemptions from United States tax or Finnish tax, as the case may be, granted by Article X (1) of this Convention.

ARTICLE XVI

The citizens of one of the contracting States shall not, while resident in the other contracting State, be subjected therein to other or more burdensome taxes than are the citizens of such other contracting State residing in its territory. As used in this paragraph,

(a) The term "citizens" includes all legal persons, partnerships, and associations created or organized under the laws in the respective contracting States, and

(b) The term "taxes" means taxes of every kind or description whether nation, Federal, state, communal or municipal.

ARTICLE XVII

The competent authorities of the contracting States shall exchange such information (being information available under the respective taxation laws of the contracting States) as is necessary for carrying out the provisions of the present Convention or for the prevention of fraud or the administration of statutory provisions against tax avoidance in relation to the taxes which are the subject of the present Convention. Any information so exchanged shall be treated as secret and shall not be disclosed to any person other than those concerned with the assessment and collection of the taxes which are the subject of the present Convention. No information shall be exchanged which would disclose any trade secret or trade process.

ARTICLE XVIII

Each of the contracting States may collect taxes, which are the subject of this Convention, imposed by the other contracting State (as though such tax were a tax imposed by the former State) as will ensure that the exemption or reduced rate of tax granted under the present Convention by such other State shall not be enjoyed by persons not entitled to such benefits.

ARTICLE XIX

The State to which application is made for information or assistance shall comply as soon as possible with the request addressed to it except that such State may refuse to comply with the request for reasons of public policy or if compliance would involve violation of a trade, business, industrial, or professional secret or trade process.

ARTICLE XX

Where a taxpayer shows proof that the action of the revenue authorities of the contracting States has resulted in double taxation in his case in respect of any of the taxes to which the present Convention relates, he shall be entitled to lodge a claim with the State of which he is a citizen, or if he is not a citizen of either of the contracting States, with the State of which he is a resident, or, if the taxpayer is a corporation or other entity, with the State in which it is created or organized. Should the claim be upheld, the competent authority of such State may come to an agreement with the competent authority of the other State with a view to equitable avoidance of the double taxation in question.

ARTICLE XXI

(1) The provisions of this Convention shall not be construed to deny or affect in any manner the right of diplomatic and consular officers to other or additional exemptions now enjoyed or which may hereafter be granted to such officers.

(2) The provisions of the present Convention shall not be construed to restrict in any manner any exemption, deduction, credit or other allowance accorded by the laws of one of the contracting States in the determination of the tax imposed by such State.

(3) Should any difficulty or doubt arise as to the interpretation or application of the present Convention, or its relationship to Conventions between one of the contracting States and any other State, the competent authorities of the contracting States may settle the question by mutual agreement.

ARTICLE XXII

(1) The competent authorities of the two contracting States may prescribe regulations necessary to interpret and carry out the provisions of this Convention. With respect to the provisions of this Convention relating to exchange of information and mutual assistance in the collection of taxes, such authorites may, by common agreement, prescribe rules concerning matters of procedure, forms of application and replies thereto, conversion of currency, disposition of amounts collected, minimum amounts subject to collection and related matters.

(2) The competent authorities of the two contracting States may communicate with each other directly for the purpose of giving effect to the provisions of this Convention.

ARTICLE XXIII

(1) The present Convention shall be ratified and the instruments of ratification shall be exchanged at Helsinki as soon as possible. It shall have effect for the taxable years beginning on or after the first day of January of the year in which such exchange takes place.

(2) The present Convention shall continue effective for a period of five years and indefinitely after that period, but may be terminated by either of the contracting States at the end of the five-year period, or at any time thereafter, provided that at least six months' prior notice of termination has been given and, in such event, the present Convention shall cease to be effective for the taxable years beginning on or after the first day of January next following the expiration of the six-month period.

Done at Washington, in duplicate, in the English and Finnish languages, the two texts having equal authenticity, this third day of March, 1952.

For the President of the United States of America:

[SEAL] DEAN ACHESON.

For the President of the Republic of Finland:

[SEAL] JOHAN A. NYKOPP.

PROCLAMATION BY THE PRESIDENT OF THE UNITED STATES DATED DECEMBER 22, 1952

* * * * * *

And whereas the Senate of the United States of America, by their resolution of July 4, 1952, two-thirds of the Senators present concurring therein, did advise and consent to the ratification of the aforesaid convention;

And whereas the aforesaid convention was duly ratified by the President of the United States of America on July 21, 1952, in pursuance of the aforesaid advice and consent of the Senate, and the aforesaid convention was duly ratified on the part of the Republic of Finland;

And whereas the respective instruments of ratification of the aforesaid convention were duly exchanged at Helsinki on December 18, 1952, and a protocol of exchange of instruments of ratification was signed at the place and on that date by the respective Plenipotentiaries of the United States of America and the Republic of Finland;

And whereas it is provided in Article XXIII of the aforesaid convention that the convention shall have effect for the taxable years beginning on or after the first day of January of the year in which the exchange of instruments of ratification takes place;

Now, therefore, be it known that I, Harry S. Truman, President of the United States of America, do hereby proclaim and make public the aforesaid convention to the end that the said convention and each and every article and clause thereof may be observed and fulfilled with good faith by the United States of America and by the citizens of the United States of America and all other persons subject to the jurisdiction thereof.

* * * * * *

§ 511.102 *Applicable provisions of law*—(a) *General.* The Internal Revenue Code of 1954 provides in part as follows:

SUBTITLE A—INCOME TAXES

* * * * * *

SEC. 894. *Income exempt under treaty.* Income of any kind, to the extent required by any treaty obligation of the United States, shall not be included in gross income and shall be exempt from taxation under this subtitle.

* * * * * *

SUBTITLE F—PROCEDURE AND ADMINISTRATION

* * * * * *

SEC. 7805. *Rules and regulations*—(a) *Authorization.* Except where such authority is expressly given by this title to any person other than an officer or employee of the Treasury Department, the Secretary or his delegate shall prescribe all needful rules and regulations for the enforcement of this title, including all rules and regulations as may be necessary by reason of any alteration of law in relation to internal revenue.

(b) *Retroactivity of regulations or rulings.* The Secretary or his delegate may prescribe the extent, if any, to which any ruling or regulation, relating to the internal revenue laws, shall be applied without retroactive effect.

* * * * * *

(b) *Internal Revenue Code of 1939.* Any reference in §§ 511.101 to 511.123 to any provision of the Internal Revenue Code of 1954 shall, where applicable, be deemed also to refer to the corresponding provision of the Internal Revenue Code of 1939.

(c) *Effective date of regulations.* Pursuant to sections 894 and 7805 of the Internal Revenue Code of 1954, Article XXII of the convention, and other provisions of the internal revenue laws, §§ 511.101 through 511.123, are hereby prescribed effective for taxable years beginning on or after January 1, 1952. All regulations inconsistent herewith are modified accordingly.

§ 511.103 *Scope of the convention*—(a) *Purposes of convention.* The primary purposes of the convention, to be accomplished on a reciprocal basis, are to avoid double taxation upon certain items of income derived from sources in one country by residents or corporations or other entities of the other country and to provide for administrative cooperation between the competent tax authorities of the two countries looking to the avoidance of double taxation and the prevention of fiscal evasion.

(b) *Exemption from United States tax.* The following items of income are not included in gross income and are exempt from United States tax for taxable years beginning on or after January 1, 1952, subject to the respective articles of the convention:

(1) Industrial and commercial profits of a Finnish enterprise having no permanent establishment in the United States (Article III);

(2) Income derived by a Finnish enterprise from the operation of ships or aircraft registered in Finland (Article V);

(3) Interest derived by a nonresident alien who is a resident of Finland, or by a Finnish corporation or other entity, if such alien, corporation, or other entity has no permanent establishment in the United States (Article VII);

(4) Copyright royalties, and other like amounts (but not including motion picture film rentals or royalties) derived by a nonresident alien who is a resident of Finland, or by a Finnish corporation or other entity, if such alien, corporation, or other entity has no permanent establishment in the United States (Article VIII);

(5) Compensation and pensions paid by Finland to an alien individual, and to a citizen of Finland who is also a citizen of the United States (Article X);

(6) Private pensions and life annuities paid to a nonresident alien who is a resident of Finland (Article X);

(7) Compensation, subject to certain limitations, for personal services performed in the United States by a nonresident alien who is a resident of Finland (Article XI);

(8) Dividends and interest paid by a Finnish corporation except where the recipient is a citizen, resident, or corporation or other entity of the United States (Article XII);

(9) Remuneration derived from certain teaching in the United States by a professor or teacher who is a nonresident alien residing in Finland (Article XIII); and

(10) Remittances received from abroad for the purpose of maintenance or studies by a student or apprentice, a nonresident alien residing in Finland, who is temporarily present in the United States under specified circumstances (Article XIV).

(c) *Reduced rates of United States tax.* Dividends derived from a domestic corporation by a nonresident alien who is a resident of Finland, or by a Finnish corporation or other entity, are subject to United States tax at reduced rates, if such alien, corporation, or other entity has no permanent establishment in the United States (Article VI).

(d) *United States citizens, residents, and corporations.* (1) Any citizen of Finland who is a resident of the United States is liable to United States tax as though the convention had not come into effect; however, such alien resident of the United States is entitled to a credit against United States tax for Finnish tax in accordance with Article XV and is also entitled to the benefits of Articles X (1), XVI, and XXI.

(2) A citizen of the United States, even though resident in Finland, or a domestic corporation, even though engaged in trade or business in Finland through a permanent establishment situated therein, is liable to United States tax as though the convention had not come into effect but is likewise entitled to a credit against United States tax for Finnish tax and, to the extent applicable, to the benefits of Article X (1).

(e) *Other provisions applicable to Finnish residents and corporations.* Except as otherwise expressly provided by the convention, the United States tax liability of a nonresident alien who is a resident of Finland, or of a Finnish corporation or other entity, is determined in accordance with the provisions of the Internal Revenue Code of 1954 relating to nonresident alien individuals and foreign corporations.

§ 511.104 *Definitions*—(a) *General.* Any term defined in the convention or §§ 511.101 to 511.123 shall have the meaning so assigned to it; any term not so defined shall, unless the context otherwise requires, have the meaning which such term has under the internal revenue laws of the United States.

(b) *Specific terms.* As used in §§ 511.101 to 511.123:

(1) *United States tax.* The term "United States tax" means the Federal income taxes, including surtaxes and excess profits taxes, and any other income or profits tax of a substantially similar character imposed by the United States after March 3, 1952.

(2) *Finnish tax.* The term "Finnish tax" means the State (National) income tax and any other taxes of a substantially similar character imposed by Finland after March 3, 1952.

(3) *United States.* The term "United States" means the United States of America; and, when used in a geographical sense, includes only the States, the Territories of Alaska and Hawaii, and the District of Columbia.

(4) *Finland.* The term "Finland" means the Republic of Finland.

(5) *Permanent establishment* — (i) *Fixed place of business.* The term "permanent establishment" means a branch office, factory, warehouse, or other fixed place of business, but does not include the casual and temporary use of merely storage facilities. It implies the active conduct of a business enterprise. The mere ownership, for example, of timberlands or a warehouse in the United States by a Finnish enterprise does not mean that such enterprise, in the absence of any business activity therein, has a permanent establishment in the United States. The fact that a Finnish enterprise maintains in the United States an office or other fixed place of business used exclusively for the purchase for such enterprise of goods or merchandise shall not of itself constitute such fixed place of business a permanent establishment of such enterprise.

(ii) *Agency.* A Finnish enterprise which has an agency in the United States does not thereby have a permanent establishment in the United States, unless the agent has, and exercises, a general authority to negotiate and conclude contracts on behalf of such enterprise or unless he has a stock of merchandise from which he regularly fills orders on its behalf. If the enterprise has an agent in the United States who has power to contract on its behalf, but only at fixed prices and under conditions determined by such principal, it does not thereby necessarily have a permanent establishment in the United States. The mere fact that an agent of a Finnish enterprise—assuming he has no general authority to negotiate and conclude contracts on behalf of his principal—maintains samples, or occasionally fills orders from incidental stocks of goods maintained, in the United States does not of itself mean that such enterprise has a permanent establishment in the United States. The mere fact that salesmen, employees of a Finnish enterprise, promote the sale of their employer's products in the United States or that a Finnish enterprise transacts business in the United States by means of mail order activities does not mean that such enterprise has a permanent establishment in the United States. A Finnish enterprise shall not be deemed to have a permanent establishment in the United States merely because it carries on business dealings in the United States through a bona fide commission agent, broker, or custodian, acting in the ordinary course of his business as such.

(iii) *Subsidiary corporation.* The fact that a Finnish corporation has a domestic subsidiary corporation, or a foreign subsidiary corporation which is engaged in trade or business in the United States through a permanent establishment situated therein, does not of itself constitute either subsidiary corporation the United States permanent establishment of the Finnish parent corporation.

(6) *Enterprise.* The term "enterprise" means any form of commercial or industrial undertaking carried on by an individual, partnership, corporation, or other entity. It includes such activities as manufacturing, merchandising, mining, processing, banking, and insuring. It does not include the rendition of personal services. Hence a nonresident alien individual who is a resident of Finland and who performs personal services is not, merely by reason of such services, engaged in a Finnish enterprise within the meaning of the convention; consequently, his liability to United States tax is not determined under Article III of the convention, if he has not otherwise carried on a Finnish enterprise.

(7) *United States enterprise.* The term "United States enterprise" means an enterprise carried on in the United States by a resident of the United States, by a partnership of the United States, or by a United States corporation or other entity.

(8) *United States corporation or other entity.* The term "United States corporation or other entity" means a corporation or other entity created or organized in the United States or under the law of the United States or of any State or Territory of the United States.

(9) *Finnish enterprise.* The term "Finnish enterprise" means an enterprise carried on in Finland by a nonresident alien individual who is a resident of Finland, by a partnership of Finland, or by a Finnish corporation or other entity. Thus, an enterprise carried on wholly outside Finland by a Finnish corporation is not a Finnish enterprise within the meaning of the convention.

(10) *Finnish corporation or other entity.* The term "Finnish corporation or other entity" means a corporation or other entity created or organized in Finland or under Finnish law.

(11) *Industrial and commercial profits.* The term "industrial and commercial profits" means profits arising from industrial, commercial, merchantile, manufacturing, and like activities of an enterprise. It does not include investment income such as dividends, interests, rents, or royalties, or remuneration for personal services. In determining the industrial and commercial profits from sources within the United States of a Finnish enterprise, no profits shall be deemed to arise from the mere purchase of goods or merchandise within the United States by such enterprise. Moreover, in determining such profits of the United States permanent establishment of such enterprise, there shall be allowed as deductions all expenses, wherever incurred, which are reasonably allocable to the permanent establishment, including executive and general administrative expenses so allocable. See sections 861 through 864, Internal Revenue Code of 1954, and the regulations thereunder.

(12) *Commissioner.* The term "Commissioner" means the Commissioner of Internal Revenue or his authorized representative.

(13) *Taxation Department of the Ministry of Finance.* The term "Taxation Department of the Ministry of Finance" means the Taxation Department of the Ministry of Finance of Finland.

§ 511.105 *Industrial and commercial profits*—(a) *General.* (1) Article III of the convention adopts the principle that an enterprise of one of the contracting States shall not be taxable by the other contracting State upon its industrial and commercial profits unless it is engaged in trade or business in the latter State through a permanent establishment situated therein. Accordingly, a Finnish enterprise is subject to United States tax upon its industrial and commercial profits, to the extent of such profits from sources within the United States, only if it is engaged in trade or business in the United States at some time during the taxable year through a permanent establishment situated therein.

(2) From the standpoint of the United States tax, the article has application only to a Finnish enterprise and its industrial and commercial profits from sources within the United States. Thus, a nonresident alien individual who is a citizen of Finland, or a Finnish corporation or other entity, carrying on an enterprise which is not Finnish, is subject to tax on such income of such enterprise pursuant to section 871 (c) or section 882 (a), Internal Revenue Code of 1954, if such alien, corporation, or other entity has engaged in trade or business in the United States at any time during the taxable year, even though it has not had a permanent establishment therein at any time within such year.

(b) *No United States permanent establishment.* A Finnish enterprise is not subject to United States tax upon its industrial and commercial profits from sources within the United States, nor shall such profits be included in gross income, if it has not at any time during the taxable year engaged in trade or business in the United States through a permanent establishment situated therein. For example, if during the taxable year an enterprise carried on in Finland by a Finnish corporation were to sell merchandise in the United States through a bona fide commission agent or broker acting in the ordinary course of his business, the profits arising from such sale would not be included in gross income and would be exempt from United States tax, assuming the enterprise does not otherwise have a permanent establishment in the United States. Similarly, if during the taxable year such enterprise were to secure orders in the United States for merchandise through its sales agents whose sole function in the United States is sales promotion, the orders being transmitted to Finland for acceptance, then the profits arising from such sales would not be included in gross income and would be exempt from United States tax.

(c) *United States permanent establishment*—(1) *General.* A Finnish enterprise is subject to United States tax upon its industrial and commercial profits from sources within the United States to the same extent as are nonresident aliens or foreign corporations which are subject to tax pursuant to section 871 (c) or section 882 (a), Internal Revenue Code of 1954, if such enterprise has at any time during the taxable year engaged in trade or business in the United States through a permanent establishment situated therein. If it is so engaged, it is subject to United States tax upon its entire income from sources within the United States except to the extent otherwise exempt from United States tax.

(2) *Allocation of profits.* In the determination of the income taxable to such enterprise for purposes of the United States tax, all industrial and commercial profits from sources within the United States shall be deemed to be allocable to the permanent establishment in the United States. Hence, if a Finnish enterprise which has a permanent establishment in the United States at some time during the taxable year were to sell in the United States, through a bona fide commission agent therein acting in the ordinary course of his business as such, merchandise which has been produced in Finland, the profits arising from such sale would be allocable to the permanent establishment to the extent they are derived from sources within the United States, even though the sale is made independently of the permanent establishment.

(3) *Independent basis.* The industrial and commercial profits of the permanent establishment in the United States shall be determined as if the establishment were an independent enterprise engaged in the same or similar activities under the same or similar conditions and dealing at arm's length, or on an independent basis, with the enterprise of which it is a permanent establishment. Any profits so attributed to such permanent establishment shall, subject to the provisions of the Internal Revenue Code of 1954, be deemed to be income from sources within the United States.

§ 511.106 *Control of a United States enterprise by a Finnish enterprise.* In effect, Article IV of the convention provides that, if a Finnish enterprise, by reason of its control of a United States enterprise, imposes on the latter enterprise conditions different from those which would result from normal business relations between independent enterprises, the accounts between the enterprises shall be adjusted in order to ascertain the true taxable income of each enterprise. The purpose is to place the controlled United States enterprise on a tax parity with an uncontrolled United States enterprise by determining, according to the standard of an uncontrolled enterprise, the true taxable income from the property and business of the controlled enterprise. The basic objective of the article is that, if the accounting records do not truly reflect the taxable income from the property and business of the United States enterprise, the Commissioner shall intervene and, by making such distributions, apportionments, or allocations as he may deem necessary of gross income, deductions, credits, or allowances, or of any item or element affecting taxable income, between the United States enterprise and the Finnish enterprise by which it is controlled or directed, shall determine the true taxable income of the United States enterprise. The provisions of section 482 of the Internal Revenue Code of 1954, and the regulations thereunder, shall, insofar as applicable, be followed in the determination of the taxable income of the United States enterprise.

§ 511.107 *Income from operation of ships or aircraft*—(a) *Exempt from tax.* Under Article V of this convention, so much of the income from sources within the United States of a Finnish enterprise as consists of earnings derived from the operation of ships or aircraft documented or registered in Finland shall not be included in gross income and shall be exempt from United States tax, even though at some time during the taxable year such enterprise has engaged in trade or business in the United States through a permanent establishment situated therein.

(b) *Prior arrangement superseded.* Effective with respect to taxable years beginning on or after January 1, 1952, the convention shall be deemed to have superseded the arrangement between the United States and Finland providing for relief from double income taxation on shipping profits, effected by exchange of notes dated June 6, 1946, and January 7, 1947 [Treaties and Other International Acts Series, No. 1596; 61 Stat. 2671]. Accordingly, while the provisions of Article V are in effect, no exemption from United States tax shall be accorded pursuant to, or by reason of, any agreement effected by the exchange of such notes. This paragraph shall not be construed, however, to restrict any exemption which, without reference to an exchange of notes, is accorded by section 872 (b) and section 883 of the Internal Revenue Code of 1954. See Article XXI (2) of the convention.

§ 511.108 *Dividends*—(a) General. (1) The rate of United States tax im-

posed by the Internal Revenue Code of 1954 upon dividends derived from a domestic corporation by a nonresident alien individual who is a resident of Finland, or by a Finnish corporation or other entity, shall not exceed 15 percent under the provisions of Article VI of the convention, if such alien, corporation, or other entity at no time during the taxable year in which such dividends are derived has engaged in trade or business within the United States through a permanent establishment situated therein.

(2) If, for example, a nonresident alien individual who is a resident of Finland performs personal services within the United States during the taxable year, but has at no time during such year a permanent establishment within the United States, he is entitled to the reduced rate of tax with respect to dividends derived in that year from a domestic corporation, as provided in Article VI of the convention, even though under the provisions of section 871 (c) of the Internal Revenue Code of 1954 he has engaged in trade or business within the United States during such year by reason of his having performed personal services therein.

(b) *Dividends paid by related corporation.* The rate of United States tax imposed by the Internal Revenue Code of 1954 upon dividends derived from a domestic corporation by a Finnish corporation shall not exceed 5 percent under the proviso of Article VI (1) of the convention if:

(1) The Finnish corporation controls, directly or indirectly, at the time the dividend is paid 95 percent or more of the entire voting power in the corporation paying the dividend;

(2) Not more than 25 percent of the gross income of the paying corporation for the three-year period immediately preceding the taxable year in which the dividend is paid consists of dividends and interest (other than dividends and interest received by such paying corporation from its own subsidiary corporations, if any);

(3) The relationship between the paying corporation and the Finnish corporation has not been arranged or maintained primarily with the intention of securing the reduced rate of 5 percent; and

(4) The Finnish corporation at no time during the taxable year in which such dividends are derived has engaged in trade or business within the United States through a permanent establishment situated therein.

(c) *Dividends received from a foreign corporation.* The reduction in the rate of United States tax granted by Article VI (1) of the convention does not apply to dividends received from a foreign corporation which are treated as income from sources within the United States under the provisions of section 861 (a) (2) (B) of the Internal Revenue Code of 1954. However, see the provisions of § 511.115 for the exemption from United States tax applicable to dividends paid by a Finnish corporation.

§ 511.109 *Interest.* (a) Interest on bonds, securities, notes, debentures, or on any other form of indebtedness, which is derived from sources within the United States by a nonresident alien individual who is a resident of Finland, or by a Finnish corporation or other entity, shall not be included in gross income and shall be exempt from United States tax under the provisions of Article VII of the convention, if such alien, corporation, or other entity at no time during the taxable year in which such interest is derived has a permanent establishment in the United States.

(b) Interest on obligations of the United States and instrumentalities thereof, and on mortgages and bonds secured by real property, is included among the items to which this section applies.

§ 511.110 *Copyright royalties.* (a) Royalties for the right to use copyrights or in respect of the right to produce or reproduce any literary, dramatic, musical, or artistic work which are derived from sources within the United States by a nonresident alien individual who is a resident of Finland, or by a Finnish corporation or other entity, shall not be included in gross income and shall be exempt from United States tax under the provisions of Article VIII of the convention if such alien, corporation, or other entity at no time during the taxable year in which such royalties are derived has engaged in trade or business within the United States through a permanent establishment situated therein.

(b) Rents or royalties in respect to motion picture films are not exempt from United States tax under the provisions of Article VIII of the convention.

§ 511.111 *Real property income and natural resource royalties*—(a) *General.* (1) Income of whatever nature derived by a nonresident alien who is a resident of Finland, or by a Finnish corporation or other entity, from real property situated in the United States (including gains derived from the sale or exchange of real property and rentals therefrom) and royalties in respect of the operation of mines, quarries, or other natural resources situated in the United States, is not exempt from United States tax by the convention. Such items of income are subject to taxation under the provisions of the Internal Revenue Code of 1954 generally applicable to the taxation of nonresident alien individuals and foreign corporations. See Article IX (1) of the convention.

(2) This paragraph does not apply to interest derived from mortgages and bonds secured by real property. See paragraph (b) of § 511.109.

(b) *Net basis*—(1) *General.* Notwithstanding the provisions of paragraph (a) of this section, a nonresident alien who is a resident of Finland, or a Finnish corporation or other entity, who during the taxable year derives from sources within the United States any income to which such paragraph applies may elect for such taxable year to be subject to United States tax on a net basis as though such alien, corporation, or other entity were engaged in trade or business in the United States during such year through a permanent establishment situated therein. See Article IX (2) of the convention.

(2) *Manner of electing.* A nonresident alien individual who is a resident of Finland shall signify his election to be subject to tax on such a basis by filing Form 1040B clearly marked at the top of the first page thereof as follows: "Return of Resident of Finland Electing to File on a Net Basis Pursuant to Article IX of Finnish Income Tax Convention." A Finnish corporation shall signify its election to be subject to tax on such a basis by filing Form 1120 clearly marked at the top of the first page thereof as follows: "Return of Finnish Corporation Electing to File on a Net Basis Pursuant to Article IX of Finnish Income Tax Convention." The election so signified shall be irrevocable for the taxable year for which such election is made. All income from sources within the United States, including gains from the sale or exchange of capital assets or of other property, shall be disclosed on the return so filed. See sections 871 and 882 of the Internal Revenue Code of 1954 and the regulations thereunder.

§ 511.112 *Government wages, salaries, and pensions*—(a) *General.* Under Article X of the convention, any wage, salary, or similar compensation, or any pension, paid either directly, or from funds or institutions created, by Finland or by the political subdivisions or communities thereof, to any alien individual (whether or not a resident of the United States) or to any individual who occupies the dual status of a citizen of the United States and a citizen of Finland shall not be included in gross income and shall be exempt from United States tax, even though at some time during the taxable year such individual has engaged in trade or business in the United States through a permanent establishment situated therein. Under Article XV (2) of the convention the exclusion from gross income and exemption from United States tax provided in this section shall not be denied despite the provisions of Article XV. See § 511.118.

(b) *Definition.* As used in this section, the term "pensions" means periodic payments made in consideration for services rendered or by way of compensation for injuries received. The term "funds or institutions" shall not be deemed to include a corporation, even if such corporation is owned, in whole or in part, by the government of Finland.

(c) *Cross reference.* For the taxation generally of compensation of alien employees of foreign governments and the consequences of executing and filing the waiver provided for in section 247 (b) of the Immigration and Nationality Act, see section 893 of the Internal Revenue Code of 1954 and the regulations thereunder.

§ 511.113 *Private pensions and life annuities*—(a) *General.* Private pensions and life annuities derived from sources within the United States and paid to a nonresident alien individual who is a resident of Finland shall not be included in gross income and shall be exempt from United States tax, in accordance with Article X of the convention, even though at some time during the taxable year such individual has engaged in trade or business in the United States through a permanent establishment situated therein.

(b) *Definitions.* As used in this section, the term "pensions" means periodic payments made in consideration for services rendered or by way of compensation for injuries received; and the term "life annuities" means a stated sum payable periodically at stated times during life, or during a specified number of years, under an obligation to make the payments in return for adequate and full consideration in money or money's worth.

§ 511.114 *Compensation for labor or personal services*—(a) *Exemption from tax.* Under Article XI of the convention, compensation received by a nonresident alien individual who is a resident of Finland for labor or personal services, including the practice of the liberal and artistic professions, performed in the United States shall not be included in gross income and shall be exempt from United States tax in either of the following situations:

(1) *Finnish employer.* Where such individual is temporarily present in the United States for a period or periods not exceeding in the aggregate a total of 183 days during a taxable year beginning on or after January 1, 1952, any compensation received by him (irrespective of when received, if received in taxable years beginning on or after January 1, 1952) for such labor or personal services performed in the United States during such year as an employee of, or under contract with, a nonresident alien who is a resident of Finland, or a Finnish corporation or other entity, whether or not such resident, corporation, or other entity is engaged in trade or business within the United States, shall not be included in gross income and shall be exempt from United States tax.

(2) *Other employers.* Where such individual is temporarily present in the United States for a period or periods not exceeding in the aggregate a total of 183 days during a taxable year beginning on or after January 1, 1952, any compensation received by him (irrespective of when received, if received in taxable years beginning on or after January 1, 1952) for such labor or personal services performed in the United States during such year shall not be included in gross income and shall be exempt from United States tax if such compensation does not exceed $10,000 in the aggregate. Thus, if a nonresident alien individual who is a resident of Finland performs personal services in the United States during the taxable year as an employee of a domestic corporation for which he receives compensation of $15,000 in the aggregate, none of such compensation shall be exempt from United States tax even though such individual is present in the United States during such year for a period or periods not exceeding a total of 183 days, since the aggregate compensation received is in excess of $10,000.

(b) *Definition.* For the purposes of this section, the term "compensation for labor or personal services" shall include, but shall not be limited to, the compensation, profits, emoluments or other remuneration of public entertainers, such as stage, motion picture, television, or radio artists, musicians, and athletes. for the allocation or segregation as between sources within, and sources without, the United States in the case of compensation for labor or personal services, see sections 861 through 864, Internal Revenue Code of 1954, and the regulations thereunder.

(c) *Exception.* The provisions of this section have no application to income to which Article X (1) of the convention relates.

§ 511.115 *Dividends and interest paid by a Finnish corporation*—(a) *General*—(1) *Dividends.* A dividend paid by a foreign corporation constitutes, in whole or in part, income from sources within the United States and is subject to tax by the United States when received by a nonresident alien individual or other foreign corporation, if 50 percent or more of the gross income of the paying corporation for the statutory period was derived from sources within the United States. See section 861 (a) (2) (B), section 872 (a), and section 882 (b), Internal Revenue Code of 1954 and the regulations thereunder.

(2) *Interest.* Interest on bonds, notes, and other interest-bearing obligations of resident foreign corporations constitutes, in its entirety, income from sources within the United States and is subject to tax by the United States when received by a nonresident alien individual or other foreign corporation, if 20 percent or more of the gross income of the paying corporation for the statutory period was derived from sources within the United States. See section 861 (a) (1) (B), section 872 (a), and section 882 (b), Internal Revenue Code of 1954 and the regulations thereunder.

(b) *Exemption from United States tax.* Notwithstanding the provisions of paragraph (a) of this section, Article XII (1) of the convention provides that dividends and interest paid by a Finnish corporation shall not be included in gross income and shall be exempt from United States tax except where the recipient is a citizen, resident, or corporation or other entity of the United States. The exemption so provided shall apply even though the corporation paying the dividends or interest is a resident foreign corporation at the time of payment and without regard to the percentage of its gross income from sources within the United States.

§ 511.116 *Visiting professors or teachers*—(a) *General.* Pursuant to Article XIII of the convention, a professor or teacher, a nonresident alien who is a resident of Finland, who temporarily visits the United States for the purpose of teaching for a period not exceeding two years at any university, college, school, or other educational institution situated within the United States shall, for a period not exceeding two years from the date of his initial arrival in the United States, be exempt from United States tax with respect to his remuneration earned in taxable years beginning on or after January 1, 1952, for such teaching during such period.

(b) *More than two years.* The exemption granted by Article XIII is applicable to remuneration earned during such part of the individual's visit as does not exceed two years from the date of arrival even though the total period of his presence in the United States may extend beyond two years, provided that during such entire period he may be considered to be temporarily visiting the United States and that the requirements of paragraph (a) of this section are otherwise satisfied.

(c) *Nonresidence presumed.* An individual who otherwise qualifies for the exemption from United States tax granted by Article XIII shall, for a period of not more than two years immediately succeeding the date of his arrival within the United States for the purpose of such teaching, be deemed to have the tax status of a nonresident alien in the absence of proof of his intention to remain indefinitely in the United States. See section 871 of the Internal Revenue Code of 1954 and the regulations thereunder.

§ 511.117 *Students or apprentices*—(a) *General.* Under Article XIV of the convention, a student, or apprentice, a nonresident alien who is a resident of Finland, who temporarily visits the United States exclusively for the purposes of study or for acquiring business or technical experience shall not include in gross income and shall be exempt from United States tax with respect to amounts derived by him in taxable years beginning on or after January 1, 1952, and received during such years from without the United States as remittances for the purpose of his maintenance or studies.

(b) *Personal services.* The exemption granted by Article XIV of the convention does not apply to amounts received as compensation for labor or personal services.

§ 511.118 *Credit against United States tax for Finnish tax*—(a) *General*—(1) *Taxable as though no convention.* Notwithstanding any other provision of the convention, the United States, in determining the United States tax of a citizen or resident of the United States or of a domestic corporation, may, under Article XV (1) (a) of the convention, include in the basis upon which such tax is imposed all items of income taxable under the revenue laws of the United States, as though the convention had not come into effect. For example, despite the exemption from United States tax granted by Article VIII of the convention with respect to a copyright royalty derived from sources within the United States by a resident of Finland, such royalty shall be included in gross income and is subject to United States tax when so derived by a resident of Finland who is a citizen of the United States, even though such resident has no permanent establishment in the United States.

(2) *Exception.* Notwithstanding the provisions of subparagraph (1) of this paragraph, the exclusion from gross income and exemption from United States tax granted by Article X (1) of the convention with respect to wages, salaries,

and similar compensation, and pensions, paid by Finland or any political subdivisions or communities thereof shall not be denied. See Article XV (2) of the convention.

(b) *Application of credit*—(1) *General.* For the purpose of mitigating double taxation, Article XV (1) (a) of the convention provides that a citizen of the United States, a citizen of Finland who is a resident of the United States, or a domestic corporation, deriving income from sources within Finland shall be allowed a credit against the United States tax for the amount of Finnish tax paid or accrued during the taxable year. This credit shall be made in accordance with the provisions of section 131 of the Internal Revenue Code of 1939 as in effect on December 18, 1952, but subject to the provisions of Article XXI (2) of the convention.

(2) *Similar credit requirement.* By virtue of the provisions of Article XV (1) (b) of the convention, relating to the credit against Finnish tax, Finland satisfies the similar credit requirement set forth in section 901 (b) (3), Internal Revenue Code of 1954, in the case of Finnish citizens residing in the United States, but only with respect to taxes paid to Finland and not with respect to taxes paid to another foreign country. This subparagraph shall not be construed, however, to prevent Finland from otherwise satisfying the similar credit requirement, in accordance with section 901 of the 1954 Code and the regulations thereunder, with respect to taxes paid to another foreign country. Thus, if pursuant to a convention between Finland and another foreign country, Finland were to exempt from its income taxes the income received from sources within such other foreign country by a United States citizen residing in Finland, or were to allow a credit against its income taxes for the income taxes of the other foreign country on such income, then Finland would, in accordance with such regulations under section 901, satisfy the similar credit requirement of section 901 (b) (3) with respect to income taxes paid to such other foreign country by a Finnish citizen residing in the United States.

§ 511.119 *Exchange of information*—(a) *General.* By Articles XVII, XIX and XXII of the convention, the United States and Finland adopt the principle of exchange of such information as is necessary for carrying out the provisions of the convention, preventing fraud, or for the administration of statutory provisions against tax avoidance in relation to the taxes which are the subject of the convention, but not including information which would be contrary to public policy or which would disclose any trade secret or trade process. The information and correspondence relative to exchange of information may be transmitted directly by the Commissioner to the Taxation Department of the Ministry of Finance.

(b) *Return of information by withholding agents.* (1) To facilitate compliance with Article XVII of the convention, every United States withholding agent shall make and file in duplicate with the District Director of Internal Revenue, Baltimore 2, Maryland, an information return on Form 1042 Supplement, with respect to persons having addresses in Finland, which shall be filed for the calendar year 1955 and subsequent calendar years. This return shall be filed simultaneously with Form 1042.

(2) There shall be reported on such Form 1042 Supplement all items of fixed or determinable annual or periodical income (and amounts described in section 402 (a) (2), section 631 (b) and (c), and section 1235 of the Internal Revenue Code of 1954, which are considered to be gains from the sale or exchange of capital assets) derived from sources within the United States and paid to nonresident aliens (including nonresident alien individuals, fiduciaries, and partnerships) and to nonresident foreign corporations, whose addresses at the time of payment were in Finland, including such items of income upon which, in accordance with the withholding regulations under the convention, no withholding of United States tax is required; except that any of such items which constitute interest in respect of which Form 1001–FIN or substitute Form 1001–FIN has been filed in duplicate with the withholding agent is not required to be reported on such Form 1042 Supplement.

(c) *Information to be furnished in ordinary course.* In compliance with the provisions of Article XVII of the convention, the Commissioner will transmit to the Taxation Department of the Ministry of Finance, as soon as practicable after the close of the calendar year 1955 and of each subsequent calendar year during which the convention is in effect, the following information relating to such preceding calendar year:

(1) The duplicate copy of each available Form 1042 Supplement filed pursuant to paragraph (b) of this section; and

(2) The duplicate copy of each available ownership certificate, Form 1001-FIN, and substitute Form 1001-FIN, filed pursuant to the withholding regulations under the convention, in connection with coupon bond interest.

(d) *Information in specific cases.* Under the provisions and limitations of Articles XVII and XIX of the convention and upon request of the Taxation Department of the Ministry of Finance, the Commissioner shall furnish to the Taxation Department information available to, or obtainable by, the Commissioner relative to the tax liability of any person under the revenue laws of Finland in any case in which such information is necessary for carrying out the provisions of the convention, preventing fraud, or administering statutory provisions against tax avoidance in relation to the taxes which are the subject of the convention.

§ 511.120 *Double taxation claims*—(a) *General.* Under Article XX of the convention, where the taxpayer shows proof that the action of the revenue authorities of the United States or Finland has resulted in double taxation contrary to the provisions of the convention, he is entitled to lodge a claim with the country of which he is a citizen; or, if he is not a citizen of either country, with the country of which he is a resident; or, if the taxpayer is a corporation or other entity, with the country in which it is created or organized. The article provides that, should the taxpayer's claim be upheld, the competent authority of the country with which the claim is lodged shall undertake to come to an agreement with the competent authority of the other country with a view to equitable avoidance of the double taxation in question.

(b) *Manner of filing claim.* Such a claim on behalf of a United States citizen, corporation, or other entity, or on behalf of a resident of the United States who is not a Finnish citizen, shall be filed with the Commissioner. The claim shall be set up in the form of a letter addressed to "The Commissioner of Internal Revenue, Washington 25, D. C." and shall show fully all facts and law on the basis of which the claimant alleges that such double taxation has resulted. If the Commissioner determines that there is an appropriate basis for the claim under the convention, he shall take up the matter with the Taxation Department of the Ministry of Finance with a view to arranging an agreement of the character contemplated by Article XX.

§ 511.121 *Beneficiaries of an estate or trust*—(a) *Qualified beneficiary.* If he otherwise satisfies the requirements of the respective articles concerned, a non-resident alien who is a beneficiary of an estate or trust shall be entitled to the exemption from, or reduction in the rate of, United States tax granted by Articles VI, VII, VIII, and XII of the convention with respect to dividends, interest, and copyright royalties and other like amounts, to the extent that (1) any amount paid, credited, or required to be distributed by such estate or trust to such beneficiary is deemed to consist of such items and (2) such items would, without regard to the convention, be includible in his gross income.

(b) *Amounts otherwise includible in gross income of beneficiary.* For the determination of amounts which, without regard to the convention, are includible in the gross income of the beneficiary, see subchapter J of chapter 1 of the Internal Revenue Code of 1954, and the regulations thereunder.

§ 511.122 *Members of a partnership*—(a) *General.* Whether an individual, corporation, or other entity, a member of a partnership, is subject to United States tax upon such person's distributive share of the income of the partnership depends upon both the status of the partnership and the status of the member.

(b) *Citizen partner.* A citizen or resident of the United States, or a domestic corporation, is subject to United States tax upon such person's distributive share of the income of a partnership as though the convention had not come into effect, but subject to the provisions of § 511.118; even though other members, by reason of benefits granted by the convention, are not subject to United States tax upon their distributive share of the income.

(c) *Noncitizen partner.* In any case in which income is derived from sources within the United States by a partnership, any member of such partnership who has a permanent establishment in the United States or who is either (1) a nonresident alien not a resident of Finland or (2) a foreign corporation or other entity which is not Finnish is not entitled, with respect to such member's distributive share of such income, to any benefit granted by the convention solely to nonresident aliens residing in Finland, or to Finnish corporations or other entities, having no permanent establishment in the United States. Conversely, any member of a partnership who individually complies with the requirements for obtaining any such benefit will be entitled thereto with respect to such member's distributive share of such income. A member of a partnership which has a permanent establishment in the United States shall likewise be considered to have a permanent establishment in the United States.

§ 511.123 *Withholding regulations.* For regulations pertaining to the release or refund of excess tax withheld, and to exemption from, or reduction in the rate of, withholding of United States tax at source, in the case of dividends, interest, copyright royalties, private pensions, and life annuities received by a nonresident alien who is a resident of Finland, or by a Finnish corporation or other entity, see Treasury Decision 6030, approved July 10, 1953 (26 CFR (1939) 7.700 through 7.710).

GLENS FALLS INDEMNITY CO.

TERMINATION OF THE AUTHORITY TO QUALIFY AS SURETY ON FEDERAL BONDS

MAY 22, 1956.

Notice is hereby given that the Certificate of Authority issued by the Secretary of the Treasury to the Glens Falls Indemnity Company, Glens Falls, New York, under the provisions of the Act of Congress, approved July 30, 1947, (6 U. S. C. 6–13) to qualify as sole surety on recognizances, stipulations, bonds and undertakings permitted or required by the laws of the United States, was terminated as of April 30, 1956, by request of the Glens Falls Indemnity Company.

The Treasury has obtained from Glens Falls Insurance Company, which holds such a Certificate of Authority from the Secretary of the Treasury, an indemnifying agreement dated April 24, 1956, whereby the Glens Falls Insurance Company has assumed the liability for any losses and claims that have arisen or may arise under or in connection with any bond, undertaking or other form of obligation entered into or assumed by the Glens Falls Indemnity Company on or before April 30, 1956, in which the United States of America has or may have an interest direct or indirect.

Further details with respect to this agreement may be obtained from the Treasury Department, Bureau of Accounts, Surety Bonds Branch, Washington 25, D. C.

## DEPARTMENT OF COMMERCE

### Bureau of Foreign Commerce

[Case No. 211A]

ZEMANEK & CO., LTD., AND FRANZ GINTZ

ORDER DENYING EXPORT PRIVILEGES

In the matter of Zemanek & Co., Ltd., Franz Gintz, Director, 46–47 Chancery Lane, London W. C. 2, England, Respondents, Case No. 211A.

The respondents, Zemanek & Co., Ltd., and Franz Gintz, hereinafter referred to as respondents, having been charged by the Director, Investigation Staff, Bureau of Foreign Commerce, (a) with having participated in exportations during the period in which a prior denial order was in effect, (b) with having made false representations in connection with the obtaining of goods to be exported from the United States, and (c) with having shipped such goods to unauthorized destinations, failed to appear in this proceeding, either by answer or demand for hearing. In accordance with the practice, this case was referred to the Compliance Commissioner. After the evidence was submitted, the Compliance Commissioner in due course made his report and recommendation, which, upon the facts as hereinafter found, appears to be fair and just and is therefore adopted.

Now, after considering the entire record consisting of the charges, the evidence submitted in support of the charges and the report and recommendation of the Compliance Commissioner, I hereby make the following findings of fact.

1. At all times hereinafter mentioned, Zemanek & Co., Ltd., was a firm engaged in the export-import business in London, England and Franz Gintz was its active and controlling director, the latter having personally performed all the acts hereinafter found to have been performed in the name of Zemanek.

2. On the 1st day of September, 1953, Zemanek had been denied, pursuant to an order duly entered and published in the FEDERAL REGISTER, all privileges of participating, directly or indirectly, in any manner or capacity, in the exportation of any commodity from the United States to any foreign destination, for a period of two years from the date of that order. All the acts hereinafter found to have been performed by Zemanek and Gintz were performed during the effective term of said order and prior to the expiration thereof.

3. On or about the 21st day of March, 1955, Zemanek and Gintz ordered from an American supplier ten tons of asbestos fiber and instructed that supplier to export the said asbestos for its account. The American supplier did thereafter, on or about the 15th day of April, 1955, export said ten tons of asbestos for the account of Zemanek.

4. On or prior to the 4th day of July, 1955, Zemanek and Gintz ordered from the same American supplier 515 metric tons of asbestos and directed that the said asbestos be shipped to a specified firm in Hamburg, Germany; Hamburg being named as the port of destination.

5. In compliance with said order, the American firm did thereafter, on or about the 8th day of July, 1955, export the said asbestos to the named consignee in Hamburg, Germany, and, in the export declaration authenticated in connection with such exportation, named said consignee as the purchaser or ultimate consignee and named West Germany as the country of ultimate destination.

6. When the said 515 metric tons of asbestos arrived at Hamburg, the same was transshipped by Zemanek, or caused to be transshipped by it, to Czechoslovakia, in accordance with a contract which Zemanek had arranged with a Czechoslovakian purchaser prior to the time that Zemanek had arranged for its

purchase of the asbestos from the American supplier.

And, from the foregoing, the following are my conclusions:

A. That Zemanek and Gintz participated in exportations of commodities from the United States to a foreign destination during the time when the said respondents had been denied export privileges and that by reason thereof they violated the terms and provisions of the order denying export privileges to them, as well as § 381.6 of the export control regulations;

B. That Zemanek and Gintz caused false representations to be made and facts to be concealed from the Bureau of Foreign Commerce by representing falsely to their American supplier the name of their consignee and the country of destination in violation of § 381.5 of the export control regulations;

C. That Zemanek and Gintz diverted and transshipped, or caused to be diverted and transshipped a commodity exported from the United States, to a party and destination in violation of and contrary to the contents of an export control document and their prior representations to their American supplier in violation of §§ 371.4 and 381.6 of the export control regulations.

In his report the Compliance Commissioner said,

> The earlier denial of license privileges to Zemanek and Gintz for a period of two years apparently has had no corrective influence on these respondents. Not only did they violate in two instances the express terms of that order but the violation in one of the instances involved in this case was very much like the previous violation. The violation consisted of a transshipment to a Communist dominated country. Under the circumstances, it is my recommendation that Zemanek and Gintz be denied export privileges so long as export controls are in effect.

Having concluded that the recommended action is fair, just, and necessary to achieve effective enforcement of the law, it is hereby ordered:

I. Henceforth, and for the duration of export controls, the respondents, Zemanek & Co., Ltd. and Franz Gintz, be, and they hereby are suspended from and denied all privileges of participating, directly or indirectly, in any manner or capacity, in an exportation of any commodity or technical data from the United States to any foreign destination, including Canada, whether such exportation has heretofore or hereafter been completed. Without limitation of the generality of the foregoing denial of export privileges, participation in an exportation is deemed to include and prohibit participation by either respondent, directly or indirectly, in any manner or capacity, (a) as a party or as a representative of a party to any validated export license application, (b) in the obtaining or using of any validated or general export license or other export control documents, (c) in the receiving, ordering, buying, selling, using, or disposing in any foreign country of any commodities in whole or in part exported or to be exported from the United States, and (d) in storing, financing, forwarding, transporting, or other servicing of such exports from the United States.

II. Such denial of export privileges shall extend not only to the respondents, but also to any person, firm, corporation, or business organization with which they may be now or hereafter related by ownership, control, position of responsibility, or other connection in the conduct of trade in which may be involved exports from the United States or services connected therewith.

III. No person, firm, corporation, partnership, or other business organization, whether in the United States or elsewhere shall, without prior disclosure to, and specific authorization from the Bureau of Foreign Commerce, directly or indirectly, in any manner or capacity, (a) apply for, obtain, or use any license, shipper's export declaration, bill of lading, or other export control document relating to any such prohibited activity, (b) order, receive, buy, use, dispose of, finance, transport or forward, any commodity on behalf of or in any association with the respondents, or (c) do any of the foregoing acts with respect to any commodity or exportation in which the respondents may have any interest of any kind or nature, direct or indirect.

Dated: May 21, 1956.

[Case No. 211B]

PHILIP FISHER

ORDER DISMISSING CHARGES OF VIOLATION AND VACATING TEMPORARY DENIAL ORDER

In the matter of Philip Fisher, 63A Great Russell Street, London W. C. 1, England, Respondent, Case No. 211B.

The respondent, Philip Fisher, having been charged with having violated the Export Control Act of 1949, as amended, and the regulations promulgated thereunder, and said respondent having been joined with Zemanek & Co., Ltd. and Franz Gintz in a proceeding arising out of said violations, and the respondent having answered the charges and appeared in the said proceeding which was thereafter duly referred to the Compliance Commissioner, who has heard the evidence and made his report, finding that there is no evidence sufficient to support said charges and that the respondent has resigned his offices in Zemanek & Co., Ltd.: *It is hereby ordered:*

That the charges of violation heretofore made against the respondent Philip Fisher in a charging letter dated December 30, 1955, be, and the same hereby are dismissed and the order temporarily denying export privileges to said respondent, Philip Fisher (20 F. R. 7383, FEDERAL REGISTER, October 4, 1955), be, and the same hereby is vacated as to him alone.

Dated: May 21, 1956.

AGRICULTURAL STABILIZATION AND CONSERVATION COUNTY OFFICE MANAGERS

DELEGATION OF AUTHORITY TO ACT AS CONTRACTING OFFICERS

Pursuant to authority vested in the Executive Vice President, Commodity Credit Corporation, by the bylaws of the Corporation, the respective chairmen, or in their absence the acting chairmen, of the Agricultural Stabilization and Conservation County Committees in the cotton-producing States, or if so designated by such Agricultural Stabilization and Conservation County Committees, the ASC county office managers are hereby appointed contracting officers of Commodity Credit Corporation, with authority to execute, in the name of the Corporation, contracts, agreements, or other documents relating to the purchase, transportation, handling, and storage of cottonseed prior to the delivery of such cottonseed to an oil miller or an approved storage facility under the 1956-Crop Cottonseed Purchase Program formulated by Commodity Credit Corporation and Commodity Stabilization Service.

The foregoing authority as contracting officers shall be exercised in accordance with instructions issued by the appropriate Vice President of Commodity Credit Corporation, which shall be available for public inspection in the files of the Agricultural Stabilization and Conservation county offices in the respective cotton-producing States.

Issued this 18th day of May 1956.

[SEAL] WALTER C. BERGER,
*Acting Executive Vice President,*
*Commodity Credit Corporation.*

## DEPARTMENT OF DEFENSE

### Office of the Secretary

SECRETARY OF THE NAVY

DELEGATION OF AUTHORITY WITH RESPECT TO CERTIFICATION OF SPECIAL PURPOSE VESSELS

The following delegation of authority is promulgated pursuant to the authority vested in me by subsection 202 (f) of the National Security Act, as amended (63 Stat. 581; 5 U. S. C. 171a. (f)), and section 5 of Reorganization Plan No. 6 of 1953 (67 Stat. 638; 5 U. S. C. 133z-15):

1. There is hereby delegated to the Secretary of the Navy full power and authority to act for and in the name of the Secretary of Defense, and to exercise the power and authority of the Secretary of Defense upon any and all matters relating to the certification of special purpose vessels to be essential to national defense, on which the Secretary of Defense is authorized to act pursuant to sections 3 (a) and (b) of the act of September 3, 1954 (68 Stat. 1268 and 1269; (46 U. S. C. 1273)).

2. All certifications of special purpose vessels to be essential to national defense made pursuant to this delegation shall be deemed to have been made by the Secretary of Defense, and with the full power and authority of the Secretary of Defense.

3. The authority delegated herein may be redelegated to the Under Secretary or any Assistant Secretary of the Navy.

4. Any such certification heretofore made by the Secretary the Under Secretary or any Assistant Secretary of the Navy on or after January 1, 1956, is hereby confirmed and ratified.

C. E. WILSON,
*Secretary of Defense.*

## DEPARTMENT OF LABOR

### Wage and Hour Division

LEARNER EMPLOYMENT CERTIFICATES

ISSUANCE TO VARIOUS INDUSTRIES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended; 29 U. S. C. 201 et seq.), and Part 522 of the regulations issued thereunder (29 CFR Part 522), special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates applicable under section 6 of the act have been issued to the firms listed below. The employment of learners under these certificates is limited to the terms and conditions therein contained and is subject to the provisions of Part 522. The effective and expiration dates, occupations, wage rates, number or proportion of learners and learning periods for certificates issued under general learner regulations (§§ 522.1 to 522.12) are as indicated below; conditions provided in certificates issued under special industry regulations are as established in these regulations.

Apparel Industry Learner Regulations (29 CFR 522.20 to 522.24, as amended March 1, 1956, 21 F. R. 1349).

The following learner certificates were issued authorizing the employment of not more than 10 percent of the total number of factory production workers as learners for normal labor turnover purposes:

Cowden Manufacturing Co., 109 Mackville Hill, Springfield, Ky.; effective 5-1-56 to 4-30-57 (dungarees).

Dart-Win Trousers, Inc., Gonzales, La.; effective 4-25-56 to 4-24-57 (trousers).

Husin Shirt Co., 14-16 Rose Street, Ephrata, Pa.; effective 4-27-56 to 4-26-57 (ladies' blouses).

The Joanie Jan Co., Walnut Ridge, Ark.; effective 5-8-56 to 5-7-57 (frocks).

La Follette Shirt Co., Inc., 125 First Street, La Follette, Tenn.; effective 5-7-56 to 5-6-57 (shirts).

The LeeWall Sportswear Co., 1372 West Sixth Street, Cleveland, Ohio; effective 4-30-56 to 4-29-57 (woman's apparel).

Norris Manufacturing Co., Taylors, S. C.; effective 4-26-56 to 4-25-57 (sport shirts).

Pettibelle, Inc., East Liberty Street Extended, Sumter, S. C.; effective 5-3-56 to 5-2-57 (children's dresses).

Pontotoc Manufacturing Co., New Albany, Miss.; effective 5-1-56 to 4-30-57 (work shirts).

Selro Manufacturing Co., Rear 115 Race Street, Cambridge, Md.; effective 4-25-56 to 4-24-57 (women's apparel).

Sunnyvale of Pennsylvania, Inc., 3 South Webster Avenue, Scranton, Pa.; effective 4-23-56 to 4-22-57 (dresses).

Yorktowne Manufacturing Co., Ephrata, Pa.; effective 4-26-56 to 4-25-57 (women's blouses).

The following learner certificates were issued for normal labor turnover purposes and, except as otherwise indicated below, a maximum of 10 learners were authorized:

Barad Lingerie Co., Salem, Mo.; effective 4-25-56 to 4-24-57 (ladies' underwear).

Freeland Dress Co., Inc., 721 Birkbeck Street, Freeland, Pa.; effective 5-1-56 to 4-30-57 (children's dresses).

H & D Manufacturing Co., 6100 Robertson Road, Nashville, Tenn.; effective 4-23-56 to 2-28-57; 9 learners (ladies' T shirts, etc.) (replacement certificate).

Johnson Co., 307 West Second Street, Marshfield, Wis.; effective 5-2-56 to 5-1-57; 4 learners (heavy outerwear and parkas).

Merrill Sportswear Co., Merrill, Wis.; effective 5-2-56 to 5-1-57; 5 learners (heavy outerwear).

Pearce Woolen Mills, Inc., Spearing Street, Howard, Pa.; effective 4-27-56 to 4-26-57 (shirts).

Scott & Kurt Manufacturing Co., Rothsville, Lancaster Co., Pa.; effective 4-26-56 to 4-25-57; 5 learners (ladies' blouses).

Selinsgrove Manufacturing Co., Inc., 106 South High Street, Selinsgrove, Pa.; effective 4-26-56 to 4-25-57 (ladies' pajamas).

Style Casuals, Inc., 350 Northeast 75th Street, Miami, Fla.; effective 4-26-56 to 4-25-57; 5 learners (men's sportswear).

Temple Sportswear Co., 4434 Kutztown Road, Temple, Pa.; effective 4-27-56 to 4-26-57 (ladies' blouses).

Milton & Erma Westgate, Jud's Manufacturing Co., 1114 Court Street, Honesdale, Pa.; effective 5-2-56 to 5-1-57; 4 learners (ladies' dresses).

The following learner certificates were issued for plant expansion purposes. The number of learners authorized is indicated:

Adel Manufacturing Co., Fifth Street, Adel, Ga.; effective 4-30-56 to 10-29-56; 70 learners (sport shirts).

Amsterdam Sportswear, Inc., 2 Ann Street, Amsterdam, N. Y.; effective 5-5-56 to 11-4-56; 25 learners (dresses).

The Joanie Jan Co., Walnut Ridge, Ark.; effective 4-27-56 to 10-26-56; 20 learners (frocks).

Little Guys & Dolls Garment Manufacturing Co., Mesick, Mich.; effective 4-30-56 to 10-29-56; 20 learners (children's outerwear).

Sunbeam Sportswear, Inc., Valley View, Pa.; effective 4-26-56 to 8-31-56; 20 learners (dresses) (supplemental certificate).

Cigar Industry Learner Regulations (29 CFR 522.80 to 522.85, as amended March 1, 1956, 21 F. R. 629).

R. G. Sullivan, Inc., 114 West Central Street, Manchester, N. H.; effective 4-25-56 to 4-24-57; 10 percent of the total number of factory production workers for normal labor turnover purposes.

Glove Industry Learner Regulations (29 CFR 522.60 to 522.65, as amended March 1, 1956, 21 F. R. 581).

The following learner certificates were issued for normal labor turnover purposes:

Burnham-Edina Manufacturing Co., Edina, Mo.; effective 4-24-56 to 4-23-57; 5 learners (work gloves).

Indianapolis Glove Co., Inc., Glenwood, Ark.; effective 5-11-56 to 5-10-57; 10 learners (work gloves).

Glen Wild Knitting Co., Broadalbin, N. Y.; effective 4-30-56 to 4-29-57; 5 learners (knit gloves).

Hosiery Industry Learner Regulations (29 CFR 522.40 to 522.43, as amended March 1, 1956, 21 F. R. 629).

Elder Hosiery Mills, Inc., South Park Avenue, Burlington, N. C.; effective 4-26-56 to 4-25-57; 3 learners for normal labor turnover purposes.

Independent Telephone Industry Learner Regulations (29 CFR 522.70 to 522.74, as amended March 1, 1956, 21 F. R. 581).

Citizens Telephone Corporation, Warren, Ind.; effective 4-25-56 to 4-24-57.

Knitted Wear Industry Learner Regulations (29 CFR 522.30 to 522.35, as amended March 1, 1956, 21 F. R. 581).

Alpha Mills Corp., Margaretta Street, Schuylkill Haven, Pa.; effective 4-24-56 to 4-23-57; 5 percent of factory production workers for normal labor turnover purposes (ladies' knit underwear, etc.).

Louis Gallet Knitting Mills, Inc., 120 Delaware Avenue, Uniontown, Pa.; effective 5-1-56 to 4-30-57; 5 percent of factory production workers for normal labor turnover purposes (sweaters and cardigans).

P. H. Hanes Knitting Co., Galax Plant, Galax, Va.; effective 4-25-56 to 10-24-56; 150 learners for plant expansion purposes (knitted outerwear).

P. H. Hanes Knitting Co., Sparta Plant, Sparta, N. C.; effective 4-30-56 to 10-22-56; 40 learners for plant expansion purposes (men's undershorts) (replacement certificate).

Moyer Knitting Mills, South Race Street, Richland, Pa.; effective 4-25-56 to 4-24-57; 4 learners for normal labor turnover purposes (men's knitted outerwear).

Regulations applicable to the Employment of Learners (29 CFR 522.1 to 522.12, as amended February 28, 1955, 20 F. R. 645).

The following learner certificates were issued for normal labor turnover purposes to the companies listed below manufacturing miscellaneous products. The effective and expiration dates, learner rates, occupations, learning periods, and the number or proportion of learners authorized to be employed, are as follows:

Carver Manufacturing Co., Inc.; North Jackson Street, Athens, Tenn.; effective 4-30-56 to 10-29-56; not less than 80 cents per hour for the first 320 hours and 85 cents per hour for the remaining 160 hours of the 480-hour learning period, for the occupation of upholsterers; authorizing the employment of 3 learners (upholstered furniture).

Littlestown Manufacturing Co., Bonneaville Road, Littlestown, Pa.; effective 4-30-56 to 10-29-56; not less than 85 cents per hour for the first 280 hours and 90 cents per hour for the remaining 200 hours of the 480-hour learning period, for the occupation of sewing machine operator; authorizing the employment of five percent of factory production workers (boys' wash suits).

Magic Snell Tackle Co., 45 Niagara Street, Canandaigua, N. Y.; effective 4-24-56 to 10-23-56; not less than 80 cents per hour for the first 40 hours, 85 cents per hour for the next 80 hours, 90 cents per hour for the next 80 hours and 95 cents per hour for the remaining 120 hours of the authorized 320-hour learning period, for the occupations of winder and solderer; authorizing the employment of 4 learners (fishing tackle).

The following special learner certificate was issued in Puerto Rico to the company hereinafter named. The effective and expiration dates, learner rates, occupations, learning periods, and the number or proportion of learners authorized to be employed, are as indicated:

Puerto Rico Hosiery Mills, Inc., Arecibo, P. R.; effective 4-18-56 to 11-27-56; not less than 53 cents per hour for the first 480 hours and 58 cents per hour for the remaining 480 hours of the 960-hour learning period, for the occupations of knitters and seamers; authorizing the employment of 12 learners for normal labor turnover purposes (hosiery) (replacement certificate).

Each certificate has been issued upon the employer's representation that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be cancelled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of Part 522.

Signed at Washington, D. C., this 4th day of May 1956.

MILTON BROOKE,
*Authorized Representative of the Administrator.*

### LEARNER EMPLOYMENT CERTIFICATES

#### ISSUANCE TO VARIOUS INDUSTRIES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended; 29 U. S. C. 201 et seq.), and Part 522 of the regulations issued thereunder (29 CFR Part 522), special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates applicable under section 6 of the act have been issued to the firms listed below. The employment of learners under these certificates is limited to the terms and conditions therein contained and is subject to the provisions of Part 522. The effective and expiration dates, occupations, wage rates, number or proportion of learners and learning periods for certificates issued under general learner regulations (§§ 522.1 to 522.12) are as indicated below; conditions provided in certificates issued under special industry regulations are as established in these regulations.

Apparel Industry Learner Regulations (29 CFR 522.20 to 522.24, as amended March 1, 1956, 21 F. R. 1349).

The following learner certificates were issued authorizing the employment of not more than 10 percent of the total number of factory production workers as learners for normal labor turnover purposes.

Frackville Pajamas, Inc., Broad Mountain Avenue and Oak Streets, Frackville, Pa.; effective 5-28-56 to 5-27-57 (men's pajamas, flannel shirts etc.).

Charles W. Henson Manufacturing Co., Monroe, Ga.; effective 5-27-56 to 5-26-57 (work pants).

Jantus Manufacturing Co., 606 West 11th Avenue, Gary, Ind.; effective 5-11-56 to 5-10-57 (ladies' outerwear).

M. L. M. Sportswear, Inc., 1401 South 16th Street, Philadelphia, Pa.; effective 5-15-56 to 5-14-57 (jackets).

Maiden Form Brassiere Co., Inc., Main Street and Monticello Avenue, Clarksburg, W. Va.; effective 5-19-56 to 5-18-57 (brassieres).

Maiden Form Brassiere Co., Inc., 2311 Adams Avenue, Huntington, W. Va.; effective 5-19-56 to 5-18-57 (brassieres).

Maiden Form Brassiere Co., Inc., Route No. 1, Princeton, W. Va.; effective 5-19-56 to 5-18-57 (brassieres).

NuBone Co., Inc., 25th and Ash Streets, Erie, Pa.; effective 5-14-56 to 5-13-57 (corsets and infants wear).

Outerwear, Inc., 614 Wyoming Avenue, Scranton, Pa.; effective 5-8-56 to 5-7-57 (trousers).

Phillips-Jones Corp., Barnesboro, Pa.; effective 5-20-56 to 5-19-57 (sport shirts).

Phillips-Jones Factory, Pottsville, Pa.; effective 5-20-56 to 5-19-57 (dress shirts).

Plains Manufacturing Co., Inc., 61 Hudson Road, Plains, Pa.; effective 5-14-56 to 5-13-57 (brassieres).

Scranton Pants Manufacturing Co., 614 Wyoming Avenue, Scranton, Pa.; effective 5-23-56 to 5-22-57 (pants).

Steward Manufacturing Co., Inc., 63 Central Avenue, Ossining, N. Y.; effective 5-9-56 to 5-8-57 (dresses).

The following learner certificates were issued for normal labor turnover purposes, except as otherwise indicated:

Coast Fashions, 8468 State Street, South Gate, Calif.; effective 5-15-56 to 5-14-57; 5 learners (dresses).

Gunnin Manufacturing Co., Corner Main and Church Streets, Dawson, Ga.; effective 5-27-56 to 5-26-57; 10 learners (sport shirts).

Harvey Manufacturing Co., 203 Grant Street, Dupont, Pa.; effective 5-14-56 to 5-13-57; 5 learners (children's outerwear).

Iron King Overall Co., 113 South Hanover Street, Baltimore, Md.; effective 5-15-56 to 5-14-57; 5 learners (overalls and dungarees).

Meltex Fabrics, Inc., 1406 East Main Street, Richmond, Va.; effective 5-14-56 to 5-13-57; 10 learners (lingerie).

Mitchell Garment Co., Inc., 119 West Third Street, Farmville, Va.; effective 5-16-56 to 5-15-57; 5 learners (children's dresses).

Oneonta Plains Manufacturing Co., Inc., Country Club Road, Oneonta, N. Y.; effective 5-14-56 to 5-13-57; 10 learners (ladies' dresses).

Pinebrook Manufacturing Co., Inc., 109 Kingston Street., Boston, Mass.; effective 5-11-56 to 5-10-57; 4 learners (housecoats and dusters).

J. Rechtschaffer, Inc., 35 Lander Street, Newburgh, N. Y.; effective 5-14-56 to 5-13-57; 6 learners (housedresses).

Rexmont Mills, Inc., Rexmont, Pa.; effective 5-14-56 to 5-13-57; 5 learners (children's lingerie).

S & F Sportswear Co., 197 Vrooman Avenue, Amsterdam, N. Y.; effective 5-14-56 to 5-13-57; 4 learners (leather and suede jackets).

Sandye Shirt Corp., Portland, Tenn.; effective 5-10-56 to 11-9-56; 40 learners for plant expansion purposes (sports shirts).

Summits Sportswear Co., 44 West Ludlow Street, Summit Hill, Pa.; effective 5-15-56 to 5-14-57; 5 learners (ladies' blouses).

Glove Industry Learner Regulations (29 CFR 522.60 to 522.65, as amended March 1, 1956, 21 F. R. 581).

Riegel Textile Corp., Greenville, Ala.; effective 5-20-56 to 5-19-57; 10 percent of factory production workers engaged in the authorized learner occupations for normal labor turnover purposes (work gloves).

Hosiery Industry Learner Regulations (29 CFR 522.40 to 522.43, as amended March 1, 1956, 21 F. R. 629).

Interwoven Stocking Co., Martinsburg, W. Va.; effective 5-14-56 to 5-13-57; 5 percent of factory production workers for normal labor turnover purposes.

J. W. Landenberger & Co., Elkton, Md.; effective 5-14-56 to 11-13-56; 21 learners for plant expansion purposes.

Nolde & Horst Co., Hugh Grey Division, Concord, N. C.; effective 5-14-56 to 11-13-56; 40 learners for plant expansion purposes.

Silver-Knit Hosiery Mills, Inc., 401 South Hamilton Street, High Point, N. C.; effective 5-10-56 to 5-9-57; 5 percent of factory production workers for normal labor turnover purposes.

Knitted Wear Industry Learner Regulations (29 CFR 522.30 to 522.35, as amended March 1, 1956, 21 F. R. 581).

Chic Lingerie Co., Inc., 1126 Santee Street, Los Angeles, Calif.; effective 5-16-56 to 3-7-57; 5 percent of factory production workers for normal labor turnover purposes (women's knit lingerie) (replacement certificate).

Herbert Mills Co., Inc., Marion, S. C.; effective 5-10-56 to 5-9-57; 5 percent of factory production workers for normal labor turnover purposes (sweaters).

Herbert Mills Co., Inc., Marion, S. C.; effective 5-10-56 to 11-9-56; 20 learners for plant expansion purposes (sweaters).

Leola Undergarment Co., Inc., Leola, Pa.; effective 5-14-56 to 5-13-57; 5 learners for normal labor turnover purposes (ladies' knit and woven lingerie).

Shoe Industry Learner Regulations (29 CFR 522.50 to 522.55, as amended March 1, 1956, 21 F. R. 1195).

Cedar Shoe Co., Boscobel, Wis.; effective 5-14-56 to 11-13-56; 30 learners for plant expansion purposes.

Regulations Applicable to the Employment of Learners (29 CFR 522.1 to 522.12, as amended February 28, 1955, 20 F. R. 645).

Cornell-Dubilier Electric Corp., 8 Grafton Street, Worcester, Mass.; effective 5-7-56 to 11-6-56; not less than 81 cents per hour for the first 240 hours, 85 cents per hour for the next 120 hours, and 90 cents per hour for the remaining 120 hours of the 480-hour learning period, for the occupations of basic hand and machine production operations, authorizing the employment of ten percent of factory production workers for normal labor turnover purposes (electrical condensers).

The following special learner certificate was issued in Puerto Rico to the company hereinafter named. The effective and expiration dates, learner rates, occupations, learning periods, and the number or proportion of learners authorized to be employed, are as indicated:

The Bravada Corp., Aracibo, P. R.; effective 4-30-56 to 8-8-56; not less than 45 cents per hour for the first 240 hours and 50 cents per hour for the remaining 240 hours of the 480-hour learning period, for the occupation of sewing machine operator; not less than 45 cents per hour for a maximum of 160 hours, for the occupation of final inspector; authorizing the employment of 47 learners for plant expansion purposes (underwear) (replacement certificate).

Each certificate has been issued upon the employer's representation that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be canceled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of Part 522.

Signed at Washington, D. C., this 16th day of May 1956.

MILTON BROOKE,
*Authorized Representative of the Administrator.*

## DEPARTMENT OF JUSTICE

### Office of Alien Property

[Vesting Order SA-41]

BRANCA ROMANEASCA S. A.

In re: debt owing to Banca Romaneasca S. A.; F-57-101.

Under the authority of Title II of the International Claims Settlement Act of 1949, as amended (69 Stat. 562), Executive Order 10644, November 7, 1955 (20 F. R. 8363), Department of Justice Order No. 106-55, November 23, 1955 (20 F. R. 8993), and pursuant to law, after investigation, it is hereby found and determined:

1. That the property described as follows: That certain debt or other obligation of the Belgium-American Banking Corporation, 52 Wall Street, New York 5, N. Y., arising out of an account entitled, "Banque de la Republique Populaire Roumaine," maintained at the aforesaid bank, together with any and all rights to demand, enforce and collect the same,

is property within the United States which was blocked in accordance with Executive Order 8389, as amended, and remained blocked on August 9, 1955, and which is, and as of September 15, 1947, was, owned directly or indirectly by Banca Romaneasca S. A., Bucharest, Rumania, a national of Rumania as defined in said Executive Order 8389, as amended.

2. That the property described herein is not owned directly by a natural person.

There is hereby vested in the Attorney General of the United States the property described above, to be administered, sold, or otherwise liquidated, in accordance with the provisions of Title II of the International Claims Settlement Act of 1949, as amended.

It is hereby required that the property described above be paid, conveyed, transferred, assigned and delivered to or for the account of the Attorney General of the United States in accordance with directions and instructions issued by or for the Assistant Attorney General, Director, Office of Alien Property, Department of Justice.

The foregoing requirement and any supplement thereto shall be deemed instructions or directions issued under Title II of the International Claims Settlement Act of 1949, as amended. Attention is directed to Section 205 of said Title II (69 Stat. 562) which provides that:

Any payment, conveyance, transfer, assignment, or delivery of property made to the President or his designee pursuant to this title, or any rule, regulation, instruction, or direction issued under this title, shall to the extent thereof be a full acquittance and discharge for all purposes of the obligation of the person making the same; and no person shall be held liable in any court for or in respect of any such payment, conveyance, transfer, assignment, or delivery made in good faith in pursuance of and in reliance on the provisions of this title, or of any rule, regulation, instruction, or direction issued thereunder.

Executed at Washington, D. C., on May 21, 1956.

For the Attorney General.

[SEAL] DALLAS S. TOWNSEND,
*Assistant Attorney General, Director, Office of Alien Property.*

[Vesting Order SA–43]

BANCA ROMANEASCA S. A.

In re: Debt owing to Banca Romaneasca S. A.; F–57–101.

Under the authority of Title II of the International Claims Settlement Act of 1949, as amended (69 Stat. 562), Executive Order 10644, November 7, 1955 (20 F. R. 8363), Department of Justice Order No. 106–55, November 23, 1955 (20 F. R. 8993), and pursuant to law, after investigation, it is hereby found and determined:

1. That the property described as follows: That certain debt or other obligation of the Guaranty Trust Company of New York, 140 Broadway, New York 15, N. Y., arising out of an account entitled, "Banca Romaneasca S. A., in Liquidation, % Banque de la Republique Populaire Roumaine, Banque d'Etat, Bucharest, Roumania", maintained at the aforesaid bank together with any and all rights to demand, enforce and collect the same,

is property within the United States which was blocked in accordance with Executive Order 8389, as amended, and remained blocked on August 9, 1955, and which is, and as of September 15, 1947 was, owned directly or indirectly by the Banca Romaneasca S. A., Bucharest, Rumania, a national of Rumania as defined in said Executive Order 8389, as amended.

2. That the property described herein is not owned directly by a natural person.

There is hereby vested in the Attorney General of the United States the property described above, to be administered, sold, or otherwise liquidated, in accordance with the provisions of Title II of the International Claims Settlement Act of 1949, as amended.

It is hereby required that the property described above be paid, conveyed, transferred, assigned and delivered to or for the account of the Attorney General of the United States in accordance with directions and instructions issued by or for the Assistant Attorney General, Director, Office of Alien Property, Department of Justice.

The foregoing requirement and any supplement thereto shall be deemed instructions or directions issued under Title II of the International Claims Settlement Act of 1949, as amended. Attention is directed to Section 205 of said Title II (69 Stat. 562) which provides that:

Any payment, conveyance, transfer, assignment, or delivery of property made to the President or his designee pursuant to this title, or any rule, regulation, instruction, or direction issued under this title, shall to the extent thereof be a full acquittance and discharge for all purposes of the obligation of the person making the same; and no person shall be held liable in any court for or in respect of any such payment, conveyance, transfer, assignment, or delivery made in good faith in pursuance of and in reliance on the provisions of this title, or of any rule, regulation, instruction, or direction issued thereunder.

Executed at Washington, D. C., on May 21, 1956.

For the Attorney General.

[Vesting Order SA–44]

BANCA ROMANEASCA S. A.

In re: Debt owing to Banca Romaneasca S. A., Cernauti Branch; F–57–101.

Under the authority of Title II of the International Claims Settlement Act of 1949, as amended (69 Stat. 562), Executive Order 10644, November 7, 1955 (20 F. R. 8363), Department of Justice Order No. 106–55, November 23, 1955 (20 F. R. 8993), and pursuant to law, after investigation, it is hereby found and determined:

1. That the property described as follows: That certain debt or other obligation of the Guaranty Trust Company of New York, 140 Broadway, New York 15, N. Y., arising out of an account entitled, "Banca Romaneasca, S. A. In Liquidation, (Cernauti), c/o Banque de la Republique Populaire Rcumaine, Banque D'Etat, Bucharest, Roumania," maintained at the aforesaid bank, together with any and all rights to demand, enforce and collect the same,

is property within the United States which was blocked in accordance with Executive Order 8389, as amended, and remained blocked on August 9, 1955, and which is, and as of September 15, 1947, was, owned directly or indirectly by Banca Romaneasca S. A., Cernauti, Rumania, a national of Rumania as defined in said Executive Order 8389, as amended.

2. That the property described herein is not owned directly by a natural person.

There is hereby vested in the Attorney General of the United States the property described above, to be administered, sold, or otherwise liquidated, in accordance with the provisions of Title II of the International Claims Settlement Act of 1949, as amended.

It is hereby required that the property described above be paid, conveyed, transferred, assigned and delivered to or for the account of the Attorney General of the United States in accordance with directions and instructions issued by or for the Assistant Attorney General, Director, Office of Alien Property, Department of Justice.

The foregoing requirement and any supplement thereto shall be deemed instructions or directions issued under Title II of the International Claims Settlement Act of 1949, as amended. Attention is directed to section 205 of said Title II (69 Stat. 562) which provides that:

Any payment, conveyance, transfer, assignment, or delivery of property made to the President or his designee pursuant to this title, or any rule, regulation, instruc-

tion, or direction issued under this title, shall to the extent thereof be a full acquittance and discharge for all purposes of the obligation of the person making the same; and no person shall be held liable in any court for or in respect of any such payment, conveyance, transfer, assignment, or delivery made in good faith in pursuance of and in reliance on the provisions of this title, or of any rule, regulation, instruction, or direction issued thereunder.

Executed at Washington, D. C., on May 21, 1956.

For the Attorney General.

[SEAL] DALLAS S. TOWNSEND,

[Vesting Order SA–45]

BANCA ROMANEASCA S. A.

In re: Debt owing to Banca Romaneasca S. A.; F–57–101.

Under the authority of Title II of the International Claims Settlement Act of 1949, as amended (69 Stat. 562), Executive Order 10644, November 7, 1955 (20 F. R. 8363), Department of Justice Order No. 106–55, November 23, 1955 (20 F. R. 8993), and pursuant to law, after investigation, it is hereby found and determined:

1. That the property described as follows: That certain debt or other obligation of the Irving Trust Company, One Wall Street, New York 15, N. Y., arising out of an account entitled, "Banca Romaneasca S. A. in Liquidation, % Banque de la Republique Populaire Roumanie, Banque d'Etat, Foreign Department, Bucharest, Roumania," maintained at the aforesaid bank, together with any and all rights to demand, enforce and collect the same,

is property within the United States which was blocked in accordance with Executive Order 8389, as amended, and remained blocked on August 9, 1955, and which is, and as of September 15, 1947, was, owned directly or indirectly by Banca Romaneasca S. A., Bucharest, Rumania, a national of Rumania as defined in said Executive Order 8389, as amended.

2. That the property described herein is not owned directly by a natural person.

There is hereby vested in the Attorney General of the United States the property described above, to be administered, sold, or otherwise liquidated, in accordance with the provisions of Title II of the International Claims Settlement Act of 1949, as amended.

It is hereby required that the property described above be paid, conveyed, transferred, assigned and delivered to or for the account of the Attorney General of the United States in accordance with directions and instructions issued by or for the Assistant Attorney General, Director, Office of Alien Property, Department of Justice.

The foregoing requirement and any supplement thereto shall be deemed instructions or directions issued under Title II of the International Claims Settlement Act of 1949, as amended. Attention is directed to Section 205 of said Title II (69 Stat. 562) which provides that:

Any payment, conveyance, transfer, assignment, or delivery of property made to the President or his designee pursuant to this title, or any rule, regulation, instruction, or direction issued under this title, shall to the extent thereof be a full acquittance and discharge for all purposes of the obligation of the person making the same; and no person shall be held liable in any court for or in respect of any such payment, conveyance, transfer, assignment, or delivery made in good faith in pursuance of and in reliance on the provisions of this title, or of any rule, regulation, instruction, or direction issued thereunder.

Executed at Washington, D. C., on May 21, 1956.

For the Attorney General.

HUBERT SIGMUND STAHL UND METALLWAREN

In re: Debt owing to Hubert Sigmund Stahl und Metallwaren, also known as Hubert es Sigmund Acel es Femarugyar Kft.; F–34–1651.

Under the authority of Title II of the International Claims Settlement Act of 1949, as amended (69 Stat. 562), Executive Order 10644, November 7, 1955 (20 F. R. 8363), Department of Justice Order No. 106–55, November 23, 1955 (20 F. R. 8993), and pursuant to law, after investigation, it is hereby found and determined:

1. That the property described as follows: That certain debt or other obligation of the Guaranty Trust Company of New York, 140 Broadway, New York 15, New York, arising out of an account entitled, "Lombardbank A. G., a/c Hubert Sigmund Stahl und Metallwaren, Budapest, Hungary, Zurich, Switzerland," maintained at the aforesaid bank, together with any and all rights to demand, enforce and collect the same,

is property within the United States which was blocked in accordance with Executive Order 8389, as amended, and remained blocked on August 9, 1955, and which is and as of September 15, 1947, was, owned directly or indirectly by Hubert Sigmund Stahl und Metallwaren, also known as Hubert es Sigmund Acel es Femarugyar Kft., Budapest, Hungary, a national of Hungary as defined in said Executive Order 8389, as amended.

2. That the property described herein is not owned directly by a natural person.

There is hereby vested in the Attorney General of the United States the property described above, to be administered, sold, or otherwise liquidated, in accordance with the provisions of Title II of the International Claims Settlement Act of 1949, as amended.

It is hereby required that the property described above be paid, conveyed, transferred, assigned and delivered to or for the account of the Attorney General of the United States in accordance with directions and instructions issued by or for the Assistant Attorney General, Director, Office of Alien Property, Department of Justice.

The foregoing requirement and any supplement thereto shall be deemed instructions or directions issued under Title II of the International Claims Settlement Act of 1949, as amended. Attention is directed to section 205 of said Title II (69 Stat. 562) which provides that:

Any payment, conveyance, transfer, assignment, or delivery of property made to the President or his designee pursuant to this title, or any rule, regulation, instruction, or direction issued under this title, shall to the extent thereof be a full acquittance and discharge for all purposes of the obligation of the person making the same; and no person shall be held liable in any court for or in respect of any such payment, conveyance, transfer, assignment, or delivery made in good faith in pursuance of and in reliance on the provisions of this title, or of any rule, regulation, instruction, or direction issued thereunder.

Executed at Washington, D. C., on May 21, 1956.

For the Attorney General.

## TITLE 7—AGRICULTURE

### Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Navel Orange Reg. 88]

PART 914—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

§ 914.388 *Navel Orange Regulation 88*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 14, as amended (7 CFR Part 914), regulating the handling of navel oranges grown in Arizona and designated part of California, effective September 22, 1953, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circum-

inafter set forth so as to provide for the continued regulation of the handling of all such oranges, and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) Navel Orange Regulation 64 (§ 914.364; 20 F. R. 9151) is hereby terminated at 12:01 a. m., P. s. t., June 3, 1956.

(2) During the period beginning at 12:01 a. m., P. s. t., June 3, 1956, and ending at 12:01 a. m., P. s. t., September 30, 1956, no handler shall handle any navel oranges, grown in District 1 or District 2, which are of a size smaller than 2.31 inches in diameter, which shall be the largest measurement at a right angle to a straight line running from the stem to the blossom end of the fruit: *Provided,* That not to exceed 5 percent, by count, of the oranges contained in any type of container may measure smaller than 2.31 inches in diameter.

(3) As used in this section, "handle," "handler," "District 1," and "District 2," shall have the same meaning as when used in said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

[Valencia Orange Reg. 70]

## PART 922—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

### LIMITATION OF HANDLING

§ 922.370 *Valencia Orange Regulation 70*—(a) *Findings.* (1) Pursuant to Order No. 22 (7 CFR Part 922), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective March 31, 1954, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The Valencia Orange Administrative Committee held an open meeting on May 24, 1956, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date hereof.

(b) *Order.* (1) The quantity of Valencia oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a. m., P. s. t., May 27, 1956, and ending at 12:01 a. m., P. s. t., June 3, 1956, is hereby fixed as follows:

(i) District 1: Unlimited movement;
(ii) District 2: 554,400 cartons;
(iii) District 3: Unlimited movement.

(2) Valencia oranges handled pursuant to the provisions of this section shall be subject to any size restrictions applicable thereto which have heretofore been issued on the handling of such oranges and which are effective during the period specified herein.

(3) As used in this section, "handled," "handler," "District 1," "District 2," and "District 3," have the same meaning as when used in said order; and "carton" means the standard one-half orange, grapefruit or lemon box set forth as standard container number 58 in section 828.83, as amended, of the Agricultural Code of California.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: May 25, 1956.

[SEAL] S. R. SMITH,
*Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

[Orange Reg. 298]

## PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

### LIMITATION OF SHIPMENTS

§ 933.795 *Orange Regulation 298*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of all Florida oranges, except Temple oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than May 28, 1956. Shipments of all oranges, except Temple oranges, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, and will so continue until May 28, 1956; the recommendation and supporting information for continued regulation subsequent to May 27, 1956, were promptly submitted to the Department after an open meeting of the Growers Administrative Committee on May 22, 1956, such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of all oranges, except Temple oranges, and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., May 28, 1956, and ending at 12:01 a. m., e. s. t., June 11, 1956, no handler shall ship:

(i) Any oranges, except Temple oranges, grown in the State of Florida, which do not grade at least U. S. No. 1 Russet;

(ii) Any oranges, except Temple oranges, grown in the State of Florida, which are of a size smaller than a size that will pack 288 oranges, packed in accordance with the requirements of a

standard pack, in a standard 1⅗ bushel nailed box;

(iii) Any Valencia, Lue Gim Gong, or similar late-maturing oranges of the Valencia type, grown in the State of Florida, that grade U. S. Fancy or U. S. No. 1 Bright, which are of a size larger than 3 10/16 inches in diameter, which shall be the largest measurement at a right angle to a straight line running from the stem to the blossom end of the fruit, except that a tolerance of 10 percent, by count, of oranges larger than such maximum diameter shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances, specified in the United States Standards for Florida Oranges and Tangelos (§§ 51.1140 to 51.1186 of this title; 20 F. R. 7205): *Provided*, That in determining the percentage of oranges in any lot which are larger than 3 10/16 inches in diameter, such percentage shall be based only on those oranges in such lot which are of a size 3 6/16 inches in diameter and larger; or

(iv) Any Valencia, Lue Gim Gong, or similar late-maturing oranges of the Valencia type, grown in the State of Florida, that grade U. S. No. 1, U. S. No. 1 Golden, U. S. No. 1 Bronze or U. S. No. 1 Russet, which are of a size larger than 3 6/16 inches in diameter, which shall be the largest measurement at a right angle to a straight line running from the stem to the blossom end of the fruit, except that a tolerance of 10 percent, by count, of oranges larger than such maximum diameter shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances, specified in the United States Standards for Florida Oranges and Tangelos (§§ 51.1140 to 51.1186 of this title; 20 F. R. 7205): *Provided*, That in determining the percentage of oranges in any lot which are larger than 3 6/16 inches in diameter, such percentage shall be based only on those oranges in such lot which are of a size 3 inches in diameter and larger.

(2) As used in this section, the terms "handler," "ship," and "Growers Administrative Committee" shall each have the same meaning as when used in said amended marketing agreement and order; and the terms "U. S. Fancy," "U. S. No. 1 Bright," "U. S. No. 1," "U. S. No. 1 Golden," "U. S. No. 1 Bronze," "U. S. No. 1 Russet," "standard pack," and "standard 1⅗ bushel nailed box" shall have the same meaning as when used in the United States Standards for Florida Oranges and Tangelos (§§ 51.1140 to 51.1186 of this title; 20 F. R. 7205).

Shipments of Temple oranges, grown in the State of Florida, are subject to the provisions of Orange Regulation 294 (§ 933.782, 21 F. R. 2039).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: May 23, 1956.

[SEAL] S. R. SMITH,
*Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

[Grapefruit Reg. 245]

## PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

### LIMITATION OF SHIPMENTS

§ 933.796 *Grapefruit Regulation 245*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than May 28, 1956. Shipments of grapefruit, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, and will so continue until May 28, 1956; the recommendation and supporting information for continued regulation subsequent to May 27, 1956, were promptly submitted to the Department after an open meeting of the Growers Administrative Committee on May 22, 1956; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such grapefruit; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of grapefruit, and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., May 28, 1956, and ending at 12:01 a. m., e. s. t., June 11, 1956, no handler shall ship:

(i) Any white seeded grapefruit, grown in the State of Florida, which are not mature and do not grade at least U. S. No. 1 Bronze;

(ii) Any white seedless grapefruit, grown in Regulation Area I, which are not mature and do not grade at least U. S. No. 2;

(iii) Any white seedless grapefruit, grown in Regulation Area II, which are not mature and do not grade at least U. S. No. 2 Russet;

(iv) Any pink seeded grapefruit, grown in the State of Florida, which are not mature and do not grade at least U. S. No. 2;

(v) Any pink seedless grapefruit, grown in the State of Florida, which are not mature and do not grade at least U. S. No. 2 Russet;

(vi) Any seeded grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 80 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box; or

(vii) Any seedless grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 112 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box.

(2) As used in this section, "handler," "ship," "Growers Administrative Committee," "Regulation Area I," and "Regulation Area II" shall have the same meaning as when used in said amended marketing agreement and order; the terms "U. S. No. 1 Bronze," "U. S. No. 2," "U. S. No. 2 Russet," "standard pack," and "standard nailed box" shall have the same meaning as when used in the United States Standards for Florida Grapefruit (§§ 51.750 to 51.790 of this title); and the term "mature" shall have the same meaning as set forth in section 601.16 Florida Statutes, Chapters 26492 and 28090, known as the Florida Citrus Code of 1949, as supplemented by section 601.17 (Chapters 25149 and 28090) and also by section 601.18, as amended on June 2, 1955 (Chapter 29760).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: May 23, 1956.

[SEAL] S. R. SMITH,
*Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

[Lemon Reg. 643]

## PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

### LIMITATION OF SHIPMENTS

§ 953.750 *Lemon Regulation 643*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 20 F. R. 8451), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on May 23, 1956, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., May 27, 1956, and ending at 12:01 a. m., P. s. t., June 3, 1956, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 465,000 cartons;

(iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "District 1," "District 2," and "District 3" have the same meaning as when used in the said amended marketing agreement and order; and "carton" means the standard one-half orange, grapefruit or lemon box set forth as standard container number 58 in section 828.83, as amended, of the Agricultural Code of California.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: May 24, 1956.

[SEAL] S. R. SMITH,
*Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

[F. R. Doc. 56-4210; Filed, May 25, 1956; 8:53 a. m.]

# TITLE 14—CIVIL AVIATION

## Chapter II—Civil Aeronautics Administration, Department of Commerce

### Subchapter A—Procedural Regulations

[Amdt. 1]

## PART 407—RECORDATION PROCEDURES

### CANCELLATION OF PART

On June 15, 1955, the Administrator adopted new Parts 503 through 505, which included the recordation procedures previously found in Part 407 of the regulations of the Administrator. Therefore, Part 407 is no longer necessary and is hereby rescinded.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply secs. 501–503, 52 Stat. 1005, 1006, as amended; 49 U. S. C. 521–523)

This amendment shall become effective upon publication in the FEDERAL REGISTER.

[SEAL] C. J. LOWEN,
*Administrator of Civil Aeronautics.*

[F. R. Doc. 56-4142; Filed, May 25, 1956; 8:45 a. m.]

[Amdt. 9]

## PART 600—DESIGNATION OF CIVIL AIRWAYS

### ALTERATIONS

The civil airway alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy and the Air Force, through the Air Coordinating Committee, Airspace Panel, and are adopted to become effective when indicated in order to promote safety. Compliance with the notice procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest and therefore is not required.

Part 600 is amended as follows:

1. Section 600.16 *Green civil airway No. 6 (Laredo, Tex., to Norfolk, Va.)* is amended between New Orleans, La., radio range station and Bay Minette, Ala., nondirectional radio beacon to read: "New Orleans, La., radio range station via the Keesler AFB, Biloxi, Miss., radio range station; Bay Minette, Ala., nondirectional radio beacon;".

2. Section 600.230 *Red civil airway No. 30 (Shreveport, La., to Jacksonville, Fla.)* is amended by changing the portion beginning at New Orleans, La., to read: "From the New Orleans, La., radio range station via the intersection of the northeast course of the Saufley Field, Pensacola, Fla. (Navy), radio range and the west course of the Pensacola, Fla., radio range; Whiting Field, Milton, Fla. (Navy), radio range station; Crestview, Fla., radio range station, excluding the portion below 2,000 feet MSL lying within Pensacola caution area C-488; the intersection of the east course of the Crestview, Fla., radio range and the northwest course of the Tallahassee, Fla., radio range; Tallahassee, Fla., radio range station to the Jacksonville, Fla., radio range station, excluding the portion above 19,000 feet MSL lying within the Tyndall restricted area (R-336), between sunset and sunrise."

3. Section 600.274 is added to read:

§ 600.274 *Red civil airway No. 74 (New Orleans, La., to Bay Minette, Ala.).* From the intersection of the east course of the New Orleans, La., radio range with a line bearing 230° True from the Bay Minette, Ala., nondirectional radio beacon to the Bay Minette, Ala., nondirectional radio beacon.

4. Section 600.301 is added to read:

§ 601.301 *Red civil airway No. 101 (Biloxi, Miss., to Pensacola, Fla.).* From the Keesler Air Force Base, Biloxi, Miss., radio range station to the intersection of the southeast course of the Keesler AFB radio range with west course of the Pensacola, Fla., radio range.

5. Section 600.310 is added to read:

§ 600.310 *Red civil airway No. 110 (Mobile, Ala., to Pensacola, Fla.).* From the intersection of a line bearing 331° True from the Brookley Air Force Base, Mobile, Ala., nondirectional radio beacon with Green civil airway No. 6 via the Brookley AFB nondirectional radio beacon to the intersection of a line bearing 151° True from the Brookley AFB nondirectional radio beacon with the west course of the Pensacola, Fla., radio range.

6. Section 600.659 *Blue civil airway No. 59 (Pensacola, Fla., to Goodway, Ala.)* is revoked.

7. Section 600.6022 *VOR civil airway No. 22 (New Orleans, La., to Jacksonville, Fla.)* is amended by changing all before the Crestview, Fla., omnirange station to read: "From the New Orleans, La., omnirange station via the Pensacola (Saufley Field), Fla., omnirange station; intersection of the Pensacola (Saufley Field) omnirange 039° True and the Crestview omnirange 260° True radials; Crestview, Fla., omnirange station;" and by adding a new last sentence to read: "The portions of this airway, below 2000 feet above mean sea level, which lie within the Pensacola Caution Area (O-488) are excluded."

8. Section 600.6240 is added to read:

§ 600.6240 *VOR civil airway No. 240 (Ship Island, Miss., to Mobile, Ala.).* From the point of intersection of the New Orleans, La., omnirange direct radial to the Pensacola (Saufley Field), Fla., omnirange station and the Mobile omnirange 224° True radial to the Mobile, Ala., omnirange station.

9. Section 600.6241 is added to read:

§ 600.6241 *VOR civil airway No. 241.* (Unassigned.)

10. Section 600.6242 is added to read:

§ 600.6242 *VOR civil airway No. 242 (Mobile, Ala., to Magnolia Springs, Ala.).* From the Mobile, Ala., omnirange station to the point of intersection of the Mobile omnirange 134° True and the New Orleans, La., omnirange direct radial to the Pensacola (Saufley Field), Fla., omnirange station.

(Sec. 205, 52 Stat. 984, amended; 49 U. S. C. 425. Interprets or applies sec. 302, 52 Stat. 985, as amended; 49 U. S. C. 452)

This amendment shall become effective 0001 e. s. t. July 1, 1956.

[Amdt. 9]

## PART 601—DESIGNATION OF CONTROL AREAS, CONTROL ZONES, AND REPORTING POINTS

### ALTERATIONS

The control area, control zone and reporting point alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy and the Air Force, through the Air Coordinating Committee, Airspace Panel, and are adopted to become effective when indicated in order to promote safety. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest and therefore is not required.

Part 601 is amended as follows:

1. Section 601.274 is added to read:

§ 601.274 *Red civil airway No. 74 control areas (New Orleans, La., to Bay Minette, Ala.).* All of Red civil airway No. 74.

2. Section 601.301 is added to read:

§ 601.301 *Red civil airway No. 101 control areas (Biloxi, Miss., to Pensacola, Fla.).* All of Red civil Airway No. 101.

3. Section 601.310 is added to read:

§ 601.310 *Red civil airway No. 110 control areas (Mobile, Ala., to Pensacola, Fla.).* All of Red civil airway No. 110.

4. Section 601.659 *Blue civil airway No. 59 control areas (Pensacola, Fla., to Goodway, Ala.)* is revoked.

5. Section 601.1166 *Control area extension (Mobile, Ala.)* is amended by changing the words which read: "Caution Area C–146," to read: "Caution Area C–488,".

6. Section 601.1219 is amended to read:

§ 601.1219 *Control area extension (Pensacola, Saufley Field, Ala.).* Within a 25-mile radius of Saufley Field, Pensacola, Fla., excluding the portions which overlap Restricted and Warning Areas.

7. Section 601.1406 is added to read:

§ 601.1406 *Control area extension (Milton, Fla.).* Within a 5-mile radius of NAAS Whiting (North), Milton, Fla., and within 5 miles either side of the northwest course of the Whiting (Navy) radio range extending from the radio range station to a point 12 miles northwest.

8. Section 601.1407 is added to read:

§ 601.1407 *Control area extension (Crestview, Fla.).* Within 5 miles either side of the 292° True radial of the Crestview, Fla., omnirange extending from the omnirange station to a point 12 miles northwest.

9. Section 601.1984 *Five mile radius zones* is amended by adding the following airport: Pensacola, Fla.: Forrest Sherman Field.

10. Section 601.4016 *Green civil airway No. 6 (Laredo, Tex., to Norfolk, Va.)* is amended after New Orleans, La., radio range station by adding the following reporting point: "Keesler AFB, Biloxi, Miss., radio range station;".

11. Section 601.4230 *Red civil airway No. 30 (Shreveport, La., to Jacksonville, Fla.)* is amended between Baton Rouge, La., and Crestview, Fla., radio range stations by deleting the following reporting point: "Keesler AFB, Biloxi, Miss., radio range station;" and by adding the following reporting points: "the intersection of the east course of the New Orleans, La., radio range and the southwest course of the Keesler AFB, Biloxi, Miss., radio range; the intersection of the west course of the Pensacola, Fla., radio range and the northeast course of the Saufley Field (Navy) radio range;".

12. Section 601.4274 is added to read:

§ 601.4274 *Red civil airway No. 74 (New Orleans, La., to Bay Minette, Ala.).* No reporting point designation.

13. Section 601.4301 is added to read:

§ 601.4301 *Red civil airway No. 101 (Biloxi, Miss., to Pensacola, Fla.).* No reporting point designation.

14. Section 601.4310 is added to read:

§ 601.4310 *Red civil airway No. 110 (Mobile, Ala., to Pensacola, Fla.).* Brookley AFB, Mobile, Ala., nondirectional radio beacon.

15. Section 601.4659 *Blue civil airway No. 59 (Pensacola, Ala., to Goodway, Ala.)* is revoked.

16. Section 601.6240 is added to read:

§ 601.6240 *VOR civil airway No. 240 control areas (Ship Island, Miss., to Mobile, Ala.).* All of VOR civil airway No. 240.

17. Section 601.6241 is added to read:

§ 601.6241 *VOR civil airway No. 241 control areas.* (Unassigned.)

18. Section 601.6242 is added to read:

§ 601.6242 *VOR civil airway No. 242 control areas (Mobile, Ala., to Magnolia Springs, Ala.).* All of VOR civil airway No. 242.

19. Section 601.7001 *VOR Domestic reporting points* is amended by adding the following reporting points:

Pensacola (Saufley Field), Fla., omnirange station.

Dog Intersection: The intersection of the New Orleans, La., omnirange 078° True and the Mobile, Ala., omnirange 224° True radials.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551).

This amendment shall become effective 0001 e. s. t., July 1, 1956.

[SEAL] JAMES T. PYLE,
*Acting Administrator of Civil Aeronautics.*

# TITLE 15—COMMERCE AND FOREIGN TRADE

## Chapter V—Weather Bureau, Department of Commerce

## PART 503—SCHEDULE OF CHARGES FOR SERVICES

Insofar as the Administrative Procedure Act may be applicable: Because of the nature of this notice, I find, for good cause shown, that it would be impracticable and unnecessary, and no good reason would be served to give preliminary notice, engage in public rule-making procedure or postpone the effective date thereof.

The effective date of these charges is February 20, 1956.

§ 503.1 *Charges for services and publications*—(a) *Services.*

| | |
|---|---|
| (1) Prints, black and white, enlargements from microfilm (when microfilm has been previously prepared): | |
| 8 by 10 or smaller | $0.22 |
| 11 by 14 or larger | .35 |
| (2) Prints, photocopy: | |
| 11 by 14 or smaller | .35 |
| Larger than 11 by 14 | .55 |
| (3) Prints, contact (on positive paper for use as photolithographic copy): | |
| 11 by 14 | 2.50 |
| 20 by 24 | 3.50 |
| 30 by 40 | 5.00 |
| (4) Microfilm: | |
| Negative film (1 or 2 pages to exposure on panchromatic contrast film): | |
| Per frame or exposure: | |
| 35 millimeter | .05 |
| 16 millimeter | .04 |
| Positive film (when negtive is of uniform density): | |
| 35 millimeter (per foot) | .10 |
| 16 millimeter (per foot) | .08 |
| Aniline dye (when negative is of uniform density): | |
| 35 millimeter (per foot) | .04 |

# TITLE 16—COMMERCIAL PRACTICES

## Chapter I—Federal Trade Commission

[Docket 6376]

## PART 13—DIGEST OF CEASE AND DESIST ORDERS

### PUGET SOUND SALMON CANNERS, INC., ET AL.

Subpart—*Combining or conspiring:* § 13.430 *To enhance, maintain or unify prices;* § 13.475 *To restrict competition in buying.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Puget Sound Salmon Canners, Inc. (Seattle, Wash.), et al., Docket 6376, May 8, 1956]

*In the Matter of Puget Sound Salmon Canners, Inc., a Corporation, Its Officers, Directors, and Members; and Alaska Packers Association, American Packing Company, Burk Canning Company, Inc., Jay F. Carroll, Doing Business as Anacortes Canning Company, Columbia River Packers Association, Inc., Dressel-Collins Fish Company, Farwest Fishermen, Inc., Fishermen's Packing Corporation, Friday Harbor Canning Company, New England Fish Company, Pacific American Fisheries, Inc., Sebastian-Stuart Fish Company, Washington Fish and Oyster Company, Inc., and Whiz Fish Products Company, Individually and as Members of Puget Sound Salmon Canners, Inc.; Purse Seine Vessel Owners Association, Its Officers, Directors, and Members; and Local No. 3, Fishermen & Allied Workers Division, International Longshoremen & Warehousemen's Union*

This proceeding was heard by a hearing examiner on the complaint of the Commission—charging a trade association of canners of salmon caught in Puget Sound and adjacent areas (total pack of which in 1952 had an estimated value of about $12,000,000) and its members, along with an organization of owners of some 60 percent of the Purse Seine vessels engaged in fishing for salmon in that area, and a union of salmon fishermen, including those on such vessels, with collectively controlling the prices at which the raw salmon was purchased and sold by means of agreements between and among themselves—and an agreement for entry of a consent order between 13 of the corporate canner respondents and counsel supporting the complaint.

On this basis, the hearing examiner made his initial decision and order to cease and desist which became, on May 8, 1956, the decision of the Commission.

The order to cease and desist is as follows:

*It is ordered,* That respondents Alaska Packers Association, American Packing Company, Burk Canning Company, Inc., Columbia River Packers Association, Inc., Dressel-Collins Fish Company, Farwest Fishermen, Inc., Fishermen's Packing Corporation, Friday Harbor Canning Company, New England Fish Company, Pacific American Fisheries, Inc., Sebastian-Stuart Fish Company, Washington Fish and Oyster Company, Inc., and Whiz Fish Products Company, Inc., who shall be deemed herein to be parties respondent, their respective officers, agents, representatives and employees, directly or through any corporate or other device, in connection with the purchase, or offering to purchase, in commerce, as "commerce" is defined in the Federal Trade Commission Act, of raw or fresh salmon caught in the fishing area of Puget Sound, do forthwith cease and desist from entering into, continuing, cooperating in or carrying out any planned common and concerted course of action, understanding or agreement between any two or more of said respondents, or between any one or more of said respondents and others not parties hereto, to do or perform any of the following acts:

1. Entering into or carrying out, or attempting to enter into or carry out any "salmon agreement" as defined and explained in the complaint herein, or any other contract, agreement or understanding having the same or similar provisions;

2. Fixing, establishing, adopting, maintaining or adhering to, or attempting to fix, establish, adopt, maintain or cause adherence to, by any means or method any price at which raw or fresh salmon is to be purchased or sold;

3. Jointly or collectively negotiating, bargaining or agreeing by any means or method as to the price or prices at which said raw or fresh salmon is proposed to be, or is, purchased or sold;

4. Authorizing or empowering any association, group, corporation, or union to negotiate, bargain or agree as to the prices to be paid in the purchase or sale of any such raw or fresh salmon;

*Provided, however,* That nothing herein contained shall be construed or interpreted as preventing or prohibiting any respondent named herein, individually, from purchasing or selling, or bargaining for the purchase or sale of such salmon with any boat owner, boat captain, or any other single seller or buyer.

*Provided further,* That nothing herein contained shall prevent any association of bona fide salmon fishermen, acting pursuant to or in accordance with the provisions of the Fisheries Cooperative Marketing Act (15 U. S. C. A. sections 521 and 522) from performing any of the acts and practices permitted by said act; and

*Provided further,* That nothing herein contained shall be deemed to prohibit one or more of the respondents herein from entering into or continuing a bona fide partnership, joint operation, or venture, or consolidation, for the purpose of operating one or more canneries and in which the prices of raw salmon are determined by said partnership, joint operation or venture, or consolidation, and where such determination is under the contract establishing such partnership, joint operation, or venture or consolidation, binding upon all members thereof. This proviso shall not be construed as either an approval or disapproval of any

specific partnership, joint operation, or venture, or consolidation, nor as permitting any such partnership, joint operation, or venture, or consolidation, to be continued or formed for the purpose of or with the effect, directly or indirectly, of rendering ineffective or unenforceable the inhibitions of this order and the purposes thereof.

*Provided further*, That if the pending proceeding against respondents Purse Seine Vessel Owners Association and Local No. 3, Fishermen & Allied Workers Division, International Longshoremen & Warehousemen's Union is finally terminated in any manner except by the issuance of an order to cease and desist, either (a) by consent, or (b) by final order of the Commission not subject to further review, or (c) by order of the Commission, which, although subject to further review, continues effective, requiring said respondents Union and Boat Owners Association to cease and desist from the same or similar acts or practices provided by the order contained herein, then this order shall terminate and cease to be of any effect.

By "Decision of the Commission", etc., report of compliance was required as follows:

*It is ordered*, That respondents Alaska Packers Association, American Packing Company, Burk Canning Company, Inc., Columbia River Packers Association, Inc., Dressel-Collins Fish Company, Farwest Fishermen, Inc., Fishermen's Packing Corporation, Friday Harbor Canning Company, New England Fish Company, Pacific American Fisheries, Inc., Sebastian-Stuart Fish Company, Washington Fish and Oyster Company, Inc., and Whiz Fish Products Company, Inc., shall within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: May 8, 1956.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary.*

[Docket 6500]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

WESTERN STAR MILL CO. ET AL.

Subpart—*Using, selling, or supplying lottery devices:* § 13.2475 *Devices for lottery selling.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Western Star Mill Co. (Salina, Kans.) et al., Docket 6500, May 10, 1956]

*In the Matter of Western Star Mill Co., a Corporation, and John J. Vanier, and Robert H. Adams, Individually, and as Officers of Western Star Mill Co., and L. P. McCarty, an Individual*

This proceeding was heard by a hearing examiner on the complaint of the Commission—charging a corporate flour mill and its officers, with place of business at Salina, Kansas, and a wholesale grocery dealer of Tupelo, Mississippi, with furnishing to retail dealers and other purchasers of their flour, devices and merchandising plans involving the operation of a lottery scheme in that purchasers of a bag of respondents' flour who by chance selected either of two lucky numbers on a push card received an additional 25-pound bag of flour, which was thus awarded wholly by lot or chance—and an agreement between the parties providing for entry of a consent order.

On this basis, the hearing examiner made his initial decision and order to cease and desist which became, on May 10, 1956, the decision of the Commission.

The order to cease and desist is as follows:

*It is ordered*, That respondents Western Star Mill Co., a corporation, and John J. Vanier and Robert H. Adams, individually and as officers of Western Star Mill Co., and respondent L. P. McCarty, an individual, their representatives, agents and employees, directly or through any corporate or other device in connection with the offering for sale, sale and distribution of flour or any other merchandise in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Using any sales promotion plan or scheme whereby purchasers of their said products are entitled to participate in the award of flour or other prizes, the winners of which are determined by the use of push card, pull cards, or any other lottery devices.

2. Selling or otherwise disposing of any merchandise through the use of, or by means of, a game of chance, gift enterprise or lottery scheme.

By "Decision of the Commission", etc., report of compliance was required as follows:

*It is ordered*, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: May 10, 1956.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary.*

# PROPOSED RULE MAKING

## DEPARTMENT OF AGRICULTURE

### Agricultural Marketing Service

### [ 7 CFR Part 52 ]

CANNED APRICOTS [1]

U. S. STANDARDS FOR GRADES

Notice is hereby given that the United States Department of Agriculture is considering the revision of the United States Standards for Grades of Canned Apricots, pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087 et seq., as amended; 7 U. S. C. 1621 et seq.). This revision, if made effective, will be the fourth issue by the Department of grade standards for this product.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed revision should file the same with the Chief, Processed Products Standardization and Inspection Branch, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C. not later than December 31, 1956.

The proposed revision is as follows:

PRODUCT DESCRIPTION, STYLES, AND GRADES

Sec.
52.2641 Product description.
52.2642 Styles of canned apricots.
52.2643 Grades of canned apricots.
52.2644 Grades of canned "solid-pack" apricots.

LIQUID MEDIA, FILL OF CONTAINER, AND DRAINED WEIGHTS

52.2645 Liquid media and Brix measurements for canned apricots.
52.2646 Fill of container for canned apricots.

[1] Compliance with the provisions of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

Sec.
52.2647 Recommended fill of container for canned "dietetic" and "solid-pack" apricots.
52.2648 Recommended minimum drained weights for canned apricots.
52.2649 Compliance with recommended drained weights.

FACTORS OF QUALITY

52.2650 Ascertaining the grade.
52.2651 Ascertaining the rating for the factors which are scored.
52.2652 Color.
52.2653 Uniformity of size and symmetry.
52.2654 Absence of defects.
52.2655 Character.

LOT CERTIFICATION TOLERANCES

52.2656 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.2657 Score sheet for canned apricots.

AUTHORITY: §§ 52.2641–52.2657 issued under sec. 205, 60 Stat. 1090, as amended; 7 U. S. C. 1624.

PRODUCT DESCRIPTION, STYLES, AND GRADES

§ 52.2641 *Product description*—(a) *Canned apricots.* "Canned apricots" means "canned apricots" as such product is defined in the standard of identity for canned apricots (21 CFR 27.10) issued pursuant to the Federal Food, Drug, and Cosmetic Act. For the purposes of the standards in this subpart, and unless the text indicates otherwise, the terms "canned apricots" include "canned apricots" as defined in the aforesaid standard of identity, canned "solid-pack" apricots, canned "dietetic" apricots, and canned "spiced" apricots.

(b) *Canned "solid-pack" apricots.* For the purposes of the standards in this subpart, canned apricots when referred to as "canned 'solid-pack' apricots" means prepared apricots packed without a liquid packing medium, with or without a dry nutritive sweetening ingredient added, and sufficiently processed by heat to assure preservation of the product in hermetically sealed containers. "Solid-pack" apricots to which a dry nutritive sweetening ingredient has been added are considered "sweetened."

(c) *Canned "dietetic" apricots.* For the purposes of the standards in this subpart, canned apricots when referred to as "canned 'dietetic' apricots" means canned apricots without nutritive sweetening ingredient(s) added and declared for dietary use, or with artificial sweetening ingredient(s) added, or with any other ingredient(s) permissible for dietary use under the provisions of the Federal Food, Drug, and Cosmetic Act.

§ 52.2642 *Styles of canned apricots.* (a) "Unpeeled halves" or "Unpeeled halved" canned apricots are unpeeled and pitted apricots cut approximately in half along the suture from stem to apex.

(b) "Peeled halves" or "Peeled halved" canned apricots are peeled and pitted apricots cut approximately in half along the suture from stem to apex.

(c) "Unpeeled slices" or "Unpeeled sliced" canned apricots are unpeeled and pitted apricots cut into thin sectors or strips.

(d) "Unpeeled whole" canned apricots are unpeeled, unpitted, whole apricots with or without stems removed.

(e) "Peeled whole" canned apricots are peeled, unpitted, whole apricots with stems removed.

(f) "Unpeeled mixed pieces of irregular sizes and shapes" are cut units of canned unpeeled apricots that are predominantly irregular in size and shape which do not conform to a single style of unpeeled halves, unpeeled slices, or unpeeled whole canned apricots or which are a mixture of two or more of such styles.

(g) "Peeled mixed pieces of irregular sizes and shapes" are cut units of canned peeled apricots that are predominantly irregular in size and shape which do not conform to a single style of peeled halves or peeled whole canned apricots or which are a mixture of such styles.

§ 52.2643 *Grades of canned apricots.* (a) "U. S. Grade A" or "U. S. Fancy" is the quality of unpeeled or peeled halves, unpeeled slices, or unpeeled or peeled whole canned apricots that possess similar varietal characteristics; that possess a normal flavor and odor, that possess a good color, that are practically uniform in size and symmetry for the applicable style, that are practically free from defects, that possess a good character, and that for those factors which are scored in accordance with the scoring system outlined in this subpart the total score is not less than 90 points: *Provided*, That unpeeled or peeled halves, unpeeled slices, or unpeeled or peeled whole canned apricots may possess a reasonably good color that scores not less than 17 points, may be reasonably uniform in size and symmetry for the applicable style except for limits for off-suture cuts in unpeeled halves, and may possess a reasonably good character, if the total score is not less than 90 points.

(b) "U. S. Grade B" or "U. S. Choice" is the quality of unpeeled or peeled halves, unpeeled slices, unpeeled or peeled whole, or unpeeled or peeled mixed pieces of irregular sizes and shapes of canned apricots that possess similar varietal characteristics; that possess a normal flavor and odor, that possess a reasonably good color, that are reasonably uniform in size and symmetry for the applicable style, that are reasonably free from defects, that possess a reasonably good character, and that for those factors which are scored in accordance with the scoring system outlined in this subpart the total score is not less than 80 points: *Provided*, That unpeeled or peeled halves, or unpeeled or peeled whole canned apricots may be fairly uniform in size and symmetry except for limits for off-suture cuts in unpeeled halves, if the total score is not less than 80 points.

(c) "U. S. Grade C" or "U. S. Standard" is the quality of unpeeled or peeled halves, unpeeled slices, unpeeled or peeled whole, or unpeeled or peeled mixed pieces of irregular sizes and shapes of canned apricots that possess similar varietal characteristics; that possess a normal flavor and odor, that possess a fairly good color, that are fairly uniform in size and symmetry for the applicable style, that are fairly free from defects, that possess a fairly good character, and that for those factors which are scored in accordance with the scoring system outlined in this subpart the total score is not less than 70 points.

(d) "U. S. Grade D" is the quality of unpeeled or peeled halves, unpeeled slices, unpeeled or peeled whole, or unpeeled or peeled mixed pieces of irregular sizes and shapes of canned apricots that may possess dissimilar varietal characteristics; that possess a normal flavor and odor, that possess a fairly good color, that may vary in size and symmetry for the applicable style, that are fairly free from defects except for crushed and broken units in the styles of halves or whole style, that possess a noticeable variability in character, and that for those factors which are scored in accordance with the scoring system outlined in this subpart the total score is not less than 60 points. Canned apricots of this grade may or may not meet the minimum standard or quality for canned apricots issued pursuant to the Federal Food, Drug, and Cosmetic Act.

(e) "Substandard" is the quality of canned apricots that fail to meet the applicable requirements of U. S. Grade C or U. S. Standard or of U. S. Grade D and is the quality of canned apricots that may or may not meet the minimum standard of quality for canned apricots issued pursuant to the Federal Food, Drug, and Cosmetic Act.

§ 52.2644 *Grades of canned "solid-pack" apricots.* (a) "U. S. Grade C Solid-Pack" or "U. S. Standard Solid-Pack" is the quality of unpeeled or peeled halves, unpeeled slices, unpeeled or peeled whole, or unpeeled or peeled mixed pieces of irregular sizes and shapes of canned "solid-pack" apricots that possess a normal flavor and odor; that possess a fairly good color for canned "solid-pack" apricots, that are fairly free from defects for canned "solid-pack" apricots, that possess a fairly good character for canned "solid-pack" apricots, and that for those factors which are scored in accordance with the scoring system outlined in this subpart score not less than 70 points.

(b) "U. S. Grade D Solid-Pack" is the quality of unpeeled or peeled halves, unpeeled slices, unpeeled or peeled whole, or unpeeled or peeled mixed pieces of irregular sizes and shapes of canned "solid-pack" apricots that possess a normal flavor and odor; that possess a fairly good color for canned "solid-pack" apricots, that are fairly free from defects for canned "solid-pack" apricots except for blemished units, that possess a noticeable variability in character for canned "solid-pack" apricots, and that for those factors which are scored in accordance with the scoring system outlined in this subpart score not less than 60 points.

(c) "Substandard Solid-Pack" is the quality of unpeeled or peeled halves, unpeeled slices, unpeeled or peeled whole, or unpeeled or peeled mixed pieces of

drained weights from all the containers which are representative of a specific lot and such lot is considered as meeting the recommendations if the following criteria are met:

(a) The average of the drained weights from all of the containers meets the recommended drained weight;

(b) One-half or more of the containers meet the recommended drained weight; and

(c) The drained weights from the containers which do not meet the recommended drained weight are within the range of variability for good commercial practice.

TABLE I—RECOMMENDED MINIMUM DRAINED WEIGHTS FOR CANNED APRICOTS (DETERMINED IMMEDIATELY AFTER PROCESSING)

| Container designations (metal, unless otherwise stated) | Container size—overall dimensions | | Any grade in any syrup or other liquid medium, including "dietetic" apricots | |
|---|---|---|---|---|
| | Width | Height | Unpeeled or peeled halves; unpeeled slices; unpeeled or peeled mixed pieces of irregular sizes and shapes | Unpeeled whole; peeled whole |
| | *Inches* | *Inches* | *Ounces* | *Ounces* |
| 8 Z tall | 2 1/16 | 3 5/16 | 4 1/2 | 4 1/2 |
| 8-ounce glass | 3 1/16 | 4 1/16 | 6 1/2 | 6 1/2 |
| No. 1 tall | 3 1/16 | 4 13/16 | 9 | 8 1/2 |
| No. 303 | 3 3/16 | 4 9/16 | 9 | 8 1/2 |
| 303 glass | | | 9 | 8 1/2 |
| No. 2 | 3 7/16 | 4 5/16 | 11 1/2 | 10 1/2 |
| No. 2 1/2 | 4 1/16 | 4 13/16 | 15 1/2 | 15 |
| No. 2 1/2 glass | | | 16 1/2 | 14 1/2 |
| No. 10 | 6 3/16 | 7 | 69 | 58 |
| | | | "Heavy pack"—any style, in any liquid medium except "dietetic packs" | "Solid-pack"—all applicable styles; sweetened or unsweetened |
| No. 2 1/2 | 4 1/16 | | *Ounces* 70 | *Ounces* 24 |
| No. 10 | 6 3/16 | | | 88 |

TABLE II—RECOMMENDED MINIMUM DRAINED WEIGHTS FOR CANNED APRICOTS

| Container designations (metal, unless otherwise stated) | Container size—overall dimensions | | Any grade in any syrup or other liquid medium, including "dietetic" apricots | |
|---|---|---|---|---|
| | Width | Height | Unpeeled or peeled halves; unpeeled slices; unpeeled or peeled mixed pieces of irregular sizes and shapes | Unpeeled whole; peeled whole |
| | *Inches* | *Inches* | *Ounces* | *Ounces* |
| 8 Z tall | 2 1/16 | 3 5/16 | 5 | 4 1/2 |
| 8-ounce glass | 3 1/16 | 4 1/16 | 9 1/2 | 9 |
| No. 1 tall | 3 1/16 | 4 13/16 | 9 1/2 | 9 |
| No. 303 | 3 3/16 | 4 9/16 | 9 1/2 | 9 |

| No. 2 | 3 7/16 | 4 5/16 | 12 | 11 1/2 |
| No. 2 1/2 | 4 1/16 | 4 13/16 | 16 1/2 | 15 1/2 |
| No. 2 1/2 glass | | | 16 1/2 | 15 1/2 |
| No. 10 | 6 3/16 | 7 | 64 | 61 |
| | | | "Heavy pack"—any style, in any liquid medium except "dietetic packs" | "Solid-pack"—all applicable styles; sweetened or unsweetened |
| No. 2 1/2 | 4 1/16 | | *Ounces* 70 | *Ounces* 24 |
| No. 10 | 6 3/16 | | | 88 |

"Cut-out" requirements for liquid media in canned apricots are not incorporated in the grades of the finished product since drained weight, as such, is not a factor of quality for the purposes of these grades. The "cut-out" Brix measurement, as applicable, for the respective designations are as follows:

| Designations | Brix measurement |
|---|---|
| "Extra heavy syrup" or "Extra heavy apricot juice syrup" | 25° or more but not more than 40°. |
| "Heavy syrup" or "Heavy apricot juice syrup" | 21° or more but less than 25°. |
| "Light syrup" or "Light apricot juice syrup" | 16° or more but less than 21°. |
| "Slightly sweetened water" or "Slightly sweetened apricot juice" | Less than 16°. |
| "In water" | Packed in water. |
| "In apricot juice" | Packed in apricot juice. |

LIQUID MEDIA, FILL OF CONTAINER, AND DRAINED WEIGHTS

§ 52.2645 *Liquid media and Brix measurements for canned apricots.* The standard of quality for canned apricots that fail to meet the requirements of "U. S. Grade D Solid-Pack".

§ 52.2646 *Fill of container for canned apricots.* The standard of fill of container for canned apricots is the maximum quantity of the apricot units which can be sealed in the container and processed by heat to prevent spoilage, without crushing or breaking such ingredient. Canned apricots that do not meet this requirement are "Below Standard in Fill."

§ 52.2647 *Recommended fill of container for canned "dietetic" and "solid-pack" apricots.* The recommended fill of container for canned "dietetic" and "solid-pack" apricots is not incorporated in the grades of the finished product since fill of container, as such, is not a factor of quality for the purposes of these grades. It is recommended that each container of "dietetic" or "solid-pack" apricots be as full of apricots as practicable without impairment of quality and that the product occupy not less than 90 percent of the volume of the container.

§ 52.2648 *Recommended minimum drained weights for canned apricots*—(a) *General.* The minimum drained weight recommendations for the various applicable styles in Table I or Table II are not incorporated in the grades of the finished product since drained weight, as such, is not a factor of quality for the purposes of these grades.

(1) *Table I.* The recommendations in Table I apply only when the drained weight determination is made immediately after processing. For the purposes of ascertaining compliance with the recommended minimum drained weights in Table I, "immediately after processing" means after the product has been cooled to room temperature and during a period of more than 8 hours to not more than 24 hours after processing.

(2) *Table II.* The recommendations in Table II apply when the drained weight determination is made at periods other than immediately after processing.

(b) *Method for ascertaining drained weight.* The drained weight of canned apricots, canned "dietetic" apricots, and canned "solid-pack" apricots is determined by emptying the contents of the container, turning the pit cavities down in halves, upon a United States Standard No. 8 circular sieve of proper diameter containing 8 meshes to the inch (0.0937-inch±3%, square openings) so as to distribute the product evenly, inclining the sieve slightly to facilitate drainage, and allowing to drain for two minutes. The drained weight is the weight of the sieve and apricots less the weight of the dry sieve. A sieve 8 inches in diameter is used for the equivalent of No. 3 size cans (404 x 414) and smaller, and a sieve 12 inches in diameter is used for containers larger than the equivalent of the No. 3 size can.

§ 52.2649 *Compliance with recommended drained weights.* Compliance with the recommended drained weights for canned apricots, canned "dietetic" apricots, and canned "solid-pack" apricots is determined by averaging the

FACTORS OF QUALITY

§ 52.2650 *Ascertaining the grade*—(a) *General.* In addition to considering other requirements outlined in the standards the following quality factors are evaluated:

(1) *Factors not rated by score points in canned apricots other than canned "solid-pack" apricots.* (i) Varietal characteristics.

(ii) Flavor and odor.

(2) *Factors not rated by score points in canned "solid-pack" apricots.* (i) Flavor and odor.

(3) *Factors rated by score points in canned apricots.* The relative importance of each factor which is scored is expressed numerically on the scale of 100. The maximum number of points that may be given such factors are:

| | Points |
|---|---|
| (i) Color | 20 |
| (ii) Uniformity of size and symmetry | 20 |
| (iii) Absence of defects | 30 |
| (iv) Character | 30 |
| Total score | 100 |

(b) *Definition of flavor and odor.* "Normal flavor and odor" means that the canned apricots are free from objectionable flavors and objectionable odors of any kind.

§ 52.2651 *Ascertaining the rating for the factors which are scored.* The essential variations within each factor which is scored are so described that the value may be ascertained for each factor and expressed numerically. The numerical range within each factor which is scored is inclusive (for example, "18 to 20 points" means 18, 19, or 20 points).

§ 52.2652 *Color*—(a) *General.* (1) The color of canned apricots other than canned "spiced" apricots refers to the characteristic color of the outer surfaces of the units; and the varying degrees of "pale yellow areas", "light greenish-yellow areas", and "light green areas", refer to the outer surfaces of either peeled or unpeeled units.

(2) The factor of color for canned "spiced" apricots is not based on any detailed requirement and is not scored but the color shall be normal for canned "spiced" apricots; the other three factors (uniformity of size and symmetry, absence of defects, and character as applicable) are scored and the total is multiplied by 100 and divided by 80, dropping any fractions to determine the total score.

(b) *(A) classification.* Unpeeled or peeled halves, unpeeled slices, unpeeled or peeled whole, or unpeeled or peeled mixed pieces of irregular sizes and shapes of canned apricots that possess a good color may be given a score of 18 to 20 points. Unpeeled or peeled mixed pieces of irregular sizes and shapes of canned apricots that score 18 to 20 points shall not be graded above U. S. Grade B or U. S. Choice, regardless of the total score for the product (this is a partial limiting rule). "Good color" means that the canned apricots possess a typical color characteristic of well-matured apricots which color is practically uniform; that the canned apricots are free from brown color due to oxidation, improper processing, or other causes; and that, in addition, has the following meanings for the respective styles:

(1) *Unpeeled or peeled halves; unpeeled or peeled whole.* All of the units may possess pale yellow areas not exceeding one-fourth on a unit; not more than a total of 5 percent, by count, of the units or 1 unit may possess a reasonably good color including pale yellow areas exceeding one-fourth but not exceeding one-half on a unit or may possess light greenish-yellow areas not exceeding one-fourth on a unit; but none of the units may possess a fairly good color including pale yellow areas exceeding one-half on a unit or light greenish-yellow areas exceeding one-fourth on a unit or light green areas on a unit.

(2) *Unpeeled slices; unpeeled or peeled mixed pieces of irregular sizes and shapes.* Not more than 5 percent, by weight, of the drained fruit may possess a reasonably good color or may consist of units that possess predominating pale yellow or light greenish-yellow areas and none of the units may possess a fairly good color including predominating light green areas.

(c) *(B) classification.* Unpeeled or peeled halves, unpeeled slices, unpeeled or peeled whole, or unpeeled or peeled mixed pieces of irregular sizes and shapes of canned apricots that possess a reasonably good color may be given a score of 16 or 17 points. Unpeeled or peeled mixed pieces of irregular sizes and shapes of canned apricots that fall into this classification or other styles that score 16 points shall not be graded above U. S. Grade B or U. S. Choice, regardless of the total score for the product (this is a partial limiting rule). "Reasonably good color" means that the canned apricots possess a typical color characteristic of reasonably well-matured apricots which color is reasonably uniform; that the canned apricots are free from brown color due to oxidation, improper processing, or other causes; and that, in addition, has the following meanings for the respective styles:

(1) *Unpeeled or peeled halves; unpeeled or peeled whole.* All of the units may possess pale yellow areas not exceeding one-half on a unit or may possess light greenish-yellow areas not exceeding one-fourth on a unit; not more than a total of 10 percent, by count, of the units or 1 unit may possess a fairly good color including pale yellow areas exceeding one-half on a unit or light greenish-yellow areas exceeding one-fourth on a unit or light green areas exceeding one-fourth on a unit.

(2) *Unpeeled slices; unpeeled or peeled mixed pieces of irregular sizes and shapes.* Not more than 10 percent, by weight, of the drained fruit may possess a fairly good color or may consist of units that possess predominating pale yellow or light greenish-yellow areas or light green areas: *Provided,* That such light green areas do not affect materially the appearance of the product.

(d) *(C), (D) classification.* Unpeeled or peeled halves, unpeeled slices, unpeeled or peeled whole, or unpeeled or peeled mixed pieces of irregular sizes and shapes of canned apricots that possess a fairly good color may be given a score of 14 or 15 points. Canned apricots that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly good color" means that the canned apricots possess a typical color characteristic of fairly well-matured apricots which color is fairly uniform; that the canned apricots may possess not more than a slight brown color due to oxidation, improper processing, or other causes; and that, in addition, has the following meanings for the respective styles:

(1) *Unpeeled or peeled halves; unpeeled or peeled whole.* All of the units may possess pale yellow areas, may possess light greenish-yellow areas not exceeding one-half on a unit, or may possess light green areas not exceeding one-fourth on a unit; and not more than a total of 10 percent, by count, of the units or 1 unit may possess light greenish-yellow areas exceeding one-half on a unit or may possess light green areas exceeding one-fourth on a unit.

(2) *Unpeeled slices; unpeeled or peeled mixed pieces of irregular sizes and shapes.* Not more than 10 percent, by weight, of the drained fruit may consist of units that possess predominating light greenish-yellow areas or light green areas or shades of color not typical of fairly well-matured apricots: *Provided,* That such color does not affect seriously the appearance of the product.

(e) *(C–SP) and (D–SP) classifications.* Unpeeled or peeled halves, unpeeled slices, unpeeled or peeled whole, or unpeeled or peeled mixed pieces of irregular sizes and shapes of canned "solid-pack" apricots that possess a fairly good color for canned "solid-pack" apricots may be given a score of 14 or 15 points. Canned "solid-pack" apricots that fall into this classification shall not be graded above U. S. Grade C Solid-Pack or U. S. Standard Solid-Pack, regardless of the total score for the product (this is a limiting rule). "Fairly good color for canned 'solid-pack' apricots" means that the canned apricots possess a color characteristic of fairly well-matured apricots; that the canned apricots may possess not more than a slight brown color due to oxidation, improper processing, or other causes; and that not more than 15 percent, by weight, of the drained fruit may consist of units that possess light greenish-yellow areas or light green areas or shades of color not typical of fairly well-matured apricots: *Provided,* That such color does not affect seriously the appearance of the product.

(f) *(SStd) and (SStd–SP) classification.* Canned apricots and canned "solid-pack" apricots that fail to meet the requirements of paragraph (d) or (e) of this section may be given a score of 0 to 13 points and shall not be graded above Substandard or Substandard Solid-Pack, whichever is applicable, regardless or the total score for the product (this is a limiting rule).

§ 52.2353 *Uniformity of size and symmetry*—(a) *General.* The factor of uniformity of size and symmetry for unpeeled slices and unpeeled or peeled mixed pieces of irregular sizes and shapes of canned apricots and all applicable styles of canned "solid-pack" apricots is not based on any detailed requirements and is not scored; the other three factors (color, absence of defects, and character as applicable) are scored and the total is multiplied by 100 and divided by 80, dropping any fractions to determine the total score.

(b) *Off-suture cut.* "Off-suture cut" in unpeeled halved canned apricots means a halved unit which has been cut at a distance from the suture greater than ¼ inch at the widest measurement from the suture.

(c) (*A*) *classification.* Unpeeled or peeled halves or unpeeled or peeled whole canned apricots that are practically uniform in size and summetry may be given a score of 18 to 20 points. "Practically uniform in size and symmetry" in halved and whole canned apricots means that the units are very symmetrical; that the weight of the largest full-size unit does not exceed the weight of the smallest full-size unit by more than 50 percent; that the weight of each half is not less than ⅔ ounce; and that not more than 5 percent, by count, of the units in the style of unpeeled halves may possess off-suture cuts.

(d) (*B*) *classification.* Unpeeled or peeled halves or unpeeled or peeled whole canned apricots that are reasonably uniform in size and symmetry may be given a score of 16 or 17 points. Unpeeled halved canned apricots that possess more than 10 percent, by count, of the units that are off-suture cuts shall not be graded above U. S. Grade B or U. S. Choice, regardless of the total score for the product (this is a partial limiting rule). "Reasonably uniform in size and symmetry" in halved and whole canned apricots means that the units are reasonably symmetrical; that the weight of the largest full-size unit does not exceed the weight of the smallest full-size unit by more than 75 percent; that the weight of each half is not less than ⅔ ounce; and that not more than 15 percent, by count, of the units in the style of unpeeled halves may possess off-suture cuts.

(e) (*C*) *classification.* Unpeeled or peeled halves or unpeeled or peeled whole canned apricots that are fairly uniform in size and symmetry may be given a score of 14 or 15 points. Except for off-suture cuts in unpeeled halves, canned apricots that fall into this classification shall not be graded above U. S. Grade B or U. S. Choice, regardless of the total score for the product; and unpeeled halves of canned apricots that possess more than 15 percent, by count, of the units that are off-suture cuts shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a partial limiting rule). "Fairly uniform in size and symmetry" in halved and whole canned apricots means that the units may vary in size, thickness, and symmetry; that the weight of the largest full-size unit may be not more than twice the weight of the smallest full-size unit; that the weight of each half is not less than ⅔ ounce; and that not more than 30 percent, by count, of the units in the style of unpeeled halves may possess off-suture cuts.

(f) (*D*) *and* (*SStd*) *classification.* Canned apricots of the applicable styles which fail to meet paragraph (e) of this section may be given a score of 0 to 13 points and shall not be graded above the following stated grade, regardless of the total score for the product (this is a limiting rule):

(1) Halves or whole canned apricots in which the weight of the largest full-size unit is more than twice the weight of the smallest full-size unit shall not be graded above U. S. Grade D and are also "Below Standard in Quality—Mixed Sizes."

(2) Halves of canned apricots in which the weight of any half is less than ⅔ ounce shall not be graded above U. S. Grade D and are also "Below Standard in Quality—Small Halves."

(3) Unpeeled halves of canned apricots in which more than 30 percent, by count, of the units are off-suture cuts shall not be graded above U. S. Grade D.

§ 52.2654 *Absence of defects*—(a) *General.* The factor of absence of defects as applicable for the respective styles refers to the degree of freedom from pit material, from loose pits, from harmless extraneous material, from short stems, from peel, from minor blemishes and blemishes, from crushed or broken units, and from any other defects which affect the appearance or edibility of the product.

(b) *Definitions and explanations of defects*—(1) *Harmless extraneous material.* "Harmless extraneous material" means any vegetable substance (such as, but not limited to, a leaf or portion thereof or a large stem) that is harmless.

(2) *Short stem.* A "short stem" means the short, thick, woody stem which attaches the apricot to the twig of the tree or other stem material of equivalent woodiness and shortness.

(3) *Pit material.* "Pit material" means any whole pit in other than whole styles or any portion of an apricot pit, regardless of size, except when whole apricot pits or apricot kernels are permitted as seasoning ingredients in other than whole style.

(4) *Loose pit.* A "loose pit" means a whole, unbroken pit not adhering to the flesh of a unit in the styles of whole apricots.

(5) *Minor blemishes.* "Minor blemishes" in unpeeled styles include "freckles" and also mean:

(i) Light brown to brown surface areas which, singly or in combination on a unit, exceed in the aggregate the area of a circle ⅛ inch in diameter but do not exceed in the aggregate the area of a circle ¼ inch in diameter; or

(ii) Single dark brown surface areas that do not exceed the area of a circle ⅛ inch in diameter but which, singly or in combination with other "minor blemishes" on a unit, affect materially but not seriously the appearance of the unit. Light brown to brown surface areas and "freckles" that are insignificant and less than the area of a circle ⅛ inch in diameter and which do not affect materially the appearance of the unit are not considered "defects."

(6) *Blemishes.* "Blemishes" in canned apricots include units affected by scab, hail injury, discoloration, or other abnormalities in the following degree:

(i) Light brown to brown surface areas in unpeeled styles which, singly or in combination on a unit, exceed in the aggregate the area of a circle ¼ inch in diameter.

(ii) Blemishes that extend into the fruit tissue regardless of area or depth;

(iii) Single dark brown surface areas in unpeeled styles that exceed the area of a circle ⅛ inch in diameter, whether or not the unit is affected by minor blemishes; or

(iv) Any blemish whether or not specifically defined or mentioned in this subparagraph which affects seriously the appearance of the unit but is not a filthy or decomposed substance.

(7) *Crushed or broken.* "Crushed or broken" means that:

(i) A unit in halves or whole style of canned apricots is "crushed" if the unit has definitely lost its normal shape and bears marks of crushing or is otherwise crushed not due to ripeness; and

(ii) A unit in halves or whole style of canned apricots is "broken" if severed into definite parts; halves of canned apricots that are slightly or partially split or mashed from the edge to the pit cavity are not considered broken, or units in the style of peeled whole apricots that are mashed or very soft due to ripeness to the extent that the pit cavity is exposed or a seed missing therefrom is not crushed or broken. Portions equivalent to a full-size unit that has been broken are considered as one unit in determining the percentage by count.

(c) (*A*) *classification.* Unpeeled or peeled halves, unpeeled slices, unpeeled or peeled whole, or unpeeled or peeled mixed pieces of irregular sizes and shapes of canned apricots that are practically free from defects may be given a score of 27 to 30 points. Unpeeled or peeled mixed pieces of irregular sizes and shapes of canned apricots that score 27 to 30 points shall not be graded above U. S. Grade B or U. S. Choice, regardless of the total score for the product (this is a partial limiting rule). "Practically free from defects" means that the canned apricots are practically free from pit material and from any defects not specifically mentioned that affect the appearance or edibility of the product; and the following defects may be present within the limits stated for the respective styles of canned apricots:

(1) *Unpeeled or peeled halves; unpeeled or peeled whole.* (i) No harmless extraneous material;

(ii) Not more than an average of 1 short stem for each 30 ounces of contents;

(iii) Not more than an average of ⅛ square inch of peel for each pound of contents in peeled styles;

(iv) Not more than 2 loose pits for each 30 ounces of contents in whole apricots;

(v) Not more than 5 percent, by count, of the units may be crushed or broken or one unit in a container is permitted to be crushed or broken if such unit exceeds the allowance of 5 percent, by count: *Provided,* That in all containers comprising the sample such crushed or broken units do not exceed an average of 5 percent of the total number of units; and

(vi) Not more than a total of 10 percent, by count, of the units may possess minor blemishes and blemishes: *Provided,* That not more than 5 percent, by count, of the units possess blemishes. One unit in a container is permitted to possess minor blemishes or blemishes if such unit exceeds the respective allowances of 10 percent or 5 percent, by count: *Provided,* That in all containers comprising the sample such units possessing minor blemishes and blemishes do not exceed an average of 10 percent of the total number of units including not more than an average of 5 percent of the total number of units that may possess blemishes.

(2) *Unpeeled slices; unpeeled or peeled mixed pieces of irregular sizes and shapes.* (i) No harmless extraneous material;

(ii) Not more than an average of 1 short stem for each 30 ounces of contents;

(iii) Not more than an average of ⅛ square inch of peel for each pound of contents in peeled style; and

(iv) Not more than 5 percent, by weight, of the drained fruit may consist of units that possess minor blemishes and blemishes: *Provided,* That the appearance or edibility of the product is not more than slightly affected.

(d) (*B*) *classification.* Unpeeled or peeled halves, unpeeled slices, or unpeeled or peeled whole, or unpeeled or peeled mixed pieces of irregular sizes and shapes of canned apricots that are reasonably free from defects may be given a score of 24 to 26 points. Canned apricots that fall into this classification shall not be graded above U. S. Grade B or U. S. Choice, regardless of the total score for the product (this is a limiting rule). "Reasonably free from defects" means that the canned apricots are practically free from pit material; are reasonably free from any defects not specifically mentioned that affect the appearance or edibility of the product; and the following defects may be present within the limits stated for the respective styles of canned apricots:

(1) *Unpeeled or peeled halves; unpeeled or peeled whole.* (i) Not more than 1 piece of harmless extraneous material for each 100 ounces of contents;

(ii) Not more than an average of 2 short stems for each 30 ounces of contents;

(iii) Not more than an average of ¼ square inch of peel for each pound of contents in the peeled styles;

(iv) Not more than 3 loose pits for each 30 ounces of contents in whole apricots;

(v) Not more than 5 percent, by count, of the units may be crushed or broken or one unit in a container is permitted to be crushed or broken if such unit exceeds the allowance of 5 percent, by count: *Provided,* That in all containers comprising the sample such crushed or broken units do not exceed an average of 5 percent of the total number of units; and

(vi) Not more than a total of 20 percent, by count, of the units may possess minor blemishes and blemishes: *Provided,* That not more than 10 percent, by count, of the units possess blemishes. One unit in a container is permitted to possess minor blemishes or blemishes if such unit exceeds the respective allowances of 20 percent or 10 percent, by count: *Provided,* That in all containers comprising the sample such units possessing minor blemishes and blemishes do not exceed an average of 20 percent of the total number of units including not more than an average of 10 percent of the total number of units that may possess blemishes.

(2) *Unpeeled slices; unpeeled or peeled mixed pieces of irregular sizes and shapes.* (i) Not more than 1 piece of harmless extraneous material for each 100 ounces of contents;

(ii) Not more than an average of 2 short stems for each 30 ounces of contents;

(iii) Not more than an average of ¼ square inch of peel for each pound of contents in peeled style;

(iv) Not more than 10 percent, by weight, of the drained fruit may consist of units that possess minor blemishes and blemishes: *Provided,* That the appearance or edibility of the product is not materially affected.

(e) (*C*) *classification.* Unpeeled or peeled halves, unpeeled slices, unpeeled or peeled whole, or unpeeled or peeled mixed pieces of irregular sizes and shapes of canned apricots that are fairly free from defects may be given a score of 21 to 23 points. Canned apricots that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly free from defects" means that the canned apricots are practically free from pit material; are fairly free from any defects not specifically mentioned (and including excessive trimming in halved or whole style) that affect the appearance or edibility of the product; and the following defects may be present within the limits stated for the respective styles of canned apricots:

(1) *Unpeeled or peeled halves; unpeeled or peeled whole.* (i) Not more than 1 piece of harmless extraneous material for each 30 ounces of contents;

(ii) Not more than an average of 3 short stems for each 30 ounces of contents;

(iii) Not more than an average of ½ square inch of peel for each pound of contents in peeled style;

(iv) Not more than 4 loose pits for each 30 ounces of contents in whole apricots;

(v) Not more than 5 percent, by count, of the units may be crushed or broken or one unit in a container is permitted to be crushed or broken if such unit exceeds the allowance of 5 percent, by count: *Provided,* That in all containers comprising the sample such crushed or broken units do not exceed an average of 5 percent of the total number of units; and

(vi) Not more than a total of 40 percent, by count, of the units may possess minor blemishes and blemishes: *Provided,* That not more than 20 percent, by count, of the units possess blemishes.

(2) *Unpeeled slices; unpeeled or peeled mixed pieces of irregular sizes and shapes.* (i) Not more than 1 piece of harmless extraneous material for each 30 ounces of contents;

(ii) Not more than an average of 3 short stems for each 30 ounces of contents;

(iii) Not more than an average of ½ square inch of peel for each pound of contents in peeled style; and

(iv) Not more than 20 percent, by weight, of the drained fruit may consist of units that possess minor blemishes and blemishes: *Provided,* That the appearance or edibility of the product is not seriously affected.

(f) (*D*) *classification.* Canned apricots of any style which fail to meet the requirements of paragraph (e) of this section but which meet the requirements of this paragraph may be given a score of 0 to 20 points and shall not be graded above U. S. Grade D, regardless of the total score for the product (this is a limiting rule). Halves or whole canned apricots that are thereby U. S. Grade D may also be "Below Standard in Quality"—"Partly Crushed or Broken" or "Unevenly Trimmed," or both. Canned apricots of U. S. Grade D with respect to "absence of defects" are practically free from pit material; are fairly free from any defects not specifically mentioned that affect materially the appearance or edibility of the product; and the following defects may be present within the limits stated for the respective styles of canned apricots:

(1) Not more than 1 piece of harmless extraneous material for each 30 ounces of contents;

(2) Not more than an average of 3 short stems for each 30 ounces of contents;

(3) Not more than an average of ½ square inch of peel for each pound of contents in the peeled styles;

(4) Not more than 4 loose pits for each 30 ounces of contents in whole canned apricots;

(5) Any amount of unevenly trimmed units in halved or whole style;

(6) Any amount of crushed or broken units in halved or whole style; and

(7) In halved or whole style, not more than a total of 40 percent, by count, of the units may possess minor blemishes and blemishes: *Provided,* That not more than 20 percent, by count, of the units possess blemishes; or

(8) In the styles of unpeeled sliced and unpeeled or peeled mixed pieces of irregular sizes and shapes, not more than 20 percent, by weight, of the drained fruit may consist of units that possess minor blemishes and blemishes: *Provided,* That the appearance or edibility of the product is not seriously affected.

(g) (*SStd*) *classification.* Canned apricots that fail to meet the applicable requirements of paragraphs (e) or (f) of this section may be given a score of 0 to 20 points and shall not be graded above the following stated grades, as applicable, regardless of the total score for the product (this is a limiting rule):

(1) Halves or whole canned apricots shall not be graded above Substandard and may also be "Below Standard in Quality" for the applicable reasons:

(i) Partly crushed or broken

(ii) Unevenly trimmed

(iii) Blemished.

(2) Unpeeled slices and unpeeled or peeled mixed pieces of irregular sizes and shapes of canned apricots shall not be graded above Substandard and may also be "Below Standard in Quality"—"Blemished" if more than 20 percent, by count, of the units possess blemishes.

(h) (*C–SP*) *classification.* Unpeeled or peeled halves, unpeeled slices, unpeeled or peeled whole, or unpeeled or peeled mixed pieces of irregular sizes and shapes of canned "solid-pack" apricots that are fairly free from defects for canned "solid-pack" apricots may be given a score of 21 to 23 points. Canned "solid-pack" apricots that fall into this classification shall not be graded above U. S. Grade C Solid-Pack or U. S. Standard Solid-Pack, regardless of the total score for the product (this is a limiting rule). "Fairly free from defects for canned 'solid-pack' apricots" means that the canned "solid-pack" apricots are practically free from pit material; are fairly free from any defects not specifically mentioned that affect the appearance or edibility of the product; and, in addition there may be present:

(1) Not more than 1 piece of harmless extraneous material for each 30 ounces of contents;

(2) Not more than an average of 3 short stems for each 30 ounces of contents;

(3) Not more than an average of ½ square inch of peel for each pound of contents in the peeled styles;

(4) Not more than 4 loose pits for each 30 ounces of contents in whole canned apricots; and

(5) Not more than 6 units that possess blemishes for each pound of contents.

(j) (*SStd–SP*) *classification.* Unpeeled or peeled halves, unpeeled slices, unpeeled or peeled whole, or unpeeled or peeled mixed pieces of irregular sizes and shapes of canned "solid-pack" apricots that fail to meet the requirements of paragraph (i) of this section may be given a score of 0 to 20 points and shall not be graded above Substandard Solid-Pack, regardless of the total score for the product (this is a limiting rule).

§ 52.2655 *Character*—(a) *General.* The factor of character refers to the degree of ripeness, the texture and condition of the flesh, the firmness and tenderness of the canned apricots and their tendency to retain their apparent original conformation and size without material disintegration.

(b) (*A*) *classification.* Unpeeled or peeled halves, unpeeled slices, unpeeled or peeled whole, or unpeeled or peeled mixed pieces of irregular sizes and shapes of canned apricots that possess a good character may be given a score of 27 to 30 points. Unpeeled or peeled mixed pieces of irregular sizes and shapes of canned apricots that score 27 to 30 points shall not be graded above U. S. Grade B or U. S. Choice, regardless of the total score for the product (this is a partial limiting rule). "Good character" means that the units possess a practically uniform tender, fleshy texture typical of well-ripened, properly prepared, and properly processed canned apricots; the units are uniformly intact and may be soft but hold their original conformation and size without material disintegration; and not more than 5 percent, by count, of the units may possess a "reasonably good character". One unit in a container is permitted to possess a "reasonably good character" if such unit exceeds 5 percent, by count: *Provided*, That the appearance or eating quality, or both, is not more than slightly affected by the character of such unit.

(c) (*B*) *classification.* Unpeeled or peeled halves, unpeeled slices, unpeeled or peeled whole, or unpeeled or peeled mixed pieces of irregular sizes and shapes of canned apricots that possess a reasonably good character may be given a score of 24 to 26 points. Mixed pieces of irregular sizes and shapes of canned apricots that fall into this classification shall not be graded above U. S. Grade B or U. S. Choice, regardless of the total score for the product (this is a partial limiting rule). "Reasonably good character" means that the units possess a reasonably uniform, reasonably tender texture typical of properly ripened canned apricots that are properly processed; the texture is reasonably fleshy, and the units are reasonably thick but the tenderness may be variable within the unit or among the units; the units may be soft to slightly firm or slightly ragged but are not mushy; and not more than 10 percent, by count, of the units may possess a fairly good character, except for "not tender units." One unit in a container is permitted to have such fairly good character if one unit exceeds the allowance of 10 percent, by count: *Provided*, That in all containers comprising the sample the units with fairly good character do not exceed an average of 10 percent of the total number of units.

(d) (*C*) *classification.* Unpeeled or peeled halves, unpeeled slices, unpeeled or peeled whole, or unpeeled or peeled mixed pieces of irregular sizes and shapes of canned apricots that possess a fairly good character may be given a score of 21 to 23 points. Canned apricots that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly good character" means that the units possess a texture of properly processed apricots which may be variable in fleshiness but the texture is fairly fleshy and the units are intact; the units may be lacking uniformity of tenderness; the units may be markedly ragged with frayed edges or may be very soft; and not more than 10 percent, by weight, of the drained apricots may be mushy or units that are not tender.

(e) (*D*) *classification.* Canned apricots of any style that meet the requirements of paragraph (d) of this section with respect to units that are not tender but which otherwise possess a noticeably variable texture with not more than 25 percent, by weight, of the drained apricots that consist of mushy fruit may be given a score of 0 to 20 points and shall not be graded above U. S. Grade D, regardless of the total score for the product (this is a limiting rule).

(f) (*SStd*) *classification.* Canned apricots of any style that fail to meet the applicable requirements of paragraph (d) or (e) of this section or that are "not tender" may be given a score of 0 to 20 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule). Canned apricots that are "not tender" are also "Below Standard in Quality—Not Tender."

(g) (*C–SP*) *classification.* Unpeeled or peeled halves, unpeeled slices, unpeeled or peeled whole, or unpeeled or peeled mixed pieces of irregular sizes and shapes of canned "solid-pack" apricots that possess a fairly good character for canned "solid-pack" apricots may be given a score of 21 to 23 points. Canned "solid-pack" apricots that fall into this classification shall not be graded above U. S. Grade C Solid-Pack or U. S. Standard Solid-Pack, regardless of the total score for the product (this is a limiting rule). "Fairly good character for canned 'solid-pack' apricots" means the product generally possesses a texture of properly processed apricots which may be variable in tenderness or may be soft to very soft, and not less than 60 percent, by weight, of the drained apricots are in reasonably intact units and the balance may be mushy or may consist of fairly firm units.

(h) (*D–SP*) *classification.* Unpeeled or peeled halves, unpeeled slices, unpeeled or peeled whole, or unpeeled or peeled mixed pieces of irregular sizes and shapes of canned "solid-pack" apricots which fail to meet the requirements of paragraph (g) of this section but not less than 40 percent, by weight, of the drained apricots are in reasonably intact units may be given a score of 0 to 20 points and shall not be graded above U. S. Grade D Solid-Pack, regardless of the total score for the product (this is a limiting rule).

(i) (*SStd–SP*) *classification.* Unpeeled or peeled halves, unpeeled slices, unpeeled or peeled whole, or unpeeled or peeled mixed pieces of irregular sizes and shapes of canned "solid-pack" apricots which fail to meet the requirements of paragraph (h) of this section may be given a score of 0 to 20 points and shall not be graded above Substandard Solid-Pack, regardless of the total score for the product (this is a limiting rule).

LOT CERTIFICATION TOLERANCES

§ 52.2656 *Tolerances for certification of officially drawn samples.* (a) When certifying samples that have been officially drawn and which represent a specific lot of canned apricots the grade for such lot will be determined by averaging the total scores of the containers comprising the sample, if, (1) such containers meet all of the applicable grade requirements of the factors of quality that are not rated by score points; (2) all containers comprising the sample meet all applicable standards of quality promulgated under the Federal Food, Drug, and Cosmetic Act and in effect at the time of the aforesaid certification; and (3) with respect to those factors which are rated by score points:

(i) Not more than one-sixth of the containers fails to meet the grade indicated by the average of such total scores;

(ii) None of the containers falls more than 4 points below the minimum score for the grade indicated by the average of such total scores;

(iii) None of the containers falls more than one grade below the grade indicated by the average of such total scores; and

(iv) The average score of all containers for any factor subject to a limiting rule is within the score range of that factor for the grade indicated by the average of the total scores of the containers comprising the sample.

SCORE SHEET

## DEPARTMENT OF COMMERCE

### Civil Aeronautics Administration

### [ 14 CFR Part 406 ]

CERTIFICATION PROCEDURES

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the Administrator of Civil Aeronautics contemplates the adoption of the following rule under which (1) applicants for aircraft registration would submit the executed originals of Parts B and C of Form ACA–500 rather than the duplicates and (2) purchasers of aircraft would be permitted to operate such aircraft without registration for more appropriate periods of time after acquisition rather than the 60-day period presently prescribed.

All interested persons who desire to submit comments and suggestions for consideration by the Administrator of Civil Aeronautics in connection with the proposed rules shall send them to the Civil Aeronautics Administration, Washington 25, D. C., within 30 days after publication of this notice in the FEDERAL REGISTER.

1. Section 406.14 (c) is amended to read as follows:

§ 406.14 *Aircraft certificates.* * * *

(c) *Aircraft registration certificate.* * * *

(2) *Application and fee.* An application for this certificate shall be made on a Form ACA–500. This form will contain three parts: Part A, "Certificate of Registration"; Part B, "Application for Registration"; and Part C, "Bill of Sale." An applicant for a certificate of registration shall mail the original and a duplicate of Part A, an original of Part B, an original of Part C or another bill of sale or other form of conveyance described in § 501.4 (b) (2) of this chapter, and a registration fee of $4 to the Administrative and Records Branch of the Administration in Washington, D. C. If a contract of conditional sale is submitted, an additional fee of $4 shall be enclosed to record it. The applicant shall retain the duplicate of Part B in the aircraft as a temporary registration pending receipt of the certificate of registration, Part A of Form ACA–500, and in the event later notification from the CAA authorizes continued temporary operation of the aircraft pending receipt of such certificate of registration, the applicant shall also retain such notification in the aircraft.

(3) *Issuance.* This certificate will be issued on the original "Certificate of Registration," Form ACA–500, Part A.

(4) *Additional requirements.* Further provisions regarding this certificate are contained in Part 501 of this chapter.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 501, 52 Stat. 1005, 49 U. S. C. 521)

### [ 14 CFR Part 501 ]

AIRCRAFT CERTIFICATES OF REGISTRATION

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the Administrator of Civil Aeronautics contemplates the adoption of the following rules under which (1) applicants for registration would submit the executed originals of Parts B and C of Form ACA–500 rather than the duplicates, (2) purchasers of aircraft would be permitted to operate such aircraft without registration for more appropriate periods of time after acquisition rather than the inflexible 60-day period presently prescribed and (3) registered owners of aircraft would be required to fill out the reverse side of the certificate of registration and return the certificate to the Civil Aeronautics Administration upon sale of the aircraft, registration of the aircraft under the

laws of any foreign country, or upon the aircraft becoming permanently inoperative.

All interested persons who desire to submit comments and suggestions for consideration by the Administrator of Civil Aeronautics in connection with the proposed rules shall send them to the Civil Aeronautics, Administration, Washington 25, D. C. within 30 days after publication of this notice in the FEDERAL REGISTER.

1. Section 501.3 (a) is amended to read as follows:

§ 501.3 *Application*—(a) *Form.* * * *
(1) An original and a duplicate of Part A;
(2) Signed original of Part B;
(3) A signed and executed original of Part C [2] or another bill of sale or other form of conveyance specified in § 501.4 (b) (2);
(4) A registration fee of $4.00 in the form of a check or money order made payable to CAA, Department of Commerce.

The name of the purchaser shall be identical on Parts A, B, and C. If a contract of conditional sale is submitted, an additional fee of $4.00 shall be enclosed to record it. The applicant shall retain the duplicate of Part B in the aircraft as a temporary registration pending receipt of the certificate of registration, Part A of Form ACA-500, and in the event a later notification from the Civil Aeronautics Administration authorizes continued operation of the aircraft pending receipt of such certificate of registration, the applicant shall also retain such notification in the aircraft.

2. Section 501.7 is amended to read as follows:

§ 501.7 *Duration.* Upon application for registration made upon the prescribed form, and submission of the required proof of ownership, an aircraft may be operated for the period pending registration, or for the period designated in a notice mailed to the applicant at the address shown on the application, whichever is shorter. The certificate of registration issued by the Administrator of Civil Aeronautics pursuant thereto shall remain in effect indefinitely unless suspended or revoked: *Provided*, That such registration and certificate shall immediately expire on the date,

(a) The aircraft is registered under the laws of any foreign country; or

(b) The registration of the aircraft is cancelled at the written request of the owner; or

(c) The aircraft is totally destroyed or scrapped; or

(d) The ownership of the aircraft is transferred.

[2] A separate Part C (Bill of Sale) to Form ACA-500 has been provided for use when an additional bill of sale is required to complete the chain of ownership, or the execution of a new bill of sale is required to replace that submitted which did not meet the recording requirements of the Act or the Regulations of the Administrator. This form will also serve the aircraft manufacturers, dealers, distributors, and purchasers, who buy for immediate resale.

3. Section 501.11 is amended to read as follows:

§ 501.11 *Notice of change of address, ownership or registration.* The registered owner of any aircraft shall notify the Civil Aeronautics Administration, Administrative and Records Branch, W-240, Washington 25, D. C., immediately of any change of permanent mailing address. Upon sale, destruction, scrapping or permanent retirement of the aircraft or registration of the aircraft under the laws of any foreign country, the reverse side of the certificate of registration, Part A of Form ACA-500, shall be appropriately completed and returned immediately to the Civil Aeronautics Administration, Administrative and Records Branch, W-240, Washington 25, D. C.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 501, 52 Stat. 1005, as amended; 49 U. S. C. 521)

[SEAL] JAMES T. PYLE,
*Acting Administrator of Civil Aeronautics.*

[F. R. Doc. 56-4140; Filed, May 25, 1956; 8:45 a. m.]

## [ 14 CFR Part 503 ]

### RECORDATION OF AIRCRAFT OWNERSHIP

### NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the Administrator of Civil Aeronautics contemplates the adoption of the following rules under which any conveyance or instrument affecting title to United States registered aircraft would be eligible for recordation by the Administrator even if unaccompanied by a duly executed application for registration. The eligible conveyance would include instruments transferring ownership of United States registered aircraft to foreign nationals. A recordation fee of $4.00 would be charged for each aircraft covered by the conveyance submitted for recordation. A separate registration fee of $4.00 would be charged when the application for registration was submitted later. The Administrator would continue the practices of (1) charging only $4.00 as a combined recordation and registration fee when proof of ownership, except a contract of conditional sale, and the application for registration are submitted together; (2) recording without charge releases, cancellations, or other discharges of instruments executed for security purposes; and (3) charging a $4.00 recordation fee for each aircraft covered by a conveyance executed for security purposes, including contracts of conditional sale. A minor revision would also be made in § 503.3 (a) (2) to require listing in a conveyance the model of the aircraft in addition to the identification details now required. This addition would provide information required for certificates of registration by Annex 7 to the Convention on International Civil Aviation.

All interested persons who desire to submit comments and suggestions for consideration by the Administrator of Civil Aeronautics in connection with the proposed rules shall send them to the Civil Aeronautics Administration, Washington 25, D. C., within 30 days after publication of this notice in the FEDERAL REGISTER.

1. Section 503.3 (a) is amended to read as follows:

§ 503.3 *Eligibility of conveyance.* (a) A conveyance shall be eligible recordation only if:

(1) It is executed upon the form prescribed by the Administrator of Civil Aeronautics for such type of conveyance, or upon a form deemed appropriate by the Administrator, and is submitted to the Civil Aeronautics Administration, Administrative and Records Branch, W-240, Washington 25, D. C.;

(2) It describes the aircraft by make and model, manufacturer's serial number and Civil Aeronautics registration number, or by other detail sufficient to enable identification;

(3) It is the original document or an executed duplicate thereof, with all signatures in ink;[3]

(4) It affects an aircraft registered under the Civil Aeronautics Act of 1938, as amended, or is a bill of sale or contract of conditional sale to the holder of a dealer's aircraft registration certificate; [3]

(5) It is acknowledged by the signer or signers before a notary public or other officer authorized by the law of the United States, or of a State, Territory or possession thereof, or the District of Columbia, to take acknowledgment of deeds; and

(6) It is accompanied by the required recordation fee of $4.00 in the form of a check or money order made payable to CAA, Department of Commerce, for each aircraft covered by the conveyance: *Provided*, That this paragraph shall apply only to bills of sale unaccompanied by a duly executed application for registration and registration fee of $4.00 or conveyances executed for security purposes such as contracts of conditional sale or chattel mortgages.

NOTE: No fee is charged for the recordation of any bill of sale or bills of sale accompanied by a duly executed application for registration and registration fee of $4.00 or for the recordation of any release, cancellation, in-

[3] When return of the original conveyance to the sender is desired, a certified true copy thereof shall be submitted with the original document. After recording, the certified true copy will be retained and the original will be returned to the sender stamped with the date and hour of recordation. A certified true copy of an original document is a document which is a complete copy of the original in all respects, including the dates, signatures, and acknowledgments and to which is attached a certificate of a notary public stating that such officer has compared the copy with the original document and that it is a true and correct copy in all respects.

[3] Documents of this nature are recorded under the numbers assigned to aircraft by their manufacturers. No particular dealers' aircraft registration certificate is associated with a particular aircraft. This action of recordation provides information to those consulting the records as to the ownership of the aircraft. The question of whether the full benefits of the recording provisions of the Civil Aeronautics Act are thus acquired has not yet been the subject of judicial review.

validation, discharge, or satisfaction of any conveyance executed for security purposes.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 503, 52 Stat. 1006, as amended; 49 U. S. C. 523)

[SEAL] JAMES T. PYLE,
*Acting Administrator of Civil Aeronautics.*

MAY 21, 1956.

I concur. The records of the Bureau of Land Management will be noted accordingly.

EDWARD WOOZLEY,
*Director,*
*Bureau of Land Management.*

*Notice for Filing Objections to Order Withdrawing Public Lands for the Boise Project, Idaho*

Notice is hereby given that for a period of 30 days from the date of publication of this notice, persons having cause to object to the terms of the above order withdrawing certain public lands in the State of Idaho, for use in connection with the proposed development of the Garden Valley Reservoir site, Boise Project, may present their objections to the Secretary of the Interior. Such objections should be in writing, should be addressed to the Secretary of the Interior, and should be filed in duplicate in the Department of the Interior, Washington 25, D. C.

In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where the proponents of the order can explain its purpose, intent, and extent. Should any objection be filed, notice of the determination by the Secretary as to whether the order should be rescinded, modified or let stand will be given to all interested parties of record and the general public.

E. V. LINDSETH,
*Acting Commissioner.*

BUTTE DIVISION, KLAMATH PROJECT, CALIFORNIA

FIRST FORM RECLAMATION WITHDRAWAL

APRIL 4, 1956.

Pursuant to the authority delegated by Departmental Order No. 2765 of July 30, 1954, I hereby withdraw the following-described lands from public entry, under the first form of withdrawal, as provided by section 3 of the act of June 17, 1902 (32 Stat. 388):

MOUNT DIABLO MERIDIAN, CALIFORNIA

T. 47 N., R. 1 E.,
Sec. 18, S½ of Lot 1 of NW¼, Lot 2 of NW¼, N½ of Lot 1 of SW¼.
T. 47 N., R. 1 W.,
Sec. 14, NE¼, SE¼SE¼;
Sec. 22, NW¼.
T. 45 N., R. 2 W.,
Sec. 1, Lots 3, 4, N½NE¼SW¼;
Sec. 2, W½ of Lot 3, Lot 4;
Sec. 11, all;
Sec. 12, W½NW¼, NE¼NW¼, NW¼SW¼;
Sec. 14, W½E½, N½SW¼;
Sec. 15, NE¼, NE¼NW¼, N½SE¼.
T. 47 N., R. 2 W.,
Sec. 28, S½NW¼.

The above areas aggregate 2,069.08 acres.

E. G. NIELSEN,
*Assistant Commissioner.*

[71600]

MAY 22, 1956.

I concur. The records of the Bureau of Land Management will be noted accordingly: *Provided*, That this order shall be subject to valid existing rights.

EDWARD WOOZLEY,
*Director,*
*Bureau of Land Management.*

*Notice for Filing Objections to Order Withdrawing Public Lands for the Butte Division of the Klamath Project, California*

APRIL 4, 1956.

Notice is hereby given that for a period of 30 days from the date of publication of this notice, persons having cause to object to the terms of the above order withdrawing certain public lands in the State of California, for use in connection with the proposed Butte Division of the Klamath Project, may present their objections to the Secretary of the Interior. Such objections should be

in writing, should be addressed to the Secretary of the Interior, and should be filed in duplicate in the Department of the Interior, Washington 25, D. C.

In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where the proponents of the order can explain its purpose, intent, and extent. Should any objection be filed, notice of the determination by the Secretary as to whether the order should be rescinded, modified or let stand will be given to all interested parties of record and the general public.

E. G. NIELSEN,
*Assistant Commissioner.*

## DEPARTMENT OF COMMERCE

### Federal Maritime Board

[Docket No. S-63]

AMERICAN PRESIDENT LINES, LTD.

NOTICE OF HEARING ON APPLICATION FOR INCREASE IN NUMBER OF SUBSIDIZED SAILINGS

A public hearing will be held under section 605 (c) and section 805 (a) of the Merchant Marine Act, 1936, as amended (46 U. S. C. 1175 and 1223), upon an application of American President Lines, Ltd., for an increase in the number of subsidized sailings under its operating-differential subsidy agreement from a minimum of 12 and a maximum of 16 subsidized sailings per year, to a minimum of 24 and a maximum of 28 per year, in the Atlantic/Straits Service on Trade Route No. 17, described as follows:

From New York (other Atlantic ports as traffic offers) via the Panama Canal, Los Angeles and/or San Francisco to a Philippine port, Hong Kong, not less than six ports (including Singapore) in Malaya/Indonesia, thence to Los Angeles, and via the Panama Canal, to New York, calling (as Traffic offers and schedules permit) (a) at Hong Kong, homebound; (b) at Indochina and Thailand; (c) at Guam outbound; (d) at one or two Philippine outports homebound in addition to Manila; and (e) at San Francisco homebound solely for the purpose of discharging foreign cargoes and then only if no calls on the homebound leg have been made at Philippine outports.

The purpose of the hearing is to receive evidence relevant to the following: (1) Whether the application is one with respect to a vessel or vessels to be operated on a service, route, or line served by citizens of the United States which would be in addition to the existing service, or services, and, if so, whether the service already provided by vessels of United States registry in such service, route, or line is inadequate, and in the accomplishment of the purposes and policy of the act additional vessels should be operated thereon; (2) whether the application is one with respect to a vessel operated or to be operated in a service, route, or line served by two or more citizens of the United States with vessels of United States registry, and, if so, whether the effect of the subsidy contract would be to give undue advantage or be unduly prejudicial, as between citizens of the United States, in the operation of vessels in competitive services, routes, or lines; (3) whether it is necessary to enter into such contract in order to provide adequate service by vessels of United States registry; and (4) whether granting the application will result in unfair competition to any person, firm, or corporation operating exclusively in the coastwise or intercoastal service or be prejudicial to the objects and policy of the Merchant Marine Act, 1936 (46 U. S. C. 1101 et seq.).

The Hearing will be conducted before an Examiner at a time and place to be announced in accordance with the Board's rules of practice and procedure, and a recommended decision will be issued.

All persons (including individuals, corporations, associations, firms, partnerships, and public bodies) desiring to intervene in this proceeding are requested to notify the Board within fifteen (15) days from publication hereof and should promptly file petitions for leave to intervene in accordance with said rules of practice and procedure.

By order of the Federal Maritime Board.

Dated: May 23, 1956.

[SEAL] GEO. A. VIEHMANN,
*Assistant Secretary.*

---

COMPAGNIE NAVIERA INDEPENDENCIA AND J. FRITZEN & SOHN

NOTICE OF AGREEMENT FILED WITH BOARD FOR APPROVAL

Notice is hereby given that the following described agreement has been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916, as amended; 39 Stat. 733, 46 U. S. C. 814.

Agreement No. 8087, between Compagnie Naviera Independencia (Independence Line) and J. Fritzen & Sohn, provides for the operation by Compagnie Naviera Independencia in its common carrier service of vessels furnished by it and by J. Fritzen & Sohn or jointly by both parties, and sets forth the agreed formula for the apportionment of the results of such operation.

Interested parties may inspect this agreement and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to the agreement and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

By order of the Federal Maritime Board.

Dated: May 23, 1956.

[SEAL] GEO. A. VIEHMANN,
*Assistant Secretary.*

[F. R. Doc. 56-4162; Filed, May 25, 1956; 8:49 a. m.]

## FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 10285, etc.; FCC 56M-504]

PORT ARTHUR COLLEGE ET AL.

ORDER CONTROLLING THE CONDUCT OF HEARING

MAY 17, 1956.

In re applications of Port Arthur College, Port Arthur, Texas, Docket No. 10285, File No. BPCT-839; Joe B. Carrigan, Trustee and James K. Smith, a partnership, d/b as Smith Radio Company, Port Arthur, Texas, Docket No. 10352, File No. BPCT-1013; Jefferson Amusement Company, Port Arthur, Texas, Docket No. 10779, File No. BPCT-1440; for construction permits for new television broadcast stations (Channel 4).

*Appearances.* John P. Southmayd, on behalf of Port Arthur College; Maurice M. Jansky and Joe B. Carrigan, on behalf of Joe B. Carrigan, Trustee and James K. Smith, a partnership d/b as Smith Radio Company; John Erle Stephen and Carl D. Levy, on behalf of Jefferson Amusement Company; and Earl C. Walck, on behalf of the Chief, Broadcast Bureau, Federal Communications Commission.

1. The pre-hearing conference called pursuant to the provisions of § 1.813 of the Commission's rules was held May 4, 1956. The parties attending were those indicated in the appearances above.

2. Prior evidentiary hearing in this proceeding was held May 6, 1953, and the record of the hearing on that date is part of the record in this proceeding.

3. The Commission's order adopted April 25, 1956, released May 1, 1956, specified the following four issues:

1. To determine the legal, technical, financial and other qualifications of the applicants to construct and operate the proposed stations.

2. To determine the type and character of the program services proposed to be rendered and whether they would meet the needs of the communities and areas within the Grade A and Grade B field intensity contours.

3. To determine whether the construction and operation of the proposed stations would be in compliance with the Commission's Rules and Regulations governing television broadcast stations.

4. To determine on a comparative basis which, if any, of the above-entitled applications should be granted.

4. The Hearing Examiner construes the Commission order of April 25, 1956, to mean that the above four issues are the only issues to be resolved in this proceeding, the reasons for such interpretation being stated at the hearing conference on May 4, 1956. Two issues originally specified in the Commission's order of July 11, 1952, as amended by order of November 5, 1952, are not now applicable to this proceeding.[1]

5. The Commission has not questioned the legal, technical, financial or other qualifications of any of the three applicants as is contemplated by section 309 (b) of the act. The issues as presently framed are the same as those originally adopted by the Commission on July 11, 1952, prior to the amendment of section 309 (b) of the Communications Act. The Examiner rules that appropriate exhibits reflecting the legal, technical and financial qualifications of the applicant, if consistent with the application, upon being received in evidence, will be sufficient to create a rebuttal presumption that the applicant is legally, technically and financially qualified.

6. Each of the applicants stipulates that:

(a) The successful applicant will be able to obtain an affiliation with one of the three television networks.

(b) The sources of film for recorded programming available to one are equally available to the other.

Such stipulations, however, are without prejudice to the right of any applicant to show that the over-all programming proposed by him or the integration of network, film and locally originated programming as proposed by him is superior to that proposed by either of the other applicants.

7. The exhibits to be introduced in evidence by each party will be numbered consecutively and carry identifying symbols as follows: For Port Arthur College, the words "Port Arthur"; for Smith Radio Company, the words "Smith Radio"; for Jefferson Amusement Company, the word "Jefferson"; and for the Chief, Broadcast Bureau, FCC, the letters "FCC."

8. The exhibits to be prepared and exchanged are as follows:

Exhibit 1—Background and experience.
Exhibit 2—Integration of ownership with management.
Exhibit 3—Past operation of broadcast stations.
Exhibit 4—Programs—proposed TV programs with particular reference to locally originated programs as distinguished from network or film presentation.
Exhibit 5—Studies and surveys.
Exhibit 6—Studio, transmitter, and auxiliary broadcast equipment.
Exhibit 7—Studio, office, and transmitter building facilities.
Exhibit 8—Management and staffing plans.
Exhibit 9—Legal qualifications.
Exhibit 10—Financial qualifications.

9. Each applicant shall exercise its own discretion as to the organization and completeness of the exhibits he proposes to exchange and offer in evidence. The exhibits as exchanged shall contain all material deemed necessary by the applicant to establish his affirmative case. The exhibits may contain narrative statements. They may contain depositions. The facts stated in one exhibit may be but need not be restated in another or other exhibits even though they may be pertinent thereto. Within the ten exhibits identified in paragraph 8, the applicant will be able to make an affirmative showing with respect to all of the issues presently involved in this proceeding. If in addition to an affirmative showing a party wishes to include other material in the nature of anticipated reply or rebuttal exhibits, he may do so.

10. The exhibits referred to in paragraphs 8 and 9 shall be exchanged with other parties to the proceeding on or before Monday, July 2, 1956. It is contemplated that after the exchange of the exhibits, counsel for each party shall endeavor, through informal conferences, to obtain such other information as may be necessary to explain or clarify the exhibit or exhibits of the other parties. In the event this information cannot be obtained on an informal basis, the Hearing Examiner will rule on the relevancy of the request for such information at the hearing on July 30, 1956.

11. At the hearing on July 30, 1956:

a. The Hearing Examiner will receive in evidence those exhibits which were exchanged on July 2, 1956, to which there are no objections and such other exhibits which, after objections, are found to be admissible, reserving ruling in instances where the presence of a witness is necessary or desirable before acting on the objections.

b. Counsel for each party will identify the witness or witnesses of the other parties desired for cross-examination or in the absence of the identity of the witness, the subject material to be explored on cross-examination.

c. The Hearing Examiner shall specify the dates for further hearing, the cross-examination of witnesses, the exchange of reply or rebuttal exhibits and take such other action as may be appropriate.

*It is so ordered,* This the 17th day of May 1956.

Released: May 21, 1956.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
*Secretary.*

[F. R. Doc. 56-4148; Filed, May 25, 1956; 8:47 a. m.]

[1] A 307 (b) issue was inserted on November 5, 1952, because at that time one of the applicants, Lufkin Amusement Company (now dismissed), specified its principal studio to be in Beaumont, Texas. The second issue related to a possible hazard to air navigation. This has been rendered moot by a favorable report of the Air Space Subcommittee.

---

[Docket Nos. 11417, 11418; FCC 56M-506]

TAYLOR BROADCASTING CO. AND GARDEN OF THE GODS BROADCASTING CO.

ORDER CONTINUING HEARING CONFERENCE

In re applications of Taylor Broadcasting Company, Colorado Springs, Colorado, Docket No. 11417, File No. BP-9439; Garden of the Gods Broadcasting Company, Manitou Springs, Colorado, Docket No. 11418, File No. BP-9462; for construction permits.

The Hearing Examiner having under consideration a request for continuance filed by Garden of the Gods Broadcasting Company on May 11, 1956;

It appearing that the dates currently established for the exchange of exhibits and for a further hearing conference are May 21, and May 31, 1956, respectively; and

It further appearing that the petitioner has shown good cause for this request and that all parties to the proceeding have given their consent to the continuance;

*It is ordered,* This 21st day of May 1956, that the petition of Garden of the Gods Broadcasting Company is granted and that the date for exchange of exhibits is continued to June 4, 1956, and the date for further hearing conference is continued to June 14, 1956.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
*Secretary.*

---

[Docket Nos. 11565, 11566; FCC 56M-505]

ROLLINS BROADCASTING OF DELAWARE, INC., AND FRANKLIN BROADCASTING CO.

ORDER SCHEDULING HEARING

In re applications of Rollins Broadcasting of Delaware, Inc., Philadelphia, Pennsylvania, Docket No. 11565, File No. BP-9500; Lawrence M. C. Smith, tr/as Franklin Broadcasting Company, Philadelphia, Pennsylvania, Docket No. 11566, File No. BP-9633; for construction permits.

*Appearances.* Mr. Leonard H. Marks of Washington, D. C., on behalf of Rollins Broadcasting of Delaware, Inc.; Mr. Lucien Hilmer of Washington, D. C., on behalf of Franklin Broadcasting Company; and Mr. Richard E. Ely of Washington, D. C., on behalf of the Chief, Broadcast Bureau, Federal Communications Commission.

1. Pursuant to orders previously entered a prehearing conference was held on Thursday, May 17, 1956, at which the parties were represented by counsel as indicated in the statement of appearances above. The transcript of the proceedings, being Volume 2, is made a part of the record; the actions taken and the determinations made at the conference are set out herein.

2. The order of designation named as a party the Wm. Penn Broadcasting Company, licensee of Station WPEN; by written statement filed in the docket record this respondent indicated that it did not intend to participate in the hearing, and it has not appeared or been represented by counsel at any stage of this proceeding; accordingly, notices of pleadings or of further proceedings will not be required to be served upon the said respondent.

3. The original order of designation included the mutually exclusive application of Miners Broadcasting Service, Inc. (Docket No. 11564) for broadcast facilities at West Chester, Pennsylvania, and specified in issues 6 and 7 inquiries relating to engineering matters applicable only to that proposal and to the facility allocation requirements of section 307 (b) of the Communications Act. This third application was dismissed by order dated December 22, 1955, and accordingly issues 6 and 7 as originally specified are now moot and no further consideration of this proceeding will be accorded to the matters therein stated.

4. The originally stated issue 4 directed inquiry regarding the possibility that the antenna structure proposed by each applicant might constitute a hazard to air navigation. Bureau counsel

stated that the suggested problem has been administratively resolved favorably to the proposals herein, and that no question remains upon the air navigation hazard matter. Accordingly, issue 4 is eliminated and no evidence or findings thereunder will be developed or considered.

5. The order of designation authorized the Hearing Examiner, upon his own motion or on the request of any party, to add an issue permitting inquiry about the sufficiency of funds to effectuate the operations proposed. No reason has been made to appear for the addition of such an issue upon the Hearing Examiner's own motion; however, any party may request the addition of that issue by petition which may be filed on or before June 18, 1956, and consideration of and ruling upon such petition, if any, will be accorded at the further prehearing conference on June 20 as hereinafter ordered.

6. Under § 1.841 (e) of the Commission's rules any party may submit timely and reasonable requests for additional information upon the matters there set out. Requests for additional information in those areas should be made as soon as it is reasonably feasible to do so, and in any event not later than June 18, 1956. Any request for additional information submitted after that date will be considered untimely unless a showing of good cause for the delay is made. If disagreements arise concerning the additional information request matters, consideration and appropriate rulings will be accorded thereto at the further prehearing conference on June 20.

7. The parties shall exchange the direct affirmative case exhibits upon nonengineering matters (the comparative inquiry area) as required by § 1.841 (a) on or before Wednesday, June 13, 1956. One copy each of the exchanged exhibits here contemplated, and as in paragraph 9 below, will be supplied at the time of exchange to Bureau counsel and to the Hearing Examiner.

8. Bureau counsel advised the applicants, by statements made on the record, that the Broadcast Bureau desires that the engineering evidence for the applicants shall show, among other facts: the 5 mv/m and 2 mv/m contours of the proposed station in relation to the boundaries and area and population of the city of Philadelphia; the normally protected 0.5 mv/m, and the interference free 0.5 mv/m contours of the proposed station and the areas and populations therein; a map or maps showing the service contours of the proposed station and the primary service contours of other stations serving the areas proposed to be served, as well as tabulations of the other available services indicating the minimum and maximum number of services available throughout the area, but if nine or more services are available then the map depictions of the multiple service contours will not be requested; if interference is proposed to Stations WJWL, WTTN or WCBS then as to such stations a showing of their normally protected and interference free 0.5 mv/m contours and the areas and populations therein and in the proposed interference area, as well as a showing of the primary services available to the proposed interference areas. Counsel for the applicants agreed in general that the desired information would be developed and presented.

9. Counsel for the parties agreed, and accordingly it is expected, that the consulting engineers for each applicant and for Broadcast Bureau will meet in conference or conferences for the purpose of discussing and developing the engineering evidence to be offered in this proceeding. It is anticipated that such engineering conferences will resolve substantially all disagreements that might otherwise arise at the hearing, and that the engineering evidence in most areas will thus be presented in stipulated affidavits and exhibits. The time and place for such conferences were not etsablished, but they will be completed so as to enable the parties to submit and exchange the engineering exhibits on or before Monday, June 18, 1956. Accordingly, the exchange of the direct affirmative case exhibits upon engineering matters, as contemplated by § 1.841 (a), will be accomplished on or before Monday, June 18, 1956.

10. A further prehearing conference as provided for in § 1.841 (c) will be commenced at 10:00 a. m. on Wednesday, June 20, and the hearing of evidence will be commenced on Wednesday, June 27, 1956.

*Accordingly, it is ordered,* This 18th day of May 1956, that the order of April 17, 1956, which set this matter for further hearing on June 18, 1956, be and it is hereby set aside; and

*It is further ordered,* That a further prehearing conference and the hearing of evidence shall be commenced at 10:00 a. m. on Wednesday, June 20, and Wednesday, June 27, 1956, at the offices of the Commission in Washington, D. C.; and

*It is further ordered,* That the provisions of this order, unless modified or set aside, shall govern the course of the conduct of the hearing in this proceeding.

Released: May 21, 1956.

[Docket No. 11693]

SOUTHERN BELL TELEPHONE AND TELEGRAPH CO.

ORDER ASSIGNING MATTER FOR PUBLIC HEARING

In the matter of the application of Southern Bell Telephone and Telegraph Company, Docket No. 11693, File No. P-C-3744; for a certificate under section 221 (a) of the Communications Act of 1934, as amended, to acquire certain telephone plant and properties of E. B. Hicks and wife, Maude M. Hicks, d/b as Graysville Telephone Company at Graysville, Tennessee.

The Commission having under consideration an application filed by Southern Bell Telephone and Telegraph Company for a certificate under section 221 (a) of the Communications Act of 1934, as amended, that the proposed acquisition by Southern Bell Telephone and Telegraph Company of certain telephone plant and properties of E. B. Hicks and wife, Maude M. Hicks, d/b as Graysville Telephone Company furnishing telephone service in and around Graysville, Tennessee, will be of advantage to the persons to whom service is to be rendered and in the public interest;

*It is ordered,* This 21st day of May 1956, that pursuant to the provisions of section 221 (a) of the Communications Act of 1934, as amended, the above application is assigned for public hearing for the purpose of determining whether the proposed acquisition will be of advantage to the persons to whom service is to be rendered and in the public interest;

*It is further ordered,* That the hearing upon said application be held at the offices of the Commission in Washington, D. C., beginning at 10:00 a. m., on the 27th day of June 1956, and that a copy of this order shall be served upon the Governor of the State of Tennessee, Tennessee Public Service Commission, Southern Bell Telephone and Telegraph Company, E. B. Hicks and wife, Maude M. Hicks, d/b as Graysville Telephone Company, and the Postmaster of Graysville, Tennessee; and

*It is further ordered,* That within ten days after the receipt from the Commission of a copy of this order, the applicant herein shall cause a copy hereof to be published in a newspaper or newspapers having general circulation in Graysville, Tennessee and shall furnish proof of such publication at the hearing herein.

Released: May 22, 1956.

# FEDERAL POWER COMMISSION

[Docket No. G-9928, etc.]

GULF OIL CORP. ET AL.

NOTICE OF APPLICATIONS AND DATE OF HEARING

MAY 21, 1956.

In the matters of Gulf Oil Corporation, Docket No. G-9928; Natural Gas Pipeline Company of America, Docket No. G-9934; The Shamrock Oil and Gas Corporation, Docket No. G-10072; The Superior Oil Company, Docket No. G-10108; Sinclair Oil & Gas Company, Docket No. G-10119.

Gulf Oil Corporation (Gulf), a Pennsylvania corporation with principal place of business at P. O. Box 1166, Pittsburgh 30, Pennsylvania, filed, on January 26, 1956, in Docket No. G-9928, an application for a certificate of public convenience and necessity, pursuant to section 7 (c) of the Natural Gas Act (act), authorizing Gulf to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

The Shamrock Oil and Gas Corporation (Shamrock), a Delaware corporation whose address is P. O. Box 631, Amarillo, Texas, filed, on March 8, 1956, in Docket No. G-10072, an application for a certificate of public convenience and necessity, pursuant to section 7 (c) of the act, authorizing Shamrock to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

The Superior Oil Company (Superior), a California corporation with principal place of business at 930 Edison Building, Los Angeles 17, California, filed, on March 16, 1956, in Docket No. G-10108, an application for a certificate of public convenience and necessity, pursuant to section 7 (c) of the act, authorizing Superior to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Sinclair Oil & Gas Company (Sinclair), a Maine corporation with principal place of business at Sinclair Building, Tenth and Boston, Tulsa, Oklahoma, filed, on March 19, 1956, in Docket No. G-10119, an application for a certificate of public convenience and necessity, authorizing Sinclair to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicants Gulf, Shamrock, Superior and Sinclair propose to sell natural gas in interstate commerce as described below to Natural Gas Pipeline Company of America for resale.

*Docket No.; Applicant; and Source of Gas*

G-9928; Gulf Oil Corporation; Quinduno (Lower Albany Dolomite) oil field and Quinduno (Strawn) Field, Roberts County, Tex.

G-10072; The Shamrock Oil and Gas Corporation; Quinduno (Lower Albany Dolomite) oil field, Roberts County, Tex.

G-10108; The Superior Oil Company; Lower Albany Formation and granite wash formation of Pennsylvanian age, Quinduno Field, Roberts County, Tex.

G-10119; Sinclair Oil & Gas Company; Quinduno Field, Roberts County, Tex.

Natural Gas Pipeline Company of America (Natural), a Delaware corporation with principal place of business at 20 North Wacker Drive, Chicago 6, Illinois, filed, on January 27, 1956, as supplemented March 6, 1956, in Docket No. G-9934, an application for a certificate of public convenience and necessity, pursuant to section 7 (c) of the act, authorizing Natural to construct and operate, as integral parts of its existing or authorized natural gas system, certain natural gas facilities as hereinafter described, which are necessary to the transportation and sale of natural gas in interstate commerce, for the purpose of taking natural gas from Gulf, Shamrock, Superior and Sinclair in Quinduno Field, Roberts County, Texas.

The facilities proposed to be constructed and operated by Natural consist of:

(1) Approximately 25 miles of 12-inch pipeline extending from Quinduno Field, Roberts County, Texas, to a point of connection with Natural's existing 24 inch Carson-Gray Counties main trunk gathering pipeline together with (a) a 1,980 horsepower field compressor station to be located at a central point in the Quinduno Field, (b) a hydrogen sulphide removal plant to be installed at the said compressor station site, (c) approximately 11½ miles of 6 to 16 inch field lines and (d) metering and other appurtenant facilities.

The estimated total cost of these facilities, which will be used to take approximately 13,500 Mcf of gas per day from Gulf in Quinduno Field, is approximately $2,664,400. The cost is to be financed through short term bank loans.

(2) One 3,300 horsepower field compressor station to be located at a central point in the Quinduno Field which is estimated to cost approximately $350,000, together with various field lines and metering facilities which are estimated to cost approximately $252,000.

These facilities will be used to take approximately 6,500 Mcf of gas per day from Shamrock, Superior and Sinclair in Quinduno Field.

The total estimated cost of all of the foregoing facilities is stated to be $3,266,300.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to

the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Thursday, June 14, 1956 at 9:30 a. m., e. d. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before June 7, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] LEON M. FUQUAY, *Secretary.*

## SECURITIES AND EXCHANGE COMMISSION

[File No. 24D-1759]

YORK OIL AND URANIUM CO.

ORDER TEMPORARILY SUSPENDING EXEMPTION, STATEMENT OF REASONS THEREFOR, AND NOTICE OF OPPORTUNITY FOR HEARING

MAY 22, 1956.

I. York Oil and Uranium Company, a Wyoming corporation (hereinafter referred to as "issuer"), P. O. Box 348, Newcastle, Wyoming, having filed with the Commission on June 3, 1955, a notification on Form 1-A and an offering circular, and subsequently having filed amendments thereto, relating to a proposed public offering of 10,000,000 shares of common capital stock, par value 2 cents per share, at 2 cents per share for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) thereof and Regulation A promulgated thereunder; and

II. The Commission having reasonable grounds to believe that:

A. The notification and the offering circular contain untrue statements of material facts and omit to state material facts necessary in order to make the statements made in light of the circumstances under which they were made not misleading, particularly in that:

1. Item 3 (a) of the notification and the offering circular under the heading "Capitalization" failed to disclose that on June 1, 1955, the issuer had contracted to issue additional shares of common stock with a par value of $7,000 to Greenfire Uranium Corporation in consideration for the transfer of certain unpatented mining lode claims; and the offering circular failed to describe these claims as required by Rule 219 (c) (1).

2. Item 3 (a) of the notification and the offering circular under the heading "Material Transactions" were false and misleading in representing that 767,000 shares of stock had been issued to Earl E. Fehr as part payment of the contract of purchase of the Whiskers Draw Claims and the North Barker Dome-Red Mesa area oil and gas lease rights and in failing to disclose that in selling such properties, Fehr was acting for himself and others and part of the stock issued to him was accepted for others; and the offering circular was also false and misleading in failing to disclose that on or about January 3, 1956, said contract was renegotiated whereby 1,000,000 shares of stock of the issuer were acquired instead of the 767,000 shares.

3. Item 3 (b) of the notification and the offering circular under the heading "Material Transactions" were false and misleading in representing that none of the 3,310,000 shares of common stock issued to officers and directors of the issuer has been transferred and that the stock is still held by them in view of the fact that the officers and directors either sold or agreed to sell a portion of the shares and the cash received was remitted to the issuer in payment for the cash consideration of $8,000 which the issuer represented had already been paid by the officers and directors as part consideration for the issuance of the shares.

4. The offering circular was misleading in failing to disclose under "Use of Proceeds" and in the financial statements included therein that the issuer may have incurred a contingent liability under section 12 of the Securities Act of 1933, as amended, in connection with the foregoing; and

B. The offering did and would operate as a fraud and deceit upon the purchasers.

III. *It is ordered,* Pursuant to Rule 223 (a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for a hearing; that, within 20 days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place for said hearing will be promptly given by the Commission.

*It is further ordered,* That this order and notice shall be served upon York Oil and Uranium Company and Empire Securities Corporation, 311 South Main, Salt Lake City, Utah, personally or by registered mail or by confirmed telegraphic notice, and shall be published in the FEDERAL REGISTER.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 56-4157; Filed, May 25, 1956; 8:49 a. m.]

[File No. 812-1005]

SCUDDER SPECIAL FUND, INC.

NOTICE OF FILING OF APPLICATION FOR EXEMPTION

MAY 21, 1956.

Notice is herein given that Scudder Special Fund, Inc. (the "Fund"), a Delaware corporation which is a registered investment company, has filed an application pursuant to section 6 (c) of the Investment Company Act of 1940 ("act") for an order of exemption from the provisions of sections 10 (b) (2), 15 (a), 16 (a), and 32 (a) (2) of the act.

The application states that the Fund has registered under the act as an open-end, diversified, management investment company with an authorized capitalization of 1,000,000 shares of capital stock, $1 par value, none of which is outstanding. The Fund has not issued or received any subscriptions for any stock and has no assets. It is stated that the Fund was organized by the investment counsel firm of Scudder, Stevens & Clark, the proposed investment adviser for the Fund, to provide a vehicle for investors, primarily clients, partners and employees of Scudder, Stevens & Clark, to participate in special risks with the basic aim of long-term principal growth.

The Fund states that it proposes to make a continuous public offering of 300,000 shares of its capital stock through a single principal underwriter, Scudder Fund Distributor's, Inc., and by the Fund directly. The offering price of shares will be the net asset value, without any sales load, with the offering to commence at a price of $10 per share. It is contemplated that ordinarily subscriptions will be accepted only from clients, employees or partners of Scudder, Stevens & Clark, but that shares will be freely transferable. The Fund represents that it will obtain firm agreements and payments from not more than 25 responsible persons for the purchase of shares for an aggregate net amount equalling at least $100,000 prior to the acceptance of any subscriptions for any security from any other persons and that it will make other provisions as part of the public offering to assure that the requirements of section 14 (a) of the act are met.

Prior to beginning operation as an investment company, the Fund proposes to enter into an investment advisory contract with Scudder, Stevens & Clark and into an underwriting agreement with Scudder Fund Distributors, Inc. The fiscal year of the Fund ends September 30 and the date of its first annual meeting of stockholders is fixed by its by-laws as December 4, 1956. Since the Fund will have no stockholders prior to the public offering, it is proposed to take appropriate stockholder action at the first annual meeting of stockholders with respect to an investment advisory contract, the selection of the Fund's independent public accountants, and the election of directors.

The Fund requests an order of the Commission under section 6 (c) of the act exempting the Fund from the requirements of sections 15 (a), 16 (a), and 32 (a) (2) of the act so that the Fund may operate for a limited period without stockholder approval of an investment advisory contract, without stockholder election of directors, and without stockholder approval of the selection of independent public accountants, as required, respectively, by those sections of the act, until stockholder approval can be obtained with respect to these matters at the first annual meeting of stockholders scheduled to be held December 4, 1956.

The underwriting agreement between the Fund and Scudder Fund Distributors, Inc., will provide in substance that no sales load will be charged in connection with the distribution of the Fund's shares. The Fund states that it will meet the requirements of section 10 (d) of the act in this and other respects and accordingly, as permitted by that section, all the members of its board of directors except one may be officers or employees of the Fund or affiliated persons of its investment adviser.

Scudder Fund Distributors, Inc., is wholly owned by Scudder, Stevens & Clark, the proposed investment adviser. It is stated that all the members of the Fund's board of directors, except one, will also be affiliated persons of Scudder Fund Distributors, Inc., either by reason of the stock ownership of the latter by Scudder, Stevens & Clark or by reason of their being officers, directors or employees of Scudder Fund Distributors, Inc. The application states that the sale of the Fund's shares without a sales load will be made possible by the fact that Scudder Fund Distributors, Inc., as a wholly owned subsidiary of Scudder, Stevens & Clark, will absorb the cost of distribution. The application also requests an exemption pursuant to section 6 (c) of the act from the requirement of section 10 (b) (2) that a majority of the Fund's board of directors consist of persons who are not affiliated with the principal underwriter.

Section 6 (c) of the act provides that the Commission, by order upon application, may conditionally or unconditionally exempt any transaction from any provision of the act if and to the extent such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the act.

Notice is further given that any interested person may, not later than June 4, 1956, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 56-4155; Filed, May 25, 1956; 8:48 a. m.]

HAROLD S. BENNETT

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

MAY 22, 1956.

In the matter of Harold S. Bennett, a sole proprietor, Keyser Building, Baltimore 2, Md.

I. The Commission's public official files disclose that Harold S. Bennett, a sole proprietor, hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934, and is a member of the National Association of Securities Dealers, Inc., a national securities association, registered pursuant to section 15A of said act.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar years 1951, 1952, 1954, 1955, as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted thereunder.

III. The information reported to the Commission by its Records Officer as set forth in Paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section.

IV. The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) whether the statement referred to in Paragraph II hereof is true;

(b) whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

(c) whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant;

(d) whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant; and

(e) whether, pursuant to section 15A (l) (2) of the Securities Exchange Act of 1934, it is necessary or appropriate in the public interest or for the protection of investors or to carry out the purposes of said section, to suspend for a period not to exceed twelve (12) months or to expel registrant from membership in the National Association of Securities Dealers, Inc.

V. *It is ordered,* That registrant be given an opportunity for hearing as set forth in paragraph IV hereof at 10 a. m. on the 25th day of June 1956, at the main office of the Securities and Exchange Commission, located at 425 Second Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. At such time the Hearing Room Clerk in Room 193, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before June 11, 1956. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived.

*It is further ordered,* That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to June 25, 1956.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of the section delaying the effective date of any final Commission action.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[1] Filed as part of original document.

SMITH, HECK DEVELOPMENT CO.

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 22d day of May 1956.

In the matter of Smith, Heck Development Company, Allegheny River at Bull Creek, Tarentum, Pa.

I. The Commission's public official files disclose that Smith-Heck Development Company, a Pennsylvania corpora-

tion, hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar years 1954, 1955, as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted thereunder.

III. The information reported to the Commission by its Records Officer as set forth in Paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section.

IV. The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statement referred to in Paragraph II hereof is true;

(b) Whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant; and

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant.

V. *It is ordered*, That registrant be given an opportunity for hearing as set forth in Paragraph IV hereof on the 25th day of June 1956, at 10:00 a. m. at the main office of the Securities and Exchange Commission, located at 425 Second Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. On such date the Hearing Room Clerk in Room 193, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before June 11, 1956. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the Rules of Practice unless such decision is waived.

*It is further ordered*, That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to June 25, 1956.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of the section delaying the effective date of any final Commission action.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
*Secretary.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; secs. 2-5, 54 Stat. 1128-1130; 15 U. S. C. 45, 68-68c) [Cease and desist order, Luxurious Woollens, Ltd., et al., New York, N. Y., Docket 6518, May 11, 1956]

*In the Matter of Luxurious Woollens, Ltd., a Corporation, Max Wasserman, Individually and as an Officer of the Corporation; and Paul A. Raich, Individually and as General Manager of the Corporation*

This proceeding was heard by a hearing examiner on the complaint of the Commission—charging a corporation and its officers, with place of business in New York City, with violation of the Wool Products Labeling Act through misrepresenting the percentage of beaver fur in certain wool products on sales invoices and shipping memoranda and on attached labels, and through furnishing similar labels to customers for attachment to garments manufactured from respondents' wool products; through furnishing false guaranties that certain of their wool products were not misbranded; and through failing to label certain products as required by the act—and an agreement between the parties providing for entry of a consent order.

On this basis, the hearing examiner made his initial decision and order to cease and desist which became, on May 11, 1956, the decision of the Commission.

The order to cease and desist is as follows:

*It is ordered,* That the respondent, Luxurious Woollens, Ltd., a corporation; its officers; the respondent, Max Wasserman, individually and as an officer of the corporation; the respondent, Paul A. Raich, individually and as General Manager of the corporation; and respondents' representatives, agents and employees, directly or through any corporate device, in connection with the introduction or manufacture for introduction into commerce, or the offering for sale, sale, transportation or distribution in commerce (as "commerce" is defined in the Federal Trade Commission Act and the Wool

Products Labeling Act) of piece goods or other "wool products" (as "wool products" are defined in the Wool Products Labeling Act), do forthwith cease and desist from:

A. Misbranding such products by:

1. Attaching or using stamps, tags, labels or other means of identification which represent that such products contain a certain percentage of beaver hair or fiber which is contrary to fact;

2. Otherwise falsely or deceptively stamping, tagging, labeling or identifying such products as to the character or amount of their constituent fibers;

3. Failing to affix securely on each such product a stamp, tag, label or other means of identification showing in a clear and conspicuous manner:

(a) The percentage of the total fiber weight of such wool product (exclusive of ornamentation not exceeding five per centum of the total fiber weight) of (1) wool, (2) reprocessed wool, (3) reused wool, (4) each fiber other than wool where the percentage of weight of such fiber is five per centum or more, and (5) the aggregate of all other fibers;

(b) The maximum percentage of the total weight of such wool product, of any non-fibrous loading, filling or adulterating matter;

(c) The name or the registered identification number of the manufacturer of such wool product or of one or more persons engaged in introducing such wool product into commerce, or in the offering for sale, sale, transportation, distribution, or delivery for shipment of such wool product in commerce (as "commerce" is defined in the Wool Products Labeling Act of 1939).

B. Furnishing false guaranties that piece goods, or other wool products (as "wool products" are defined in the Wool Products Labeling Act) are not misbranded under the provisions of the Wool Products Labeling Act, when there is reason to believe that the wool products

so guaranteed may be introduced, sold, transported, or distributed in commerce.

*Provided,* That the foregoing provisions concerning misbranding shall not be construed to prohibit acts permitted by paragraphs (a) and (b) of section 3 of the Wool Products Labeling Act of 1939; and

*Provided further,* That nothing contained in this order shall be construed as limiting any applicable provisions of said Act or the Rules and Regulations promulgated thereunder.

*It is further ordered,* That the respondent, Luxurious Woollens, Ltd., a corporation; its officers; the respondent, Max Wasserman, individually and as an officer of the corporation; the respondent, Paul A. Raich, individually and as general manager of the corporation; and respondents' agents, representatives, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution in commerce (as "commerce" is defined in the Federal Trade Commission Act) of piece goods, or other wool products, do forthwith cease and desist from:

A. Misrepresenting in invoices, by labels separately furnished or in any other manner the character or amount of the constituent fibers contained in such products.

B. Furnishing to or placing in the hands of others stamps, tags, or labels by means of which the respondents' products, or garments made from them, may be falsely or deceptively stamped, tagged, labeled or otherwise identified, either as to the character or amount of their constituent fibers or in any other respect.

By "Decision of the Commission", etc., report of compliance was required as follows:

*It is ordered,* That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: May 11, 1956.

By the Commission.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; sec. 8, 65 Stat. 179; 15 U. S. C. 45, 69f) [Cease and desist order, William Overton t. a. Vancouver Fur Factory, Vancouver, Wash., Docket 6509, May 10, 1956]

*In the Matter of William Overton, an Individual Trading as Vancouver Fur Factory*

This proceeding was heard by a hearing examiner on the complaint of the Commission—charging a fur dealer with false advertising, misbranding, and false invoicing of his fur products in violation of the Fur Products Labeling Act in that he failed to disclose the names of animals producing the fur or that certain products contained artificially colored fur, set forth names of animals other than the real source of furs, failed to maintain adequate records supporting purported claims of savings, and failed to attach labels or failed to set forth information as required on attached labels and on invoices—and an agreement between the parties for entry of a consent order.

On this basis, the hearing examiner made his initial decision and order to cease and desist which became, on May 10, 1956, the decision of the Commission.

The order to cease and desist is as follows:

*It is ordered,* That respondent, William Overton, individually or trading as Vancouver Fur Factory or under any other trade name, and respondent's representatives, agents, and employees, directly or through any corporate or other device, in connection with the introduction, or the sale, advertising or offering for sale, or the transportation or distribution of any fur product in commerce, or in connection with the sale, advertising, offering for sale, transportation or distribution of fur products which have been made in whole or in part of fur which had been shipped and received in commerce, as "commerce," "fur," and "fur product" are defined in the Fur Products Labeling Act, do forthwith cease and desist from:

A. Misbranding fur products by:

1. Failing to affix labels to fur products showing:

a. The name or names of the animal or animals producing the fur or furs contained in the fur product as set forth in the Fur Products Name Guide and as prescribed under the rules and regulations;

b. That the fur product contains or is composed of used fur when such is a fact;

c. That the fur product contains or is composed of bleached, dyed, or otherwise artificially colored fur when such is a fact;

d. That the fur product is composed in whole or in substantial part of paws, tails, bellies or waste fur when such is a fact;

e. The name, or other identification issued and registered by the Commission, of one or more persons who manufactured such fur product for introduction into commerce, introduced it into commerce, sold it in commerce, advertised or offered it for sale in commerce, or transported or distributed it in commerce;

f. The name of the country of origin of any imported furs used in the fur product.

2. Setting forth, on labels attached to fur products, the name or names of any animal or animals other than the name or names provided for in paragraph A (1) (a) above.

3. Setting forth on labels attached to fur products:

a. Required information in abbreviated form;

b. Non-required information mingled with required information;

c. Required information in handwriting;

4. Failing to show, on labels attached to fur products, all of the required information on one side of such labels.

B. Falsely or deceptively invoicing fur products by:

1. Failing to furnish invoices to purchasers of fur products showing:

a. The name or names of the animal or animals producing the fur or furs contained in the fur product as set forth in the Fur Products Name Guide and as prescribed under the rules and regulations;

b. That the fur product contains or is composed of used fur when such is a fact;

c. That the fur product contains or is composed of bleached, dyed, or otherwise artificially colored fur when such is a fact;

d. That the fur product is composed in whole or in substantial part of paws, tails, bellies, or waste fur when such is a fact;

e. The name and address of the person issuing such invoices;

f. The name of the country of origin of any imported furs contained in the fur product.

2. Setting forth required information in abbreviated form.

3. Failing to show the item number or mark of fur products on the invoices pertaining to such products, as required by Rule 40 of the rules and regulations.

C. Falsely or deceptively advertising fur products, through the use of any advertisement, representation, public announcement, or notice which is intended to aid, promote or assist, directly or indirectly, in the sale or offering for sale of fur products, and which:

1. Fails to disclose:

a. The name or names of the animal or animals producing the fur or furs contained in the fur products as set forth

[1] New.

in the Fur Products Name Guide and as prescribed under the rules and regulations;

b. That the fur products contain or are composed of bleached, dyed, or otherwise artificially colored fur when such is a fact;

2. Contains the name or names of any animal other than the name or names of the animals provided for in paragraph C (1) (a) above.

3. Makes claims or representations as to value or savings, unless there are maintained by respondent full and adequate records disclosing the facts upon which such claims or representations are based.

By "Decision of the Commission", etc., report of compliance was required as follows:

*It is ordered*, That the respondent herein shall within sixty (60) days after service upon him of this order, file with the Commission a report in writing setting forth in detail the manner and form in which he has complied with the order to cease and desist.

Issued: May 10, 1956.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary.*

## TITLE 14—CIVIL AVIATION

### Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 8]

PART 601—DESIGNATION OF CONTROL AREAS, CONTROL ZONES, AND REPORTING POINTS

ALTERATIONS

*Correction*

In F. R. Doc. 56-4099, appearing at page 3495 of the issue for Friday, May 25, 1956, "§ 601.607" under item 16 should read "§ 601.6077."

## TITLE 17—COMMODITY AND SECURITIES EXCHANGES

### Chapter II—Securities and Exchange Commission

PART 240—GENERAL RULES AND REGULATIONS, SECURITIES EXCHANGE ACT OF 1934

EXEMPTION OF CERTAIN ACQUISITIONS OF SECURITIES UNDER CERTAIN PLANS

The Commission today adopted an amendment of § 240.16b-3 (Rule X-16B-3) in the form set forth below.

Section 240.16b-3, as adopted February 25, 1949, sought to exempt from section 16 (b) of the act certain transactions involving securities acquired under bonus, profit-sharing or similar plans. On August 16, 1955, in Release No. 5209, the Commission published for comment a revision proposal which was not intended to change the meaning and scope of the rule but rather to clarify the application of its provisions in accordance with interpretations which the Commission has heretofore given. As a result of an analysis of the comments received and a further review of the problem, a revised amendment proposal was published for further public comment, on March 22, 1956, and further comments were received and considered.

*Background of the rule.* Section 240.16b-3 was first adopted on October 9, 1935. It provided, at that time, for an exemption from section 16 (b) liability for certain transactions in connection with stock option plans. Any purchase and sale or sale and purchase was exempted from the operation of section 16 (b): *Provided*, That (1) the purchase was pursuant to a nontransferable option granted prior to June 6, 1934, in connection with an employment contract, (2) the sale was made subsequent to October 9, 1935, (3) the plan was approved at a stockholders' meeting, and (4) the price of the stock under the option was at least as high as the market price of the stock at the time the option was granted.

With the passage of time this rule became obsolete and on February 25, 1949, it was withdrawn and a new rule, dealing with an entirely different subject matter, was adopted. The new rule took the form of an amendment to the old rule, but it did not deal with options at all. Instead, it specifically omitted from the scope of its exemptive provisions convertible securities, options, warrants, or other rights to purchase a security. The February 25, 1949, rule dealt with the exemption from section 16 (b) of transactions involving securities acquired under bonus, profit-sharing or similar plans. It exempted purchases made pursuant to a bonus, profit-sharing or similar plan meeting the following requirements:

(1) The plan must have been approved by security holders

(2) The security must have been issued for services

(3) The recipients of the bonus must have been selected by persons not entitled to receive any bonus, and

(4) The aggregate amount received under the bonus plan must have been limited to a percentage of net profits of the issuer or its subsidiaries.

The Internal Revenue Act of 1950 accorded favorable tax treatment to the receipt of certain non-transferable stock options (called "restricted stock options") and to the exercise of such options and the sale of stock covered thereby, if certain conditions were met.

The Commission again amended § 240.16b-3 in 1952 to exempt purchases pursuant to restricted stock option plans which met the same standards as had been provided in the rule for bonus plans. The release which accompanied the promulgation of the rule (Securities Exchange Act Release No. 4754) stated: "The amendment to § 240.16b-3 broadens the exemption hitherto provided by the rule by making it applicable to acquisitions of nontransferable options, as well as to acquisitions of shares of stock." It sought to accomplish this purpose by adding the purchase of non-transferable options to the transactions exempted, and by amending that portion of the rule which denied the benefits of the rule to plans under which cash was paid for stock to except stock received pursuant to an option. The rule also eliminated the provision requiring the security to be received from the issuer for services.

*Problems under the rule.* The effort to adapt a rule dealing with stock bonus and similar plans, which excluded stock option plans, to stock option plans has led to many interpretative problems for the staff of the Commission. These problems have also been the subject of private litigation in the Courts. Interpretations by the Commission staff have received very limited publicity, and are not official determinations of the Commission.

The Commission thereafter published for comment on August 16, 1955 a proposed amended rule which in effect would codify interpretations rendered by the staff. In the course of considering the many comments received, it was concluded that the public interest would be better served by a rule which, in addition to serving as a clarification and codification of existing interpretations, would simplify the provisions and reinforce investor protection. Accordingly a revised proposal was published for comment on March 22, 1956. Further comments were received and considered and the Commission has adopted the rule substantially in the form published on March 22. The only changes from that proposal in the rule as adopted permit the required consent of security holders to be given by written consent following adequate solicitation as well as at a stockholders' meeting and clarify the use of outstanding securities as a basis for a formula limiting the amount of funds or securities which may be allocated pursuant to the plan.

*Analysis of amended rule.* 1. The amended rule makes it clear that the exemption applies to the acquisition of stock pursuant to non-transferable options. This is consistent with the expressed intention of the Commission which amended the rule in 1952 for the purpose of conforming it to the Revenue Act of 1950.

2. The amended rule requires that, to qualify for the exemption, the plan must be approved by the holders of at least a majority of the securities of the issuer present or represented and entitled to vote at a meeting for which proxies were solicited substantially in accordance with the Commission's proxy rules whether or not such rules were applicable to the solicitation or by written consents of a majority of such holders, solicited in accordance with such rules. This makes clear that (a) approval of the plan by holders of a majority of the securities represented at the stockholders' meeting and entitled to vote or by such written consents is necessary, and sufficient, and (b) even if the corporation was not subject to the Securities Exchange Act at the time the plan was approved it may qualify for the exemption if, in fact, the requisite number of votes were obtained following an adequate proxy solicitation. This is in accord with administrative interpretations of the present rule.

3. The amended rule adds a new subsection authorizing successor corporations to qualify for the benefits of the rule if their predecessors would have been eligible. By administrative interpretation, the present rule has been construed to include successor corporations.

4. The amended rule eliminates the requirement that the selection of the persons who are to receive the securities pursuant to the plan must be made by a board of directors, a majority of whom are not eligible to participate in the plan, or a committee all of the members of which are not eligible to participate in the plan. This requirement raised problems of state law relating to the responsibility of officers and directors who vote upon their compensation. Drafting difficulties which would have to take into account the state statutes dealing with director responsibilities for compensation, and practical difficulties when a board of directors is composed entirely or in large part of officers of the company eligible to participate under the option plan also add to the problem of adopting any provision dealing with this matter. It is believed that these problems are matters to be resolved in state courts. In addition, there has been no demonstration that any additional investor protection has been conferred by this provision. The provision has a very limited operation since it is restricted to prohibiting directors or committee members entitled to benefit from the particular plan or similar plan from constituting a majority or all of those awarding the options. The means by which a director or committee member may benefit himself, if he so desires, are not greatly restricted.

5. The amended rule clarifies the existing language to indicate that the plan may qualify under the rule if it limits the funds or securities allocated under the plan by establishing limitations for each fiscal year, or for the duration of the plan, and the limitation may be determined by fixed amounts of securities or funds, or by formulas based upon earnings, dividends, compensation received by participants, percentages of outstanding securities, or similar factors. This has been the administrative interpretation of the present rule.

6. The amended rule eliminates the existing language dealing with the payment of cash as a factor in the availability of the exemption. Originally, this provision served to exclude stock acquired pursuant to options or similar contracts which called for the payment of cash, for the rule was then limited to bonus or similar plans. The conflicting provisions dealing with cash payments can only be reconciled by arbitrary determinations which have no place in the consideration of whether the public interest requires this provision in the rule.

*Purpose of the amendment.* In connection with the amendment, the Commission limited itself to the effectuation of the basic intention, as expressed in the release which amended the rule after the Revenue Act of 1950, to exempt acquisitions pursuant to both bonus and similar plans and restricted stock option plans. A clarification of the rule seemed urgent, and in connection with the clarification it seemed desirable to simplify the operation and language of the rule to enable a clearer understanding of its effect so long as the public interest was not prejudiced.

*Statutory basis.* This action is taken pursuant to the Securities Exchange Act of 1934, particularly sections 3 (a) (12), 3 (b), 16 (b) and 23 (a).

*Text of rule.* The text of the amended rule is as follows:

§ 240.16b-3 *Exemption from section 16 (b) of certain acquisitions of securities under certain plans.* Any acquisition of non-transferable options or of shares of stock including stock acquired pursuant to such options by a director or officer of the issuer of such stock shall be exempt from the operation of section 16 (b) of the act if the stock or option was acquired pursuant to a bonus, profit-sharing, retirement, stock option, thrift, savings or similar plan meeting all the following conditions:

(a) The plan has been approved specifically, or through the approval of a charter amendment authorizing stock for issuance pursuant to the plan:

(1) By the holders of at least a majority of the securities of the issuer present or represented and entitled to vote at a meeting for which proxies were solicited substantially in accordance with such rules and regulations, if any, as were then in effect under section 14 (a) of the act, whether or not such rules and regulations were applicable to such solicitation; or by written consents of the holders of at least a majority of the securities of the issuer entitled to vote solicited substantially in accordance with such rules and regulations; or

(2) By the security holders of a predecessor corporation in the manner provided in subparagraph (1) of this paragraph, if the plan, or obligations to participate thereunder, were assumed by the issuer in connection with the transaction of succession.

(b) The plan effectively limits (subject to any provisions for adjustment of the plan or options outstanding thereunder to prevent dilution or enlargement of rights) the aggregate amount of funds or securities which may be allocated pursuant to the plan, either by limiting the maximum amount which may be allocated to each participant in the plan or by limiting the maximum amount which may be so allocated to all such participants. Such limitations may be established for each fiscal year, or for the duration of the plan, whether or not the plan has a fixed termination date, and may be determined either by fixed amounts of securities or funds, or by formulas based upon earnings of the issuer, dividends paid, compensation received by participants, outstanding securities or percentages thereof outstanding from time to time, or similar factors which will result in a determinable limitation.

(c) Unless the context otherwise requires, all terms used in this section shall have the same meanings as in the act or elsewhere in the general rules and regulations thereunder. In addition the following definitions apply:

(1) The term "plan" in this section includes all plans whether or not set forth in any formal document;

(2) The term "non-transferable option" includes an option which by its terms is not transferable by such optionee otherwise than by will or the laws of descent and distribution, and is exercisable, during his lifetime, only by him.

Since the amendments to the rule are interpretative in nature and have the effect of relieving restriction, the amended rule shall become effective immediately upon publication.

(Sec. 23, 48 Stat. 901, as amended, 15 U. S. C. 78w. Interprets or applies secs. 3, 16, 48 Stat. 882, 896; 15 U. S. C. 78c, 78p)

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

## TITLE 26—INTERNAL REVENUE

### Chapter I—Internal Revenue Service, Department of the Treasury

Subchapter D—Employment Taxes

[T. D. 6176]

[Regs. 128]

PART 408—EMPLOYEE TAX AND EMPLOYER TAX UNDER THE FEDERAL INSURANCE CONTRIBUTIONS ACT; APPLICABLE ON AND AFTER JANUARY 1, 1951

SERVICES FOR CERTAIN TAX EXEMPT ORGANIZATIONS

On March 14, 1956, notice of proposed rule making regarding amendments to conform Regulations 128 (26 CFR (1939) Part 408), as amended, relating to the employee tax and the employer tax under the Federal Insurance Contributions Act (subchapter A, chapter 9, Internal Revenue Code of 1939), to the provisions of section 403 of the Social Security Amendments of 1954 (68 Stat. 1098), approved September 1, 1954, was published in the FEDERAL REGISTER (21 F. R. 1598). No objection to the rules proposed having been received during the 30-day period prescribed in the notice, the following amendments to such regulations are hereby adopted:

PARAGRAPH 1. Section 408.201 is amended by inserting after paragraph (q) the following new paragraph (r):

(r) "Social Security Amendments of 1954" means the act approved September 1, 1954 (68 Stat. 1052).

PAR. 2. There is inserted immediately preceding § 408.216 the following:

SECTION 403 OF THE SOCIAL SECURITY AMENDMENTS OF 1954, APPROVED SEPTEMBER 1, 1954

SERVICE FOR CERTAIN TAX-EXEMPT ORGANIZATIONS PRIOR TO ENACTMENT OF THIS ACT

(a) In any case in which—

(1) An individual has been employed, at any time subsequent to 1950 and prior to the enactment of this act, by an organization which is exempt from income tax under section 101 (6) of the Internal Revenue Code

of 1939 but which has failed to file prior to the enactment of this act a waiver certificate under section 1426 (l) (1) of the Internal Revenue Code of 1939;

(2) The service performed by such individual as an employee of such organization during the period subsequent to 1950 and prior to 1955 would have constituted employment (as defined in section 210 of the Social Security Act and section 1426 (b) of the Internal Revenue Code of 1939) if such organization had filed prior to the performance of such service such a certificate accompanied by a list of the signatures of employees who concurred in the filing of such certificate and such individual's signature had appeared on such list;

(3) The taxes imposed by sections 1400 and 1410 of the Internal Revenue Code of 1939 have been paid with respect to any part of the remuneration paid to such individual by such organization for such service;

(4) Part of such taxes have been paid prior to the enactment of this Act;

(5) So much of such taxes as have been paid prior to the enactment of this Act have been paid by such organization in good faith and upon the assumption that a waiver certificate had been filed by it under section 1426 (l) (1) of the Internal Revenue Code of 1939; and

(6) No refund of such taxes has been obtained,

the amount of such remuneration with respect to which such taxes have been paid shall, upon the request of such individual (filed in such form and manner, and with such official, as may be prescribed by regulations made under subchapter A of Chapter 9 of the Internal Revenue Code of 1939), be deemed to constitute remuneration for employment as defined in section 210 of the Social Security Act and section 1426 (b) of the Internal Revenue Code of 1939.

(b) In any case in which—

(1) An individual has been employed, at any time subsequent to 1950 and prior to the enactment of this Act, by an organization which has filed a waiver certificate under section 1426 (l) (1) of the Internal Revenue Code of 1939;

(2) The service performed by such individual during the time he was so employed would have constituted employment (as defined in section 210 of the Social Security Act and section 1426 (b) of the Internal Revenue Code of 1939) if such individual's signature had appeared on the list of signatures of employees who concurred in the filing of such certificate;

(3) The taxes imposed by sections 1400 and 1410 of the Internal Revenue Code of 1939 have been paid prior to the enactment of this Act with respect to any part of the remuneration paid to such individual by such organization for such service; and

(4) No refund of such taxes has been obtained,

the amount of such remuneration with respect to which such taxes have been paid shall, upon the request of such individual (filed on or before January 1, 1957, and in such form and manner, and with such official, as may be prescribed by regulations made under subchapter A of chapter 9 of the Internal Revenue Code of 1939), be deemed to constitute remuneration for employment as defined in section 210 of the Social Security Act and section 1426 (b) of the Internal Revenue Code of 1939, and such individual shall be deemed to have concurred in the filing of the waiver certificate filed by such organization under section 1426 (l) (1) of the Internal Revenue Code of 1939.

PAR. 3. Section 408.216 is amended as follows:

(A) By revising § 408.216 (a) (1) to read as follows:

(1) Services performed by an employee in the employ of a religious, charitable, educational, or other organization exempt from income tax under section 101 (6) of the Internal Revenue Code are excepted from employment. However, this exception does not apply to services (i) performed during the period for which a certificate, filed pursuant to section 1426 (l) of the act, is in effect if such services are performed by an employee (*a*) whose signature appears, or is deemed pursuant to section 403 (b) of the Social Security Amendments of 1954 and paragraph (d) of this section to appear, on the list filed by such organization under section 1426 (l) of the act, or (*b*) who became an employee of such organization after the calendar quarter in which the certificate was filed; or (ii) with respect to which the employee and employer taxes have been paid and a request is thereafter filed under the conditions stated in paragraph (c) (1) and (2) of this section.

(B) By revising the first and second sentences of § 408.216 (b) (2) (v) to read as follows:

(v) Services performed in the employ of an organization which has duly filed a certificate are not excepted from employment under section 1426 (b) (9) (B) of the act, during the period for which the certificate is in effect, if such services are performed by an employee (*a*) whose signature appears, or is deemed pursuant to section 403 (b) of the Social Security Amendments of 1954 and paragraph (d) of this section to appear, on the list filed by the organization on Form SS–15a, or on Form SS–15a Supplement, or (*b*) who becomes an employee of the organization after the calendar quarter in which the certificate is filed. Consequently, the taxes imposed under the Act will apply to the organization and to each employee whose services constitute employment and whose signature appears, or is deemed pursuant to section 403 (b) of the Social Security Amendments of 1954 and paragraph (d) of this section to appear, on the accompanying list or on any supplemental list or lists filed within the prescribed time, commencing with the first day following the close of the calendar quarter in which the certificate is filed. * * *

(C) By adding at the end of § 408.216 the following new paragraphs (c) and (d):

(c) *Special procedure for coverage of certain services in cases where waiver was not filed prior to September 1, 1954*—(1) *In general.* Pursuant to section 403 (a) of the Social Security Amendments of 1954, any individual who, as an employee, performed services after December 31, 1950, and prior to September 1, 1954, for an organization exempt from income tax under section 101 (6) of the Internal Revenue Code which had failed to file, prior to September 1, 1954, a valid certificate under section 1426 (l) of the act, may request that the remuneration received by him for services performed in the employ of the organization after 1950 and before 1955 be deemed to constitute remuneration for employment for purposes of the taxes imposed under the act and for purposes of title II of the Social Security Act, if:

(i) Any of the services performed by the individual after December 31, 1950, and prior to January 1, 1955, would have constituted employment, as defined in section 1426 (b) of the act, if a certificate on Form SS–15 filed by the organization under section 1426 (l) of the act had been in effect for the period during which the services were performed and the individual's signature had appeared on the accompanying list on Form SS–15a;

(ii) The employee and employer taxes have been paid with respect to any part of the remuneration received by the individual from the organization for such services;

(iii) A part of such taxes was paid prior to September 1, 1954;

(iv) Such taxes as were paid before September 1, 1954, were paid by the organization in good faith and upon the assumption that it had filed a valid certificate under section 1426 (l) of the act; and

(v) No refund (or credit) of such taxes has been obtained either by the employee or the employer, exclusive of any refund (or credit) which would be allowable if the services performed by the individual had constituted employment.

The provisions of section 403 (a) of the Social Security Amendments of 1954 have no application to remuneration for services performed after 1954.

(2) *Execution and filing of request.* (i) Except where the alternative procedure set forth in subdivision (ii) of this subparagraph is followed, the request of an individual under section 403 (a) of the Social Security Amendments of 1954 shall be made and filed as provided in this subdivision. The request shall be in writing, shall be signed and dated by the individual, and shall include:

(*a*) The name and address of the organization for which the services were performed;

(*b*) The name, address, and social security account number of the individual;

(c) A statement that the individual has not obtained refund or credit (other than a refund or credit which would be allowable if the services had constituted employment) from the district director of any part of the employee tax paid with respect to remuneration received by him from the organization for services performed after 1950 and before 1955; and

(*d*) A request that all remuneration received by him from the organization for such services with respect to which employee and employer taxes have been paid shall be deemed to constitute remuneration for employment to the extent authorized by section 403 (a) of the Social Security Amendments of 1954. The request of an individual shall be accompanied by a statement of the organization incorporating the substance of each of the five conditions listed in subparagraph (1) of this paragraph. The statement of the organization should also show that the individual performed services for the organization after December 31, 1950, and prior to September 1, 1954; that the organization was exempt from income tax under section 101 (6) of the Internal Revenue Code and failed to file, prior to September 1, 1954, a valid certificate under section 1426 (l) of the act; and the district director with whom returns on Form 941 are filed. Such statement must be signed by the president or other principal officer of the organization who shall certify that the statement is correct to the best of his knowledge and belief. If the statement of the organization is not submitted with the individual's request, the individual shall include in his request an explanation of his inability to submit such statement. Other information may be required, but should be submitted only upon receipt of a specific request therefor. No particular form is prescribed for the request of the individual or the statement of the organization required to be submitted with the request. The individual's request should be filed with the district director with whom the organization files returns on Form 941. If the individual is deceased or mentally incompetent and the request filed pursuant to section 403 (a) of the Social Security Amendments of 1954 is made by the legal representative of the individual or other person authorized to act on his behalf, the request must be accompanied by evidence showing such person's authority to make the request.

(ii) An organization which has or had in its employ individuals with respect to whom section 403 (a) of the Social Security Amendments of 1954 is applicable may, if it so desires, prepare a form or forms for use by any such individual or individuals in making requests under such section. Any such form shall provide space for the signature of the individual or individuals and shall contain such information as is required by subdivision (i) of this subparagraph to be included in a request. Any such form used by more than one individual, and any such form used by one individual which is signed and returned to the organization, shall be submitted by the organization, together with its statement (as required in subdivision (i) of this subparagraph), to the district director with whom the organization files returns on Form 941. An individual is not required to use a form prepared by the organization but may, at his election, file his request in accordance with the provisions of subdivision (i) of this subparagraph.

(3) *Optional tax payments by organization.* An organization which, prior to September 1, 1954, has reported and paid taxes under the act with respect to any portion of the remuneration paid to an individual, who is eligible to file a request under section 403 (a) of the Social Security Amendments of 1954, for services performed by him subsequent to 1950 and prior to 1955, may report and pay taxes under the act on or after September 1, 1954, with respect to any remaining portion of such remuneration which would have constituted wages if a certificate had been in effect with respect to such services. Such taxes may be reported as an adjustment without interest in the manner prescribed in Subpart G of the regulations in this part. The statement in explanation of such adjustment should include a reference to section 403 (a) of the Social Security Amendments of 1954.

(4) *Effect of request.* If a request is made and filed under the conditions stated in subparagraphs (1) and (2) of this paragraph with respect to one or more individuals, remuneration for services performed by each such individual subsequent to 1950 and prior to 1955, with respect to which the employee and employer taxes are paid on or before the date on which the request is filed with the district director, will be deemed to constitute remuneration for employment to the extent that such services would have constituted employment as defined in section 1426 (b) of the act if a certificate had been in effect with respect to such services. However, the provisions of section 1426 (a) of the act and §§ 408.226 and 408.227 are applicable in determining the extent to which such remuneration for employment constitutes wages for purposes of the employee and employer taxes.

(d) *Special procedure for coverage of certain services in cases where individual failed to sign list of concurring employees*—(1) *In general.* Pursuant to section 403 (b) of the Social Security Amendments of 1954, any individual who, as an employee, performed services after December 31, 1950, and prior to September 1, 1954, for an organization which filed a valid certificate under section 1426 (l) of the act, but who failed to sign the list of employees concurring in the filing of such certificate, may request that the remuneration received by him for such services be deemed to constitute remuneration for employment for purposes of the taxes imposed under the act and for purposes of title II of the Social Security Act, if:

(i) Any of the services performed by the individual after December 31, 1950, and prior to September 1, 1954, would have constituted employment, as defined in section 1426 (b) of the act, if his signature had appeared on the list of employees who concurred in the filing of the certificate;

(ii) The employee and employer taxes were paid prior to September 1, 1954, with respect to any part of the remuneration received by the individual from the organization for such services; and

(iii) No refund (or credit) of such taxes has been obtained either by the employee or the employer, exclusive of any refund (or credit) which would be allowable if the services performed by the individual had constituted employment.

(2) *Effect of request.* An individual who makes and files a request under the conditions stated in subparagraphs (1) and (3) of this paragraph with respect to services performed as an employee of an organization exempt from income tax under section 101 (6) of the Internal Revenue Code will be deemed to have signed the list accompanying the certificate filed by the organization under section 1426 (l) of the act. Accordingly, all services performed by the individual for the organization on and after the effective date of the certificate will constitute employment to the same extent as if he had, in fact, signed the list. The employee tax and employer tax are applicable with respect to any remuneration paid to the employee by the organization which constitutes wages. If less than the correct amount of such taxes has been paid, the additional amount due should be reported as an adjustment without interest within the time specified in Subpart G of the regulations in this part. The statement in explanation of such adjustment should include a reference to section 403 (b) of the Social Security Amendments of 1954.

(3) *Execution and filing of request.* (i) Except where the alternative procedure set forth in subdivision (ii) of this subparagraph is followed, the request of an individual under section 403 (b) of the Social Security Amendments of 1954 shall be made and filed as provided in this subdivision. The request shall be filed on or before January 1, 1957, shall be in writing, shall be signed and dated by the individual, and shall include:

(*a*) The name and address of the organization for which the services were performed;

(*b*) The name, address, and social security account number of the individual;

(*c*) A statement that the individual has not obtained a refund or credit (other than a refund or credit which would be allowable if the services had constituted employment) from the district director of any part of the employee tax paid before September 1, 1954, with respect to remuneration received by him from the organization;

(*d*) A request that all remuneration received by the individual from the organization for services performed after 1950 and before September 1, 1954, with respect to which employee and employer taxes were paid before September 1, 1954, shall be deemed to constitute remuneration for employment to the extent authorized by section 403 (b) of the Social Security Amendments of 1954; and

(*e*) A statement that the individual understands that, upon the filing of such request with the district director, (*1*) he will be deemed to have concurred in the certificate which was previously filed by the organization, and (2) the employee and employer taxes will be applicable to all wages received, and to be received, by him for services performed for the organization on or after the effective date of such certificate to the extent that such taxes would have been applicable if he had signed the list on Form SS–15a submitted with the certificate.

The request of an individual shall be accompanied by a statement of the organization incorporating the substance of each of the three conditions listed in subparagraph (1) of this paragraph. The statement of the organization should also show that the individual performed services for the organization after December 31, 1950, and prior to September 1, 1954; that the organization filed a valid certificate under section 1426 (l) of the act; and the district director with whom returns on Form 941 are filed. Such statement must be signed by the president or other principal officer of the organization who shall certify that the

statement is correct to the best of his knowledge and belief. If the statement of the organization is not submitted with the individual's request, the individual shall include in his request an explanation of his inability to submit such statement. Other information may be required, but should be submitted only upon receipt of a specific request therefor. No particular form is prescribed for the request of the individual or the statement of the organization required to be submitted with the request. The individual's request should be filed with the district director with whom the organization files returns on Form 941. If the individual is deceased or mentally incompetent and the request filed pursuant to section 403 (b) of the Social Security Amendments of 1954 is made by the legal representative of the individual or other person authorized to act on his behalf, the request must be accompanied by evidence showing such person's authority to make the request.

(ii) An organization which has or had in its employ individuals with respect to whom section 403 (b) of the Social Security Amendments of 1954 is applicable, may, if it so desires, prepare a form or forms for use by any such individual or individuals in making requests under such section. Any such form shall provide space for the signature of the individual or individuals and shall contain such information as is required by subdivision (i) of this subparagraph to be included in a request. Any such form used by more than one individual, and any such form used by one individual which is signed and returned to the organization, shall be submitted by the organization, together with its statement (as required in subdivision (i) of this subparagraph), to the district director with whom the organization files returns on Form 941. An individual is not required to use a form prepared by the organization but may, at his election, file his request in accordance with the provisions of subdivision (i) of this subparagraph.

(Sec. 403, 68 Stat. 1098, 53 Stat. 178, 467; 26 U. S. C. 1426, App. note, 1429, 3791)

[SEAL] RUSSELL C. HARRINGTON,
*Commissioner of Internal Revenue.*

Approved: May 24, 1956.

DAN THROOP SMITH,
*Special Assistant to the Secretary in Charge of Tax Policy.*

## TITLE 49—TRANSPORTATION

### Chapter I—Interstate Commerce Commission

[Rev. S. O. 562, Amdt. 8]

PART 97—ROUTING OF TRAFFIC

REROUTING OF TRAFFIC, APPOINTMENT OF AGENT

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 23d day of May A. D. 1956.

Upon further consideration of the provisions of Revised Service Order No. 562 (14 F. R. 2697), as amended (15 F. R. 3105; 8651; 16 F. R. 4551; 17 F. R. 4675; 18 F. R. 3048; 19 F. R. 2966; 20 F. R. 3685), and good cause appearing therefor:

It is ordered, That: § 97.562 *Rerouting of traffic; appointment of agent*, of Revised Service Order No. 562 be, and it is hereby, further amended by substituting the following paragraphs (a) and (d) hereof for paragraphs (a) and (d) thereof:

(a) Charles W. Taylor, Director, Bureau of Safety and Service, Interstate Commerce Commission, Washington 25, D. C., is hereby designated and appointed an Agent of the Interstate Commerce Commission and vested with authority to authorize diversion and rerouting of loaded and empty freight cars from and to any point in the United States whenever in his opinion an emergency exists whereby any railroad is unable to move traffic currently over its lines.

* * * * * *

(d) Expiration date: This order shall expire at 11:59 p. m., May 25, 1957, unless otherwise modified, changed, suspended, or annulled by order of this Commission.

*It is further ordered*, That this amendment shall become effective at 11:59 p. m., May 25, 1956; that a copy of this order and direction be served upon the state railroad regulatory bodies of each State, upon all common carriers by railroad subject to the Interstate Commerce Act, and upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(Sec. 12, 24 Stat. 383, as amended; 49 U. S. C. 12. Interprets or applies sec. 1, 24 Stat. 379, as amended, sec. 15, 24 Stat. 384, as amended; 49 U. S. C. 1)

By the Commission, Division 3.

[SEAL] HAROLD D. MCCOY,
*Secretary.*

[F. R. Doc. 56-4195; Filed, May 28, 1956; 8:46 a. m.]

# PROPOSED RULE MAKING

## DEPARTMENT OF THE TREASURY

### Internal Revenue Service

### [ 26 CFR (1954) Part 1 ]

INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

COMMON NONTAXABLE EXCHANGES

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing, in duplicate, to the Commissioner of Internal Revenue, Attention: T:P, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U. S. C. 7805).

[SEAL] RUSSELL C. HARRINGTON,
*Commissioner of Internal Revenue.*

The following regulations for taxable years beginning after December 31, 1953, and ending after August 16, 1954, except where otherwise specifically provided, are hereby prescribed under sections 1031 (exchange of property held for productive use or investment), 1032 (exchange of stock for property), and 1036 (stock for stock of same corporaton) of the Internal Revenue Code of 1954:

COMMON NONTAXABLE EXCHANGES

Sec.

1.1031 (a) Statutory provisions; exchange of property held for productive use or investment; nonrecognition of gain or loss from exchanges solely in kind.
1.1031 (a)-1 Property held for productive use in trade or business or for investment.
1.1031 (b) Statutory provisions; exchange of property held for productive use or investment; gain from exchanges not solely in kind.
1.1031 (b)-1 Receipt of other property or money in tax-free exchange.
1.1031 (c) Statutory provisions; exchange of property held for productive use or investment; loss from exchanges not solely in kind.
1.1031 (c)-1 Nonrecognition of loss.
1.1031 (d) Statutory provisions; exchange of property held for productive use or investment; basis.
1.1031 (d)-1 Property acquired upon a tax-free exchange.
1.1031 (d)-2 Treatment of assumption of liabilities.
1.1032 Statutory provisions; exchange of stock for property.
1.1032-1 Disposition by a corporation of its own capital stock.
1.1036 Statutory provisions; stock for stock of same corporation.
1.1036-1 Stock for stock of the same corporation.

§ 1.1031 (a) *Statutory provisions; exchange of property held for productive use or investment; nonrecognition of gain or loss from exchanges solely in kind.*

SEC. 1031. *Exchange of property held for productive use or investment*—(a) *Nonrecognition of gain or loss from exchanges solely in kind.* No gain or loss shall be recognized if property held for productive use in trade or business or for investment (not including stock in trade or other property held primarily for sale, nor stocks, bonds, notes, choses in action, certificates of trust or beneficial interest, or other securities or evidences of indebtedness or interest) is exchanged solely for property of a like kind to be held either for productive use in trade or business or for investment.

§ 1.1031 (a)-1 *Property held for productive use in trade or business or for investment.* (a) Section 1031 (a) provides an exception from the general rule requiring the recognition of gain or loss upon the sale or exchange of property. See section 1002 and the regulations thereunder. Under section 1031 (a), no gain or loss is recognized if property held for productive use in trade or business or for investment is exchanged solely for property of a like kind to be held either for productive use in trade or business or for investment. Under section 1031 (a), property held for productive use in trade or business may be exchanged for property held for investment. Similarly, property held for investment may be exchanged for property held for productive use in trade or business. However, section 1031 (a) provides that property held for productive use in trade or business or for investment does not include stock in trade or other property held primarily for sale, nor stocks, bonds, notes, choses in action, certificates of trust or beneficial interest, or other securities or evidences of indebtedness or interest. A transfer is not within the provisions of section 1031 (a) if as part of the consideration the taxpayer receives money or property which does not meet the requirements of section 1031 (a), but such transfer, if otherwise qualified, will be within the provisions of section 1031 (b). Similarly, a transfer is not within the provisions of section 1031 (a) if as part of the consideration the other party to the exchange assumes a liability of the taxpayer, but such transfer, if otherwise qualified, will be within the provisions of section 1031 (b). (See § 1.1002-2 relating to assumption of liabilities.) A transfer of property meeting the requirements of section 1031 (a) may be within the provisions of section 1031 (a) even though the taxpayer transfers in addition property not meeting the requirements of section 1031 (a) or money. However, the nonrecognition treatment provided by section 1031 (a) does not apply to the property transferred which does not meet the requirements of section 1031 (a).

(b) As used in section 1031 (a), the words "like kind" have reference to the nature or character of the property and not to its grade or quality. One kind or class of property may not, under such section, be exchanged for property of a different kind or class. The fact that any real estate involved is improved or unimproved is not material, for such fact relates only to the grade or quality of the property and not to its kind or class. Unproductive real estate held by one other than a dealer for future use or future realization of the increment in value is held for investment and not primarily for sale.

(c) No gain or loss is recognized if (1) a taxpayer exchanges property held for productive use in his trade or business, together with cash, for other property of like kind for the same use, such as a truck for a new truck or a passenger automobile for a new passenger automobile to be used for a like purpose, or (2) a taxpayer who is not a dealer in real estate exchanges city real estate for a ranch or farm, or exchanges a leasehold of a fee with 30 years or more to run for real estate, or exchanges improved real estate for unimproved real estate, or (3) a taxpayer exchanges investment property and cash for investment property of a like kind.

(d) Gain or loss is recognized if, for instance, a taxpayer exchanges (1) Treasury bonds maturing March 15, 1958, for Treasury bonds maturing December 15, 1968, or (2) a real estate mortgage for consolidated farm loan bonds.

§ 1.1031 (b) *Statutory provisions; exchange of property held for productive use or investment; gain from exchanges not solely in kind.*

SEC. 1031. *Exchange of property held for productive use* or investment. * * *

(b) *Gain from exchanges not solely in kind.* If any exchange would be within the provisions of subsection (a), of section 1035 (a), or of section 1036 (a), if it were not for the fact that the property received in exchange consists not only of property permitted by such provisions to be received without the recognition of gain, but also of other property or money, then the gain, if any, to the recipient shall be recognized, but in an amount not in excess of the sum of such money and the fair market value of such other property.

§ 1.1031 (b)-1 *Receipt of other property or money in tax-free exchange.* (a) If there is received by the taxpayer other property (in addition to property permitted to be received without recognition of gain) or money (1) in an exchange described in section 1031 (a) of property held for investment or productive use in trade or business for property of like kind to be held either for productive use or for investment, or (2) in an exchange described in section 1035 (a) of insurance policies or annuity contracts, or (3) in an exchange described in section 1036 (a) of common stock for common stock, or preferred stock for preferred stock, in the same corporation and not in connection with a corporate reorganization, then—

(i) The gain, if any, to the taxpayer will be recognized in an amount not in excess of the sum of the money and the fair market value of the other property, but

(ii) The loss, if any, to the taxpayer from such an exchange is not to be recognized to any extent (see section 1031 (c)).

(b) The application of this section may be illustrated by the following example:

*Example.* A, who is not a dealer in real estate, in 1954 exchanges real estate, which he purchased (for investment) in 1940 for $5,000, for other real estate (to be held for productive use in trade or business) which has a fair market value of $6,000, and $2,000 in cash. The gain from the transaction is $3,000, but is recognized only to the extent of the cash received of $2,000.

(c) Consideration received in the form of an assumption of liabilities (or a transfer subject to a liability) is to be treated as "other property or money" for the purposes of section 1031 (b).

§ 1.1031 (c) *Statutory provisions; exchange of property held for productive use or investment; loss from exchanges not solely in kind.*

SEC. 1031. *Exchange of property held for productive use or investment.* * * *

(c) *Loss from exchanges not solely in kind.* If an exchange would be within the provisions of subsection (a), of section 1035 (a), or of section 1036 (a), if it were not for the fact that the property received in exchange consists not only of property permitted by such provisions to be received without the recognition of gain or loss, but also of other property or money, then no loss from the exchange shall be recognized.

§ 1.1031 (c)-1 *Nonrecognition of loss.* Section 1031 (c) provides that a loss shall not be recognized from an exchange of property described in sections 1031 (a), 1035 (a), or 1036 (a) where there is received in the exchange other property or money in addition to property permitted to be received without recognition of gain or loss.

§ 1.1031 (d) *Statutory provisions; exchange of property held for productive use or investment; basis.*

SEC. 1031. *Exchange of property held for productive use or investment.* * * *

(d) *Basis.* If property was acquired on an exchange described in this section, section 1035 (a), or section 1036 (a), then the basis shall be the same as that of the property exchanged decreased in the amount of any money received by the taxpayer and increased in the amount of gain to the taxpayer that was recognized on such exchange. If the property so acquired consisted in part of the type of property permitted by this section, section 1035 (a), or section 1036 (a), to be received without the recognition of gain or loss, and in part of other property, the basis provided in this paragraph shall be allocated between the properties (other than money) received, and for the purpose of the allocation there shall be assigned to such other property an amount equivalent to its fair market value at the date of the exchange. For purposes of this section, section 1035 (a), and section 1036 (a), where as part of the consideration to the taxpayer another party to the exchange assumed a liability of the taxpayer or acquired from the taxpayer property subject to a liability, such assumption or acquisition (in the amount of the liability) shall be considered as money received by the taxpayer on the exchange.

§ 1.1031 (d)-1 *Property acquired upon a tax-free exchange.* (a) In the case of an exchange of property solely of the type described in section 1031, section

1035 (a), or section 1036 (a), if no part of the gain or loss was recognized under the law applicable to the year in which the exchange was made, the basis of the property acquired is the same as the basis of the property transferred by the taxpayer with proper adjustments to the date of the exchange.

(b) If, in an exchange of properties of the type indicated in section 1031, section 1035 (a), or section 1036 (a), gain to the taxpayer was recognized under the provisions of section 1031 (b) or a similar provision of a prior revenue law, on account of the receipt of money in the transaction, the basis of the property acquired is the basis of the property transferred (adjusted to the date of the exchange), decreased by the amount of money received and increased by the amount of gain recognized on the exchange. The application of this paragraph may be illustrated by the following example:

*Example.* A, an individual in the moving and storage business, in 1954 transfers one of his moving trucks with an adjusted basis in his hands of $2,500 to B in exchange for a truck (to be used in A's business) with a fair market value of $2,400 and $200 in cash. A realizes a gain of $100 upon the exchange, all of which is recognized under section 1031 (b). The basis of the truck acquired by A is determined as follows:

| | |
|---|---|
| Adjusted basis of A's former truck | $2,500 |
| Less: Amount of money received | 200 |
| Difference | 2,300 |
| Plus: Amount of gain recognized | 100 |
| Basis of truck acquired by A | 2,400 |

(c) If, upon an exchange of properties of the type described in section 1031, section 1035 (a), or section 1036 (a), there was received by the taxpayer other property (not permitted to be received without the recognition of gain) and gain from the transaction was recognized as required under section 1031 (b), or a similar provision of a prior revenue law, the basis (adjusted to the date of the exchange) of the property transferred by the taxpayer, decreased by the amount of any money received and increased by the amount of gain recognized, must be allocated to and is the basis of the properties (other than money) received on the exchange. For the purpose of the allocation of the basis to the properties received, there must be assigned to such other property an amount equivalent to its fair market value at the date of the exchange. The applicaton of this paragraph may be illustrated by the following example:

*Example.* A, who is not a dealer in real estate, in 1954 transfers real estate which he purchased (for investment) in 1940 for $10,000 in exchange for other real estate (to be held for investment) which has a fair market value of $9,000, an automobile which has a fair market value of $2,000 and $1,500 in cash. A realizes a gain of $2,500, all of which is recognized under section 1031 (b). The basis of the property received in exchange is the basis of the real estate A transfers ($10,000) decreased by the amount of money received ($1,500) and increased in the amount of gain that was recognized ($2,500), which results in a basis for the property received of $11,000. This basis of $11,000 is allocated between the automobile and the real estate received by A, the basis of the automobile being its fair market value at the date of the exchange, $2,000, and the basis of the real estate received being the remainder, $9,000.

(d) Section 1031 (c) and, with respect to section 1031 and section 1036 (a), similar provisions of prior revenue laws provide that no loss may be recognized on an exchange of properties of a type described in section 1031, section 1035 (a), or section 1036 (a), although the taxpayer receives other property or money from the transaction. However, the basis of the property or properties (other than money) received by the taxpayer is the basis (adjusted to the date of the exchange) of the property transferred, decreased by the amount of money received. This basis must be allocated to the properties received, and for this purpose there must be allocated to such other property an amount of such basis equivalent to its fair market value at the date of the exchange.

§ 1.1031 (d)–2 *Treatment of assumption of liabilities.* For the purposes of section 1031, section 1035 (a), and section 1036 (a), the amount of any liabilities of the taxpayer assumed by the other party to the exchange (or of any liabilities to which the exchange is subject) is to be treated as money received by the taxpayer upon the exchange, whether or not the assumption resulted in a recognition of gain or loss to the taxpayer under the law applicable to the year in which the exchange was made. See § 1.1002–2 relating to assumption of liabilities. The application of this section may be illustrated by the following example:

*Example.* B, an individual, owns an apartment house which has an adjusted basis in his hands of $500,000, but which is subject to a mortgage of $150,000. On September 1, 1954, he transfers such apartment house to C, receiving in exchange therefor $50,000 in cash and another apartment house with a fair market value on that date of $600,000. The transfer to C is made subject to the $150,000 mortgage. B realizes a gain of $300,000 on the exchange, computed as follows:

| | |
|---|---|
| Value of property received | $600,000 |
| Cash | 50,000 |
| Liabilities subject to which old property was transferred | 150,000 |
| Total consideration received | 800,000 |
| Less: Adjusted basis of property transferred | 500,000 |
| Gain realized | 300,000 |

Under section 1031 (b), $200,000 of the $300,000 gain is recognized. The basis of the apartment house acquired by B upon the exchange is $500,000, computed as follows:

| | | |
|---|---|---|
| Adjusted basis of property transferred | | $500,000 |
| Less: Amount of money received: | | |
| Cash | $50,000 | |
| Amount of liabilities subject to which property was transferred | 150,000 | |
| | | 200,000 |
| Difference | | 300,000 |
| Plus: Amount of gain recognized upon the exchange | | 200,000 |
| Basis of property acquired upon the exchange | | 500,000 |

§ 1.1032 *Statutory provisions; exchange of stock for property.*

SEC. 1032. *Exchange of stock for property*—(a) *Nonrecognition of gain or loss.* No gain or loss shall be recognized to a corporation on the receipt of money or other property in exchange for stock (including treasury stock) of such corporation.

(b) *Basis.* For basis of property acquired by a corporation in certain exchanges for its stock, see section 362.

§ 1.1032–1 *Disposition by a corporation of its own capital stock.* (a) The disposition by a corporation of shares of its own stock (including treasury stock) for money or other property does not give rise to taxable gain or deductible loss to the corporation regardless of the nature of the transaction or the facts and circumstances involved. For example, the receipt by a corporation of the subscription price of shares of its stock upon their original issuance gives rise to neither taxable gain nor deductible loss, whether the subscription or issue price be equal to, in excess of, or less than, the par or stated value of such stock. Also, the exchange or sale by a corporation of its own shares for money or other property does not result in taxable gain or deductible loss, even though the corporation deals in such shares as it might in the shares of another corporation.

(b) Section 1032 (a) does not apply to the extent that a corporation transfers shares of its own stock (including treasury stock) as compensation for services rendered or to be rendered. Whether such transfers give rise to taxable gain or deductible loss to a corporation depends upon the real nature of the transaction, which is to be ascertained from all its facts and circumstances. If such transfer is made by the original issuance by a corporation of shares of its stock there is no taxable gain or deductible loss. If such transfer does not involve the original issuance by a corporation of shares of its stock there is no taxable gain or deductible loss if the corporation is not dealing in its own shares as it might in the shares of another corporation; however, if the corporation is dealing in its own shares as it might in the shares of another corporation, the resulting gain or loss is to be computed in the same manner as though the corporation were dealing in the shares of another.

(c) Section 1032 (a) does not apply where a corporation receives its own stock unless the receipt of such stock is in exchange for stock (including treasury stock) of the corporation. See § 1.311–1 (e) relating to treatment of acquisitions of a corporation's own stock. Similarly, section 1032 (a) does not relate to the tax treatment of the recipient of a corporation's stock. Accordingly, if a corporation receives its own stock in exchange for its stock (including treasury stock) the transaction may qualify not only under section 1032 (a), but also under section 368 (a) (1) (E) (recapitalization) or section 305 (a) (distribution of stock and stock rights).

(d) For basis of property acquired by a corporation in certain exchanges for its stock, see section 362.

§ 1.1036 *Statutory provisions; stock for stock of same corporation.*

SEC. 1036. *Stock for stock of same corporation*—(a) *General rule.* No gain or loss shall be recognized if common stock in a corporation is exchanged solely for common stock in the same corporation, or if preferred stock in a corporaton is exchanged solely for preferred stock in the same corporation.

(b) *Cross references.* (1) For rules relating to recognition of gain or loss where an exchange is not solely in kind, see subsections (b) and (c) of section 1031.

(2) For rules relating to the basis of property acquired in an exchange described in subsection (a), see subsection (d) of section 1031.

§ 1.1036–1 *Stock for stock of the same corporation.* (a) Section 1036 permits the exchange, without the recognition of gain or loss, of common stock for common stock, or of preferred stock for preferred stock, in the same corporation. It is not limited to an exchange between two individual stockholders; it includes a transaction between a stockholder and the corporation. However, a transaction between a stockholder and the corporation may qualify not only under section 1036 (a), but also under section 368 (a) (1) (E) (recapitalization) or section 305 (a) (distribution of stock and stock rights). The provisions of section 1036 (a) do not apply if stock is exchanged for bonds, or preferred stock is exchanged for common stock, or common stock is exchanged for preferred stock, or common stock in one corporation is exchanged for common stock in another corporation. See § 1.301–1 (1) for certain transactions treated as distributions under section 301. See § 1.368–2 (e) for certain transactions treated as distributions under section 305 (b) (1).

(b) For rules relating to recognition of gain or loss where an exchange is not wholly in kind, see subsections (b) and (c) of section 1031. For rules relating to the basis of property acquired in an exchange described in paragraph (a) of this section, see subsection (d) of section 1031.

(c) A transfer is not within the provisions of section 1036 (a) if as part of the consideration the other party to the exchange assumes a liability of the taxpayer (or if the property transferred is subject to a liability), but the transfer, if otherwise qualified, will be within the provisions of section 1031 (b).

## DEPARTMENT OF AGRICULTURE

### Agricultural Marketing Service

### [ 7 CFR Part 989 ]

HANDLING OF RAISINS PRODUCED FROM RAISIN VARIETY GRAPES GROWN IN CALIFORNIA

NOTICE OF FURTHER MODIFICATION OF MINIMUM GRADE AND CONDITION STANDARDS FOR NATURAL CONDITION RAISINS

Notice is hereby given that the Secretary of Agriculture is considering a proposed rule to modify further the minimum grade and condition standards for natural condition raisins, as hereinafter set forth. The further modification of such minimum grade and condition standards is proposed after consideration of the recommendation submitted by the Raisin Administrative Committee and other information available to the Secretary, in accordance with the applicable provisions of Marketing Agreement No. 109, as amended, and Marketing Order No. 89, as amended (20 F. R. 6435), regulating the handling of raisins produced from raisin variety grapes grown in California, effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

Consideration will be given to any data, views or arguments pertaining thereto which are filed in triplicate with the Director, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C., and received not later than the close of business on the fifteenth day after the date of publication of this notice in the FEDERAL REGISTER, except that, if said fifteenth day after publication should fall on a legal holiday or Saturday or Sunday, each submission will be received by the Director not later than the close of business on the next following business day.

The proposed modification would change from 14 percent to 15 percent the permitted moisture content of natural condition Golden Seedless, Sulfur Bleached, and Soda Dipped raisins received by handlers. The committee has concluded that such a change for Golden Seedless raisins would be desirable. Available evidence indicates that natural condition Golden Seedless raisins containing 15 percent moisture as a maximum may be stored satisfactorily, and that they may be processed within the 18 percent maximum moisture content permitted by the applicable provisions of the United States Standards for Grades of Processed Raisins. The present requirements with respect to moisture content are the same for Sulfur Bleached and Soda Dipped raisins as for Golden Seedless raisins. While the production of Sulfur Bleached and Soda Dipped raisins in most years is negligible, it appears that the reasons for a change in the permitted maximum moisture content of Golden Seedless also apply to the other two varietal types. Hence, the same change in moisture content is proposed for natural condition raisins of the three varietal types.

The proposed modification is as follows:

The minimum grade and condition standards prescribed in § 989.97 for natural condition raisins, as heretofore modified (20 F. R. 7808; 21 F. R. 1; 21 F. R. 130), are further modified by changing the parenthetical phrase appearing in § 989.97 A 3 which reads "(except Golden Seedless, Sulfur Bleached, and Soda Dipped shall not exceed 14 percent)" to read: "(except Golden Seedless, Sulfur Bleached, and Soda Dipped shall not exceed 15 percent)".

Dated: May 24, 1956.

HANDLING OF ONIONS GROWN IN CERTAIN DESIGNATED COUNTIES IN IDAHO AND MALHEUR COUNTY, OREGON

NOTICE OF HEARING WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND ORDER

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), and in accordance with the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR 900.0 et seq.), notice is hereby given of a public hearing to be held at the Dairyman's Hall, Caldwell, Idaho, beginning at 9:30 a. m., local time, June 20, 1956, with respect to proposed Marketing Agreement No. 130 and Order No. 117, regulating the handling of onions grown in the certain designated counties in Idaho and Malheur County, Oregon. The proposed marketing agreement and order have not received the approval of the Secretary of Agriculture.

The public hearing is for the purpose of receiving evidence with respect to economic and marketing conditions which relate to the provisions of the marketing agreement and order, hereinafter set forth, or appropriate modifications thereof.

Growers and shippers in the State of Oregon as represented by the Malheur County Onion Growers Association, and in the State of Idaho as represented by the Southwestern Idaho Onion Growers Association requested a hearing on the following proposed marketing agreement and order authorizing regulation of the handling of onions in the proposed production area.

DEFINITIONS

§ 1017.1 *Secretary.* "Secretary" means the Secretary of Agriculutre of the United States or any officer or employee of the United States Department of Agriculture to whom authority has heretofore been delegated, or to whom authority may hereafter be delegated, to act in his stead.

§ 1017.2 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq., 68 Stat. 906, 1047).

§ 1017.3 *Person.* "Person" means an individual, partnership, corporation, association, or any other business unit.

§ 1017.4 *Production area.* "Production area" means all territory included within the boundaries of the Counties of Malheur in Oregon, and all counties south of the southern boundary of Idaho County in the State of Idaho.

§ 1017.5 *Onions.* "Onions" means all varieties of onions grown within the production area.

§ 1017.6 *Handler.* "Handler" is synonymous with "shipper" and means any person (except a common or contract carrier of onions owned by another person) who handles onions or causes onions to be handled.

§ 1017.7 *Handle.* "Handle" or "ship" means to sell or transport onions within the production area or between the production area and any point outside thereof.

§ 1017.8 *Grading.* "Grading" means the sorting, or separation of onions into grades and sizes for market purposes.

§ 1017.9 *Grade and size.* "Grade" means any one of the officially established grades of onions and "size" means any one of the officially established sizes of onions, as defined and set forth in the "United States Standards for Northern Grown Onions," issued by the United States Department of Agriculture, effective July 31, 1944, or amendments thereto, or modification thereof, or variations based thereon.

§ 1017.10 *Producer.* "Producer" means any person engaged in the production of onions for market.

§ 1017.11 *Committee.* "Committee" means the Idaho-Eastern Oregon Onion Administrative Committee established pursuant to § 1017.20.

§ 1017.12 *Fiscal period.* "Fiscal period" means the period beginning and ending on the dates approved by the Secretary pursuant to recommendations by the committee.

§ 1017.13 *Varieties.* "Varieties" means and includes all classifications or subdivision of onions according to those definitive characteristics now or hereafter recognized by the United States Department of Agriculture.

§ 1017.14 *Export.* "Export" means shipment of onions beyond the boundaries of continental United States.

§ 1017.15 *District.* "District" means each of the geographical divisions of the production area initially established or as reestablished pursuant to § 1017.27.

§ 1017.16 *Pack.* "Pack" means a unit of onions in any type of container and which falls within specific weight limits or within specific grade limits, or both, recommended by the committee and approved by the Secretary.

§ 1017.17 *Container.* "Container" means a sack, box, bag, crate, hamper, basket, carton, package, or any other type of unit used in the packaging, transportation, sale, shipment or handling of onions.

ADMINISTRATIVE COMMITTEE

§ 1017.20 *Establishment and membership.* (a) The Idaho-Eastern Oregon Onion Administrative Committee consisting of ten members, of whom six shall be producers and four shall be handlers, is hereby established. For each member of the committee there shall be an alternate who shall have the same qualifications as the member.

(b) An alternate member of the committee shall act in the place and stead of the member for whom he is an alternate, during such member's absence and perform other duties as assigned. In the event of the death, removal, resignation or disqualification of a member his alternate shall act for him until a successor for such member is selected and qualified.

§ 1017.21 *Procedure.* (a) Seven members of the committee shall be necessary to constitute a quorum and seven concurring votes will be required to pass any motion or approve any committee action.

(b) The committee may provide for meeting by telephone, telegraph, or other means of communication and any vote cast at such meeting shall be confirmed promptly in writing: *Provided,* That if any assembled meeting is held, all votes shall be cast in person.

§ 1017.22 *Selection.* (a) Persons selected as committee members or alternates to represent producers or handlers shall be producers or handlers, respectively, or officers or employees of a corporate producer or handler, respectively, in the district for which selected.

(b) The Secretary shall select one producer member of the committee, with his respective alternate from each of the districts designated in § 1017.27. The Secretary shall also select one handler member of the committee, with his respective alternate, from Idaho and from Oregon and two handler members with their respective alternates from the production area at large.

(c) Any person selected by the Secretary as a committee member or as an alternate shall qualify by filing a written acceptance with the Secretary.

§ 1017.23 *Term of Office.* (a) The term of office of committee members and alternates shall be for two years beginning on the first day of June and continuing until May 31, and until their successors are selected and have qualified. The terms of office of such members and alternates shall be so determined that one-half of the total Committee membership shall terminate each May 31.

(b) Committee members and alternates shall serve during the term of office for which they are selected and have qualified, or during that portion thereof beginning on the date on which they qualify during the current term of office and continuing until the end thereof, and until their successors are selected and have qualified.

§ 1017.24 *Powers.* The committee shall have the following powers:

(a) To administer the provisions of this part in accordance with its terms;

(b) To make rules and regulations to effectuate the terms and provisions of this part;

(c) To receive, investigate, and report to the Secretary complaints of violation of the provisions of this part; and

(d) To recommend to the Secretary amendments to this part.

§ 1017.25 *Duties.* It shall be the duty of the committee:

(a) At the beginning of each fiscal year, to meet and organize, to select a chairman and such other officers as may be necessary, to select subcommittees of committee members, and to adopt such rules and regulations for the conduct of its business as it may deem advisable;

(b) To act as intermediary between the Secretary and any producer or handler;

(c) To furnish to the Secretary such available information as he may request;

(d) To appoint such employees, agents, and representatives as it may deem necessary and to determine the salaries and define the duties of each such person;

(e) To investigate, from time to time, and to assemble data on the growing, harvesting, shipping, and marketing conditions with respect to onions, and to engage in such research and service activities which relate to the handling or marketing of onions as may be approved by the Secretary;

(f) To keep minutes, books, and records which clearly reflect all of the acts and transactions of the committee and such minutes, books, and records shall be subject to examination at any time by the Secretary or his authorized agent or representative;

(g) To make available to producers and handlers the committee voting record on recommended regulations and on other matters of policy;

(h) At the beginning of each fiscal period, to submit to the Secretary a budget of its expenses for such fiscal period, together with a report thereon;

(i) To cause the books of the committee to be audited by a competent accountant at least once each fiscal period, and at such other time as the committee may deem necessary or as the Secretary may request. The report of such audit shall show the receipt and expenditure of funds collected pursuant to this subpart; a copy of each such report shall be furnished to the Secretary and a copy of each such report shall be made available at the principal office of the committee for inspection by producers and handlers; and

(j) To consult, cooperate and exchange information with other onion marketing committees and other individuals or agencies in connection with all proper committee activities and objectives under this subpart.

§ 1017.26 *Expenses and compensation.* Committee members and their respective alternates when acting on committee business, shall be reimbursed for expenses necessarily incurred by them in the performance of their duties and in the exercise of their powers under this subpart, and may receive compensation at a rate to be determined by the committee and approved by the Secretary, not to exceed $10 for each day, or portion thereof, spent in attending to committee business: *Provided,* That at its discretion the committee may request the attendance of one or more alternates at any or all meetings, notwithstanding the expected or actual presence of the respective members, and may pay expenses and compensation, as aforesaid.

§ 1017.27 *Districts.* (a) For the purpose of selecting committee members, the following districts of the production area are hereby initially established:

District No. 1: Emmett, Payette, Weiser Area District. To include all territory within the boundary of Washington, Payette and Gem counties, in Idaho.

District No. 2: Oregon Slope. All territory within a boundary following the Snake River north from the junction of the Malheur, to the West line of Range 46E. Thence South along this line to the South line of Ts. 17S, and thence East along this line to its junction with the Malheur River, and thence East along the Malheur River to the junction with the Snake River, the point of beginning.

District No. 3: Ontario, Vale, Jamieson, Brogan. All territory within a boundary running West along the Malheur River from its junction with the Snake River, to the intersection of the Malheur with the South line of Ts. 17 South, thence, West along this line to the West line of Range 45E; thence North along this line to the North boundary of Malheur County; thence West along this line to the West line of Range 42E; thence South along this line to the South line of Ts. 20S; thence East along this line to the East line of Range 44E; thence East North along this line to the South line of Ts. 18S; thence East along this line to its intersection with the Hyline Canal; thence North along the Hyline Canal and siphon to its intersection with Highway 28; thence East along Highway 28 to Cairo Jct; thence South along Highway 20 to the junction of Oregon Avenue; thence East along Oregon Avenue to the Snake River; thence North along the Snake River to its junction with the Malheur, the point of beginning.

District No. 4: Nyssa and Adrian. All territory within a boundary beginning at the junction of Oregon Avenue and the Snake River; thence West along Oregon Avenue to its junction with Highway 20, thence North along Highway 20 to Cairo Junction; thence West along Highway 28 to its junction with the Hyline Canal siphon; thence South and West along the Hyline Canal to its junction with the Owyhee River; thence East along the Owyhee River to its junction with the East line of Range 45E; thence South along this line to the South line of T 22S; thence East along this line to the Oregon-Idaho State line; thence North along the State line to the junction of the Snake River and Oregon Avenue, the point of beginning.

District No. 5: Parma, Wilder, Nampa and Notus Area District, to include all territory within the boundary of Canyon County, Idaho.

District No. 6: Homedale, Marsing, Meridian, Melba, Mountain Home, Glenns Ferry and Twin Falls Area District, to include all other counties south of the southern boundary of Idaho County in the State of Idaho.

(b) The Secretary, upon the recommendation of the committee, may reestablish districts within the production area and may reapportion committee membership among the various districts: *Provided,* That in recommending any such changes in districts or representation, the committee shall give consideration to: (1) The relative importance of new areas of production; (2) changes in the relative position, with respect to production of existing districts; (3) the geographic location of areas of production as they would affect the efficiency of administering the marketing agreement and order; and (4) other relevant factors: *Provided further,* That there shall be no change in the total number of committee members or in the total number of districts.

§ 1017.28 *Nominations.* The Secretary may select the members of the Idaho-Eastern Oregon Onion Committee and their respective alternates from nominations which may be made in the following manner:

(a) The committee shall hold or cause to be held prior to April 1 of each year, after the effective date of this subpart, a meeting or meetings of producers and of handlers in the production area;

(b) In arranging for such meetings the committee may, if it deems desirable, utilize the services and facilities of existing organizations and agencies;

(c) Nominations for committee members and alternate members shall be supplied to the Secretary in such manner and form as he may prescribe, not later than 30 days prior to the end of each fiscal period;

(d) Only producers may participate in designating nominees for producer committee members and their alternates and only handlers may participate in designating nominees for handler committee members and their alternates;

(e) Each person who is both a handler and a producer may vote either as a handler or as a producer and may elect the group in which he votes; and

(f) Regardless of the number of districts in which a person handles or produces onions, each such person is entitled to cast only one vote on behalf of himself, his agents, subsidiaries, affiliates and representatives, in designating nominees for committee members and alternates. In the event a person is engaged in handling or producing onions in more than one district, such person shall elect the district within which he may participate as aforesaid in designating nominees. An eligible voter's privilege of casting only one vote, as aforesaid, shall be construed to permit a voter to cast one vote for each position to be filled in the respective district in which he elects to vote.

§ 1017.29 *Failure to nominate.* If nominations are not made within the time and in the manner specified by the Secretary pursuant to § 1017.28, the Secretary may, without regard to nominations, select the committee members and alternates on the basis of the representation provided for in this subpart.

§ 1017.30 *Vacancies.* To fill any vacancy occasioned by the failure of any person selected as a committee member or as an alternate to qualify, or in the event of the death, removal, resignation, or disqualification of any qualified member or alternate, a successor for his unexpired term may be selected by the Secretary from nominations made in the manner specified in § 1017.28, or the Secretary may select such committee member or alternate from previously unselected nominees on the current nominee list from the district involved. If the names of nominees to fill any such vacancy are not made available within 30 days after such vacancy occurs, the Secretary may fill such vacancy without regard to nominations, which selection shall be made on the basis of the representation provided for in this subpart.

EXPENSES AND ASSESSMENTS

§ 1017.40 *Expenses.* The committee is authorized to incur such expenses as the Secretary may find are reasonable and likely to be incurred during each fiscal period for its maintenance and functioning, and for such purposes as the Secretary, pursuant to this subpart, determines to be appropriate. Handlers shall share expenses upon the basis of a fiscal period. Each handler's share of such expense shall be proportionate to the ratio between the total quantity of onions handled by him as the first handler thereof during a fiscal period and the total quantity of onions handled by all handlers as first handlers thereof during the same period.

§ 1017.41 *Budget.* At the beginning of each fiscal period, and as may be necessary thereafter, the committee shall prepare a budget of estimated income and expenditures necessary for the administration of this part. The committee may recommend a rate of assessment calculated to provide adequate funds to defray its proposed expenditures. The committee shall present such budget promptly to the Secretary with an accompanying report showing the basis for its calculations.

§ 1017.42 *Assessments.* (a) The funds to cover the committee's expenses pursuant to § 1017.40 shall be acquired by the levying of assessments upon handlers as provided in this subpart. Each handler who ships onions as the first handler thereof shall pay assessments to the committee upon demand, which assessments shall be in payment of such handler's pro rata share of such expenses.

(b) Assessments shall be levied upon handlers at rates established by the Secretary. Such rates may be established upon the basis of the committee's recommendations or other available information.

(c) At any time during or subsequent to a given fiscal period, the committee may recommend the approval of an amended budget and an increase in the rate of assessment. Upon the basis of such recommendation, or other available information, the Secretary may approve an amended budget and increase the rate of assessment. Such increase shall be applicable to all onions which were regulated under this part and which were shipped by the first handler thereof during such fiscal period.

§ 1017.43 *Accounting.* (a) All funds received by the committee pursuant to the provisions of this part shall be used solely for the purposes specified in this part.

(b) The Secretary may at any time require the committee, its members and alternates, employees, agents, and all other persons to account for all receipts and disbursements, funds, property, or

records for which they are responsible. Whenever any person ceases to be a member or alternate of the committee, he shall account for all receipts, disbursements, funds, and property (including but not being limited to books and other records) pertaining to the committee's activities for which he is responsible, and deliver all such property and funds in his hands to such successor, agency, or person as may be designated by the Secretary, and shall execute such assignments and other instruments as may be necessary or appropriate to vest in each such successor, committee or designated person, the right to all of such property and funds and all claims vested in such person.

(c) The committee may make recommendations to the Secretary for one or more of the members thereof, or any other person, to act as a trustee for holding records, funds, or any other committee property during periods of suspension of this part, or during any period or periods when regulations are not in effect and; if the Secretary determines such action appropriate, he may direct that such person or persons shall act as trustee or trustees for the committee.

§ 1017.44 *Refunds.* Monies arising from the excess of assessments over expenses shall be accounted for as provided in this section. Each handler entitled to a proportionate refund of the excess assessments at the end of a fiscal period shall be credited with such refund against the operations of the following fiscal period unless he demands payment thereof, in which event such proportionate refund shall be paid to him. However, the Secretary, upon recommendation of the committee may determine that it is appropriate for the maintenance and functioning of the committee that some of the funds remaining at the end of a fiscal period which are in excess of the expenses necessary for committee operations during such period may be carried over into following periods as a reserve for possible liquidation. Upon approval by the Secretary, such reserve may be used upon termination of this order to liquidate the affairs of the committee: *Provided,* That upon termination of this part any monies in the reserve for liquidation which are not required to defray the necessary expenses of committee liquidation shall, to the extent practical, be returned upon a pro rata basis to all persons from whom such funds were collected.

RESEARCH AND DEVELOPMENT

§ 1017.47 *Research and development.* The committee, with the approval of the Secretary, may provide for the establishment of research and development projects designed to assist, improve, or promote the marketing, distribution, and consumption of onions.

QUALITY REGULATION

§ 1017.50 *Marketing policy*—(a) *Preparation.* Prior to each marketing season the committee shall consider and prepare a proposed policy for the marketing of onions. In developing its marketing policy the committee shall investigate relevant supply and demand conditions for onions. In such investigations the committee shall give appropriate consideration to the following:

(1) Market prices for onions, including prices by variety, grade, size, and quality in different packs, or any other shipping unit;

(2) Supply of onions by grade, size, and quality in the production area and in other production areas;

(3) The trend and level of consumer income;

(4) Establishing and maintaining orderly marketing conditions for onions;

(5) Orderly marketing of onions as will be in the public interest; and

(6) Other relevant factors.

(b) *Reports.* (1) The committee shall submit a report to the Secretary setting forth the aforesaid marketing policy and the committee shall notify producers and handlers of the contents of such report.

(2) In the event it becomes advisable to shift from such marketing policy because of changed supply and demand conditions, the committee shall prepare a new marketing policy in accordance with the manner previously outlined. The committee shall submit a report thereon to the Secretary and notify producers and handlers of the contents of such report on the revised or amended marketing policy.

§ 1017.51 *Recommendations for regulations.* The committee shall recommend regulations to the Secretary whenever it finds that such regulations, as provided in § 1017.52, will tend to effectuate the declared policy of the act. The committee also may recommend modification, suspension, or termination of any regulation, or amendments thereto, in order to facilitate shipments of onions for the purposes authorized in § 1017.53. The committee may also recommend termination or suspension of any regulation issued under this part.

§ 1017.52 *Issuance of regulations.* (a) The Secretary shall limit the shipment of onions by any one or more of the methods hereinafter set forth whenever he finds from the recommendations and information submitted by the committee, or from other available information, that such regulation would tend to effectuate the declared policy of the act. Such limitation may:

(1) Regulate in any or all portions of the production area, the shipment of particular grades, sizes, or qualities, of any or all varieties of onions, or both, during any period;

(2) Regulate the shipment of particular grades, sizes, or qualities, of onions differently, for different varieties, for different portions of the production area, for different packs, for different containers, or for any combination of the foregoing, during any period;

(3) Provide a method through rules and regulations, issued pursuant to this part for fixing the size, capacity, weight, dimensions, or pack of the container, or containers, which may be used in the packaging or handling of onions, or both;

(4) Regulate the shipment of onions by establishing, in terms of grades, sizes, or both, minimum standards of quality; or

(5) Prohibit the handling of onions during a specified period or periods. No regulation issued pursuant to this subparagraph shall be effective for more than 96 consecutive hours: *Provided,* That not less than 72 consecutive hours shall elapse between the termination of any such period of limitation and the beginning of the next such period.

(b) In the event the handling of onions is regulated pursuant to paragraph (a) (5) of this section, no handler shall handle any such onions which were prepared for market during the effective period of such regulation.

(c) The Secretary may amend any regulation issued under this part whenever he finds that such amendment would tend to effectuate the declared policy of the act. The Secretary may also terminate or suspend any regulation or amendment thereof whenever he finds that such regulation or amendment obstructs or no longer tends to effectuate the declared policy of the act.

§ 1017.53 *Modification, suspension, or termination.* Upon the basis of recommendations and information submitted by the committee, or other available information, the Secretary shall modify, suspend, or terminate regulations issued pursuant to §§ 1017.42, 1017.52, 1017.60, or any combination thereof, in order to facilitate shipments of onions for the following purposes whenever he finds that it will tend to effectuate the declared policy of the act:

(a) For grading or storage within the production area;

(b) For export;

(c) For manufacture or conversion into specified products;

(d) For livestock feed;

(e) For seed; and

(f) For other purposes which may be specified.

§ 1017.54 *Minimum quantity regulation.* The committee with the approval of the Secretary, may establish for any or all portions of the production area minimum quantities below which shipments will be free from regulations issued pursuant to §§ 1017.42, 1017.52, 1017.53, 1017.60, or any combination thereof.

§ 1017.55 *Notification of regulation.* The Secretary shall notify the committee of any regulations issued or of any modification, suspension, or termination thereof. The committee shall give reasonable notice thereof to handlers.

§ 1017.56 *Safeguards.* (a) The committee, with the approval of the Secretary, may prescribe adequate safeguards to prevent shipments pursuant to §§ 1017.53 or 1017.54 from entering channels of trade for other than the specific purpose authorized therefor, and rules governing the issuance and the contents of Certificates of Privilege if such certificates are prescribed as safeguards by the committee. Such safeguards may include requirements that:

(1) Handlers shall file applications with the committee to ship onions pursuant to § 1017.53;

(2) Handlers shall obtain inspection provided by § 1017.60, or pay the pro rata share of expenses provided by § 1017.42, or both, in connection with onion shipments effected under the provisions of § 1017.53: *Provided,* That such inspection or payment of expenses may be required at different times than otherwise specified by the aforesaid sections; and

(3) Handlers shall obtain Certificates of Privilege from the committee for shipments of onions effected or to be effected under the provision of § 1017.53.

(b) The committee may rescind or deny Certificates of Privilege to any shipper if proof is obtained that onions shipped by him for the purposes stated in § 1017.53 were handled contrary to the provisions of this subpart.

(c) The Secretary shall have the right to modify, change, alter, or rescind any safeguards prescribed and any certificates issued by the committee pursuant to the provisions of this section.

(d) The committee shall make reports to the Secretary, as requested, showing the number of applications for such certificates, the quantity of onions covered by such applications, the number of such applications denied and certificates granted, the quantity of onions shipped under duly issued certificates, and such other information as may be requested.

INSPECTION

§ 1017.60 *Inspection and certification.* (a) During any period in which shipments of onions are regulated pursuant to § 1017.42, § 1017.52, or § 1017.53, or any combination thereof, no handler shall ship onions unless each such shipment is inspected by an authorized representative of the Federal-State Inspection Services, or such other inspection service as the Secretary shall designate, except when relieved from such requirements pursuant to § 1017.53 or § 1017.54, or both.

(b) Regrading, resorting, or repacking any lot of onions shall invalidate any prior inspection certificates insofar as the requirements of this section are concerned. No handler shall ship onions after they have been regraded, resorted, repacked, or in any other way further prepared for market, unless shipment of such onions is inspected by an authorized representative of the Federal-State Inspection Service, or such other inspection service as the Secretary shall designate.

(c) Upon recommendation of the committee, and approval of the Secretary, all lots so inspected and certified shall be identified by appropriate seals, stamps, or tags to be affixed to the containers by the handler under the direction and supervision of the Federal-State or Federal inspector or the Committee. Master containers may bear the identification instead of the individual containers within said master container.

(d) Insofar as the requirements of this section are concerned, the length of time for which an inspection certificate is valid may be established by the committee with the approval of the Secretary.

(e) When onions are inspected in accordance with the requirements of this section, a copy of each inspection certificate issued shall be made available to the committee by the inspection service.

EFFECTIVE TIME AND TERMINATION

§ 1017.70 *Effective time.* The provisions of this subpart, or any amendment thereto, shall become effective at such time as the Secretary may declare and shall continue in force until terminated in one of the ways specified in this subpart.

§ 1017.71 *Termination.* (a) The Secretary may at any time terminate the provisions of this subpart by giving at least one day's notice by means of a press release or in any other manner which he may determine.

(b) The Secretary may terminate or suspend the operations of any or all of the provisions of this subpart whenever he finds that such provisions do not tend to effectuate the declared policy of the act.

(c) The Secretary shall terminate the provisions of this subpart at the end of any fiscal period whenever he finds that such termination is favored by a majority of producers who, during a representative period, have been engaged in the production for market of onions: *Provided,* That such majority has, during such representative period, produced for market more than fifty percent of the volume of such onions produced for market.

(d) The provisions of this subpart shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

§ 1017.72 *Proceedings after termination.* (a) Upon the termination of the provisions of this subpart the then functioning members of the committee shall continue as joint trustees, for the purpose of liquidating the affairs of the committee, of all the funds and property then in the possession of or under control of the committee, including claims for any funds unpaid or property not delivered at the time of such termination. Action by said trusteeship shall require the concurrence of a majority of the said trustees.

(b) The said trustees shall continue in such capacity until discharged by the Secretary; shall, from time to time, account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and of the trustees, to such person as the Secretary may direct; and shall, upon request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all of the funds, property, and claims vested in the committee or the trustees pursuant to this subpart.

(c) Any person to whom funds, property, or claims have been transferred or delivered by the committee or its members pursuant to this section, shall be subject to the same obligations imposed upon the members of the committee and upon the said trustees.

§ 1017.73 *Effect of termination or amendment.* Unless otherwise expressly provided by the Secretary, the termination of this subpart or of any regulation issued pursuant to this subpart, or the issuance of any amendments to either thereof, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this subpart or any regulation issued under this subpart, nor (b) release or extinguish any violation of this subpart or of any regulations issued under this subpart, nor (c) affect or impair any rights or remedies of the Secretary or of any other person with respect to any such violatons.

REPORTS

§ 1017.80 *Reports.* Upon request of the committee, made with approval of the Secretary, each handler shall furnish to the committee, in such manner and at such time as it may prescribe, such reports and other information as may be necessary for the committee to perform its duties under this part.

(a) Such reports may include, but are not necessarily limited to, the following: (1) The quantities of onions received by a handler; (2) the quantities disposed of by him, segregated as to the respective quantities subject to regulation and not subject to regulation; (3) the date of each such disposition and the identification of the carrier transporting such onions; and (4) identification of the inspection certificates relating to the onions which were handled, pursuant to §§ 1017.53 and 1017.54.

(b) All such reports shall be held under appropriate protective classification and custody by the committee, or duly appointed employees thereof, so that the information contained therein which may adversely affect the competitive position of any handler in relation to other handlers will not be disclosed. Compilations of general reports from data submitted by handlers is authorized, subject to prohibition of disclosure of individual handlers identities or operations.

(c) Each handler shall maintain for at least two succeeding years such records of the onions received and disposed of by such handler as may be necessary to verify the reports he submits to the committee pursuant to this section.

MISCELLANEOUS PROVISIONS

§ 1017.81 *Compliance.* Except as provided in this part, no handler shall handle onions, the handling of which has been prohibited by the Secretary in accordance with provisions of this part, and no handler shall handle onions except in conformity to the provisions of this part.

§ 1017.82 *Right of the Secretary.* The members of the committee (including successors and alternates), and any agent or employee appointed or employed by the committee, shall be subject to removal or suspension by the Secretary at any time. Each and every order, regulation, decision, determination or other act of the committee shall be subject to the continuing right of the Secretary to disapprove of the same at any time. Upon such disapproval, the disapproved action of the said committee shall be deemed null and void, except as to acts done in reliance thereon or in compliance therewith prior to such disapproval by the Secretary.

§ 1017.83 *Duration of immunities.* The benefits, privileges, and immunities conferred upon any person by virtue of this subpart shall cease upon the termination of this subpart, except with respect to acts done under and during the existence of this subpart.

§ 1017.84 *Agents.* The Secretary may, by designation in writing, name any person, including any officer or employee of the United States, or name any agency in the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions of this part.

§ 1017.85 *Derogation.* Nothing contained in this subpart is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States to exercise any powers granted by the act or otherwise, or, in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 1017.86 *Personal liability.* No member or alternate of the committee nor any employee or agent thereof, shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any handler or to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as such member, alternate, agent, or employee, except for acts of dishonesty, wilful misconduct, or gross negligence.

§ 1017.87 *Separability.* If any provision of this subpart is declared invalid, or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this subpart, or the applicability thereof to any other person, circumstance, or thing, shall not be affected thereby.

§ 1017.88 *Amendments.* Amendments to this subpart may be proposed, from time to time, by the committee or by the Secretary.

§ 1017.89 *Counterparts.* This agreement may be executed in multiple counterparts and when one counterpart is signed by the Secretary all such counterparts shall constitute, when taken together, one and the same instrument as if all signatures were contained in one original.[1]

§ 1017.90 *Additional parties.* After the effective date hereof, any handler who has not previously executed this agreement may become a party hereto if a counterpart hereof is executed by him and delivered to the Secretary. This agreement shall take effect as to such new contracting party at the time such counterpart is delivered to the Secretary, and the benefits, privileges, and immunities conferred by this agreement shall then be effective as to such new contracting party.[1]

§ 1017.91 *Order with marketing agreement.* Each signatory handler favors and approves the issuance of an order by the Secretary regulating the handling of onions in the same manner as is provided for in this agreement; and each signatory handler hereby requests the Secretary to issue, pursuant to the act, such an order.[1]

[1] Applicable only to the proposed marketing agreement.

Copies of this notice may be obtained from the Hearing Clerk, Administration Building, United States Department of Agriculture, Washington 25, D. C. or may be there inspected.

Dated: May 24, 1956.

[SEAL] F. R. BURKE,
*Acting Deputy Administrator.*

## CIVIL AERONAUTICS BOARD

### [ 14 CFR Parts 43, 60 ]

[Draft Release 56-7A]

VFR MINIMUMS WITHIN CONTROL ZONES FOR FLIGHTS ISSUED TRAFFIC CLEARANCE

SUPPLEMENTAL NOTICE OF PROPOSED RULE MAKING

The Bureau of Safety Regulation circulated as Civil Air Regulations Draft Release No. 56-7 on March 5, 1956, proposed amendments to Parts 43 and 60 of the Civil Air Regulations on the subject: "VFR Minimums Within Control Zones for Flights Issued Traffic Clearance." Reference is made to the draft release for a full explanation of the purpose and background of the proposed rules.

The draft release stated that all persons desiring to participate in the making of the proposed rules should submit comment to the Civil Aeronautics Board prior to May 25, 1956. The Aircraft Owners and Pilots Association requested an extension of the date for return of comment so that it could have sufficient time to secure the opinions of all of its members with respect to the proposed amendments. In view of the fact that such industry opinion will greatly aid in giving proper consideration to the issues raised by the proposals, it appears that the requested extension for the return of comment will serve a useful purpose.

Accordingly, the Bureau is extending the time for submission of comment with respect to Civil Air Regulations Draft Release No. 56-7, and the Bureau will consider written comment submitted not later than June 25, 1956. Comments should be submitted in duplicate and addressed to the Civil Aeronautics Board, attention Bureau of Safety Regulation, Washington 25, D. C.

(Sec. 205 (a), 52 Stat. 984, 49 U. S. C. 425 (a). Interpret or apply secs. 601-610, 52 Stat. 1007-1012, as amended, 49 U. S. C. 551-560)

Dated at Washington, D. C., May 24, 1956.

By the Bureau of Safety Regulation.

[SEAL] JOHN M. CHAMBERLAIN,
*Director.*

## FEDERAL RESERVE SYSTEM

### [ 12 CFR Part 222 ]

[Reg. Y]

BANK HOLDING COMPANIES

NOTICE OF PROPOSED RULE MAKING

The Board of Governors of the Federal Reserve System is considering the adoption of a new Part 222 (Regulation Y) to be issued pursuant to authority contained in the Bank Holding Company Act of 1956 (70 Stat. 133).

The proposed Part 222 is designed generally to implement the provisions of the Bank Holding Company Act of 1956, and particularly to prescribe procedures for the filing of registration statements by bank holding companies and for the handling of applications for prior approval of the Board with respect to transactions requiring such approval under that act.

This notice is published pursuant to section 4 of the Administrative Procedure Act and section 2 of the rules of procedure of the Board of Governors of the Federal Reserve System (12 CFR 262.2).

To aid in the consideration of this matter the Board will be glad to receive from interested persons any relevant data, views or arguments. Although such material may be sent directly to the Board it is preferable that it be sent to the Federal Reserve Bank of the district which will forward it to the Board to be considered. All such material should be submitted in writing to be received not later than June 25, 1956.

The proposed Part 222 is as follows:

Sec.
222.1 Authority and scope.
222.2 Definitions.
222.3 Registration.
222.4 Acquisition of bank shares or assets.
222.5 Interests in nonbanking organizations.
222.6 Hearings and proceedings.
222.7 Reports and examinations.
222.8 Borrowing by bank holding company or its subsidiaries.
222.9 Statutory penalties.

§ 221.1 *Authority and scope.* This part is issued pursuant to the Bank Holding Company Act of 1956. Provisions relating to holding company affiliates, as defined in section 2 (c) of the Banking Act of 1933, are contained in Part 216 of this chapter (Reg. P).[1]

§ 222.2 *Definitions*—(a) *Bank holding company.* Subject to the exceptions stated in paragraph (b) of this section, the term "bank holding company" means any company:

(1) Which directly or indirectly owns, controls, or holds with power to vote either:

(i) 25 per centum or more of the voting shares of each of two or more banks, or

(ii) 25 per centum or more of the voting shares of any other company which is or becomes a bank holding company;

(2) Which controls in any manner the election of a majority of the directors of each of two or more banks;

(3) For the benefit of whose shareholders or members 25 per centum or more of the voting shares of each of two or more banks or of a bank holding company is held by trustees; or

(4) Which is a successor to any company that falls within subparagraphs (1), (2), or (3) of this paragraph, and any such successor shall be deemed to be a bank holding company from the date as of which its predecessor company became a bank holding company.

(b) *Exceptions from definition of "bank holding company".* No company shall be considered a bank holding company:

(1) If it is a bank and it would otherwise be a bank holding company only by virtue of its ownership or control of shares in a fiduciary capacity, provided such shares are not held for the benefit of the shareholders of such bank;

(2) If (i) it is registered under the Investment Company Act of 1940 and was so registered prior to May 15, 1955, or is affiliated with any such registered company in such manner as to constitute it an affiliated company within the meaning of that act, and (ii) it does not directly own 25 per centum or more of the voting shares of each of two or more banks;

(3) If it would otherwise be a bank holding company only by virtue of its ownership or control of shares acquired by it in connection with its underwriting of securities and if such shares are held only for such period of time as will permit the sale thereof upon a reasonable basis;

(4) If it was formed for the sole purpose of participating in a proxy solicitation and would otherwise be a bank holding company only by virtue of its control of voting rights of shares acquired in the course of such solicitation; or

(5) If at least 80 per centum of its total assets are composed of holdings in the field of agriculture, and for this purpose the term "agriculture" includes farming in all its branches, including fruitgrowing, dairying, the raising of livestock, bees, fur-bearing animals, or poultry, forestry or lumbering operations, and the production of naval stores, and operations directly related thereto.

(c) *Company.* The term "company" means any corporation (including a bank), business trust, association, or similar organization, except:

(1) Any corporation the majority of the shares of which are owned by the United States or by any State;

(2) Any corporation or community chest, fund, or foundation, organized and operated exclusively for religious, charitable, or education purposes, no part of the net earnings of which inures to the benefit of any private shareholder or individual, and no substantial part of the activities of which is carrying on propaganda, or otherwise attempting to influence legislation; and

(3) Any partnership.

(d) *Bank.* The term "bank" means any national banking association or any State bank, savings bank, or trust company, but shall not include any organization operating under section 25 (a) of the Federal Reserve Act, or any organization which does not do any business within the United States.

(e) *State member bank.* The term "State member bank" means any State bank which is a member of the Federal Reserve System.

(f) *District bank.* The term "District bank" means any State bank organized or operating under the Code of Law for the District of Columbia.

(g) *Subsidiary.* The term "subsidiary", as used with respect to a specified bank holding company, means:

(1) Any company 25 per centum or more of whose voting shares (excluding shares owned by the United States or by any company wholly owned by the United States) is owned or controlled by such bank holding company;

(2) Any company the election of a majority of whose directors is controlled in any manner by such bank holding company; or

(3) Any company 25 per centum or more of whose voting shares is held by trustees for the benefit of the shareholders or members of such bank holding company.

(h) *Successor.* The term "successor" includes any company which acquires directly or indirectly from a bank holding company shares of any bank, when and if the relationship between such company and such bank holding company is such that the transaction effects no substantial change in the control of such bank or beneficial ownership of such shares of such bank.

(i) *Board.* The term "Board" means the Board of Governors of the Federal Reserve System.

(j) *The act.* The term "the act" means the Bank Holding Company Act of 1956.

(k) *Federal Reserve Bank.* The term "Federal Reserve Bank" as used in this part with respect to the filing of registration statements, applications, requests, or reports by a bank holding company or other company shall mean the Federal Reserve Bank of the Federal Reserve district in which such company has its principal office.

§ 222.3 *Registration*—(a) *Registration statement.* On or before November 5, 1956, or within 180 days after it becomes a bank holding company, whichever is later, each bank holding company shall register with the Board by filing with the Federal Reserve Bank a registration statement, in duplicate. Upon timely application by any bank holding company and upon a satisfactory showing as to the need therefor, the Board in its discretion may extend the time prescribed in this paragraph for the filing of a registration statement by such bank holding company.

(b) *Date of registration.* The date of registration of a bank holding company shall be the date on which its registration statement is received by the Federal Reserve Bank with which such statement is required to be filed.

§ 222.4 *Acquisition of bank shares or assets*—(a) *Transactions requiring Board approval.* Except with the prior approval of the Board or except as provided in paragraph (b) of this section:

(1) No action shall be taken which will result in any company becoming a bank holding company within the meaning of § 222.2 (a);

(2) No bank holding company shall acquire direct or indirect ownership or control of any voting shares of any bank;

(3) No bank holding company which is not a bank and no nonbanking subsidiary of a bank holding company shall acquire all or substantially all of the assets of a bank; and

(4) No bank holding company shall merge or consolidate with any other bank holding company.

(b) *Excepted transactions.* Prior approval by the Board is not necessary with respect to any of the following transactions:

(1) The acquisition by a bank holding company of direct or indirect ownership or control of any voting shares of any bank if, after such acquisition, such company will not directly or indirectly own or control more than 5 per centum of the voting shares of such bank;

(2) The acquisition by a bank holding company of additional shares in a bank in which such bank holding company owned or controlled a majority of the voting shares immediately prior to such acquisition; or

(3) The acquisition by a bank (whether such bank is a bank holding company or a subsidiary of a bank holding company) of the voting shares of any bank, if:

(i) Such shares are acquired in good faith in a fiduciary capacity and are not held for the benefit of the shareholders of the acquiring bank, or

(ii) Such shares are acquired in the regular course of securing or collecting a debt previously contracted in good faith: *Provided*, That any shares acquired after the date of the act in securing or collecting any such previously contracted debt shall be disposed of within a period of two years from the date on which they were acquired.

(c) *Applications which will not be approved.* No application will be approved by the Board if such approval would permit a bank holding company or any subsidiary thereof to acquire, directly or indirectly, any voting shares of, interest in, or all of substantially all of the assets of any bank which was not a subsidiary of the bank holding company on the date of enactment of the act and which is located outside the State in which such bank holding company maintains its principal office and place of business or in which it conducts its principal operations, unless the acquisition of such shares or assets of a State bank by an out-of-State bank holding compay is specifically authorized by the statute laws of the State in which such bank is located, by language to that effect and not merely by implication.

(d) *Submission of application.* Application for approval by the Board of any transaction requiring such approval under paragraph (a) of this section shall

[1] The Bank Holding Company Act of 1956 and this part are in addition to, and do not take the place of, provisions of other laws, such as section 5144 of the Revised Statutes, and Part 216 of this chapter (Reg. P) thereunder, which relate to holding company affiliates as distinguished from bank holding companies.

be filed, in triplicate, with the Federal Reserve Bank. Any such application shall be filed not less than 60 days before the date on which it is proposed that the transaction requiring approval be consummated. Upon timely request and upon a satisfactory showing as to the need therefor, the Board in its discretion may accept an application although submitted within such period of 60 days. A separate application shall be filed with respect to each bank the voting shares or assets of which are sought to be acquired.

(e) *Procedure on application.* A Federal Reserve Bank receiving an application under this section will forward two copies thereof to the Board. If either the applicant or the bank the voting shares or assets of which are to be acquired is a national bank or a District bank, the Board will transmit a copy of the application to the Comptroller of the Currency. If either the applicant or the bank the voting shares or assets of which are to be acquired is a State bank, the Board will transmit a copy of the application to the appropriate supervisory authority of the State in which such bank is located.

(f) *Hearings on applications.* In any case in which the Board receives written advice of disapproval of the application from the Comptroller of the Currency or the appropriate State supervisory authority, as the case may be, within 30 days from the date of receipt of the application by the notified authority, the Board will so notify the applicant in writing, directing the applicant's attention to the provisions of section 3 (b) of the act. Within three days after the date of the sending of such notice to the applicant, the Board will notify in writing the applicant and the Comptroller of the Currency or the appropriate State supervisory authority, as the case may be, of the date fixed by the Board for the commencement of a hearing on the application and of the place and time at which such hearing will be held. Any such hearing will be commenced not less than ten days nor more than thirty days after the date on which the Board sent the applicant notice of the disapproval of the Comptroller of the Currency or the appropriate State supervisory authority. All such hearings will be conducted in accordance with Part 263 of this chapter (Rules of Practice for Formal Hearings).

(g) *Action on applications.* In any case in which a hearing is held in accordance with paragraph (f) of this section, the Board, after the conclusion of such hearing, will by order grant or deny the application on the basis of the record made at such hearing. In all other cases, the Board will by order grant or deny the application after receipt by it of advice that the Comptroller of the Currency or the appropriate State supervisory authority, as the case may be, does not disapprove the application, or, if no such advise is received, after the expiration of thirty days from the date of receipt of the copy of the application by the Comptroller of the Currency or such State authority.

(h) *Factors affecting action.* In acting upon any application the Board, as required by the act, will consider the following factors:

(1) The financial history and condition of the bank holding company and the bank concerned;

(2) The prospects of the bank holding company and the bank concerned;

(3) The character of the management of the bank holding company and the bank concerned;

(4) The convenience, needs, and welfare of the communities and the area concerned; and

(5) Whether or not the effect of the proposed transaction for which approval is desired would be to expand the size or extent of the bank holding company system involved beyond limits consistent with adequate and sound banking, the public interest, and the preservation of competition in the field of banking.

§ 222.5 *Interests in nonbanking organizations*—(a) *Period allowed for divestment.* Under the act, no bank holding company, except as provided in section 4 (c) of the act, shall (1) after the date of the act acquire direct or indirect ownership or control of any voting shares of any company which is not a bank, or (2) after two years after the date of the act or from the date as of which it becomes a bank holding company, whichever is later, retain direct or indirect ownership or control of any voting shares of any company which is not a bank or a bank holding company, or engage in any business other than that of banking or of managing or controlling banks or of furnishing services to or performing services for any bank of which it owns or controls 25 per centum or more of the voting shares. Upon timely request and upon a satisfactory showing of the need therefor, the Board in its discretion may extend the two-year period referred to in the preceding sentence, except that, as provided by the act, no such extension of time may be approved by the Board for more than one year at a time or for any period beyond a date five years after the date of the act or five years after the date as of which the company became a bank holding company, whichever is later.

(b) *Shares of financial, fiduciary, or insurance companies.* Any bank holding company which proposes to acquire, or to retain after the expiration of the period referred to in paragraph (2) of section 4 (a) of the act, direct or indirect ownership or control of any voting shares of a company all of the activities of which are of a financial, fiduciary, or insurance nature, may, through the Federal Reserve Bank, request the Board to determine, pursuant to section 4 (c) (6) of the act, that the activities of such company are so closely related to the business of banking or of managing or controlling banks, as conducted by such bank holding company or its banking subsidiaries, as to be a proper incident thereto and as to make it unnecessary for the prohibitions of section 4 of the act to apply in order to carry out the purposes of the act. After receipt of any such request, the Board will notify the bank holding company of the place and time fixed for a hearing on the requested determination; and, after the conclusion of such hearing and on the basis of the record made at the hearing, the Board will by order make or decline to make the requested determination. Any such hearing shall be conducted in accordance with Part 263 of this chapter (Rules of Practice for Formal Hearings).

(c) *Tax certifications.* Any bank holding company desiring a certification by the Board for purposes of the provisions of Part VIII of Subchapter O of Chapter 1 of the Internal Revenue Code of 1954, as amended by the act, may file an application in duplicate for such certification with the Federal Reserve Bank; and any such application will be forwarded by the Federal Reserve Bank to the Board. Any application for a certification under subsections (a), (b), or (c) of section 1101 of said Part VIII shall be filed not less than sixty days in advance of the distribution, or exchange and distribution, with respect to which such certification is desired. Upon timely request by any bank holding company and upon a satisfactory showing as to the need therefor, the Board in its discretion may accept an application for any such certification although submitted within such 60-day period. The Board will by order grant or deny any application under this paragraph; and, if granted, the certification will be transmitted to the applicant and a duplicate original thereof will be forwarded to the Internal Revenue Service of the Treasury Department.

§ 222.6 *Hearings and proceedings*—(a) *Hearings.* In addition to hearings required by the act (see §§ 222.4 (f) and 222.5 (b)), a hearing may be ordered by the Board in its discretion with respect to any application or request under this part, either upon its own motion or upon the request of any party in interest, if the Board deems such hearing to be in the interests of the parties or the public interest. Hearings required by the act will ordinarily be held before trial examiners appointed in accordance with provisions of the Administrative Procedure Act.

(b) *Record of proceedings.* The record in any proceeding under this part upon which an order of the Board is based shall consist of the application or request filed with the Board in connection with such proceeding; any pertinent documents submitted by the party making such application or request; any views and recommendations received by the Board from the Comptroller of the Currency or the appropriate State supervisory authority pursuant to section 3 (b) of the act; the transcript of any hearing held with respect to such application or request and any report and recommendation made by the trial examiner or hearing officer before whom such hearing was held; any other document or writing relied upon by the Board in making disposition of the matter; and any order of the Board granting or denying the application or request.

(c) *Parties.* A party to any proceeding under this part shall include any person or agency named or admitted as a party, or any person who has filed in writing a request to be heard therein and who has sufficient legal interest to be entitled to be admitted as a party.

§ 222.7 *Reports and examinations.* Each bank holding company shall furnish to the Board a report of its operations for its fiscal year ending in 1956 or the fiscal year in which it became a bank holding company, whichever is later, and for each fiscal year thereafter until it ceases to be a bank holding company. Each such annual report shall be filed, in duplicate, with the Federal Reserve Bank. Each bank holding company shall furnish to the Board such additional information at such times as the Board may require. The Board may, through the appropriate Federal Reserve Bank, examine any bank holding company or any of its subsidiaries and the cost of any such examination shall be assessed against and paid by such bank holding company. As far as possible the Board will use reports of examinations made by the Comptroller of the Currency, the Federal Deposit Insurance Corporation, or the appropriate State bank supervisory authority for the purposes of this section.

§ 222.8 *Borrowing by bank holding company or its subsidiaries.* It is unlawful under the act for any bank which is a subsidiary of a bank holding company to make loans to, or invest in the stock or obligations of, such bank holding company or any of its subsidiaries, with certain exceptions. For statutory provisions on this subject, see section 6 of the act.

§ 222.9 *Statutory penalties.* Under the act, any company which willfully violates any provision of the act or any regulation or order issued by the Board pursuant thereto shall upon conviction be fined not more than $1,000 for each day during which the violation continues; and any individual who willfully participates in a violation of any provision of the act shall upon conviction be fined not more than $10,000 or imprisoned not more than one year, or both. Every officer, director, agent, and employee of a bank holding company is subject under the act to the same penalties for false entries in any book, report, or statement of such bank holding company as are applicable to officers, directors, agents, and employees of member banks of the Federal Reserve System for false entries in any books, reports, or statements of member banks under section 1005 of Title 18, U. S. Code.

BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM,
[SEAL] MERRITT SHERMAN,
*Assistant Secretary.*

## DEPARTMENT OF COMMERCE

### Federal Maritime Board

[Docket No. M-68]

GULF & SOUTH AMERICAN STEAMSHIP CO., INC.

NOTICE OF HEARING ON APPLICATION TO CHARTER

Notice is hereby given that a public hearing will be held on June 7, 1956, at 10:00 a. m., in Room 4519, New General Accounting Office Building, Fifth and G Streets NW., Washington, D. C., upon the application of Gulf & South American Steamship Co., Inc., to bareboat charter one (1) Victory type dry-cargo vessel for operation on Trade Route No. 31 between U. S. Gulf of Mexico ports and the West Coast of South America for a minimum period of six (6) months, pursuant to section 5 (e) of the Merchant Ship Sales Act, 1946, as amended (Public Law 591, 81st Cong.) (50 U. S. C. App. 1738).

The purpose of the hearing is to receive evidence with respect to whether the service for which such vessel is proposed to be chartered is required in the public interest and is not adequately served, and with respect to the availability of privately-owned American-flag vessels for charter on reasonable conditions and at reasonable rates for use in such service. Evidence will be received with respect to any restrictions or conditions that may be necessary or appropriate to protect the public interest in respect of such charter as may be granted and to protect privately-owned vessels against competition from vessels chartered as a result of this proceeding.

All persons having an interest in the application will be given an opportunity to be heard if present.

An Examiner from the Hearing Examiner's Office will preside at the hearing, and oral argument may be had at the conclusion of receipt of evidence. A Recommended Decision will be issued. The time for filing Exceptions thereto is hereby restricted to seven (7) days, and no replies to Exceptions will be received.

Dated: May 25, 1956.

By order of the Federal Maritime Board.

[SEAL] GEO. A. VIEHMANN,
*Assistant Secretary.*

## FEDERAL POWER COMMISSION

[Docket No. G-10435]

MOUND CO.

ORDER SUSPENDING PROPOSED CHANGES IN RATES

Mound Company (Applicant) on April 26, 1956, tendered for filing proposed

changes in presently effective rate schedules for sales subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filing which is proposed to become effective on the date shown:

*Description; Purchaser; Rate Schedule Designation; Effective Date* [1]

Notice of change, undated; Texas Gas Pipe Line Corporation; Supplement No. 4 to Applicant's FPC Gas Rate Schedule No. 1; June 1, 1956.

The increased rates and charges proposed in the aforesaid filing have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations (18 CFR Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of said proposed changes in rates and charges; and, pending such hearing and decision thereon, the above-designated supplement be and the same hereby is suspended and the use thereof deferred until November 1, 1956, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(B) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby, shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Issued: May 22, 1956.

By the Commission.[2]

[SEAL] LEON M. FUQUAY, *Secretary.*

[Docket No. G-10436]

STANOLIND OIL AND GAS CO.

ORDER SUSPENDING PROPOSED CHANGES IN RATES

Stanolind Oil and Gas Company (Applicant) on April 26, 1956, tendered for filing proposed changes in presently effective rate schedules for sales subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filing which is proposed to become effective on the date shown:

*Description; Purchaser; Rate Schedule Designation; Effective Date* [1]

Notice of change, dated April 24, 1956; Texas Gas Pipe Line Corporation; Supplement No. 4 to Applicant's FPC Gas Rate Schedule No. 3; June 1, 1956.

The increased rates and charges proposed in the aforesaid filing have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations (18 CFR Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of said proposed changes in rates and charges; and, pending such hearing and decision thereon, the above-designated supplement be and the same hereby is suspended and the use thereof deferred until November 1, 1956, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(B) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby, shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Issued: May 22, 1956.

By the Commission.[2]

[SEAL] LEON M. FUQUAY, *Secretary.*

[Docket No. G-10437]

F. A. CALLERY, INC.

ORDER SUSPENDING PROPOSED CHANGES IN RATES

F. A. Callery, Inc. (Applicant), on April 27, 1956, tendered for filing proposed changes in presently effective rate schedules for sales subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filing which is proposed to become effective on the date shown:

*Description; Purchaser; Rate Schedule Designation; Effective Date* [1]

Notice of change, dated April 25, 1956; Texas Gas Pipe Line Corporation; Supplement No. 2 to Applicant's FPC Gas Rate Schedule No. 1; June 1, 1956.

The increased rates and charges proposed in the aforesaid filing have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations (18 CFR Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of said proposed changes in rates and charges; and, pending such hearing and decision thereon, the above-designated supplement be and the same hereby is suspended and the use thereof deferred until November 1, 1956, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(B) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby, shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Issued: May 22, 1956.

By the Commission.[2]

[Docket No. G-10438]

MCCARTHY OIL & GAS CORP.

ORDER SUSPENDING PROPOSED CHANGES IN RATES

McCarthy Oil & Gas Corporation (Applicant) on April 27, 1956, tendered for filing proposed changes in presently effective rate schedules for sales subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filings which are proposed to become effective on the date shown:

[1] The stated effective date is the first day after expiration of the required thirty days' notice, or the effective date proposed by Applicant if later.

[2] Commissioner Digby dissenting.

*Description; Purchaser; Rate Schedule Designation; Effective Date* [1]

Notice of change, dated April 24, 1956; Texas Gas Pipe Line Corporation; Supplement No. 9 to Applicant's FPC Gas Rate Schedule No. 1; June 1, 1956.

Notice of change, dated April 24, 1956; Texas Gas Pipe Line Corporation; Supplement No. 10 to Applicant's FPC Gas Rate Schedule No. 1; June 1, 1956.

The increased rates and charges proposed in the aforesaid filings have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes and that the above-designated supplements be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations (18 CFR Chapter 1), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of said proposed changes in rates and charges; and pending such hearing and decision thereon, the above-designated supplements be and the same hereby are suspended and the use thereof deferred until November 1, 1956, and until such further time as they are made effective in the manner prescribed by the Natural Gas Act.

(B) Neither the supplements hereby suspended nor the rate schedule sought to be altered thereby, shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Issued: May 22, 1956.

By the Commission.[2]

[Docket No. G-5999]

SATURN OIL & GAS CO., INC.

ORDER REFERRING PROCEEDING TO PRESIDING EXAMINER

Saturn Oil & Gas Company, Inc. (Saturn), filed on November 26, 1954, an application for the conditional issuance of a certificate of public convenience and necessity covering its sales of natural gas to two interstate pipeline companies. The matter of said application, Docket No. G-5999, was consolidated with a number of other applications for hearing ordered to be held on May 7, 1956. The notice of said hearing provided for the disposition of all the consolidated matters under § 1.30 (c) (i) of the Commission's rules of practice and procedure, in the event of a non-contested hearing.

Counsel for Saturn appeared at the hearing held on May 7, 1956, and moved orally for the severance of its application from the consolidated proceeding and the dismissal thereof. The motion to dismiss was filed in writing with the Commission on May 7, 1956.

The Presiding Examiner has referred both of said motions to the Commission. By order of the Commission issued May 21, 1956, the application of Saturn was severed from said consolidated proceedings. It is in the public interest that the motion of Saturn to dismiss its application be referred to the Presiding Examiner, to be ruled upon as part of his initial decision submitted after the conclusion of the hearing on said application.

The Commission orders: The motion to dismiss hereinabove described is hereby referred to the Presiding Examiner to be ruled upon as a part of his initial decision submitted after the conclusion of the hearing and the completion of the record herein. A public hearing shall be held on June 7, 1956, beginning at 9:30 a. m., e. d. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented by the above application and the said motion to dismiss.

Issued: May 22, 1956.

By the Commission.

[Docket No. G-10439]

PURE OIL CO.

ORDER SUSPENDING PROPOSED CHANGES IN RATES

The Pure Oil Company (Applicant) on April 27, 1956, tendered for filing proposed changes in presently effective rate schedules for sales subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filing which is proposed to become effective on the date shown:

*Description; Purchaser; Rate Schedule Designation; Effective Date* [1]

Notice of change, undated; Phillips Petroleum Company; Supplement No. 4 to Applicant's FPC Gas Rate Schedule No. 19; May 28, 1956.

The increased rates and charges proposed in the aforesaid filing have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations (18 CFR Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of said proposed changes in rates and charges; and, pending such hearing and decision thereon, the above-designated supplement be and the same hereby is suspended and the use thereof deferred until October 28, 1956, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(B) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby, shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Issued: May 22, 1956.

By the Commission.[2]

[Docket Nos. G-5298 et al., G-5317]

SKELLY OIL CO.

NOTICE OF SEVERANCE OF HEARING ON APPLICATION FOR CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY

MAY 23, 1956.

Take notice that the hearing now scheduled for June 4, 1956, upon the application for certificate of public convenience and necessity filed in Docket No. G-5317, which was consolidated with the applications in Docket Nos. G-5298 et al., is hereby severed from the consolidated dockets aforesaid and is hereby postponed to a date to be hereafter fixed by further notice.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 56-4205; Filed, May 28, 1956; 8:48 a. m.]

[1] The stated effective date is the first day after expiration of the required thirty days' notice, or the effective date proposed by Applicant if later.

[2] Commissioner Digby dissenting.

[Docket No. G-10126]

UNITED GAS PIPE LINE CO.

NOTICE OF APPLICATION AND DATE OF HEARING

MAY 23, 1956.

Take notice that United Gas Pipe Line Company (Applicant), a Delaware corporation with principal place of business at 1525 Fairfield Avenue, Shreveport, Louisiana, filed, on March 20, 1956, an application for a certificate of public convenience and necessity, pursuant to section 7 (c) of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to continue to operate, as an integral part of its existing natural gas system, certain existing natural gas facilities which are necessary to the partial delivery and direct sale of natural gas in interstate commerce by Applicant to Newport Industries, Incorporated (Newport) in daily volumes up to a maximum of approximately 7,080 Mcf at 14.73 psia in a proportionately interruptible basis pursuant to a 6 year fuel requirements contract dated March 8, 1956, for use in Newport's naval stores plant and auxiliaries thereto located in Pensacola, Escambia County, Florida.

The application states that Applicant is presently delivering natural gas to City of Pensacola, Florida (Pensacola), for resale to Newport; that Applicant has entered into a Transportation Agreement with Pensacola dated February 24, 1956, under the terms of which Applicant will continue to deliver the gas requirements of Newport to Pensacola at the existing delivery point where Applicant is presently making deliveries to Pensacola and Pensacola will transport said gas through Pensacola's existing distribution facilities and deliver same to Newport for the account of Applicant; that this new arrangement will permit uniformity of rates and contract conditions as between Newport and Applicant's other direct industrial customers in the area; that this new arrangement is mutually agreeable to Applicant, Pensacola and Newport; that no increase in Applicant's total sales of gas will result as Newport is presently receiving gas from Applicant's system; that the new arrangement will not affect the aggregate quantities of gas delivered at the City Gate Stations at Pensacola; and that service to Newport will be uninterrupted.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Monday, June 18, 1956 at 9:30 a. m., e. d. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before June 9, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] LEON M. FUQUAY,
*Secretary.*

[F. R. Doc. 56-4206; Filed, May 28, 1956; 8:49 a. m.]

## GENERAL SERVICES ADMINISTRATION

DEPUTY ADMINISTRATOR OF GENERAL SERVICES

DELEGATION OF AUTHORITY TO MANAGE NICKEL PRODUCING AND PROCESSING FACILITIES AND ACTIVITIES RELATING TO NICARO NICKEL PROJECT IN ORIENTE PROVINCE, CUBA

1. Pursuant to the authority vested in me by the provisions of the Federal Property and Administrative Services Act of 1949 (63 Stat. 377; 40 U. S. C. 471–514, 41 U. S. C. 251–260), the Defense Production Act of 1950 (64 Stat. 798; 50 U. S. C. App. 2061–2166), the National Industrial Reserve Act of 1948 (62 Stat. 1225; 50 U. S. C. 451–462), the Strategic and Critical Materials Stock Piling Act (60 Stat. 596; 50 U. S. C. 98–98h), and Executive Order No. 10480 (18 F. R. 4939), all as amended, authority is hereby delegated to the Deputy Administrator of General Services to manage the Nicaro nickel producing and processing facilities and activities administered by the Government in Oriente Province, Cuba, and any and all other facilities and activities related thereto regardless of where located. In furtherance thereof, the Deputy Administrator of General Services is fully authorized (a) to negotiate, execute, administer, amend, and terminate any and all contracts, letters of intent, deeds, and other contractual instruments relating to the Nicaro nickel project, (b) to provided for the performance on behalf of the Administrator or Deputy Administrator of General Services of other functions relating thereto by the Special Assistant to the Administrator (Nicaro Project), (c) to consult with and obtain expert advice from said Special Assistant on all matters relating to the Nicaro nickel project, and (d) to take such other action in connection therewith as may be necessary and lawful. In the absence of the Deputy Administrator of General Services, all contractual instruments and all matters involving questions of policy shall be referred to the Administrator of General Services for execution or resolution.

2. The authority so delegated shall be exercised in accordance with applicable directives and certificates issued by the Secretary of Defense under said National Industrial Reserve Act of 1948, and by the Director of the Office of Defense Mobilization under said Strategic and Critical Materials Stock Piling Act and said Defense Production Act of 1950.

3. The functions and authorities heretofore vested in the Nickel-Graphite Committee and not covered by the foregoing paragraphs will be performed and exercised as may be appropriate under the general organizational pattern, or under the direction of the respective heads of the services and staff offices, of the General Services Administration.

4. The delegation of authority entitled "Nickel-Graphite Committee—Delegation of Authority with Respect to Duties and Functions" and dated August 25, 1953 (18 F. R. 5285), and all amendments thereto, are hereby rescinded.

5. This delegation of authority shall be effective upon publication in the FEDERAL REGISTER.

Dated: May 25, 1956.

FRANKLIN G. FLOETE,
*Administrator.*

[F. R. Doc. 56-4253; Filed, May 28, 1956; 8:53 a. m.]

## SECURITIES AND EXCHANGE COMMISSION

JOHN R. WEERTS

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 22d day of May 1956.

In the matter of John R. Weerts, dba John R. Weerts Investment Broker, 233 Plaza Building, 245 S. E. First St., Miami, Florida.

I. The Commission's public official files disclose that John R. Weerts, a sole proprietor, dba John R. Weerts Investment Broker, hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar year 1955, as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted thereunder.

III. The information reported to the Commission by its Records Officer as set forth in Paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section.

[1] Filed as part of the original document.

IV. The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statement referred to in Paragraph II hereof is true;

(b) Whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant; and

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant.

V. *It is ordered,* That registrant be given an opportunity for hearing as set forth in Paragraph IV hereof on the 25th day of June, 1956 at 10 a. m., at the main office of the Securities and Exchange Commission, located at 425 Second Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. On such date the Hearing Room Clerk in Room 193, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before June 11, 1956. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived.

*It is further ordered,* That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer, of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to June 25, 1956.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of the section delaying the effective date of any final Commission action.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
*Secretary.*

[F. R. Doc. 56-4201; Filed, May 28, 1956; 8:47 a. m.]

CHARLES R. MORGAN

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 22d day of May 1956.

In the matter of Charles R. Morgan, 322 Mercantile Building, Knoxville, Tennessee.

I. The Commission's public official files disclose that Charles R. Morgan, a sole proprietor, hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar year 1955 as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted thereunder.

III. The information reported to the Commission by its Records Officer as set forth in Paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section.

IV. The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statement referred to in Paragraph II hereof is true;

(b) Whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant; and

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant.

V. *It is ordered,* That registrant be given an opportunity for hearing as set forth in Paragraph IV hereof on the 25th day of June, 1956 at 10 a. m., at the main office of the Securities and Exchange Commission, located at 425 Second Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. On such date the Hearing Room Clerk in Room 193, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before June 11, 1956. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived.

*It is further ordered,* That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to June 25, 1956.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of the section delaying the effective date of any final Commission action.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
*Secretary.*

[F. R. Doc. 56-4202; Filed, May 28, 1956; 8:47 a. m.]

[1] Filed as part of the original document.

JAMES W. TWOHIG

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

MAY 22, 1956.

In the matter of James W. Twohig, a sole proprietor, dba James W. Twohig and Company, Box 540, Alderson, West Virginia.

I. The Commission's public official files disclose that James W. Twohig, a sole proprietor, dba James W. Twohig and Company, hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934, and is a member of the National Association of Securities Dealers, Inc., a national securities association, registered pursuant to section 15A of said act.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar year 1955, as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted thereunder.

III. The information reported to the Commission by its Records Officer as set forth in Paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section.

IV. The Commission, having considered the aforesaid information, deems

it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statement referred to in Paragraph II hereof is true;

(b) Whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant;

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant; and

(e) Whether, pursuant to section 15A (*l*) (2) of the Securities Exchange Act of 1934, it is necessary or appropriate in the public interest or for the protection of investors or to carry out the purposes of said section, to suspend for a period not to exceed twelve (12) months or to expel registrant from membership in the National Association of Securities Dealers, Inc.

V. *It is ordered*, That registrant be given an opportunity for hearing as set forth in paragraph IV hereof at 10 a. m. on the 25th day of June 1956, at the main office of the Securities and Exchange Commission, located at 425 Second Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. At such time the Hearing Room Clerk in Room 193, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before June 11, 1956. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived.

*It is further ordered*, That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to June 25, 1956.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of the section delaying the effective date of any final Commission action.

By the Commission.

[File No. 1-1665]

## CINCINNATI MERCHANDISE WAREHOUSES, INC.

### NOTICE OF APPLICATION TO STRIKE FROM LISTING AND REGISTRATION, AND OF OPPORTUNITY FOR HEARING

MAY 23, 1956.

Cincinnati Stock Exchange has made application, pursuant to section 12 (d) of the Securities Exchange Act of 1934 and Rule X-12D2-1 (b) promulgated thereunder, to strike the above named security from listing and registration thereon.

The reasons alleged in the application for striking this security from listing and registration include the following:

The Cincinnati Stock Exchange has been informed by the issuer that the number of shares of stock outstanding has been reduced to 5,998 and the number of shareholders has decreased to 153. The records of The Cincinnati Stock Exchange indicate that only 79 shares of this issue were traded on the exchange in 1954 and 199 shares in 1955. The Board of Trustees of the exchange is of the opinion that there is not sufficient stock available to make an exchange market in this issue. The Board of Directors of the issuer state that "In light of the foregoing facts we believe that continuation of the listing of our stock on an Exchange is of no advantage to the Shareholders of the Corporation or prospective investors and no longer justified."

Upon receipt of a request, on or before June 12, 1956, from any interested person for a hearing in regard to terms to be imposed upon the delisting of this security, the Commission will determine whether to set the matter down for hearing. Such request should state brefly the nature of the interest of the person requesting the hearing and the position he proposes to take at the hearing with respect to imposition of terms. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington 25, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application and other information contained in the official file of the Commission pertaining to the matter.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

### Chapter III—Farmers Home Administration, Department of Agriculture

Subchapter B—Farm Ownership Loans

[FHA Instruction 401.2]

PART 311—BASIC REGULATIONS

SUBPART B—LOAN LIMITATIONS

AVERAGE VALUES OF FARMS; TEXAS

On April 9, 1956, for the purposes of title I of the Bankhead-Jones Farm Tenant Act, as amended, average values of efficient family-type farm-management units for the counties identified below were determined to be as herein set forth. The average values heretofore established for said counties, which appear in the tabulations of average values under § 311.29, Chapter III, Title 6 of the Code of Federal Regulations, are hereby superseded by the average values set forth below for said counties.

| TEXAS | *Average value* |
|---|---|
| County: | |
| Bowie | $20,000 |
| Cass | 25,000 |
| Delta | 25,000 |
| Gonzales | 25,000 |

# FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

## TITLE 7—AGRICULTURE

## Chapter I—Agricultural Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

Subchapter A—Commodity Standards and Standard Container Regulations

PART 29—TOBACCO INSPECTION

MISCELLANEOUS AMENDMENTS

A notice of proposed amendment to the regulations governing the inspection of tobacco (7 CFR Part 29) was published in the FEDERAL REGISTER on May 16, 1956 (21 F. R. 3228) and afforded interested persons the opportunity to submit written data, views, or arguments in connection therewith.

After consideration of all relevant material presented and the notice of rule making, the amendments hereafter set forth are hereby promulgated, to become effective 30 days after publication in the FEDERAL REGISTER.

The amendments are as follows:

1. Change § 29.121 to read as follows:

§ 29.121 *Fees for inspection service performed under an agreement.* The fees to be charged and collected for service performed under an agreement shall be those provided for by such agreement.

2. Change § 29.122 to read as follows:

§ 29.122 *Fees and charges for inspection other than under an agreement.* Fees or charges for inspection service shall be fixed in accordance with § 29.123. Charges as computed in accordance with this part shall be increased by 8 percent to cover administrative expenses.

3. Change § 29.123 to read as follows:

§ 29.123 *Fees and charges.* The fees and charges for inspection other than under an agreement shall be as follows:

(a) Fees and charges for inspection at redrying plants and receiving points shall comprise the cost of travel expense, per diem allowance and salaries.

(b) The fees or charges for hogshead, bale or case inspection shall be the larger of (1) the actual total cost including travel expenses, per diem allowance and salaries or (2) $10.

(c) The fees or charges for sample inspection shall be the larger of (1) the actual total cost including travel expense, per diem allowance and salaries or (2) $5.

4. Add a new Subpart E to read as follows:

SUBPART E—FORMS

APPLICATION AND AGREEMENT FOR PERMISSIVE INSPECTION SERVICE

§ 29.801 *Application and agreement for permissive tobacco inspection service.*

Application for inspection service on an agreement basis is hereby made under the authority of The Tobacco Inspection Act and

the regulations issued pursuant thereto (7 CFR Part 29). Upon approval of this application by the Agricultural Marketing Service, United States Department of Agriculture (hereinafter referred to as "AMS"), AMS will furnish inspection service in accordance with the terms and conditions hereof, and this document shall constitute an agreement for permissive inspection. Such inspection service is to be performed for the firm herein designated:

---
(Name of firm)

---
(Street address)

---
(City and State)

The applicant agrees to pay for the full cost of the inspection service covered hereby to AMS at the time the respective invoices are rendered by AMS. The full costs shall be determined in accordance with the following rates for services as are applicable:

A. *Determination of fees or charges and payments of costs.* 1. Fees or charges for inspection at redrying plants, receiving points and non-designated auction markets shall include travel expenses, per diem allowance and salaries.

2. Fees or charges for hogshead, bale or case inspection shall be the larger of (i) actual total cost including travel expense, per diem allowance and salaries or (ii) $10.

3. Fees or charges for sample inspection shall be the larger of (i) actual total cost including travel expense, per diem allowance and salaries or (ii) $5.

4. All charges as assessed under paragraphs 1, 2, and 3, shall be increased by 8 percent to cover administrative expenses.

5. It is mutually agreed that AMS will pay all expenses above mentioned from any available appropriation with the agreement and understanding that AMS shall be reimbursed therefor by the applicant for all expenses so paid by AMS for conducting the work hereunder.

6. The applicant agrees to reimburse the Agricultural Marketing Service for all expenses incurred in the conduct of the services rendered under this application, such payment to be made by check, money order, or draft, payable and mailed to the Agricultural Marketing Service, Washington 25, D. C., for deposit to the appropriation from which the expenses were paid.

B. *Employment and assignment of inspectors.* 1. All inspectors given Federal appointments shall be under the jurisdiction of the AMS as to supervision, salaries, hours of work and duties. All inspectors shall make such reports to the Administrator of the AMS as may be required.

2. AMS will assume, through its local representatives, responsibility for the administrative and technical supervision of the inspection service established, maintained and conducted under this application; such representatives to determine the detailed assignments of inspectors. Assigment of inspectors and licensees shall be at the sole discretion of AMS.

3. AMS will select, train and appoint such inspectors as are necessary to perform the work, with the understanding that it assumes no responsibility beyond its ability to obtain suitable qualified men at salaries determined by the provisions of the Federal Classification Act.

4. AMS shall not be responsible for damages accruing through any acts of commission or omission on the part of any Federal employee or licensee.

C. *Rules and regulations.* 1. It is mutually agreed that all inspection work shall be in accordance with the United States Standards and that certificates issued shall be Federal certificates issued in accordance with the rules and regulations of the Secretary of Agriculture under The Tobacco Inspection Act.

2. The applicant agrees to comply with the terms and conditions of the regulations and such other terms and conditions hereinafter enumerated.

3. All terms used herein shall have the same meaning as when used in the aforesaid Regulations and Instructions.

D. *Continuation of services and termination.* 1. This agreement shall continue in force until June 30, 19__, and as long thereafter as Congress shall provide the necessary authority therefor, subject to annual confirmation by a duly authorized officer of the United States Department of Agriculture: provided, however, that this agreement may be abrogated at any time by mutual consent or by either party hereto by giving written notice to the other party thirty (30) days in advance of and specifying the date of termination.

2. The services to be rendered hereunder shall be terminated by AMS at any time AMS, acting pursuant to any applicable laws, rules, or regulations, debars the applicant from receiving any further benefits of the service, or the services hereunder may be suspended or terminated at any time AMS concludes that the applicant has not conformed, or cannot conform, hereto.

E. *Member of Congress provision.* 1. No member of or delegate to Congress, or Resident Commissioner after his election or appointment, and either before or after he has qualified and during his continuance in office; and no officer, agent or employee of the Government shall be admitted to any share or part of this agreement or to any benefit to arise thereupon. The provision herein with respect to the interest of members of or delegates to Congress and Resident Commissioners in the agreement shall not be construed to extend to any incorporated company where such contract or agreement is made for the general benefit of such incorporation or company.

## Chapter VIII—Commodity Stabilization Service (Sugar), Department of Agriculture

### Subchapter G—Determination of Proportionate Shares

[Sugar Determination 850.30, Amdt. 3]

### PART 850—DOMESTIC BEET SUGAR PRODUCING AREA 1956 CROP

#### INCREASE IN ACREAGE ALLOTMENT

Pursuant to the provisions of section 302 of the Sugar Act of 1948, as amended, paragraph (a) (1) of § 850.30 of the Determination of Proportionate Shares for the Domestic Beet Sugar Producing Area—1956 Crop, issued September 21, 1955 (20 F. R. 7159), as amended November 30, 1955 (20 F. R. 8772) and February 11, 1956 (21 F. R. 986), is hereby amended by changing the two references to "850,000" therein to "850,500", and by adding in alphabetical sequence "Nevada -- 500" to the list of States and acres enumerated therein.

*Statement of bases and considerations.* This amendment provides for an increase of 500 acres in the national acreage objective, formalizes an allocation in like amount for the State of Nevada and maintains the reserve allocation of 500 acres. An allocation for the State of Nevada was not established under the original determination because sugar beets were not planted in that State during the base period (1950–54) used in establishing State acreage allocations from the national total of 850,000 acres.

Pursuant to the authority contained in paragraph (a) (2) of the original determination, the Director of the Sugar Division recently allocated acreage to the State of Nevada from the reserve of 500 acres at the request of farmers in that State who desire to raise sugar beets. To warrant the investment by a sugar beet processor in the necessary local equipment and service, a minimum production of 500 acres of sugar beets was required. Accordingly, the allocation specified that acreage. Since the farm shares to be established from this allocation will be new-producer shares, the procedures to be established by the ASC Nevada State Committee, subject to the approval of the Director, will provide for a reasonable maximum acreage per farm. The allocation to the State of Nevada exhausted the acreage in the reserve. Since it is essential that the reserve be maintained for the purposes stated in the original determination, this amendment re-establishes the reserve at 500 acres.

The acreage added to the national total by this amendment is only about six-hundredths of one percent of the former total. Thus, even if the entire additional 500 acres are planted, the resulting production of sugar will have an insignificant effect on the beet sugar production and normal carryover situation.

Accordingly, I hereby find and conclude that the foregoing amendment to the determination will effectuate the applicable provisions of the Sugar Act of 1948, as amended.

(Sec. 403, 61 Stat. 932; 7 U. S. C. 1153. Interprets or applies sec. 302, 61 Stat. 930; 7 U. S. C. 1132)

Issued this 25th day of May, 1956.

[SEAL] TRUE D. MORSE,
*Acting Secretary.*

[F. R. Doc. 56-4255; Filed, May 29, 1956; 8:54 a. m.]

## Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

### PART 961—MILK IN PHILADELPHIA, PENNSYLVANIA, MARKETING AREA

#### ORDER AMENDING ORDER, AS AMENDED, REGULATING HANDLING

*Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon a proposed marketing agreement and proposed amendments to the order, as amended, regulating the handling of milk in the Philadelphia, Pennsylvania, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area, as determined pursuant to section 2 of the act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity, specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary in the public interest to make this order amending the order, as amended, effective June 1, 1956. Any delay beyond that date in the effective date of this order amending the order, as amended, will seriously threaten the orderly marketing of milk in the Philadelphia, Pennsylvania, marketing area. The provisions of the said order are well known to handlers—the public hearing having been held on February 1–7, 1956, the recommended decision having been issued on April 5, 1956 (21 F. R. 2333; F. R. Doc. 56-2753), and the final decision having been issued on May 7, 1956 (21 F. R. 3116; F. R. Doc. 56-3709). Therefore, reasonable time has been afforded persons affected to prepare for its effective date. In view of the foregoing, it is hereby found and determined that good cause exists for making this order amending the order, as amended, effective June 1, 1956, and that it would be contrary to the public interest to delay the effective date of this amendment for 30 days after its publication in the FEDERAL REGISTER (see section 4 (c), Administrative Procedure Act, 5 U. S. C. 1001 et seq.).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order) of more than 50 percent of the milk covered by the order, which is marketed within the Philadelphia, Pennsylvania, marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order, as amended, is the only practical means pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order is approved or favored by at least three-fourths of the producers who participated in a referendum thereon and who, during the determined representative period (January 1956), were engaged in the production of milk for sale in the said marketing area.

*Order relative to handling.* It is therefore ordered that on and after the effective date hereof, the handling of milk in the Philadelphia, Pennsylvania, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order is hereby further amended as follows:

1. Delete the language of § 961.5 and substitute therefor the following:

§ 961.5 *Producer.* "Producer" means any person, except a producer-handler, who produces milk which is received directly at a producer milk plant.

2. Delete § 961.6 (c) and substitute therefor the following:

(c) Any other plant from which milk is supplied to a pasteurizing or bottling plant described in paragraph (b) of this section: *Provided*, That any such other plant shall not be included in this definition during any month in which there is shipped from the plant only Class II milk as defined in § 961.31 or during any of the months of October, November, December, and January in which shipments, any part of which are allocated to Class I milk, are made from the plant on less than 11 days to such pasteurizing and bottling plant, or to a plant or plants supplying such pasteurizing or bottling plant.

3. Delete the entire last sentence of § 961.6.

4. Delete the language of § 961.8 and substitute therefor the following:

§ 961.8 *Handler.* "Handler" means any person wherever located or operating, who engages in the handling of milk which is disposed of in the marketing area as milk, or skim milk.

5. Add a new § 961.10 as follows:

§ 961.10 *Producer-handler.* "Producer-handler" means any person who operates as his own personal enterprises both a dairy farm and a producer milk plant from which Class I milk is disposed of in the marketing area, but who receives no milk from producers.

6. Delete §§ 961.30 and 961.31 and substitute therefor the following:

§ 961.30 *Milk to be classified.* All milk, skim milk, and cream which is received within the month by a handler, which is required to be reported pursuant to §§ 961.50 and 961.51 shall be classified by the market administrator pursuant to the provisions of §§ 961.31 through 961.34.

§ 961.31 *Classes of utilization.* Subject to the conditions set forth in §§ 961.32 and 961.33 the classes of utilization shall be as follows:

(a) *Class I milk.* Class I milk shall be all milk and skim milk (including the milk or skim milk equivalent of concentrated milk, and of dry whole milk, condensed skim milk and nonfat dry milk solids used in reconstituting or fortifying any Class I product) and butterfat disposed of in fluid form as milk, skim milk, buttermilk, milk drinks (plain or flavored) concentrated milk, or any mixture of milk, cream, or skim milk containing less than 18 percent butterfat (except sterilized products in hermetically sealed containers, ice cream mixes, ice milk mixes and eggnog) including such products which are:

(1) Disposed of to retail establishments which disposes of milk both for fluid and other uses, (2) contained in inventory variations of milk and milk products designated as Class I milk, or (3) not accounted for as Class II milk.

(b) *Class II milk.* Class II milk shall be all milk, skim milk and cream: (1) used to produce any product other than those designated as Class I milk pursuant to paragraph (a) of this section; (2) dumped or disposed of for livestock feed; (3) disposed of in bulk and used in soup, candy, bakery products or any other nondairy commercial food product; (4) contained in inventory variation of cream; and (5) accounted for as ac-

tual plant shrinkage not in excess of two percent of the total pounds of milk, skim milk and cream received by a handler at all of his producer milk plants.

7. Delete §§ 961.34 and 961.35 and substitute therefor the following:

§ 961.34 *Allocation of milk, skim milk and butterfat classified.* The market administrator shall determine the classification of producer milk received at the producer milk plant(s) of each handler as follows:

(a) The gross product pounds of milk and milk products classified shall be allocated in the following manner:

(1) If the total product pounds of all milk and milk products classified is less than the total product pounds of all milk and milk products received at the handlers producer milk plant(s) add to the product pounds of Class I and Class II milk the product pounds classified as plant shrinkage pursuant to § 961.31 (a) (3) and (b) (5);

(2) Subtract from the product pounds in Class II milk the product pounds in receipts from nonproducer milk plant(s) in the form of cream containing 18 percent or more butterfat and the milk or skim milk equivalent of such receipts of concentrated and dried milk or skim milk utilized in a reconstituted or fortified product: *Provided*, That if the product pounds of such receipts to be subtracted are greater than the product pounds in Class II milk, the balance shall be subtracted pro rata from the product pounds in the several price subdivisions of Class I milk;

(3) During the months of February through September, subtract from the remaining product pounds in Class II milk the product pounds of milk and skim milk received from a nonproducer milk plant(s): *Provided*, That if the product pounds of such receipts to be subtracted are greater than the remaining product pounds in Class II milk, the provisions hereof shall not apply and the plant(s) from which such milk and skim milk were received shall be designated a producer milk plant(s) pursuant to § 961.6 (c);

(4) During the months of February through September, subtract from the remaining product pounds of milk, in sequence, beginning with Class II milk, the product pounds of milk and skim milk received from plants subject to regulation under other Federal orders;

(5) During the months of October through January, subtract from the product pounds remaining in Class II milk, the product pounds of milk and skim milk in receipts from nonproducer milk plants and plants subject to regulation under other Federal orders: *Provided*, That if the product pounds of such receipts to be subtracted are greater than the remaining product pounds in Class II milk, the balance shall be subtracted from the remaining product pounds in the applicable price subdivision of Class I milk: *And provided further*, That a different allocation shall be made at the written request of the receiving handler if it does not result in a greater than pro rata allocation to Class I milk as computed pursuant to subparagraph (8) of this paragraph;

(6) Subtract from the product pounds remaining in Class II milk, the product pounds of milk and skim milk received in bulk from producer-handlers: *Provided*, That if the product pounds of such receipts to be subtracted are greater than the remaining product pounds in Class II milk, the balance shall be subtracted from the remaining product pounds in the applicable price subdivision of Class I milk: *And provided further*, That a different allocation shall be made at the written request of the receiving handler if it does not result in a greater than pro rata allocation to Class I milk as computed pursuant to subparagraph (8) of this paragraph;

(7) Subtract from the product pounds remaining in each class the product pounds of milk, skim milk and cream in receipts from producer milk plants of other handlers and assigned to such class pursuant to § 961.32: *Provided*, That if the product pounds of such receipts to be subtracted from Class II milk are greater than the remaining product pounds in such class, the balance shall be subtracted from the remaining product pounds in the applicable price subdivision of Class I milk;

(8) Subtract pro rata from the remaining product pounds in the several subdivisions of Class I milk and Class II milk, the product pounds of milk and skim milk received from nonproducer milk plants, and plants subject to regulation under other Federal orders, and in bulk from producer-handler, for which the handler has requested a different allocation than that provided in subparagraphs (5) and (6) of this paragraph: *Provided*, That a greater volume as determined by the handler may be subtracted from the remaining product pounds of Class II milk.

(b) Butterfat shall be allocated under the same procedure outlined for gross product pounds in paragraph (a) of this section.

(c) Divide the pounds of butterfat in each class or price subdivision by the hundredweight of product pounds in such class or price subdivision to determine the weighted average butterfat content of each class or price subdivision.

8. Delete the language of § 961.43 and substitute the following:

§ 961.43 *Class I milk disposed of in the New York marketing area.* The price to be paid by handlers for Class I milk disposed of in the New York metropolitan milk marketing area shall be the Class I–A price computed pursuant to the New York order less such payment as is required on such milk pursuant to the New York order.

9. Add a new § 961.61 to read as follows:

§ 961.61 *Plants subject to other Federal orders.* A plant specified in paragraphs (a), (b) or (c) of this section shall be exempted from regulation under this order except that the operator thereof shall, with respect to total receipts and utilization at such plant, make reports to the market administrator at such time and in such manner as the market administrator may require (in lieu of the reports required pursuant to §§ 961.50 through 961.54) and allow verification of such reports by the market administrator.

(a) Any distributing or supply plant which disposes of Class I milk in the marketing area but which is a fully regulated plant under the New York Federal order.

(b) Any other distributing plant which would be subject to the classification and pricing provisions of another order issued pursuant to the act (except the Wilmington, Delaware, marketing order), unless a greater volume of Class I milk is disposed of from such plant to retail or wholesale outlets (except producer milk plants) in the Philadelphia marketing area than in the marketing area regulated pursuant to such other order.

(c) Any other supply plant which would be subject to the classification and pricing provisions of another order issued pursuant to the act (except the Wilmington, Delaware, marketing order) unless such plant disposes of a greater volume of Class I milk to producer milk plants under the Philadelphia order than to plants distributing in the marketing area regulated pursuant to such other order.

10. In § 961.70 (a) change the reference "§ 961.35" to read "§ 961.34".

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 25th day of May 1956, to be effective on and after June 1, 1956.

[SEAL] EARL L. BUTZ,
*Assistant Secretary.*

[F. R. Doc. 56–4254; Filed, May 29, 1956; 8:53 a. m.]

## TITLE 21—FOOD AND DRUGS

### Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

PART 130—DRUGS EXEMPTED FROM PRESCRIPTION - DISPENSING REQUIREMENTS OF SECTION 505 (b) (1) (C) OF THE FEDERAL FOOD, DRUG, AND COSMETIC ACT

EXEMPTION OF CERTAIN DOXYLAMINE SUCCINATE PREPARATIONS FROM PRESCRIPTION-DISPENSING REQUIREMENTS

There was published in the FEDERAL REGISTER of April 5, 1956 (21 F. R. 2197), a notice and text of a proposed amendment to § 130.1 *Exemption for certain drugs limited by new-drug applications to prescription sale.* The notice proposed the exemption of two such drugs. One is sulfur dioxide preparations meeting certain conditions, which is the subject of an exemption order published in the FEDERAL REGISTER of May 17, 1956 (21 F. R. 3247), to be effective 30 days after publication, and appears as § 130.1 (a) (13).

Due consideration having been given to the comments filed with respect to the proposed exemption of the other drug (doxylamine succinate preparations) from prescription-dispensing requirements, the amendment set out below is hereby ordered, effective 30 days from the date of publication of this order in the FEDERAL REGISTER.

Section 130.1 (a) is amended by adding the following new subparagraph:

(14) Doxylamine succinate preparations meeting all the following conditions:

(i) The doxylamine succinate is prepared, with or without other drugs, in tablet or other dosage form suitable for oral use in self-medication, and containing no drug limited to prescription sale under the provisions of section 503 (b) (1) of the act.

(ii) The doxylamine succinate and all other components of the preparation meet their professed standards of identity, strength, quality, and purity.

(iii) If the preparation is a new drug, an application pursuant to section 505 (b) of the act is effective for it.

(iv) The preparation contains not more than 7.5 milligrams of doxylamine succinate per dosage unit, or if it is in liquid form not more than 1.5 milligrams of doxylamine succinate per milliliter.

(v) The preparation is labeled with adequate directions for use in the temporary relief of the symptoms of the minor conditions in which it is indicated.

(vi) The dosages recommended or suggested in the labeling do not exceed: For adults, 7.5 milligrams of doxylamine succinate per dose or 45 milligrams of doxylamine succinate per 24-hour period; for children 6 to 12 years of age, one-half of the maximum adult dose or dosage.

(vii) The labeling bears in juxtaposition with the dosage recommendations:

(*a*) Clear warning statements against administration of the drug to children under 6 years of age, except as directed by a physician, and against driving a car or operating machinery while using the drug, since it may cause drowsiness.

(*b*) If the article is offered for temporary relief of the symptoms of colds, a statement that continued administration for such use should not exceed 3 days, except as directed by a physician.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interprets or applies secs. 503, 505, 52 Stat. 1052, 65 Stat. 649; 21 U. S. C. 353, 355)

Dated: May 24, 1956.

[SEAL] GEO. P. LARRICK,
*Commissioner of Food and Drugs.*

[F. R. Doc. 56–4222; Filed, May 29, 1956; 8:47 a. m.]

## TITLE 24—HOUSING AND HOUSING CREDIT

### Chapter II—Federal Housing Administration, Housing and Home Finance Agency

**Subchapter 3—Mutual Mortgage Insurance and Servicemen's Mortgage Insurance**

PART 222—MUTUAL MORTGAGE INSURANCE; RIGHTS AND OBLIGATIONS OF MORTGAGEE UNDER THE INSURANCE CONTRACT

TERMINATION OF CONTRACT OF INSURANCE BY ASSIGNMENT

In § 222.16, subparagraphs (2) and (4) of paragraph (b) are amended to read as follows:

§ 222.16 *Termination of contract of insurance by assignment.* • • •

(b) • • •

(2) Any mortgage so long as it is held in a common trust estate administered by a bank or trust company which is subject to the inspection and supervision of a governmental agency, exclusively for the benefit of other banking institutions which are subject to the inspection and supervision of a governmental agency, and which are authorized by law to acquire beneficial interests in such common trust estate, nor to any mortgage or group of mortgages transferred to such a bank or trust company as trustee exclusively for the benefit of outstanding owners of undivided interests in the trust estate, under the terms of certificates issued and sold more than three years prior to said transfer, by a corporation which is subject to the inspection and supervision of a governmental agency;

• • • • •

(4) Any participation in a mortgage by two approved mortgagees under an agreement which provides that one of the parficipants shall be the mortgagee of record under the contract of mortgage insurance and that the Federal Housing Commissioner shall be under no obligation to recognize or deal with the other participant with respect to the obligations of the mortgagee under the contract of insurance or the rights of the mortgagee to obtain the benefits of the contract of insurance.

(Sec. 211, 52 Stat. 23; 12 U. S. C. 1715b)

Issued at Washington, D. C., May 24, 1956.

NORMAN P. MASON,
*Federal Housing Commissioner.*

[F. R. Doc. 56–4228; Filed, May 29, 1956; 8:48 a. m.]

## TITLE 14—CIVIL AVIATION

### Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 166]

PART 608—RESTRICTED AREAS

ALTERATIONS

The restricted area alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy and the Air Force, through the Air Coordinating Committee, Airspace Panel, and are adopted to become effective when indicated in order to promote safety of the flying public. Since a military function of the United States is involved, compliance with the notice, procedure, and effective date, provisions of section 4 of the Administrative Procedure Act is not required.

Part 608 is amended as follows:

1. In § 608.38, the Fort Dix, New Jersey, area (R–25), amended on February 8, 1956, in 21 F. R. 859, is further amended by changing the "Controlling Agency" column to read: "Headquarters, First Army, Governors Island 4, New York."

2. In § 608.57, the Camp Williams, Wisconsin, area (R–468 formerly D–468), published on October 9, 1954, in 19 F. R. 6513, is amended by changing the "Time of Designation" column to read: "Day and Night", and the "Controlling Agency" column to read: "Adjutant General of the State of Wisconsin, Madison 2, Wisconsin".

3. In § 608.41, the Center Hill, North Carolina, area (R–89), amended on May 5, 1956, in 21 F. R. 2977, is rescinded.

4. In § 608.30, the Betsie Point, Michigan, area (R–77 formerly D–77), amended on June 4, 1954, in 19 F. R. 3298, is redesignated as follows:

| Name and location (chart) | Description by geographical coordinates | Designated altitudes | Time of designation | Controlling agency |
|---|---|---|---|---|
| Betsie Point, Mich. (R–77) (Green Bay). | Beginning at latitude 44°43′15″ N., longitude 86°27′40″ W.; ESE. to latitude 44°41′30″ N., longitude 86°16′04″ W.; SSW. to latitude 44°20′12″ N., longitude 86°22′30″ W.; WNW. to latitude 44°21′45″ N., longitude 86°34′12″ W.; NNE. to latitude 44°43′15″ N., longitude 86°27′40″ W., point of beginning. | Surface to 30,000 feet mean sea level. | Days | Adjutant General, State of Michigan. |

5. In § 608.57, the Sheboygan, Wisconsin, area (R–83), amended on March 24, 1956, in 21 F. R. 1819, is redesignated as follows:

| Name and location (chart) | Description by geographical coordinates | Designated altitudes | Time of designation | Controlling agency |
|---|---|---|---|---|
| Sheboygan, Wis. (R–83) (Milwaukee). | From latitude 43°44′30″, longitude 87°36′00″; thence to latitude 43°35′00″, longitude 87°00′00″; thence to latitude 43°14′15″, longitude 87°12′30″; thence to latitude 43°23′00″, longitude 87°43′00″, thence to latitude 43°33′00″, longitude 87°41′30″; thence to point of beginning. | Surface to 40,000 feet mean sea level. | Daylight | 10th Air Force, Fort Selfridge Air Force Base, Mich. |

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply Sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective on June 23, 1956.

[SEAL] JAMES T. PYLE,
*Acting Administrator of Civil Aeronautics.*

[F. R. Doc. 56–4215; Filed, May 29, 1956; 8:45 a. m.]

[Amdt. 197]

## PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

### PROCEDURE ALTERATIONS

The standard instrument approach procedure alterations appearing hereinafter are adopted to become effective when indicated in order to promote safety. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 609 is amended as follows:

NOTE: Where the general classification (LFR, VAR, ADF, ILS, GCA, or VOR), location, and procedure number (if any) of any procedure in the amendments which follow, are identical with an existing procedure, that procedure is to be substituted for the existing one, as of the effective date given, to the extent that it differs from the existing procedure; where a procedure is canceled, the existing procedure is revoked; new procedures are to be placed in appropriate alphabetical sequence within the section amended.

1. The low frequency range procedures prescribed in § 609.6 are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.

If an LFR instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of Civil Aeronautics. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below.

| City and State; airport name, elevation; facility: class and identification; procedure No.; effective date | Initial approach to facility from— | Course and distance | Minimum altitude (ft.) | Procedure turn (—) side of final approach course (outbound and inbound); altitudes; limiting distances | Minimum altitude over facility on final approach course (ft.) | Course and distance, facility to airport | Ceiling and visibility minimums | | | | If visual contact not established at authorized minimums after passing facility within distance specified or if landing not accomplished |
|---|---|---|---|---|---|---|---|---|---|---|---|
| | | | | | | | Condition | 2 engines or less | | More than 2 engines; more than 65 knots | |
| | | | | | | | | 65 knots or less | More than 65 knots | | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 |

**2. The very high frequency omnirange (VOR) procedures prescribed in § 609.9 are amended to read in part:**

VOR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses, and radials are magnetic. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.

If a VOR instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of Civil Aeronautics. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below.

| City and State; airport name, elevation; facility: class and identification; procedure No.; effective date | Initial approach to facility from— | Course and distance | Minimum altitude (ft.) | Procedure turn (—) side of final approach course (outbound and inbound); altitudes; limiting distances | Minimum altitude over facility on final approach course (ft.) | Course and distance, facility to airport | Ceiling and visibility minimums: Condition | 2 engines or less: 65 knots or less | 2 engines or less: More than 65 knots | More than 2 engines; more than 65 knots | If visual contact not established at authorized minimums after passing facility within distance specified or if landing not accomplished |

**3. The instrument landing system procedures prescribed in § 609.11 are amended to read in part:**

ILS STANDARD APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.

If an ILS instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of Civil Aeronautics. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below:

| City and State; airport name, elevation; facility class and identification; procedure No.; effective date | Transition to ILS: From— | Transition to ILS: To— | Transition to ILS: Course and distance | Transition to ILS: Minimum altitudes (ft.) | Procedure turn (—) side of final approach course (outbound and inbound); altitudes; limiting distances | Minimum altitude at glide slope intercept. inbound (ft.) | Altitude of glide slope and distance to approach end of runway at—: Outer marker | Altitude of glide slope and distance to approach end of runway at—: Middle marker | Ceiling and visibility minimums: Condition | 2 engines or less: 65 knots or less | 2 engines or less: More than 65 knots | More than 2 engines (more than 65 knots) | If visual contact not established upon descent to authorized landing minimums or if landing not accomplished— |

4. The ground controlled approach procedures prescribed in § 609.13 are amended to read in part:

GCA STANDARD INSTRUMENT APPROACH PROCEDURES

Bearings, headings, and courses are magnetic. NOTE: Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.

If a GCA instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument procedure, unless an approach is authorized by the Administrator of Civil Aeronautics and a different procedure is prescribed for such airport in his operations specifications. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below. No deviation from prescribed procedure shall be made without prior authorization from the radar controller. From initial contact with GCA to final authorized landing minimums, the instructions of the radar controller are mandatory except when (A) visual contact is established on final approach at or before descent to the authorized landing minimums, or (B) at pilot's discretion if it appears desirable to discontinue the approach, except when the radar controller may direct otherwise prior to final approach, a missed approach shall be executed as provided below when (A) communication on final approach is lost for more than 5 seconds during an ASR approach; (B) directed by radar controller; (C) visual contact is not established upon descent to authorized landing minimums; or (D) if landing is not accomplished.

| Ceiling and visibility minimums | | | | | | | | | | | |

## TITLE 29—LABOR

### Chapter V—Wage and Hour Division, Department of Labor

PART 511—WAGE ORDER PROCEDURE FOR PUERTO RICO AND THE VIRGIN ISLANDS

MISCELLANEOUS AMENDMENTS

Pursuant to section 5 (c) of the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended, 29 U. S. C. 201 et seq.), regulations, Title 29, Part 511, which were originally issued on September 22, 1938 (3 F. R. 2744), were amended on November 4, 1955 (20 F. R. 8285) to reflect the changed wage order procedures required under the Fair Labor Standards Amendments of 1955 (69 Stat. 711). Since that amendment, twelve industry committees have conducted their proceedings pursuant to the amended regulations. The purpose of the present amendment is to effect such further changes in the regulations as experience under the changed procedures indicates to be necessary in order to accomplish the objectives stated in sections 5, 8, and 8 of the act.

Now, therefore, pursuant to authority vested in me by the Fair Labor Standards Act of 1938, as amended (52 Stat. 1060, 29 U. S. C. 201 et seq.), and General Order of the Secretary of Labor No. 45–A (15 F. R. 3290), Part 511 (29 CFR Part 511) is hereby amended as follows:

1. Sections 511.8 and 511.9 are hereby revoked and a new section designated as § 511.8 is issued to read as follows:

§ 511.8 *Prehearing statements.* (a) Every employer, employee, trade association, trade union, or group of employers, employees, associations or unions in the industry as defined, or in such industry elsewhere in the United States, and every other person who, in the judgment of the committee has an interest sufficient to justify the participation he proposes, shall be considered an interested person. No member of the committee may participate as a party or as a witness. Any other interested person who wishes to participate on his own behalf shall file a written prehearing statement not later than 10 days before the first hearing date set for any committee in the notice of hearing. An original and eleven copies of the prehearing statement shall be filed at the office of the Territorial Director of the Wage and Hour Division, United States Department of Labor, New York Department Store Building, Fortaleza and San Jose Streets, San Juan, Puerto Rico. One copy of the prehearing statement shall be filed at the office of the Administrator of the Wage and Hour Division, United States Department of Labor, Washington 25, D. C. If such statements are sent by airmail between Puerto Rico or the Virgin Islands and the mainland, such filing shall be deemed timely if postmarked within the time provided. The prehearing statement shall describe the person's interest and specify whether he proposes to participate as a party or only as a witness. No such statement shall be required of a witness named in and appearing solely for the purpose of presenting testimony summarized in a party's prehearing statement under paragraph (c) of this section.

(b) The prehearing statement of each person who proposes to participate as a witness shall contain (1) the written data he proposes to introduce in evidence, including all tangible objective data to be submitted pursuant to § 511.13, (2) the prepared statement he proposes to give, if any, and (3) a statement of the approximate length of time his direct testimony should take. The filing of a prehearing statement in accordance with the above requirements shall give the right to testify, but shall not give the rights provided in this section and in §§ 511.12, 511.13, 511.14 and 511.15 for parties.

(c) The prehearing statement of each person who proposes to participate as a party shall contain (1) a statement of the classifications and wage rates, if any, which he proposes to support, (2) the written data he proposes to introduce in evidence, including all tangible objective data to be submitted pursuant to § 511.13, (3) the names and addresses of the witnesses he proposes to call, and a summary of the evidence proposed to be developed, (4) a statement of the approximate length of time his case will take, and (5) the name and address of the individual who will present his case. If the prehearing statement is in conformity with the above requirements, the person shall have the right to participate as a party. In accordance with section 6 (c) of the Administrative Procedure Act, industry committees shall, after considering the advice of committee counsel, issue subpoenas authorized by section 9 of the Fair Labor Standards Act of 1938, to parties who make a request therefor accompanied by a clear showing of general relevance and reasonable scope of the evidence sought.

(d) Prehearing statements of parties and witnesses shall be made available for examination at the offices of the Wage and Hour Division, in San Juan, Puerto Rico, and Washington, D. C. Each person who files a prehearing statement should, if requested, make himself available for conference with the committee staff to make any needed clarification of his prehearing statement, and arrange details of presenting his testimony or case.

(e) In exceptional circumstances a person who has not filed the prehearing statement required by this section and who does not appear on a witness list filed by a party may nevertheless, be permitted, in the discretion of the committee, to testify as a witness.

2. Sections 511.10 and 511.11 are hereby redesignated as § 511.9 and § 511.10, respectively.

3. A new section, designated as § 511.11, is hereby issued to read as follows:

§ 511.11 *Pertinent data.* Among the types of data which may be considered pertinent to the subjects and issues delineated in § 511.10, are those revealing (a) employment and labor conditions and trends in Puerto Rico or the Virgin Islands, as the case may be, and on the mainland, particularly since the promulgation of the presently applicable wage order, including such items as present and past employment, present wage rates and fringe benefits, changes in average hourly earnings or wage structure, provisions of collective bargaining agreements, hours of work, labor turnover, absenteeism, productivity, learning periods, rejection rates, and similar factors, (b) market conditions and trends in Puero Rico or the Virgin Islands, as the case may be, and on the mainland, including changes in the volume and value of production, market outlets, price changes, style factors, consumer demand, competitive relationships, tariff rates, and similar marketing factors (c) comparative production costs in Puerto Rico or the Virgin Islands, as the case may be, on the mainland, and in foreign countries, together with the factors responsible for differences (d) financial conditions and trends since promulgation of the present wage order as reflected in profit and loss statements and balance sheets, and (e) data bearing on proper definitions of classifications within an industry.

4. Section 511.13 is hereby amended to read as follows:

§ 511.13 *Evidence.* In accordance with the notice of hearing, the committee and any authorized subcommittee will take official notice of the facts stated in the economic report to the extent they are not refuted by evidence received at the hearing. Other pertinent evidence available to the Department of Labor may be presented at the hearing. The committee itself may call witnesses not otherwise scheduled to testify. Oral or documentary evidence may be received, but the committee shall exclude irrelevant, immaterial, and unduly repetitious evidence. Every interested person who has met the requirements for participation as a party shall have the right to present his case by oral or documentary evidence, to submit rebuttal evidence, and to conduct such cross examination of witnesses called by others as may be required for a full and true disclosure of the facts. Testimony on behalf of an employer or group of employers as to inability to absorb wage increases shall be received in evidence only if supported by tangible objective data, such as the pertinent profit and loss statements and balance sheets for a representative period of years, filed as part of the prehearing statement under § 511.8. Evidence of witnesses not present at the hearing may be submitted only by affidavits received with, or as a part of, a prehearing statement which meets the requirements of § 511.8 and satisfactorily explains why each affiant cannot be present. Such affidavits will be received in evidence to the same extent that testimony from affiants would have been admitted had they been present. The committee will give such weight to these statements as it considers appropriate, and the fact that such affiants have not been subject to cross examination may be considered, along with other relevant facts, in assessing the weight to be given such evidence.

5. Section 511.14 (b) is hereby amended to read as follows:

(b) Unless otherwise directed by the committee, witnesses shall be called in the following order: The committee economist qualified to testify concerning the content and preparation of the economic report, other witnesses called by the Department of Labor, witnesses called by the parties, other witnesses. Unless otherwise directed by the committee, all witnesses other than those called by the parties shall be examined in the following order: By committee counsel, by committee economist, by committee members, by the parties or their representatives. Witnesses called by the parties shall be examined first by the party calling them or by his specified representative, and then in the order herein indicated for all other witnesses. Re-direct examination may be permitted in the discretion of the committee. Rebuttal evidence may be offered in the order and manner in this section provided for other evidence. To the extent not specified in this section, the order for calling and examining witnesses shall be specified by the chairman of the committee or sub-committee.

These amendments shall take effect upon publication in the FEDERAL REGISTER.

(Sec. 5, 52 Stat. 1064, as amended; 29 U. S. C. 205)

Signed at Washington, D. C., this 25th day of May 1956.

NEWELL BROWN,
*Administrator.*

## TITLE 26—INTERNAL REVENUE, 1954

### Chapter I—Internal Revenue Service, Department of the Treasury

Subchapter A—Income Tax

[T. D. 6177]

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

AMENDMENT TO CORRECT CLERICAL ERROR

In order to correct a clerical error in the regulations issued under section 105 of the Internal Revenue Code of 1954, § 1.105–4 (d) (3) (ii) (f) of the Income Tax Regulations is amended by striking the amount of "$140.04" shown as the weekly rate in example (2), and inserting in lieu thereof the amount of "$140.38".

Because this Treasury decision merely corrects a clerical error made in the regulations issued under section 105 of the Internal Revenue Code of 1954, it is found unnecessary to issue this Treasury decision with notice and public procedure thereon under section 4 (a) of the Administrative Procedure Act, approved June 11, 1946, or subject to the effective date limitation of section 4 (c) of that act.

This Treasury decision is issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U. S. C. 7805).

[SEAL] RUSSELL C. HARRINGTON,
*Commissioner of Internal Revenue.*

Approved: May 24, 1956.

DAN THROOP SMITH,
*Special Assistant to the Secretary in Charge of Tax Policy.*

[F. R. Doc. 56–4261; Filed, May 29, 1956; 8:55 a. m.]

# TITLE 32—NATIONAL DEFENSE

## Chapter VII—Department of the Air Force

### Subchapter C—Claims and Accounts

### PART 836—CLAIMS AGAINST THE UNITED STATES

MISCELLANEOUS AMENDMENTS

1. In Part 836, § 836.121 *statutory provisions* is amended by adding the following clause at the end thereof: "*Provided, further,* that with respect to land acquired subsequent to July 27, 1954 but prior to July 15, 1955, reimbursement shall be restricted to those owners and tenants who used such land for residential or agricultural purposes."

(Sec. 401, 66 Stat. 624, sec. 509, 68 Stat. 562, sec. 513, 69 Stat. 352)

2. In Part 836, § 836.131 *statutory provisions* is amended by adding the following clause at the end thereof: "*Provided, further,* that with respect to land acquired subsequent to July 27, 1954 but prior to July 15, 1955, reimbursement shall be restricted to those owners and tenants who used such land for residential or agricultural purposes."

(Sec. 401, 65 Stat. 363, sec. 509, 68 Stat. 562, sec. 513, 69 Stat. 352)

DERIVATION: Approval of Under Secretary of Air Force and Deputy Secretary of Defense.

[SEAL] E. E. TORO,
*Colonel, U. S. Air Force,*
*Air Adjutant General.*

[F. R. Doc. 56-4214; Filed, May 29, 1956; 8:45 a. m.]

# TITLE 33—NAVIGATION AND NAVIGABLE WATERS

## Chapter I—Coast Guard, Department of the Treasury

### Subchapter B—Military Personnel

[CGFR 56-16]

### PART 40—CADETS OF THE COAST GUARD

MISCELLANEOUS AMENDMENTS

By virtue of the authority contained in Title 14, United States Code, sections 92, 182, 633 (sec. 1, 63 Stat. 503, 508, 545), the regulations in Part 40 of the Title 33 CFR are amended to read as follows, and are to be effective on and after the date of publication in the FEDERAL REGISTER:

1. Section 40.4 (a) (1) is amended to read as follows:

(1) The subjects listed below, comprising 6 units, are mandatory and are required for eligibility:

| | |
|---|---|
| Mathematics (1) (algebra to quadratics) | 1 |
| Mathematics (2) (quadratics and beyond) | 1 |
| Mathematics (3) (plane geometry) | 1 |
| English 1, 2, and 3 | 3 |
| Total | 6 |

2. Section 40.4 (a) (2) (i) is amended to read as follows:

(2) (i) Further evidence of adequate preparation, amounting to 9 units of optional subjects is required and may be offered from the following groups:

Mathematics.
Fourth year English.
Social studies (history, civics, problems of democracy, citizenship, American problems, sociology).
Biological science (biology, zoology, botany, physiology).
Physical science (physics, chemistry, general science, geology, astronomy).
Foreign language (not less than 2 units credit will be allowed in any language. This means the student must complete, successfully, a two-year course in an accredited school).

3. Section 40.7 (c) is deleted.

4. Section 40.13 (c) is amended to read as follows:

(c) *Achievement tests.* Each candidate will be tested for knowledge in all the following subjects:

(1) English (grammar, composition, literature, and reading comprehension).

(2) Mathematics (algebra and plane geometry).

5. Section 40.13 (d) is amended to read as follows:

(d) *Aptitude and ability tests.* The examination will include a battery of short tests in the following:

(1) Quantitative-mathematical ability.

(2) Verbal or linguistic ability.

(3) Ability to visualize spatial relations.

(4) Scientific ability.

6. Section 40.13 (i) is amended to read as follows:

(i) *Computation of final mark.* The final marks of each candidate will be computed by averaging the following sub-scores in accordance with the indicated weights.

| | |
|---|---|
| English | 20 |
| Mathematics | 20 |
| Science aptitude | 10 |
| Aptitudes and abilities | 10 |
| Personal inventory and index of background, activity, and preference | 15 |
| General adaptability | 25 |
| Total | 100 |

7. Section 40.14 is amended to read as follows:

§ 40.14 *Schedule of examinations.* The schedule of examination will normally be as follows:

First day: 8 a. m. to 12 noon—Mathematics and science aptitude. 1 p. m. to 4:30 p. m.—English, personal inventory.

Second day: 8 a. m. to 12 noon—Aptitude test, IBAP questionnaire. 1 p. m. to 4:30 p. m.—General adaptability interviews.

8. In § 40.15 delete all problems and answers concerning (Science) Physics and also items 11 through 15 of the key.

(Sec. 1, 63 Stat. 503, 508, 545, as amended; 14 U. S. C. 92, 182, 633)

[SEAL] A. C. RICHMOND,
*Vice Admiral, U. S. Coast Guard,*
*Commandant.*

MAY 10, 1956.

[F. R. Doc. 56-4260; Filed, May 29, 1956; 8:55 a. m.]

# TITLE 39—POSTAL SERVICE

## Chapter I—Post Office Department

### PART 131—PREPARATION, ADDRESSING, AND POSTAGE

POSTAGE; REPLY COUPONS, AMERICO-SPANISH COUNTRIES

The following note is added to § 131.3.

NOTE: The new Convention of the Postal Union of the Americas and Spain, signed at Bogota in 1955, eliminates the provision for an Americo-Spanish reply coupon. PUAS coupons have not been sold in the United States, but are exchanged for stamps (see § 131.3 (e) (2) of 39 CFR Chapter I). Such exchange will be continued until the close of business June 30, 1956. PUAS coupons presented for exchange after the close of business June 30, 1956, shall be returned to patrons with the suggestion that they return them to their correspondents for redemption through the selling post office. Universal Postal Union reply coupons will remain valid for all countries.

(R. S. 161, 396, 398, as amended; 5 U. S. C. 22, 369, 372)

[SEAL] ABE MCGREGOR GOFF,
*The Solicitor.*

[F. R. Doc. 56-4072; Filed, May 28, 1956; 1:41 p. m.]

# TITLE 47—TELECOMMUNICATION

## Chapter I—Federal Communications Commission

[Docket No. 11611; FCC 56-488]

[Rules Amdt. 4-4]

### PART 4—EXPERIMENTAL, AUXILIARY, AND SPECIAL BROADCAST SERVICES

MISCELLANEOUS AMENDMENTS

In the matter of amendment of the Commission's rules and regulations to permit the operation of TV translator stations in conjunction with the primary transmitter. Docket No. 11611.

1. The Commission has before it for consideration its Notice of Proposed Rule Making (FCC 56-44), issued in this proceeding on January 17, 1956, proposing the authorization of television translators.

2. The Commission has been concerned with the important problem of providing television service to small, isolated communities and sparsely settled areas beyond the range of stations now on the air. Many such communities and areas are unable to support their own television station under present requirements, even though channels may be assigned to the community or would be available for assignment. The purpose of this proceeding has been to explore the possibility of low-cost television translator stations as one means of extending the benefits of television to these outlying communities and areas.

3. Translators would employ relatively inexpensive, low-powered equipment designed to receive the signals of existing television stations and convert them for retransmission on one of the upper 14 UHF channels—Channels 70-83. It is possible, by confining translators to this less congested portion of the television band, to relax generally the operating requirements for translators and to obtain maximum flexibility in the assignment of channels since the required number of protective spacings from existing stations is reduced substantially. With this in mind, the proposed rules reduce the translator operating requirements to the barest minimum consistent with dependable service and protection of other services.

4. All interested parties have been afforded the opportunity of submitting comments on the translator proposal. Of the approximately 35 comments filed in the proceeding, only one expresses outright opposition to the authorization of translators.[1] However, a number of the comments, while generally supporting the proposal, suggest that this proceeding be expanded to encompass other means for providing service to isolated communities or advance suggested revisions to particular provisions.[2] Upon our careful consideration of the comments, we have concluded that the public interest would be served by the authorization of television translators; and we are amending our rules to provide for their establishment. We have, however, incorporated into the rules a number of revisions suggested by the comments filed, as indicated in the course of the discussion below.

5. Comments generally supporting translators were submitted by National Broadcasting Company, Inc., Coastal Bend Television Company (KVDO), Corpus Christi, Texas, the Radio Electronics Television Manufacturers Association (RETMA) and Adler Electronics, Inc., New Rochelle, New York. NBC states that translators will provide an economical method of supplying television service to underserved areas without departing from the allocation plan. Coastal Bend submits that translators will afford a means by which UHF stations can serve "white areas" beyond their normal service range. RETMA, while suggesting several amendments to particular provisions, expresses general support for the translator proposal. Adler Electronics expresses support for translators and notes that it has developed 10 watt equipment for translator use. Adler represents that a model of such equipment is available for type testing and presents technical data with respect thereto.[3]

6. WSM, Inc. (WSM-TV), Nashville, Tennessee, C. J. Community Services, Inc., Bridgeport, Washington, Washington State TV Reflector Association, and Congressman Don Magnuson of the State of Washington suggest that on-channel boosters be authorized in addition to translators as part of a broader scheme for serving outlying areas. C. J. Community Services maintains that by its action the Commission has apparently selected UHF translators as the only feasible method for extending television to isolated areas, and argues that this method alone will not suffice and that proven methods, currently in use, such as on-channel boosters, should also be employed. C. J. Community Services submits that the Commission's obligation to provide for more effective use of radio cannot be discharged merely by translators. The Reflector Association contends that the terrain in Washington east of the Cascades makes direct reception of television service virtually impossible and that unauthorized on-channel boosters have provided a practical solution. Doubts are voiced as to the feasibility of UHF translators in the area. It is argued that since the principal service already there is VHF, UHF would not provide satisfactory coverage in rough terrain, and that the initial cost, as well as maintenance and upkeep, would be prohibitive in light of the technical difficulties inherent in operation in this part of the spectrum. The Association maintains, for these reasons, that limiting authorizations to UHF translators would effectively deprive isolated communities of service. In urging authorization of boosters in addition to translators, Congressman Magnuson refers to the technical difficulties attendant upon operation on the higher UHF channels and notes that boosters would not entail conversion of outstanding sets. He submits that the translator proposal is too limited in scope and should constitute only one facet of a comprehensive, flexibile program, which would afford alternative means for bringing service to small communities and would enable each community to select the particular system best suited to its own economic and geographic conditions.

7. In our Notice of Rule Making in this proceeding we pointed out that on-channel boosters represent one method of providing unserved areas with television and that the authorization of such boosters was the subject of a separate rule-making proceeding (Docket No. 11331). In that proceding careful consideration will be given to the feasibility of authorizing boosters, in addition to translators, as a means of providing service to isolated communities, as suggested by the above parties. We are now ready to take final action on translators. The public interest would not be served by withholding this means of bringing service to isolated communities until all problems in the booster proceeding can be resolved. We wish to emphasize, further, that in authorizing translators at this time we are in no way prejudicing any action we may take in the bootser proceeding.

8. WSM, Inc., Western Slope Broadcasting Company, Inc. (KFXJ-TV), Grand Junction, Colorado, Archer S. Taylor, Missoula, Montana, C. J. Community Services, Inc., the Washington State TV Reflector Association and Congressman Magnuson urge that translators should not be restricted to the 14 upper UHF channels. They argue that these frequencies may not be well suited for translators because of "ghosting" reflections. Receivers for reception on these channels, they contend, are marked by lack of sensitivity and stability and by a high noise level. The difficulties encountered in operating on these frequencies and the lack of suitable equipment are referred to; and it is argued that such operation would be very expensive. The parties submit that a VHF transmitter would not require conversion of outstanding sets and at the same time would provide a superior service. They argue that VHF translators would be cheaper than UHF and, therefore, would make it economically possible to provide more multiple services to isolated communities. It is accordingly suggested that all UHF channels and the VHF channels should be made available for translator use.

9. We believe the above proposals that translators be authorized on VHF channels and all UHF channels are unsound. They overlook the fact that only by confining translators to the less congested top 14 UHF channels can we find a sufficient number of channels meeting the required protective spacings, and generally relax operating and licensing requirements to make the authorization of translators possible. Also, VHF translators would require extensive engineering measurements to determine interference with existing stations and the use of such channels would be highly inefficient when considered in terms of the overall frequency allocation requirements. Moreover, we are convinced that Channels 70-83 are completely adequate to meet the needs of the translator service. With respect to the contentions that suitable equipment for operation on Channels 70-83 is lacking, Adler Electronics has represented that equipment is now ready for type testing. We are confident the television industry can furnish low cost equipment to provide satisfactory translator service. While UHF equipment at this stage in its development may be somewhat more expensive than comparable VHF equipment, and UHF translators will necessitate the purchase of UHF receivers or conversion of outstanding sets, these disadvantages are more than offset by the fact that only by confining translators to this band can the operating requirements be sufficiently relaxed to make translator operation economically feasible in small communities.

10. Spencer Kennedy Laboratories, Boston, Massachusetts, and the National Community Television Association urge the Commission to consider the effect that translators would have on established community antenna systems, which have been bringing television service to isolated communities. They submit that these systems provide service to many people and widespread areas at a reasonable fee, and represent a large aggregate investment by local groups and the public. The Association requests the Commission to consider the impact that translators would have on this established and proven method of providing fringe area service; and urges that while community antenna systems should not be protected from competition, the requirements for translators

[1] K-V Electronics, Inc., Ellenville, N. Y., opposes the authorization of translators, contending that their installation and operating costs would be prohibitive. However, no factual data was submitted in support of this contention.

[2] The comments are discussed briefly in the course of the general discussion below.

[3] Several other comments also endorse the proposal in part.

should not be so low that technically and financially unsound translator installations would undermine the ability of community antennas to continue to provide service to the public. Spencer Kennedy urges that because community antenna systems were undertaken in good faith and offer enormous potential to local communities, they should be afforded a breathing space of 3 or 4 years before being subjected to competition from translators. This could be accomplished, it is suggested, by providing that in any community which on March 1, 1956 had a community antenna system, a translator would not be authorized prior to March 1, 1960.

11. We recognize that during these formative years in the development of the television service, community antennas, although not established under Commission authorization, have contributed significantly in providing television reception to isolated areas without service from regular stations. But community antennas do not provide a broadcast service available to the public at large. Their service is limited to subscribers who must pay a fee, and often is not available even at a fee for those members of the community in outlying areas. The Commission, under the Communications Act, is obligated to provide a fair and equitable distribution of television service. We would not be warranted in withholding the authorization of translators, designed to provide television to isolated communities, merely because they would compete with community antennas providing service to some people at a fee. Investments in community antennas were not made on the basis of any assurance that the areas served by them would remain without direct television reception. Such systems have been interim measures, taken without Commission authorization, to provide outlying areas with television until direct reception could be achieved. The public interest would not be served by depriving a community of the privilege of obtaining direct television reception to protect these investments.

12. UMPQUA Radio and Television, Inc., Roseburg, Oregon, supports the translator proposal but suggests that, in addition, the top 14 UHF channels be made available for a "limited or modified common carrier relay system" to provide means for relaying programs from large metropolitan areas to small communities, many miles distant. Archer S. Taylor, Missoula, Montana, proposes similarly, that translators be authorized to relay signals from a reception point on a mountain to cable distribution systems in small towns as a means of eliminating expensive microwave relays and cable runs. He also suggests that translators could be used to extend service by means of scrambled subscription transmissions to fringe areas not connected to the cable systems.

13. Jerrold Electronics Corporation, Philadelphia, Pa., also proposes a combined use of translators and community antennas. Jerrold submits that there are many areas where the cost of establishing community antennas may be prohibitive and that translators would not solve the problem in such areas because of insufficient financial support. Jerrold contends that since anyone could receive the transmissions of a translator without cost merely by procuring a receiver, there is no well established method for supporting them. Jerrold proposes a combination translator and community antenna system, with the translator used to provide the link between the receiving antenna site and the cable distribution terminal of the community antenna system. Translators would be employed to beam the signals from the point at which originating signals can be received to the center of the community, where they would be distributed by means of a conventional community antenna system. Jerrold submits that under its plan, the translator would provide an economic means of bringing television signals to the centers of population and thus of providing a means of financial support.

14. The Commission's proposal contemplates that translators will operate on the top 14 UHF channels, which have been allocated for broadcasting. Translators will function as broadcast stations, with their transmissions intended for reception by the general public. We do not believe that we would be warranted in authorizing translators, operating on broadcast frequencies, to function as a part of a point-to-point communication service in conjunction with community antennas. The proposals for combined use of translators and community antenna systems involve difficult questions of basic policy, some of which are before the Commission in other proceedings. The public interest would not be served by delaying the establishment of translators until these questions can be resolved, and the proposals for combined use of translators and community antennas are being rejected at this time.[4]

15. On February 14, 1956, Lenkurt Electric Company, San Carlos, California, filed a petition for amendment of Part 18 of the rules or, alternatively, for reallocation of the 890–940 Mc band to the common carrier fixed service. On April 24, 1956, an engineering study was submitted in connection with this petition.[5] Two of four alternative proposals advanced therein would require reallocating several of the upper UHF television channels to industrial, scientific and medical use. We are of the view, however, that the proposed translator operation should not be altered merely on the strength of Lenkurt's alternative proposals. The urgent need for television service in isolated communities requires prompt action, and the public interest would not be served by delaying final action on translators until final disposition of the Lenkurt petition. However, our action herein in authorizing the operation of translators on Channels 70–83 is without prejudice to any action on the Lenkurt request that we may find the public interest requires.

16. Several parties urge that translators should be limited to those areas without local television service, and that translators should be required to cease operation in any area after a local station goes on the air. Cascade Broadcasting Company, permittee directly or through subsidiary companies of several television stations in the Pacific Northwest, maintains that the operation of stations in small communities is marginal at best, so that competition from a translator could very easily force such stations out of existence. Archer S. Taylor submits that translators should be prevented from competing with regular television stations and threatening their existence. He voices a fear that an existing station, under the rules as proposed, could use a translator to extend its service for the purpose of competing with other stations, far beyond its normal service area. Columbia Broadcasting System, Inc., submits that translators should be authorized expressly for the purpose of serving "shadow areas" within the normal service area of existing stations, as well as to communities outside such normal service area. To prevent the use of translators for the purpose of extending the normal service area of stations in order to encroach upon areas already receiving multiple signals, CBS suggests that applicants should be required to demonstrate a need for the type of service contemplated.

17. The foregoing comments are concerned with the possibility that translators may be employed to compete with regularly established stations and suggest various rules for avoiding or limiting such use. Translators are intended primarily to provide a means whereby television can be brought to areas without service. Translators could also be employed to bring multiple services to communities too small to support several stations on a regular basis. We recognize that the use of translators in competition with regular stations raises a number of serious questions. Nevertheless, we do not agree that a universal, hard and fast rule governing such situations should be adopted at this time. We believe, rather, that such questions can be more appropriately considered as they arise.

[4] To the extent that it can be accomplished under the rules as adopted herein, a community may use a master antenna to which individual television receivers are connected by cable in lieu of individual receiving antennas for reception of the signals of a television translator station. It is expected that arrangements of this sort may be used to serve small "shadowed" areas in individual communities where a line-of-sight transmission path from a suitable translator site to all parts of the community cannot be found. However, such stations may not be operated so as to deliberately preclude direct reception in areas where such direct reception is feasible.

[5] This study was accompanied by a petition for acceptance of late comments in the present proceeding. It is urged in support of this petition that the preliminary studies leading to formulation of the engineering study had not been completed at the time comments were due in the present proceeding, and because the effect of the study on this proceeding could not then be ascertained, it was not possible to file timely comments. Since it appears that the late filing was not due to lack of diligence, and will not adversely affect expeditious disposition of this matter, the petition for late filing is granted.

18. Several comments raise the question of the economic feasibility of translators. Spencer Kennedy maintains that since translators would not originate local programs, they will lack an adequate financial base. Archer S. Taylor and the National Community Television Association submit that dependence on voluntary contributions from the public represents an unsatisfactory means for financing. Spencer Kennedy states that inasmuch as the local community will be dependent upon continued translator operation, applicants should be required to obtain a permit from the community and should be required to deposit in escrow sufficient funds to ensure continued operation for at least 5 years. Archer S. Taylor suggests that translators be authorized to operate on a subscription basis, or be permitted to present local commercials on slides. The Association maintains that translators will cost in excess of $1,000, and urges that applicants should be required to demonstrate that they have made adequate surveys to determine what equipment will be required for satisfactory service and that they have adequate financial resources to construct and operate the stations.

19. We recognize that translators must be adequately financed to ensure their construction and operation during the term of authorization. Nevertheless, we are of the view that the proposed requirements for an appropriate financial showing are adequate for the purpose and that translators can be adequately financed under the proposal. We see no necessity for or desirability in adopting any of the more stringent proposals advanced in the foregoing comments. With respect to the suggestions relating to subscription operation, this general matter is the subject of a separate proceeding (Docket No. 11279). With respect to the suggestions that translators be authorized to introduce local slide commercials, we believe that in this initial stage in their development, translators should be limited to the rebroadcasting of other stations.

20. Western Slope submits that fully automatic and unattended operation should be permitted so long as the manufacturer is required to include protective devices which will prevent radiation when no signal is available or when there is a deviation from the authorized operation or frequency. We believe, however, that in this initial stage, translators should be attended by a qualified operator to insure satisfactory performance. Moreover, translators are engaged in broadcasting and Section 318 of the Communications Act requires that a qualified operator be in attendance of a broadcast operation. But it should be noted, in connection with this general problem, that remote control operation of translators is permitted and, as indicated below, other requirements are being relaxed. The control point, under the rules, need not be manned continuously where suitable automatic devices are provided to deenergize the transmitter. We believe that the rules we are adopting represent the maximum relaxation of supervisory requirements consistent with dependable service and protection of other services.

21. Sylvania Electric Products, Inc., suggests that the proposed rules be modified to permit demodulation and remodulation techniques to be employed in the operation of translators. We have carefully considered this suggestion but are of the view that such techniques would unduly increase the complexity of the transmitting apparatus and would thus necessitate more supervision during operation. The direct frequency conversion method of operation is geared to meet the objective of the present rules: to provide simple, inexpensive apparatus capable of operating with minimum technical supervision and least likely to affect adversely the operation of other stations.

22. The rules as proposed require applicants to list all other translators within a 50-mile radius. RETMA suggests that this requirement be relaxed to specify other translators within 15 miles of the proposed station, urging that this represents a more realistic figure with relation to possible interference. We believe this suggestion has merit and it is being adopted by deleting the provision from the rules and incorporating a requirement for data within 15 miles in the application form.

23. Sylvania suggests that § 4.702 (c) as proposed be clarified to indicate that "channel assignments" as used thercin means the channel assignments whether or not in use. This entire provision has been revised in order to clarify its meaning.

24. Several parties advance suggestions for an increase in the maximum power output of translators above the 10 watts proposed. The Washington State TV Reflector Association recommends 31.6 watts; the Citizens of Flathead Valley, Montana, suggest 60 watts; and WSM proposes 100 watts. Upon carefully considering the foregoing suggestions, we have concluded that the 10 watt maximum power requirement should be retained until data based on actual experience with translators operating under a variety of conditions is obtained. Such data will demonstrate whether the maximum power now authorized is adequate, or whether more power is necessary or desirable. The experience obtained in this initial stage will also assist us in evaluating the possible effects that increased power might have on other translators and other services. In retaining the 10 watt maximum, we point out that no limit is placed on the maximum effective radiated power which may be achieved by translators through the use of horizontally or vertically directive transmitting antennas. The use of such antennas will make it possible to concentrate the signals in areas intended to be served.

25. RETMA and Sylvania suggest that the proposed rules should be modified to specify that spurious emissions including radio frequency harmonics should be attenuated no less than 60 db below the visual power of the translator. They maintain that the standards as proposed would tend to increase the cost of the operation, thereby defeating the purpose of translators. We believe this proposal has merit and the rules are being revised accordingly.

26. Sylvania submits that the proposed frequency tolerance of plus or minus 10 kc, or plus or minus 1 kc, if offset, is unduly restrictive since at the highest translator frequency a 10 kc tolerance would require the frequency to be held to 0.0011 percent; and Sylvania suggests that the tolerance requirement be relaxed to plus or minus 0.01 percent. Sylvania urges that there is no commercial equipment available at reasonable prices for achieving such a tolerance as that proposed. Sylvania also submits that offset carrier operation is unnecessary since in light of the low power employed, there should be little inter-translator interference. Upon our study of the foregoing comments, we have concluded that the frequency tolerance proposed may be unnecessarily rigorous, and we are reducing the required tolerance to 0.01 percent as urged. We are also deleting all provisions relating to offset carrier operation. Individual licensees, however, may, by mutual agreement, employ offset carrier techniques to meet unusual interference problems within the broader tolerance adopted.

27. WSM submits that § 4.763 (a) should be revised so that each applicant for a translator would be required to show that he has permission to rebroadcast programs sufficient to meet the minimum operating requirements of § 3.651 of the Commission's rules governing regular television stations. We believe that this suggestion might unduly restrict the development of translators in this developmental stage and it is not being adopted.

28. Western Slope suggests that responsibility for identifying the call letters, frequency and location of translators should be placed with the originating station, and that such identification should be required only at the start and end of the originating station's broadcast day. Western Slope contends that the proposed use of Morse Code for station identification would interrupt program service and annoy viewers and that, because of the limited range of translators, would be of little value for monitoring purposes. We see no need for altering the proposed requirements for station identification. We find little likelihood that these requirements will result in any undue hardship to the translator operator or annoyance to viewers since the identification breaks of the translators will generally coincide with those of the originating station. Furthermore, we do not believe that identification of translators by the originating stations would be practical, and such a procedure would hamper monitoring operations.

29. Section 4.731 (b), as proposed, provides that a change in the identity of the station being rebroadcast should, to the extent practicable, be accomplished at such times that interruption or incomplete retransmission of individual programs will not result. Mosby's Inc. (KGVO–TV), Missoula, Montana, suggests that this requirement be deleted as unnecessary, urging that the provision attempts to compel an operator by rule to employ his best judgment in the operation of a station. This provision has been clarified and the language objected to by Mosby's, Inc., has been deleted.

30. Sylvania suggests that § 4.734 (a) should be modified to include the same restrictive provisions as contained in § 4.766 (a) with regard to the grade of commercial operator license required in order to make the two provisions consistent. We believe this suggestion has merit, and the rules are being revised to make it clear that holders of a temporary limited radio telegraph second class license or an aircraft radiotelephone authorization cannot be in charge at the translator control point.

31. Section 4.734 (d) of the proposed rules would require that observations of the signals transmitted by a translator be made at least once each hour. Sylvania, Western Slope and Archie S. Taylor maintain that this requirement would be unduly burdensome and is unnecessary inasmuch as all apparatus will be type tested and presumably capable of stable operation. They point out that since translators may operate from 12 to 16 hours per day, the proposed requirement would entail employment of at least 2 qualified operators, and would thus conflict with the intended objective of providing low cost operation. These parties maintain that because of the low power employed and the automatic devices geared to take the station off the air upon improper operation, there is little likelihood of any harm to other services. We believe the foregoing comments have merit, and we are relaxing our requirements to provide for observations once every 6 hours.

32. Western Slope asserts that the requirement of monitoring by a commercial grade operator will impose hardship in instances where such operators are not available in the community, and submits that where the originating station assumes responsibility for correct operation of the translator, so that the first class operator of the originating station would be available, the hourly monitoring by a commercial grade operator should be waived and any qualified person should be permitted to observe and report to the originating station any deviation from normal service. As noted above, we are relaxing the observation requirements. However, we are of the view that the observations should be made by an operator holding a commercial grade license in order that satisfactory service will be assured.

33. In order to implement our new translator rules, we are adopting FCC Form 346, to be used in making application for a Construction Permit for a Television Broadcast Translator Station. This form and other appropriate forms will be available in the near future.

34. Authority for adoption of the rules herein is contained in sections 4 (i), 301, 303 (a), (b), (c), (d), (e), (f), (g), (j), and (r), and 307 (b) of the Communications Act of 1934, as amended.

35. In view of the foregoing: *It is ordered*, That effective July 2, 1956, the Commission's rules and regulations are amended as set forth below.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interpret or apply secs. 301, 303, 307, 48 Stat. 1081, 1082, as amended, 1083 as amended; 47 U. S. C. 301, 303, 307)

Adopted: May 23, 1956.

Released: May 24, 1956.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
*Secretary.*

Part 4 of the Commission's rules is amended as follows:

1. The title of the part is changed to read as set forth above.

2. Section 4.1 is amended by adding a new paragraph (c) to read as follows:

(c) *Special broadcast.* (1) Television Broadcast translator (Subpart G).

3. Section 4.11 is amended by adding a new paragraph (c) to read as follows:

(c) If application is for a construction permit for a new television broadcast translator station or to make changes in an existing television broadcast translator station, FCC Form 346 shall be filed, in triplicate; if for a station license, FCC Form 347 shall be filed; if for renewal of station license, FCC Form 348 shall be filed.

4. Section 4.18 is amended by adding a new class of station to the list in paragraph (a) as follows:

Television broadcast translator station: June 1.

5. A new Subpart G is added to read as follows:

## SUBPART G—TELEVISION BROADCAST TRANSLATOR STATIONS

DEFINITIONS AND ALLOCATION OF FREQUENCIES

Sec.
4.701 Definitions.
4.702 Frequency assignment.
4.703 Interference.

ADMINISTRATIVE PROCEDURE

4.711 Administrative procedure.

LICENSING POLICIES

4.731 Purpose and permissible service.
4.732 Eligibility and licensing requirements.
4.733 (Reserved.)
4.734 Remote control operation.
4.735 Power limitations.
4.736 Emission and bandwidth.
4.737 Antenna location.

EQUIPMENT

4.750 Equipment and installation.
4.751 Equipment changes.

TECHNICAL OPERATION

4.761 Frequency tolerance.
4.762 Frequency monitors and measurements.
4.763 Time of operation.
4.764 Station inspection.
4.765 Posting of station and operator's licenses.
4.766 Operator requirements.
4.767 Marking and lighting of antenna structures.
4.768 Additional orders.
4.769 Copies of rules.

OPERATION

4.781 Station records.
4.782 (Reserved.)
4.783 Station identification.
4.784 Rebroadcasts.

AUTHORITY: §§ 4.701 to 4.784 issued under sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interpret or apply secs. 301, 303, 307, 48 Stat. 1081, 1082, as amended, 1083, as amended, 47 U. S. C. 301, 303, 307.

### SUBPART G—TELEVISION BROADCAST TRANSLATOR STATIONS

DEFINITIONS AND ALLOCATION OF FREQUENCIES

§ 4.701 *Definitions.* (a) Television broadcast translator station: A station in the broadcasting service operated solely for the purpose of retransmitting the signals of a television broadcast station or another television broadcast translator station, by means of direct frequency conversion and amplification of the incoming signals and without significantly altering any characteristic of the incoming signal other than its frequency and amplitude, for the purpose of providing television reception to the general public.

(b) *Primary station.* The television broadcasting station radiating the signals which are retransmitted by a television broadcast translator station.

§ 4.702 *Frequency assignment.* (a) An application for a television broadcast translator station shall be specific with regard to the channel requested. One of the following channels may be assigned:

| Channel No. | Frequency band | Visual carrier frequency | Aural carrier frequency |
|---|---|---|---|
| | *Mc.* | *Mc.* | *Mc.* |
| 70 | 806–812 | 807.25 | 811.75 |
| 71 | 812–818 | 813.25 | 817.75 |
| 72 | 818–824 | 819.25 | 823.75 |
| 73 | 824–830 | 825.25 | 829.75 |
| 74 | 830–836 | 831.25 | 835.75 |
| 75 | 836–842 | 837.25 | 841.75 |
| 76 | 842–848 | 843.25 | 847.75 |
| 77 | 848–854 | 849.25 | 853.75 |
| 78 | 854–860 | 855.25 | 859.75 |
| 79 | 860–866 | 861.25 | 865.75 |
| 80 | 866–872 | 867.25 | 871.75 |
| 81 | 872–878 | 873.25 | 877.75 |
| 82 | 878–884 | 879.25 | 883.75 |
| 83 | 884–890 | 885.25 | 889.75 |

(b) An applicant for a television broadcast translator station shall endeavor to select a channel on which its operation will not cause interference to other television broadcast translator stations.

(c) A channel listed in paragraph (a) of this section will not be assigned to a television broadcast translator station located:

(1) Within 20 miles of a television broadcast channel assignment on the second, third, fourth, fifth, or eighth channel below or above the requested channel;

(2) Within 55 miles of a television broadcast channel assignment on an adjacent channel;

(3) Within 60 miles of a television broadcast channel assignment on the seventh channel above or below or the fourteenth channel below the requested assignment;

(4) Within 75 miles of a television broadcast channel assignment on the fifteenth channel below the requested assignment;

(5) Within 155 miles of a television broadcast channel assignment on the same channel as that requested for the television broadcast translator station.

The distances specified above in this paragraph are to be determined with respect to channels having the above relationship, between the proposed site of the television broadcast translator station and the Post Office location in any city listed in § 3.606 of this chapter unless the channel shown therein has been assigned to a television broadcast station, in which case the distance shall be determined between the proposed site of the translator and the transmitter site of the television broadcast station. Changes in the Table of Assignments of § 3.606 (c) of this chapter may be made without regard to existing or proposed television broadcast translator stations and where such changes result in minimum separations less than those specified above, the licensee of an affected television broadcast translator station shall file an application for a change in channel assignment to comply with the required separations.

(d) No minimum distance separation is specified between television broadcast translator stations operating on the same channel. However, the separation shall in all cases be adequate to prevent mutual interference. Adjacent channel assignments will not be made to television broadcast translator stations intended to serve all or a part of the same area.

§ 4.703 *Interference.* (a) An application for a new television broadcast translator station or for changes in the facilities of an existing station will not be granted where it is apparent that mutual interference will result within the area or areas intended to be served by such stations. In general, the licensee of a new television broadcast translator station shall protect existing television broadcast translator stations from interference resulting from its operation.

(b) It shall be the responsibility of the licensee of a television broadcast translator station to correct any condition of interference which results from the radiation of radio frequency energy by its equipment on any frequency outside the assigned channel. Upon notice by the Commission to the station licensee or operator that such interference is being caused, the operation of the television broadcast translator station shall be suspended immediately and shall not be resumed until the interference has been eliminated, or it can be demonstrated that the interference is not due to spurious emissions by the television broadcast translator station: *Provided, however*, That short test transmissions may be made during the period of suspended operation to check the efficacy of remedial measures.

(c) In each instance where suspension of operation is required, the licensee shall submit a full report to the Commission after operation is resumed, containing details of the nature of the interference, the source of the interfering signals, and the remedial steps taken to eliminate the interference.

ADMINISTRATIVE PROCEDURE

§ 4.711 *Administrative procedure.* See §§ 4.11 to 4.23 inclusive.

LICENSING POLICIES

§ 4.731 *Purpose and permissible service.* (a) Television broadcast translator stations provide a means whereby the signals of television broadcast stations may be retransmitted to areas in which direct reception of such television broadcast stations is unsatisfactory due to distance or intervening terrain barriers.

(b) A television broadcast translator station may be used only for the purpose of retransmitting to the general public, on one of the channels provided herein, the signals of a television broadcast station, or of another television broadcast translator station operating on a channel other than the one on which the retransmission is made. The retransmitted signals shall not be significantly altered as to content or technical characteristics other than in frequency and amplitude.

(c) A television broadcast translator station may retransmit the signals of different television broadcast stations or different television broadcast translator stations during different periods of its operation in order to provide programs best suited to the needs of a particular community.

(d) Retransmission of the signals of any station shall be made only in accordance with the provisions of § 4.784.

§ 4.732 *Eligibility and licensing requirements.* (a) A license for a television broadcast translator station may be issued to any qualified individual, organized group of individuals, broadcast station licensee, or local civil governmental body upon an appropriate showing that plans for financing the installation and operation of the station are sufficiently sound to insure continuation of the operation for the period of the license.

(b) More than one television broadcast translator station may be licensed to the same applicant whether or not such stations serve substantially the same area, upon an appropriate showing of need for such additional stations.

(c) Only one channel will be assigned to each television broadcast translator station. Additional television broadcast translator stations may be authorized to provide additional reception. A separate application is required for each television broadcast translator station and each application shall be complete in all respects.

§ 4.733 [Reserved.]

§ 4.734 *Remote control operation.* (a) A television broadcast translator station may be operated by remote control, provided that such operation is conducted in accordance with conditions set forth in subparagraphs (1) through (5) of this paragraph.

(1) The control point shall be located on premises under the control and supervision of the licensee or its agent. Facilities shall be provided at the control point to enable the operator to observe the transmissions of the television broadcast translator station at any time, and which will permit the operator to turn the transmitter on and off at will.

(2) An operator holding a commercial radio operator's license of any class issued by the Commission except a Temporary Limited Radio Telegraph Second Class License or an Aircraft Radiotelephone Operator Authorization, shall be in charge of this control point and shall observe the transmissions of the television broadcast translator station at the control point within one hour after the start of any period of operation and during operation at intervals of no more than six hours. The operator in charge shall promptly correct any condition of improper operation observed and if unable or not qualified to do so under the provisions of § 4.750 (d), shall immediately suspend operation until suitable repairs can be made.

(3) A carrier operated device shall be installed at the control point which shall give a continuous visual indication whenever the transmitter is radiating; or, in lieu thereof, a device shall be provided which will give a continuous visual indication when any transmitter control circuits have been placed in a condition to produce radiation.

(4) The control circuits shall be so designed and installed that failure of any part of the circuit which results in loss of control from the remote control point will place the transmitter in an inoperative condition.

(5) The transmitter and its associated controls shall be so installed and protected that they are not accessible to other than duly authorized persons.

(b) In the event that the control point is not continuously manned by a qualified operator, the transmitter shall be equipped with suitable automatic devices which will place it in an inoperative condition when no signal is available for retransmission. In addition to the automatic and manual controls, a television broadcast translator station may be turned on and off by a time switch.

(c) If remote control is proposed at a new television broadcast translator station, the application for construction permit shall be accompanied by a showing as to the manner of compliance with the above conditions. Any proposal to change a television broadcast translator station from direct control to remote control shall be submitted in the form of an application for modification of existing authorization accompanied by the above showing of compliance.

§ 4.735 *Power limitations.* (a) A television broadcast translator station will not be authorized to operate with transmitter power output in excess of the rated power output of the transmitter and in no event shall the rated peak visual power output of the transmitter be in excess of 10 watts. The power output of a television broadcast translator station is considered to be the product of the direct current and voltage applied to the plate circuit of the final radio frequency amplifier multiplied by an efficiency factor supplied by the manufacturer.

(b) No limit is placed upon the effective radiated power which may be obtained by the use of horizontally

or vertically directive transmitting antennas.

§ 4.736 *Emissions and bandwidth.* (a) The license of a television broadcast translator station authorizes the transmission of the visual signal by amplitude modulation. (A5) and the accompanying aural signal by frequency modulation (F3).

(b) Standard width television channels will be assigned and the emissions of a television broadcast translator station shall be confined to the authorized channel in accordance with the Television Technical Standards contained in Part 3, Subpart E of this chapter.

(c) Spurious emissions, including radio frequency harmonics, more than 3 Mc above or below the upper and lower edges, respectively, of the assigned channel shall be attenuated no less than 60 decibels below the visual transmitter power. Greater attenuation will be required if such spurious emissions cause interference to any radio service.

§ 4.737 *Antenna location.* (a) An applicant for a new television broadcast translator station or for a change in the facilities of an existing station shall endeavor to select a site which will provide a line-of-sight transmission path to the entire area intended to be served and at which there is available a suitable signal from the primary station or stations. The transmitting antenna should be placed above growing vegetation and trees lying in the direction of the area intended to be served to minimize the possibility of signal absorption by foliage.

(b) A site within 5 miles of the area intended to be served is to be preferred if the conditions in paragraph (a) of this section can be met.

(c) Consideration should be given to accessibility of the site at all seasons of the year and to the availability of facilities for the maintenance and operation of the television broadcast translator station.

(d) The transmitting antenna should be located as near as is practical to the transmitter to avoid the use of long transmission lines and the associated power losses.

(e) Consideration should be given to the existence of strong radio frequency fields from other transmitters at the translator site and the possibility that such fields may result in the retransmission of signals originating on frequencies other than that of the primary station.

EQUIPMENT

§ 4.750 *Equipment and installation.* (a) An application for construction permit for a new television broadcast translator station or for changes in the facilities of an existing station shall specify equipment which has been type approved by the Commission.

(b) Type approval will be granted only after tests have been made at the Commission's Laboratory, Laurel, Maryland. Manufacturers may submit a production model for type approval and such approval, if granted, will be considered to apply to all identical models manufactured under that type number. No change, either mechanical or electrical, may be made in any type approved apparatus without prior approval of the Commission upon appropriate application therefor. Type approval may be withdrawn at any time if the apparatus fails to meet the requirements under which type approval was granted.

(c) Type approval will be granted only if the apparatus meets the following requirements:

(1) The frequency converter and associated amplifiers shall be so designed that the electrical characteristics of the incoming signal will not be altered significantly upon retransmission except as to frequency and amplitude.

(2) The overall characteristics of the apparatus shall be such that emissions on any discrete frequency more than 3 Mc above or below the upper and lower limits respectively, of the assigned channel shall be attenuated no less than 60 decibels below the visual transmitted power, regardless of whether such emissions are generated within the translator or are produced as the result of an external signal introduced into the input circuits of the translator apparatus.

(3) The local oscillator employed in the frequency converted shall be sufficiently stable that, subject to variations in ambient temperature between —15° and +55° Centigrade and power main voltage variations of 15 percent, its frequency will not vary more than 0.01 percent.

(4) The translator shall be so designed and adjusted that its overall characteristics will remain essentially linear under all conditions of operation. It shall be equipped with suitable automatic circuits to maintain a constant output under conditions where the intensity of the received signal varies 20 decibels. If a manual adjustment is provided to compensate for differing average signal intensities which may be encountered in various locations and installations, provision shall be made for determining the proper setting of the manual adjustment by means of a meter or meter jack to measure direct current of voltage of appropriate circuits in the translator. If improper adjustment of the manual control could result in improper operation of the translator, a label shall be affixed at the adjustment control bearing a suitable warning.

(5) The tube or tubes employed in the final radio frequency amplifier shall be of the proper rating to supply the rated power output. The rated maximum peak visual power output of the translator shall not be greater than 10 watts.

(6) The apparatus shall be equipped with suitable automatic devices which will place it in an inoperative condition in the absence of a visual and aural signal from the primary station. Such automatic devices may be provided with reasonable time constants to prevent momentary failures of the incoming signal from interrupting the operation.

(7) In general, the transmitter shall be mounted on racks and panels or in totally enclosed frames protected as required by Article 810 of the National Electrical Code.

(8) (i) Any manufacturer desiring to submit a translator for type approval shall supply the Commission with full specification details (two sworn copies) as well as the test data specified in this section. If this information appears to meet the requirements of the rules, shipping instructions will be issued to the manufacturer. The shipping charges to and from the Laboratory at Laurel, Maryland, shall be paid for by the manufacturer. Approval of a translator will only be given on the basis of the data obtained from a sample translator submitted to the Commission for test.

(ii) In approving a translator upon the basis of the tests conducted by the Laboratory, the Commission merely recognizes that the type of translator has the inherent capability of functioning in compliance with the rules, if properly constructed, maintained, and operated.

(iii) Additional rules with respect to withdrawal of type approval, modification of type approval equipment, and limitations on the findings upon which type approval is based are set forth in Part 2, Subpart F, of the Commission's rules.

(d) The installation of a television broadcast translator station shall be made only by, or under the direct supervision of, a qualified electronics engineer, and any repairs or adjustments made during or subsequent to the installation, which could result in improper operation, shall be made by or under the direct supervision of an operator holding a valid first or second class radiotelephone operators license issued by the Commission.

(e) The choice of transmitting and receiving antennas is left to the discretion of the applicant. In general, the transmitting antenna should be designed to provide maximum signal over the area intended to be served and to minimize radiation over other areas, particularly those in which interference could be caused to the reception of other stations. The Commission reserves the right to require the use of a suitable directive transmitting antennas in order to permit the assignment of the same channel to two or more television broadcast translator stations located in the same general area. An application for construction permit for a new television broadcast translator station or for changes in the facilities of an existing station, shall supply complete details of the proposed receiving and retransmitting antenna systems, including an accurate plot of the field pattern of the transmitting antenna, if directive.

§ 4.751 *Equipment changes.* (a) No change, either mechanical or electrical, may be made in type approved apparatus except upon instructions of the manufacturer of the equipment, based upon Commission approval for the change granted to the manufacturer in accordance with § 4.750 (b).

(b) Formal application (FCC Form 346) is required for any of the following changes:

(1) Replacement of the transmitter as a whole, except by one of an identical type.

(2) A change in the transmitting antenna system, including the direction of radiation, directive antenna pattern, or transmission line.

(3) An increase in the overall height of the antenna above ground of more than 20 feet or which will result in an overall height above ground of more than 170 feet.

(4) A change of the control point of a remotely controlled television broadcast translator station or any change in the control circuits.

(5) Any change in the location of the transmitter except a move within the same building or upon the same tower or pole, and any horizontal change in the location of the transmitting antenna in excess of 500 feet.

(6) A change of frequency assignment.

(7) A change of authorized operating power.

(8) A change of the primary TV station or stations being retransmitted.

(c) Other equipment changes not specifically referred to above may be made at the discretion of the licensee, provided that the Engineer in Charge of the radio district in which the television broadcast translator station is located and the Commission's Washington, D. C. office, are notified in writing upon completion of such changes, and provided, further, that the changes are appropriately reflected in the next application for renewal of license of the television broadcast translator station.

TECHNICAL OPERATION

§ 4.761 *Frequency tolerance.* The licensee of a television broadcast translator station shall maintain the visual carrier frequency and the aural center frequency at the output of the translator within 0.01 percent of its assigned frequencies when the primary station is operating exactly on its assigned frequencies. This tolerance shall not be exceeded at times when the primary station is not on its assigned frequencies, by more than the amount of the departure by the primary station.

§ 4.762 *Frequency monitors and measurements.* (a) The licensee of a television broadcast translator station is not required to provide means for measuring the operating frequencies of the transmitter. However, only equipment having the required stability will be approved for use at a television broadcast translator station.

(b) In the event that a television broadcast translator station is found to be operating beyond the frequency tolerance prescribed in § 4.761, the licensee shall promptly suspend operation of the translator and shall not resume operation until the translator has been restored to its assigned frequencies. Adjustment of the frequency determining circuits of a television broadcast translator station shall be made only by a qualified person in accordance with § 4.705 (d).

(c) The licensee of a television broadcast translator station may, at its discretion, provide means for comparing the frequency of the translator with an external frequency source of known accuracy as a preventive measure to avoid unnecessary interruptions to service.

§ 4.763 *Time of operation.* (a) A television broadcast translator station is not required to adhere to any regular schedule of operation. However, the licensee of a television translator station is expected to provide a dependable service to the extent that such is within its control and to avoid unwarranted interruptions to the service provided.

(b) If causes beyond the control of the licensee require that a television broadcast translator station remain inoperative for a period in excess of 10 days, the Engineer in Charge of the radio district in which the station is located shall be notified promptly in writing, describing the cause of failure and the steps taken to place the station in operation again, and shall be notified promptly when the operation is resumed.

(c) Failure of a television broadcast translator station to operate for a period of 30 days or more, except for causes beyond the control of the licensee, shall be deemed evidence of discontinuance of operation and the license of the station will be cancelled.

(d) A television broadcast translator station shall not be permitted to radiate during extended periods when signals of the primary station are not being retransmitted.

§ 4.764 *Station inspection.* The licensee of a television broadcast translator station shall make the station and the records required to be kept by the rules in this subpart, available for inspection by representatives of the Commission.

§ 4.765 *Posting of station and operators licenses.* (a) The station license and any other instrument of authorization or individual order concerning the construction of the equipment or manner of operation shall be posted in a conspicuous place in the room in which the transmitter is located so that all terms thereof are visible; *Provided:*

(1) If the transmitter is operated by remote control pursuant to § 4.734, the station license shall be posted in the above described manner at the control point.

(2) If the transmitter is installed so as to be exposed to the elements and posting of the license would result in its being so exposed, the license or a photo copy thereof may be kept in the possession of the operator in charge of the transmitter. If a photo copy is used, the original license shall be conveniently available for inspection by a representative of the Commission.

(b) The original of each station operator license shall be posted at the place where he is on duty: *Provided, however,* That if the original license of a station operator is posted at another radio transmitting station in accordance with the Rules governing that class of station and is there available for inspection by a representative of the Commission, a verification card (Form 758–F) is acceptable in lieu of the posting of such license: *Provided, further, however,* That if the operator in charge holds a restricted radiotelephone operator permit of the card form (as distinguished from the diploma form), he shall not post that permit but shall keep it in his personal possession.

§ 4.766 *Operator requirements.* (a) The actual operation of the transmitting apparatus at a television broadcast translator station shall be carried on only by a person holding a valid commercial radio operator's license or permit of any class issued by the Commission except a Temporary Limited Radiotelegraph Second-Class License or an Aircraft Radiotelephone Operator Authorization who shall provide supervision to no less extent than that required by § 4.734 and who shall be responsible for the proper operation of the apparatus with respect to those functions under his control. This responsibility, however, shall in no way relieve the licensee of its responsibility for the proper operation of the station.

(b) Any repairs or adjustments to a television broadcast translator station which might result in improper operation of the equipment shall be made only by or under the direct supervision of a person holding a valid first or second class radiotelephone operator's license issued by the Commission.

(c) The licensed operator on duty and in charge of a television broadcast translator station may, at the discretion of the licensee, be employed for other duties or for the operation of another station or stations in accordance with the class of license which he holds and the rules and regulations governing such stations. However, such duties shall in nowise interfere with the operation of the television broadcast translator station.

§ 4.767 *Marking and lighting of antenna structures.* The marking and lighting of antenna structures employed at a television broadcast translator station, where required, will be specified in the authorization issued by the Commission. Part 17 of the Commission's rules sets forth the conditions under which such marking and lighting will be required and the responsibility of the licensee with regard thereto.

§ 4.768 *Additional orders.* In case the rules contained in this part do not cover all phases of operation or experimentation with respect to external effects, the Commission may make supplemental or additional orders, in each case as may be deemed necessary.

§ 4.769 *Copies of rules.* The licensee of a television broadcast translator station shall have current copies of Part 3, Part 4, and Part 17 of the Commission's rules available for use by the operator in charge, and is expected to be familiar with those rules relating to the operation of a television broadcast translator station. Copies of the Commission's rules may be obtained from the Superintendent of Documents, Government Printing Office, Washington 25, D. C., at nominal cost.

OPERATION

§ 4.781 *Station records.* (a) The licensee of a television broadcast translator station shall maintain an operating log showing the following:

(1) Hours of operation.

(2) Call letters, channel, and location of primary station or stations.

(3) Time of periodic observation required by § 4.734 (d), and operating conditions, signed by the operator making the observation.

(4) A record of all repairs, adjustments, maintenance, tests, and equipment changes, showing the date of such events, the name and qualifications of the person performing the operation, and a brief description of the matter logged.

(b) Where an antenna structure is required to be illuminated, see § 17.38 of this subchapter.

(c) The operating log shall be made available upon request to any authorized representative of the Commission.

(d) Station records shall be retained for a period of two years.

§ 4.782 [Reserved.]

§ 4.783 *Station identification.* (a) The call sign of a television broadcast translator station shall be transmitted in international Morse Code by means of an automatic keying device, at the beginning and end of each period of operation and during operation, within 5 minutes of the hour and half hour. This transmission may be accomplished either by turning the visual and aural carriers of the translator on and off in the proper sequence or by superimposing an audio frequency tone containing the telegraphic identification, on the visual and aural carriers radiated by the translator. The modulation level of the identifying signal shall not be less than 30 percent of the aural signal.

(b) The Commission may, in its discretion, specify other methods of identification.

(c) Call signs for television broadcast translator stations will be made up of the initial letter K or W followed by the channel number assigned to the translator and two letters. The use of the initial letter will generally follow the pattern used in the broadcast service, i. e., stations west of the Mississippi River will be assigned an initial letter K and those east of the Mississippi River the letter W. The two letter combinations following the channel number will be assigned in order and requests for the assignment of particular combinations of letters will not be considered.

§ 4.784 *Rebroadcasts.* (a) The term "rebroadcast" means the reception by radio of the programs or other signals of a radio or television station and the simultaneous or subsequent retransmission of such programs or signals for direct reception by the general public.

(b) The licensee of a television broadcast translator station shall not rebroadcast the programs of any television broadcast station or other television broadcast translator station without obtaining prior consent of the station whose signals or programs are proposed to be retransmitted. The Commission shall be notified of the call letters of each station rebroadcast and the licensee of the television broadcast translator station shall certify that express authority has been received from the licensee of the station whose programs are retransmitted.

(c) A television broadcast translator station is not authorized to rebroadcast the transmissions of any class of station other than a television broadcast station or another television broadcast translator station.

[FCC 56-494]

[Rules Amdts. 7-10 and 8-16]

PART 7—STATIONS ON LAND IN THE MARITIME SERVICES

PART 8—STATIONS ON SHIPBOARD IN THE MARITIME SERVICES

MISCELLANEOUS AMENDMENTS

In the matter of amendment of Parts 7 and 8 of the Commission's rules to delete the condition of non-interference to any Government station by the use of the frequency 2522 kc in the Los Angeles-San Diego area.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 23d day of May 1956;

The Commission having under consideration the above-captioned matter; and

It appearing that the frequency 2522 kc is available for assignment in the Los Angeles-San Diego area from 7 a. m. to 7 p. m., P. s. t., only on condition that harmful interference is not caused to the service of any United States Government station; and

It further appearing that the Government operation which necessitated the restriction on non-Government use of 2522 kc in the Los Angeles-San Diego area has been removed and the non-interference clause now contained in the rules, being inapplicable, should be deleted; and

It further appearing that because the amendment herein ordered is of a non-controversial nature and merely deletes a condition which is no longer applicable, compliance with the public notice and rule making procedure prescribed by sections 4 (a) and (b) of the Administrative Procedure Act is unnecessary; and

It further appearing that since the amendment herein ordered relieves an existing restriction, compliance with the effective date provisions of section 4 (c) of the Administrative Procedure Act is not required; and

It further appearing that the public interest, convenience and necessity will be served by the amendments herein ordered, the authority for which is contained in section 303 (r) of the Communications Act of 1934, as amended;

*It is ordered*, That, effective June 4, 1956, Parts 7 and 8 of the Commission's rules are amended as set forth below.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies sec. 303, 48 Stat. 1082, as amended; 47 U. S. C. 303)

Released: May 25, 1956.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
*Secretary.*

A. Part 7 is amended as follows:

1. Section 7.306 (b): That portion of the frequency table dealing with Los Angeles-San Diego, California, is amended to read as follows:

| | | | | |
|---|---|---|---|---|
| Los Angeles-San Diego, Calif. | 2566 | None | 2009 | None. |
| | 2466 | Available beginning on a date to be designated; on condition that harmful interference is not caused to the service of any coast station located in the vicinity of Tampa, Fla., to which this carrier frequency is assigned for transmission.[3] | 2382 | Available beginning on a date to be designated; on condition that harmful interference is not caused to the service of any ship station which is within 300 nautical miles of New Orleans, La., and is transmitting on this frequency to a coast station located in the vicinity of that port.[3] |
| | 2598 | 7 a. m. to 7 p. m., P. s. t., only | 2206 | 7 a. m. to 7 p. m., P. s. t., only. |
| | 2522 | 7 a. m. to 7 p. m., P. s. t., only | 2126 | 7 a. m. to 7 p. m., P. s. t., only. |

B. Part 8 is amended as follows:

1. Section 8.354 (a) (1): That portion of the frequency table dealing with Los Angeles-San Diego, California, is amended to read as follows:

| | | | | |
|---|---|---|---|---|
| Los Angeles-San Diego, Calif. | 2009 | None | 2566 | None. |
| | 2382 | Available beginning on a date to be designated; on condition that harmful interference is not caused to the service of any ship station which is within 300 nautical miles of New Orleans, La., and is transmitting on this frequency to a coast station located in the vicinity of that port.[3] | 2466 | Available beginning on a date to be designated; on condition that harmful interference is not caused to the service of any coast station located in the vicinity of Tampa, Fla., to which this carrier frequency is assigned for transmission.[3] |
| | 2206 | 7 a. m. to 7 p. m., P. s. t., only | 2598 | 7 a. m. to 7 p. m., P. s. t., only. |
| | 2126 | 7 a. m. to 7 p. m., P. s. t., only | 2522 | 7 a. m. to 7 p. m., P. s. t., only. |

UPLAND COTTON

NOTICE OF FORMULATION OF REGULATIONS RELATING TO DETERMINATION OF FARM MARKETING QUOTA AND FARM MARKETING EXCESS, MARKETING OF UPLAND COTTON, COLLECTION OF MARKETING PENALTIES, AND RECORDS AND REPORTS FOR 1956, 1956–57 MARKETING YEAR

A national marketing quota proclamation for the 1956 crop of upland cotton was issued by the Secretary of Agriculture on October 14, 1955 (20 F. R. 7806), and the quota was approved by upland cotton producers voting in a referendum on December 13, 1955. Farm acreage allotments for the 1956 crop of upland cotton were established pursuant to section 344 of the Agricultural Adjustment Act of 1938, as amended; and notices thereof mailed to farm operators prior to the date of the referendum in accordance with section 362 of the act.

Pursuant to the authority contained in the applicable provisions of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1301–1376), the Secretary of Agriculture is preparing to formulate and issue marketing quota regulations covering the identification of farms; the amount, adjustment and review of the farm marketing quota and farm marketing excess; the issuance of marketing cards and certificates; the identification of upland cotton which is marketed as being subject to or not subject to the penalty and lien for the penalty; the rate of the penalty and the manner in which penalties shall be paid by producers and buyers; the refunding of penalty overpayments; the records and reports required to be made by upland cotton producers, ginners, buyers and others; and other miscellaneous provisions regarding the production and marketing of upland cotton.

It is proposed that the regulations be substantially the same as the regulations in effect for the 1955–56 marketing year (20 F. R. 3979 and 4939) except that certain provisions governing the measurement of farms and the exemption of cotton produced by publicly-owned agricultural experiment stations have already been included in the Acreage Allotment Regulations for the 1956 Crop of Upland Cotton (20 F. R. 8247) and, therefore, will be omitted from the proposed regulations.

Prior to the issuance of such regulations, consideration will be given to any data, views, or information pertaining thereto which are submitted in writing to the Director, Cotton Division, Commodity Stabilization Service, United States Department of Agriculture, Washington 25, D. C. All submissions must be postmarked not later than 15 calendar days from the date of publication of this notice in the FEDERAL REGISTER in order to be considered. The date of the postmark will be considered as the date of any submission.

Issued this 24th day of May 1956.

EXTRA LONG STAPLE COTTON

NOTICE OF FORMULATION OF REGULATIONS RELATING TO DETERMINATION OF FARM MARKETING QUOTA AND FARM MARKETING EXCESS, MARKETING OF EXTRA LONG STAPLE COTTON, COLLECTION OF MARKETING PENALTIES, AND RECORDS AND REPORTS FOR 1956 CROP AND 1956–57 MARKETING YEAR

A national marketing quota proclamation for the 1955 crop of extra long staple cotton was issued by the Secretary of Agriculture on October 14, 1955 (20 F. R. 7807), and the quota was approved by extra long staple cotton producers voting in a referendum on December 13, 1955. Farm acreage allotments for the 1956 crop of extra long staple cotton were established pursuant to sections 347 (c) and 344 of the Agricultural Adjustment Act of 1938, as amended; and notices thereof mailed to farm operators prior to the date of the referendum in accordance with section 362 of the act.

Pursuant to the authority contained in the applicable provisions of the act, as amended (7 U. S. C. 1301–1376), the Secretary of Agriculture is preparing to formulate and issue marketing quota regulations covering the identification of farms; the amount, adjustment and review of the farm marketing quota and farm marketing excess; the issuance of marketing cards and certificates; the identification of extra long staple cotton which is marketed as being subject to or not subject to the penalty and lien for the penalty; the rate of the penalty and the manner in which penalties shall be paid by producers and buyers; the refunding of penalty overpayments; the records and reports required to be made by extra long staple cotton producers, ginners, buyers and others; and other miscellaneous provisions regarding the production and marketing of extra long staple cotton.

It is proposed that the regulations be substantially the same as the regulations in effect for the 1955–56 marketing year (20 F. R. 3989 and 4940) except that certain provisions governing the measurement of farms and the exemption of cotton produced by publicly-owned agricultural experiment stations have already been included in the Acreage Allotment Regulations for the 1956 Crop of Extra Long Staple Cotton (20 F. R. 8621) and, therefore, will be omitted from the proposed regulations.

Prior to the issuance of such regulations, consideration will be given to any data, views, or information pertaining thereto which are submitted in writing to the Director, Cotton Division, Commodity Stabilization Service, United States Department of Agriculture, Washington 25, D. C. All submissions must be postmarked not later than 15 calendar days from the date of publication of this notice in the FEDERAL REGISTER in order to be considered. The date of the postmark will be considered as the date of any submission.

Issued this 24th day of May 1956.

### [ 7 CFR Parts 725, 726 ]

BURLEY, FLUE-CURED, FIRE-CURED, DARK AIR-CURED, AND VIRGINIA SUN-CURED TOBACCO

NOTICE OF FORMULATION OF REGULATIONS RELATING TO THE MARKETING OF TOBACCO, COLLECTION OF MARKETING PENALTIES, AND RECORDS AND REPORTS, 1956–57 MARKETING YEAR

Notice is hereby given that pursuant to the authority contained in the applicable provisions of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1301, 1311–1315, 1372–1375), marketing quota regulations are being prepared covering the issuance of marketing cards, the identification of tobacco, the collection and refund of penalties, and the records and reports incident thereto on the marketing of burley, flue-cured, fire-cured, dark air-cured, and Virginia sun-cured tobacco for the 1956–57 marketing year.

It is contemplated that the regulations for the 1956–57 marketing year will be substantially the same as those issued for the 1955–56 marketing year (20 F. R. 4106, burley and flue-cured; 20 F. R. 6010, fire-cured, dark air-cured, and Virginia sun-cured) except for changes and additional provisions as follows:

A. For the 1956–57 and subsequent marketing years, it is proposed that the regulations relating to marketings of fire-cured, dark air-cured, and Virginia sun-cured tobacco be combined under Part 725 with the regulations relating to marketings of burley and flue-cured tobacco.

B. Prior regulations relating to the marketing of tobacco grown for experimental purposes only would be changed to provide that the Director of a publicly-owned Agricultural Experiment Station furnish the State committee a list by counties showing the following information with respect to the farms on which tobacco is grown for experimental purposes only:

1. Name and address of the publicly-owned experiment station.

2. Name of the owner, and name of the operator if different from the owner,

of each farm on which tobacco is grown for experimental purposes only.

3. The acreage of tobacco grown on each farm for experimental purposes only.

4. A certification signed by the Director of the publicly-owned agricultural experiment station to the effect that:

(a) Such acreage of tobacco was grown on each farm for experimental purposes only;

(b) The tobacco was grown under his direction;

(c) The acreage in each plot was considered necessary for carrying out the experiment.

Provision would be made for issuing to the experiment station a within quota marketing card for use in identifying marketings of tobacco grown on farms or land for which the above information is furnished.

C. The provision in prior regulations for placing excess tobacco in storage under bond as a method by which the farm operator may dispose of excess tobacco so as to avoid the payment of penalty would be eliminated. The definition of "carry-over tobacco" would be continued as in prior regulations, however, and provisions would be made for marketing penalty-free an amount of carry-over tobacco or tobacco under bond from a prior marketing year equal to the amount, as determined under the regulations, by which the harvested acreage is less than the acreage allotment for a subsequent marketing year.

D. As in the previous regulation, a "zero percent" excess marketing card will be required to be issued where a request for a remeasurement of tobacco acreage in excess of the farm acreage allotment is not made within the prescribed time limit. In addition, a provision would be included which would require the issuance of a "zero percent" excess marketing card if excess tobacco is harvested from a farm even though such excess tobacco is disposed of prior to marketing any tobacco from the farm. The effect of these provisions would be to deny price support loans on a kind of tobacco if a request for remeasurement is not timely made, or if tobacco is harvested from an acreage in excess of the allotment for the farm. The proposed regulations also will provide that where more than one kind of tobacco is produced on a farm, a "zero percent" excess marketing card will be issued for each kind of tobacco for which the harvested acreage does not exceed the farm acreage allotment in the event an excess marketing card other than "zero percent" is issued for any kind of tobacco on the farm.

E. An additional provision would provide that if a farm operator or his representative refused to sign a form CSS–578, Report of 1956 Acreage, all acreage of tobacco on the farm would be deemed to be in excess of the farm acreage allotment for the purpose of issuing a marketing card for the farm. The effect of this provision would be to require the issuance of an excess marketing card (ineligible for price support loans) showing that all tobacco marketed from the farm is subject to a rate of penalty per pound equal to 75 percent of the 1955–56 market average price if the farm operator or his representative refused to sign such report.

Prior to the final adoption and issuance of such regulations, consideration will be given to any data, views, or recommendations pertaining thereto which are submitted in writing to the Director, Tobacco Division, Commodity Stabilization Service, United States Department of Agriculture, Washington 25, D. C. All submissions must be postmarked not later than ten days from the date of publication of this notice in the FEDERAL REGISTER in order to be considered.

Issued at Washington, D. C., this 24th day of May 1956.

## DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

### Food and Drug Administration

### [ 21 CFR Parts 1, 3, 130 ]

ENFORCEMENT OF FEDERAL FOOD, DRUG, AND COSMETIC ACT; NEW DRUGS

NOTICE OF PROPOSED RULE MAKING

Pursuant to the tentative order published in the FEDERAL REGISTER on September 8, 1955 (20 F. R. 6584) with respect to the proposal of the Commissioner of Food and Drugs to promulgate a revision of the regulations pertaining to new drugs, numerous comments were received. In view of the number of changes made in the proposed order as a result of the comments filed, the Commissioner, under authority delegated to him by the Secretary of Health, Education, and Welfare (20 F. R. 1996) and pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 503, 505, 701; 52 Stat. 1052, 1055; 65 Stat. 648, 649; 21 U. S. C. 353, 355, 371), reissues the proposed order set forth below, and hereby again offers all interested persons an opportunity to submit their views in writing, within 30 days from the date of publication of this notice in the FEDERAL REGISTER, to the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D. C.

1. It is proposed to revoke §§ 1.109 to 1.114, inclusive (21 CFR, 1955 Edition, 1.109–1.114).

2. It is proposed to change the title of Part 130 to read: "Part 130—New Drugs," and to add thereto new sections numbered as §§ 130.1 to 130.32, inclusive, under the subpart heading "Subpart A—Procedural and Interpretative Regulations."

3. It is proposed to transfer § 3.37 from Part 3 to Part 130 and renumber the section as § 130.32.

4. It is proposed to add to Part 130 a new subpart entitled, "Subpart B—Drugs Exempted from Prescription-Dispensing Requirements."

5. It is proposed to renumber § 130.1 *Exemption for certain drugs limited by new-drug applications to prescription sale* as § 130.102, and transfer that section to Subpart B.

6. It is proposed to remove § 1.108 (b), (c), (d), and (e) to Part 130 (Subpart B), change the section title to read "§ 130.101 *Prescription-exemption procedure,*" and redesignate paragraphs (b), (c), (d), and (e) as paragraphs (a), (b), (c), and (d), respectively.

7. It is proposed to amend § 1.108 by deleting "(a)", inserting a semicolon in place thereof; and redesignating subparagraphs (1), (2), (3), and (4) as paragraphs (a), (b), (c), and (d), respectively.

As amended, Part 130 will read as follows:

PART 130—NEW DRUGS

SUBPART A—PROCEDURAL AND INTERPRETATIVE REGULATIONS

Sec.
130.1 Definitions and interpretations.
130.2 Biologics; products subject to license control.
130.3 New drugs for investigational use; exemptions under section 505 (a).
130.4 Applications.
130.5 Reasons for refusing to file applications.
130.6 Comment on applications.
130.7 Amended applications.
130.8 Withdrawal of applications without prejudice.
130.9 Supplemental applications.
130.10 Notification of applicant of effectiveness of application.
130.11 Postponing the effective date.
130.12 Refusal to permit the application to become effective.
130.13 Insufficient information in application.
130.14 Contents of notice of hearing.
130.15 Failure to file an appearance.
130.16 Appearance of respondent.
130.17 Hearing examiner.
130.18 Prehearing and other conferences.
130.19 Submission of documentary evidence in advance.
130.20 Excerpts from documentary evidence.
130.21 Submission and receipt of evidence.
130.22 Transcript of the testimony.
130.23 Oral and written arguments.
130.24 Tentative order.
130.25 Exceptions to the tentative order.
130.26 Issuance of final order.
130.27 Suspension of effective application.
130.28 Revocation of order refusing to permit application to become effective or suspending effective applications.
130.29 Service of notices and orders.
130.30 Untrue statements in applications.
130.31 Judicial review.
130.32 Statement of policy concerning confidentiality of information contained in new-drug applications.

SUBPART B—DRUGS EXEMPTED FROM PRESCRIPTION-DISPENSING REQUIREMENTS

130.101 Prescription-exemption procedure.
130.102 Exemption for certain drugs limited by new-drug applications to prescription sale.

AUTHORITY: §§ 130.1 to 130.102 issued under section 701, 52 Stat. 1055, as amended; 21 U. S. C. 371. Interpret or apply secs. 503, 505, 52 Stat. 1051, as amended, 1052, as amended; 21 U. S. C. 353, 355.

CROSS REFERENCES: For other regulations on new drugs, issued under the Federal Food, Drug, and Cosmetic Act, see § 1.106 (g) and (k) and § 3.7 of Subchapter A of this chapter.

§ 130.1 *Definitions and interpretations.* (a) As used in this part, the term "act" means the Federal Food, Drug, and Cosmetic Act approved June 25, 1938 (52 Stat. 1040 et seq., as amended; 21 U. S. C. 301–392).

(b) "Department" means the Department of Health, Education, and Welfare.

(c) "Secretary" means the Secretary of Health, Education, and Welfare.

(d) "Commissioner" means the Commissioner of Food and Drugs.

(e) "New Drug Branch" means the unit established within the Food and Drug Administration charged with the administration of section 505 of the act relating to new drugs.

(f) The newness of a drug may arise by reason (among other reasons) of:

(1) The newness for drug use of any substance which composes such drug, in whole or in part, whether it be an active substance or a menstruum, excipient, carrier, coating, or other component.

(2) The newness for drug use of a combination of two or more substances, none of which is a new drug.

(3) The newness for drug use of the proportion of a substance in a combination, even though such combination containing such substance in other proportion is not a new drug.

(4) The newness of use of such drug in diagnosing, curing, mitigating, treating, or preventing a disease, or to affect a structure or function of the body, even though such drug is not a new drug when used in another disease or to affect another structure or function of the body.

(5) The newness of a dosage, or method or duration of administration or application, or other condition of use prescribed, recommended, or suggested in the labeling of such drug, even though such drug when used in other dosage, or other method or duration of administration or application, or different condition, is not a new drug.

(g) "New-drug substance" means any substance that, when used in the manufacture, processing, or packing of a drug, causes that drug to be a new drug, but does not include intermediates used in the synthesis of such substance.

(h) The term "person" includes individuals, partnerships, corporations, and associations.

(i) The definitions and interpretations of terms contained in section 201 of the act shall be applicable to such terms when used in the regulations in this part.

§ 130.2 *Biologics; products subject to license control.* A new drug shall not be deemed to be subject to section 505 of the act if it is a drug licensed under the Public Health Service Act of July 1, 1944 (58 Stat. 682, as amended; 42 U. S. C. 201 et seq.) or under the animal-virus-serum-toxin law of March 4, 1913 (37 Stat. 832; 21 U. S. C. 151 et seq.)

§ 130.3 *New drugs for investigational use; exemptions from section 505 (a).* (a) Except as provided by paragraph (b) of this section, a shipment or other delivery of a new drug shall be exempt from section 505 (a) of the act if all the following conditions are complied with:

(1) The label of such drug bears the statement "Caution: New drug—Limited by Federal law to investigational use."

(2) Such shipment or delivery is made only to, and solely for investigational use by or under the direction of, an expert qualified by scientific training and experience to investigate the safety of such drug.

(3) The person who introduced such shipment or who delivered the drug for introduction into interstate commerce obtains, prior to the introduction or delivery, a statement signed by such expert showing that he has adequate facilities for the investigation to be conducted by him, and that such drug will be used solely by him or under his direction for the investigation, unless and until an application becomes effective with respect to such drug under section 505 of the act. This subparagraph shall not apply when such shipment or delivery is made to an agency of the Government of the United States (including the National Research Council) or of any State or municipality whose official functions involve investigations of new drugs by such experts.

(4) Such person retains in his files the statement referred to in subparagraph (3) of this paragraph, together with complete records showing the date, quantity, and batch or code mark (if any) of each such shipment and delivery, until 3 years after the introduction or delivery for introduction of such shipment into interstate commerce. Upon the request of any officer or employee of the Department at reasonable times, he makes the records referred to in this subparagraph and in subparagraph (3) of this paragraph available for inspection, and upon written request he submits such records, or copies thereof, to the New Drug Branch for examination.

(b) A shipment or other delivery of a new drug that is being imported or offered for import into the United States shall be exempt from section 505 (a) of the act if all the following conditions are complied with:

(1) The label of such drug bears the statement "Caution: New drug—Limited by United States law to investigational use."

(2) The importer of all such shipments or deliveries is an agent of the foreign exporter, residing in the United States, or the operator of an establishment in the United States which has facilities for regularly investigating the safety of such drugs, which facilities are manned by experts qualified by scientific training and experience to conduct such investigation.

(3) Such operator uses such drugs solely for such investigation in such establishment, or such operator or agent otherwise disposes of such drug only to, and solely for investigational use by or under the direction of, such an expert outside such establishment.

(4) Such importer, prior to disposing of any of such drug to such an expert, obtains a statement signed by such expert showing that he has adequate facilities for the investigation to be conducted by him, and that such drug will be used solely by him or under his direction for the investigation, unless and until an application becomes effective with respect to such drug under section 505 of the act. This subparagraph shall not apply to any shipment or delivery or part thereof disposed of by such importer to an agency of the Government of the United States (including the National Research Council) or of any State or municipality whose official functions involve investigations of new drugs by such experts.

(5) Such importer retains in his files the statement referred to in subparagraph (4) of this paragraph and complete records showing the date, quantity, and batch or code marks (if any) of each such shipment and delivery and the disposition thereof, until 3 years after disposition by such importer of the lot of such drug to which the statements and records relate. Upon the request of any officer or employee of the Department at reasonable times, he makes the records referred to in this subparagraph and in subparagraph (4) of this paragraph available for inspection, and upon written request he submits such records, or copies thereof, to the New Drug Branch for examination.

(c) An exemption under paragraph (a) or (b) of this section shall become void ab initio if any record or statement required by such paragraph to be kept and made available for inspection is not kept or made available as so required.

(d) An exemption under paragraph (a) or (b) of this section shall expire with respect to any exempted shipment or delivery or part thereof which has been supplied to an expert who has signed the statement referred to in paragraph (a) (3) or (b) (4) of this section and which is used otherwise than in accordance with such signed statement.

(e) An exemption under paragraph (b) of this section shall become void ab initio if the exempted shipment or delivery or any part thereof is disposed of otherwise than as provided by subparagraph (3) of that paragraph.

(f) No exemption under paragraph (b) of this section shall apply to any shipment or delivery to such importer if such importer, within 3 years prior to the offering of such shipment or delivery for import, has caused an exemption to become void as provided by paragraph (c) or (e) of this section.

§ 130.4 *Applications.* (a) Applications to be filed under the provisions of section 505 (b) of the act shall be submitted in duplicate to the New Drug Branch. If any part of the application is in a foreign language, an accurate and complete English translation shall be appended to such part; translations of literature printed in a foreign language shall be accompanied by copies of the original publication.

(b) Pertinent information may be incorporated in, and will be considered as part of, an application on the basis of specific reference to such information submitted to and retained in the files of the Food and Drug Administration. However, any reference to information furnished by a person other than the applicant will not be considered unless use of such information is authorized in a written statement signed by the person who submitted it.

(c) Applications shall be submitted in the following form:

Form FD-356—Rev. 1956

Department of Health, Education, and Welfare, Food and Drug Administration.

ORIGINAL ☐ OR SUPPLEMENTAL ☐ APPLICATION

Name of applicant ----------
Address ----------
Date ----------
Name of new drug ----------
(If this is a supplemental application see Item (8))

To the Secretary of Health, Education, and Welfare,
For the Commissioner of Food and Drugs,
Washington 25, D. C.
Dear Sir:

The undersigned, ----------, submits this application with respect to a new drug pursuant to section 505 (b) of the Federal Food, Drug, and Cosmetic Act. Attached hereto, in duplicate, and constituting a part of this application are the following:

(1) Full reports of all investigations that have been made to show whether or not the drug is safe for use.

(a) An application may be incomplete or may be refused unless it includes full reports of adequate tests by all methods reasonably applicable to show whether or not the drug is safe for use as suggested in the proposed labeling. The reports ordinarily should include detailed data derived from appropriate animal or other biological experiments in which the methods used and the results obtained are clearly set forth. Reports of all clinical tests by experts, qualified by scientific training and experience to evaluate the safety of drugs, should be attached and ordinarily should include detailed information pertaining to each individual treated, including age, sex, conditions treated, dosage, frequency of administration, duration of administration of the drug, results of clinical and laboratory examinations made, and a full statement of any adverse effects and therapeutic results observed.

(b) The complete composition and/or method of manufacture of the new drug used in each submitted report of investigation should be shown to the extent necessary to establish its identity, strength, quality, and purity if it differs from the description in parts (2), (3), or (4) of the application in any way that would bias an evaluation of the report.

(c) The unexplained omission of any reports of investigations made with the drug by the applicant or submitted to him by an investigator he supplied with the drug that would bias an evaluation of the safety of the drug constitutes grounds for the refusal or suspension of an application.

(2) A full list of the articles used as components of the drug. (This list should include all substances used in the synthesis, extraction, or other method of preparation of any new-drug substance, regardless of whether they undergo chemical change in the process. Each substance should be identified by its common English name or complete chemical name, using structural formulas when necessary for specific identification. If any proprietary preparation is used as a component, the proprietary name should be followed by a complete quantitative statement of composition. Reasonable alternatives for any listed substance may be specified.)

(3) A full statement of the composition of the drug. (This statement should set forth the name and amount of each ingredient, whether active or not, contained in a stated quantity of the drug in the form in which it is to be distributed; as, for example, amount per tablet or per milliliter, in addition to a representative batch formula. Any calculated excess of an ingredient over the label declaration should be designated as such and percent excess shown. Reasonable variations may be specified.)

(4) (a) A full description of the methods used in the manufacture, processing, and packing of the drug. (Included in this description should be full information on the following, in sufficient detail to permit evaluation of the adequacy of the manufacturing, processing, and packing methods to determine and preserve the identity, strength, quality, and purity of the drug:

(i) The methods used in the synthesis, extraction, isolation, or purification of any new-drug susbtance. When the specifications and controls applied to such substance (described in part (4) (b) of this form) are inadequate in themselves to determine its identity, strength, quality, and purity, the methods should be described in sufficient detail, including quantities used, times, temperature, pH, solvents, etc., to determine these characteristics. Alternative methods or variations in methods within reasonable limits that do not affect such characteristics of the substance may be specified.

(ii) The methods used in processing and packing each proposed dosage form of the new drug, including a description of the container or other packaging material.

(iii) If the applicant does not himself perform all the manufacturing, processing, and packing operations for any new drug substance or the new drug, his statement identifying each person who will perform a part of such operations and designating the part and a signed statement from each such person, fully describing the methods he uses directly or by reference.

(b) A full description of the facilities and controls used for the manufacture, processing, and packing of the drug.

(Included in this description should be full information on the following in sufficient detail to permit evaluation of the adequacy of the described methods, facilities, and controls to preserve the identity, strength, quality, and purity of the drug.)

(i) A description of the physical facilities including plant and equipment used in manufacturing, processing, packing, and control operations on the new drug.

(ii) If the applicant does not himself perform all the manufacturing, processing, packing, and control operations, his statement identifying each person who will perform a part of such operations and designating the part; and a signed statement from each such person fully describing the facilities and controls he uses in his part of the operations directly or by reference.

(iii) Precautions to insure proper identity, strength, quality, and purity of the raw materials, whether active or not, including the specifications for acceptance of each lot of raw material.

(iv) Whether or not each lot of raw materials is given a serial number to identify it, and the use made of such numbers in subsequent plant operations.

(v) Method of preparation of formula card, and manner in which it is used.

(vi) Number of individuals checking weight or volume of each individual ingredient entering into each batch of the drug.

(vii) Whether or not the total weight or volume of each batch is determined at any stage of the manufacturing process subsequent to making up a batch according to the formula card and at what stage and by whom it is done.

(viii) Precautions to check the actual packaged yield produced from a batch of the drug with the theoretical yield.

(ix) Precautions to insure that the proper labels are placed on the drug for a particular lot, including provisions for label storage and inventory control.

(x) The analytical controls used during the various stages of the manufacturing, processing, and packing of the drug, including a detailed description of the collection of samples and the analytical procedures to which they are subjected. If the article is one which is represented to be sterile, the same information should be given for sterility controls. Include the standards required for acceptance of each lot of the finished drug.

(xi) An explanation of the exact significance of any batch control numbers used in the manufacturing, processing, and packing of the drug, including any such control numbers that may appear on the label of the finished article. State whether or not any of the numbers appear on invoices and describe any other methods used to permit determination of the distribution of any batch if its recall is required.

(xii) A complete description of and the data derived from studies of the stability of the drug. If the data indicate that an expiration date is needed to preserve the identity, strength, quality, and purity of the drug until it is used, a statement of an expiration date.

(xiii) Additional procedures employed which are designed to prevent contamination and otherwise insure proper control of the product.

(5) Three finished market packages of the drug, and other samples of the drug or its components on request.

(When finished market packages of the drug are not available to submit with the application, state that finished market packages conforming to the description under part (4) (a) (ii) and labeled as provided in part (6) of the application will be submitted as soon as available and prior to the marketing of the drug. In case the drug is available only in limited quantity, state the extent to which samples of the drug and its components will be available on request.)

(6) Five copies of each label and other labeling to be used for the drug.

(a) Each label, or other labeling, should be clearly identified to show its position on, or the manner in which it accompanies, the market package.

(b) The labeling on or within the retail package should include adequate directions for use by the layman under all the conditions for which the drug is intended for lay use, or is to be prescribed, recommended, or suggested in any labeling or advertising sponsored by or on behalf of the applicant and directed to laymen.

(c) The labeling on or within the retail package, or a brochure or other printed matter specifically identified on such label or labeling and made available to practitioners, should contain adequate information for use of the drug by such practitioners under all the conditions for which the drug is intended or is to be prescribed, recommended, or suggested in any labeling or advertising sponsored by or on behalf of the applicant.

(d) Labeling bearing adequate information for use of the drug by practitioners should be a part of the retail package of injections and any other drug that may be unsafe for the intended use unless such information is immediately available to the practitioner.

(e) Typewritten or other draft labeling copy may be accepted for conditional consideration of an application, provided, a statement is made that final printed labeling identical in content to the draft copy provided for in the application will be submitted as soon as available and prior to the marketing of the drug.

(7) State whether the drug is (or is not) limited in its labeling and by this application to use under the professional supervision of a practitioner licensed by law to administer it.

(8) If this is a supplemental application, full information on each proposed change concerning any statement made in the effective application.

(After an application is effective, a supplemental application may propose changes. The supplemental application may omit statements made in the effective application concerning which no change is proposed. A supplemental application should be submitted for any change beyond the variations provided for in the application, that may alter the conditions of use, the labeling, the safety, identity, strength, quality, or purity of the drug or the adequacy of manufacturing methods, facilities, or controls to preserve them. When necessary for the safety of the drug, a supplemental application may be required to specify a period of time within which the proposed change will be made; and in such case the distribution of the drug after such time without such change constitutes distribution without an effective new-drug application. A supplemental application is not required when the article is no longer a new drug unless the proposed change itself causes it to become a new drug. If a material change is made from the representations in an effective application for a new drug before a supplement is effective for such change, the application may be suspended under § 130.27.)

(9) It is understood that all representations in this application regarding the components, composition, manufacturing methods, facilities, controls, and labeling apply to the drug produced until an effective supplement to the application provides for a change or the article is no longer a new drug.

Very truly yours,

----------
(Applicant)
Per ----------
----------
(Indicate authority)

This application must be signed by the applicant or by an authorized attorney, agent, or official.

The data specified under the several numbered headings should be on separate sheets or sets of sheets, suitably identified. The sample of the drug, if sent under separate cover, should be addressed to the New Drug Branch and identified on the outside of the shipping package with the name of the applicant and the name of the drug as shown on the application.

The applicant will be notified of the date on which his application is filed. An incomplete application, or one which has not been submitted in duplicate, will usually be retained but not filed as an application provided for in section 505 (b) of the act. The applicant will be notified in what respect his application is incomplete.

ALL APPLICATIONS AND CORRESPONDENCE SHOULD BE SUBMITTED IN DUPLICATE

(d) "Specimens of the labeling proposed to be used," quoted from section 505 (b) (6) of the act, means final printed labeling if printed labeling is to be used. However, for the purpose of facilitating consideration of applications and necessary revisions in labeling, the New Drug Branch may conditionally file and may inform the applicant of the conditional effectiveness of his application on the basis of typewritten or other draft labeling copy, provided that both of the following conditions are met:

(1) It is reasonable to reach a conclusion as to the safety of the drug on considering the submitted labeling copy and description of format, typography, etc.

(2) The application states that final printed labeling identical in content to the draft copy provided for in the application will be submitted as soon as available and prior to the marketing of the drug.

An application conditionally filed and conditionally effective as provided in this paragraph will be considered incomplete under section 505 (b) (6) of the act, not filed as an application pursuant to section 505 (b), and not effective if the new drug is marketed prior to the submission to the New Drug Branch of specimens of its final printed labeling conforming to the conditions of the application.

§ 130.5 *Reasons for refusing to file applications.* (a) An application shall not be considered complete and will not be filed as a new-drug application within the meaning of section 505 (b) of the act if it does not contain complete and accurate English translations of any part in a foreign language, if only one copy is submitted, or if it is incomplete on its face, in that:

(1) It does not contain all the matter required by clauses (1), (2), (3), (4), and (6) of section 505 (b) of the act.

(2) It does not state the conditions under which the drug is to be used.

(3) The specimens of labeling proposed for use upon or within the retail package do not expressly nor by reference to a brochure or other printed matter prescribe, recommend, or suggest the use of such drug under such conditions. The New Drug Branch will notify the applicant promptly of such nonacceptance and the reason therefor and, in case of incompleteness as to matter required by any clause of section 505 (b) of the act shall specify such clause. Otherwise, the date on which an application is received will be considered to be the date on which such application is filed, and the New Drug Branch will notify the applicant of such date.

(b) If an applicant disputes the finding of the New Drug Branch that his application is incomplete, he may within 10 days after receipt of the notice of nonfiling make written request to the New Drug Branch to file the application. In such case, the application shall be considered filed as of the original date of receipt, over the protest of the New Drug Branch, with the effective date of such application postponed for not more than 180 days after the filing thereof.

(c) If within 180 days the Commissioner finds that the application is incomplete or that other facts exist which require him to issue an order refusing to allow the application to become effective, he shall issue a notice to the applicant as provided in § 130.14. Subsequent to such notice, the procedure followed shall be in accordance with §§ 130.14 to 130.26, inclusive.

§ 130.6 *Comment on applications.* After the New Drug Branch has studied the application, it will furnish oral or written comment to the applicant on any apparent deficiencies in the data submitted or on the need for any additional data or changes in the application to facilitate its consideration. The New Drug Branch will disclose to the applicant any information upon which such comment is based, except information as to data or their source that has been submitted as part of another person's new-drug application or otherwise submitted with the specific request that it be considered confidential. The New Drug Branch may suggest withdrawal of an application when it finds that additional evidence is required to support a finding that the drug is safe or that the methods, facilities, and controls used in manufacturing, processing, and packing the drug are adequate.

§ 130.7 *Amended applications.* The applicant may submit an amendment to an application that is pending, but in such case the unamended application shall be considered as withdrawn and the amended application shall be considered resubmitted on the date on which the amendment is received by the New Drug Branch. The New Drug Branch will notify the applicant of such date.

§ 130.8 *Withdrawal of applications without prejudice.* The applicant may at any time withdraw his application from consideration as a new-drug application upon notification to the New Drug Branch. Such withdrawal may be made without prejudice to a future filing. Upon resubmission, the time limitation will begin to run from the date of resubmission. The application itself will be retained by the New Drug Branch although it is considered withdrawn, but the applicant shall be furnished a copy at cost on request.

§ 130.9 *Supplemental applications.* After an application is effective, a supplemental application may propose changes. The supplemental application may omit statements made in the effective application concerning which no change is proposed. A supplemental application should be submitted for any change beyond the variations provided for in the application, that may alter the conditions of use, the labeling, the safety, identity, strength, quality, or purity of the drug or the adequacy of manufacturing methods, facilities, or controls to preserve them. When necessary for the safety of the drug, a supplemental application may be required to specify a period of time within which the proposed change will be made; and in such case the distribution of the drug after such time without such change constitutes distribution without an effective new-drug application. A supplemental application is not required when the article is no longer a new drug unless the proposed change itself causes it to become a new drug. If a material change is made from the representations in an effective application for a new drug before a supplement is effective for such change, the application may be suspended under § 130.27.

§ 130.10 *Notification to applicant of effectiveness of application.* If the Commissioner determines, before the sixtieth day after the filing of an application (or before the one hundred and eightieth day after filing if he has postponed the effective date), that he has no cause to issue an order under section 505 (d) of the act refusing to permit the application to become effective, the New Drug Branch shall so notify the applicant in writing and the application shall become effective on the date of the notification. However, if such determination and notification are conditioned on the meeting of conditions agreed to by the applicant and stated in the letter of notification, the application shall become effective on the date such conditions are met.

§ 130.11 *Postponing the effective date.* If the New Drug Branch determines, before the sixtieth day after the filing of the application, that more time is needed for study and investigation of the application, the Commissioner shall so notify

the applicant and inform him that the effective date of the application has been postponed for not more than 180 days from the filing thereof.

§ 130.12 *Refusal to permit the application to become effective.* If the Commissioner determines upon the basis of the application, or upon the basis of other information before him with respect to the new drug, that:

(a) The investigations, reports of which are required to be submitted pursuant to section 505 (b) of the act, do not include adequate tests by all methods reasonably applicable to show whether or not such drug is safe for use under the conditions prescribed, recommended, or suggested in the proposed labeling thereof;

(b) The results of such tests show that such drug is unsafe for use under such conditions or do not show that such drug is safe for use under such conditions;

(c) The methods used in, and the facilities and controls used for, the manufacture, processing, and packing of such drug are inadequate to preserve its identity, strength, quality, and purity; or

(d) Upon the basis of the information submitted to him as part of the application, or upon the basis of any other information before him with respect to such drug, he has insufficient information to determine whether such drug is safe for use under such conditions,

he will, prior to the effective date of the application, notify the applicant that he proposes to issue an order refusing to permit the application to become effective, as provided in § 130.14.

§ 130.13 *Insufficient information in application.* (a) The information contained in an application may be insufficient for the Commissioner to determine whether a drug is safe for use if it fails to include (among other things) a statement showing whether the drug is to be limited to prescription sale and exempt under section 502 (f) (1) of the act, from the requirement that its labeling bear adequate directions for use. If the drug is to be exempt, the information may also be insufficient if:

(1) The specimen labeling proposed for use on or within the market package of the drug fails to incorporate directly or by reference a specifically identified brochure or other printed matter containing information adequate for the use of such drug by practitioners licensed by law to administer the drug.

(2) Such labeling fails to state that the drug is to be used as shown in such brochure or printed matter and that such brochure or printed matter will be sent on request to practitioners licensed by law to administer such drug.

(3) The application fails to contain copies of such brochure or printed matter.

(4) The application fails to show that such brochure or printed matter is readily available to practitioners licensed by law to administer the drug; or if not, that is it to be made so when the application becomes effective.

§ 130.14 *Contents of notice of hearing.* The notice of hearing to the applicant that the Commissioner proposes to refuse to permit the application to become effective or to suspend an effective new-drug application will specify the grounds upon which he proposes to issue his order. On request of the applicant, the Commissioner will furnish any information he considered in support of his proposal except information concerning data or their source that has been submitted as part of another person's new-drug application or otherwise, submitted with the specific request that it be considered confidential. The notice will contain the name of the hearing examiner designated to conduct the hearing, and will specify the time and place at which the hearing will be held. The notice of hearing will specify a date, ordinarily not less than 10 days after issuance of the notice, by which the respondent will be required to file a written appearance electing whether:

(a) To avail himself of the opportunity for a hearing at the time and place specified in the notice of hearing; or

(b) Not to avail himself of the opportunity for a hearing.

The hearing will not be public unless the respondent specifies in his appearance that he desires a public hearing, in which event the hearing will be public.

§ 130.15 *Failure to file an appearance.* If the respondent fails to file a written appearance in answer to the notice of hearing, his failure will be construed as an election not to avail himself of the opportunity for the hearing, and the Commissioner, without further notice, may enter a final order.

§ 130.16 *Appearance of respondent.* If the respondent elects to avail himself of the opportunity for the hearing, he may appear in person or by counsel. If the respondent desires to be heard through counsel, the counsel will file with the hearing examiner a written appearance.

§ 130.17 *Hearing examiner.* The hearing will be conducted by a hearing examiner appointed as provided in the Administrative Procedure Act (60 Stat. 235; 5 U. S. C. 1002 et seq.) and designated in the notice for conducting the hearing. Any such designation may be made or revoked by the Commissioner at any time. Hearings will be conducted in an informal but orderly manner in accordance with these regulations and the requirements of the Administrative Procedure Act. The hearing examiner will have the power to administer oaths and affirmations, to rule upon offers of proof and the admissibility of evidence, to receive relevant evidence, to examine witnesses, to regulate the course of the hearing, to hold conferences for the simplification of the issues, and to dispose of procedural requests, but will not have the power to decide any motion that involves final determination of the merits of the proceeding.

§ 130.18 *Prehearing and other conferences:* The hearing examiner, on his own motion or on the motion of the applicant or the New Drug Branch, may direct all parties or their representatives to appear at a specified time and place for a conference to consider:

(a) The simplification of the issues.

(b) The possibility of obtaining stipulations, admissions of facts, and documents.

(c) The limitation of the number of expert witnesses.

(d) The scheduling of witnesses to be called.

(e) The advance submission of all documentary evidence.

(f) Such other matters as may aid in the disposition of the proceeding.

The hearing examiner will make an order reciting the action taken at the conference, the agreements made by the parties or their representatives, the schedule of witnesses, and limiting the issues for hearing to those not disposed of by admissions or agreements. Such order will control the subsequent course of the proceeding unless modified for good cause by subsequent order. The hearing examiner may also direct all parties and their representatives to appear at conferences at any time during the hearing with a view to simplification, clarification, or shortening the hearing.

§ 130.19 *Submission of documentary evidence in advance.* (a) All documentary evidence to be offered at the hearing shall be submitted to the hearing examiner and to the parties sufficiently in advance of the offer of such documentary evidence for introduction into the record to permit study and preparation of cross-examination and rebuttal evidence.

(b) The hearing examiner after consultation with the parties at a conference called in accordance with § 130.18 shall make an order specifying the time at which documentary evidence shall be submitted. He shall also specify in his order the time within which objection to the authenticity of such documents must be made to comply with paragraph (d) of this section.

(c) Documentary evidence not submitted in advance in accordance with the requirements of paragraphs (a) and (b) of this section shall not be received in evidence in the absence of a clear showing that the offering party had good cause for his failure to produce the evidence sooner.

(d) The authenticity of all documents submitted in advance shall be deemed admitted unless written objection thereto is filed with the hearing examiner upon notice to the other parties within the time specified by the hearing examiner in accordance with paragraph (b) of this section, except that a party will be permitted to challenge such authenticity at a later time upon a clear showing of good cause for failure to have filed such written objection.

§ 130.20 *Excerpts from documentary evidence.* When portions only of a document are to be relied upon, the offering party shall prepare the pertinent excerpts, adequately identified, and shall supply copies of such excerpts, together with a statement indicating the purpose for which such materials will be offered, to the hearing examiner and to the other parties. Only the excerpts, so prepared and submitted, shall be received in the record. However, the whole of the original document shall be made available for examination and for use by opposing counsel for purposes of cross-examination.

§ 130.21 *Submission and receipt of evidence.* (a) Each witness shall, before proceeding to testify, be sworn or make affirmation.

(b) When necessary in order to prevent undue prolongation of the hearing, the hearing examiner may limit the number of times any witness may testify, the repetitious examination and cross-examination of witnesses, or the amount of corroborative or cumulative evidence.

(c) The hearing examiner shall admit only evidence that is relevant, material, and not unduly repetitious.

(d) Opinion evidence shall be admitted when the presiding officer is satisfied that the witness is properly qualified.

(e) If any person objects to the admission or rejection of any evidence, or other limitation of the scope of any examination or cross-examination, he shall state briefly the grounds for such objection, and the transcript shall not include extended argument or debate thereon except as ordered by the hearing examiner. A ruling on any such objection shall be a part of the transcript, together with such offer of proof as has been made.

§ 130.22 *Transcript of the testimony.* Testimony given at a hearing shall be reported verbatim. All written statements, charts, tabulations, and similar data offered in evidence at the hearing shall be marked for identification and, upon a showing satisfactory to the hearing examiner of their authenticity, relevancy, and materiality, shall be received in evidence subject to section 7 (c) of the Administrative Procedure Act (5 U. S. C. 1006 (c)). Exhibits shall, if practicable, be submitted in quintuplicate. In case the required number of copies are not made available, the hearing examiner shall exercise his discretion as to whether said exhibit shall be read in evidence or whether additional copies shall be required to be submitted within a time to be specified by the hearing examiner. Where the testimony of a witness refers to a statute, or to a report or document, the hearing examiner shall, after inquiry relating to the identification of such statute, report, or document, determine whether the same shall be produced at the hearing and physically be made a part of the evidence or shall be incorporated in the record by reference. Where relevant and material matter offered in evidence is embraced in a report or document containing immaterial and irrelevant matter, such immaterial and irrelevant matter shall be excluded and shall be segregated insofar as practicable, subject to the direction of the hearing examiner.

§ 130.23 *Oral and written arguments.* (a) Unless the hearing examiner shall issue an announcement at the hearing authorizing oral argument before him, it shall not be permitted.

(b) The hearing examiner shall announce at the hearing a reasonable period within which the parties or their representatives may file written arguments based solely upon the evidence received at the hearing, citing the pages of the transcript of the testimony or of properly identified exhibits where such evidence occurs.

§ 130.24 *Tentative order.* The hearing examiner, within a reasonable time, shall prepare tentative findings of fact and a tentative order, which shall be served upon the respondent and the New Drug Branch, or sent to them by registered mail. If no exceptions are taken to the tentative order within 20 days or such other time specified in such order, that order shall become final.

§ 130.25 *Exceptions to the tentative order.* Within 20 days or such other time specified in the tentative order, the respondent or the New Drug Branch may transmit exceptions to the hearing examiner, together with any briefs or argument in support thereof. If exception is taken to any tentative findings of fact, reference must be made to the pages or parts of the record relied upon, and a corrected finding of fact must be submitted. The respondent, if he files exceptions, shall state in writing whether he desires to make an oral argument.

§ 130.26 *Issuance of final order.* Within a reasonable time after the filing of exceptions, or after oral argument (if such argument is requested), the Commissioner shall issue the final order in the proceeding. The order will include the findings of fact upon which it is based.

§ 130.27 *Suspension of effective application.* If the Commissioner has reason to believe (a) that clinical experience, tests by new methods, or tests by methods not deemed reasonably applicable when such application became effective show that a drug for which an application is effective is unsafe for use under the conditions of use upon the basis of which the application became effective, or (b) that the application contains any untrue statement of a material fact, he shall so notify the person holding the effective new-drug application and afford an opportunity for a hearing. The notice and hearing will conform to the provisions of §§ 130.14 to 130.27, inclusive.

§ 130.28 *Revocation of order refusing to permit application to become effective or suspending effective applications.* The Commissioner, upon his own initiative or upon request of an applicant stating reasonable grounds therefor, may, if he finds that the facts so require, issue an order allowing an application to become effective which has been refused or suspended.

§ 130.29 *Service of notices and orders.* All notices and orders under this part and section 505 of the act pertaining to new-drug applications shall be served:

(a) In person by any officer or employee of the Department designated by the Commissioner; or

(b) By mailing the order by registered mail addressed to the applicant or respondent at his last known address in the records of the Department.

§ 130.30 *Untrue statements in application.* Among the reasons why an application may contain an untrue statement of a material fact are:

(a) Differences in:

(1) Conditions of use prescribed, recommended, or suggested by the applicant for the drug from the conditions of such use stated in the application;

(2) Articles used as components of the drug from those listed in the application;

(3) Composition of the drug from that stated in the application;

(4) Methods used in, or the facilities or controls used for, the manufacture, processing, or packing of the drug from such methods, facilities, and controls described in the application;

(5) Labeling from the specimens contained in the application; or

(b) The unexplained omission in whole or in part of any information obtained from (1) investigations as to safety, or (2) investigations as to identity, strength, quality or purity of the drug made by the applicant with the drug or submitted to him by any investigator whom he supplied with the drug, when such omission would bias an evaluation of the safety of the drug.

§ 130.31 *Judicial review.* The Assistant General Counsel for Food and Drugs of the Department of Health, Education, and Welfare is hereby designated as the officer upon whom copies of petitions for judicial review shall be served. Such officer shall be responsible for filing in the court a transcript of proceedings and the record on which the final orders were based. The transcript and record shall be certified by the Commissioner.

§ 130.32 *Confidentiality of information contained in new-drug applications.* (a) The Federal Food, Drug, and Cosmetic Act provides, in section 505 (b), that any person may file with the Secretary of Health, Education, and Welfare an application with respect to any new drug, which shall include, among other things, a full list of the articles used as components and a full statement of the composition of such drug. These requirements apply to all components or ingredients of a new drug, whether or not they are therapeutically active. Fulfillment of these requirements may be met by submitting a full statement of the chemical or common or usual name and of the quantity of each component or ingredient of the drug. Such requirements may also be met through the inclusion in the new-drug application of a properly authorized reference to a previous application or other Food and Drug Administration file containing the relevant information.

(b) The Food and Drug Administration treats information in new-drug applications as confidential. Section 301 (j) of the Federal Food, Drug, and Cosmetic Act makes it an offense to divulge to unauthorized persons any information acquired from a new-drug application concerning any method or process that is a trade secret. Basic manufacturers sometimes submit data to the Food and Drug Administration in the form of so-called master files for the purpose

of establishing the safety of ingredients that may be used in new drugs and authorize specified applicants to incorporate by reference such data in support of their applications. Such manufacturers may regard some of the data in such files as trade secrets and request the Food and Drug Administration to treat such information as confidential. The Food and Drug Administration will preserve the confidentiality of such data to the extent that it may properly do so. Because the applicant is legally responsible for the composition of the new drug and all its ingredients and may require information in the master file for judicial or administrative proceedings concerning the drug, the Food and Drug Administration will not withhold such information from the applicant when his need for it arises and he submits a written request for it. The Food and Drug Administration will inform the person who submitted the data of any such requests.

SUBPART B—DRUGS EXEMPTED FROM PRESCRIPTION-DISPENSING REQUIREMENTS

§ 130.101 *Prescription-exemption procedure*—(a) *Duration of prescription requirement.* Any drug limited to prescription use under section 503 (b) (1) (C) of the act remains so limited until it is exempted as provided in paragraph (b) of this section.

(b) *Prescription-exemption procedure for drugs limited by a new-drug application.* Any drug limited to prescription use under section 503 (b) (1) (C) of the act shall be exempted from prescription-dispensing requirements when the Commissioner finds such requirements are not necessary for the protection of the public health by reason of the drug's toxicity or other potentiality for harmful effect, or the method of its use, or the collateral measures necessary to its use. The exemption of a drug from the prescription-dispensing requirements of section 503 (b) (1) (C) of the act may be initiated by the Commissioner or by any interested person. Any interested person may file a petition seeking such exemption, stating reasonable grounds therefor, which petition may be in the form of a supplement to an effective new-drug application. Upon receipt of such a petition, or on his own initiative at any time, the Commissioner will publish a notice of proposed rule making and invite written comments. After consideration of all available data, including any comments submitted, the Commissioner may issue a regulation granting or refusing the exemption, effective on a date specified therein. Whenever the Commissioner concludes, either at the time of publication of the notice of proposed rule making or after considering the written comments submitted, that granting or refusing the exemption requires a more thorough development of the facts than is possible in a written presentation, he may call a public hearing for that purpose. The notice of such hearing shall specify the questions to be considered. As soon as practicable after completion of the hearing, the final regulation granting or refusing the exemption shall be issued, effective on a date specified therein. If the Commissioner for good cause finds (and incorporates the finding and a brief statement of the reasons therefor in a regulation) that notice and public procedure thereon are impracticable, unnecessary, or contrary to the public interest, he may issue the final regulation forthwith.

(c) *New-drug status of drugs exempted from the prescription requirement.* A drug exempted from the prescription requirement under the provisions of paragraph (b) of this section is a "new drug" within the meaning of section 201 (p) of the act until it has been used to a material extent or for a material time under such conditions.

(d) *Prescription legend not allowed on exempted drugs.* The use of the prescription caution statement quoted in section 503 (b) (4) of the act, in the labeling of a drug exempted under the provisions of this section, constitutes misbranding. Any other statement or suggestion in the labeling of a drug exempted under this section, that such drug is limited to prescription use, may constitute misbranding.

§ 130.102 *Exemption for certain drugs limited by new-drug applications to prescription sale.* (a) The prescription-dispensing requirements of section 503 (b) (1) (C) of the Federal Food, Drug, and Cosmetic Act are not necessary for the protection of the public health with respect to the following drugs subject to new-drug applications:

(1) *N*-acetyl-*p*-aminophenol (*p*-hydroxy-acetenilid) preparations meeting all the following conditions:

(i) The *N*-acetyl-*p*-aminophenol is prepared with or without other drugs in tablet or other dosage form suitable for oral use in self-medication, and containing no drug limited to prescription sale under the provisions of section 503 (b) (1) of the act.

(ii) The *N*-acetyl-*p*-aminophenol and all other components of the preparation meet their professed standards of identity, strength, quality, and purity.

(iii) If the preparation is a new drug, an application pursuant to section 505 (b) of the act is effective for it.

(iv) The preparation contains not more than 0.325 gram (5 grains) of *N*-acetyl-*p*-aminophenol per dosage unit.

(v) The preparation is labeled with adequate directions for use in minor conditions as a simple analgesic.

(vi) The dosages of *N*-acetyl-*p*-aminophenol recommended or suggested in the labeling do not exceed: For adults, 0.325 gram (5 grains) per dose or 1.0 gram (15 grains) per 24-hour period; for children 6 to 12 years of age, one-half of the maximum adult dose or dosage.

(vii) The labeling bears, in juxtaposition with the dosage recommendations, a clear warning statement against administration of the drug to children under 6 years of age and against use of the drug for more than 10 days, except as such uses may be directed by a physician.

(2) Sodium gentisate (sodium-2, 5-dihydroxybenzoate) preparations meeting all the following conditions:

(i) The sodium gentisate is prepared, with or without other drugs, in tablet or other dosage form suitable for oral use in self-medication, and containing no drug limited to prescription sale under the provisions of section 503 (b) (1) of the act.

(ii) The sodium gentisate and all other components of the preparation meet their professed standards of identity, strength, quality, and purity.

(iii) If the preparation is a new drug, an application pursuant to section 505 (b) of the act is effective for it.

(iv) The preparation contains not more than 0.5 gram (7.7 grains) of anhydrous sodium gentisate per dosage unit.

(v) The preparation is labeled with adequate directions for use in minor conditions as a simple analgesic.

(vi) The dosages of sodium gentisate recommended or suggested in the labeling do not exceed: For adults, 0.5 gram (7.7 grains) per dose or 2.0 grams (31 grains) per 24-hour period; for children 6 to 12 years of age, one-half of the maximum adult dose or dosage.

(vii) The labeling bears, in juxtaposition with the dosage recommendations, a clear warning statement against administration of the drug to children under 6 years of age and against use of the drug for a prolonged period, except as such uses may be directed by a physician.

(3) Isoamylhydrocupreine and zolamine hydrochloride (N, N-dimethyl-N'-2-thiazolyl-N'-*p*-methoxybenzyl-ethylenediamine hydrochloride) preparations meeting all the following conditions:

(i) The isoamylhydrocupreine and zolamine hydrochloride are prepared in dosage form suitable for self-medication as rectal suppositories or as an ointment and containing no drug limited to prescription sale under the provisions of section 503 (b) (1) of the act.

(ii) The isoamylhydrocupreine, zolamine hydrochloride, and all other components of the preparation meet their professed standards of identity, strength, quality, and purity.

(iii) If the preparation is a new drug, an application pursuant to section 505 (b) of the act is effective for it.

(iv) The preparation contains not more than 0.25 percent of isoamylhydrocupreine and 1.0 percent of zolamine hydrochloride.

(v) If the preparation is in suppository form, it contains not more than 5.0 milligrams of isoamylhydrocupreine and not more than 20.0 milligrams of zolamine hydrochloride per suppository.

(vi) The preparation is labeled with adequate directions for use in the temporary relief of local pain and itching associated with hemorrhoids.

(vii) The directions provide for the use of not more than two suppositories or two applications of ointment in a 24-hour period.

(viii) The labeling bears, in juxtaposition with the dosage recommendations, a clear warning statement against use of the preparation in case of rectal bleeding, as this may indicate serious disease.

(4) Phenyltoloxamine dihydrogen citrate (*N,N* dimethyl-(α-phenyl-*O*-tolyoxy) ethylamine dihydrogen citrate) preparations meeting all the following conditions:

(i) The phenyltoloxamine dihydrogen citrate is prepared, with or without other drugs, in tablet or other dosage form suitable for oral use in self-medication, and containing no drug limited to prescription sale under the provisions of section 503 (b) (1) of the act.

(ii) The phenyltoloxamine dihydrogen citrate and all other components of the preparation meet their professed standards of identity, strength, quality, and purity.

(iii) If the preparation is a new drug, an application pursuant to section 505 (b) of the act is effective for it.

(iv) The preparation contains not more than 88 milligrams of phenyltoloxamine dihydrogen citrate (equivalent to 50 milligrams of phenyltoloxamine) per dosage unit.

(v) The preparation is labeled with adequate directions for use in the temporary relief of the symptoms of hay fever and/or the symptoms of other minor conditions in which it is indicated.

(vi) The dosages recommended or suggested in the labeling do not exceed: For adults, 88 milligrams of phenyltoloxamine dihydrogen citrate (equivalent to 50 milligrams of phenyltoloxamine) per dose or 264 milligrams of phenyltoloxamine dihydrogen citrate (equivalent to 150 milligrams of phenyltoloxamine) per 24-hour period; for children 6 to 12 years of age, one-half of the maximum adult dose or dosage.

(vii) The labeling bears, in juxtaposition with the dosage recommendations:

(*a*) Clear warning statements against administration of the drug to children under 6 years of age, except as directed by a physician, and against driving a car or operating machinery while using the drug, since it may cause drowsiness.

(*b*) If the article is offered for temporary relief of the symptoms of colds, a statement that continued administration for such use should not exceed 3 days, except as directed by a physician.

(5) Oxytetracycline and polymyxin B sulfate preparations meeting all the following requirements:

(i) The oxytetracycline and polymyxin B sulfate are prepared in ointment or other dosage form suitable for self-medication by external application to the skin and containing no drug limited to prescription sale under the provisions of section 503 (b) (1) of the act.

(ii) The oxytetracycline, polymyxin B sulfate, and all other components of the preparation meet their professed standards of identity, strength, quality, and purity.

(iii) If the preparation is a new drug, an application pursuant to section 505 (b) of the act is effective for it.

(iv) The preparation contains per gram an amount of oxytetracycline hydrochloride equivalent to not more than 30 milligrams of oxytetracycline and an amount of polymyxin B sulfate equivalent to not more than 10,000 units of polymyxin B.

(v) The preparation is labeled with adequate directions for use by external application to prevent infection in minor burns, minor wounds, and abrasions.

(vi) The labeling bears, in juxtaposition with the directions for use, clear warning statements against:

(*a*) Use of the preparation in the eye.

(*b*) Use if irritation or infection develops, except as directed by a physician.

(6) Meclizine hydrochloride (1-*p*-chlorobenzhydryl-4-*m*-methylbenzyl-piperazine dihydrochloride) preparations meeting all the following conditions:

(i) The meclizine hydrochloride is prepared, with or without other drugs, in tablet or other dosage form suitable for oral use in self-medication, and containing no drug limited to prescription sale under the provisions of section 503 (b) (1) of the act.

(ii) The meclizine hydrochloride and all other components of the preparation meet their professed standards of identity, strength, quality, and purity.

(iii) If the preparation is a new drug, an application pursuant to section 505 (b) of the act is effective for it.

(iv) The preparation contains not more than 25 milligrams of meclizine hydrochloride per dosage unit.

(v) The preparation is labeled with adequate directions for use in the prevention of motion sickness.

(vi) The dosages recommended or suggested in the labeling do not exceed: For adults, 50 milligrams of meclizine hydrochloride per 24-hour period; for children 6 to 12 years of age, 25 milligrams of meclizine hydrochloride per 24-hour period.

(vii) The labeling bears, in juxtaposition with the dosage recommendations, clear warning statements against:

(*a*) Exceeding the recommended dosage.

(*b*) Administration of the drug to children under 6 years of age, except as directed by a physician.

(*c*) Driving a car or operating machinery while using the drug, since it may cause drowsiness.

(*d*) Keeping the drug within reach of children, if it is in candy form.

(7) Diamthazole dihydrochloride (2-dimethylamino-6-(β-diethylamino ethoxy)-benzothiazole dihydrochloride) preparations meeting all the following conditions:

(i) The diamthazole dihydrochloride is prepared with or without other drugs in a dosage form suitable for external application in self-medication as a dusting powder.

(ii) The diamthazole dihydrochloride and all other components of the preparation meet their professed standards of identity, strength, quality, and purity.

(iii) If the preparation is a new drug, an application pursuant to section 505 (b) of the act is effective for it.

(iv) The preparation contains not more than 5 percent by weight of diamthazole dihydrochloride.

(v) The preparation is labeled with adequate directions for use only for adults and children 12 years of age and older in the prevention of athlete's foot.

(vi) The labeling bears, in juxtaposition with the directions for use, clear warning statements against:

(*a*) Application to infants or young children.

(*b*) Use on open cracks or weeping stages of athlete's foot.

(*c*) Contact with mucous membranes.

(*d*) Use in the event of irritation.

(8) Dicyclomine hydrochloride (1-cyclohexylhexahydrobenzoic acid, β-diethylaminoethyl ester hydrochloride; diethylaminocarbethoxy-bicyclohexyl hydrochloride) preparations meeting all the following conditions:

(i) The dicyclomine hydrochloride is prepared with suitable antacid and other components, in tablet or other dosage form for oral use in self-medication, and containing no drug limited to prescription sale under the provisions of section 503 (b) (1) of the act.

(ii) The dicyclomine hydrochloride and all other components of the preparation meet their professed standards of identity, strength, quality, and purity.

(iii) If the preparation is a new drug, an application pursuant to section 505 (b) of the act is effective for it.

(iv) The preparation contains not more than 5 milligrams of dicyclomine hydrochloride per dosage unit, or if it is in liquid form not more than 0.5 milligram of dicyclomine hydrochloride per milliliter.

(v) The preparation is labeled with adequate directions for use only by adults and children over 12 years of age, in the temporary relief of gastric hyperacidity.

(vi) The dosages recommended or suggested in the directions for use do not exceed 10 milligrams of dicyclomine hydrochloride per dose or 30 milligrams in a 24-hour period.

(vii) The labeling bears, in juxtaposition with the dosage recommendations, clear warning statements against:

(*a*) Exceeding the recommended dosage.

(*b*) Prolonged use, except as directed by a physician, since persistent or recurring symptoms may indicate a serious disease requiring medical attention.

(*c*) Administration to children under 12 years of age except as directed by a physician.

(*d*) Use if dryness of the throat, blurring of vision, dizziness, or rapid pulse occurs.

(9) Neomycin sulfate preparations meeting all the following conditions:

(i) The neomycin sulfate is prepared with a vasoconstrictor, and with or without other drugs, in an aqueous vehicle suitable for administration in self-medication as a nasal spray, or as nose drops, and containing no drug limited to prescription sale under the provisions of section 503 (b) (1) of the act.

(ii) The preparation is packaged with a style of container or assembly suited to self-medication by the recommended route of administration, and delivering not more than 0.1 milliliter of the preparation per spray or per drop.

(iii) The neomycin sulfate and all other components of the preparation meet their professed standards of identity, strength, quality, and purity.

(iv) If the preparation is a new drug, an application pursuant to section 505 (b) of the act is effective for it.

(v) The neomycin sulfate content of the preparation does not exceed the

equivalent of 0.8 milligram of standard neomycin base per milliliter.

(vi) The preparation is labeled with adequate directions for use in the temporary relief of nasal congestion due to the common cold and hay fever.

(vii) The dosages recommended or suggested in the directions for use do not exceed: For adults, 3 sprays or 3 drops per nostril per dose, or 5 doses in a 24-hour period; for children over 3 years of age, 2 sprays or 2 drops per nostril per dose, or 5 doses in a 24-hour period.

(viii) The labeling bears, in juxtaposition with the dosage recommendations, clear warning statements against:

(*a*) Administration to children under 3 years of age, except as directed by a physician.

(*b*) Exceeding the recommended dosage.

(c) Use in a manner contraindicated by the nature of the vasoconstrictor or other components.

(10) Sodium fluoride preparations meeting all the following conditions:

(i) The sodium fluoride is prepared, with other components, in a dosage form suitable for household use as a dentrifice powder, and containing no drug limited to prescription sale under the provisions of section 503 (b) (1) of the act.

(ii) The sodium fluoride and all other components of the preparation meet their professed standards of identity, strength, quality, and purity.

(iii) If the preparation is a new drug, an application pursuant to section 505 (b) of the act is effective for it.

(iv) The preparation contains not more than 5 milligrams of sodium fluoride per gram and is packaged to contain not more than 300 milligrams of sodium fluoride per retail package.

(v) The preparation is labeled with adequate directions for use only as a dentrifice by adults and children 6 years of age and over, and includes instructions to rinse the mouth thoroughly after brushing the teeth.

(vi) The labeling bears, in juxtaposition with the directions for use, clear warning statements against:

(*a*) Use by children under 6 years of age.

(*b*) Use if the water supply contains fluoride, except as directed by a dentist.

(11)[1] Hydrocortisone or hydrocortisone acetate preparations meeting all the following conditions:

(i) The hydrocortisone or hydrocortisone acetate is prepared, with or without other drugs, in a dosage form suitable for use in self-medication by external application to the skin, and containing no drug limited to prescription sale under the provisions of section 503 (b) (1) of the act.

(ii) The hydrocortisone or hydrocortisone acetate and all other components of the preparation meet their professed standards of identity, strength, quality, and purity.

(iii) If the preparation is a new drug, an application pursuant to section 505 (b) of the act is effective for it.

(iv) The preparation contains not more than 25 milligrams of hydrocortisone or hydrocortisone acetate per gram.

(v) The preparation is labeled with adequate directions for use by external application to the skin in the relief of itching and inflammation associated with minor skin irritations.

(vi) The directions for use recommend or suggest not more than two applications of the preparation per day and not more than 5 days' duration of use, except as directed by a physician.

(vii) The labeling bears, in juxtaposition with the directions for use, clear warning statements against:

(*a*) Use for more than 5 days except as directed by a physician.

(*b*) Use on infections or where pus is present, because the drug may cause infection to spread.

(c) Continued use if redness, irritation, swelling, or pain persists or increases.

(12) Hexadenol (a mixture of tetracosanes and their oxidation products) preparations meeting all the following conditions:

(i) The hexadenol is prepared and packaged, with or without other drugs, solvents, and propellants, in a form suitable for self-medication by external application to the skin as a spray, and containing no drug limited to prescription sale under the provisions of section 503 (b) (1) of the act.

(ii) The hexadenol and all other components of the preparation meet their professed standards of identity, strength, quality, and purity.

(iii) If the preparation is a new drug, an application pursuant to section 505 (b) of the act is effective for it.

(iv) The preparation contains not more than 5 percent by weight of hexadenol.

(v) The preparation is labeled with adequate directions for use by external application in the treatment of minor burns and minor skin irritations.

(vi) The labeling bears, in juxtaposition with the directions for use, clear warning statements against:

(*a*) Use on serious burns or skin conditions or prolonged use, except as directed by a physician.

(*b*) Spraying the preparation in the vicinity of eyes, mouth, nose, or ears.

Dated: May 23, 1956.

[SEAL] GEO. P. LARRICK,
*Commissioner of Food and Drugs.*

## FEDERAL COMMUNICATIONS COMMISSION

### [ 47 CFR Parts 1, 17 ]

[Docket No. 11665]

PRACTICE AND PROCEDURE; CONSTRUCTION, MARKING AND LIGHTING OF ANTENNA TOWERS AND/OR THEIR SUPPORTING STRUCTURES

ORDER GRANTING EXTENSION OF TIME

In the matter of amendment of Parts 1 and 17 of the Commission's rules and regulations.

The Commission having under consideration a petition dated May 15, 1956, filed on behalf of WHAS, Inc., and Deep South Broadcasting Company, requesting an extension of time in which to submit comments directed to the Commission's notice of proposed rule making in the above-captioned matter:

It appearing that the Commission's proposal to encourage the grouping of antenna towers and the multiple use of structures for supporting antennas is related to the air hazard criteria for determining antenna height and location presently being developed by the Joint Industry/Government Tall Structures Committee (JIGTSC) of the Air Coordinating Committee; and

It further appearing that in view of the relationship between the above-captioned proceeding and the continuing work of the JIGTSC, the public interest would be served by extending the time for reception of comments in this docket in the manner requested:

*It is ordered*, This 24th day of May 1956, that, pursuant to authority contained in § 0.332 (b) of the Commission's rules, the time for filing comments in the above-captioned matter is hereby extended from May 31, 1956, to July 2, 1956, and that rebuttal comments may be filed within 20 days from the extended closing date for original comments.

Released: May 24, 1956.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
*Secretary.*

### [ 47 CFR Part 3 ]

[Docket No. 11715; FCC 56-481]

RADIO BROADCAST SERVICES

TABLE OF ASSIGNMENTS, TELEVISION BROADCAST STATIONS (FORT WAYNE, INDIANA)

1. Notice is hereby given that the Commission is considering a proposal for rule making in the above-entitled matter.

2. The Commission has under consideration the assignment of television channel 21+ to Huntington, Indiana, in the Table of assignments in § 3.606 of the rules and regulations. The Commission, upon its own motion, proposes to shift Channel 21 from Huntington to Fort Wayne, Indiana.

3. Channel 21+ was originally assigned to Fort Wayne in the Sixth Report and Order. It was subsequently removed from that city upon discovery that this assignment did not meet all the required mileage separations. This channel was later assigned to the community of Huntington. It is our view that a more effective use can be made of the frequency if Channel 21 is assigned to Fort Wayne.

4. We have this date proposed in a separate proceeding amendment of the mileage separation rule so as to permit a 5-mile tolerance in making assignments to communities where there would result no more than a 5-mile shortage to another transmitter site but where transmitter sites may be found which would meet the required spacing. In the event this rule change is adopted, Channel 21 could be assigned to Fort Wayne in conformity with the mileage spacing requirements.

5. The Commission is of the view that rule making proceedings should be instituted in this matter in order that all interested parties may submit their views to the Commission and the Commission may have the benefit of such views prior to taking further action.

6. Authority for the adoption of the amendment herein is contained in sections 4 (i), 301, 303 (c), (d), (f) and (r), and 307 (b) of the Communications Act of 1934, as amended.

7. Any interested party who is of the opinion that the proposed amendment should not be adopted, or should not be adopted in the form set forth herein, may file with the Commission on or before June 24, 1956, a written statement or brief setting forth his comments. Comments in support of the proposed amendment may also be filed on or before the same date. Comments or briefs in reply to the original comments may be filed within 10 days from the last day for filing said original comments. No additional comments may be filed unless (1) specifically requested by the Commission or (2) good cause for the filing of such additional comments is established. The Commission will consider all such comments that are submitted before taking action in this matter, and if any comments appear to warrant the holding of a hearing or oral argument, notice of the time and place of such hearing or oral argument will be given.

8. In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs, or comments shall be furnished the Commission.

Adopted: May 23, 1956.

Released: May 24, 1956.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
*Secretary.*

[F. R. Doc. 56-4249; Filed, May 29, 1956; 8:53 a. m.]

### [ 47 CFR Part 3 ]

[Docket No. 11714; FCC 56-480]

REFERENCE POINTS AND DISTANCE COMPUTATIONS

NOTICE OF PROPOSED RULE MAKING

In the matter of amendment of § 3.611 (a) (2) of the Commission's rules and regulations.

1. Notice is hereby given of rule making in the above-entitled matter.

2. Section 3.611 concerns the reference points used and the distance computation methods for assignments in the television Table of Assignments. Section 3.611 (a) (2) reads as follows:

(2) Where an authorized transmitter site is available for use as a reference point in one community but not in the other for the pertinent channels, separations shall be determined by the distance between the coordinates of the transmitter site as set forth in the Commission's authorization therefor and the coordinates of the other community as set forth in the publication "Air Line Distances Between Cities in the United States." If said publication does not contain the coordinates for said other community, the coordinates of the main post office thereof shall be used.

3. In June 1953 an interested party proposed that the above rule be amended so as to provide a 5-mile tolerance in making new assignments to a community where the community does not meet the required spacings to an existing transmitter site in another community but where transmitter sites are available which would meet these requirements. The Commission denied the requested amendment, but in its report and order (FCC 53-1718) issued on December 29, 1953, taking this action stated that "It is our view, however, that the contemplated changes in our assignment rules should be reexamined at some later date in the light of the additional data and experience which will be available to us at such later time."

4. There are presently over 600 authorized stations in the television service, both operating and authorized. There is, consequently, a set pattern of transmitter sites for reference purposes. In view of this, and in light of the need in some cases of a tolerance in making assignments available to a community where the assignment can be made except for the failure to meet the required spacing to an existing transmitter site in another community, the Commission is proposing to amend the subject rule.

5. It is proposed to amend § 3.611 (a) (2) by adding the following: "If the distance from the authorized transmitter site in one community and the reference point in said other community is less than, but within five miles of, the minimum separation requirements of § 3.610, the channel may be assigned to said other community with condition and notation that any transmitter site proposed must be so located as to fully satisfy the minimum separation requirements of § 3.610."

6. It should be emphasized that the Commission is not now proposing a reduction in any of the mileage separation requirements as regards physical spacing between transmitter sites. The amendment proposed relates only to making assignments available to communities. Parties proposing assignments under the proposed rule would be expected to make a showing that transmitter sites are available which would meet the required minimum assignment spacings. Parties filing applications for such assignments would be required to specify transmitter sites which would meet all the technical requirements, including the minimum spacings.

7. The Commission is of the view that rule making proceedings should be instituted in this matter in order that all interested parties may submit their views to the Commission and the Commission may have the benefit of such views prior to taking further action.

8. Authority for the adoption of the amendment herein is contained in sections 4 (i), 301, 303 (c), (d), (f) and (r) and 307 (b) of the Communications Act of 1934, as amended.

9. Any interested party who is of the opinion that the amendment proposed herein should not be adopted, or should not be adopted in the form set forth herein, may file with the Commission on or before June 24, 1956, a written statement or brief setting forth his comments. Comments in support of the proposed amendment may also be filed on or before the same date. Comments or briefs in reply to the original comments may be filed within 10 days from the last day for filing said original comments. No additional comments may be filed unless (1) specifically requested by the Commission or (2) good cause for the filing of such additional comments is established. The Commission will consider all such comments that are submitted before taking action in this matter, and if any comments appear to warrant the holding of a hearing or oral argument, notice of the time and place of such hearing or oral argument will be given.

10. In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs, or comments shall be furnished the Commission.

Adopted: May 23, 1956.

Released: May 24, 1956.

FEDERAL COMMUNICATIONS COMMISSION,

*Secretary.*

[F. R. Doc. 56-4248; Filed, May 29, 1956; 8:52 a. m.]

## [ 47 CFR Part 9 ]

[Docket No. 11717; FCC 56-495]

AVIATION SERVICES

NOTICE OF PROPOSED RULE MAKING

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. It is proposed to amend §§ 9.434 (b) and 9.443 of Part 9 of the Commission's rules governing Aviation Services as set forth below, to define more precisely the conditions under which aeronautical mobile frequencies are available for assignment to the licensees of aeronautical en-route stations in Alaska, and to further define the conditions under which fixed frequencies are available for assignment to aeronautical fixed stations in Alaska. The rules herein proposed reflect the changes requested by Alaska Aviation Radio, Inc. (AARI), Anchorage, Alaska, in a petition presently on file with the Commission.

3. The frequencies available under § 9.434 (b), are for assignment to aeronautical en route stations in Alaska only when serving scheduled certificated aircarriers as defined by the Civil Aeronautics Board (CAB). At the time the rule was adopted, provision was made for the conduct of scheduled certificated aircarrier operations and for nonscheduled type operations on separate frequencies. The intent of the rule was to make specific frequencies available for each specialized type of operation. AARI is of the opinion that § 9.434 (b) might be interpreted to permit the assignment of frequencies available for scheduled certificated aircarrier operations, to stations serving the "bush" or nonscheduled operations of a scheduled airline. This would, in effect, cause general rather than specialized use of the frequencies available for scheduled aircarrier operations, thus defeating the purpose of the rule. The proposed amendment is designed to remove this ambiguity and spell out more clearly the Commission's policy with respect to the assignment of high frequencies and VHF frequencies in Alaska.

4. The AARI petition additionally requests that the principle of frequency separation established between scheduled and non-scheduled aircarriers for air-ground operations be extended to the aeronautical fixed service in Alaska. At the present time § 9.443 makes frequencies, in accordance with § 2.104 (a) of the rules, available for assignment for aeronautical fixed operations in Alaska without the previously mentioned distinction. AARI requests that § 9.443 be amended to permit, as at present, the assignment of any available fixed frequency to stations serving scheduled certificated aircarriers, as defined by the CAB, but limiting non-scheduled aircarriers to the frequency 4645 kc. The request is based on the fact that the coordination vital to air transportation in Alaska is effective only in conjunction with adequate aeronautical fixed communications. Accordingly, AARI feels that the aeronautical fixed operations of scheduled aircarrier operations should be kept separate and apart, from a frequency standpoint, from the aeronautical fixed operations of non-scheduled operators.

5. The proposed amendment is issued under the authority of sections 303 (b), (c), (f) and (r) of the Communications Act of 1934, as amended.

6. Any interested person who is of the opinion that the proposed amendments should not be adopted, or should not be adopted in the form set forth herein, may file with the Commission on or before July 27, 1956, written data, views or arguments setting forth his comments. Comments in support of the proposed amendments may also be filed on or before the same date. Rebuttal comments may be filed within 10 days from the last day for filing of original comments. No additional comments may be filed unless (1) specifically requested by the Commission or (2) good cause for the filing of such additional comments is established. The Commission will consider all such comments prior to taking final action in this matter, and if comments are submitted warranting oral argument, notice of the time and place of such oral argument will be given.

7. In accordance with the provisions of § 1.764 of the Commission's rules, an original and 14 copies of all statements, briefs, or comments shall be furnished the Commission.

Adopted: May 23, 1956.

Released: May 25, 1956.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
*Secretary.*

Amend Part 9, rules governing Aviation Services, as follows:

1. The introductory material preceding subparagraph (1) of § 9.434 (b) is amended to read as follows:

(b) The following frequencies are available for assignment to aeronautical en route stations in Alaska, only when serving scheduled certificated aircarriers as defined by the Civil Aeronautics Board. In filing an application for the use of these frequencies, the applicant must show that in addition to complying with the provisions of § 9.431 the station will serve the scheduled operations of such scheduled certificated aircarriers. A copy of the contractual arrangement made with each of the aircarriers to be served must be submitted with the application.

* * * * *

2. Section 9.434 (d) is amended to read as follows:

(d) The following frequencies are available for assignment to aeronautical en route stations in Alaska subject to the provisions of paragraph (b) of this section:

| *Mc.* | *Mc.* | *Mc.* |
|---|---|---|
| 127.1 | 127.5 | 129.3 |
| 127.3 | 127.9 | 129.9 |

3. Delete present § 9.443 and substitute therefor the following:

§ 9.443 *Assignment of frequencies—*(a) *United States (except Alaska).* Only those frequencies which are in accordance with § 2.104 (a) of the Commission's rules may be authorized for use by aeronautical fixed stations. The applicant shall request specific frequencies within such bands when making an application for an aeronautical fixed station. The availability for assignment of such frequencies will be determined in the Commission by study of the probabilities of interference to and from existing services assigned on the same or adjacent frequencies, and, if necessary, by appropriate coordination with other agencies. All new assignments of frequencies will be subject to such conditions as may be required to minimize the possibility of harmful interference to existing services.

(b) *Alaska.* In the authorization of frequencies for use by aeronautical fixed stations in Alaska, the following conditions, in addition to those in paragraph (a) of this section, shall apply:

(1) Frequencies will be authorized to aeronautical fixed stations in Alaska, only when such stations serve scheduled certificated aircarriers as defined by the Civil Aeronautics Board. When filing applications for such frequencies, the applicant must show that the station will serve the scheduled operations of such scheduled certificated aircarriers. A copy of the contractual arrangements made with each of the aircarriers to be served must be submitted with the application.

(2) The frequency 4645 kc. is available for assignment to aeronautical fixed stations in the Territory of Alaska. The frequency will only be authorized in conjunction with authorizations for use of the aeronautical en route frequencies specified in § 9.434 (a). The provisions of § 9.443 (b) (1) do not apply to stations operating on the frequency 4645 kc.

[F. R. Doc. 56-4250; Filed, May 29, 1956; 8:53 a. m.]

## [ 47 CFR Part 13 ]

[Docket No. 11716; FCC 56-489]

COMMERCIAL RADIO OPERATORS

NOTICE OF PROPOSED RULE-MAKING

The scope of the operating authority granted holders of the various classes of commercial radio operator licenses issued by the Commission is stated for each class of license primarily in § 13.61 of the Commercial Radio Operator Rules. In addition, certain special operating privileges are stated in § 13.62 which include the following:

(a) The holder of any class of commercial radio operator license except temporary limited radio-telegraph second-class operator license may operate any station in the experimental service while using frequencies solely above 300 megacycles.

At the time the basic provisions of § 13.62 (a) were adopted there were no detailed operator requirements in Part 5, rules governing the Experimental Services, and that section was relied upon in the case of stations operating on frequencies above 30 Mc (later changed to 300 Mc) in the experimental services to determine the grade of licensed operator required. Part 5, as recently revised, now includes detailed operator requirements corresponding to the duties of operators employed in those services which supersede the provisions of § 13.62 (a).

In veiw of the foregoing it is proposed to delete § 13.62 (a). Authority for this proposal is contained in sections 4 (i), 303 (l) and 303 (r) of the Communications Act of 1934, as amended.

Any interested person who is of the opinion that the proposed amendment should not be adopted may file with the Commission on or before July 10, 1956, a written statement or brief setting forth his comments. At the same time, any person who favors the amendment, as proposed, may file a written statement in support thereof. Comments or briefs in reply to the original comments or briefs may be filed within 15 days from the last day for filing said original comments or briefs. The Commission will consider all comments, briefs and statements presented before taking final action in the matter.

In accordance with the provisions of § 1.764 of the Commission's rules, an original and fourteen copies of all statements, briefs or comments filed shall be furnished the Commission.

Adopted: May 23, 1956.

Released: May 25, 1956.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
*Secretary.*

## DEPARTMENT OF THE INTERIOR

### Bureau of Land Management

[Order 612]

FIELD COMMISSIONERS

AUTHORITY AS TO CONTESTS INITIATED OR FILED PRIOR TO MAY 1, 1956

MAY 23, 1956.

1. Pursuant to section 1.5 of Order No. 2583 of the Secretary of the Interior, as amended February 16, 1954 (19 F. R. 1021), authority is hereby delegated to Field Commissioners of the Bureau of Land Management to conduct and preside at hearings on private and Government contests initiated or filed prior to May 1, 1956.

2. Field Commissioners shall conduct such contest proceedings and shall take all necessary actions with respect thereto, in accordance with the applicable laws and regulations. They shall render decisions on contests to the same effect and in the same manner as the managers of land offices heretofore were authorized by section 1.4 of Order No. 2583, and otherwise. Actions of Field Commissioners in such proceedings shall be subject to the right of appeal to the Director to the same extent as similar actions of managers of land offices.

3. Proceedings before Field Commissioners on contests initiated or filed prior to May 1, 1956, shall be conducted in accordance with the regulations specified in Title 43, Code of Federal Regulations, § 221.107, approved March 20, 1956 (21 F. R. 1860).

4. Bureau orders numbered 533, 552, 553, and 599 are hereby revoked.

EDWARD WOOZLEY,
*Director.*

[F. R. Doc. 56-4216; Filed, May 29, 1956; 8:45 a. m.]

[Classification Order 485]

CALIFORNIA

SMALL TRACT CLASSIFICATION

MAY 22, 1956.

1. Pursuant to authority delegated to me by the California State Supervisor, Bureau of Land Management, under Part II, Document 4, California State Office, dated November 19, 1954 (19 F. R. 7697), I hereby classify the following described lands, totaling 480 acres, in San Bernardino County, California, as suitable for lease and sale for residence purposes under the Small Tract Act of June 1, 1938 (52 Stat. 609.43 USC 682a), as amended:

SAN BERNARDINO BASE AND MERIDIAN

T. 3 N., R. 5 E.,
Sec. 35, NW¼, S½.

2. Classification of the above-described lands by this order segregates them from all appropriations, including locations under the mining laws, except as to applications under the mineral leasing laws.

3. The lands classified by this order shall not become subject to application or lease under the Small Tract Act of June 1, 1938 (52 Stat. 609.43 USC 682a), as amended, until it is so provided by an order to be issued by an authorized officer, opening the lands to application or lease with a preference right to veterans of World War II and of the Korean conflict, and other qualified persons entitled to preference under the Act of September 27, 1944 (58 Stat. 497.43 USC 279–284), as amended.

4. All valid applications filed prior to May 22, 1956, will, as soon as possible, be granted the preference right provided for by 43 CFR 257.5 (a).

R. G. SPORLEDER,
*Officer-in-Charge,*
*Southern Field Group, Los Angeles.*

[F. R. Doc. 56-4217; Filed, May 29, 1956; 8:45 a. m.]

### Bureau of Reclamation

UNCOMPAHGRE PROJECT, COLORADO

ORDER OF REVOCATION

MARCH 1, 1956.

Pursuant to authority delegated by Department Order No. 2765 of July 30, 1954 (19 F. R. 5004), I hereby revoke Departmental Orders of September 21, 1903 and December 30, 1909, insofar as said orders affect the following described lands; provided, however, that such revocation shall not affect the withdrawal of any other lands by said orders or affect any other orders withdrawing or reserving the lands hereinafter described:

SIXTH PRINCIPAL MERIDIAN, COLORADO

Uncompahgre project:
T. 12 S., R. 83 W.,
Secs. 26, 27, 28, 33, 34 and 35, all.

The above areas aggregate 3,840 acres.

E. G. NIELSEN,
*Assistant Commissioner.*

[71192]

I concur. The records of the Bureau of Land Management will be noted accordingly.

The released lands are within the Gunnison National Forest and have been open to applications and offers under the mineral-leasing laws. They will be open to such other applications, selections and locations, as are permitted on national forest lands effective at 10:00 a. m. on June 29, 1956.

Inquiries concerning applications and offers under the mineral-leasing laws and locations under the mining laws shall be addressed to the Manager, Land Office, Bureau of Land Management, Denver, Colorado. Other inquiries shall be addressed to the Regional Forester, Federal Center, Building No. 85, Denver, Colorado.

EDWARD WOOZLEY,
*Director,*
*Bureau of Land Management.*

## DEPARTMENT OF COMMERCE

### Federal Maritime Board

NIAGARA LIJN N. V. ET AL.

NOTICE OF CANCELLATION OF AGREEMENT BY THE BOARD

Notice is hereby given that the Board by order dated May 18, 1956, approved the cancellation of the following described agreement pursuant to section 15 of the Shipping Act, 1916, 39 Stat. 733, 46 U. S. C. 814.

Agreement No. 8034, between Niagara Lijn N. V., Rederi A. B. Ragne and Rederi A. B. Ferlef, a cooperative working arrangement which provided (1) that Ragne and Ferlef would each charter one of its vessels to Niagara which Niagara would operate in addition to other vessels in the east and westbound Great Lakes/Mediterranean trades, and (2) that Ragne and Ferlef would not operate any vessels as a common carrier of passengers or cargo in such trades.

By order of the Federal Maritime Board.

Dated: May 24, 1956.

[SEAL] GEO. A. VIEHMANN,
*Assistant Secretary.*

[F. R. Doc. 56-4240; Filed, May 29, 1956; 8:50 a. m.]

### Office of the Secretary

GENERAL EXPORT CLOTHING CORP., ET AL.

APPEALS BOARD DECISION

In the matter of General Export Clothing Corporation, Lila Kass, 145–147 Mulberry Street, New York, New York; Appeals Board Docket FC–32; B. F. C. Case No. 209.

This appeal arises from a denial by the Director of the Bureau of Export Supply, Bureau of Foreign Commerce, of the appellant's request for a postponement of the effective date of the Order Revoking Export Licenses and Denying Export Privileges of the appellant, dated May 14, 1956, to become effective May 30, 1956.

The Board has considered this appeal on the record and finds that (1) the appellant is in effect a one-man company and (2) there was a delay in actual receipt of the suspension order due to the fact that the individual who, in effect, is the company, was abroad. Consequently, the Board concludes that a limited extension of the effective date of the suspension order is appropriate.

*Therefore, it is ordered,* That the Order Revoking Export Licenses and Denying Export Privileges of the appellant, dated May 14, 1956, be and hereby is modified to extend the effective date of said order from May 30, 1956 to June 11, 1956: *Provided,* That this extension shall not apply to any transactions based on purchase orders accepted after May 30, 1956; *And further provided,* That in all other respects the terms and provisions of said order shall become effective on June 11, 1956 without regard to the date of negotiations or contracts for export transactions.

FREDERIC W. OLMSTEAD,
*Chairman, Appeals Board.*

MAY 23, 1956.

[F. R. Doc. 56-4243; Filed, May 29, 1956; 8:51 a. m.]

## CIVIL AERONAUTICS BOARD

[Docket No. 8037]

LEAVENS BROS. LTD.

NOTICE OF HEARING

In the matter of the application of Leavens Bros. Limited for extension of a foreign air carrier permit, approved June 4, 1953, issued pursuant to section 402 of the Civil Aeronautics Act, to perform operations of a casual, occasional or infrequent nature, in common carriage, into the United States.

Notice is hereby given pursuant to the provisions of the Civil Aeronautics Act of 1938, as amended, that a hearing in the above-entitled matter is assigned to be held on June 4, 1956, at 2:30 p. m., e. d. s. t., in Room E–210, Temporary Building No. 5, Sixteenth Street and Constitution Avenue NW., Washington, D. C., before Examiner Joseph L. Fitzmaurice.

Dated at Washington, D. C., May 25, 1956.

[SEAL] FRANCIS W. BROWN,
*Chief Examiner.*

[F. R. Doc. 56-4263; Filed, May 29, 1956; 8:55 a. m.]

---

GREAT LAKES LOCAL SERVICE INVESTIGATION

NOTICE OF PREHEARING CONFERENCE

Notice is hereby given that a prehearing conference covering the local air service pattern in the Great Lakes Area (see Order No. E–9734) is assigned to be held on July 10, 1956, at 10:00 a. m., e. d. s. t., in Room E–224, Temporary Building No. 5, Seventeenth Street and Constitution Avenue NW., Washington, D. C., before Examiner Ferdinand D. Moran.

Attention is directed to § 302.12 (b) of the Board's rules of practice which specifies:

> A motion to consolidate or contemporaneously consider an application with any other application shall be filed not later than the prehearing conference in the proceeding with which consolidation or contemporaneous consideration is requested, and shall relate only to a then pending application.

In order to facilitate conduct of the conference and in accord with the above rule it is requested that any party desiring to prosecute an application in this proceeding file on or before June 22, 1956 a motion for consolidation with Examiner Moran and/or any new applications for which consolidation may be sought.

In addition, it is requested that any "request for evidence" be transmitted to the examiner and to the party from whom the evidence is sought on or before June 22, 1956.

Counsel will be expected to state the views of their client with respect to issues discussed during the course of this conference.

Dated at Washington, D. C., May 23, 1956.

[SEAL] FRANCIS W. BROWN,
*Chief Examiner.*

[F. R. Doc. 56-4226; Filed, May 29, 1956; 8:47 a. m.]

---

## FEDERAL POWER COMMISSION

[Docket No. G–10058]

CITY OF LEWISPORT, KENTUCKY

NOTICE OF APPLICATION

MAY 24, 1956.

Take notice that The City of Lewisport, Kentucky (Applicant), a municipal corporation organized and existing under the laws of the State of Kentucky, filed an application on March 7, 1956, pursuant to section 7 (c) of the Natural Gas Act, for an order directing Texas Gas Transmission Corporation (Texas Gas) to establish physical connection of its transportation facilities with the proposed facilities of Applicant and to sell natural gas to Applicant for distribution and sale to the inhabitants of Lewisport, Kentucky, and vicinity as hereinafter described, all as more fully represented in the application, which is now on file with the Commission and open to public inspection.

Applicant states that the City of Lewisport has a population of 750 for 1955, with an estimated increase of 100 by 1958, and will require 513 Mcf of natural gas per day in the third year of operation, including 100 Mcf for a firm industrial customer.

Applicant estimates that the total overall cost of its proposed distribution system will be $164,000, which Applicant proposes to finance with the proceeds from the sale of gas revenue bonds.

Protests or petitions to intervene may be filed with the Commission, in accordance with §§ 1.8 and 1.10 of its rules of practice and procedure (18 CFR 1.8 and 1.10) on or before June 12, 1956.

[SEAL] LEON M. FUQUAY,
*Secretary.*

[F. R. Doc. 56-4227; Filed, May 29, 1956; 8:47 a. m.]

## OFFICE OF DEFENSE MOBILIZATION

### W. C. BAKER

STATEMENT OF CHANGES IN FINANCIAL INTERESTS

APRIL 30, 1956.

I have your letter of the 27th, enclosing Forms ODM–163, on which it is required under the provisions of Defense Production Act and Executive Order No. 10647 that a statement of financial interests be filled in and the forms filed semi-annually and published in the FEDERAL REGISTER.

There has been no change in the information previously filed by me and under the circumstances presume it is not necessary to again fill out the forms.[1]

## SECURITIES AND EXCHANGE COMMISSION

[24W–1629]

### SKY RIDE HELICOPTER CORP.

ORDER TEMPORARILY SUSPENDING EXEMPTION, STATEMENT OF REASONS THEREFOR, AND NOTICE OF OPPORTUNITY FOR HEARING

MAY 24, 1956.

I. Sky Ride Helicopter Corporation, a Delaware corporation, with principal offices located at Washington National Airport, Washington 1, D. C., having filed with the Commission on July 22, 1953, a Notification on Form 1–A and an Offering Circular, and subsequently having filed amendments thereto relating to a proposed offering of 10,000 shares of no par capital stock at $2 per share, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) thereof and Regulation A promulgated thereunder; and

II. The Commission having reasonable cause to believe that the terms and conditions of Regulation A have not been complied with in that the company has failed to file on Form 2–A reports of sales as required by Rule 224 of Regulation A, and has ignored requests by the Commission's staff for such reports.

III. *It is ordered*, Pursuant to Rule 223 (a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for hearing; that, within 20 days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place for said hearing will be promptly given by the Commission.

*It is further ordered*, That this Order and Notice shall be served upon Sky Ride Helicopter Corporation; Mr. Maynard H. Smith, 509 13th Street SE., Washington 3, D. C.; Mr. J. D. Theisz, 2413 32d Street SE., Washington 20, D. C.; and Mrs. Elizabeth Sibley, 1705 38th Street SE., Washington 20, D. C., personally or by registered mail or by confirmed telegraphic notice, and shall be published in the FEDERAL REGISTER.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

## INTERSTATE COMMERCE COMMISSION

[Notice 114]

### MOTOR CARRIER APPLICATIONS

MAY 25, 1956.

Protests consisting of an original and two copies to the granting of an application must be filed with the Commission within 30 days from this date of publication of this notice in the FEDERAL REGISTER and a copy of such protest served on the applicant. Each protest must clearly state the name and street number, city and state address of each protestant on behalf of whom the protest is filed (49 CFR 1.240 and 1.241). Failure to seasonably file a protest will be construed as a waiver of opposition and participation in the proceeding unless an oral hearing is held. In addition to other requirements of Rule 40 of the general rules of practice of the Commission (39 CFR 1.40), protests shall include a request for a public hearing, if one is desired, and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests containing general allegations may be rejected. Requests for an oral hearing must be supported by an explanation as to why the evidence cannot be submitted in forms of affidavits. Any interested person, not a protestant, desiring to receive notice of the time and place of any hearing, prehearing conference, taking of depositions, or other proceeding shall notify the Commission by letter or telegram within 30 days of publication of this notice in the FEDERAL REGISTER. Except when circumstances require immediate action, an application for approval, under section 210a (b) of the act, of the temporary operations of Motor Carrier properties sought to be acquired in an application under section 5 (2) will not be disposed of sooner than 10 days from the date of publication of this notice in the FEDERAL REGISTER. If a protest is received prior to action being taken, it will be considered.

### APPLICATIONS OF MOTOR CARRIERS OF PROPERTY

No. MC 200 Sub 190, filed May 10, 1956, RISS & COMPANY, INC., 15 West 10th Street, Kansas City, Mo. For authority to operate as a *common carrier*, over regular routes, transporting: *General commodities*, except livestock, serving the site of the Glenn L. Martin Company plant located north of Colorado Highway 75, opposite the community of Kassler (Waterton), Colo., as an off-route point in connection with applicant's authorized operations to and from Denver, Colo., over U. S. Highway 85. Applicant is authorized to conduct operations in Missouri, Colorado, Oklahoma, Kansas, Texas, Illinois, and Iowa.

No. MC 263 Sub 81, filed April 30, 1956, GARRETT FREIGHTLINES, INC., 2055 Pole Line Road, Pocatello, Idaho. Applicant's attorney: Maurice H. Greene, P. O. Box 1554, Boise, Idaho. For authority to operate as a *common carrier*, over regular routes, transporting: *Bulk ores* and *concentrates*, (1) from the mine and mill of Calera Mining Company near Cobalt, Idaho, to the smelter of the Calera Mining Company at Garfield, Utah, from the mine and mill of Calera Mining Company near Cobalt over unnumbered highway to junction U. S. Highway 93 near Challis, Idaho, thence over U. S. Highway 93 to junction Alternate U. S. Highway 93 near Challis, thence over Alternate U. S. Highway 93 to junction U. S. Highway 26 at Arco, Idaho, thence over U. S. Highway 26 to junction U. S. Highway 191 at Blackfoot, Idaho, thence over U. S. Highway 191 to Salt Lake City, Utah, thence over U. S. Highway 40 to Garfield, serving no intermediate points, (2) from the mine and mill of Calera Mining Company near Cobalt, Idaho, to the smelter of the American Smelting & Refining Company at or near Tacoma, Wash., (a) from the mine and mill of Calera Mining Company near Cobalt over unnumbered highway to junction U. S. Highway 93 at North Fork, Idaho, thence over U. S. Highway 93 to junction U. S. Highway 10 at Missoula, Mont., thence over U. S. Highway 10 to junction U. S. Highway 99 at Seattle, Wash., thence over U. S. Highway 99 to Tacoma, serving no intermediate points, (b) from the mine and mill of Calera Mining Company over unnumbered highway to junction U. S. Highway 93 near Challis, Idaho, thence over U. S. Highway 93 to junction Alternate U. S. Highway 93 near Challis, Idaho, thence over Alternate U. S. Highway 93 to junction U. S. Highway 93 near Shoshone, Idaho, thence over U. S. Highway 26 to junction U. S. Highway 30 at Bliss, Idaho, thence over U. S. Highway 30 to junction Oregon Highway 207 near Stanfield, Oreg., thence over Oregon Highway 207 to junction U. S. Highway 730 near Cold Springs, Oreg., thence over U. S. Highway 730 to junction Washington Highway 8 at Plymouth, Wash., thence over Washington Highway 8 to junction Washington Highway 8–E, near Paterson, Wash., thence over Washington Highway 8–E to junction U. S. Highway 410 at or near Prosser, Wash., thence over U. S. Highway 410 to junction U. S. Highway 97 at Buena, Wash., thence over U. S. Highway 97 to junction U. S. Highway 10 at Ellensburg, Wash., thence over U. S. Highway 10 to Seattle, Wash., thence over U. S. Highway 99 to Tacoma, serving no intermediate points.

No. MC 504 Sub 22, filed May 7, 1956, LOUIS PATZ, doing business as HARPER MOTOR LINES, 220 North McIntosh Street, Elberton, Ga. Applicant's attorney: Reuben G. Crimm, 805 Peachtree Street Building, Atlanta 5, Ga. For authority to operate as a *common carrier*, over irregular routes, transporting: *Plastic bottles* and *plastic vials* when moving in connection with glass containers and closures, and *closures* for plastic bottles and plastic vials, from Gas City, Ind., to points in Georgia and points in that part of Florida north of a line beginning at Ft. Pierce, Fla. and extending westward along Florida Highway 70 to junction Florida Highway 72 at or near Arcadia, thence along Florida Highway 72 to Sarasota, Fla., including points on the indicated portions of the highways specified; *fibreboard boxes* when moving in connection with glass containers and closures, (a) from Streator, Ill., Huntington, W. Va., and Bridgeton, N. J., to points in Alabama and Georgia; (b) from Fairmont, W. Va., to points in Alabama and points in Georgia south of U. S. Highway 280; and (c) from Streator, Ill. and Fairmont, Huntington and Owens, W. Va., to points in Florida on and north of a line beginning at Ft. Pierce and extending west along Florida Highway 70 to junction Florida Highway 72 at or near Arcadia, thence along Florida Highway 72 to Sarasota; and *fibreboard boxes* and *wooden boxes* or *wooden box parts* when moving in connection with glass containers and closures, from Alton, Ill., to points in Alabama and Georgia and points in that part of Florida on and north of a line beginning at Ft. Pierce and extending west along Florida Highway 70 to junction Florida Highway 72 at or near Arcadia, thence along Florida Highway 72 to Sarasota.

NOTE: The authority here sought applies only as to additional commodities in connection with applicant's present authority to transport glass containers and closures from and to above-outlined origin and destination territory in Certificate No. MC 504 Sub 1 dated December 28, 1955.

No. MC 730 Sub 68, filed May 21, 1956, PACIFIC INTERMOUNTAIN EXPRESS CO., a corporation, 299 Adeline Street, Oakland, Calif. For authority to operate as a *common carrier*, transporting: *General commodities, including Class A and B explosives*, but excepting livestock, household goods as defined by the Commission and commodities requiring special equipment, serving the Glen Canyon Dam Site located on the Colorado River approximately 15 miles upstream from Marble Canyon, Ariz., near the Utah-Arizona boundary, points within 10 miles thereof, and construction sites located at points on access roads thereto, as off-route points in connection with applicant's authorized regular route operations between Salt Lake City, Utah, and Los Angeles, Calif. Applicant is authorized to conduct operations in California, Colorado, Idaho, Illinois, Kansas, Missouri, Montana, Nevada, Oregon, Utah, Washington, and Wyoming.

No. MC 2329 Sub 125 (CORRECTION). The foregoing docket number shown on Page 3442, issue of May 23, 1956, as assigned to the application of HAYES FREIGHT LINES, INC., 628 East Adams Street, Springfield, Ill., was in error. The correct docket number assigned is MC 42329 Sub 125, and the proposed operations will be conducted in the manner set forth under the latter docket number, as published this issue.

No. MC 6964 Sub 4, filed May 15, 1956, MID-WEST MOTOR SERVICE COMPANY, a corporation, 4915 South Campbell Avenue, Chicago, Ill. Applicant's attorney: Jack Goodman, 39 South LaSalle Street, Chicago 3, Ill. For authority to operate as a *common carrier*, over irregular routes, transporting: *Malt beverages*, from Chicago, Ill., to points in Iowa on and east of U. S. Highway 69, including Davenport, Clinton and Muscatine, Iowa, but excluding all other points in Iowa located within 200 miles

of Chicago, Ill., and *empty containers or other such incidental facilities* used in transporting the commodity specified, from the above specified destination points to Chicago, Ill.

NOTE: Applicant is presently authorized to transport malt beverages from Chicago to points in Iowa within 200 miles of Chicago, except Davenport, Clinton and Muscatine, Iowa. Applicant is authorized to conduct operations in Illinois, Indiana, Iowa, Michigan, and Wisconsin.

No. MC 6992 Sub 1, filed May 15, 1956, AMERICAN RED BALL TRANSIT COMPANY, INC., 17 West Market Street, Indianapolis 4, Ind. Applicant's attorney: Homer S. Carpenter, Suite 618 Perpetual Building, 1111 E Street NW., Washington 4, D. C. For authority to operate as a *common carrier*, over irregular routes, transporting: *Household goods*, as defined by the Commission, (1) between points in Alabama, Arkansas, Colorado, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Hampshire, New Jersey, New Mexico, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Vermont, Virginia, West Virginia, Wisconsin, Wyoming, and the District of Columbia, on the one hand, and, on the other, points in Arizona, California, Idaho, Montana, Nevada, North Dakota, Oregon, Utah, and Washington, (2) between points in Arizona, California, Idaho, Montana, Nevada, North Dakota, Oregon, Utah and Washington. Applicant is authorized to conduct operations in Alabama, Arkansas, Colorado, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Hampshire, New Jersey, New Mexico, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Vermont, Virginia, Wisconsin, West Virginia, Wyoming, and the District of Columbia.

No. MC 8948 Sub 35 (Amended), published on Page 2901, issue of May 2, 1956, filed April 16, 1956. WESTERN TRUCK LINES, LTD., 2835 Santa Fe Avenue, Los Angeles 58, Calif. Applicant's attorney: Lloyd R. Guerra, 2835 Santa Fe Avenue, Los Angeles, Calif. For authority to operate as a *common carrier*, transporting: *Class A, B, and C explosives, ammunition*, not included in Class A, B, and C explosives, and *component parts* of Class A, B, and C explosives, and of ammunition not included in Class A, B, and C explosives, between Phoenix, Ariz., on the one hand, and, on the other, points in Arizona, California and Nevada, in connection with applicant's authorized regular route operations in Certificate No. MC 8948 and sub-numbers thereunder, in the transportation of general commodities, with exceptions. Applicant is authorized to conduct operations in Texas, California, Nevada, and Arizona.

No. MC 11185 Sub 96, filed May 14, 1956, J-T TRANSPORT, INC., 3501 Manchester Trafficway, Kansas City, Mo. Applicant's attorney: James W. Wrape, 2111 Sterick Building, Memphis 3, Tenn. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Airplane parts and equipment* (uncrated), except airplane engines, which parts and equipment require special handling and equipment, because of the delicate nature of the commodity involved, from Garland, Tex., to Burbank, Calif. Applicant is authorized to conduct operations throughout the United States.

No. MC 11185 Sub 97, filed May 14, 1956, J-T TRANSPORT COMPANY, INC., 3501 Manchester Trafficway, Kansas City, Mo. Applicant's attorney: James W. Wrape, 211 Sterick Building, Memphis 3, Tenn. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Aircraft parts and equipment* (uncrated), except airplane engines, which parts and equipment require special handling and equipment because of the delicate nature of commodity involved, from Grand Prairie, Tex., to Palmdale, Calif. Applicant is authorized to conduct operations throughout the United States.

No. MC 22454 Sub 345, filed May 14, 1956, NU-CAR CARRIERS, INC., Front and Pennell Streets, Chester, Pa. Applicant's attorney: Harry C. Ames, Jr., Transportation Building, Washington, D. C. For authority to operate as a *common carrier*, over irregular routes, transporting: *Trucks, tractors*, and *chassis*, in initial movements, in truckaway service, *truck bodies, cabs*, and *parts* and *accessories* for, and moving in the same shipment with, the vehicles to be transported, from Exton, Pa., to points in Alabama, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Kentucky, Maine, Maryland, Massachusetts, Michigan, Mississippi, Missouri, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia. Applicant is authorized to conduct operations throughout the United States.

No. MC 28132 Sub 41, filed May 16, 1956, HVIDSTEN TRANSPORT, INC., 2801 Main Avenue, Fargo, N. Dak. Applicant's attorney: Alan Foss, First National Bank Building, Fargo, N. Dak. For authority to operate as a *common carrier*, over irregular routes, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Grand Forks, N. Dak., on the one hand, and, on the other, the site of the United States Air Force Base and points within five (5) miles thereof, located approximately fifteen to twenty-five miles northwest of Grand Forks, N. Dak. Applicant is authorized to conduct operations in Minnesota and North Dakota.

No. MC 29490 Sub 5, filed May 16, 1956, WILLIAM S. CLARK, 506 North Street, Mifflintown, Pa. Applicant's attorney: Andrew Wilson Green, 603 North Front Street, Harrisburg, Pa. For authority to operate as a *common carrier*, over irregular routes, transporting: (1) *Firebrick*, from Van Dyke, Pa. (near Thompsontown, Juniata County, Pa.), to points in Ohio, north and east of U. S. Highway 250, and *damaged shipments of firebrick*, and *empty pallets* from points in Ohio north of U. S. Highway 250, to Van Dyke, Pa., and (2) *firebrick* from Niles, Ohio to Van Dyke, Pa., and Frostburg, Md.

No. MC 30319 Sub 67, filed May 7, 1956, SOUTHERN PACIFIC TRANSPORT COMPANY, a Corporation, 810 North San Jacinto Street, P. O. Box 4054, Houston, Tex. Applicant's attorney: Edwin N. Bell, Southern Pacific Lines, Texas & New Orleans Railroad Co., Houston 2, Tex. For authority to operate as a *common carrier*, over a regular route, transporting: *General commodities, including air freight* having a prior or subsequent movement by air, but excluding commodities of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment, between Orange, Tex., and Vinton, La., over U. S. Highway 90, serving, in addition to termini, all intermediate points located on and served by applicant's affiliate, the Texas & New Orleans Railroad, including Toomey, La. Applicant is authorized to conduct operations in Louisiana and Texas.

No. MC 30319 Sub 68, filed May 14, 1956, SOUTHERN PACIFIC TRANSPORT COMPANY, 810 North San Jacinto, P. O. Box 4054, Houston, Tex. Applicant's representative: G. D. Clark, P. O. Box 4054, Houston, Tex. For authority to operate as a *common carrier*, over regular routes, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment, between San Antonio, Tex., and Nixon, Tex., over U. S. Highway 87 serving the intermediate points of Sayers, Martinez, Adkins, Lavernia, Sutherland Springs, Stockdale, and Pandora. RESTRICTIONS: Service to be performed by carrier shall be limited to service which is auxiliary to, or supplemental of rail service of applicant's affiliate, the Texas and New Orleans Railroad Company; carrier shall not serve any point not a station on the railroad except Sayers, Martinez, Adkins, Lavernia, Sutherlands Springs, Stockdale and Pandora; all contractual arrangements between carrier and the railroad shall be reported to the Interstate Commerce Commission and shall be subject to the revision of and as the Commission finds it necessary in order that such arrangements shall be fair and equitable to the parties; and such further specific conditions as the Commission, in the future, may find it necessary to impose in order to restrict said carrier's operations to service which is auxiliary to, or supplemental of rail service.

NOTE: Applicant holds authority in Certificate No. MC 30319 Sub 24 to transport commodities as outlined above between San Antonio and Smiley, Tex., over U. S. Highway 87 with service to and from all intermediate points but is restricted against service at any point not a station on the Texas & New Orleans Railroad Company. The Railroad has pending petition to abandon that portion of its route between Salado Junction (near San Antonio) and Nixon, Tex., and the points applicant proposes to serve herein are intermediate points along this route. The purpose of this application is to modify the second condition in Certificate No. MC 30319 Sub 24 to read as follows: "The carrier shall not serve any point not a station on the railroad except Sayers, Martinez, Adkins, Lavernia, Sutherland Springs, Stockdale and Pandora, Tex." Applicant is authorized to conduct operations in Texas and Louisiana.

No. MC 30319 Sub 69, filed May 15, 1956, SOUTHERN PACIFIC TRANSPORT COMPANY, 810 North San Jacinto, P. O. Box 4054, Houston, Tex. Applicant's representative: G. D. Clark, P. O. Box 4054, Houston, Tex. For authority to operate as a *common carrier*, over regular routes, transporting: *General commodities*, including air freight having a prior or subsequent movement by air, but excluding those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment, between Reklaw, Tex., and the plant site of the Texas Power & Light Co., from Reklaw north over unnumbered County Road to junction F-M Road 839, thence over F-M Road 839 approximately 4.2 miles to junction unnumbered County Road, and thence over unnumbered County Road to Texas Power & Light Co. plant site, and return over the same route. Applicant is authorized to conduct operations in Texas and Louisiana.

NOTE: Reklaw, Tex., is a station on route of applicant as well as its rail affiliate, the Texas & New Orleans Railroad.

No. MC 30837 Sub 205, filed April 30, 1956, KENOSHA AUTO TRANSPORT CORPORATION, 4519 76th Street, Kenosha, Wis. For authority to operate as a *common carrier*, over irregular routes, transporting: *Internal combustion engines* and *parts thereof*, from Louisville, Ky., to Bridgeport, Conn., and *empty racks, pallets* or other *dunnage* used in transporting the commodities specified on return. Applicant is authorized to conduct operations in Indiana and Connecticut.

No. MC 38183 Sub 38, filed May 14, 1956, WHEELOCK BROS., INC., Third and Charlotte Streets, Kansas City, Mo. Applicant's attorney: Stockton, Linville and Lewis, The 1650 Grant Street Building, Denver 3, Colo. For authority to operate as a *common carrier*, over irregular routes, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods, as defined by the Commission, commodities in bulk, and commodities requiring special equipment, between Denver, Colo., and the site of the Glenn L. Martin Company plant, located north of Colorado Highway 75, opposite the community of Kassler (Waterton), Colo., restricted to traffic having a prior or subsequent movement over applicant's own lines. Applicant is authorized to conduct operations in Illinois, Colorado, Missouri, Kansas, Indiana, Iowa, Nebraska, Oklahoma, and Texas.

No. MC 42329 Sub 125, filed May 7, 1956, (CORRECTION), HAYES FREIGHT LINES, INC., 628 East Adams Street, Springfield, Ill., published on Page 3442, issue of May 23, 1956. Applicant's attorney: Jack Goodman, 39 South La Salle Street, Chicago 3, Ill. The description of authority sought reading "Between Aurora, Ind., on the one hand, and, on the other, points in Indiana" was in error. The correct authority sought in said application reads "*From* Aurora, Ind., *to* points in Indiana."

No. MC 48958 Sub 28, filed May 11, 1956, ILLINOIS - CALIFORNIA EXPRESS, INC., 510 East 51st Avenue, Denver 16, Colo. Applicant's attorney: Truman A. Stockton, Jr., The 1650 Grant Street Building, Denver 3, Colo. For authority to operate as a *common carrier*, transporting: *General commodities, including household goods as defined by the Commission* but excepting those of unusual value, Class A and B explosives, commodities in bulk, and commodities requiring special equipment, serving the site of the Glenn L. Martin Company plant located in Jefferson County, Colo., approximately nine (9) miles south and west of Denver as an off-route point in connection with applicant's authorized regular route operations. Applicant is authorized to conduct operations in Colorado, New Mexico, California, Arizona, Wyoming, Nebraska, Illinois, and Iowa.

No. MC 50404 Sub 43, filed May 14, 1956, THE MAXWELL CO., a Corporation, 2200 Glendale-Milford Road, Cincinnati, Ohio. Applicant's attorney: Herbert Baker, 50 West Broad Street, Columbus 15, Ohio. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Rosin sizing*, in bulk, in tank vehicles, from Addyston, Ohio, to points in the Lower Peninsula of Michigan.

No. MC 52465 Sub 14, filed May 14, 1956, WESTERN EXPRESS, a corporation, 2300 Ninth Avenue North, Great Falls, Mont. Applicant's attorney: Ray F. Koby, 527-529 Ford Building, Great Falls, Mont. For authority to operate as a *common carrier*, over regular routes, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods, as defined by the Commission, commodities in bulk, and commodities requiring special equipment, between Great Falls, Mont., and Kalispell, Mont., from Great Falls over U. S. Highways 89 and 91 to Vaughn, Mont., thence over U. S. Highway 89 to Browning, Mont., thence over U. S. Highway 2 to Kalispell (also from Great Falls over U. S. Highways 89 and 91 to Vaughn, Mont., thence over U. S. Highway 91 to Shelby, Mont., thence over U. S. Highway 2 to Kalispell) and return over the same routes, serving all intermediate points.

NOTE: All duplicating authority to be eliminated. Applicant is authorized to conduct operations in Montana.

No. MC 52657 Sub 485, filed May 14, 1956, ARGO AUTO CARRIERS, INC., 91st Street and Perry Avenue, Chicago 20, Ill. Applicant's attorney: Glenn W. Stephens, 121 West Doty Street, Madison, Wis. For authority to operate as a *common carrier*, over irregular routes, transporting: *Automotive vehicles*, passenger and freight, in secondary truckaway service, from Baltimore, Md., to points in Illinois, Indiana, Iowa, Minnesota, North Dakota, South Dakota, and Wisconsin. Applicant is authorized to conduct operations throughout the United States.

No. MC 52746 Sub 45, filed May 7, 1956, KNAUS TRUCK LINES, INC., 201 West 21st Street, Kansas City, Mo. Applicant's attorney: Walter V. Huston, 4105 Main Street, Kansas City 11, Mo. For authority to operate as a *common carrier*, transporting: *General commodities*, except Class A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, including bulk liquids, assembled automobiles, and heavy machinery requiring special equipment for handling, (1) between Springfield, Ill., and Virginia, Ill.; from Springfield over Illinois Highway 125 to Virginia and return over the same route, serving no intermediate or off-route points; (2) between Rushville, Ill., and Burlington, Iowa: from Rushville over U. S. Highway 67 to junction Illinois Highway 116, thence over Illinois Highway 116 to junction U. S. Highway 34, and thence over U. S. Highway 34 to Burlington, and return over the same route, serving no intermediate or off-route points; (3) between Ottumwa, Iowa, and Des Moines, Iowa: from Ottumwa over U. S. Highway 63 to junction Iowa Highway 163 and thence over Iowa Highway 163 to Des Moines, and return over the same route, serving no intermediate or off-route points, as alternate routes for operating convenience only in connection with applicant's authorized regular routes (1) between Kansas City, Mo., and Chicago, Ill., and between Jacksonville, Ill., and Rushville, Ill., (2) between Taylor, Mo., and Peoria, Ill., and between Kansas City, Mo., and Davenport, Iowa, and (3) between Kansas City, Mo., and Burlington, Iowa, and between Kansas City, Mo., and Des Moines, Iowa, in Certificate No. MC 52746. Applicant is authorized to conduct operations in Kansas, Iowa, Indiana, Illinois, Missouri, and Colorado.

No. MC 55236 Sub 29, filed May 16, 1956, OLSON TRANSPORTATION COMPANY, P. O. Box 1187, Green Bay, Wis. For authority to operate as a *common carrier*, transporting: *General commodities, including those of unusual value, Class A and B explosives, commodities in bulk*, and *commodities requiring special equipment*, but excepting household goods as defined by the Commission, serving the Green Bay, Wis., Filtering Plant site about eleven (11) miles east of Green Bay, Wis., as an off-route point in connection with applicant's authorized regular route operations. Applicant is authorized to conduct operations in Wisconsin, Illinois, and Indiana.

No. MC 59590 Sub 7, filed May 14, 1956, CLIPPER TRANSPORTATION COMPANY, 56 McAdoo Avenue, Jersey City, N. J. Applicant's attorney: George A. Olsen, 69 Tonnele Avenue, Jersey City 6, N. J. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Reinforced concrete planks*, from the site of the Concrete Plank Company plant in Jersey City, N. J., to points in New York, Ohio, Pennsylvania, Virginia, West Virginia and the District of

Columbia, and *empty containers or other such incidental facilities* used in transporting the commodities specified on return. Applicant is authorized to conduct operations in Pennsylvania, New Jersey, New York, and Connecticut.

No. MC 60478 Sub 10, filed May 14, 1956, WILLIAM LAND, INC., 513 Lackawanna Avenue, Scranton, Pa. Applicant's attorney: Morris J. Winokur, Market Street National Bank Building, Juniper and Market Streets, Philadelphia, Pa. For authority to operate as a *common carrier*, over a regular route, transporting: *General commodities*, between Scranton, Pa., and Wilkes-Barre, Pa., from Scranton over U. S. Highway 11 to Pittstown, thence over unnumbered highway to Wilkes-Barre, and return over the same route, serving the intermediate points of Virginia, Rocky Glen, Moosic, Avoca, Dupont, Pittstown, Plains and Midvale. RESTRICTION: The service by motor vehicle to be performed by said carrier shall be limited to service which is auxiliary to, or supplemental of, rail service of the Delaware, Lackawanna and Western Railroad Company, hereinafter called the railroad. Said carrier shall not serve any point not a station on the line of the railroad. All contractual arrangements between said carrier and the railroad shall be reported to the Commission and shall be subject to revision, if and as the Commission finds it to be necessary in order that such arrangements shall be fair and equitable to the parties. Such further specific conditions as the Commission, in the future, may find necessary to impose in order to restrict said carrier's operation to service which is auxiliary to, or supplemental of, rail service. Such further specific conditions as the Commission in the future may find it necessary to impose in order to restrict said carrier's operation by motor vehicle to service which is auxiliary to, or supplemental of, the rail service of the railroad. Applicant is authorized to conduct operations in Pennsylvania and New York.

NOTE: Applicant states that the transportation will be performed for Lackawanna & Wyoming Valley Railroad Co. in trailers which have a prior or subsequent movement on rail cars of Delaware-Lackawanna & Western Railroad Co. in so-called "piggy back service" in substitution for authorized service by the said Lackawanna & Wyoming Valley Railroad Co.

No. MC 61932 Sub 210, filed May 21, 1956, ROGERS CARTAGE CO., a Corporation, 1934 South Wentworth Avenue, Chicago, Ill. Applicant's attorney: Carl L. Steiner, 39 South La Salle Street, Chicago 3, Ill. For authority to operate as a *common carrier*, over irregular routes, transporting: *Acids* and *chemicals* in bulk, in tank vehicles, from points in Pike County, Mo., to points in Minnesota, Iowa, Nebraska, Oklahoma, Arkansas, Missouri, Wisconsin, Illinois, Michigan, Indiana, Kansas, Kentucky, and Tennessee. Applicant is authorized to conduct operations in Alabama, Arkansas, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri, New Jersey, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, South Carolina, Tennessee, Texas, West Virginia, and Wisconsin.

No. MC 65580 Sub 7, filed March 23, 1956, (Amended), published page 2161, issue of April 4, 1956, MUSHROOM TRANSPORTATION CO., INC., 2514–18 North Broad Street, Philadelphia 32, Pa. Applicant's attorney: Eugene T. Liipfert, 2001 Massachusetts Avenue NW., Washington 6, D. C. For authority to operate as a *common carrier*, transporting: *General commodities*, except those of unusual value, Class A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, serving the plant site of Haynes Lithograph Company, near Rockville, Md., located approximately within one mile of the Washington, D. C., Commercial Zone as defined by the Commission, as an off-route point in connection with applicant's regular route operations (1) between Baltimore, Md., and Philadelphia, Pa., and (2) between Baltimore, Md., and Buffalo, N. Y., restricted against service from the above-requested point to or from points on applicant's regular route operations authorized in Maryland, Pennsylvania, and the District of Columbia, as described in (1) and (2) above. Applicant is authorized to conduct operations in Maryland, New York, and Pennsylvania.

NOTE: Applicant states it is now authorized to serve the Washington, D. C., Commercial Zone as defined by the Commission, as an off-route point in connection with the above-described regular route operations.

No. MC 66562 Sub 1288, filed May 15, 1956, RAILWAY EXPRESS INCORPORATED, 219 East 42d Street, New York 17, N. Y. Applicant's attorney: William H. Marx, 219 East 42d Street, New York 17, N. Y. For authority to operate as a *common carrier*, over regular routes, transporting: *General commodities, including Class A and B explosives*, moving in express service, between Paris, Ky., and Flemingsburg, Ky., from Paris over U. S. Highway 68 to junction Kentucky Highway 36, thence over Kentucky Highway 36 to junction Kentucky Highway 32, and thence over Kentucky Highway 32 to Flemingsburg, and return over the same routes, serving the intermediate point of Carlisle, Ky. Applicant is authorized to conduct operations throughout the United States.

No. MC 68618 Sub 23, filed April 30, 1956, LOS ANGELES-SEATTLE MOTOR EXPRESS, INC., 3200 Sixth Avenue South, Seattle, Wash. Applicant's attorney: Donald D. Fleming, 1405 Hoge Building, Seattle 4, Wash. For authority to operate as a *common carrier*, over irregular routes, transporting: *Malt liquor, malt liquor containers, bottle openers, can openers, bottle caps*, and *advertising material* when transported in connection with the commodity which it advertises, from Seattle, Tacoma, and Olympia, Wash., to points in California. *Empty containers or other such incidental facilities* (not specified) used in transporting the commodities specified in this application and *returned shipments* of the above-specified commodities on return.

NOTE: Applicant states any duplication of present authority to be excluded.

No. MC 68909 Sub 47, filed May 7, 1956, (CORRECTION), DECATUR CARTAGE CO., a corporation, 1932 South Wentworth Avenue, Chicago, Ill., published on Page 3443, issue of May 23, 1956. Applicant's attorney: Jack Goodman, 39 South La Salle Street, Chicago 3, Ill. The description of authority sought reading "Between Aurora, Ind., on the one hand, and, on the other, points in Indiana" was in error. The correct authority sought in said application reads "*From* Aurora, Ind., *to* points in Indiana."

No. MC 76246 Sub 6, filed May 15, 1956, EMMERSON TRUCK & STORAGE CO., a corporation, 121 East State Street, Battle Creek, Mich. Applicant's attorney: Walter N. Bieneman, Guardian Building, Detroit 26, Mich. For authority to operate as a *common carrier*, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, and *related machinery parts*, and *related contractors' materials and supplies* when their transportation is incidental to the transportation by carrier of commodities which by reason of size or weight require the use of special equipment, between points in that part of Michigan on and south of a line extending along the northern boundaries of Allegan, Barry, and Eaton Counties, thence on and west of a line extending along U. S. Highway 127 to the Michigan-Ohio State line, on the one hand, and, on the other, points in Pennsylvania, New York, New Jersey, Connecticut, Missouri, and Iowa. Applicant is authorized to conduct operations in Michigan, Illinois, Indiana, Ohio, and Wisconsin.

No. MC 76564 Sub 54, filed May 17, 1956, HILL LINES, INC., 1300 Grant Street, Amarillo, Tex. Applicant's attorney: Morris G. Cobb, 1300 Grant Street, Amarillo, Tex. For authority to operate as a *common carrier*, over regular routes, transporting: *General commodities*, including Class A and B explosives and commodities in bulk, but excluding those of unusual value, household goods as defined by the Commission, and commodities requiring special equipment, (1) between Hobbs, N. Mex., and the Texas-New Mexico State line near Jal, N. Mex., from Hobbs over New Mexico Highway 18 to the Texas-New Mexico State line near Jal, N. Mex., and return over the same route, (2) between the junction of New Mexico State Highway 18 and New Mexico State Highway 176 near Eunice, N. Mex., and the junction of New Mexico State Highway 176 and U. S. Highways 62–180, from the junction of New Mexico State Highway 18 and New Mexico State Highway 176 near Eunice, N. Mex., over New Mexico State Highway 176 to junction of U. S. Highways 62–180 and return over the same route, (3) between the junction of New Mexico State Highway 8 and U. S. Highways 62–180 and the junction of New Mexico State Highway 8 and New Mexico State Highway 176, from the junction of New Mexico State Highway 8 and U. S. Highways 62–180, over New Mexico State Highway 8 to junction of New Mexico State Highway 176 and return over the same route, serving all intermediate and off-route points within 5 miles of all three of the above described routes, and the additional off-route points of Ochoa and Bennett, N. Mex. Applicant is authorized to conduct operations in New Mexico and Texas.

No. MC 80284 Sub 15, filed May 16, 1956, CHRISPENS TRUCK LINES, INC., 4551 South Racine Avenue, Chicago, Ill. Applicant's attorney: Joseph M. Scanlan, 111 West Washington Street, Chicago 2, Ill. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Cleaning compounds, washing compounds, soap, soap products, concentrated lye, chlorinated lime, shortening, oleomargarine* and *glycerine*, between Chicago, Ill., on the one hand, and, on the other, Fort Wayne, Ind., and points in that part of Ohio on and north of a line beginning at the West Virginia-Ohio State line and extending along U. S. Highway 22 to Cincinnati, Ohio, thence along the Ohio River to the Ohio-Indiana State line.

NOTE: Applicant states it has been transporting, since 1934, the commodities applied for herein into the identical territory covered by the application under its authority to transport "Packing house products"; that the Commission has questioned the right of applicant to haul these commodities for any shipper other than a meat packing house; and that applicant intends to make a motion to dismiss the application after it has presented evidence.

No. MC 80428 Sub 21, filed May 10, 1956, H. LEON McBRIDE, FRANK McBRIDE AND H. LEON McBRIDE, JR., doing business as H. L. & F. McBRIDE, Main Street, Goshen, N. Y. Applicant's attorney: Sherwin B. Abrams, 292 Madison Avenue, New York 17, N. Y. For authority to operate as a *common carrier*, over irregular routes, transporting: *Milk products*, such as butter, in boxes, cartons, cans, pails or tubs; *buttermilk*, in cans or in containers in cases; ice cream mix, in containers or in bulk, in tank vehicles; *milk, skim, condensed, concentrated*, in containers, or in bulk, in tank vehicles; *milk, skim, powdered*, in containers, *milk, whole, powdered*, in containers, *milk, whole, concentrated*, in containers, from Bear Lake, Pa., to Arkport, Cohocton, and New York, N. Y., and *empty containers or other such incidental facilities* (not specified) on return. Applicant is authorized to conduct operations in Maryland, New York, New Jersey, Pennsylvania, Connecticut, and Massachusetts.

No. MC 82507 Sub 4, filed May 14, 1956, LANDWEHR TRANSFER AND STORAGE, INC., 225 N. P. Lane SE., St. Cloud, Minn. Applicant's representative: A. R. Fowler, Agent, Associated Motor Carriers Tariff Bureau, 2288 University Avenue, St. Paul 14, Minn. For authority to operate as a *common carrier*, over irregular routes, transporting: *Cleaning, scouring and washing compounds, cooking, oil fats, lard compounds, lard substitutes, vegetable oil shortening, soap, soap products* and *foodstuffs*, (1) from St. Cloud, Minn., to points in Benton, Kandiyohi, Meeker, Morrison, Pope, Stearns, Todd, Sherburne and Wadena Counties, Minn., and those in Isanti, Mille Lacs, and Wright Counties, Minn., within 35 miles of St. Cloud, Minn., (2) from Alexandria, Brainerd, Fergus Falls, Glenwood, Little Falls, Long Prairie, Milaca, Motley, Sauk Centre, Wadena, and Wilmar, Minn., to points in Aitkin, Benton, Cass, Crow Wing, Douglas, Isanti, Kanabec, Kandiyohi, Meeker, Mille Lacs, Morrison, Otter Tail, Pope, Sherburne, Stearns, Todd, Wadena and Wright Counties, Minn., and (3) *damaged shipments* of the above-specified commodities, on return. Applicant is authorized to conduct operations in Minnesota.

No. MC 85239 Sub 9, filed May 14, 1956, WEIMAR STORAGE CO., INC., 337 West Grand Street, Elizabeth, N. J. Applicant's representative: Bert Collins, 140 Cedar Street, New York 6, N. Y. For authority to operate as a *common carrier*, over irregular routes, transporting: *Petroleum* and *petroleum products*, in bulk, in tank vehicles, from Delaware City, Del., to points in Connecticut, Maryland, Massachusetts, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Virginia, West Virginia, and the District of Columbia. Applicant is authorized to conduct operations in New Jersey, New York, Connecticut, and Pennsylvania.

No. MC 87674 Sub 5, filed May 3, 1956, BERNERD EDWARD RICE, doing business as RICE TRANSFER & STORAGE, 177 Lancaster Avenue, Rock Hill, S. C. Applicant's attorney: Frank A. Graham, Jr., 707 Security Federal Building, Columbia 1, S. C. For authority to operate as a *common carrier*, over irregular routes, transporting: *Meat, meat products, meat by-products, dairy products*, and *articles distributed by meat packing houses*, as defined by the Commission, from Charlotte, N. C., and Rock Hill, S. C., to points in that part of North Carolina bounded by a line beginning at Statesville, N. C., and extending therefrom in a northerly direction over U. S. Highway 21 to the intersection of that highway with U. S. Highway 421 at Brooks Cross Roads, N. C., thence west over U. S. Highway 421 to junction with N. C. Highway 18, thence southeast over N. C. Highway 18 to North Wilkesboro, N. C., thence southwest over N. C. Highway 18 through Lenoir to Morganton, N. C., thence east over U. S. Highway 64–70 to point of beginning, including points on the indicated portions of the highways specified, and *damaged shipments* from the above described destination points to Charlotte, N. C. and Rock Hill, S. C. Applicant is authorized to conduct operations in North Carolina and South Carolina.

No. MC 88905 Sub 15, filed March 13, 1956, (Amended), published March 28, 1956 on Page 1922, CARL R. VAN DYKE, doing business as C. R. VAN DYKE, 87 Clinton Street, Montgomery, N. Y. Applicant's representative: A. E. Enoch, Brodhead Block, 556 Main Street, Bethlehem, Pa. For authority to operate as a *common carrier*, over irregular routes, transporting: *Coal*, from points in Lackawanna, Luzerne, Carbon, and Schuylkill Counties, Pa., to points in Hartford and Litchfield Counties, Conn., excluding Woodbury, Litchfield, New Hartford, and Roxbury, Conn. Applicant is authorized to conduct operations in Connecticut, New York and Pennsylvania.

NOTE: Applicant has contract carrier, irregular route authority under Permit No. MC 109864, dated December 12, 1955, acquired by carrier pursuant to MC–FC 58506, section 210 (dual operations) may be involved.

No. MC 93903 Sub 5, filed May 10, 1956, ANDERSON'S TRUCKING CORPORATION, 93 Marcy Avenue, East Orange, N. J. Applicant's attorney: Herman B. J. Weckstein, 1060 Broad Street, Newark 2, N. J. No. MC 112822 Sub 7, filed April 25, 1956, EARL BRAY, INC., Lenwood and North Street, P. O. Box 910, Cushing, Okla. Applicant's attorney: Erle W. Francis, Veterans of Foreign Wars Building, 214 West Sixth Street, Topeka, Kans. For authority to operate as a *common carrier*, over irregular routes, transporting: *Petroleum products*, in bulk, in tank vehicles, from Ponca City, Okla., and points in Kay County, Okla., to points in Arkansas, Illinois, Iowa, Kentucky, Minnesota, Nebraska, Tennessee, and Missouri (except points in that part of Missouri south of U. S. Highway 36 and west of a line beginning at Macon, Mo., and extending along U. S. Highway 63 to Jefferson City, Mo., thence along U. S. Highway 54 to Camdenton, Mo., thence along Missouri Highway 5 to Lebanon, Mo., thence along U. S. Highway 66 to Springfield, Mo., and thence along U. S. Highway 65 to the Missouri-Arkansas State line), and *damaged shipments* of the above specified commodities, on return. Applicant is authorized to conduct operations in Oklahoma, Kansas, Missouri, and Arkansas.

No. MC 113624 Sub 8 (Amended), published on Page 2905, issue of May 2, 1956, filed April 16, 1956, WARD TRANSPORT, INC., P. O. Box 133, Pueblo, Colo. Applicant's attorney: Marion F. Jones, Suite 526 Denham Building, Denver 2, Colo. For authority to operate as a *common carrier*, over irregular routes, transporting: *Petroleum* and *petroleum products*, in bulk, in tank vehicles, (1) between points in Colorado, on the one hand, and, on the other, points in Nebraska; (2) from Albuquerque, N. Mex., and points in New Mexico within 5 miles of Albuquerque, to points in Colorado on and west of U. S. Highway 85 and on and south of U. S. Highway 50; and (3) from points in Colorado to points in Kansas north of Kansas Highway 96 and on and west of U. S. Highway 283. Applicant is authorized to conduct operations in Colorado, New Mexico, Kansas, Oklahoma, Texas, Wyoming, and Nebraska.

No. MC 113779 Sub 42, filed May 16, 1956, YORK INTERSTATE TRUCKING, INC., 8222 Market Street Road, Houston, Tex. For authority to operate as a *common carrier*, over irregular routes, transporting: *Tung oils, naval stores, vegetable oils, lards, cooking oils, shortenings,*

and *blends thereof; corn syrups, molasses, glucose, flavoring syrups, fish oils, fish solubles* and *fish oil foods*, between points in Arkansas, Colorado, Illinois, Indiana, Iowa, Kansas, Louisiana, Mississippi, Missouri, Nebraska, Oklahoma and Texas (except fish oils and fish solubles from points in Jefferson County, Tex., to Avondale and Shreveport, La., and Springdale, Ark., and points in Iowa, Kansas and Oklahoma). Applicant is authorized to conduct operations in Louisiana and Arkansas.

No. MC 113822 Sub 1, filed May 7, 1956, JOHN DALGARNO, 465 Milton Avenue, Casper, Wyo. For authority to operate as a *common carrier*, over irregular routes, transporting: *Machinery, equipment, materials*, and *supplies*, including complete *drilling rigs*, used in, or in connection with: the discovery, development, production, refining, manufacture, processing, storage, transmission and distribution of natural gas and petroleum, and their products and by-products, and the construction, operation, servicing, repair, maintenance and dismantling of pipelines, including the stringing and picking up thereof, except in connection with main or trunk pipelines, between points in Wyoming, North Dakota, South Dakota, Montana, Utah, Colorado, and Nebraska. Applicant is authorized to conduct operations in Wyoming, Utah, Colorado, Nebraska, South Dakota, North Dakota, Montana, and Wyoming.

No. MC 113855 Sub 7, filed May 14, 1956, INTERNATIONAL TRANSPORT, INC., 2303 Third Avenue North, Fargo, N. Dak. Applicant's attorney: Franklin J. VanOsdel, First National Bank Building, Fargo, N. Dak. For authority to operate as a *common carrier*, over irregular routes, transporting: *Heavy machinery and machine parts, farm implements* and *road construction materials, supplies and equipment*, from points in North Dakota, South Dakota, Iowa, Illinois, and Wisconsin to ports of entry on the Minnesota-Canada border.

NOTE: Applicant is authorized in Certificate No. MC 113855 Sub 1 to perform the above service to all points on the Minnesota-Canada border between Grand Forks and International Falls, and in the same certificate is authorized to transport heavy machinery between Minot, N. Dak., and points in Minnesota. Applicant states that the transportation will be in foreign commerce only and no new origins, destinations or commodities are sought. Applicant is authorized to conduct operations in North Dakota, South Dakota, Minnesota, Iowa, Illinois, and Wisconsin.

No. MC 115050 Sub 1, filed May 10, 1956, DARRELL V. THOMPSON, doing business as THOMPSON TRANSPORT COMPANY, P. O. Box 30, McPherson, Kans. Applicant's attorney: W. A. Sawtell, Jr., Farnam Building, Omaha 2, Nebr. For authority to operate as a *common carrier*, over irregular routes, transporting: *Crude oil*, in bulk, in tank vehicles, from oil wells in Richardson and Pawnee Counties, Nebr., and Brown County, Kans., to the Fairview pipeline outlet at Fairview, Kans., and points in Brown County, Kans.

No. MC 115209 Sub 1, filed May 14, 1956, WALTER PIERCE, doing business as PIERCE & SON, 935 Holly Street, San Carlos, Calif. Applicant's attorney: John Waldier, 733 Laurel Street, San Carlos, Calif. For authority to operate as a *contract carrier*, over regular routes, transporting: *Potato chips, corn chips, cheese nibbles, salted corn, toasted corn, pretzels, soda crackers, fried pork skins, marshmallows, candy*, and *nuts*, in containers, and in connection therewith *racks* and *display material* used in the sale and promotion of such products, (1) from Reno, Nev., to Sparks, Nev., from Reno over U. S. Highway 40 to Sparks. *Damaged and unsalable shipments* of the above-specified commodities and *used empty containers* and *racks* on return. (2) Serving the off-route point of North Sacramento, Calif., in connection with carrier's regular route operations in Permit No. MC 115209, from and to Oakland, Calif., and Reno, Nev., over U. S. Highway 40, in the transportation of the commodities specified in this application. Applicant is authorized to conduct operations in California and Nevada.

No. MC 115322 Sub 5, filed May 16, 1956, J. M. BLYTHE, doing business as J. M. BLYTHE MOTOR LINES, 1303 French Avenue, Sanford, Fla. Applicant's attorney: Frank B. Hand, Jr., Transportation Building, Washington 6, D. C. For authority to operate as a *common carrier*, over irregular routes, transporting: *Frozen foods* and *chilled fruit products*, requiring refrigeration in transit, from points in Florida to points in Maine, New Hampshire, Vermont, and those in New York on and north of U. S. Highway 20, and Westfield, Mass.

Citrus fruits (grapefruit, lemons, limes, oranges, and tangerines)—Continued
Marketing of citrus fruits grown in various States—Continued
California:
Grapefruit (Imperial and Riverside Counties); limitation of shipments 3001
Lemons 3115, 4393
Limitation of shipments 2269, 2432, 2477, 2600, 2746, 3000, 3159, 3306, 3620, 3740, 3967, 4226, 4256, 4270, 4513, 4854.
Oranges:
Navel oranges 2473, 3114
Limitation of shipments 2267, 2429, 2599, 2650, 2743, 2997, 3157, 3617, 4707
Valencia oranges 2384, 3022, 3460, 4072, 4392
Limitation of shipments 2268, 2429, 2599, 2717, 2743, 2999, 3157, 3305, 3619, 3739, 3964, 3965, 4255, 4509, 4708, 4709, 4852
Florida:
Grapefruit; limitation of shipments 2430, 2744, 3157, 3305, 3620, 3966
Limes 2895, 3413
Quality and size regulation 2650, 3872, 4256
Oranges; limitation of shipments 2430, 2745, 3158, 3619, 3966
Tangerines; limitation of shipments 2431, 2745, 3159, 3306
Standards, for frozen concentrated grapefruit juice; proposed revision 2981
Conservation programs, agricultural:
Alaska, 1956; responsibility for technical phases of practices, streambank protection to prevent erosion of farmland 2299
National:
1955; vegetative cover for cropland 2651
1956; emergency wind erosion control measures, and vegetative cover for cropland 2372, 2651
Corn:
Price support programs. *See main heading* Commodity Credit Corporation.
Soil bank program. *See* Soil bank program.
Cotton:
Classification, under cotton futures legislation:
Administration; supervision of cotton inspection, proposed rule making 3283
Certificates, cotton class:
Reissuance of Form C certificates, or transfer certificates; proposed deletion 3283
Validity of certificates, proposed rule making 3283
Classification requests; Micronaire determination request incidental to classification request, proposed rule making 3283
Classification reviews and Micronaire determinations:
Applications, filing of; proposed rule making 3283
Bale classification, changing of; proposed deletion 3283
Classification review, notation on certificate; proposed rule making 3283
Costs of classification and certification; fees:
Certificate, new, issued in substitution for prior certificate; change of reference, proposed 3284
For supervision of transfer of cotton, proposed deletion 3284
Inspection and samples; removal of original samples, proposed rule making 3283
Transfers of cotton, proposed rule making 3283
Marketing quotas, farm, acreage allotments, etc.:
Extra long staple cotton, 1956 crop 3689
Upland cotton, 1956 crop 3689
Price support program. *See main heading* Commodity Credit Corporation.
Soil bank program. *See* Soil bank program.
Standards:
Administrative provisions:
Contract disputes, adjustment of; redesignation 3458, 4847
Cotton linters 3458, 4847
Licensed classifiers 3458, 4847
Reviews; change of classification, only for error, proposed deletion 3284
American Egyptian cotton, proposed revision 3186
Cotton linters 4293, 4849

**AGRICULTURE DEPARTMENT—Continued** Page

Cotton—Continued
State Agricultural Stabillzation and Conservation Committees; redelegation of final authority with respect to 1956 marketing quota regulations, for upland cotton in Alabama 2291
Cottonseed, sold or offered for sale for crushing purposes; inspection, sampling and certification:
Definitions; designation of official certificates, memoranda, marks, other identifications, and devices for purposes of Agricultural Marketing Act 2300, 2967
Fees, for review of grading of cottonseed 2300, 2967
Cowpeas. *See* Peas.

*See also* Fruits and berries.
Standards, consumer, for fresh cranberries; proposed 3229
Cucumbers:
*See also* Vegetables.
Marketing of cucumbers grown in Florida 2689
Dairy products:
Inspection and grading functions. *See under* Organization.
Marketing of milk and milk products in various marketing and sales areas. *See* Milk and milk products.
Standards, for Cheddar cheese; correction 2167
Debt settlement:
Delegations of authority 3213
Forms and records 3213
Indebtedness, settlement of, by cancellation without application, under certain circumstances 3213
Disaster areas; designation of counties in various States as areas having need for agricultural credit:
Arizona 4052
Idaho 2898, 4686
Kansas 3882, 4297
Michigan 2665, 4052
Nevada 4322
New Mexico 3728, 3882
Oklahoma 3728, 4322
Texas 3728
Utah 4687
Washington 2897
Wyoming 2456
District of Columbia; school lunch program. *See* School lunch program.
Domestic consumption programs, for various agricultural commodities. *See* Cabbage; Cherries; *and* Potatoes.
Dried fruits. *See* Figs; Prunes; *and* Raisins.
Economic poisons. *See* Insecticides.
Eggs, shell; grading and inspection:
Forms and instructions; application for grading service, proposed rule making 2984
Grading and inspection:
Application for grading service; on resident grading basis, proposed rule making 2984
Definitions; terms defined, proposed rule making 2984
Facility requirements; applicability of facility and operating requirements, proposed rule making 2984
Fees and charges:
Fees for appeal grading, proposed rule making 2984
On resident grading basis, proposed rule making 2984
Grading certificate, proposed rule making 2894
Electrification and telephone programs, rural; functions respecting. *See under* Organization.
Exports:
Citrus fruits. *See* Citrus fruits.
Meats and meat products; meat inspection regulations respecting. *See* Meats and meat products.
Overtime work relating to exports of agricultural commodities at border ports, seaports, and airports; commuted travel time, revision to delete certain ports and stations, add newly established ports and stations, and readjust commuted time allowances at certain other points 3865
Feed, livestock, diversion of fresh Irish potatoes for use as. *See* Potatoes.
Field peas. *See* Peas.
Figs:
*See also* Fruits and berries.
Marketing of dried figs produced in California 3800

**AGRICULTURE DEPARTMENT—Continued** Page

Fish; standards, for frozen fish sticks, proposed rule making 2687
Fish sticks. *See* Fish.
Flour and starch, potato; diversion of fresh Irish potatoes for manufacture of. *See* Potatoes.
Flowers and flower bulbs; inspection and certification 2325
Fruit preserves and jams; standards, proposed rule making 2511
Fruits and berries:
Domestic consumption program, for cherries. *See* Cherries.
Exports of citrus fruits. *See* Citrus fruits.
Imports, restrictions on. *See* Avocados; *and* Citrus fruits.
Inspection and certification; fresh fruits and berries:
Fees and charges:
Destination markets, redesignation 2325
Shipping areas 2325
Renumbering of certain sections 2325
Marketing of various fruits. *See* Avocados; Citrus fruits; Figs; Peaches; Pears; Plums; Prunes; *and* Raisins.
Standards, for fresh and processed fruits. *See* Apricots; Cherries; Citrus fruits; Cranberries; Fruit preserves and jams; *and* Peaches.
Fungicides. *See* Insecticides.
Garrison Dam and Reservoir Project, North Dakota: transfer of certain lands acquired by Secretary of Agriculture under Bankhead-Jones Farm Tenant Act to Army Department for use in connection with Project 2573
Grains:
Grain seeds. *See* Seeds.
Marketing quotas, farm, acreage allotments, etc., for rice and wheat. *See* Rice; *and* Wheat.
Price support programs, for various grains. *See main heading* Commodity Credit Corporation.
Soil bank program. *See* Soil bank program.
Grapefruit. *See* Citrus fruits.
Greens, Christmas. *See* Christmas trees and greens.
Hawaii; school lunch program. *See* School lunch program.
Hemp line, and hemp tow, grading of; deletion 2300, 2967
Hog-cholera virus and anti-hog-cholera serum. *See* Animal diseases.
Honey; standards, for comb honey, proposed revision 2627
Imports:
Hay, straw, etc., imported from tick-infested areas, control of. *See* Animal diseases, control of, etc.
Insecticides, etc. *See* Insecticides.
Meats and meat products, meat inspection regulations respecting. *See* Meats and meat products.
Overtime work relating to imports of agricultural commodities at border ports, seaport, and airports; commuted travel time, revision to delete certain ports and stations, add newly established ports and stations, and readjust commuted time allowances at certain other points 3865
Restrictions, on imports of certain fruits and vegetables. *See* Avocados; Citrus fruits; *and* Tomatoes.
Insecticides, etc. (economic poisons), regulations for enforcement of Federal Insecticide, Fungicide, and Rodenticide Act; imports, declaration, deletion of "made before a United States consular officer" 3335
Jams. *See* Fruit preserves and jams.
Lands:
Exchange of administrative jurisdiction of certain Oregon and California Railroad grant lands and national forest lands 4525, 4528, 4531
Transfer of certain lands acquired by Secretary of Agriculture under Bankhead-Jones Farm Tenant Act to Army Department for use in connection with Garrison Dam and Reservoir Project, North Dakota 2573
Lemons. *See* Citrus fruits.
Limes. *See* Citrus fruits.
Livestock:
Feed, diversion of fresh Irish potatoes for use as. *See* Potatoes.
Quarantine, etc., for control of animal diseases. *See* Animal diseases.

Prisoners; clemency, correspondence and visits, temporary parole 3403
Procurement:
Armed services procurement regulations. *See main heading* Defense Department.
Army procurement procedure:
Acceptance. *See* Inspection.
Advertising, formal, procurement by; opening of bids and award of contract 4274, 4275
Bids. *See* Advertising, formal.
Contract clauses; change orders and supplemental agreements 4287
Forms, reproducible masters 4288
General provisions:
Definitions:
Appropriated funds, revocation 4274
Change orders and supplemental agreements, revocation 4274
Purchasing offices, changes; Chemical Corps, Quartermaster Corps, Transportation Corps 4274
Procurement responsibility and authority:
Expediting administrative actions, designation 4274
Responsibility for insuring availability of funds, revocation 4274
Government property; industrial facilities, contractor operated motor vehicles 4287
Gratuity Clause Board; establishment, composition, procedure, etc 4288
Inspection and acceptance 4287
Interdepartmental procurement; procurement from Federal supply service stores depots, revocation 4285
Negotiation, procurement by:
Circumstances permitting negotiation 4275
Determinations and findings 4279
Small purchases 4281
Patents 4287
Supplemental provisions, administrative procedures 4288
Reserves, organized, training programs, etc., Defense Department regulations. *See main heading* Defense Department.
Rifle and pistol competitions in schools and colleges 2939
Security:
Armed Forces industrial security, Defense Department regulations; codification discontinued 2814
Industrial security manual for safeguarding classified information, Defense Department regulations; codification discontinued 2814
Separation from service. *See* Discharge or separation from service.
Single Manager assignments, designation of Secretary as Single Manager for listed programs for Armed Services:
Clothing and textile materiel 4358
Annex A, related responsibilities of Single Manager and military services 4360
Subsistence 4350
Annex A, related responsibilities of Single Manager and military services 4353
Traffic within United States 4355
Annex A, related responsibilities of Single Manager and military services 4357
Subsistence for Armed Services, designation of Secretary as Single Manager 4353
Annex A, related responsibilities of Single Manager and military services 4353
Textile materiel. *See* Clothing and textile materiel.

**ARMY DEPARTMENT—Continued** Page

Transportation:
Ocean transportation, functions of Secretary respecting operation of Military Sea Transportation Service 4024
Traffic within United States, designation of Secretary as Single Manager 4355
Annex A, related responsibilities of Single Manager and military services 4357

**ATOMIC ENERGY COMMISSION:**
Access permits; extension of term of permit 2389
Advisory boards, purpose; certain boards excepted from regulation 4271
Construction of utilization facilities, licensing of; applications of, and issuance of permits to, various companies for construction of reactors and critical experiment facilities at specified locations:
AMF Atomics, Inc., Plainsboro, N. Y. 4687
Applied Nucleonics Corp., Walnut Creek, Calif 4687
Babcock & Wilcox Co., Lynchburg, Va 4687
Battelle Memorial Institute, Jefferson, Ohio 4687
Commonwealth Edison Co., Grundy Co., Ill 3085
Consolidated Edison Co. of New York, Inc., Indian Point, Village of Buchanan, Westchester County, N. Y. 3084
Dow Chemical Co., Midland, Mich 4687
Ford Motor Co., Dearborn, Mich 4688
General Electric Co., Alameda County, Calif 3395, 4688
Lockheed Aircraft Corp., Stanford University, Palo Alto, Calif 4894
Massachusetts Institute of Technology, Cambridge, Mass 3150
Nuclear Development Corporation of America, Pawling, N. Y. 4687, 4688
Power Reactor Development Co., Frenchtown Township, Monroe County, Mich 4688
Prosperity Co., Inc., University of Miami Campus, Coral Gables, Fla 4688
Westinghouse Electric Corp., Westmoreland County, Pa 4688
Experiment facilities, construction of. *See* Construction of utilization facilities.
Patent Compensation Board; application for just compensation, Matheson Pneumatic Machinery, Inc 4326
Priorities regulations, applicable to sale to government-owned property at Oak Ridge, Tennessee, and Richland, Washington; property on which priority has been abandoned, procedure 2811
Reactors, construction of. *See* Construction of utilization facilities.
Security clearance, criteria and procedures for determining eligibility for 3103

**B**

BANKS:
Federal reserve banks, operation of; provisions respecting bank holding companies, etc. *See* Federal Reserve System.
Home loan banks; promotional operations. *See* Federal Home Loan Bank Board.
Insured banks; assessments. *See* Federal Deposit Insurance Corporation.

**BLIND-MADE PRODUCTS, COMMITTEE ON PURCHASES OF:**
Agencies for blind persons, restrictions; requirements for agencies desiring to participate in Government orders 2141

BLIND PERSONS, operation of vending stands; Commerce Department regulations 4242

BOARDS. *See* Committees and boards.

BRIDGE REGULATIONS. *See* Engineers, Corps of.

BRITISH TOKEN IMPORT PLAN. *See* Foreign Commerce Bureau.

**BUDGET BUREAU:**
Construction of Federal office buildings in District of Columbia; prospectus submitted by General Services Administration, approved by Bureau. *See main heading* General Services Administration.
Lands; transfer of certain lands in North Dakota from Agriculture Department to Army Department for use in connection with Garrison Dam and Reservoir Project 2573

**BUSINESS AND DEFENSE SERVICES ADMINISTRATION:** Page
Appointments without compensation and statements of financial interests under Defense Production Act 2130, 2131, 2303, 2494, 2666, 2795, 2796, 3127, 3128, 3233, 3234, 3393, 3464, 3728, 3943, 4030, 4298, 4639, 4640, 4894
Compliance and enforcement procedures (Regulation 8) 3254
Priority orders; copper and copper-base alloys (BDSA Order M–11A), amount of production capacity to be reserved 3254

**BUSINESS ECONOMICS, OFFICE OF:**
Fellowships in national income and international balance of payments statistics for qualified citizens of other American Republics; revocation 3777

**C**

**CENTRAL INTELLIGENCE AGENCY:**
Telecommunications Advisory Board, representation on 2682

CHILD HEALTH DAY, 1956 (Proclamation 3131) 2167

CHILD LABOR REGULATIONS. *See* Labor Department.

CITIZENSHIP DAY, 1956 (Proclamation 3141) 4305

**CIVIL AERONAUTICS ADMINISTRATION:**
Air navigation:
Altitude minimums, for instrument flight. *See* Instrument flight rules.
Approach procedures, instrument. *See* Instrument flight rules.
Civil airways, designation of. *See* Civil airways.
Control areas, control zones, and reporting points on civil airways. *See* Control areas, zones, etc.
Restricted areas. *See* Restricted areas.
Aircraft:
Certificates and certification. *See* Certificates and certification.
Recordation of ownership of aircraft. *See* Recordation.
Registration of aircraft; certificates. *See* Certificates and certification.
Airport operation agreements; authority of Regional Administrators respecting compliance with. *See* Authority.
Authority, delegation of, from Administrator to Regional Administrators; authority regarding compliance with airport operation agreements 2392
Certificates and certification:
Aircraft registration certificates; proposed rule making:
Application; form 3632
Duration 3632
Notice of change of address, ownership, or registration 3632
Certification procedures; issuance of registration certificate, application and fee, proposed rule making 3631
Civil airways, designation of; alterations:
Colored civil airways (amber, blue, green, red) 2140, 2971, 3494, 3621, 4271
VOR civil airways; domestic 2140, 2972, 3494, 3621, 3899, 4271
Control areas, control zones, and reporting points, designation of; alterations:
Control areas:
Colored civil airways (amber, blue, green, red) 2975, 3496, 3622, 4271
Extension of control areas 2140, 2975, 3496, 3622, 4271
VOR civil airway control areas; domestic 2141, 2976, 3496, 3622, 3646
Control zones:
Additional control zones 2141, 2975, 3496, 4271
Five-mile radius zones 2141, 3496, 3622
Reporting points:
Colored civil airways (amber, blue, green, red) 2976, 3496, 3622, 4271
Other reporting points 4271
VOR reporting points; domestic 2141, 2977, 3496, 3622

**CIVIL AERONAUTICS ADMINISTRATION—Con.** Page
Hawaii; transfer of certain lands at Humuula, North Hilo, Island of Hawaii, set aside as site for V. H. F. Link Station, to jurisdiction of Territory of Hawaii (Executive Order 10666) 2801
Instrument flight rules:
Altitudes; minimum en route IFR altitudes 2748
Colored civil airways (amber, blue, green, red) 3002, 3720, 3722
Criteria 2748
Introduction; basis and purpose, explanation of terms 2748
Mountainous areas:
Designation of 2750
Operating procedures over. *See* Operating rules.
Operating rules; operating procedures over mountainous area and along particular routes and intersections 2750
Particular routes and intersections:
General 2752
Operating procedures along. *See* Operating rules.
Particular routes:
Colored civil airways (amber, blue, green, red) 2373, 2752–2764
Direct Routes:
Alaska 2767, 4657
United States 2764, 4654
VOR civil airways 2374, 2767–2786, 3003, 3720, 3722
Hawaii 2786
Approach procedures, instrument, standard (including ceiling and visibility minimums for takeoff and landing at particular airports):
Automatic direction finding procedures 2274, 2653, 3052, 3077, 3718, 3956, 4244
Ground controlled approach procedures 2279, 2657, 3063, 3411, 3678, 4247, 4714
Instrument landing system procedures 2175, 2277, 3058, 3078, 3314, 3410, 3677, 3719, 3959, 4246, 4712.
Radio range:
High frequency visual aural range (VAR) procedures 4244
Low frequency range procedures 2171, 2272, 2652, 3049, 3310, 3407, 3674, 3717, 3954, 4243, 4710
Terminal very high frequency omnirange (VOR) procedures 2172, 2173, 2174, 2275, 2276, 2324, 2654, 2655, 2656, 3053, 3054, 3057, 3078, 3311, 3313, 3408, 3409, 3676, 3719, 3956, 3958
Organization and functions;
Aviation Safety District Offices; location and specialties 4684
International District and Field Offices 4685
Ownership of aircraft, recordation of. *See* Recordation.
Recordation, of ownership of aircraft:
Aircraft ownership; eligibility of conveyances for recordation, proposed rule making 3632
Procedures for recordation, revocation 3621
Registration of aircraft; certificates. *See* Certificates and certification.
Restricted areas over Army, Navy and Air Force installations in various States, Alaska, and Hawaii, designation of; alterations:
Alaska 2612
Arizona 3496
California 2125
Delaware 2977
Florida 2978, 3873
Hawaii 2719
Indiana 2373
Kentucky 3309
Massachusetts 2977, 2978
Michigan 2373, 3497, 3673
Missouri 2373
New Hampshire 2978
New Jersey 2977, 3673
New Mexico 2373, 3497
New York 2125
North Carolina 2977, 2978, 3673
Rhode Island 2978
South Carolina 2978, 3309

**CIVIL AERONAUTICS ADMINISTRATION—Con.** Page

Restricted areas over Army, Navy and Air Force installations in various States, Alaska, and Hawaii, designation of; alterations—Continued
- Texas — 2978
- Virginia — 2141, 2978
- Wisconsin — 2373, 3673
- Wyoming — 3497

**CIVIL AERONAUTICS BOARD:**

Accidents, aircraft, and overdue aircraft:
- Investigation of accident occurring at or near certain cities, etc.:
  - Pittsburgh, Pa — 2796
  - Seattle, Wash — 2854
- Notification and reporting to Civil Aeronautics Administration, of accidents involving small fixed-wing aircraft; form of report — 2323

Air agencies; certificates and ratings. *See* Certificates and ratings.

Air carriers:
- Accounts, uniform system of. *See* Economic regulations.
- Classification and exemption of certain air carriers. *See* Economic regulations.
- Flight schedules of. *See* Economic regulations.
- Foreign. *See* Foreign air carriers.
- Irregular. *See* Irregular air carrier and off-route rules.
- Operation rules. *See* Operation rules.
- Scheduled. *See* Scheduled air carriers.

Air traffic rules:
- Definitions; noncontrolled instrument approach zone, proposed rule making — 2663, 3658
- Instrument flight rules (IFR):
  - Cruising altitudes, proposed rule making — 3905
  - Radio communications, proposed rule making — 2663, 3658
- Visual flight rules (VFR):
  - Ceiling and distance from clouds:
    - Elsewhere, proposed rule making — 2663, 3658
    - Within noncontrolled instrument approach zones, proposed rule making — 2663, 3658
  - Cruising altitudes, proposed rule making — 3905
  - Visibility, flight:
    - Elsewhere, proposed rule making — 2663, 3658
    - Within control area, proposed rule making — 2663, 3658
    - Within noncontrolled instrument approach zones, proposed rule making — 2663, 3658

Aircraft and equipment; airworthiness. *See* Airworthiness.

Airmen; certificates and ratings. *See* Certificates and ratings.

Airplane airworthiness. *See* Airworthiness.

Airworthiness; requirements for various types of aircraft or equipment:
- Aircraft equipment; engine — 4305
  - Applicability — 4307
  - Certification — 4307
  - Definitions — 4307
  - Identification plate, and instruction manual — 4308
  - Reciprocating engines:
    - Block tests — 4309
    - Design and construction — 4308
  - Turbine engines:
    - Block tests — 4310
    - Design and construction — 4310
- Aircraft other than airplanes. *See* Rotorcraft airworthiness.
- Airplane:
  - Acrobatic categories. *See* Normal, utility, and acrobatic categories.
  - Normal, utility, and acrobatic categories — 3339
    - Airplane categories — 3343
    - Applicability — 3341
    - Certification — 3342
    - Definitions — 3341
    - Design and construction — 3355
      - Landing gear, retracting mechanism; landing gear position indicator switches — 3002
    - Equipment — 3366
      - Electrical systems and equipment:
        - Lights; position and anti-collision light requirements and facilitation of experiments with exterior lighting systems, proposed rule making — 3388

**CIVIL AERONAUTICS BOARD—Continued** Page

Airworthiness; requirements for various types of aircraft or equipment—Continued
- Airplane—Continued
  - Normal, utility, and acrobatic categories—Con.
    - Equipment—Continued
      - Electrical systems and equipment—Continued
        - Master switch; arrangement:
          - Electric stall warning indicator circuit — 3002
          - Load circuit connections with respect to master switch — 3002
        - Protective devices; circuit breakers — 3002
    - Flight requirements — 3344
    - Identification data — 3371
    - Operating limitations and information — 3369
    - Power-plant installations; reciprocating engines — 3360
    - Strength requirements — 3348
  - Transport categories:
    - C–46 airplanes, application of transport category performance requirements to; extension of effective date (SR–406B) — 2139
    - Design and construction; landing gear:
      - Brakes; antiskid devices and installations — 2558
      - Retracting mechanism; landing gear position indicator switches — 2747
    - Equipment:
      - General, safety criteria for electric utilization system — 2747
      - Instruments, flight and navigational; automatic pilot systems, procedures for testing reliability and information relative to installation — 2124
    - Flight:
      - Ground handling characteristics:
        - Directional stability and control with antiskid device installed — 2558
        - Longitudinal stability and control with antiskid device installed — 2558
      - Performance:
        - Accelerate-stop distance with antiskid device installed — 2558
        - Landing distance, determination of, with antiskid device installed — 2558
        - Landplanes; procedure in determination of landing distance with antiskid device installed — 2558
    - Lights; position and anti-collision light requirements and facilitation of experiments with exterior lighting systems, proposed rule making — 3388
- Rotorcraft airworthiness:
  - Normal category:
    - Applicability — 3741
    - Change in designation of part heading — 3741
    - Definitions — 3741
    - Design and construction:
      - Floats; buoyance, strength, etc — 3742
      - Landing gear; tires and skis — 3742
      - Personnel accomodations; pilot compartment, general — 3742
    - Equipment:
      - Electrical systems and equipment; protective devices, circuit breakers — 2585
      - Lights:
        - Position and anti-collision light requirements and facilitation of experiments with exterior lighting systems, proposed rule making — 3388
        - Position light distribution and intensities — 3742
      - Powerplant instruments — 3742
    - Flight:
      - Performance; take-off, climb, operating speed, etc — 3741
      - Rotor limitations and pitch settings — 3741
    - Operating limitations and information:
      - Manual, flight — 3742, 3953
      - Markings and placards; fuel and oil filler openings — 3742
      - Operating limitations:
        - Limiting height-speed envelope — 3742, 3953
        - Never-exceed speed — 3742
    - Powerplant installation:
      - Cooling system; coolant system, deletion — 3742
      - Fire protection:
        - Fire detector systems, deletion — 3742
        - Fire extinguishing systems, deletion — 3742

**CIVIL AERONAUTICS BOARD—Continued** Page

Airworthiness; requirements for various types of aircraft or equipment—Continued
- Rotorcraft airworthiness—Continued
  - Normal category—Continued
    - Powerplant installation—Continued
      - Fuel system; capacity and feed — 3742
      - Oil system, general — 3742
    - Structure:
      - General; structural and dynamic tests — 3741
      - Landing loads — 3741
  - Transport categories — 3743
    - Applicability — 3745
    - Categories of rotorcraft — 3748
    - Certification — 3746
    - Definitions — 3745
    - Design and construction — 3754
      - Ballast provisions — 3759
      - Cargo and baggage compartments — 3757
      - Control systems — 3755
      - Fire prevention — 3758
      - Floats — 3756
      - General; materials, strength, etc — 3754
      - Ice protection — 3759
      - Landing gear — 3755
      - Leveling marks — 3759
      - Main rotor — 3755
      - Personnel and cargo accommodations — 3756
    - Equipment — 3769
      - Electrical system and equipment — 3770
      - General; scope, instruments, etc — 3769
      - Hydraulic systems — 3773
      - Instruments; installation — 3769
      - Lights — 3771
        - Position and anti-collision light requirements and facilitation of experiments with exterior lighting systems, proposed rule making — 3388
      - Radio installation — 3773
      - Safety equipment; safety belts, signaling, oxygen, etc — 3772
      - Vacuum systems — 3773
    - Flight — 3748
      - Flight characteristics — 3750
      - Flutter and vibration — 3751
      - General; weight limitations, center of gravity limitations, etc — 3748
      - Ground and water handling characteristics — 3751
      - Performance (take-off, climb, speed, landing) — 3748
    - Operating limitations and information — 3773
      - Identification data, rotorcraft — 3775
      - Manual, flight, rotorcraft — 3775
      - Markings and placards — 3774
      - Operating limitations; air-speed, powerplant, weight and center of gravity, etc — 3773
    - Scope — 3773
    - Powerplant installation — 3759
      - Controls and accessories — 3766
      - Cooling system — 3765
      - Fire protection — 3767
      - Fuel system components — 3763
      - Fuel system operations and arrangement — 3761
      - Fuel tank construction and installation — 3762
      - General; scope and general design, engines, etc — 3759
      - Induction and exhaust systems — 3765
      - Oil system — 3764
      - Rotor drive system — 3760
    - Structure — 3751
      - Component requirements, main — 3753
      - Control surface and system loads — 3752
      - Emergency landing conditions — 3754
      - Flight loads — 3751
      - General; strength, proof of structure, etc — 3751
      - Landing loads — 3752

Certificates and ratings:
- Air agencies; repair station (domestic) certificates:
  - Certificate requirements, personnel:
    - Annual inspection; substitution of one-hundred-hour, periodic, and progressive inspections for — 2588
    - Special requirements for airframe repair stations; deletion — 3184

**CIVIL AERONAUTICS BOARD—Continued** Page

Certificates and ratings—Continued
- Air agencies; repair station (domestic) certificates—Continued
  - Operating rules; privileges of certificate:
    - Annual inspection; substitution of one-hundred-hour, periodic, and progressive inspections — 2588
    - Annual inspections and other flight authorizations; deletion — 3184
- Airmen:
  - Airline transport pilot ratings; minimum requirements, aeronautical experience, proposed rule making — 4259
  - Dispatcher, aircraft, certificates; examinations, providing 24-month validity period for Form ACA–578A, and clarifying eligibility requirements for applicant — 2125
  - Mechanic and repairman certificates — 4864
    - Mechanic certificates — 4866
      - Certification rules; airman identification cards — 3775
      - Privileges and limitations:
        - Airframe and powerplant rating — 2586
        - Inspection authorization — 3182
        - Prescribed standards — 3182
        - Airframe rating — 2586
        - Mechanic privileges, general — 2586
        - Powerplant rating — 2586
    - Repairman certificates — 4867
  - Pilot certificates:
    - *See also* Airline transport pilot rating.
    - Instrument rating; prerequisites for taking instrument written examination — 4808

Certification, identification, and marking of aircraft and related products:
- Certificates, airworthiness:
  - Duration — 2585, 3180
  - Experimental certificates; duration — 2585, 3180
  - Special flight permits, redesignation — 2585, 3180
  - Requirements for issuance, redesignation — 2585, 3180
- Marks, aircraft nationality and registration; use of large markings on fuselage or vertical tail surface of fixed-wing aircraft to permit easy military interceptor identification in restricted areas, extension of (SR–412), proposed — 3387

Commercial operator certification and operation rules; lights, experimentation projects with exterior lighting systems, proposed rule making — 3388

Economic regulations, for air carriers:
- Accounts, uniform system of, for certificated air carriers:
  - Amendments to presently effective part; proposed rule making:
    - Balance sheet accounts:
      - Current assets — 3189
      - Operating property and equipment — 3190, 3698
      - Operating reserves:
        - Reserve for aircraft overhaul, proposed deletion — 3190
        - Reserve for engine overhaul, proposed deletion — 3190
      - Valuation reserve — 3190, 3194, 3195
    - General instructions; depreciation and amortization — 3188, 3194, 3878
    - Operating expense accounts; objective account classification — 3192, 3194, 3698
    - Reporting procedures — 3192
  - Revision (to become effective Jan. 1, 1957) — 4435
- Classification and exemption of certain air carriers:
  - Air freight forwarders. *See* Indirect air carriers.
  - Cooperative shippers associations. *See* Indirect air carriers.
  - Indirect air carriers (interstate air transportation of property only) — 2511
- Flight schedules of certificated air carriers; realistic scheduling and on-time performance required, supplemental notice of proposed rule making — 3024

Equipment, aircraft:
- Airworthiness requirements. *See* Airworthiness.
- Maintenance, repair, and alteration. *See* Maintenance, repair, and alteration.

**CIVIL AERONAUTICS BOARD—Continued** Page

Explosives (Class A), transportation of, within Territory of Alaska; authority of Administrator to permit certain operators to deviate from regulations respecting (SR–417) 3776
Foreign air carriers:
Navigation of foreign civil aircraft within United States, rules generally applicable to:
Airworthiness and registration certificates, proposed rule making 2952
Maximum weights and categories of use, proposed rule making 2952
Operations within United States, regulations respecting; aircraft airworthiness certificate from country of origin, proposed rule making 2952
Hearing, investigations, etc.:
Accidents, investigation of. *See* Accidents.
Companies and cases, list of, *see list at end of this agency.*
Helicopters; airworthiness requirements. *See* Airworthiness: rotorcraft.
Irregular air carrier and off-route routes:
C–46 airplanes in passenger operations, application of transport category performance requirements to; extension of time in which to meet requirements (SR–406B) 2139
Certificate rules; certificate issuance, application for worldwide area of operation 2586
Equipment:
Airspeed limitations and related information 4312
Basic required instruments and equipment for aircraft; warning lights for reversible propellers 4312
Lights; experimentation projects with exterior lighting systems, proposed rule making 3388
Flight crew requirements:
Flight time limitations for pilots on large aircraft; scheduled type operations 4312
Recent flight experience for flight crew members:
Engineer, flight; qualifications for duty 2373
Pilots; use of aircraft simulators in training program and proficiency checks, proposed rule making 4294
Flight operation rules; navigational aids for IFR flight, off-airway instrument, deletion of certain provisions 4312
Operating limitations for large passenger carrying airplanes; aircraft not certificated in transport category, conversion of performance data limitations for miles per hour to knots 2232
Maintenance requirements; inspection and maintenance, small aircraft 2587, 3183
Passenger service, transport category airplanes engaged in; powerplant fire protection, nacelle skin areas, proposed rule making 4832
Maintenance, repair, and alteration of airframes, powerplants, propellers and appliances, for aircraft for which airworthiness certificates have been issued 4862
Aircraft operating limitations 4864
Applicability 3905, 4862
Definitions 2585, 4862
Performance rules; standards of performance 2586, 3181, 4864
Persons authorized to perform or approve maintenance, repairs, and alterations 2586, 3180, 3905, 4863
Records 2586, 3181, 4864
Operation rules, for various types of aircraft:
*See also* Commercial operators; Foreign air carriers; Irregular air carriers; *and* Scheduled air carriers.
General operation rules:
Aircraft instruments and equipment; lights, experimentation projects with exterior lighting systems, proposed rule making 3388
Aircraft requirements, proposed rule making 2952
Definitions; aircraft, maintenance, operate, one-hundred-hour, periodic, and progressive inspections and time in serivce 2588
Maintenance:
General 2587, 3183
Inspections; periodic and one-hundred-hour, and progressive 2587, 3183
Records; aircraft and engines 2588, 3183

**CIVIL AERONAUTICS BOARD—Continued** Page

Operation rules, for various types of aircraft—Con.
General operation rules—Continued
Pilots; private and commercial pilot privileges and limitations, proposed rule making:
Instrument flight limitations 3658
Recent flight experience; instrument flight, addition of "or in weather conditions below the minimum prescribed for flight under VFR" 3658
Organization, statement of; central and field organization 3841
Ratings. *See* Certificates and ratings.
Rotorcraft airworthiness. *See* Airworthiness.
Scheduled air carriers:
Interstate air carrier certification and operation rules:
Airmen; flight crew member and dispatcher qualification, pilot check, use of aircraft simulators in training program and proficiency checks, proposed rule making 4294
C–46 airplanes in passenger operations, application of transport category performance requirements to; extension of time in which to meet requirements (SR–406B) 2139
Dispatching rules; take-off and landing weather minimums, IFR 3405
Ceiling and visibility minimums, straight-in approaches using ILS or PAR facilities 2971
Instruments and equipment; all operations:
Aircraft instruments and equipment:
Airspeed limitations 4311
Radio equipment, determination of operable condition of 4311
Engine instruments; warning lights for reversible propellers 4311
Lights, experimentation projects with exterior lighting systems, proposed rule making 3388
Passenger service, transport category airplanes engaged in; powerplant fire protection, nacelle skin areas, proposed rule making 4832
Services and facilities; weather reporting facilities 3405
Operations outside continental limits of United States, certification and operation rules:
Certificate, issuance; ceiling and visibility minimums, landing minimums, straight-in approaches using ILS or GCA facilities 2971
Notice of institution of rule making proceeding 4349
Passenger operation rules:
Airmen rules:
Engineer, flight, qualifications for duty 2373
Pilot, periodic flight checks and instructions; use of aircraft simulators in training program and proficiency checks, proposed rule making 4294
C–46 airplanes in passenger operations, application of transport category performance requirements to; extension of time in which to meet requirements (SR–406B) 2139
Instruments and equipment:
Continuance of flight requirement; warning lights for reversible propellers 4312
Lights; experimentation projects with exterior lighting systems, proposed rule making 3388
Maintenance; airspeed, limitations and related information 4312
Transport category airplanes operated in passenger service; powerplant protection, nacelle skin areas, proposed rule making 4832

- Surgical stockings, change in classification 2418
- Watch movements, self-winding; classification 3726

Mail, importations by; formal entry 2270

Marking of articles to indicate country of origin; glass Christmas tree ornaments, revocation of exception to marking requirement, proposed rule making 3726

Patent infringement, list of names and addresses of importers of articles involving; $100 fee for application for list 3267

Protests and reappraisements, power of attorney to file protest 2979

Rifle barrels when imported assembled with rifle actions; prospective tariff classification 2695

Seals, for bonded merchandise. *See* Financial and accounting procedure.

Special classes of merchandise:
- Convict, forced, or indentured labor, merchandise produced by; proof of admissibility 2271
- Matches, certificate of inspection 2271
- Plants and plant products, requirements for entry and release 2271
- Quota provisions, merchandise subject to:
  - Proclamations establishing import quotas 2614
  - Quota priority 2614

Surgical stockings, change in tariff classification 2418

Towing laws, coastwise, waiver permitting certain Canadian tugs to tow certain equipment in connection with St. Lawrence Seaway Development Projects. *See* Canadian tugs.

Trade agreements, customs duties under. *See main heading* Trade agreements.

Trade fair, international. *See* International trade fair.

**CUSTOMS BUREAU—Continued** Page

Trade names of manufacturer or trader 2271

Transportation in bond and merchandise in transit; domestic baggage and accompanied commercial travelers' samples through foreign territory 4429

Vessels:
- Documentation of vessels, registration of house flag, Isthmian Lines, Inc 4369
- In foreign and domestic trades:
  - Coastwise towing laws, waiver permitting Canadian tugs to tow certain equipment in connection with St. Lawrence Seaway Development Projects. *See* Canadian tugs, *above*.
  - Equipment and repairs to American vessels 2270

Watch movements, self-winding; tariff classification 3726

CUTTHROAT CASTLE, ruins of thirteenth century defensive structure; inclusion in Hovenweep National Monument (Proclamation 3132) 2369

## D

DANGER AND RESTRICTED AREAS AND ZONES:
- Aircraft restricted areas over military installations. *See* Civil Aeronautics Administration.
- Navigation danger zones. *See* Engineers, Corps of.

DAYS OF OBSERVANCE. *See* Presidential documents.

DECORATIONS, MEDALS, ETC. *See* Army Department.

- Appointments without compensation and statements of financial interests under Defense Production Act of 1950 2292

**DEFENSE DEPARTMENT:**
- *See Air Force Department.*
- *Army Department.*
- *Navy Department.*
- Active duty, authority delegations to Secretaries of Army, Navy and Air Force to order certain members of reserve components to 3083
- Prior delegations superseded 3083

Authority, delegations of:
- By Secretary:
  - To Air Force Department, Secretary; to order certain members of reserve components to active duty 3083
  - Prior delegations superseded 3083
  - To Army Department, Secretary; to order certain members of reserve components to active duty 3083
  - Prior delegations superseded 3083
  - To Navy Department, Secretary:
    - Active duty, authority to order certain members of reserve components to 3083
    - Prior delegations superseded 3083
    - Certification of special purpose vessels 3611
- From General Services Administrator; disposal of certain land, part of south portion, St. Louis, Missouri, Naval Air Station 2900

Blind-made supplies, interdepartmental procurement of. *See* Procurement regulations.

Boards. *See* Committees, boards.

Clothing and textile materiel for Armed Services, designation of Single Manager. *See* Single Manager assignments.

Committees, boards:
- Health Advisory Board, Interagency, representation on 3838
- Single Manager assignments, administrative committees, representatives from Army, Navy, Marine Corps, and Air Force to advise regarding operation of programs. *See* Single Manager assignments.
- Telecommunications Advisory Board, representation on 2682

Contracts:
- Armed services procurement regulations. *See* Procurement regulations.
- Financing defense contracts; advance payments, appendix 2 3951

Defense contract financing regulations, advance payments; appendix 2 3951

**DEFENSE DEPARTMENT—Continued** Page

Enlistments:
- In Ready Reserve of Naval Reserve and Coast Guard Reserve under regulations to be prescribed by Secretary (Executive Order 10667) 3141
- In Reserve Forces in draft-deferred status, active duty for basic training 4721

Financing defense contracts; advance payments, appendix 2 3951

Industrial security regulations, and manual for safeguarding classified information; codification discontinued 2814

Information, classified, industrial security manual for safeguarding; codification discontinued 2814

Insurance:
- Life insurance, commercial, solicitation of, on military installations in oversea areas 2679
- Procurement regulations respecting insurance. *See* Procurement regulations.

Life insurance, commercial, solicitation of, on military installations in oversea areas 2679

Medical materiel for Armed Services, designation of Single Manager. *See* Single Manager assignments.

Organization; Single Manager assignments, designation of Secretaries of Army and Navy as Single Managers of various programs. *See* Single Manager assignments.

Patents, procurement regulations respecting. *See* Procurement regulations.

Procurement regulations, armed services:
- Contract clauses:
  - *See also* Government property; *and* Taxes.
  - Cost-reimbursement type supply contracts, clauses for 2283, 3219
  - Fixed-price supply contracts, clauses for 2283, 3220
- Forms, report of inventions and subcontracts (DD Form 882) 2288
- General provisions:
  - Definitions of terms, sources of supplies 3218
  - United States-flag privately owned ocean carriers, preference for 2280
- Government property, contract clauses:
  - Cost-reimbursement type research and development contracts with nonprofit institutions 2287
  - Fixed-price type contracts with nonprofit institutions 2286
- Insurance under fixed-price contracts, aircraft in open 2285
- Interdepartmental procurement:
  - Blind-made supplies, procurement of 2282
  - Economy Act, procurement under, from or through another Federal agency; authorization and policy relating to placing and filling orders 2282
  - Federal Supply Schedule contracts, procurement under; mandatory use of Schedules 2282
  - Contracts mandatory upon Defense Department, establishment or revision of 3219
- Negotiation, procurement by:
  - Circumstances permitting negotiation, national emergency 3219
  - Types of contracts, letter contract 2281
- Patents; patent rights under contracts involving research or development, license rights of Government 2283
- Use of DD Form 882 2288
- Taxes, Federal, State and local:
  - Contract clauses, cost-reimbursement type contracts 3225
  - Federal excise taxes on certain supplies and services, and exemptions from taxes 3220, 3224

Reserves, organized:
- Active duty:
  - Authority delegations to Secretaries of Army, Navy and Air Force to order certain members of reserve components to 3083
  - Prior delegations superseded 3083
- For basic training, persons enlisting directly into Reserve Forces in draft-deferred status 4721
- Assignment to and transfer between Reserve categories, and discharge from Reserve status 3250
- Enlistments in Ready Reserve of Naval Reserve and Coast Guard Reserve under regulations to be prescribed by Secretary (Executive Order 10667) 3141

**DEFENSE DEPARTMENT—Continued** Page

Reserves, organized—Continued
- Reserve Officers' Training Corps and related officers' training programs 3249
- Reserve training programs, participation in 3247
- Screening Ready Reserve under provisions of Armed Forces Reserve Act of 1952, as amended 3251
- Appendix A, apprentices 3253
- Appendix B, students 3253

Security:
- Armed Forces industrial security regulations, codification discontinued 2814
- Industrial security manual for safeguarding classified information, codification discontinued 2814

Single Manager assignments:
- Clothing and textile materiel, designation of Secretary of Army as Single Manager 4358
- Administrative Committee, representatives from Army, Navy, Marine Corps, and Air Force to advise regarding operation of program 4357
- Annex A, related responsibilities of Single Manager and military services 4360
- Medical materiel, designation of Secretary of Navy as Single Manager 4363
- Administrative Committee, representatives from Army, Navy, Marine Corps, and Air Force to advise regarding operation of program 4362
- Annex A, related responsibilities of Single Manager and military services 4365
- Subsistence to Armed Services, designation of Secretary of Army as Single Manager 4350
- Administrative Committee, representatives from Army, Navy, Marine Corps, and Air Force to advise regarding operation of program 4350
- Annex A, related responsibilities of Single Manager and military services 4353

Textile materiel. *See* Clothing and textile materiel.

Traffic management within United States. *See* Transportation.

Transportation:
- Ocean transportation, designation of Secretary of Navy as Single Manager for ocean transportation and activities of Military Sea Transportation Service 4023
- Traffic management within United States, designation of Secretary of Army as Single Manager 4355
- Annex A, related responsibilities of Single Manager and military services 4357

Subsistence for Armed Services, designation of Single Manager. *See* Single Manager assignments.

Taxes, procurement regulations respecting. *See* Procurement.

Textile materiel and clothing for Armed Services, designation of Single Manager. *See* Single Manager assignments.

Transportation:
- Ocean transportation and activities of Military Sea Transportation Service, designation of Single Manager. *See* Single Manager assignments.
- Traffic management within United States, designation of Single Manager. *See* Single Manager assignments.

**DEFENSE MINERALS EXPLORATION ADMINISTRATION:**

Government aid in defense exploration projects; ratio of contribution for various metals, inclusion of selenium (DMEA 1) 3838

**DEFENSE MOBILIZATION, OFFICE OF:**

Amortization of emergency facilities; expansion goals. *See* Expansion goals.

Appointments without compensation and statements of business interests under Defense Production Act of 1950 2607, 2800, 2908, 2960, 2995, 3071, 3203, 3204, 3704, 3732, 3945, 4301, 4302, 4693, 4694

Disaster areas:
- Lease of equipment and tools to producing establishments crippled by floods. *See* Production equipment and machine tools.
- Procurement in. *See* Mobilization base.

Emergency facilities, amortization of; expansion goals. *See* Expansion goals.

**DEFENSE MOBILIZATION, OFFICE OF—Continued** Page

Expansion goals, issuance of accelerated tax amortization certificates under section 168 of Internal Revenue Code:
- Areas of production (DMO VII–6):
  - List I, closed areas for which no certificates will be issued 2243, 2651, 2864
  - List III, open areas for which certificates will be issued 2651, 2864
- Modification of goals for annual output and supply:
  - Freight cars 2908
  - Nickel 3471

Health Advisory Board, Interagency; establishment and membership 3838

Machine tools. *See* Production equipment and machine tools.

Mobilization base, maintenance of, to meet needs of Defense Department, Atomic Energy Commission and Maritime Administration (DMO–7); award of procurement contracts in disaster areas (Supp. 1), termination of procedure in connection with West Coast flood disaster area 2505

Procurement in disaster areas. *See* Mobilization base.

Production equipment and machine tools, Government-owned, disposition of, policy respecting (DMO VII–4); lease of equipment and tools to producing establishments crippled by floods (Supp. 1) 2242

Termination of leasing:
- Northeastern areas 2260
- West Coast 2505

Records, wage and salary, under Defense Production Act, preservation of; establishment of April 30, 1955, as final cut-off date (ODM Regulation 3) 2940

Telecommunications Advisory Board; establishment 2682

Tools, machine. *See* Production equipment and machine tools.

Wage and salary records, preservation of. *See* Records.

**DISASTERS:**

Disaster loans:
- Designation of eligible areas:
  - Agricultural areas, loans for. *See* Agriculture Department.
  - Small business loans. *See* Small Business Administration.
- Production emergency and property damage loans. *See* Farmers Home Administration.

Procurement in disaster areas. *See* Defense Mobilization, Office of.

Production equipment and machine tools; lease to flood-crippled areas. *See* Defense Mobilization, Office of.

Transportation of livestock and livestock feed at reduced rates. *See* Interstate Commerce Commission.

**DRUGS:**

Addiction-forming and addiction-sustaining drugs. *See* Narcotics Bureau.

Certification and tests, etc. *See* Food and Drug Administration.

**E**

**EDUCATION, OFFICE OF:**

Federal assistance in construction of minimum school facilities in areas affected by Federal activities with respect to applications filed after July 15, 1955; final deadline for applications with respect to funds available or to be made available during fiscal 1956 4344

**EMERGENCY FACILITIES;** certificates of necessity, issuance under section 168 of Internal Revenue Code. *See* Defense Mobilization, Office of.

**EMPLOYMENT SECURITY BUREAU:**

Unemployment compensation for Federal employees under title XV, Social Security Act; regulations respecting:

Federal agencies, responsibilities of:
- Definitions; "official station," and "findings" 4429
- Findings by Federal agency 4430
- Information to Federal employees about unemployment compensation when agency is advised that employee is on nonpay status 4430

**EMPLOYMENT SECURITY BUREAU—Continued** Page

Unemployment compensation for Federal employees under title XV, Social Security Act; regulations respecting—Continued

Federal agencies, responsibilities of—Continued
- Requests for additional information, correction and reconsideration of findings 4430
- Terminal annual leave payment, allocation of 4430

State employment security agencies, responsibilities of:
- Adjustments and appeals 4431
- Assignment of Federal service and Federal wages 4430
- Definitions: "official station", "findings" 4430
- Determination of entitlement 4430
- Effect of Federal agency's findings 4430
- Redetermination after corrected findings 4431

**ENGINEERS, CORPS OF, DEPARTMENT OF THE ARMY:**

Anchorage grounds:
- Massachusetts, Nantucket Harbor 2519
- Puerto Rico, Ponce Harbor 3373

Bridge regulations:
- Arkansas, Little Red River; Missouri Pacific Railroad Co. bridge at Judsonia and Arkansas Highway bridges at Judsonia and Searcy 4406
- California; Los Angeles and Long Beach Harbors, Long Beach Entrance Channel 2128
- Maryland, Dorseys Creek; Baltimore and Annapolis Railroad Co. bridge at Annapolis 3374

Continental Shelf, outer; geological and geophysical explorations seaward of submerged lands of Florida, requirement respecting permission from Corps of Engineers 2129

Danger zone regulations:

Florida:
- Gulf of Mexico south of Apalachee Bay, Air Force rocket firing range 2944
- St. Andrew Bay, Gulf of Mexico in vicinity of, Navy mine testing area 2466

Maryland, Potomac River, naval torpedo testing range, Piney Point; revocation 2817

Flood control regulations, California:
- American River; Folsom Dam and Reservoir 4315
- Tuolumne River Project; Hetch Hetchy, Cherry Valley, and Don Pedro Dams and Reservoirs 2682

Navigation regulations:

Kentucky, Ohio River and tributaries:
- Navigation lights on certain locks and dams 4561
- Rough River Lock and Dam near Hartford, operation discontinued 4561

Maryland, Potomac River; naval torpedo testing station, Piney Point 2817

Washington, Columbia River; McNary Dam Navigation Lock and approach channels 4013

Procurement activities, rules of Claims and Appeals Board; rule 5, clearance of appellant's legal council or other representative 2519

Reservoir areas, public use of; Tennessee, Cheatham Reservoir Area 2169

**FARM CREDIT ADMINISTRATION:**

Federal land banks, general provisions; interest rates on loans made through associations 3737, 4709

**FARMERS HOME ADMINISTRATION:**

Account servicing:
- Collections; authority to certain Farmers Home Administration employees 3856
- Routine; account servicing policies, reamortizing direct farm ownership, farm housing, and direct soil and water conservation accounts 2277
- Settlement; State Office handling 4265

**FARMERS HOME ADMINISTRATION—Continued** Page

Emergency loans. *See* Production emergency and property damage loans.

Farm housing loans:
- Account servicing. *See* Account servicing.
- Direct farm housing loans under section 502 of the Housing Act of 1949 3477

Farm ownership loans:
- Account servicing. *See* Account servicing.
- Basic regulations:
  - General; terms of loans, sale of nondelinquent insured mortgages to Government 2427
  - Loan limitations; average value of farms in various States and Puerto Rico:
    - Delaware 2121
    - Maine 2121
    - Maryland 2121
    - Ohio 2583
    - Puerto Rico 3411
    - Tennessee 4785
    - Texas 3667
    - Utah 2369
    - Virginia 4545
    - Wisconsin 2859
- Construction and repair (farm ownership and other programs); planning farm development (farm ownership and individual soil and water conservation loans) 3855
- Processing of initial loans:
  - Action by County Supervisor following receipt of closing instructions, handling loan checks 3715
  - Action by loan approval officials; special requirements for loans in designated areas, revocation 2583
- Loan approval authority 4312

Liquidation of security. *See* Security servicing and liquidations.

Operating loans; security servicing and liquidations. *See* Security servicing and liquidations.

Production and subsistence loans:
- Policies and authorities:
  - Authorities for making annual production and subsistence loans 2122
  - Use of loan funds, limitations on 2717
- Processing; loan forms and routines, special requirements for loans in designated areas 2583

Production emergency and property damage loans; loans under section 2, Public Law 37, 81st Congress, clarification of approved loan purposes 2371

Property damage loans. *See* Production emergency and property damage loans.

Security servicing and liquidations:
- Notes, insured, assignment of; general policies, responsibilities of Director, Finance Office to advise holder of note as to sale of nondelinquent insured mortgages to Government 2427
- Operating loans; general security servicing:
  - Disposition of security property other than real estate; County Supervisor to delegate to other County Office employees authority to execute releases 2609
  - Waivers of crop liens for borrowers receiving loans under Commodity Credit Corporation Program; County Supervisors to delegate to employees authority to execute waivers 2600

Soil and water conservation loans:
- Account servicing. *See* Account servicing.
- Construction and repair, in planning farm development. *See* Farm ownership loans.
- Processing of loans:
  - To associations; action between approval and closing of loan, handling of loan check 3715
  - To individuals:
    - Loan forms and routines; special items in preparation of docket:
      - Planning farm development 4312
      - Special requirements, for loans in designated areas; revocation 2583
    - Procedures between loan approval and loan closing; handling loan checks 3715
    - To participate in group services; loan closing 3715

Subsistence loans. *See* Production and subsistence loans.

Veterans' preference, for farm housing loans. *See* Farm housing loans.

Water conservation loans. *See* Soil and water conservation loans.

**FEDERAL CIVIL DEFENSE ADMINISTRATION:** Page

    - Maritime radio services 2523, 3123, 3232, 3688, 3906

**FEDERAL COMMUNICATIONS COMMISSION—Con.** Page
- Frequencies and channels, allocation and use of—Continued
  - Services and stations—Continued
    - Mexico; broadcast stations 2796
    - Puerto Rico; stations in 2142
    - Television broadcast stations 3699, 4050
    - Virgin Islands; stations in 2142
- Frequency allocations and radio treaty matters:
  - Allocation, assignment, and use of radio frequencies:
    - Frequency allocations, table of:
      - Amateur operation on frequency bands 1800–2000 kc on shared basis with Loran stations, limitation of, to certain areas 3372
      - Aviation services:
        - Aeronautical fixed services, Puerto Rico and Virgin Islands; allocation of frequencies in 152–162 mc band to stations in (footnote) 2142
        - Flight test stations, use of frequency band 3240–3400 kc 2330
      - Domestic public radio services control stations; use of frequency band 72–76 mc, footnote 4724
      - Footnotes, general amendments, deletions, etc.; deletion of limitation footnote respecting use of frequencies between 10,000 and 10,700 mc 2947
      - Frequencies below 25,000 kc (25 mc); inapplicability of provisions with respect to authorizations in frequency bands 4238–4368 kc and 8476–8745 kc 3227
      - Loran stations; modification of areas of permissible sharing with amateur service of frequency bands 1800–2000 kc 3371
      - Reallocation of frequencies between 9800 and 10,700 mc, and 13,200 and 16,000 mc 2947
    - List of frequency assignments to radio stations authorized by Commission; availability for inspection 3235
    - Radio astronomy, interference protection to frequencies utilized for; determination of maximum interfering signal, percentage of time protection required, location and establishment of areas of station interference, etc., proposed rule making 4680
  - Definitions:
    - Domestic fixed public service 4724
    - Flight test station 2330
  - Equipment, type approval and type acceptance; measurement data required for type acceptance, spurious emissions, report of field intensity measurements, postponement of effective date of requirement of 3227
  - Radio astronomy. *See* Allocation, assignment, and use of radio frequencies.
- Functional music operations. *See* Radio broadcast services: FM broadcast stations.
- Hawaii:
  - CONELRAD voluntary plan of station operation in case of air attack for all classes of radio stations in Hawaii 3914
  - Frequencies available for assignment in domestic public radio services 4752
- Hearings, orders, etc.; list of names of companies and stations, *see list at end of this agency.*
- Incidental radiation devices. *See* Radiation devices.
- Industrial radio services:
  - *See also* Industrial, scientific, and medical service.
  - Applications, supplemental information to be submitted with; description of antenna system on Form 401–A 3902
  - Definition of terms; antenna structures 3902
  - Radiolocation service:
    - Frequencies available, use of frequencies in 10,500–10,550 mc band by land and mobile radiopositioning stations 3373
    - License term 3228
- Industrial, scientific, and medical service:
  - Statement of basis and purpose; suspension of effective date of regulations respecting use of electric arc welding devices using radio frequency energy pending completion of proceedings with regard to regulations governing operation of 3373

**FEDERAL COMMUNICATIONS COMMISSION—Con.** Page

Industrial, scientific, and medical service—Continued
Welding equipment:
*See also* Statement of basis and purpose.
Radio frequency stabilized arc welders, regulations governing operation of; proposed rule making 3391
Extension of time to file comments 4232
International fixed services; use of tropospheric scatter techniques, proposed rule making 3231
Land transportation radio services:
Applications, supplemental information to be submitted with; description of antenna system on Form 401–A 3902
Definition of terms; antenna structure 3902
Motor carrier radio service:
Frequencies available for base and mobile stations; motor carriers of property for local distribution or collection, frequencies for communications with vehicles engaged in such service or in servicing vehicles used 4668
License, eligibility for; common or contract carrier transportation service for local distribution or collection of property 4668
Local television transmission service. *See* Domestic public radio services.
Loran stations; frequencies 3371
Maritime radio services:
In Alaska. *See* Alaska, *above*.
Land stations, coastal:
Definition of terms; technical:
Crystal oscillator; deletion 2949
Frequency band of emission 2949
Spurious emission 2949
Telephony, use of, by public coast stations:
Class I–B public coast stations, establishment of, in Gulf of Mexico seaboard area, and use of certain frequencies between 5000–25,000 kc, proposed rule making 3906
Frequencies assignable, list; addition of 4393.1 kc and deletion of 4752.5 kc 2523
Frequencies below 30 mc, availability of:
Carrier frequencies assignable for working purposes to Class II stations, tables of frequencies, additions, deletions, etc., for listed areas:
Los Angeles-San Diego, California, area; use of frequency 2522 kc, non-interference restriction provision, deletion 3688
Miami, Florida, area; availability of frequencies 2490 kc and 2031.5 kc on 24-hour basis, and limitation on use of frequency pair 2514 kc and 2118 kc, proposed rule making 3123
New York, New York area 2523
Seattle, Washington area; availability and use, conditionally, on 24-hour basis, of frequencies 2482 and 2430 kc, proposed rule making 3232
Working frequencies below 5000 kc 2523
Shipboard stations:
Appendix III; general exemption orders issued exempting ships from compulsory radio provisions, revision 3267
Definition of terms; technical:
Frequency band of emission 2949
Spurious emission 2949
Exemption orders issued, general, exempting ships from compulsory radio provisions (Appendix III); revision 3267
Radiotelephony, use of:
Availability of certain frequencies between 5000–25,000 kc for communication with Class I–B public coast stations in Gulf of Mexico seaboard area, proposed rule making 3906
Frequencies assignable; limitations and conditions of assignment and use of specific carrier frequencies, certification requirements:
Inapplicability to transmitters type accepted by Commission 2950
Level of emission on second harmonic frequency; table, maximum authorized transmitter power, deletion of footnote 1 and designator 2950
Redesignations 2950

**FEDERAL COMMUNICATIONS COMMISSION—Con.** Page

Maritime radio services—Continued
Shipboard stations—Continued
Radiotelephony, use of—Continued
Frequencies below 5000 kc for public correspondence, available when mobile and coast stations transmit alternately; tables, additions, deletions, etc., for listed areas:
Los Angeles-San Diego, California area; use of frequency 2522 kc, non-interference restriction provision, deletion 3688
Miami, Florida area; availability of frequencies 2490 kc and 2031.5 kc on 24-hour basis, and limitation of use of frequencies 2514 kc and 2118 kc, proposed rule making 3123
New York, New York area 2523
Seattle, Washington area; availability and use, conditionally, on 24-hour basis, of frequencies 2482 and 2430 kc, proposed rule making 3232
Interim ship station license, operation under; authorized carrier frequencies for ship-to-ship communication 2950
Station authorizations; changes in equipment of licensed station 2949
Technical requirements, standard:
Emission, spurious; limitations 2949
Equipment, type acceptance of 2950, 3076
Transmitters:
Acceptability of radiotelephone transmitters for licensing 2950
Acceptance of transmitters for licensing; rescission 2949
Radiotelephone transmitters, special requirements for 2949
Ship-radar transmitters, special requirements 2950
Spurious emission limitations 2949
Type acceptance of equipment 2950, 3076
United States passenger vessels under 100 gross tons; extension of exemption from certain radio installation requirements for vessels navigating in certain specified waters 3132
Mexico, assignment of frequencies to broadcast stations in; changes in list modifying appendix to North American Regional Broadcasting Agreement 2797
Microwave point-to-point radio service. *See* Domestic public radio services.
Mobile domestic public land radio service. *See* Domestic public radio services.
Music, background. *See* Radio broadcast services: FM broadcast stations.
National defense; free service by common carriers in domestic public radio services in connection with preparation for 4747
North American Regional Broadcasting Agreement; list of changes in assignments for stations in various countries:
Canada 2259, 2644, 4420, 4421
Cuba 4893
Mexico 2797
Operators:
Aircraft stations. *See* Aviation services.
Commercial radio. *See* Commercial radio operators.
Organization, delegations of authority, etc.:
Authority, delegations of; Chief Hearing Examiner, authority delegated, after case has been designated for hearing, dismissal of suspension proceedings 2156
Organization:
Chief Engineer, Office of; F. C. C. frequency list of authorized frequency assignments to radio stations, availability for inspection 3235
Safety and Special Radio Services Bureau:
Authorization Analysis Division; revision and redesignation 4691
Aviation Division 4690
Bureau Chief, Office of 4690
Industrial Division 4690
Industry and Commerce Division; revision and redesignation 4690
Land Transportation Division 4691
Marine Division 4690

**FEDERAL COMMUNICATIONS COMMISSION—Con.** Page

Organization, delegations of authority, etc.—Con.
Organization—Continued
Safety and Special Radio Services Bureau—Con.
Public Safety and Amateur Division 4690
Units in Bureau:
Industrial Division 4690
Land Transportation Division 4690
Point-to-point microwave radio service. *See* Domestic public radio services.
Practice and procedure; radio licenses, applications and proceedings affecting:
Acceptance of applications; footnote respecting action to be withheld on certain proceedings pending conclusion of rule making concerning daytime skywave transmissions for standard broadcast stations 2521
Filing of applications and description of forms:
Construction permits; antenna structures when permits required 4406
Inquiry by Safety and Special Radio Services Bureau concerning revision of all forms in use, and Form 400 in particular, notice of and request for suggestions respecting 3035
List of application forms in current use 3305
Forms and information to be filed with Commission; application for new antennas requiring height in excess of 500 feet, proposed rule making 2143
Extension of time to file comments 3698
Public radiocommunication services (other than maritime mobile):
*See also* Domestic public radio services.
Fixed services; use of tropospheric scatter techniques, proposed rule making 3231
Mobile domestic public land services; rescission 4731
Puerto Rico; allocation of certain frequencies for use of stations in aeronautical fixed service 2142
Radiation devices, incidental and restricted; radio receivers operating between 30–890 mc, extension of effective date for compliance with requirements of regulations respecting 2864
Radio astronomy; frequency utilization, proposed 4680
Radio broadcast services:
CONELRAD:
Hawaii; voluntary CONELRAD plan for all classes of radio stations in 3914
Remote control operation of certain broadcast stations; requirements respecting CONELRAD operation 2534, 3438
Educational broadcast stations, FM, noncommercial:
Administrative procedure; renewal of license, application, procedure in case of hearing or investigation 3901
Channels available for assignment; editorial change 3901
Technical operation:
Operator requirements; editorial change 3901
Remote control operation, provision limiting operation to stations with transmitter power output of 10 kilowatts or less deleted, proposed rule making 2535
Extension of time to file comments 3438, 4893
FM broadcast stations:
Channels, allocation of; revised tentative allocation plan for channels allocated to Class B stations, amendments 2959, 4031
Equipment (heading, added) 3901
Functional music operations; extension of expiration date for subsidiary communications authorizations for simplex operations and postponement of date of requirement for conversion to multiplexing 4316
Nonbroadcast activities (background music, storecasting, and transitcasting), postponement of date of requirement for conversion to multiplexing 4316
Other operating requirements; operation under SCA, licensee requirements, reference changed 2659
Subsidiary communications authorizations on simplex basis; extension of expiration date 4316
Technical operation:
Operator requirements; editorial change 3901

**FEDERAL COMMUNICATIONS COMMISSION—Con.** Page

Radio broadcast services—Continued
FM broadcast stations—Continued
Technical operation—Continued
Remote control operation, provision limiting operation to stations with transmitter power output of 10 kilowatts or less deleted 2535
Extension of time to file comments 3438, 4893
Remote control station operation extended to certain stations with power in excess of 10 kilowatts, proposed rule making 2534
Extension of time to file comments 3438, 4893
Future remote control authorizations to be conditioned on installation of equipment for satisfactory CONELRAD operation 2536
Standard broadcast stations:
Equipment; transmitter:
Design, construction, and safety of life requirements; spare tube, editorial correction 2659
Station equipment operation, emissions; editorial correction 4050
Operation:
Operator requirements; editorial change 3901
Period of construction; editorial change 3901
Technical operation; remote control operation, proposed rule making:
Extension of time to file comments 3438, 4893
Nondirectional stations operating with power in excess of 10 kilowatts, conditions of remote control operation of 2535
Stations operating with directional antenna or with power in excess of 10 kilowatts; remote control operation permitted subject to special provisions for CONELRAD operation 2535
Technical standards, standard broadcast:
Groundwave field intensity charts, editorial corrections 2659, 2947
Location of transmitters; Figure M3, reference 2659
Television broadcast stations:
Channel utilization:
Assignments, table of, changes, deletions, etc., affecting channel assignments in listed States, hearings, orders, etc., respecting:
Indiana (Channel 21); proposed 3699
Michigan 4050
Tennessee 4050
Reference points and distance computations; determination of assignment separations between communities by distance between coordinates of transmitter site, availability of assignments to communities under certain conditions, proposed rule making 3699
Monitoring equipment; requirements for type approval of frequency monitors, accuracy, VHF and UHF operation 3901
TV technical standards; field intensity contours, deletion of certain limitation provision 3901
Table III (for distance computation); editorial change 2659

Federal-Aid Road Act of July 11, 1916, regulations under; railway-highway crossing projects 2592
PUERTO RICO. *See* Territories.

Q

QUARANTINE REGULATIONS:
Animal diseases, control of, etc. *See* Agriculture Department.

QUARANTINE REGULATIONS—Continued — Page

Plant quarantine, control of diseases and pests, etc. *See* Agriculture Department.
Public health regulations. *See* Public Health Service.

R

RAILROAD RETIREMENT BOARD:
Procedures and forms:
Forms, description and instructions 4809
General course and method by which functions are channeled and determined; unemployment, sickness and maternity benefits 4808
Railroad Unemployment Insurance Act, regulations under; registration and claims for benefits:
Alaska, registration in 2918
Designation of unemployment claims agents and free employment offices 2918
Lost or destroyed forms 2918
Registration; method of registration, day of registration 2918
Signature of claims agent 2918
Statutory provisions; sections 1 (k), (h), and 12 (i), of Railroad Unemployment Insurance Act 2918

RAILROADS:
Employees, benefits of. *See* Railroad Retirement Board.
Operation, tariffs, etc. *See* Interstate Commerce Commission.
Railway-highway crossing projects. *See* Public Road Bureau.
REACTORS, construction permits. *See* Atomic Energy Commission.

RECLAMATION BUREAU:
Irrigation and reclamation projects; entry of lands, availability of water, etc.:
Water made available, rental charges, operation and maintenance charges, etc.; Gila Irrigation Project, Arizona, Yuma Mesa Division 3909
Withdrawal of lands for various projects:
First form reclamation withdrawals:
Boise Project, Idaho 3633
Central Utah Project, Utah 2728
Colorado River Storage Projects:
Arizona 3029, 3462
California 2349
Utah 3462
Crescent Lake Dam Project, Oregon 2851
Hassayampa Project, Arizona 2222
Hornet Creek Project, Idaho 3330
Humbolt Drainage Project, Nevada 2392
Klamath Project, California; Butte Division 3633
Minidoka Project, Idaho 3909, 4026, 4105
Missouri River Basin Project, Wyoming 4026
Navajo Project, New Mexico; correction 2128
Rio Grande Project, New Mexico 2349
Riverton Project, Wyoming 2349, 3331
Snake River Project, Idaho; Mountain Home Division 3331
Umatilla Project, Oregon 2851
Upper Star Valley, Idaho 3331
Weber Basin Project, Utah 3881
Revocation of withdrawal of lands in certain projects:
Central Valley Project, California 4834
Feather River Division 3633
Colorado River Storage Projects:
California 4026
Utah 3881
Colorado River Storage and Yuma Projects, Arizona 2223
Grand Valley Project, Colorado 2222
Hells Canyon Project, Idaho-Oregon 2253
Iron Canyon Project, California 4104
Klamath Project, California 4769
Milk River Project, Montana 2222
Minidoka Project, Idaho 3262, 3909, 4025
Missouri River Basin Project, Montana 2223
Opal Project, Wyoming 3881
Paonia Project, Colorado 3439
Rio Grande Project, Texas-New Mexico 4105
Salt River Project, Arizona 4025
San Carlos Project, New Mexico 2253
Sublette Project, Wyoming 4321

RECLAMATION BUREAU—Continued — Page

Irrigation and reclamation projects; entry of lands, availability of water, etc.—Continued
Withdrawal of lands for various projects—Continued
Revocation of withdrawal of lands in certain projects—Continued
Umatilla Project, Oregon 2348
Uncompahgre Project, Colorado 2390, 3702
Townsite; Powell Townsite, Wyoming, sale of lot 4298
Withdrawal of lands in connection with various projects. See Irrigation and reclamation projects.
RECORDS, INFORMATION, ETC.:
Arms, ammunition, and implements of war on United States Munitions List; manufacturers, importers or exporters to maintain records respecting for six years 3498
General Accounting Office records, safeguarding of. *See* General Accounting Office.
Military information; security regulations of Air Force Department. *See* Air Force Department.
New-drug applications, confidentiality of information; statement of policy. *See* Food and Drug Administration.
Retirement claims, information in connection with; Civil Service regulations respecting. *See* Civil Service Commission.
Scientific research and information, functions of National Research Council respecting (Executive Order 10668) 3155
Securities; records and reports of certain stabilizing activities, preservation of. *See* Securities and Exchange Commission.
Technical data, exportation of; regulations of Secretary of State respecting United States Munitions List. *See* State Department.
Wage and salary records under Defense Production Act, preservation of (ODM Regulation 3) 2940
REGISTER OF TREASURY, OFFICE OF. *See* Treasury Department.

RENEGOTIATION BOARD:
Renegotiation Act of 1951, regulations under:
Assignment of contractors for renegotiation, how assignment is made 4722
Clearance procedure, notification to contractor of determination by Regional Board 4722
Exemptions, mandatory:
Common carriers by water 2940
Contracts that do not have direct and immediate connection with national defense; exemptions, Bureau of Reclamation 4049
Raw materials:
Titanium sponge substituted for metallic titanium 4722
Zirconium sponge substituted for metallic zirconium 4722
RESEARCH COUNCIL, NATIONAL; functions of and Government representation on (Executive Order 10668) 3155
RESERVOIR AREAS, public use of. *See* Engineers, Corps of.
ROADS, RIGHTS OF WAY, ETC.:

WOODROW WILSON CENTENNIAL YEAR (Proclamation 3134) — 2913

## CODIFICATION GUIDE, APRIL–JUNE 1956

A numerical list of the sections of the Code of Federal Regulations affected by documents published during April–June 1956. Page numbers of documents affecting sections but not specifically amending the text thereof appear in brackets.

**TITLE 3** Page

Chapter I (Proclamations):
- Nov. 6, 1906 (see Idaho) — 4638
- 1654 (see Proc. 3132) — 2369
- 1994 (see Proc. 3138) — 4035
- 2681 (see Proc. 3138) — 4035
- 2761A (see Proc. 3143) — 4643
- 2769 (amended by Proc. 3140) — 4237
- 2867 (terminated in part by Proc. 3140) — 4237
- 2888 (terminated in part by Proc. 3140) — 4237
- 2912 (terminated in part by Proc. 3140) — 4237
- 3105 (amended by Proc. 3140) — 4237
- 3131 — 2167
- 3132 — 2369
- 3133 — 2597
- 3134 — 2913
- 3135 — 2913
- 3136 — 3263
- 3137 — 3853
- 3138 — 4035
- 3139 — 4036
- 3140 — 4237
- 3141 — 4305
- 3142 — 4425
- 3143 — 4643
- 3144 — 4783

Chapter II (Executive orders):
- Apr. 19, 1869 (revoked in part by PLO 1290) — 2790, 3254
- July 2, 1910 (revoked in part by PLO 1285) — 2520
- Mar. 1, 1912 (revoked in part by PLO 1285) — 2520
- Apr. 29, 1912 (revoked in part by PLO 1292) — 2791
- Mar. 21, 1917 (revoked in part by PLO 1285) — 2520
- April 4, 1922 (modified by PLO 1300) — 3535
- 1133 (revoked by PLO 1296) — 2946, 3148
- 1503 (revoked by PLO 1294) — 2818
- 1560 (revoked by PLO 1287) — 2658
- 1673 (revoked by PLO 1280) — 2245
- 2242 (see Alaska) — 3260
- 2347 (see PLO 1301) — 3798
- 2427 (revoked by PLO 1294) — 2818
- 2800 (see EO 10665) — 2647
- 2859 (amended by EO 10668) — 3155
- 2900 (see EO 10664) — 2135
- 3661 (revoked by PLO 1289) — 2790
- 3684 (revoked by PLO 1303) — 3798
- 5105 (revoked in part by PLO 1308) — 4723
- 6132 (revoked in part by PLO 1288) — 2686
- 6276 (revoked in part by PLO 1307) — 4723
- 6583 (revoked in part by PLO 1307) — 4723

## PARALLEL TABLES OF STATUTORY AUTHORITIES AND RULES

Following is a list of current additions to the Parallel Tables of Statutory Authorities and Rules appearing in Title 2 of the Code of Federal Regulations. These additions are made as a result of the rules published in the FEDERAL REGISTER during April–June 1956. In order to determine the FEDERAL REGISTER page numbers of the CFR titles and parts involved, users should consult the Codification Guide.

It should be noted that recent legislation not yet assigned within the U. S. Code is carried by public law number at the end of the list.

# FEDERAL REGISTER

VOLUME 21 NUMBER 106

Washington, Friday, June 1, 1956

UNIVERSITY OF MICHIGAN

JUN 8 - 1956

MAIN READING ROOM

## TITLE 6—AGRICULTURAL CREDIT

### Chapter III—Farmers Home Administration, Department of Agriculture

[Admn. Letter 462 (440)]

Subchapter B—Farm Ownership Loans

PART 332—PROCESSING INITIAL LOANS

Subchapter D—Soil and Water Conservation Loans

PART 352—PROCESSING LOANS TO INDIVIDUALS

PART 353—PROCESSING LOANS TO PARTICIPATE IN GROUP SERVICES

PART 354—PROCESSING LOANS TO ASSOCIATIONS

MISCELLANEOUS AMENDMENTS

1. Section 332.13 (b) in Title 6, Code of Federal Regulations (20 F. R. 3671), is amended to authorize the endorsement of insured loan checks drawn payable jointly to the borrower(s) and the Farmers Home Administration, and to read as follows:

§ 332.13 *Action by the County Supervisor following receipt of closing instructions.* • • •

(b) *Handling loan checks.* The loan check will be deposited in a supervised bank account on the date of loan closing in accordance with procedures outlined in Part 303 of this chapter. The County Supervisor is authorized to endorse, on behalf of the Farmers Home Administration, a loan check for making an insured loan if it is drawn payable jointly to the borrower(s) and the Farmers Home Administration, provided the following form of endorsement is used: "Endorsed without recourse: Farmers Home Administration, By: ---------, Title: ---------." The State Director also is authorized to endorse such check in the same manner.

(Sec. 41 (1), 60 Stat. 1066, 7 U. S. C. 1015 (i))

2. Sections 352.3 (b), 353.5, and 354.7 (c) in Title 6, Code of Federal Regulations (20 F. R. 1968, 1971, 7214), are amended to authorize the endorsement of insured loan checks drawn jointly to the borrower(s) and the Farmers Home Administration, by the addition of §§ 352.3 (b) (3) and 353.5 (d), and amendment of § 354.7 (c) to read as follows:

§ 352.3 *Procedures between loan approval and loan closing.* • • •

(b) *Handling loan checks.* • • •

(3) The County Supervisor is authorized to endorse, on behalf of the Farmers Home Administration, a loan check for making an insured loan if it is drawn payable jointly to the borrower(s) and the Farmers Home Administration, provided the following form of endorsement is used: "Endorsed without recourse: Farmers Home Administration, By: ----------, Title: ----------." The State Director also is authorized to endorse such check in the same manner.

(Sec. 6 (3), 50 Stat. 870, sec. 10 (a) (7), 68 Stat. 735; 16 U. S. C. 590w (3), 590x–3 (a) (7))

§ 353.5 *Loan closing.* • • •

(d) The County Supervisor is authorized to endorse, on behalf of the Farmers Home Administration, a loan check for making an insured loan if it is drawn payable jointly to the borrower(s) and the Farmers Home Administration, provided the following form of endorsement is used: "Endorsed without recourse: Farmers Home Administration, By: ----------, Title: ----------." The State Director also is authorized to endorse such check in the same manner.

(Sec. 6 (3), 50 Stat. 870, sec. 10 (a) (7), 68 Stat. 735; 16 U. S. C. 590w (3), 590x–3 (a) (7))

§ 354.7 *Actions between approval and closing of loan.* • • •

(c) *Handling of loan check.* Loan checks will be deposited in a supervised bank account on the date of loan closing. The County Supervisor is authorized to endorse, on behalf of the Farmers Home Administration, a loan check for making an insured loan if it is drawn payable jointly to the borrower(s) and the Farmers Home Administration, provided the following form of endorsement is used: "Endorsed without recourse: Farmers Home Administration, By: ----------, Title: ----------." The State Director also is authorized to endorse such check in the same manner.

(Sec. 6 (3), 50 Stat. 870, sec. 10 (a) (7), 68 Stat. 735; 16 U. S. C. 590w (3), 590x–3 (a) (7))

Dated: May 25, 1956.

[SEAL] R. B. MCLEAISH,
*Administrator,*
*Farmers Home Administration.*

# FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

**CFR SUPPLEMENTS**

# TITLE 14—CIVIL AVIATION

## Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 198]

## PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

### PROCEDURE ALTERATIONS

The standard instrument approach procedure alterations appearing hereinafter are adopted to become effective when indicated in order to promote safety. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 609 is amended as follows:

NOTE: Where the general classification (LFR, VAR, ADF, ILS, GCA, or VOR), location, and procedure number (if any) of any procedure in the amendments which follow, are identical with an existing procedure, that procedure is to be substituted for the existing one, as of the effective date given, to the extent that it differs from the existing procedure; where a procedure is cancelled, the existing procedure is revoked; new procedures are to be placed in appropriate alphabetical sequence within the section amended.

1. The low frequency range procedures prescribed in § 609.6 are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURE

**Bearings**, headings, and courses are magnetic. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.

If an LFR instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of Civil Aeronautics. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below.

| City and State; airport name, elevation; facility; class and identification; procedure No.; effective date | Initial approach to facility from— | Course and distance | Minimum altitude (ft.) | Procedure turn (—) side of final approach course (outbound and inbound); altitudes; limiting distances | Missed approach: Climb to altitude of ... over facility on final approach course (climb straight ahead unless otherwise directed); distance to ... | Ceiling and visibility minimums: Condition | Ceiling and visibility minimums: 2 engines or less: 65 knots or less | Ceiling and visibility minimums: 2 engines or less: More than 65 knots | Ceiling and visibility minimums: More than 2 engines; more than 65 knots | If visual contact not established at authorized minimums after passing facility within distance specified, or if landing not accomplished |

[Amdt. 2]

## PART 610—MINIMUM EN ROUTE IFR ALTITUDES

### MISCELLANEOUS AMENDMENTS

The minimum en route IFR altitudes appearing hereinafter have been coordinated with interested members of the industry in the regions concerned insofar as practicable. The altitudes are adopted without delay in order to provide for safety in air commerce. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required. Part 610 is amended as follows: (Listed items to be placed in appropriate sequence in the sections indicated).

Section 610.20 *Green civil airway 10* is amended to read in part:

From Two Rivers INT, Wyo.; to Laramie, Wyo., LFR; MEA 10,500. (Deletes MCA at Laramie.)

Section 610.103 *Amber civil airway 3* is amended to read in part:

From Las Vegas, N. Mex., LFR; to *Trinidad, Colo., LFR; MEA 11,000. *10,000—MCA Trinidad LFR, southbound.

Section 610.108 *Amber civil airway 8* is amended to read in part:

From The Dalles, Oreg., LFR; to Saw Mill INT, Wash.; MEA 8,000.

From Saw Mill INT, Wash.; to Yakima, Wash, LFR, southwestbound, MEA 6,000; northeastbound, MEA 4,000.

Section 610.225 *Red civil airway 25* is amended to read in part:

From U. S.-Canadian Border; to Kokadjo INT, Maine; MEA 5,000.

Section 610.263 *Red civil airway 63* is amended to delete:

From Int. N crs. Detroit and 265–085 mag. brg. Sarnia, Ontario, LF/RBN; to *Sarnia, Ontario, Canada LF/RBN; MEA 2,400. *For that airspace over U. S. territory.

Section 610.603 *Blue civil airway 3* is amended to read in part:

From Miami, Fla., LFR; to Tamiami, Fla., LF/RBN; MEA 1,110.

From Tamiami, Fla., LF/RBN; to Ft. Myers, Fla., LF/RBN; MEA 1,200.

Section 610.647 *Blue civil airway 47* is amended to read in part:

From Brodnax INT, Va.; to Blackstone, Va., LFR; MEA 1,500.

From Blackstone, Va., LFR; to Morven INT, Va.; MEA 2,000.

From Morven INT, Va.; to Gordonsville, Va., LFR; MEA 3,000.

Section 610.6003 *VOR civil airway 3* is amended to read in part:

From Jacksonville, Fla., VOR via W alter.; to Brunswick, Ga., VOR via W alter.; MEA 1,200.

From Daytona Beach, Fla., VOR via E alter.; to Marion INT, Fla., via E alter.; MEA *1,400. *1,200—MOCA.

From Marion INT, Fla., via E alter.; to Jacksonville, Fla., VOR via E alter.; MEA *1,400. *1,300—MOCA.

Section 610.6004 *VOR civil airway 4* is amended to read in part:

From Cherokee, Wyo., VOR; to *Laramie, Wyo., VOR; MEA 14,000. *12,500—MCA Laramie VOR, westbound.

From Laramie, Wyo., VOR to *Dacono INT, Colo.; MEA 11,500. *8,000—MCA Dacono INT, northwestbound.

From Dacono INT, Colo., to Denver, Colo., VOR; MEA 7,500.

Section 610.6005 *VOR civil airway 5* is amended to read in part:

From Orlando, Fla., VOR; to *Crescent Lake INT, Fla.; MEA **3,000. *3,000—MRA. **1,300—MOCA.

From Crescent Lake INT, Fla.; to Blue Jacket INT, Fla.; MEA *3,000. *1,300—MOCA.

From Blue Jacket INT, Fla.; to Jacksonville, Fla., VOR; MEA 1,500.

From Orlando, Fla., VOR via E alter.; to Daytona Beach, Fla., VOR via E alter.; MEA 1,500.

From Daytona Beach, Fla., VOR via E alter.; to *Crescent Lake INT, Fla.; via E alter.; MEA 1,200. *3,000—MRA.

From Crescent Lake INT, Fla.; via E alter.; to Blue Jacket INT, Fla., via E alter.; MEA *3,000. *1,300—MOCA.

From Blue Jacket INT, Fla., via E alter.; to Jacksonville, Fla., VOR via E alter.; MEA 1,500.

From Jacksonville, Fla., VOR; to Folkston INT, Ga.; MEA 1,300.

From Folkston INT, Ga.; to Alma, Ga., VOR; MEA 1,600.

From Jacksonville, Fla., VOR via E alter.; to Colesburg INT, Ga., via E alter.; MEA 1,200.

From Colesburg INT, Ga., via E alter.; to Alma, Ga., VOR via E alter.; MEA *1,400. *1,200—MOCA.

From Jacksonville, Fla., VOR via W alter; to Callahan INT, Fla., via W alter.; MEA 1,200.

From Callahan INT, Fla., via W alter.; to Hilliard INT, Fla., via W alter.; MEA 1,300.

From Hilliard INT, Fla., via W alter.; to Alma, Ga., VOR via W alter.; MEA 1,600.

Section 610.6006 *VOR civil airway 6* is amended to read in part:

From Cherokee, Wyo., VOR; to Rock River, Wyo., VOR; MEA 12,000. Via N alter.; MEA 12,000.

Section 610.6007 *VOR civil airway 7* is amended to read in part:

From Marianna, Fla., VOR; to *Shady Grove INT, Fla.; MEA **2,500. *3,000—MRA. **1,800—MOCA.

Section 610.6008 *VOR civil airway 8* is amended to read in part:

From Grand Junction, Colo., VOR; to Kremmling, Colo., VOR; MEA 14,000.

From Kremmling, Colo. VOR; to *Denver, Colo., VOR; MEA 16,000. *Via N alter.; MEA 16,000. *12,600—MCA Denver VOR, westbound.

From Superior, Colo., FM; to Denver, Colo., VOR, eastbound only; MEA 10,000.

Section 610.6012 *VOR civil airway 12* is amended to read in part:

From Anthony, Kans., VOR; to *Milton INT, Kans.; MEA 2,900. *4,000—MRA.

From Milton INT, Kans.; to Wichita, Kans., VOR; MEA 2,900.

From Anthony, Kans., VOR via S alter.; to Wichita, Kans.; VOR via S alter.; MEA 2,500.

From *Wichita, Kans., VOR; to **DeGraff INT, Kans.; MEA 3,000. *3,000—MCA Wichita VOR, northeastbound. **4,800—MRA.

From DeGraff INT, Kans.; to Emporia, Kans., VOR; MEA 3,000.

From *Wichita, Kans., VOR via N alter.; to Emporia, Kans., VOR via N alter.; MEA 3,000. *3,000—MCA Wichita VOR, northeastbound.

From West Chester, Pa., VOR; to Boothwyn INT, Pa.; MEA 1,800.

Section 610.6014 *VOR civil airway 14* is amended to read in part:

From Oklahoma City, Okla., VOR via N alter.; to Tulsa, Okla., VOR via N alter.; MEA *3,500. *3,000—MOCA.

From Oklahoma City, Okla., VOR via S alter.; to Shawnee INT, Okla., via S alter.; MEA *3,000. *2,700—MOCA.

From Shawnee INT, Okla., via S alter.; to Tulsa, Okla., VOR via S alter.; MEA *6,000. *3,100—MOCA.

From Indianapolis, Ind., VOR; to Florida INT, Ind.; MEA 2,800.

From Florida INT, Ind.; to Coldwater INT, Ind.; MEA *4,300. *2,800—MOCA.

From Coldwater INT, Ind.; to Findlay, Ohio, VOR; MEA 2,200.

Section 610.6015 *VOR civil airway 15* is amended by adding:

From Ardmore, Okla., VOR via W alter.; to Shawnee INT, Okla., via W alter.; MEA *3,000. *2,700—MOCA.

From Shawnee INT, Okla., via W alter.; to Tulsa, Okla., VOR via W alter.; MEA *6,000. *3,100—MOCA.

Section 610.6016 *VOR civil airway 16* is amended by adding:

From Blythe, Calif., VOR via N alter.; to Hassayampa, Ariz., VOR via N alter.; MEA 7,500.

Section 610.6017 *VOR civil airway 17* is amended to read in part:

From Bradley INT, Okla.; to *Blanchard INT, Okla.; MEA 2,600. *2,800—MRA.

From Blanchard INT, Okla.; to Oklahoma City, Okla., VOR; MEA 2,600.

Section 610.6018 *VOR civil airway 18* is amended to read in part:

From Augusta, Ga., VOR; to *St. George INT, S. C.; MEA **2,800. *3,500—MRA. **2,000—MOCA.

From St. George INT, S. C.; to Charleston, S. C., VOR; MEA *2,800. *2,000—MOCA.

Section 610.6020 *VOR civil airway 20* is amended to read in part:

From Laredo, Tex., VOR; to Alice, Tex., VOR; MEA 1,900.

From Alice, Tex., VOR; to Corpus Christi, Tex., VOR; MEA 1,500.

Section 610.6022 *VOR civil airway 22* is amended to read in part:

From *Genoa INT, Fla.; to Bryceville INT, Fla.; MEA **2,500. *3,000—MRA. **1,200—MOCA.

From Bryceville INT, Fla.; to Jacksonville, Fla., VOR; MEA *1,500. *1,300—MOCA.

Section 610.6026 *VOR civil airway 26* is amended to read in part:

From Cherokee, Wyo., VOR; to Casper, Wyo., VOR; MEA 11,000.

From Park INT, Mich.; to Canard INT, Mich.; MEA 2,300.

From Canard INT, Mich.; to Pelee INT, Ontario, Canada; MEA *#2,500. *2,000—MOCA. #For that airspace over U. S. territory.

Section 610.6035 *VOR civil airway 35* is amended to read in part:

From Crystal INT, Fla.; to *Shrimp INT, Fla.; MEA **1,500. *6,000—MRA. **1,000—MOCA.

Section 610.6037 *VOR civil airway 37* is amended to read in part:

From Columbia, S. C., VOR; to *Blythewood INT, S. C.; MEA 2,000. *3,000—MRA.

Section 610.6038 *VOR civil airway 38* is amended to read in part:

From Ft. Wayne, Ind., VOR; to Findlay, Ohio, VOR; MEA 2,600.

Section 610.6042 *VOR civil airway 42* is amended to delete:

From Lansing Mich., VOR; to Flint INT, Mich.; MEA 2,400.

Section 610.6045 *VOR civil airway 45* is amended to read in part:

From Int. Waterville, Ohio, VOR 330° M and Litchfield, Mich., VOR 091° M rads.; to *Leslie INT, Mich.; MEA 2,300. *3,000—MRA.

From Leslie INT, Mich.; to Lansing, Mich., VOR; MEA 2,300.

Section 610.6047 *VOR civil airway 47* is amended to read in part:

From Detroit, Mich., ILS loc. (Willow Run Airport); to Midcraft INT, Mich.; MEA 2,300.

Section 610.6050 *VOR civil airway 50* is amended to delete:

From St. Joseph, Mo., VOR; to Santa Rosa INT, Mo.; MEA 2,400.

From Santa Rosa INT, Mo.; to Kirksville, Mo., VOR; MEA *3,000. *2,400—MOCA.

Section 610.6051 *VOR civil airway 51* is amended to read in part:

From Jacksonville, Fla., VOR; to Folkston INT, Ga.; MEA 1,300.

From Folkston INT, Ga.; to Alma, Ga., VOR; MEA 1,600.

From Jacksonville, Fla., VOR via E alter.; to Colesburg INT, Ga., via E alter.; MEA 1,200.

From Colesburg INT, Ga., via E alter.; to Alma, Ga., VOR via E alter.; MEA *1,400. *1,200—MOCA.

From Jacksonville, Fla., VOR via W alter.; to Callahan INT, Fla., via W alter.; MEA 1,200.

From Callahan INT, Fla., via W alter.; to Hilliard INT, Fla., via W alter.; MEA 1,300.

From Hilliard INT, Fla., via W alter.; to Alma, Ga., VOR via W alter.; MEA 1,600.

Section 610.6054 *VOR civil airway 54* is amended to read in part:

From Little Rock, Ark., VOR; to Biscoe INT, Ark.; MEA 1,500.

From Biscoe INT Ark.; to Memphis, Tenn., VOR; MEA *2,500. *1,700—MOCA.

## PART 610—MINIMUM EN ROUTE IFR ALTITUDES

### MISCELLANEOUS AMENDMENTS

The minimum en route IFR altitudes appearing hereinafter have been coordinated with interested members of the industry in the regions concerned insofar as practicable. The altitudes are adopted without delay in order to provide for safety in air commerce. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required. Part 610 is amended as follows: (Listed items to be placed in appropriate sequence in the sections indicated).

Section 610.16 *Green civil airway 6* is amended to read in part:

From New Orleans, La., LFR; to Keesler AFB, Miss., LFR; MEA 1,400.
From Keesler AFB, Miss., LFR; to Prichard INT, Ala; MEA 1,400.
From Prichard INT, Ala.; to Bay Minette, Ala., LF/RBN; MEA 1,500.

Section 610.230 *Red civil airway 30* is amended to read in part:

From New Orleans, La., LFR; to Horn INT, Miss.; MEA 1,400.
From Horn INT, Miss.; to Bon Secour INT, Ala.; MEA 1,100.
From Bon Secour INT, Ala.; to Whiting, Fla., LFR; MEA 2,000.
From Whiting, Fla., LFR; to Crestview, Fla., LFR; MEA 1,400.

Section 610.274 *Red civil airway 74* is added to read:

From Horn INT, Miss.; to Bay Minette, Ala., LF/RBN; MEA 1,600.

Section 610.301 *Red civil airway 101* is added to read:

From Keesler AFB, Miss., LFR; to Horn INT, Miss.; MEA 1,300.

Section 610.310 *Red civil airway 110* is added to read:

From Prichard INT, Ala.; to Brookley, Ala., LF/RBN; MEA 1,600.
From Brookley, Ala., LF/RBN; to Bon Secour INT, Ala.; MEA 1,200.

Section 610.659 *Blue civil airway 59* is amended to delete:

From Pensacola, Fla., LFR; to McDavid INT, Fla.; MEA 1,300.
From McDavid INT, Fla.; to Goodway INT, Ala.; MEA 1,400.

Section 610.6022 *VOR civil airway 22* is amended to read in part:

From New Orleans, La., VOR; to *Dog INT, La.; MEA **3,900. *3,900—MRA. **1,600—MOCA.
From Dog INT, La.; to Bon Secour INT, Ala.; MEA *4,300. *1,100—MOCA.
From *Bon Secour INT, Ala.; to Saufley, Fla., VOR; MEA **2,000. *2,000—MRA. **1,300—MOCA.
From Saufley, Fla., VOR; to Gonzales INT, Fla.; MEA *2,000. *1,700—MOCA.
From Gonzales INT, Fla.; to Whiting INT, Fla.; MEA *2,000. *1,300—MOCA.
From Whiting INT, Fla.; to Crestview, Fla., VOR; MEA *2,000. *1,400—MOCA.

Section 610.6240 *VOR civil airway 240* is added to read:

From Bon Secour INT, Ala.; to Mobile, Ala., VOR; MEA 1,600.

Section 610.6242 *VOR civil airway 242* is added to read:

From Mobile, Ala., VOR; to Dog INT, La.; MEA *1,500. *1,400—MOCA.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

These rules shall become effective July 1, 1956.

[SEAL] JAMES T. PYLE,
*Acting Administrator of Civil Aeronautics.*

## PART 301—DOMESTIC QUARANTINE NOTICES

### SUBPART—MEDITERRANEAN FRUIT FLY

### ADMINISTRATIVE INSTRUCTIONS DESIGNATING CERTAIN LOCALITIES AS REGULATED AREA

Pursuant to § 301.78–2 of the regulations supplemental to the Mediterranean Fruit Fly Quarantine (7 CFR Supp. 301.78–2, 21 F. R. 3214), under sections 8 and 9 of the Plant Quarantine Act of 1912, as amended (7 U. S. C. 161, 162), administrative instructions issued as 7 CFR Supp. 301.78–2a (21 F. R. 3216), effective May 16, 1956, are hereby amended to read as follows:

§ 301.78–2a *Administrative instructions designating regulated area under the Mediterranean fruit fly quarantine and regulations.* Infestations of the Mediterranean fruit fly have been determined to exist in the civil divisions listed below. Accordingly, such civil divisions are hereby designated as the Mediterranean fruit fly regulated area within the meaning of the provisions in this subpart:

Florida: The counties of Broward, Dade, and Palm Beach.

These amended administrative instructions shall become effective June 1, 1956.

The purpose of the amendment is to add the Florida county of Palm Beach to the list of counties in which Mediterranean fruit fly infestations have been determined to exist, and designate Palm Beach County as part of the area regulated under the Mediterranean fruit fly quarantine and regulations.

This amendment imposes restrictions supplementing Mediterranean fruit fly quarantine regulations already effective. It must be made effective promptly in order to carry out the purposes of the regulations. Accordingly, under section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice and other public procedure with respect to the foregoing amendment are impracticable and contrary to the public interest, and good cause is found for making the effective date thereof less than 30 days after publication in the FEDERAL REGISTER.

(Sec. 9, 37 Stat. 318; 7 U. S. C. 162. Interprets or applies sec. 8, 37 Stat. 318, as amended; 7 U. S. C. 161)

Done at Washington, D. C., this 28th day of May 1956.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Robert G. Busse t. a. Lincoln Institute, etc., Pekin, Ill., Docket 6413, May 17, 1956]

*In the Matter of Robert G. Busse, an Individual Trading as Lincoln Institute and Lincoln Training Service*

This proceeding was heard by a hearing examiner on the complaint of the Commission charging a Pekin, Ill., seller of correspondence courses on passing Civil Service examinations with falsely representing on postal cards and printed circular letters and through statements of his sales agents, that his school was connected with the United States Civil Service Commission, that completion of his course guaranteed graduates positions therein and in desired geographical locations, that vacancies existed, and that starting salaries were higher than was the fact; and with misrepresenting the character of his school through use of the word "Institute" in his trade name, among other things.

Following agreement between the parties for entry of a consent order, the hearing examiner made his initial decision and order to cease and desist which became, on May 17, 1956, the decision of the Commission.

The order to cease and desist is as follows:

*It is ordered,* That the respondent, Robert G. Busse, individually and doing business under the name of Lincoln Institute and Lincoln Training Service, or any other name, and his representatives, agents and employees, directly or through any corporate or other device, in the connection with the offering for sale, sale and distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of courses of study and instruction, intended for preparing students thereof for examination for civil Service positions under the United States Government, or any similar courses of study, do forthwith cease and desist from:

1. Representing, directly or by implication:

(a) That respondent, his school, his agents or representatives, or any one of them, have any connection with or are a part of the United States Civil Service Commission or any other agency of the United States Government.

(b) That the completion of respondent's course of instructions assures or guarantees a position in the United States Civil Service or makes them eligible for appointment to such position.

(c) That positions in said Civil Service may be obtained through respondent's school after completion of the course of instruction immediately or at any time.

(d) That persons who complete respondent's course of instruction are assured of obtaining passing grades in Civil Service examinations or that they will be qualified for Civil Service positions.

(e) That there is any assurance that persons who complete respondent's course of instructions and obtain Civil Service positions will be employed in any particular geographical area.

(f) That any specific Civil Service positions are available to all applicants or that any Civil Service position which requires appointees to have veterans status or certain physical, mental, educational or experiential qualifications is generally available and may be obtained by persons not meeting such requirements.

(g) That vacancies exist in, or that appointments will be made to, any United States Civil Service position contrary to fact; or that the number of positions available or vacant or to which appointments will be made in said Civil Service or any branch thereof is greater than is actually the fact.

(h) That prospective students lose the opportunity to enroll for respondent's course of study unless they enroll at the time of the first visit of respondent's agent or representative.

(i) That the starting salary for any United States Civil Service position is greater than it is in fact.

2. Using the words and phrases of "Director," "Executive Offices," or representing by any similar means, that his business has any connection with the United States Government or any branch or agency thereof.

3. Using the word "Institute" or any word or term of similar import or meaning as part of respondent's trade name, or as a part of the name of the respondent's school.

4. Soliciting, procuring or accepting contracts for respondent's course of study, without permitting prospects to read the same fully and thoroughly before the signing of such contract by the prospect.

By "Decision of the Commission", etc., report of compliance was required as follows:

*It is ordered,* That the respondent herein shall within sixty (60) days after service upon him of this order, file with the Commission a report in writing setting forth in detail the manner and form in which he has complied with the order to cease and desist.

Issued: May 17, 1956.

By the Commission.

## PART 13—DIGEST OF CEASE AND DESIST ORDERS

### CORDAGE INSTITUTE ET AL.

Subpart—*Combining or conspiring:* § 13.400 *To discriminate or stabilize prices through basing point or delivered price systems;* § 13.430 *To enhance, maintain or unify prices.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Cordage Institute (New York, N. Y.) et al., Docket 5848, May 12, 1956]

*In the Matter of Cordage Institute, an Unincorporated, Non-Profit Membership Association, J. S. McDaniel, an Individual and Its Secretary, R. C. Utess, Individually and as Its President and Chairman of Its Executive Committee, S. W. Metcalf, Individually and as a Member of Its Executive Committee, W. S. Miles, Jr., Individually and as a Member of Its Executive Committee, E. G. Roos, Individually and as a Member of Its Executive Committee, H. M. Wall, Individually and as a Member of Its Executive Committee, Plymouth Cordage Co., a Corporation, American Manufacturing Company, a Corporation, Columbian Rope Company, a Corporation, The Edwin H. Fitler Company, a Corporation, R. A. Kelly Company, a Corporation, The E. T. Rugg Company, a Corporation, Peoria Cordage Company, a Corporation, New Bedford Cordage Company, a Corporation, Tubbs Cordage Company (California), a Corporation, Tubbs Cordage Company (Washington), a Corporation, Wall Rope Works, Inc., a Corporation, Whitlock Cordage Company, a Corporation, Cating Rope Works, Inc., a Corporation, Cupples Company, Inc., a Corporation, The Thomas Jackson & Son Company, a Corporation, Waterbury Rope Sales Corporation, a Corporation, The Hooven & Allison Company, a Corporation, Rinek Cordage Company, a Corporation, Respondents*

This proceeding was heard by a hearing examiner on the complaint of the Commission charging 18 corporate manufacturers of hard fiber rope, cordage,

and wrapping twine, and their trade association with concertedly establishing and maintaining geographical price zones and zone price differentials in the sale of their products, among other things. At the conclusion of the reception of evidence in support of the complaint, the hearing examiner granted respondents' motion for dismissal for failure of proof. On appeal, the Commission affirmed his dismissal, except as to the issue involving the use by respondents of geographical zones, and as to this, the Commission remanded the matter for further proceedings.

An agreement on this issue having been entered into between the parties, the hearing examiner made his initial decision and order to cease and desist which, by order of May 11, 1956, became on the 12th of May the decision of the Commission.

The order to cease and desist is as follows:

*It is ordered,* That respondents, Cordage Institute, an unincorporated membership association, J. S. McDaniel, individually and as Secretary of Cordage Institute, R. C. Utess, individually and as President and Chairman of the Executive Committee of Cordage Institute, S. W. Metcalf, individually and as a member of the Executive Committee of Cordage Institute, W. S. Miles, Jr., individually and as a member of the Executive Committee of Cordage Institute, E. G. Roos, individually and as a member of the Executive Committee of Cordage Institute, H. M. Wall, individually and as a member of the Executive Committee of Cordage Institute, and Plymouth Cordage Co., American Manufacturing Company, Columbian Rope Company, The Edwin H. Fitler Company, R. A. Kelly Company, The E. T. Rugg Company, Peoria Cordage Company, New Bedford Cordage Company, Tubbs Cordage Company, Tubbs Cordage Company (Washington), Wall Rope Works, Inc., Whitlock Cordage Company, Cating Rope Works, Inc., Cupples Company Manufacturers, The Thomas Jackson & Son Company, Waterbury Rope Sales Corporation, The Hooven & Allison Company, and Rinek Cordage Company, corporations, and their officers, agents, representatives, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, and distribution of hard fiber rope or hard fiber wrapping twine in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from entering into, continuing, cooperating in, or carrying out any planned common course of action, agreement, understanding, combination, or conspiracy between or among any two or more of said respondents, or between any one or more of said respondents and others not parties to this proceeding, to establish or maintain geographical price zones or zone price differentials in the sale of hard fiber rope or hard fiber wrapping twine.

*It is further ordered,* That the remaining charges of the complaint be, and they hereby are, dismissed.

By "Decision of the Commission," etc., report of compliance was required as follows:

*It is ordered,* That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: May 11, 1956.

By the Commission.

## PART 13—DIGEST OF CEASE AND DESIST ORDERS

### UNION BAG & PAPER CORP. AND HANKINS CONTAINER CO.

Subpart—*Acquiring stock, or assets, etc., of competitor:* § 13.5 *Acquiring stock, or assets, etc., of competitor.* Subpart—*Combining or conspiring:* § 13.410 *To eliminate or restrain competition in conspirators' goods;* § 13.452 *To limit production;* § 13.475 *To restrict competition in buying.* Subpart—*Interlocking directorates unlawfully:*[1] § 13.1106 *Interlocking directorates unlawfully.*[1]

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, sec. 7, 38 Stat. 731, sec. 8, 38 Stat. 732; 15 U. S. C. 45, 18, 19) [Cease and desist order, Union Bag & Paper Corporation (New York, N. Y.) et al., Docket 6391, May 10, 1956]

*In the Matter of Union Bag & Paper Corporation, a Corporation, and Hankins Container Company, a Corporation*

This proceeding was heard by a hearing examiner on the complaint of the Commission—charging two corporate manufacturers of corrugated boxes and sheets, one manufacturing container board in excess of its own requirements therefor and the other mainly a converter and dependent on a limited number of manufacturers for its supply, with sales in 1954 of $105,000,000 and $24,000,000, respectively, with violation of the merger and interlocking directorate sections of the Clayton Act and section 5 of the Federal Trade Commission Act, through entering into contracts providing, among other things, that the larger, Union, buy a substantial amount of common stock in the smaller, Hankins, and that Hankins' controlling stockholders vote for election to its board of directors of a director of Union; and providing further that Union not acquire stock of any substantial competitor of Hankins having plants in the latter's territory; and that Hankins restrict its production of container board and, with certain exceptions, confine its purchases thereof to Union—and an agreement between counsel providing for entry of a consent order.

On this basis, the hearing examiner made his initial decision and order to cease and desist which became, on May 10, 1956, the decision of the Commission.

Said order to cease and desist is as follows:

*It is ordered,* That respondent Union Bag & Paper Corporation (hereinafter referred to as respondent "Union"), and respondent Hankins Container Company (hereinafter referred to as respondent "Hankins"), either directly or through their respective officers, directors, agents, representatives and employees, together with the successors or assigns of same, directly or through any corporate or other device, in connection with the purchase, offering for purchase, sale, offering for sale, or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, and Clayton Act, as amended, of container board, liner board, corrugating medium, corrugated boxes, or corrugated sheets (hereinafter referred to collectively as "said products"), do forthwith cease and desist from entering into, continuing, cooperating in, or carrying out, any planned common course of action, understanding, or agreement between said respondents or between either of said respondents and others not parties hereto, to do or perform any of the following acts:

1. Permitting, or attempting to permit, directly or indirectly, by any means or method, the acquisition by respondent Union, either directly or through any of its officers, directors, employees, agents, representatives, assigns or successors of any of the stock, assets or control of, or in, respondent Hankins other than 9 percent stock interest in respondent Hankins, which may be acquired and held according to the proviso hereinafter set forth;

2. Causing, or attempting to cause, any stock, regardless of its type or designation, in respondent Hankins, to be voted or used, directly or indirectly, by any means or method, for the purpose or with the effect of having or causing any officer, director, employee, agent or representative of respondent Union, or of any subsidiary of respondent Union, to be elected, appointed, selected or designated as an officer or director of respondent Hankins, or of any subsidiary of respondent Hankins;

3. Permitting, or attempting to permit, directly or indirectly, by any means or method, the respondent Union, directly or through any officer, director, employee, agent or representative of said respondent, or of any subsidiary of said respondent, to control, conduct, or attempt to control or conduct, by any means or method, directly or indirectly, the management or operation of respondent Hankins or of any subsidiary of respondent Hankins;

4. Restricting, preventing, limiting or attempting to restrict, prevent or limit the right, power, or privilege of respondent Hankins to sell or transfer any of its stock;

5. Restricting, limiting, or attempting to restrict or limit the right, power or privilege of respondent Union to purchase or acquire any stock of any box manufacturer;

6. Restricting, preventing, limiting, or attempting to restrict, prevent or limit, the quantity or amount of said products, described in the preamble hereto, which respondent Hankins can or may purchase from sellers thereof other than respondent Union;

7. Fixing, or attempting to fix, the maximum amount or quantity which respondent Hankins shall, or may consume, use, produce, sell or distribute of any of said products produced or manufactured by respondent Hankins;

8. Restricting, limiting, preventing, or attempting to restrict, limit or prevent, actual or potential competition between respondent Union and other producers or manufacturers of said products, in offering for sale, selling or distributing any of same to respondent Hankins;

*It is further ordered,* That respondent Union cease and desist from permitting or allowing anyone to be elected or to serve as a director of respondent Union or of any of its subsidiaries who is a director of respondent Hankins.

*It is further ordered,* That respondent Hankins cease and desist from permitting or allowing anyone to be elected, or to serve as a director of respondent Hankins or any of its subsidiaries who is a director of respondent Union.

*It is further ordered,* That respondent Union, within 90 days from the date of service upon it of a copy of this order, shall divest itself absolutely, in good faith, retaining no interest whatsoever therein, of all stock which it now holds or owns, directly or indirectly, in, or of, respondent Hankins.

It is understood, however, that nothing in this order shall be construed or interpreted as preventing respondent Union from acquiring, owning, or holding stock in respondent Hankins when the total amount of such stock, by whatever means acquired, owned or held, does not exceed 9 percent of the total outstanding capital stock in respondent Hankins (this is the same percentage of stock interest in respondent Hankins which was represented by the 12,500 shares of respondent Hankins acquired by respondent Union on June 24, 1954, plus the 6,250 shares acquired on June 24, 1955, plus the 6,250 shares which were to be acquired on June 22, 1956, all under the provisions of the agreements or contracts entered into by and between respondent Hankins and respondent Union on June 7, 1954), provided said stock is held solely for investment and provided further that respondent Union, if it votes such stock, shall not vote it for the purpose, or with the effect, of evading or violating any of the provisions in this order, or of substantially lessening competition or tending to create a monopoly in any line of commerce in which said respondents are engaged, and provided still further that should the Commission bring any action based upon an alleged violation of these provisos, the burden of refuting same shall be assumed by respondent Union.

It is further understood that nothing in injunctive provision 4 of this order shall be construed as preventing respondent Hankins, acting in good faith and without intent to violate any of the provisions of this order, from contracting to sell, selling or transferring stock to purchasers not owned, controlled or acting under the direction of respondent Union or any of its subsidiaries.

It is further understood that nothing in injunctive provisions 6, 7 and 8 of this order shall be construed as preventing respondent Union from selling to respondent Hankins or respondent Hankins from buying, or committing itself to buy, from respondent Union or from others not parties hereto, any of the products described in the preamble hereof, pursuant to contract or contracts: *Provided, however,* That the Commission hereby is not approving or disapproving the legality of any such contract or contracts, between the said respondents for the purchase or sale of such products, with regard to grounds of attack not arising from these specific provisions of the order.

It is further understood that nothing in this order shall be construed or interpreted as preventing either respondent Hankins or respondent Union from petitioning the Commission to reopen these proceedings and modify this order to cease and desist because of a change in conditions of fact, law or the public interest, so as to permit, respondent Union to purchase, or respondent Hankins to sell to respondent Union, additional stock in respondent Hankins; and if such petition alleges, as a change in conditions of fact, that there has been a full and complete compliance with all the injunctive provisions of this order, and that the acquisition of such additional stock does not substantially lessen competition or tend to create a monopoly in any line of commerce in which said respondents are engaged, the Commission shall reopen the proceedings and permit the introduction of evidence; and if at such reopening, the petitioning respondent can sustain these allegations, the Commission shall grant such petition to modify this order.

By the Commission's order, report of compliance was required as follows:

*It is ordered,* That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: May 10, 1956.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary.*

# TITLE 31—MONEY AND FINANCE: TREASURY

## Chapter V—Foreign Assets Control, Department of the Treasury

### PART 500—FOREIGN ASSETS CONTROL REGULATIONS

REPORTS WITH RESPECT TO CHINESE HOG BRISTLES AND PAINT BRUSHES MADE THEREFROM; IMPORTATION OF AND DEALINGS IN CERTAIN MERCHANDISE

The Foreign Assets Control Regulations, 31 CFR 500.101–500.808, are hereby amended by the amendment of § 500.204 and by the addition of § 500.605.

The new § 500.605 requires all importers, processors, and dealers in hog bristles and all manufacturers and importers of paint brushes to report with respect to their holdings of Chinese hog bristles and of paint brushes containing such hog bristles. Reports are to be made as of June 1, 1956, and are due on June 15, 1956.

The various amendments of § 500.204 affect Asiatic feathers and down, muga silk and muga silk piece goods, and sheet glass.

Asiatic feathers and down, which were previously prohibited from importation only if moving through Hong Kong, Macao, or the Soviet bloc, have been prohibited from importation regardless of the countries through which they move. An exception, however, has been provided which allows the importation of Asiatic feathers and down if they come directly from the principal Asian producing countries. The purpose of this amendment is to prevent the importation of such feathers from third countries where they may have been adulterated with Chinese feathers.

Muga silk and muga silk piece goods have been subjected to the same prohibitions as affect tussah silk and tussah silk piece goods, to which they are closely related and from which they are physically indistinguishable.

Sheet glass has been prohibited from importation from or through Hong Kong or Macao since those areas, which do not produce such glass, are receiving it in substantial quantities from China, and it is being offered for re-exportation.

1. Section 500.204 is hereby amended as follows:

a. The following items are added to the list set forth in paragraph (a) (2) (ii):

Feathers and down, Asiatic (Exceptions: Burma, India, Taiwan, Thailand, and those those areas of Viet Nam which are not under Communist control).
Silk piece goods, tussah and muga (Exceptions: None).
Silk, tussah and muga (Exceptions: None).

b. The following item is deleted from the list set forth in paragraph (a) (3):

Feathers and down, Asiatic.

c. The following subparagraph (4) is added to paragraph (a):

(4) Merchandise specified in this subparagraph, howsoever processed, if such

merchandise is or has been located in or transported from or through Hong Kong or Macao.

Type of merchandise: Glass, sheet (window).

2. Section 500.605 is hereby added to the regulations, as follows:

§ 500.605 *Reports with respect to Chinese hog bristles and paint brushes made therefrom.* (a) Every person subject to the jurisdiction of the United States who, at any time between January 1, 1955, and June 1, 1956, whether for his own account or for the account of another, imported, dealt in, or processed hog bristles or manufactured or imported paint brushes (including paint, varnish, white wash, kalsomine, paper hanging, marking, and stenciling brushes) shall, on or before June 15, 1956, report on Form TFR–605 with respect to all hog bristles which are the growth or produce of China (other than Formosa) or North Korea, owned by such person on June 1, 1956, or in which such person then had any interest, and shall supply all information required on such form, including an inventory of all paint brushes containing such bristles which on that date were owned by such person or in which he then had any interest.

(b) Reports on Forms TFR–605 shall be filed in triplicate with Unit 605, Foreign Assets Control, Treasury Department, Washington 25, D. C. Report forms may be procured from Unit 605 or from the Foreign Assets Control Department of the Federal Reserve Bank of New York, 33 Liberty Street, New York 45, New York.

(Sec. 5, 40 Stat. 415, as amended; 50 U. S. C., App. 5. E. O. 9193, 7 F. R. 5205; 3 CFR 1943 Cum. Supp., E. O. 9989, 13 F. R. 4891; 3 CFR 1948 Supp.)

[SEAL] A. N. OVERBY,
*Acting Secretary of the Treasury.*

[F. R. Doc. 56–4279; Filed, May 31, 1956; 8:47 a. m.]

## TITLE 50—WILDLIFE

### Chapter I—Fish and Wildlife Service, Department of the Interior

#### Subchapter F—Alaska Commercial Fisheries

MISCELLANEOUS AMENDMENTS TO SUBCHAPTER

*Basis and purpose.* On the basis of continuing field investigations by personnel of the Fish and Wildlife Service, it has been determined that the following changes are necessary for proper conservation of the Alaska salmon fisheries.

Therefore, effective immediately upon publication in the FEDERAL REGISTER:

PART 109—COOK INLET AREA

1. Section 109.2 is amended in paragraph (c) by deleting "August 8" and substituting in lieu thereof "August 12," and in paragraph (d) by deleting "August 12" and substituting in lieu thereof "August 1."

2. Section 109.51 is amended in paragraph (c) to read as follows:

(c) The streams and lakes tributary to the east coast of Cook Inlet north of the town of Homer and tributary to the north coast east of the mouth of Susitna River, including all drainages of Knik and Turnagain Arms, except with hand rod, hook and line.

PART 111—PRINCE WILLIAM SOUND AREA

Section 111.1a is amended in paragraph (a) to read as follows:

(a) Eshamy district: All waters within one mile of the mainland shore from the outer point on the north shore of Granite Bay to the light on the south shore of the entrance to Port Nellie Juan.

PART 114—YAKUTAT AREA

Section 114.6 is deleted.

PART 119—SOUTHEASTERN ALASKA AREA, EASTERN DISTRICT, SALMON FISHERIES

Section 119.12 is amended to read as follows:

§ 119.12 *Bag limit.* It is prohibited to take more than 15 salmon less than 18 inches in length, or more than 15 pounds of such salmon, in the fresh waters of the Mendenhall River and Jordan Creek drainages, and all tributaries and impoundments within these drainages.

PART 122—SOUTHEASTERN ALASKA AREA, CLARENCE STRAIT DISTRICT, SALMON FISHERIES

Section 122.8 is amended in paragraph (r) by deleting subparagraphs (1) and (3).

PART 124—SOUTHEASTERN ALASKA AREA, SOUTHERN DISTRICT, SALMON FISHERIES

Section 124.8 is amended in paragraph (d), subparagraph (3) to read as follows:

(3) Within 2,500 feet of a point at 55 degrees 7 minutes north latitude.

Since immediate action is necessary, notice and public procedure on this amendment are impracticable (60 Stat. 237; 5 U. S. C. 1001 et seq.).

(Sec. 1, 43 Stat. 464, as amended; 48 U. S. C. 221)

JOHN L. FARLEY,
*Director.*

MAY 29, 1956.

[F. R. Doc. 56–4336; Filed, May 29, 1956; 3:37 p. m.]

# PROPOSED RULE MAKING

## DEPARTMENT OF THE TREASURY

### Bureau of Customs

[ 19 CFR Part 11 ]

ORNAMENTS, GLASS CHRISTMAS TREE

NOTICE OF PROPOSED REVOCATION OF EXCEPTION OF CERTAIN ARTICLES FROM REQUIREMENTS OF MARKING TO INDICATE COUNTRY OF ORIGIN

Notice is hereby given pursuant to section 4 of the Administrative Procedure Act (5 U. S. C. 1003) that consideration is being given by the Bureau of Customs to requiring "ornaments, glass Christmas tree" to be marked to indicate the country of origin in accordance with the provisions of section 304 of the Tariff Act of 1930, as amended (19 U. S. C. 1304), notwithstanding that this item is listed in T. D. 49896 (4 F. R. 2509) among the articles found, pursuant to section 304 (a) (3) (J), to have been imported in substantial quantities during the five-year period immediately preceding January 1, 1937, and not required during such period to be marked to indicate the country of their origin, which articles are now excepted from the marking requirements by § 11.10 (a) of the Customs Regulations.

Consideration will be given to all data, views, and arguments submitted in writing to the Commissioner of Customs, Washington 25, D. C., within 30 days after the date of publication of this notice in the FEDERAL REGISTER. No hearings will be held.

[SEAL] C. A. EMERICK,
*Acting Commissioner of Customs.*

Approved: May 23, 1956.

DAVID W. KENDALL,
*Acting Secretary of the Treasury.*

[F. R. Doc. 56–4293; Filed, May 31, 1956; 8:49 a. m.]

# NOTICES

## DEPARTMENT OF THE TREASURY

### Bureau of Customs

[T. D. 54095]

WATCHES AND WATCH MOVEMENTS

TARIFF CLASSIFICATION

MAY 25, 1956.

Certain movements engineered for the later addition or incorporation of self-winding devices are classifiable under paragraph 367 (a) (1) through (5), Tariff Act of 1930; self-winding devices or mechanisms imported in separate shipments are classifiable as assemblies or subassemblies under paragraph 367 (c).

Reference is made to the notice of prospective tariff classification of certain self-winding watch movements published in the FEDERAL REGISTER dated January 19, 1956 (21 F. R. 400).

The question presented is the tariff classification of the following when imported in separate shipments:

(a) Watch movements containing 17 or a lesser number of real or synthetic jewels (including substitutes for jewels) engineered for the later addition or incorporation of self-winding devices, and

(b) Self-winding devices.

The Bureau has given the most careful consideration to all written submissions, oral presentations, and other evidence presented to it.

In view of the fact that paragraph 367 (a) (5), Tariff Act of 1930, as modified, provides in part for an additional duty of 75 cents on any article covered by paragraph 367 (a) (1) through (4) "if a self-winding device may be incorporated therein", the Bureau is of the opinion that certain movements engineered for the later addition or incorporation of self-winding devices are classifiable under paragraph 367 (a) (1) through (4) subject to the additional duties provided under subparagraph (a) (5). The fact that watch movements are engineered for the later addition or incorporation of self-winding devices does not, standing alone, result in movements specially engineered, constructed, designed, or prepared to facilitate upjeweling after importation within the meaning of T. D. 53753.

The Bureau has concluded that watch movements containing not more than 17 jewels (including any substitutes for jewels) which, when stem wound, will keep accurate time for at least 24 hours in their imported condition without the utilization of self-winding mechanisms are classifiable as watch movements under paragraph 367 (a) (1) through (5), Tariff Act of 1930, as modified. The self-winding devices imported in separate shipments from the movements are classifiable under paragraph 367 (c), as modified, as assemblies or subassemblies dutiable at the reduced rate of 2 cents for each part or piece and 9 cents per jewel (including any substitutes for jewels), but not less than 45 percent ad valorem.

[SEAL] RALPH KELLY,
*Commissioner of Customs.*

## United States Coast Guard

[CGFR 56–17]

APPROVAL OF EQUIPMENT AND CHANGE IN NAME OF MANUFACTURER

*Correction*

In F. R. Doc. 56–3816, appearing at page 3195 of the issue for Tuesday, May 15, 1956, "Life Products Co." in Approval Nos. 160.047/86/0, 160.047/87/0 and 160.047/88/0 should read "Lifo Products Co."

## DEPARTMENT OF THE INTERIOR

### Bureau of Land Management

[Colorado B—26194, Classification 16]

COLORADO

SMALL TRACT CLASSIFICATION

1. Pursuant to authority delegated to me by Bureau Order No. 541, dated April 21, 1954 (19 F. R. 2473), I hereby classify the following described public lands, totaling 40 acres in Summit County, Colorado, as suitable for lease and sale for residence purposes under the Small Tract Act of June 1, 1938 (52 Stat. 609, 43 U. S. C. 682a), as amended:

SIXTH PRINCIPAL MERIDIAN, COLORADO

T. 5 S., R. 77 W.,
Sec. 7: NE¼NW¼.

2. Classification of the above-described lands by this order segregates them from all appropriations, including locations under the mining laws, except as to applications under the mineral leasing laws.

3. The lands classified by this order shall not become subject to application under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U. S. C. 682a), as amended, until it is so provided by an order to be issued by an authorized officer, opening the lands to application or bid with a preference right to veterans of World War II and of the Korean conflict and other qualified persons entitled to preference under the act of September 27, 1944 (58 Stat. 497; 43 U. S. C. 279–284), as amended.

4. All valid applications filed prior to May 25, 1956, will be granted, as soon as possible, the preference right provided for by 43 CFR 257.5 (a).

MAX CAPLAN,
*State Supervisor.*

MAY 25, 1956.

[F. R. Doc. 56–4277; Filed, May 31, 1956; 8:46 a. m.]

ALASKA

NOTICE OF FILING OF PLATS OF SURVEY AND ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

MAY 24, 1956.

1. A plat of survey of the lands described below will be officially filed in the Anchorage Land Office, Anchorage, Alaska, effective at 10:00 a. m., June 29, 1956.

SEWARD MERIDIAN

Township 12 North, Range 2 West. Sections 29, 30, 31 and 32, comprising 2,493.96 acres of public land.

2. The land is located approximately 15 miles southwest of Anchorage, Alaska. The terrain is high to extremely mountainous, and only a portion is suitable for agricultural purposes.

3. Section 29 is withdrawn from all forms of appropriation under the public-land laws, including the mining and mineral leasing, by Public Land Order No. 576, dated March 29, 1949, under the jurisdiction of the Secretary of Interior, for the protection of the water supply of the City of Anchorage.

4. The remaining lands are subject to disposition as follows:

a. Applications and selections under the nonmineral public land laws and applications and offers under the mineral leasing laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications, selections, and offers will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications under the Homestead, Alaska Homesite, and Small Tract Laws by qualified veterans of World War II or of the Korean Conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284 as amended), presented prior to 10:00 a. m. on June 29, 1956, will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a. m. on September 28, 1956, will be governed by the time of filing.

(3) All valid applications and selections under the non-mineral public land laws, other than those coming under paragraphs (1) and (2) above, and applications and offers under the mineral leasing laws, presented prior to 10:00 a. m. on September 28, 1956, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

b. Of the lands open to entry, the following are within Power Site Classification No. 107, dated June 12, 1925, which were opened to disposition by Restoration Order No. 1, dated November 16, 1951, subject to the provision of Section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U. S. C. 818) as amended.

SEWARD, MERIDIAN

T. 12 N., R. 2 W.,
Sec. 30: Lot 4, SE¼SW¼;
Sec. 31: Lots 1 and 2; E½NW¼, W½NE¼, N½SW¼ and SE¼;
Sec. 29: NE¼NW¼, E½;
Sec. 32: NE¼NE¼.

5. Persons claiming veterans' preference rights under paragraph a (2) above must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their applications, setting forth all facts relevant to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

6. Inquiries concerning these lands shall be addressed to the Manager, Anchorage Land Office, P. O. Box 1740, Anchorage, Alaska.

VIRGIL O. SEISER,
*Manager.*

### Office of the Secretary

OKLAHOMA, NEW MEXICO, AND TEXAS

DISASTER ASSISTANCE; DELINEATION OF DROUGHT AREAS

Pursuant to Public Law 875, 81st Congress, the President determined on February 27, 1956, that major disasters occasioned by drought existed in the States of Oklahoma and New Mexico, and the President also determined on July 21, 1954, that a major disaster occasioned by drought existed in the State of Texas and extended that determination on September 19, 1955.

Pursuant to the authority delegated to me by the Administrator, Federal Civil Defense Administration (18 F. R. 4609; 19 F. R. 2148, 5364; 20 F. R. 4664), and for the purposes of section 2 (d) of Public Law 38, 81st Congress, as amended by Public Law 115, 83d Congress, and section 301 of Public Law 480, 83d Congress, the following counties and parts of counties were determined on the dates indicated to be affected by the above-mentioned major disasters.

OKLAHOMA

Determined on April 16, 1956: Beaver, Ellis, Harper.

NEW MEXICO

Determined on April 2, 1956: Curry, Guadalupe, DeBaca, Santa Fe, Torrance, Quay.

That part of Valencia County lying north of U. S. Highway 66.

That part of Harding County lying east and south of State Highway 120.

Determined on May 11, 1956: Mora, San Miguel, Roosevelt.

That part of Harding County lying west and north of State Highway 120.

TEXAS

Determined on May 11, 1956: Armstrong, Maverick.

Done at Washington, D. C., this 25th day of May 1956.

[SEAL] TRUE D. MORSE,
*Acting Secretary.*

[F. R. Doc. 56-4284; Filed, May 31, 1956; 8:48 a. m.]

## DEPARTMENT OF COMMERCE

### Office of the Secretary

HARRY V. KILEY

REPORT OF APPOINTMENT AND STATEMENT OF FINANCIAL INTERESTS

Report of appointment and statement of financial interests required by section 710 (b) (6) of the Defense Production Act of 1950, as amended.

*Report of Appointment*

1. Name of appointee: Harry V. Kiley.
2. Employing agency: Department of Commerce, Business and Defense Services Administration.
3. Date of appointment: April 13, 1956.
4. Title of position: Director, Forest Products Division.
5. Name of private employer: Edens-Birch Lumber Co., Corrigan, Texas.

CARLTON HAYWARD,
*Director of Personnel.*

*Statement of Financial Interests*

6. Names of any corporations of which the appointee is an officer or director or within 60 days preceding appointment has been an officer or director, or in which the appointee owns or within 60 days preceding appointment has owned any stocks, bonds, or other financial interests; any partnerships in which the appointee is, or within 60 days preceding appointment was, a partner; and any other businesses in which the appointee owns, or within 60 days preceding appointment has owned, any similar interest.

[Docket No. 7818]

HAWAIIAN AIRLINES CARGO RATE INVESTIGATION

NOTICE OF HEARING

In the matter of the investigation to determine whether the rates, charges, and provisions contained in Hawaiian Airlines, Ltd.'s Freight Tariff CAB No. 12, including subsequent revisions and reissues thereof, are or will be unjust or unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful rates, charges, and provisions.

Notice is hereby given, pursuant to the provisions of the Civil Aeronautics Act of 1938, as amended, that a hearing in the above-entitled proceeding will be held June 25, 1956, 10:00 a. m. (Hawaiian Time) in Courtroom No. 2, U. S. Post Office, Custom House, and Court House, Honolulu, Hawaii before Examiner Thomas L. Wrenn.

Without limiting the scope of the issues, particular attention will be directed to the following matters:

1. Whether the various cargo rates and charges of Hawaiian Airlines' Freight Tariff CAB No. 12 are just and reasonable and are not unjustly discriminatory, unduly preferential, or unduly prejudicial or otherwise unlawful.

2. If the rates and charges in Freight Tariff CAB No. 12 are not just and reasonable, what are just and reasonable cargo rates or the maximum or minimum cargo rates and charges.

3. The following rules in Hawaiian Airlines' Freight Tariff CAB No. 12:

Rule 4, last paragraph, Shipments not Acceptable.
Rule 7, Excess Value Charge.
Rule 11, Minimum Charge Applicable to General Commodity Rates.
Rule 18, Liability for Loss or Damage.
Rule 21, Handling Charge for Heavy Lifts.
Rule 22, Handling Charge for Household Goods.
Rule 25, Charge for Cubic Dimensional Weight.

Notice is further given that any interested person, other than the parties of record, desiring to be heard regarding the issues involved in this proceeding should notify the Examiner before or at the beginning of the hearing June 25, 1956, making known the matters of fact or law on which he desires to be heard.

Dated at Washington, D. C., May 28, 1956.

[SEAL] FRANCIS W. BROWN,
*Chief Examiner.*

[F. R. Doc. 56-4305; Filed, May 31, 1956; 8:51 a. m.]

## FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 11399, 11400; FCC 56M-521]

NEW BRITAIN BROADCASTING CO. (WKNB-TV) ET AL.

ORDER CONTINUING HEARING CONFERENCE

In re applications of The New Britain Broadcasting Company (WKNB-TV), New Britain, Connecticut, Docket No. 11399, File No. BMPCT-2787; for modification of construction permit (Channel 30); and Julian Gross, et al. (Transferors) and National Broadcasting Company, Inc. (Transferee), Docket No. 11400, File No. BTC-1896; for transfer of control of The New Britain Broadcasting Company (WKNB and WKNB-TV).

*It is ordered*, This 24th day of May 1956, on the Hearing Examiners' own motion, and with the consent of all parties to the proceeding, hearing conference in the matter, presently scheduled for May 25, 1956, is continued to June 8, 1956.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
*Secretary.*

[F. R. Doc. 56-4294; Filed, May 31, 1956; 8:49 a. m.]

[Docket Nos. 11511, 11710; FCC 56-474]

BOOTH RADIO AND TELEVISION STATIONS, INC. AND KNORR BROADCASTING CORP.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Booth Radio and Television Stations, Inc., Lansing, Michigan, Docket No. 11511, File No. BP-9767 and Knorr Broadcasting Corporation, Lansing, Michigan, Docket No. 11710, File No. BP-10391; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 23d day of May 1956;

The Commission having under consideration the above-captioned applications of the Booth Radio and Television Stations, Inc., and the Knorr Broadcasting Corporation, each for a construction permit for a new standard broadcast station to operate on 730 kilocycles with a power of 500 watts, directional antenna, daytime only, at Lansing, Michigan;

It appearing that each applicant is legally, technically, financially and otherwise qualified, except as may appear from the issues specified below, to operate its proposed station, but that operation of both proposals would result in mutually destructive interference; that both proposed operations would be involved in interference with Station WGN, Chicago, Illinois; that, in view of the interests of parties to both applications in broadcast stations in several other nearby communities, a grant of either application might be in violation of § 3.35 of the Commission's rules; and that it has not yet been determined whether the proposed antenna system of the Knorr Broadcasting Corporation would constitute a hazard to air navigation; and

It further appearing that, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the subject applicants were advised by letter dated April 5, 1956, of the aforementioned deficiencies and that the Commission was unable to conclude that a grant of either application would be in the public interest; and

It further appearing that, in a pleading filed December 19, 1955, and by letters dated February 28 and May 7, 1956, counsel for Station WGN requested that the subject applications be designated for hearing; and

It further appearing that a timely reply was received from each subject applicant; and

It further appearing that the Commission, after consideration of the above, is of the opinion that a hearing is necessary;

*It is ordered*, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which would receive primary service from each of the proposed operations, and the availability of other primary service to such areas and populations.

2. To determine whether each of the proposed operations would be involved in objectionable interference with Station WGN, Chicago, Illinois, or any other existing standard broadcast station, and, if

so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

3. To determine whether a grant of either applicant would be in contravention of the provisions of § 3.35 of the Commission's rules on multiple ownership.

4. To determine whether the antenna system proposed by the Knorr Broadcasting Corporation would constitute a hazard to air navigation.

5. To determine which of the operations proposed in the above-captioned applications would better serve the public interest in the light of the evidence adduced under the foregoing issues and record made with respect to the significant differences between the applications as to:

(a) The background and experience of each of the above-named applicants to own and operate its proposed station.

(b) The proposals of each of the above-named applicants with respect to the management and operation of the proposed stations.

(c) The programming service proposed in each of the above-mentioned applications.

6. To determine, in the light of the evidence adduced pursuant to the foregoing issues, which, if either, of the applications should be granted.

*It is further ordered,* That WGN, Incorporated, licensee of Station WGN, is made a party to the proceeding.

Released: May 28, 1956.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
*Secretary.*

[Docket No. 11699; FCC 56M-522]

SOUTHERN OREGON BROADCASTING CO. (KUIN)

ORDER SCHEDULING PREHEARING CONFERENCE

In re application of Southern Oregon Broadcasting Company (KUIN), Grants Pass, Oregon, Docket No. 11699, File No. BP-10099; for construction permit.

The Hearing Examiner having under consideration the above-entitled proceeding;

*It is ordered,* This 24th day of May 1956, that all parties, or their attorneys, are directed to appear for a pre-hearing conference, pursuant to the provisions of § 1.813 of the Commission's rules, at the Commission's offices in Washington, D. C., at 10:00 a. m., June 5, 1956.

[Docket No. 11711; FCC 56-475]

SOUTH GEORGIA BROADCASTING CO. AND BEN HILL BROADCASTING CORP. (WBHB)

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re application of Al. H. Evans and Joseph Bilodeau, a partnership d/b as South Georgia Broadcasting Company, Fitzgerald, Georgia, Docket No. 11711, File No. BP-9969; and Ben Hill Broadcasting Corporation (WBHB), Fitzgerald, Georgia, Docket No. 11712, File No. BP-10195; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 23d day of May 1956;

The Commission having under consideration the above-entitled applications of Al. H. Evans and Joseph Bilodeau, a partnership d/b as South Georgia Broadcasting Company, for a construction permit for a new standard broadcast station to operate on 1380 kilocycles with a power of 5 kilowatts, daytime only, at Fitzgerald, Georgia; and Ben Hill Broadcasting Corporation for a construction permit to change the facilities of Station WBHB, Fitzgerald, Georgia, from operation on 1240 kilocycles with a power of 250 watts, unlimited time, to operation on 1380 kilocycles with a power of 5 kilowatts, daytime only;

It appearing that each of the applicants is legally, technically, financially and otherwise qualified, except as may appear from the issues specified below, to operate its proposed station, but that the operation of both stations as proposed would result in mutually destructive interference; and

It further appearing that, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the subject applicants were advised by letter dated January 4, 1956, of the aforementioned deficiency; and

It further appearing that a timely reply was filed by each of the applicants; and

It further appearing that the Ben Hill Broadcasting Corporation amended its application on February 2, 1956, to specify a different transmitter-antenna site, and it has not yet been determined whether the antenna would constitute a hazard to air navigation; and

It further appearing that the commission, after consideration of the replies, is of the opinion that a hearing is necessary;

*It is ordered,* That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which would receive primary service from the proposed operation of the South Georgia Broadcasting Company, and the availability of other primary service to such areas and populations.

2. To determine the areas and populations which may be expected to gain or lose primary service from the proposed operation of the Ben Hill Broadcasting Corporation, and the availability of other primary service to such areas and populations.

3. To determine whether the antenna proposed by the Ben Hill Broadcasting Corporation would constitute a hazard to air navigation.

4. To determine which of the operations proposed in the above-entitled applications would better serve the public interest in the light of the evidence adduced under the foregoing issues and the record made with respect to the significant differences between the applicants as to:

(a) The background and experience of each of the above-named applicants to own and operate the proposed stations.

(b) The proposals of each of the above-named applicants with respect to the management and operation of the proposed stations.

(c) The programming service proposed in each of the above-mentioned applications.

5. To determine, in the light of the evidence adduced pursuant to the foregoing issues, which, if either of the applications should be granted.

Released: May 28, 1956.

[Docket No. 11713; FCC 56-477]

RADIO HANOVER, INC. (WHVR)

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Radio Hanover, Inc. (WHVR), Hanover, Pennsylvania, Docket No. 11713, File No. BP-10212; for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 23d day of May 1956;

The Commission having under consideration the above-captioned application of Radio Hanover, Inc. for a construction permit to increase the daytime power of Station WHVR, Hanover, Pennsylvania (1280 kc, 500 w, 1 kw-LS, DA-N, Unl.) to 5 kilowatts and install a directional antenna; and

It appearing that the applicant is legally, technically, financially, and otherwise qualified to operate Station WHVR as proposed, but that interference would be caused to the existing operation of Station WSUX, Seaford, Delaware (1280 kc, 500 w, Day) and to the proposed operation of Station WSUX (1280 kc, 1 kw, Day), on which an Initial Decision was released February 3, 1956, looking toward a grant of the proposal, File No. BMP-6870, Docket No. 11516; and

It further appearing that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the subject applicant was advised in a letter dated March 28, 1956, of this interference and that the Commission was unable to conclude that a grant of the application would be in the public interest; and

It further appearing that the applicant, in a reply filed on April 10, 1956, requested a grant notwithstanding the interference that would be caused to WSUX; and

It further appearing that in view of the foregoing, we are of the opinion that a hearing on the subject application is necessary;

*It is ordered,* That pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said application is designated for hearing, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which may be expected to gain or lose primary service from the operation of Station WHVR as proposed, and the availability of other primary service to such areas and populations.

2. To determine whether the proposed operation of Station WHVR would cause objectionable interference to the existing or proposed (File No. BP-6870; Docket No. 11516) operation of Station WSUX, Seaford, Delaware, or any other existing station, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

3. To determine, in light of the evidence adduced pursuant to the foregoing issues, whether a grant of the subject application should be made.

*It is further ordered,* That Elizabeth Evans and W. Courtney Evans, licensee of Station WSUX, Seaford, Delaware, are made parties to the hearing.

Released: May 28, 1956.

## FEDERAL POWER COMMISSION

[Docket Nos. G-8622, 8993]

PAISANO TRADING CO. ET AL.

ORDER GRANTING MOTION FOR RECONSIDERATION AND POSTPONING HEARING

In the matters of William Negley d/b/a Paisano Trading Company, Ltd., et al., Docket No. G-8622; A. W. Gregg, Docket No. G-8993.

A. W. Gregg filed on May 16, 1956, a request for postponement of the hearing scheduled for May 28, 1956, in the above-designated matters.

The Secretary on May 18, 1956, issued a notice denying said request for postponement of hearing.

A. W. Gregg filed thereafter, on May 23, 1956, a motion for reconsideration of the request for postponement of hearing.

The Commission finds: Good cause has been shown for postponing the aforementioned hearing from May 28, 1956 to June 18, 1956.

The Commission orders: The hearing in the above-designated matters now scheduled for May 28, 1956, is hereby postponed to June 18, 1956, at 10:00 a. m., e. d. s. t., in a hearing room of the Federal Power Commission at 441 G Street NW., Washington, D. C.

Issued: May 25, 1956.

By the Commission.

[SEAL] LEON M. FUQUAY,
*Secretary.*

Grounds for relief: Circuitous routes.

Tariff: Supplement 84 to Agent Spaninger's I. C. C. 1374.

FSA No. 32127: *All freight—Lawrenceburg, Tenn., to official territory.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on merchandise, mixed carloads from Lawrenceburg, Tenn., to specified points in Connecticut, District of Columbia, Maryland, Massachusetts, New Jersey, New York, Ohio and Pennsylvania.

Grounds for relief: Motor-truck competition and circuitous routes.

Tariff: Supplement 41 to Agent Spaninger's I. C. C. 1458.

FSA No. 32128: *Automobile bodies—Marion, Ind., to central territory.* Filed by H. R. Hinsch, Agent, for interested rail carriers. Rates on automobile bodies, hoods, and fenders, from Marion, Ind., to specified points in Illinois, Missouri, Michigan, and Ohio.

Grounds for relief: Carrier competition and circuity.

FSA No. 32129: *Fine sand—Eastern points to Norton, Ala., and Martinsville, Va.* Filed by C. W. Boin, Agent, for interested rail carriers. Rates on sand, ground or pulverized, carloads from specified points in New Jersey, Virginia, and West Virginia to Norton, Ala., and Martinsville, Va.

Grounds for relief: Short-line distance formula and circuity.

Tariff: Supplement 15 to Agent C. W. Boin's I. C. C. A–1079.

FSA No. 32130: *Substituted service-motor-rail-motor—Pennsylvania Railroad.* Filed by Transamerican Freight Lines, Inc., for itself and interested rail and motor carriers. Rates on various commodities loaded in or on highway trailers transported on railroad flat cars between Chicago and East St. Louis, Ill., Pittsburgh, Pa., and Indianapolis, Ind., on the one hand, and Kearny, N. J., Pittsburgh and Philadelphia, Pa., on the other.

Grounds for relief: Motor-truck competition.

FSA No. 32131: *Trailer-on-flat-car service—St. L.-S. F. Ry.* Filed by St. Louis-San Francisco Railway Company, for itself, for interested rail and motor carriers. Rates on various commodities, moving on class and commodity rates, loaded in or on trailers and transported on railroad flat cars between points in Missouri and Oklahoma on the one hand, and points in Louisiana, Oklahoma and Texas, on the other, also between Kansas City, Mo., and Memphis, Tenn.

Grounds for relief: Competition of motor truck carriers and circuitous routes.

Tariff: St. Louis-San Francisco Railway Company I. C. C. No. A–641.

By the Commission.

## SECURITIES AND EXCHANGE COMMISSION

[File No. 70–3477]

PUBLIC SERVICE COMPANY OF OKLAHOMA

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE REGARDING ISSUANCE OF SHORT-TERM NOTES TO BANKS

MAY 25, 1956.

Public Service Company of Oklahoma ("Public Service"), a public-utility subsidiary of Central and South West Corporation, a registered holding company, has filed a declaration with this Commission pursuant to sections 6 (a) and 7 of the Public Utility Holding Company Act of 1935 ("act") regarding certain proposed transactions which are summarized as follows:

Public Service proposes to borrow at any time or from time to time on or after May 28, 1956, from each of seven banks named below all or any part of the amount stated below opposite the name of such bank, provided that all such borrowings from all of said banks shall not exceed, in the aggregate, the sum of $12,000,000. The banks from which Public Service proposes to make these borrowings and their respective commitments thereunder are as follows:

| | |
|---|---|
| The First National Bank of Chicago (Chicago, Ill.) | $4,950,000 |
| Bankers Trust Co. (New York, N. Y.) | 3,600,000 |
| The First National Bank & Trust Co. of Tulsa (Tulsa, Okla.) | 1,200,000 |
| Harris Trust & Savings Bank (Chicago, Ill.) | 1,080,000 |
| National Bank of Tulsa (Tulsa, Okla.) | 960,000 |
| First National Bank in Bartlesville (Bartlesville, Okla.) | 150,000 |
| Utica Square National Bank of Tulsa (Tulsa, Okla.) | 60,000 |
| Total | 12,000,000 |

Such borrowings will be made pursuant to a Loan Agreement dated April 26, 1956, between Public Service and said banks which provides, among other things, that such borrowings may be effected no later than July 1, 1957, or the maturity date of the notes evidencing the first borrowing thereunder, whichever is earlier: *Provided, however,* That such first borrowing shall be made not later than August 1, 1956.

The borrowings are to be evidenced by promissory notes to be issued and delivered by Public Service from time to time in a principal amount equal to the amount of the borrowing made, to mature one year from the date of the first borrowing under said Loan Agreement, to bear interest from the dates thereof at the prime rate of interest in effect at The First National Bank of Chicago at the date each such borrowing is made, payable at maturity, and after maturity at the rate of 5 percent per annum, and to be subject to prepayment by Public Service at any time and from time to time without premium or penalty; all as provided in said Loan Agreement. Each borrowing and each prepayment shall be made in the ratio that the respective loans bear to the total loans to be made under the Loan Agreement and each borrowing will be made in multiples of $500,000.

The proceeds of such borrowings are required and will be used by the company to finance temporarily a portion of its 1956 construction expenditures, which are estimated at about $27,000,000, and such borrowings will be made from time to time as funds are required for the purpose during a period of not to exceed one year from the date of the first such borrowing.

It is contemplated that the notes proposed to be issued will be paid at or before maturity through the issuance and sale by Public Service of such securities as may be considered most appropriate in the light of market conditions existing at the time and as may be approved by the Commission to the extent required by the act.

No State commission and no Federal commission other than this Commission has jurisdiction over the proposed transactions.

No commitment or other fees are proposed to be paid by the company in connection with the proposed borrowings. The expenses to be incurred by the company in connection with the transaction will be nominal, consisting primarily of telephone tolls and other miscellaneous items of expense, estimated at not to exceed $400.

Due notice of the filing of said declaration having been given in the manner prescribed by Rule U-23 promulgated under said act, and no hearing having been requested of or ordered by the Commission; and the Commission finding that the applicable provisions of the act and of the rules promulgated thereunder are satisfied, that the expenses set forth above are not unreasonable, and that the declaration should be permitted to become effective forthwith:

*It is ordered,* Pursuant to Rule U-23 and the applicable provisions of the act that said declaration be, and the same hereby is, permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DuBOIS,
*Secretary.*

[F. R. Doc. 56–4281; Filed, May 31, 1956; 8:47 a. m.]

[File No. 812–1012]

NATIONAL AVIATION CORP.

NOTICE OF FILING OF APPLICATION FOR EXEMPTION OF PURCHASE OF SECURITIES DURING EXISTENCE OF UNDERWRITING SYNDICATE

MAY 25, 1956.

Notice is hereby given that National Aviation Corporation, a registered closed-and non-diversified investment company, has filed an application and an amendment thereto, pursuant to section 10 (f) of the Investment Company Act of 1940 ("act"), for an order of the Commission exempting from the provisions of section 10 (f) of the act, the proposed purchase by the applicant of not to exceed $500,000 principal amount of the __ percent Convertible Subordinated Debentures, due June 1, 1971, of Western Air Lines, Inc. at the public offering price.

The application states that Western Air Lines, Inc. is preparing to issue $5,000,000 principal amount of __ percent Convertible Subordinated Debentures, due June 1, 1971. Such Debentures are proposed to be issued and sold on or about June 6, 1956, through an underwriting syndicate, including the firm of Paine, Webber, Jackson & Curtis.

The applicant states that it proposes to purchase the Debentures from any of the underwriters other than Paine, Webber, Jackson & Curtis. The amount of Debentures proposed to be purchased by the applicant would constitute 10 percent of the total offering by Western Air Lines, Inc. and would represent approximately 2 percent of the total assets of the applicant.

The application recites that Stuart R. Reed, a director of the applicant, is a special partner in the firm of Paine, Webber, Jackson & Curtis.

Section 10 (f) of the act provides, among other things, that no registered investment company shall knowingly purchase or otherwise acquire, during the existence of any underwriting or selling syndicate, any security (except a security of which such company is the issuer) a principal underwriter of which is a person of which a director of such registered investment company is an affiliated person unless the Commission by order grants an exemption therefrom. Since Reed is an affiliated person of an investment banking firm which will be part of the underwriting group of the Debenture offering of Western Air Lines, Inc., referred to above, the purchase of such Debentures by the applicant from such underwriters is subject to the provisions of section 10 (f) of the act.

It is represented that the proposed purchase of Debentures of Western Airlines, Inc. is consistent with the investment policies of the applicant.

Notice is further given that any interested person may, not later than June 5, 1956, at 12:00 noon, submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application, as amended, may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

[SEAL] ORVAL L. DuBOIS,
*Secretary.*

[F. R. Doc. 56–4282; Filed, May 31, 1956; 8:47 a. m.]

## DEPARTMENT OF JUSTICE

### Office of Alien Property

[Vesting Order 14772, Amdt.]

ALLIANZ LEBENSVERSICHERUNGS A. G.

In re: Bonds and coupons owned by Allianz Lebensversicherungs A. G. F-28-22181; A-1.

Vesting Order 14772, dated June 20, 1950, is hereby amended to read as follows:

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Allianz Lebensversicherungs, A. G., the last known address of which is 1 Jebenstrasse, Berlin-Charlottenburg, is a corporation, partnership, association or other business organization, organized under the laws of Germany, and which has, or since the effective date of Executive Order 8389, as amended, has had its principal place of business in Germany, and is a national of a designated enemy country (Germany);

2. That the property described as follows:

a. Those certain debts or other obligations, matured and unmatured, evidenced by the bonds described in Exhibit A, attached hereto and by reference made a part hereof, and evidenced by coupons attached to or detached from said bonds and due on or after the respective dates set forth in said Exhibit A, said bonds and coupons issued in bearer form, together with any and all accruals to the aforesaid debts or other obligations, and any and all rights to demand, enforce and collect the same, and any and all rights in, to and under said bonds and coupons, and

b. Those certain debts or other obligations, matured and unmatured, evidenced by twelve (12) coupons, detached from State of California Veterans of 1929 Bonds, numbered 11827/38, said coupons of an aggregate face value of $240.00, and due February 1, 1940, together with any and all accruals to the aforesaid debts or other obligations, and any and all rights to demand, enforce and collect the same, and any and all rights in, to and under said coupons,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Allianz Lebensversicherungs A. G., the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on May 25, 1956.

For the Attorney General.

[SEAL] PAUL V. MYRON,
*Deputy Director,*
*Office of Alien Property.*

HEDWIG NEUHAUS

In re: Bonds owned by Hedwig Neuhaus. F-28-31427.

Vesting Order 17685, dated April 18, 1951, is hereby amended to read as follows:

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Hedwig Neuhaus, whose last known address is 17/I Oststrasse, Bad Harzburg, Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the property described as follows: Those certain debts or other obligations matured or unmatured, evidenced by two (2) Southern Pacific Railroad Company 4 percent 1st Refunding Mortgage Gold bonds, due January 1, 1955, each of $1,000 face value, bearing numbers 27580 and 69309, and evidenced by coupons attached to or detached from said bonds and due on or after July 1, 1940, together with any and all accruals to the aforesaid debts or other obligations and any and all rights to demand, enforce and collect the same, and any and all rights in, to and under the aforesaid bonds and coupons,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by Hedwig Neuhaus, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on May 25, 1956.

## TITLE 5—ADMINISTRATIVE PERSONNEL

### Chapter I—Civil Service Commission

PART 38—MOTOR VEHICLE OPERATOR REGULATIONS

IDENTIFICATION CARD

Section 38.201 is amended as set out below:

§ 38.201 *Identification card.* (a) An employee who operates a Government-owned motor vehicle shall have an identification card issued in accordance with the regulations in this part: *Provided,* That an employee who has been qualified to drive by an agency prior to the effective date of the regulations in this part and who possesses a valid State license may continue to operate Government-owned motor vehicles after such effective date but in no event beyond three years after such effective date unless he is issued an identification card in accordance with the regulations in this part.

(b) The Commission may grant exceptions to the requirement that the identification card be issued to certain employees who otherwise meet the requirements of the regulations in this part when such exceptions are found to be in the interest of good administration.

(R. S. 1753, sec. 2, 22 Stat. 403, as amended, sec. 211, 64 Stat. 583, sec. 2, 68 Stat. 1126; 5 U. S. C. 631, 633, 40 U. S. C. 491)

## TITLE 6—AGRICULTURAL CREDIT

### Chapter I—Farm Credit Administration

Subchapter B—Federal Farm Loan System

PART 10—FEDERAL LAND BANKS GENERALLY

INTEREST RATES ON LOANS MADE THROUGH ASSOCIATIONS

Approval has been given to: an interest rate of 5 percent per annum on loans by the Federal Land Bank of Baltimore applied for through associations on and after June 1, 1956; an interest rate of 4½ percent per annum on loans by the Federal Land Bank of Berkeley applied for through associations on and after June 1, 1956; and an interest rate of 4½ percent per annum on loans by the Federal Land Bank of Spokane applied for through associations on and after June 1, 1956. In order to reflect such approvals, § 10.54 of Title 6 of the Code of Federal Regulations (1955 Supp.) is hereby amended, effective June 1, 1956, to read as follows:

§ 10.54 *Interest rates on loans made through associations.* Notwithstanding such loan interest rates may exceed by more than 1 percent per annum the interest rate on the Federal farm loan bonds of the last series issued prior to the making of any such loans, approval is given to an interest rate of 4 percent per annum on loans made by banks through associations generally, except that higher interest rates are approved for the following banks as indicated:

| Federal land bank: | *Interest rate (percent)* |
|---|---|
| Springfield | 4½ |
| Baltimore | 5 |
| Columbia | 5 |
| Berkeley | 4½ |
| Spokane | 4½ |

(Sec. 6, 47 Stat. 14, sec. 33, 48 Stat. 49, sec. 80, 48 Stat. 273; 12 U. S. C. 665, secs. 12 "Second" 17, 39 Stat. 370, 375, as amended; 12 U. S. C. 771 "Second," 831)

[SEAL] A. T. ESGATE,
*Acting Governor.*

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

**CFR SUPPLEMENTS**

**(As of January 1, 1956)**

The following Supplements are now available:

**Title 14: Parts 1–399 ($2.50)**
**Titles 28–29 ($1.25)**
**Title 32: Parts 400–699 ($0.65)**
**Title 33 ($1.50)**
**Title 43 ($0.50)**
**Title 46: Parts 1–145 ($0.60)**

*Previously announced:* Title 3, 1955 Supp. ($2.00); Titles 4 and 5 ($1.00); Title 7: Parts 1–209 ($1.25); Title 8 ($0.50); Title 9 ($0.70); Titles 10–13 ($0.70); Title 14: Part 400 to end ($1.00); Title 15 ($1.00); Title 16 ($1.25); Title 17 ($0.60); Title 18 ($0.50); Title 19 ($0.50); Title 20 ($1.00); Title 21 (Rev., 1955) ($5.50); Titles 22 and 23 ($1.00); Title 24 ($0.75); Title 25 ($0.50); Title 26: Parts 1–79 ($0.35), Parts 80–169 ($0.50), Parts 170–182 ($0.30), Parts 183–299 ($0.35), Part 300 to end, Ch. I, and Title 27 ($1.00); Titles 30 and 31 ($1.25); Title 32: Parts 1–399 ($0.60), Parts 700–799 ($0.35), Parts 800–1099 ($0.40), Part 1100 to end ($0.35); Title 32A (Rev., 1955) ($1.25); Titles 35–37 ($1.00); Titles 40–42 ($0.65); Title 49: Parts 1–70 ($0.60), Parts 71–90 ($1.00), Parts 91–164 ($0.50), Part 165 to end ($0.65)

Order from Superintendent of Documents, Government Printing Office, Washington 25, D. C.

| Part 6 (proposed) | 3799 |

After due consideration of all relevant matters presented, and under the authority of sections 8 and 9 of the Plant Quarantine Act of 1912, as amended (7 U. S. C. 161, 162), the Administrator of the Agricultural Research Service hereby amends §§ 301.52–5 (l) (2) and 301.52–8 of the regulations supplemental to notice of quarantine No. 52 (7 CFR 301.52–5 (l) (2), 301.52–8, 20 F. R. 4935) to read, respectively, as follows:

§ 301.52–5 *Conditions governing movement of regulated articles.* * * *

(l) *Okra.* * * *

(2) *Edible okra.* (i) Edible okra produced in Texas may be moved under a certificate to any destination during the period December 1 to April 30, inclusive, when produced, handled, and marketed under such conditions as in the judgment of the inspector render it free from infestation.

(ii) Edible okra produced in Texas may be moved to any destination during the period May 1 to November 30, inclusive, under a certificate which may be issued if the okra has been produced, handled, and marketed in such a manner that such movement, in the judgment of the inspector, will not disseminate infestation, or has been treated under the supervision of an inspector in accordance with methods selected by him from administratively authorized procedures known to be effective under the conditions applied.

(iii) Edible okra produced in Texas, when suitably identified on the container thereof with a stamp as required by the inspector, may be moved during the period May 1 to November 30, inclusive, without certificate or limited permit to any destination in the noncotton-producing States of Colorado, Connecticut, Delaware, Idaho, Indiana, Iowa, Maine, Maryland, Massachusetts, Michigan, Minnesota, Montana, Nebraska, New Hampshire, New Jersey, New York, North Dakota, Ohio, Oregon, Pennsylvania, Rhode Island, South Dakota, Utah, Vermont, Washington, West Virginia, Wisconsin, and Wyoming; or the District of Columbia; or the following cities in cotton-producing States: Chicago, Illinois; Kansas City and Wichita, Kansas; Kansas City and St. Louis, Missouri; and Louisville, Kentucky; for immediate processing or consumption therein.

(iv) Edible okra produced in Texas may be moved therefrom without restriction to destinations in New Mexico and Oklahoma when suitably identified on the container thereof with a stamp as required by the inspector.

(v) Edible okra produced in any other part of the regulated area may be moved without restriction to any destination when produced, handled, and marketed under such conditions as in the judgment of the inspector render it free from infestation. Otherwise, it must be treated as provided in subdivision (ii) of this subparagraph or must meet the requirements of subdivision (iii) of this subparagraph (other than the requirement of production in Texas).

§ 301.52–8 *Cleaning or treating requirements for articles when contaminated.* Railway cars, trucks, and other means of transportation; bagging and other containers and wrappers for cotton and cotton products; picking, ginning, and oil mill equipment, and other cotton processing machinery and cotton harvesting machinery; other farm equipment; farm household goods; farm products; and any other commodities; which are found to be contaminated with live pink bollworms, or with cotton or cotton products originating within the regulated area or imported thereinto from contiguous areas of Mexico, may be moved from or within the regulated area only after they have been freed from such contamination by cleaning or treatment to the satisfaction of an inspector, after which cleaning or treatment no certificate or limited permit will be required except as prescribed by an inspector for bagging, for other containers and wrappers for cotton and cotton products, and for cotton processing or harvesting machinery. Cotton harvesting machinery or cotton ginning machinery that has been used or otherwise kept within the regulated area will be deemed to be contaminated within the meaning of § 301.52 and may be moved to a nonregulated area or to that part of the regulated area in Arizona, Arkansas, or Louisiana from any part of the regulated area not in one of these three States only if it has been cleaned and given an approved fumigation and is covered by a certificate: *Provided, however,* That approved fumigation of such cotton ginning machinery as a requirement for certification may be waived when in the judgment of the inspector the machinery has been disassembled, cleaned, and reconditioned in such a manner as to preclude the possibility of its harboring seed cotton or live pink bollworms.

The amendment of § 301.52–5 (l) (2) (i) extends for one month the period during which certain edible okra produced in Texas may be moved under certificate. Corresponding changes have been made in § 301.52–5 (l) (2) (ii) and (iii). Provision in § 301.52–5 (l) (2) (ii) for certification of edible okra, for movement after processing under authorized methods, has been eliminated. An amendment of § 301.52–5 (l) (2) (iii) eliminates a previous restriction as to the shipper and manner of shipment of edible okra to certain destinations and adds St. Louis, Missouri to the list of such destinations. A new § 301.52–5 (l) (2) (iv) allows unrestricted movement throughout the year of identifiable Texas-grown edible okra when shipped from Texas to New Mexico or Oklahoma. Former § 301.52–5 (l) (2) (iv) has been redesignated as § 301.52–5 (l) (2) (v) and a reference therein to a processing requirement has been eliminated in conformity with the amended § 301.52–5 (l) (2) (ii). Provisions in § 301.52–5 (l) (2) (i) and (ii) and redesignated (v) have been changed specifically to require as a condition of movement that certain edible okra must have been handled and marketed, as well as produced, under various specified conditions. Section 301.52–8 has been amended to allow waiver of fumigation requirements for certain cotton ginning machinery.

These amendments should be made effective as soon as possible in order to be of maximum benefit in preventing the interstate spread of the pink bollworm and in permitting the movement of edible okra under certain conditions. Good cause is found, therefore, for issuing them effective less than 30 days after publication in the FEDERAL REGISTER, as provided in section 4 of the Administrative Procedure Act (5 U. S. C. 1003).

(Secs. 8, 9, 37 Stat. 318, as amended; 7 U. S. C. 161, 162)

These amendments shall be effective June 2, 1956.

Done at Washington, D. C., this 28th day of May 1956.

[SEAL] M. R. CLARKSON,
*Acting Administrator,*
*Agricultural Research Service.*

## Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Valencia Orange Reg. 71]

### PART 922—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

#### LIMITATION OF HANDLING

§ 922.371 *Valencia Orange Regulation 71*—(a) *Findings.* (1) Pursuant to

Order No. 22 (7 CFR Part 922), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective March 31, 1954, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The Valencia Orange Administrative Committee held an open meeting on May 31, 1956, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting: the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date hereof.

(b) *Order.* (1) The quantity of Valencia oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a. m., P. s. t., June 3, 1956, and ending at 12:01 a. m., P. s. t., June 10, 1956, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 831,600 cartons;

(iii) District 3: Unlimited movement.

(2) Valencia oranges handled pursuant to the provisions of this section shall be subject to any size restrictions applicable thereto which have heretofore been issued on the handling of such oranges and which are effective during the period specified herein.

(3) As used in this section, "handled," "handler," "District 1," "District 2," and "District 3," have the same meaning as when used in said order; and "carton" means the standard one-half orange, grapefruit or lemon box set forth as standard container number 58 in section 828.83, as amended, of the Agricultural Code of California.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: June 1, 1956.

[SEAL] S. R. SMITH,
*Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

[F. R. Doc. 56-4405; Filed, June 1, 1956; 11:26 a. m.]

[Lemon Reg. 644]

## PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

### LIMITATION OF SHIPMENTS

§ 953.751 *Lemon Regulation 644*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 20 F. R. 8451), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on May 29, 1956, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., June 3, 1956, and ending at 12:01 a. m., P. s. t., June 10, 1956, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 511,500 cartons;

(iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "District 1," "District 2," and "District 3" have the same meaning as when used in the said amended marketing agreement and order; and "carton" means the standard one-half orange, grapefruit or lemon box set forth as standard container number 58 in section 828.83, as amended, of the Agricultural Code of California.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: May 31, 1956.

[SEAL] S. R. SMITH,
*Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

# TITLE 14—CIVIL AVIATION

## Chapter I—Civil Aeronautics Board

[Civil Air Regs., Amdt. 6-8]

## PART 6—ROTORCRAFT AIRWORTHINESS; NORMAL CATEGORY

### SIMPLIFICATION OF AIRWORTHINESS REQUIREMENTS FOR SMALL AIRCRAFT

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 25th day of May 1956.

Part 6, as adopted in 1946, was the initial attempt to establish standards for rotorcraft certification. Since then, as equipment improved and experience with respect to rotorcraft operations increased, amendments were adopted from time to time in recognition of the changes, and an attempt was made in each amendment to accommodate the changes within the framework of the part. This has become increasingly difficult to do especially when it becomes necessary to prescribe regulations for the larger and more complicated equipment. To date no distinction has been made in the Civil Air Regulations between large and small rotorcraft or rotorcraft intended for general and air carrier services, and it has become apparent that the existing regulations are not suitable for both large and small rotorcraft.

In recognition of this situation, the Board, in recent years, has conducted studies with the view to establishing separate airworthiness requirements for large rotorcraft intended for use in air carrier service. These studies have resulted in a categorization of rotorcraft with corresponding airworthiness requirements.

The three categories being established are the "Normal Category" for relatively small rotorcraft, and "Transport Category A" and "Transport Category B" applicable to large rotorcraft. Rotorcraft certificated in the Normal Category are intended to be eligible for passenger and cargo operations for hire including services such as those generally classified as "fixed base" and "air taxi". It is not intended that air carrier operations conducted under a certificate of public convenience and necessity will utilize Normal Category rotorcraft. Certification in the normal category would be limited to rotorcraft of 6,000 pounds or less maximum weight. By dividing the rotorcraft for certification into categories as aforementioned, and by amending some of the provisions in the present requirements, it is considered that the provisions of Part 6 will be simplified and made more directly applicable to smaller rotorcraft. Significant in this simplification of the provisions of Part 6 is the clarification and liberalization of the performance information provisions and the deletion of the requirement for a flight manual for helicopters.

Concurrently with the adoption of these amendments to Part 6, the Board is adopting a new Part 7 of the Civil Air Regulations which will be applicable to the large rotorcraft, and under which rotorcraft in Transport Categories A and B may be certificated.

Interested persons have been afforded an opportunity to participate in the making of these amendments (20 F. R. 3114), and due consideration has been given to all relevant matter presented.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 6 of the Civil Air Regulations (14 CFR Part 6, as amended) as follows, effective August 1, 1956:

1. By amending the title of Part 6 to read "Rotocraft Airworthiness Normal Category."

2. By amending § 6.0 to read as follows:

§ 6.0 *Applicability of this part.* This part contains standards with which compliance shall be demonstrated for the issuance of and changes to type certificates for rotorcraft. This part, until superseded or rescinded, shall apply to rotorcraft of any weight for which applications for type certification under this part were made between the effective date of this part (January 15, 1951) and August 1, 1956. For applications for type certificates made after August 1, 1956, this part shall apply only to rotorcraft which have a maximum weight of 6,000 pounds or less.

3. By amending § 6.1 (c) by deleting subparagraph (6) and redesignating subparagraphs (7) and (8) as (6) and (7), respectively.

4. By amending § 6.103 (a) by deleting from the second sentence the words "with full throttle and" and adding to the end of the sentence the words "and with the engine(s) operating within the approved limitations".

5. By amending § 6.111 to read as follows:

§ 6.111 *Take-off.* The take-off shall be demonstrated at maximum certificated weight, forward center of gravity, and using take-off power at take-off rpm and made in a manner such that a landing can be made safely at any point along the flight path in case of an engine failure and shall not require an exceptional degree of skill on the part of the pilot or exceptionally favorable conditions. Pertinent information concerning the take-off procedure, including the type of take-off surface and appropriate climb-out air speeds, shall be specified in the operating procedures section of the Rotorcraft Flight Manual. (See §§ 6.715, 6.740, and 6.742.)

6. By amending § 6.112 (a) by adding the words "except helicopters" between the words "rotorcraft" and "the" in the first sentence and deleting the phrase "For all rotorcraft except helicopters" from the second sentence.

7. By amending § 6.112 (b) to read as follows:

§ 6.112 *Climb.* • • •

(b) For helicopters the best rate-of-climb speed shall be determined at standard sea level conditions at maximum certificated weight with all engines operating at maximum continuous power.

8. By amending § 6.112 by adding a new paragraph (c) to read as follows:

§ 6.112 *Climb.* • • •

(c) For multiengine helicopters the steady rate of climb or descent shall be determined at maximum certificated weight, at the best rate-of-climb or descent speed, with one engine inoperative, and the remaining engine(s) operating at maximum continuous power.

9. By amending § 6.113 (a) to read as follows:

§ 6.113 *Minimum operating speed performance.* (a) Hovering ceilings for helicopters shall be determined over the range of weights, altitudes, and temperatures for which certification is sought with take-off power and landing gear extended in the ground effect at a height above the ground consistent with normal take-off procedures.

10. By amending § 6.113 (b) by deleting the words "in subparagraph (a) (1)" and inserting in lieu thereof the words "in paragraph (a)".

11. By amending § 6.114 by deleting the introductory paragraph and inserting in lieu thereof the following: "Landings shall be demonstrated in accordance with the provisions of paragraphs (a) through (d) of this section. Pertinent information concerning the landing procedure, including the type of landing surface and appropriate approach and glide air speeds, shall be specified in the operating procedures section of the Rotorcraft Flight Manual (see §§ 6.740 and 6.742)."

12. By amending § 6.114 by deleting paragraph (e).

13. By amending § 6.121 (d) by inserting the words "weight and" between the word "critical" and the phrase "center of gravity".

14. By amending § 6.123 (b) (1) and (b) (2) to read as follows:

§ 6.123 *Stability.* • • •

(b) *Static longitudinal stability.* • • •

(1) *Climb.* The stick position curve shall have a stable slope over a speed range from 15 percent of $V_Y$ or 15 mph, whichever is greater, below $V_Y$ to 20 percent of $V_Y$ or 15 mph, whichever is greater, above $V_Y$, but in no case greater than 1.1 $V_{NE}$, with:

(i) Critical weight and center of gravity,

(ii) Maximum continuous power,

(iii) Landing gear retracted, and

(iv) Trim at best rate-of-climb speed ($V_Y$).

(2) *Cruise.* The stick position curve shall have a stable slope over a speed range from 0.7 $V_H$ or 0.7 $V_{NE}$, whichever is less, to 1.1 $V_H$ or 1.1 $V_{NE}$, whichever is less, with:

(i) Critical weight and center of gravity,

(ii) Power for level flight at 0.9 $V_H$ or 0.9 $V_{NE}$, whichever is less,

(iii) Landing gear retracted, and

(iv) Trimmed at 0.9 $V_H$ or 0.9 $V_{NE}$, whichever is less.

15. By amending § 6.203 (d) to read as follows:

§ 6.203 *Structural and dynamic tests.* • • •

(d) Flight stress measurements (see §§ 6.221 and 6.250).

16. By amending § 6.230 (c) by deleting the last sentence and inserting in lieu thereof the following: "Higher values of rotor lift shall be acceptable if substantiated by tests and/or data which are applicable to the particular rotorcraft."

17. By amending § 6.234 to read as follows:

§ 6.234 *Lateral-drift landing condition.* (a) The rotorcraft shall be assumed in the level landing attitude. Side loads shall be combined with one-half the maximum ground reactions obtained in the level landing conditions of § 6.231 (b) (1). These loads shall be applied at the ground contact point, unless the landing gear is of the full-swiveling type in which case the loads shall be applied at the center of the axle. The conditions set forth in paragraphs (b) and (c) of this section shall be considered.

(b) Only the wheels aft of the center of gravity shall be assumed to contact the ground. Side loads equal to 0.8 of the vertical reaction acting inward (on one side) and 0.6 of the vertical reaction acting outward (on the other side) shall be combined with the vertical loads specified in paragraph (a) of this section.

(c) The forward and aft wheels shall be assumed to contact the ground simultaneously. Side loads on the wheels aft of the center of gravity shall be applied

in accordance with paragraph (b) of this section. A side load at the forward gear equal to 0.8 of the vertical reaction shall be combined with the vertical load specified in paragraph (a) of this section.

18. By amending § 6.237 (a) by adding the following sentence to the end of the definition of $W=W_M$: "A rational method may be used in computing a main gear static reaction, taking into consideration the distance between the direction of the main wheel reaction and the aircraft c. g."

19. By amending § 6.237 (a) by deleting the phrase "not in excess of 0.5" from the definition of *L*.

20. By amending § 6.237 (b) by deleting the phrase "than 0.75 times the rotorcraft maximum weight" and inserting in lieu thereof the phrase "than 1.5 times the rotor lift used in the limit drop tests".

21. By amending § 6.337 by deleting the first sentence and inserting in lieu thereof the following: "Landing gear wheels shall be equipped with any make or type of tire provided that the tire is a proper fit on the rim of the wheel and provided that the approved tire rating is not exceeded."

22. By amending § 6.338 by deleting the first sentence.

23. By deleting § 6.339.

24. By amending § 6.340 to read as follows:

§ 6.340 *General.* The requirements of §§ 6.341 and 6.342 shall apply to the design of floats.

25. By amending § 6.341 (a) (2) by deleting the words "double floats" and inserting in lieu thereof the words "multiple floats".

26. By amending § 6.341 (b) to read as follows:

§ 6.341 *Buoyancy (main floats).* • • •

(b) Main floats shall contain at least four water-tight compartments of approximately equal volume.

27. By amending § 6.342 (a) by deleting from the first sentence the words "the rotorcraft is designed" and inserting in lieu thereof the words "certification with floats is sought".

28. By amending § 6.342 (b) by deleting the second sentence and inserting in lieu thereof the following: "The loads specified may be distributed along the length of the floats."

29. By amending § 6.350 by deleting paragraph (c) and redesignating paragraph (d) as paragraph (c).

30. By amending § 6.420 by deleting the first three sentences.

31. By amending § 6.440 (b) by deleting from the second sentence the words "the total oil capacity of 1 gallon for each 30 gallons of fuel capacity" and inserting in lieu thereof "the usable oil capacity of 1 gallon for each 40 gallons of usable fuel quantity".

32. By deleting § 6.452.

33. By deleting § 6.487.

34. By deleting § 6.488.

35. By amending § 6.604 (a) by deleting subparagraph (4) and redesignating subparagraph (5) as subparagraph (4).

36. By amending § 6.604 (b) by deleting subparagraph (1) and redesignating the remaining subparagraphs as (1) through (4).

37. By amending § 6.604 by adding a new paragraph (c) to read as follows:

§ 6.604 *Powerplant instruments.* • • •

(c) For each transmission or gear box having an independent oil system there shall be installed:

(1) An oil temperature indicator, and

(2) An oil pressure indicator if a pressure system is employed.

38. By amending § 6.634 to read as follows:

§ 6.634 *Position light distribution and intensities*—(a) *General.* The intensities prescribed in this section are those to be provided by new equipment with all light covers and color filters in place. Intensities shall be determined with the light source operating at a steady value equal to the average luminous output of the light source at the normal operating voltage of the rotorcraft. The light distribution and intensities of position lights shall comply with the provisions of paragraph (b) of this section.

(b) *Forward and rear position lights.* The light distribution and intensities of forward and rear position lights shall be expressed in terms of minimum intensities in the horizontal plane, minimum intensities in any vertical plane, and maximum intensities in overlapping beams, within dihedral angles L, R, and A, and shall comply with the provisions of subparagraphs (1) through (3) of this paragraph.

(1) *Intensities in horizontal plane.* The intensities in the horizontal plane shall not be less than the values given in Figure 6–1. (The horizontal plane is the plane containing the longitudinal axis of the rotorcraft and is perpendicular to the plane of symmetry of the rotorcraft.)

(2) *Intensities above and below horizontal.* The intensities in any vertical plane shall not be less than the appropriate value given in Figure 6–2, where I is the minimum intensity prescribed in Figure 6–1 for the corresponding angles in the horizontal plane. (Vertical planes are planes perpendicular to the horizontal plane.)

(3) *Overlaps between adjacent signals.* The intensities in overlaps between adjacent signals shall not exceed the values given in Figure 6–3, except that higher intensities in the overlaps shall be acceptable with the use of main beam intensities substantially greater than the minima specified in Figures 6–1 and 6–2 if the overlap intensities in relation to the main beam intensities are such as not to affect adversely signal clarity.

| Dihedral angle | Angle from right or left of longitudinal axis, measured from dead ahead | Intensity (candles) |
|---|---|---|
| L and R | 0° to 10° | 40 |
| (Forward red and green) | 10° to 20° | 30 |
| | 20° to 110° | 5 |
| A (rear white) | 110° to 180° | 20 |

FIGURE 6–1—MINIMUM INTENSITIES IN THE HORIZONTAL PLANE OF FORWARD AND REAR POSITION LIGHTS

| Angle above or below horizontal | Intensity |
|---|---|
| 0° | 1.00 I. |
| 0° to 5° | 0.90 I. |
| 5° to 10° | 0.80 I. |
| 10° to 15° | 0.70 I. |
| 15° to 20° | 0.50 I. |
| 20° to 30° | 0.30 I. |
| 30° to 40° | 0.10 I. |
| 40° to 90° | At least 2 candles. |

FIGURE 6–2—MINIMUM INTENSITIES IN ANY VERTICAL PLANE OF FORWARD AND REAR POSITION LIGHTS

| Overlaps | Maximum intensity | |
|---|---|---|
| | Area A (candles) | Area B (candles) |
| Green in dihedral angle L | 10 | 1 |
| Red in dihedral angle R | 10 | 1 |
| Green in dihedral angle A | 5 | 1 |
| Red in dihedral angle A | 5 | 1 |
| Rear white in dihedral angle L | 5 | 1 |
| Rear white in dihedral angle R | 5 | 1 |

NOTE: Area A includes all directions in the adjacent dihedral angle which pass through the light source and which intersect the common boundary plane at more than 10 degrees but less than 20 degrees. Area B includes all directions in the adjacent dihedral angle which pass through the light source and which intersect the common boundary plane at more than 20 degrees.

FIGURE 6–3—MAXIMUM INTENSITIES IN OVERLAPPING BEAMS OF FORWARD AND REAR POSITION LIGHTS

39. By amending § 6.711 (a) by inserting in the second sentence the phrase "with all engines at maximum continuous power" after the phrase "best rate of climb speed".

40. By amending § 6.715 by changing the title to "*Limiting height-speed envelope*" and by adding the following sentence at the end of the section: "Such an envelope shall be established in full autorotation for single-engine helicopters and with one engine inoperative for multiengine helicopters provided that engine insolation design features are incorporated to assure continued operation of the remaining engines. (See § 6.741 (f).)"

41. By amending § 6.738 (b) by changing the title to "*Fuel and oil filler openings*", by deleting the words "subparagraphs (1) through (3)" and inserting in lieu thereof the words "subparagraphs (1) and (2)", and by deleting subparagraph (3).

42. By amending § 6.740 (a) to read as follows:

§ 6.740 *General.* (a) A Rotorcraft Flight Manual shall be furnished with each rotorcraft, except that a Rotorcraft Flight Manual is not required for helicopters certificated under this part; instead, the information prescribed in this part for inclusion in the Rotorcraft Flight Manual shall be made available to the operator by the manufacturer in the form of clearly stated placards, markings, or manuals. If all of the operating limitations are not included in the form of placards and markings on the helicopter then the portion of the manual supplied by the manufacturer containing the operating limitations prescribed in § 6.741 shall be approved and furnished with each helicopter.

43. By amending § 6.742 by adding between the words "information" and "peculiar" the words "including take-off and landing procedures and their appropriate air speeds".

44. By amending § 6.743 by deleting the words "(a) through (d)" and inserting in lieu thereof the words "(a) and (b)", and by deleting paragraphs (a) and (o) and redesignating paragraphs (b) and (d) as paragraphs (a) and (b).

(Sec. 205, 52 Stat. 984, 49 U. S. C. 425. Interpret or apply secs. 601, 603, 52 Stat. 1007, 1009 as amended, 49 U. S. C. 551, 553)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
*Secretary.*

[F. R. Doc. 56–4355; Filed, June 1, 1956; 8:56 a. m.]

---

## PART 7—ROTORCRAFT AIRWORTHINESS; TRANSPORT CATEGORIES

### CIVIL AIR REGULATIONS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 25th day of May 1956.

Until the present time, all of the effective airworthiness requirements for rotorcraft were contained in Part 6 of the Civil Air Regulations. These requirements were based mainly upon experience with rotorcraft of relatively small size, and very little distinction was made between large and small rotorcraft or between rotorcraft intended for general and air carrier service.

Since the adoption of Part 6 the size and complexity of rotorcraft equipment have grown, and with each new design development in this field an attempt was made to accommodate the changes within the framework of Part 6. This became more difficult to do because when catering to the larger and more complicated rotorcraft the airworthiness provisions for smaller, more basic, rotorcraft became unnecessarily complex. Therefore, it has become apparent that the existing regulations in Part 6 are not suitable for the certification requirements applicable to both large and small rotorcraft and rotorcraft to be utilized in the transport category class require a set of provisions peculiar to their needs.

In recognition of this situation, the Board, in recent years, has conducted studies with the view to establishing airworthiness requirements for large rotorcraft which are intended to be used in air carrier service. These studies have resulted in a categorization of rotorcraft with corresponding airworthiness requirements. The three categories being established are the "Normal Category" for rotorcraft of 6,000 pounds or less maximum weight, "Transport Category A" for multiengine rotorcraft of unlimited weight, and "Transport Category B" for single or multiengine rotorcraft of 20,000 pounds or less maximum weight. Rotorcraft certificated in either of the transport categories will be eligible for operations in either scheduled or irregular passenger or cargo service.

Concurrently with the adoption of this new Part 7, the Board is adopting amendments to Part 6 of the Civil Air Regulations which make the part applicable to small rotorcraft in the normal category and which simplify and clarify the requirements for certification of such rotorcraft.

In the development of Part 7, consideration was given to the problem of whether specific airworthiness requirements for large rotorcraft should be adopted prior to obtaining significant operating experience in such rotorcraft types, or whether the considerations of the design of large transport category rotorcraft required an early determination of at least the broad objective standards for certification of such large rotorcraft. It is to be desired, and it is the Board's general policy, to have the benefit of experience in advance of adoption of regulations. However, much can be gained by initially establishing broad objective standards and giving the Administrator wide discretion in approving features of design which were not anticipated. Therefore, the Board considers it desirable to promulgate such standards at this time in the belief that safe operations are most assured where basic standards have been established.

After determining that the provisions of Part 6 were not suitable for the certification of large multiengine transport category rotorcraft, and after completion of the aforementioned studies, a notice of proposed rule making (20 F. R. 3114) was circulated as Civil Air Regulation Draft Release No. 55–11 to solicit comment on the proposed categorization of rotorcraft.

Comments received on the subject were almost universally favorable to the Board's adopting objective standards immediately so that the design and construction of large rotorcraft could proceed under some pattern of uniformity. The comment of one industry observer, however, while acknowledging that experience gained with transport category airplanes could provide guideposts for developing regulations for rotorcraft airworthiness in areas such as structures, design, and construction, nevertheless, expressed reservation as to whether performance requirements could be prepared on the same basis since there was insufficient operational experience with the types of rotorcraft envisaged in the transport-category classes.

In recognition of this valid comment, and because the Board does not intend to limit novel design features or operating techniques which may prove advantageous, the performance specifications in this part are limited in general to requirements for the scheduling of performance data. There are included, however, two quantitative requirements: One is the minimum one-engine-inoperative climb for Transport Category A rotorcraft; and the other, a minimum hovering ceiling for Transport Category B rotorcraft. These climb requirements are expressed in terms of rates of climb. Among the comments received on the proposal were recommendations that these minima be expressed in terms of gradient of climb. While this recommendation has substantial merit, it is considered advisable to retain the more familiar expression for the present and to study the matter at the next Annual Airworthiness Review, since consideration of factors of minimum speed or acceleration may be necessary. It is considered that for the time being the two quantitative requirements are reasonable minima. However, in order to define more fully the level of performance for the rotorcraft, it will be necessary to implement the performance data scheduled under this part with operating limitations relating to the measured performance of the rotorcraft, the dimensions of the heliport used, the adjacent obstacles, and the routes traversed. Because it is considered desirable to obtain experience in the operation of transport category rotorcraft before establishing by regulation specific operating limitations, it is contemplated that in the interim, for air carrier operations and for other operations over highly congested areas, the Administrator will determine that the operations in question are limited in such a manner as to assure a safe operation. Performance operating limitations will, however, be developed and included in the Civil Air Regulations as rapidly as the state of the art permits.

In considering this part, a maximum weight limitation had to be established for Transport Category B rotorcraft. The limit set in the notice of proposed rule making was 17,500 pounds. This limit has been raised to 20,000 pounds upon advice that some manufacturers now have design studies for single-engine rotorcraft which are expected to go over 17,500 pounds. This weight limit appears adequate to assure safety to all Transport Category B rotorcraft and is sufficiently high to include all reported single-engine designs now being developed by the manufacturers.

Another important problem to which the Board gave particular consideration is that of fire protection for structures, controls, and other components of the rotorcraft. The fire protection requirements for Transport Category A rotorcraft are intended to permit extinguishment of a fire and the continuation of the flight to a suitable airport. The Category B requirements, on the other hand, are intended to protect the rotorcraft and its occupants during an immediate descent and landing. The difference in the requirements is considered consistent with the approach taken with respect to the performance requirements applicable to each category.

The issue of appropriate maneuvering load factors for maneuvering conditions (structural requirements) is of significance. The maneuvering load factors included are the 3.5 positive and 1.0 negative, which are the same as in Part 6. The values are unchanged due to lack of substantiation of other values; however, because certain comments questioned the necessity for such high values for transport rotorcraft, this is being made a matter for further study.

Interested persons have been afforded an opportunity to participate in the making of this part (20 F. R. 3114), and

due consideration has been given to all relevant matter presented.

In consideration of the foregoing, the Civil Aeronautics Board hereby adopts Part 7 of the Civil Air Regulations (14 CFR Part 7) to read as follows, effective August 1, 1956:

**Subpart A—General**

APPLICABILITY AND DEFINITIONS

Sec.
7.0 Applicability of this part.
7.1 Definitions.

CERTIFICATION

7.10 Eligibility for type certificates.
7.11 Designation of applicable regulations.
7.12 Recording of applicable regulations.
7.13 Type certificate.
7.14 Data required.
7.15 Inspections and tests.
7.16 Flight tests.
7.17 Airworthiness, experimental, and production certificates.
7.18 Approval of materials, parts, processes, and appliances.
7.19 Changes in type design.

ROTORCRAFT CATEGORIES

7.20 Rotorcraft categories.

**Subpart B—Flight**

GENERAL

7.100 Proof of compliance.
7.101 Weight limitations.
7.102 Center of gravity limitations.
7.103 Rotor limitations and pitch settings.
7.104 Empty weight.
7.105 Use of ballast.

PERFORMANCE

7.110 General.
7.111 Limiting height and speeds for safe landing following power failure.
7.112 Take-off; general.
7.113 Category A. Critical decision point.
7.114 Take-off.
7.115 Climb; one-engine-inoperative.
7.116 Hovering or minimum operating performance.
7.117 Landing; general.
7.118 Landing.

FLIGHT CHARACTERISTICS

7.120 General.
7.121 Controllability.
7.122 Trim.
7.123 Stability.

GROUND AND WATER HANDLING CHARACTERISTICS

7.130 General.
7.131 Ground resonance.
7.132 Spray characteristics.

MISCELLANEOUS FLIGHT REQUIREMENTS

7.140 Flutter and vibration.

**Subpart C—Structure**

GENERAL

7.200 Loads.
7.201 Strength and deformation.
7.202 Proof of structure.
7.203 Structural and dynamic tests.
7.204 Design limitations.

FLIGHT LOADS

7.210 General.
7.211 Flight load factor.
7.212 Maneuvering conditions.
7.213 Gust conditions.
7.214 Yawing conditions.

CONTROL SURFACE AND SYSTEM LOADS

7.220 General.
7.221 Auxiliary rotor assemblies.
7.222 Auxiliary rotor attachment structure.
7.223 Tail rotor guard.
7.224 Stabilizing and control surfaces.
7.225 Primary control systems; general.
7.226 Dual primary flight control systems.

LANDING LOADS

7.230 General.
7.231 Level landing conditions.
7.232 Nose-up landing condition.
7.233 One-wheel landing condition.
7.234 Lateral-drift landing condition.
7.235 Brake roll conditions.
7.236 Taxying condition.
7.240 Ski landing conditions.
7.245 Float landing conditions.

MAIN COMPONENT REQUIREMENTS

7.250 Main rotor structure.
7.251 Fuselage and rotor pylon structure.
7.252 Auxiliary lifting surfaces.

EMERGENCY LANDING CONDITIONS

7.260 General.
7.261 Fuel tank protection.

**Subpart D—Design and Construction**

GENERAL

7.300 Scope.
7.301 Materials.
7.302 Fabrication methods.
7.303 Standard fastenings.
7.304 Protection.
7.305 Inspection provisions.
7.306 Material strength properties and design values.
7.307 Special factors.

MAIN ROTOR

7.310 Main rotor blades; pressure venting and drainage.
7.311 Stops.
7.312 Rotor and blade balance.
7.313 Rotor blade clearance.

CONTROL SYSTEMS

7.320 General.
7.321 Control system stops.
7.322 Control locks.
7.323 Static tests.
7.324 Operation tests.
7.325 Control system details; general.
7.326 Spring devices.
7.327 Autorotative control mechanism.
7.328 Power boost systems.

LANDING GEAR

7.330 General.
7.331 Shock absorbers.
7.332 Shock absorption tests.
7.333 Limit load factor determination.
7.334 Retracting mechanism.
7.335 Wheels.
7.336 Brakes.
7.337 Tires.
7.338 Skis.

FLOATS

7.340 Buoyancy (main floats).
7.341 Float strength.

PERSONNEL AND CARGO ACCOMMODATIONS

7.350 Pilot compartment; general.
7.351 Pilot compartment vision.
7.352 Pilot windshield and windows.
7.353 Controls.
7.354 Doors.
7.355 Seats and safety belts.
7.356 Cargo and baggage compartments.
7.357 Emergency evacuation.
7.358 Ventilation.
7.359 Heaters.

FIRE PREVENTION

7.380 General.
7.381 Cabin interiors.
7.382 Cargo and baggage compartments.
7.383 Combustion heater fire protection.
7.384 Fire protection of structure, controls, and other parts.
7.385 Flammable fluid fire protection.

MISCELLANEOUS

7.390 Leveling marks.
7.391 Ballast provisions.
7.392 Ice protection.

**Subpart E—Powerplant Installation**

GENERAL

7.400 Scope and general design.
7.401 Engines.
7.402 Engine vibration.

ROTOR DRIVE SYSTEM

7.403 Rotor drive system.
7.404 Rotor brakes.
7.405 Rotor drive system and control mechanism tests.
7.406 Additional tests.
7.407 Critical shafting speeds.
7.408 Shafting joints.

FUEL SYSTEM OPERATION AND ARRANGEMENT

7.410 General.
7.411 Fuel system independence.
7.412 Fuel lines in personnel and cargo compartments.
7.413 Fuel flow and feed.
7.414 Pump systems.
7.415 Transfer systems.
7.416 Determination of unusable fuel supply.
7.417 Fuel system hot weather operation.
7.418 Flow between interconnected tanks.

FUEL TANK CONSTRUCTION AND INSTALLATION

7.420 General.
7.421 Fuel tank tests.
7.422 Fuel tank installation.
7.423 Fuel tank expansion space.
7.424 Fuel tank sump.
7.425 Fuel tank filler connection.
7.426 Fuel tank vents and carburator vapor vents.
7.427 Fuel tank outlet.
7.428 Pressure refueling and fueling provisions below fuel level in the tank.

FUEL SYSTEM COMPONENTS

7.430 Fuel pumps.
7.431 Fuel pump installation.
7.432 Fuel system lines and fittings.
7.433 Fuel lines and fittings in designated fire zones.
7.434 Fuel valves.
7.435 Fuel strainer.
7.436 Fuel system drains.
7.437 Fuel quantity indicator.
7.438 Low fuel warning device.

OIL SYSTEM

7.440 General.
7.441 Oil tank construction.
7.442 Oil tank tests.
7.443 Oil tank installation.
7.444 Oil lines and fittings.
7.445 Oil valves.
7.446 Oil radiators.
7.447 Oil filters.
7.448 Oil system drains.

COOLING SYSTEM

7.450 General.
7.451 Cooling tests.
7.452 Climb cooling test procedure.
7.453 Category A. Take-off cooling test procedure.
7.454 Category B. Cooling test procedure.
7.455 Hovering cooling test procedures.

INDUCTION AND EXHAUST SYSTEMS

7.460 General.
7.461 Induction system de-icing and anti-icing provisions.
7.462 Carburetor air preheater design.
7.463 Induction system ducts.
7.464 Induction system screens.
7.465 Carburetor air cooling.
7.466 Inter-coolers and after-coolers.
7.467 Exhaust system and installation components.

POWERPLANT CONTROLS AND ACCESSORIES

Sec.
7.470 Powerplant controls; general.
7.471 Throttle and A. D. I. system controls.
7.472 Ignition switches.
7.473 Mixture controls.
7.474 Carburetor air preheat controls.
7.475 Supercharger controls.
7.476 Rotor brake controls.
7.477 Powerplant accessories.
7.478 Engine ignition systems.

POWERPLANT FIRE PROTECTION

7.480 Designated fire zones.
7.481 Flammable fluids.
7.482 Shutoff means.
7.483 Lines and fittings.
7.484 Fire-extinguishing systems.
7.485 Fire-detector systems.
7.486 Fire walls.
7.487 Cowling.
7.488 Category A. Engine accessory section diaphragm.
7.489 Drainage and ventilation of fire zones.

**Subpart F—Equipment**

GENERAL

7.600 Scope.
7.601 Functional and installational requirements.
7.602 Required basic equipment.
7.603 Flight and navigational instruments.
7.604 Powerplant instruments.
7.605 Miscellaneous equipment.
7.606 Equipment, systems, and installations.

INSTRUMENTS; INSTALLATION

7.610 General.
7.611 Arrangement and visibility of instrument installations.
7.612 Flight and navigational instruments.
7.613 Powerplant instruments.

ELECTRICAL SYSTEMS AND EQUIPMENT

7.620 General.
7.621 Electrical system capacity.
7.622 Generating system.
7.623 Distribution system.
7.624 Electrical protection.
7.625 Electrical equipment and installation.
7.626 Electrical system fire and smoke protection.

LIGHTS

7.630 Instrument lights.
7.631 Landing lights.
7.632 Position light system installation.
7.633 Position light system dihedral angles.
7.634 Position light distribution and intensities.
7.635 Color specifications.
7.636 Riding light.
7.637 Anti-collision light.

SAFETY EQUIPMENT

7.640 General.
7.641 Flares.
7.642 Flare installation.
7.643 Safety belts.
7.644 Emergency flotation and signaling equipment.
7.645 Stowage of safety equipment.
7.646 Oxygen equipment and supply.

MISCELLANEOUS EQUIPMENT

7.650 Hydraulic systems; strength.
7.651 Hydraulic systems; design.
7.652 Hydraulic system fire protection.
7.653 Radio installation.
7.654 Vacuum systems.

**Subpart G—Operating Limitations and Information**

GENERAL

7.700 Scope.

OPERATING LIMITATIONS

7.710 Air-speed limitations; general.
7.711 Never-exceed speed $V_{NE}$.
7.712 Operating speed range.
7.713 Rotor speed.
7.714 Powerplant limitations.
7.715 Limiting height-speed envelope.
7.716 Rotorcraft weight and center of gravity limitations.
7.717 Minimum flight crew.
7.718 Types of operation.

AUTHORITY: §§ 7.0 to 7.751 issued under sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 603, 52 Stat. 1007, 1009, as amended; 49 U. S. C. 551, 553.

## SUBPART A—GENERAL

APPLICABILITY AND DEFINITIONS

§ 7.0 *Applicability of this part.* This part establishes standards with which compliance shall be demonstrated for the issuance of and changes to type certificates for Transport Category A and Transport Category B rotorcraft. This part, until superseded or rescinded, shall apply to all transport category rotorcraft for which applications for type certification in the transport categories are made after the effective date of this part (August 1, 1956).

§ 7.1 *Definitions.* As used in this part terms are defined as follows:

(a) *Administration*—(1) *Administrator.* The Administrator is the Administrator of Civil Aeronautics.

(2) *Applicant.* An applicant is a person or persons applying for approval of a rotorcraft or any part thereof.

(3) *Approved.* Approved, when used alone or as modifying terms such as means, devices, specifications, etc., means approved by the Administrator. (See § 7.18.)

(b) *Rotorcraft types*—(1) *Rotorcraft.* A rotorcraft is any aircraft deriving its principal lift from one or more rotors.

(2) *Helicopter.* A helicopter is a rotorcraft which depends principally for its support and motion in the air upon the lift generated by one or more power-driven rotors, rotating on substantially vertical axes.

(3) *Gyroplane.* A gyroplane is a rotorcraft which depends principally for its support upon the lift generated by one or more rotors which are not power driven, except for initial starting, and which are caused to rotate by the action of the air when the rotorcraft is in motion. The propulsion is independent of the rotor system and usually consists of conventional propellers.

(4) *Gyrodyne.* A gyrodyne is a rotorcraft which depends principally for its support upon the lift generated by one or more rotors, which are partially power driven, rotating on substantially vertical axes. The propulsion is independent of the rotor system and usually consists of conventional propellers.

(c) *General design*—(1) *Standard atmosphere.* The standard atmosphere is an atmosphere defined as follows:

(i) The air is a dry, perfect gas,

(ii) The temperature at sea level is 59° F.,

(iii) The pressure at sea level is 29.92 inches Hg,

(iv) The temperature gradient from sea level to the altitude at which the temperature equals −67° F. is −0.003566° F./ft. and zero thereabove, and

(v) The density $\rho_0$ at sea level under the above conditions is 0.002378 pound sec$^2$/ft$^4$.

(2) *Maximum anticipated air temperature.* The maximum anticipated air temperature is a temperature specified for the purpose of compliance with the powerplant cooling standards. (See § 7.451.)

(3) *Aerodynamic coefficients.* Aerodynamic coefficients are nondimensional coefficients for forces and moments. They correspond with those adopted by the U. S. National Advisory Committee for Aeronautics.

(4) *Autorotation.* Autorotation is a rotorcraft flight condition in which the lifting rotor is driven entirely by the action of the air when the rotorcraft is in motion.

(5) *Autorotative landing.* An autorotative landing is any landing of a rotorcraft in which the entire maneuver is accomplished without the application of power to the rotor.

(6) *Autorotative landing distance.* Autorotative landing distance is the horizontal distance required to make an autorotative landing and come to a complete stop (to a speed of approximately 3 mph for seaplanes or floatplanes) from a height of 50 feet above the landing surface.

(7) *Ground resonance.* Ground resonance is the mechanical instability encountered when the rotorcraft is in contact with the ground.

(8) *Mechanical instability.* Mechanical instability is an unstable resonant condition due to the interaction between the rotor blades and the rotorcraft structure, while the rotorcraft is on the ground or airborne.

(d) *Weights*—(1) *Maximum weight.* The maximum weight of the rotorcraft is that maximum at which compliance with the requirements of this part is demonstrated. (See § 7.101.)

(2) *Minimum weight.* The minimum weight of the rotorcraft is that minimum at which compliance with the requirements of this part is demonstrated. (See § 7.101.)

(3) *Empty weight.* The empty weight of the rotorcraft is a readily reproducible weight which is used in the determination of the operating weights. (See § 7.104.)

(4) *Design maximum weight.* The design maximum weight is the maximum weight of the rotorcraft at which com-

pliance is shown with the structural loading conditions. (See § 7.101.)

(5) *Design minimum weight.* The design minimum weight is the minimum weight of the rotorcraft at which compliance is shown with the structural loading conditions. (See § 7.101.)

(6) *Design unit weight.* The design unit weight is a representative weight used to show compliance with the structural design requirements:

(i) Gasoline 6 pounds per U. S. gallon.

(ii) Lubricating oil 7.5 pounds per U. S. gallon.

(iii) Crew and passengers 170 pounds per person.

(e) *Speeds*—(1) *IAS.* Indicated air speed is equal to the pitot static air-speed indicator reading as installed in the rotorcraft without correction for air-speed indicator system errors but including the sea level standard adiabatic compressible flow correction. (This latter correction is included in the calibration of the air-speed instrument dials.) (See §§ 7.612 and 7.732.)

(2) *CAS.* Calibrated air speed is equal to the air-speed indicator reading corrected for position and instrument error. (As a result of the sea level adiabatic compressible flow correction to the air-speed instrument dial, CAS is equal to the true air speed TAS in standard atmosphere at sea level.)

(3) *EAS.* Equivalent air speed is equal to the air-speed indicator reading corrected for position error, instrument error, and for adiabatic compressible flow for the particular altitude. (EAS is equal to CAS at sea level in standard atmosphere.)

(4) *TAS.* True air speed of the rotorcraft relative to undisturbed air. ($TAS=EAS(\rho_0/\rho)^{1/2}$)

(5) $V_H$. The maximum speed obtainable in level flight with rated rpm and power.

(6) $V_{NE}$. The never-exceed speed. (See § 7.711.)

(7) $V_X$. The speed for best angle of climb.

(8) $V_Y$. The speed for best rate of climb.

(f) *Structural*—(1) *Limit load.* A limit load is the maximum load anticipated in normal conditions of operation. (See § 7.200.)

(2) *Ultimate load.* An ultimate load is a limit load multiplied by the appropriate factor of safety. (See § 7.200.)

(3) *Factor of safety.* The factor of safety is a design factor used to provide for the possibility of loads greater than those anticipated in normal conditions of operation and for uncertainties in design. (See § 7.200.)

(4) *Load factor.* The load factor is the ratio of a specified load to the total weight of the rotorcraft; the specified load may be expressed in terms of any of the following: aerodynamic forces, inertia forces, or ground or water reactions.

(5) *Limit load factor.* The limit load factor is the load factor corresponding with limit loads.

(6) *Ultimate load factor.* The ultimate load factor is the load factor corresponding with ultimate loads.

(7) *Fitting.* A fitting is a part or terminal used to join one structural member to another. (See § 7.307 (d).)

(g) *Power installation*[1]—(1) *Brake horsepower.* Brake horsepower is the power delivered at the propeller shaft of the engine.

(2) *Take-off power.* Take-off power is the brake horsepower developed under standard sea level conditions, under the maximum conditions of crankshaft rotational speed and engine manifold pressure approved for use in the normal take-off, and limited in use to a maximum continuous period as indicated in the approved engine specification.

(3) *Maximum continuous power.* Maximum continuous power is the brake horsepower developed in standard atmosphere at a specified altitude under the maximum conditions of crankshaft rotational speed and engine manifold pressure approved for use during periods of unrestricted duration.

(4) *Manifold pressure.* Manifold pressure is the absolute pressure measured at the appropriate point in the induction system, usually in inches of mercury.

(5) *Critical altitude.* The critical altitude is the maximum altitude at which in standard atmosphere it is possible to maintain, at a specified rotational speed, a specified power or a specified manifold pressure. Unless otherwise stated, the critical altitude is the maximum altitude at which it is possible to maintain, at the maximum continuous rotational speed, one of the following:

(i) The maximum continuous power, in the case of engines for which this power rating is the same at sea level and at the rated altitude.

(ii) The maximum continuous rated manifold pressure, in the case of engines the maximum continuous power of which is governed by a constant manifold pressure.

(h) *Propellers and rotors.*[2]—(1) *Rotor.* Rotor is a system of rotating airfoils.

(2) *Main rotor.* The main rotor is the main system of rotating airfoils providing sustentation for the rotorcraft.

(3) *Auxiliary rotor.* An auxiliary rotor is one which serves either to counteract the effect of the main rotor torque on the rotorcraft, or to maneuver the rotorcraft about one or more of its three principal axes.

(4) *Axis of no feathering.* The axis of no feathering is the axis about which there is no first harmonic feathering or cyclic pitch variation.[3]

(5) *Plane of rotor disc.* The plane of rotor disc is a reference plane at right angles to the axis of no feathering.

(6) *Tip speed ratio.* The tip speed ratio is the ratio of the rotorplane flight velocity component in the plane of rotor disc to the rotational tip speed of the rotor blades expressed as follows:

$$\mu=\frac{V\cos a}{\Omega R};$$

where:

$V$=air speed of the rotorcraft along flight path (fps),
$a$=angle between projection in plane of symmetry of axis of no feathering and a line perpendicular to the flight path (radians, positive when axis is pointing aft),
$\Omega$=angular velocity of rotor (radians per second), and
$R$=rotor radius (ft.).

(i) *Fire protection*—(1) *Fireproof.* Fireproof material means a material which will withstand heat at least as well as steel in dimensions appropriate for the purpose for which it is to be used. When applied to material and parts used to confine fires in designated fire zones, fireproof means that the material or part will perform this function under the most severe conditions of fire and duration likely to occur in such zones.

(2) *Fire-resistant.* When applied to sheet or structural members, fire-resistant material means a material which will withstand heat at least as well as aluminum alloy in dimensions appropriate for the purpose for which it is to be used. When applied to fluid-carrying lines, other flammable fluid system components, wiring, air ducts, fittings, and powerplant controls, this term refers to a line and fitting assembly, component, wiring or duct, or controls which will perform the intended functions under the heat and other conditions likely to occur at the particular location.

(3) *Flame-resistant.* Flame-resistant material means material which will not support combustion to the point of propagating, beyond safe limits, a flame after the removal of the ignition source.

(4) *Flash-resistant.* Flash-resistant material means material which will not burn violently when ignited.

(5) *Flammable.* Flammable pertains to those fluids or gases which will ignite readily or explode.

(j) *Miscellaneous.* (1) *Protective breathing equipment.* Protective breathing equipment is equipment designed to prevent the breathing of noxious gases which might be present as contaminants in the air within the rotorcraft in emergency situations (see § 7.646).

CERTIFICATION

§ 7.10 *Eligibility for type certificates.* A rotorcraft shall be eligible for type certification under the provisions of this part if it complies with the airworthiness provisions hereinafter established or if the Administrator finds that the provision or provisions not complied with are compensated for by factors which provide an equivalent level of safety: *Provided,* That the Administrator finds no feature or characteristic of the rotorcraft which renders it unsafe.

§ 7.11 *Designation of applicable regulations.* The provisions of this section shall apply to all rotorcraft types certificated under this part irrespective of the date of application for type certificate.

[1] For engine airworthiness requirements see Part 13 of this subchapter.
[2] For propeller airworthiness requirements see Part 14 of this subchapter.
[3] See NACA Technical Note No. 1604.

(a) Unless otherwise established by the Board, the rotorcraft shall comply with the provisions of this part together with all amendments thereto effective on the date of application for type certificate, except that compliance with later effective amendments may be elected or required pursuant to paragraphs (c), (d), and (e) of this section.

(b) If the interval between the date of application for type certificate and the issuance of the corresponding type certificate exceeds five years, a new application for type certificate shall be required. At the option of the applicant, a new application may be filed prior to the expiration of the five-year period. In either instance the applicable regulations shall be those effective on the date of the new application in accordance with paragraph (a) of this section.

(c) During the interval between filing the application and the issuance of a type certificate, the applicant may elect to show compliance with any amendment of this part which becomes effective during that interval, in which case all other amendments found by the Administrator to be directly related shall be complied with.

(d) Except as otherwise provided by the Board, or by the Administrator pursuant to § 1.24 of this subchapter, a change to the type certificate (see § 7.13 (b)) may be accomplished, at the option of the holder of the type certificate, either in accordance with the regulations incorporated by reference in the type certificate pursuant to § 7.13 (c), or in accordance with subsequent amendments to such regulations in effect on the date of application for approval of the change, subject to the following provisions:

(1) When the applicant elects to show compliance with an amendment to the regulations in effect on the date of application for approval of a change, he shall show compliance with all amendments which the Administrator finds are directly related to the particular amendment selected by the applicant.

(2) When the change consists of a new design or a substantially complete redesign of a component, equipment installation, or system installation of the rotorcraft, and the Administrator finds that the regulations incorporated by reference in the type certificate pursuant to § 7.13 (c) do not provide complete standards with respect to such change, he shall require compliance with such provisions of the regulations in effect on the date of application for approval of the change as he finds will provide a level of safety equal to that established by the regulations incorporated by reference at the time of issuance of the type certificate.

NOTE: Examples of new or redesigned components and installations which might require compliance with regulations in effect on the date of application for approval, are: New powerplant installation which is likely to introduce additional fire or operational hazards unless additional protective measures are incorporated; the installation of a new rotor system or a new electric power system.

(e) If changes listed in subparagraphs (1) through (3) of this paragraph are made, the rotorcraft shall be considered as a new type, in which case a new application for type certificate shall be required and the regulations together with all amendments thereto effective on the date of the new application shall be made applicable in accordance with paragraphs (a), (b), (c), and (d) of this section.

(1) A change in the number of engines or rotors;

(2) A change to engines or rotors employing different principles of operation or propulsion;

(3) A change in design, configuration, power, or weight which the Administrator finds is so extensive as to require a substantially complete investigation of compliance with the regulations.

§ 7.12 *Recording of applicable regulations.* The Administrator, upon the issuance of a type certificate, shall record the applicable regulations with which compliance was demonstrated. Thereafter, the Administrator shall record the applicable regulations for each change in the type certificate which is accomplished in accordance with regulations other than those recorded at the time of issuance of the type certificate. (See § 7.11.)

§ 7.13 *Type certificate.* (a) An applicant shall be issued a type certificate when he demonstrates the eligibility of the rotorcraft by complying with the requirements of this part in addition to the applicable requirements in Part 1 of this subchapter.

(b) The type certificate shall be deemed to include the type design (see § 7.14 (b)), the operating limitations for the rotorcraft (see § 7.700), and any other conditions or limitations prescribed by the regulations in this subchapter.

(c) The applicable provisions of this part recorded by the Administrator in accordance with § 7.12 shall be considered as incorporated in the type certificate as though set forth in full.

§ 7.14 *Data required.* (a) The applicant for a type certificate shall submit to the Administrator such descriptive data, test reports, and computations as are necessary to demonstrate that the rotorcraft complies with the requirements of this part.

(b) The descriptive data required in paragraph (a) of this section shall be known as the type design and shall consist of such drawings and specifications as are necessary to disclose the configuration of the rotorcraft and all the design features covered in the requirements of this part, such information on dimensions, materials, and processes as is necessary to define the structural strength of the rotorcraft, and such other data as are necessary to permit by comparison the determination of the airworthiness of subsequent rotorcraft of the same type.

§ 7.15 *Inspections and tests.* Inspections and tests shall include all those found necessary by the Administrator to insure that the rotorcraft complies with the applicable airworthiness requirements and conforms to the following:

(a) All materials and products are in accordance with the specifications in the type design,

(b) All parts of the rotorcraft are constructed in accordance with the drawings in the type design,

(c) All manufacturing processes, construction, and assembly are as specified in the type design.

§ 7.16 *Flight tests.* After proof of compliance with the structural requirements contained in this part, and upon completion of all necessary inspections and testing on the ground, and proof of the conformity of the rotorcraft with the type design, and upon receipt from the applicant of a report of flight tests performed by him, the following shall be conducted:

(a) Such official flight tests as the Administrator finds necessary to determine compliance with the requirements of this part.

(b) After the conclusion of flight tests specified in paragraph (a) of this section, such additional flight tests as the Administrator finds necessary to ascertain whether there is reasonable assurance that the rotorcraft, its components, and equipment are reliable and function properly. The extent of such additional flight tests shall depend upon the complexity of the rotorcraft, the number and nature of new design features, and the record of previous tests and experience for the particular rotorcraft type, its components, and equipment. If practicable, these flight tests shall be conducted on the same rotorcraft used in the flight tests specified in paragraph (a) of this section and in the rotor drive endurance tests specified in § 7.405.

§ 7.17 *Airworthiness, experimental, and production certificates.* (For requirements with regard to these certificates see Part 1 of this subchapter.)

§ 7.18 *Approval of materials, parts, processes, and appliances.* (a) Materials, parts, processes, and appliances shall be approved upon a basis and in a manner found necessary by the Administrator to implement the pertinent provisions of the regulations in this subchapter. The Administrator may adopt and publish such specifications as he finds necessary to administer this regulation, and shall incorporate therein such portions of the aviation industry, Federal, and military specifications respecting such materials, parts, processes, and appliances as he finds appropriate.

NOTE: The provisions of this paragraph are intended to allow approval of materials, parts, processes, and appliances under the system of Technical Standard Orders, or in conjunction with type certification procedures for a rotorcraft, or by any other form of approval by the Administrator.

(b) Any material, part, process, or appliance shall be deemed to have met the requirements for approval when it meets the pertinent specifications adopted by the Administrator, and the manufacturer so certifies in a manner prescribed by the Administrator.

§ 7.19 *Changes in type design.* (For requirements with regard to changes in

type design and the designation of applicable regulations therefor, see § 7.11 (d) and (e), and Part 1 of this subchapter.)

ROTORCRAFT CATEGORIES

§ 7.20 *Rotorcraft categories.* (a) For the purpose of certification under this part, rotorcraft are divided upon the basis of their size and complexity into the following categories:

(1) *Transport category A; suffix A.* Rotorcraft in this category shall be multiengined.

(2) *Transport category B; suffix B.* Rotorcraft in this category are limited to 20,000 pounds or less, and can be single- or multiengined.

(b) A multiengined rotorcraft may be certificated under the requirements of a particular category, or in both categories, if all of the requirements of each category are met. Sections of this part which apply to only one category are identified by the appropriate suffix added to the section number, as indicated in paragraph (a) of this section. All sections not identified by a suffix are applicable to both categories except as otherwise specified.

SUBPART B—FLIGHT

GENERAL

§ 7.100 *Proof of compliance.* (a) Compliance with the requirements prescribed in this subpart shall be established by flight or other tests conducted upon a rotorcraft of the type for which a certificate of airworthiness is sought or by calculations based on such tests, provided that the results obtained by calculations are equivalent in accuracy to the results of direct testing.

(b) Compliance with each requirement shall be established at all appropriate combinations of rotorcraft weight and center of gravity position within the range of loading conditions for which certification is sought by systematic investigation of all these combinations, except where compliance can be inferred reasonably from those combinations which are investigated.

(c) The controllability, stability, and trim of the rotorcraft shall be established at all altitudes up to the maximum anticipated operating altitude.

(d) The applicant shall provide a person holding an appropriate pilot certificate to make the flight tests, but a designated representative of the Administrator shall pilot the rotorcraft when it is found necessary for the determination of compliance with the airworthiness requirements.

(e) Official type tests shall be discontinued until corrective measures have been taken by the applicant when either:

(1) The applicant's test pilot is unable or unwilling to conduct any of the required flight tests, or

(2) It is found that requirements which have not been met are so substantial as to render additional test data meaningless or are of such a nature as to make further testing unduly hazardous.

(f) Adequate provision shall be made for emergency egress and for the use of parachutes by members of the crew during the flight tests.

(g) The applicant shall submit to the authorized representative of the Administrator a report covering all computations and tests required in connection with calibration of instruments used for test purposes and correction of test results to standard atmospheric conditions. The authorized representative of the Administrator shall conduct any flight tests which he finds necessary to check the calibration and correction report.

§ 7.101 *Weight limitations.* The maximum and minimum weights at which the rotorcraft will be suitable for operation shall be established as follows:

(a) Maximum weights shall not exceed any of the following:

(1) The weight selected by the applicant;

(2) The design weight for which the structure has been proven; or

(3) The maximum weight at which compliance with all the applicable flight requirements has been demonstrated.

(b) It shall be acceptable to establish maximum weights for each altitude and for each practicably separable operating condition; e. g., take-off, en route, landing.

(c) Minimum weights shall not be less than any of the following:

(1) The minimum weight selected by the applicant;

(2) The design minimum weight for which the structure has been proven; or

(3) The minimum weight at which compliance with all of the applicable flight requirements has been demonstrated. (See § 7.741 (c).)

§ 7.102 *Center of gravity limitations.* (a) Center of gravity limits shall be established as the most forward position permissible for each weight established in accordance with § 7.101 and the most aft position permissible for each of such weights. Such limits of the center of gravity range shall not exceed any of the following:

(1) The extremes selected by the applicant,

(2) The extremes for which the structure has been proven,

(3) The extremes at which compliance with all of the applicable flight requirements has been demonstrated.

(b) Loading instructions shall be provided if the center of gravity position under any possible loading condition between the maximum and minimum weights as specified in § 7.101, with assumed weights for individual passengers and crew members variable over the anticipated range of such weights, lies beyond:

(1) The extremes selected by the applicant,

(2) The extremes for which the structure has been proven,

(3) The extremes for which compliance with all of the applicable flight requirements has been demonstrated. (See § 7.741 (c).)

7.103 *Rotor limitations and pitch settings*—(a) *Power-on.* A range of power-on operating speeds for the main rotor(s) shall be established which will provide adequate margin to accommodate the variation of rotor rpm attendant to all maneuvers appropriate to the rotorcraft type and consistent with the type of synchronizer or governor used, if any (see §§ 7.713 (b) (2) and 7.714 (b)). A means shall be provided to prevent rotational speeds substantially less than the approved minimum rotor rpm in any sustained flight condition with full throttle and with pitch control of the main rotor(s) in the high-pitch position. It shall be acceptable for such means to allow the use of higher pitch in an emergency, provided that the means incorporate provisions to prevent inadvertent transition from the normal operating range to the higher pitch angles.

(b) *Power-off.* A range of power-off operating rotor speeds shall be established which will permit execution of all autorotative flight maneuvers appropriate to the rotorcraft type throughout the range of air speeds and weights for which certification is sought (see §§ 7.713 (a) and 7.713 (b) (1)). A rotor blade low-pitch limiting device shall be positioned to provide sufficient rotational speed within the approved rotor speed range in any autorotative flight condition under the most adverse combinations of weight and air speed with the rotor pitch control in the full low-pitch position. However, it shall be possible to prevent overspeeding of the rotor without requiring exceptional piloting skill.

§ 7.104 *Empty weight.* (a) The empty weight, and the corresponding center of gravity position, shall be determined by weighing the rotorcraft. This weight shall exclude the weight of the crew and payload, but shall include the weight of all fixed ballast, unusable fuel supply (see § 7.416), undrainable oil, total quantity of engine coolant, and total quantity of hydraulic fluid.

(b) The condition of the rotorcraft at the time of weighing shall be one which can be easily repeated and easily defined, particularly as regards the contents of the fuel, oil, and coolant tanks, and the items of equipment installed. (See § 7.740.)

§ 7.105 *Use of ballast.* Removable ballast may be used to enable the rotorcraft to comply with the flight requirements. (See §§ 7.391, 7.738, and 7.740.)

PERFORMANCE

§ 7.110 *General.* (a) The performance prescribed in this subpart shall be determined using normal pilot skill and shall not require exceptionally favorable conditions. Compliance shall be shown for sea level standard conditions in still air and for the range of atmospheric variables as selected by the applicant. The performance as affected by engine power, instead of being based on dry air, shall be based on 80 percent relative humidity or 0.7'' Hg. vapor pressure whichever is less.

(b) Each set of performance data required for a particular flight condition shall be determined with the powerplant accessories absorbing the normal amount of power appropriate to that flight condition.

NOTE: The Administrator is authorized to establish appropriate margins to be applied to the performance data determined in accordance with this part for operating variables not covered in the performance determination; e. g., variations in pilot technique, engine power, rotor drag, rough air, etc.

§ 7.111 *Limiting height and speeds for safe landing following power failure*—(a) *Category A.* If a range of heights exists at any speed, including zero, within which it is not possible to make a safe landing when the critical engine is suddenly made inoperative with take-off power on the operating engine(s), the range of heights and its variation with forward speed shall be established (see §§ 7.715 and 7.741 (f)).

(b) *Category B.* If a range of heights exists at any speed, including zero, within which it is not possible to make a safe landing following complete power failure, the range of heights and its variation with forward speed shall be established (see §§ 7.715 and 7.741 (f)).

(c) *Category B; optional requirements for multiengined rotorcraft.* In lieu of compliance with paragraph (b) of this section, a multiengine rotorcraft that is certificated in accordance with Transport Category A powerplant installation requirements as well as with § 7.384 (a) of this part, may, at the option of the applicant, comply with paragraph (a) of this section.

§ 7.112 *Take-off; general.* (a) Category A: The take-off performance shall be determined and scheduled in such a manner that, in the event of one engine becoming inoperative at any instant after the start of take-off, it shall be possible for the rotorcraft either to return to and stop safely on the take-off area, or to continue the take-off, climb-out, and attain a rotorcraft configuration and airspeed at which compliance with the climb requirement of § 7.115 (a) (2) is met.

(b) The take-off data required by §§ 7.113, 7.114, and 7.115 (a) (1) and (a) (2) shall be determined under the following conditions:

(1) At all weights, altitudes, and temperatures selected by the applicant, and

(2) With the operating engines not exceeding their approved limitations.

(c) All take-off data, when corrected, shall assume a level take-off surface, and shall be determined on a smooth, dry, hard surface, and in such a manner that reproduction of the performance does not require either exceptional skill or alertness on the part of the pilot or exceptionally favorable conditions. (For wind and runway gradient corrections see appropriate operating rules of the regulations in this subchapter.)

§ 7.113 *Category A; critical decision point.* The critical decision point shall be any combination of height and speed as selected by the applicant in demonstrating the take-off as defined in § 7.114. The method used to attain the critical decision point shall be such as to avoid flight within the critical areas of the limiting height-speed envelope as established in accordance with § 7.111 (a).

§ 7.114 *Take-off*—(a) *Category A.* The take-off flight path and accelerated stop path shall be established. It shall be permissible to initiate the take-off in any manner provided the take-off surface is defined and adequate safeguards are maintained to assure proper center of gravity position and control position.

(1) The accelerated stop path shall be established with take-off power on all engines from the start of take-off to the critical decision point, at which point it shall be assumed that the critical engine becomes inoperative, and the rotorcraft is brought to a safe stop.

(2) The take-off climb-out path shall be established with take-off power on all engines from the start of take-off to the critical decision point, at which point it shall be assumed that the critical engine becomes inoperative. With the remaining engines operating within their approved limitations, the climb-out shall be accomplished at speeds not less than the take-off safety speed used in meeting the rate of climb specified in § 7.115 (a) (1), and in such a manner that the air-speed and configuration used in meeting the climb requirement specified in § 7.115 (a) (2) are attained.

(3) The take-off climb-out and accelerate-stop shall be accomplished in such a manner as to provide a safe and smooth transition between all stages of the maneuver.

(b) *Category B.* The take-off and climb-out shall be established with the most unfavorable center of gravity position. It shall be permissible to initiate the take-off in any manner provided the take-off surface is defined and adequate safeguards are maintained to assure proper center of gravity position and control position and provided a landing can be made safely at any point along the flight path in the case of an engine failure (see § 7.111 (b)).

§ 7.115 *Climb; one-engine-inoperative*—(a) *Category A.* The following take-off and en route climb requirements shall be met by all Category A rotorcraft:

(1) *Take-off climb; gear extended.* The steady rate of climb without ground effect shall not be less than 100 fpm for each weight, altitude, and temperature condition for which take-off data are to be scheduled with:

(i) The critical engine inoperative and the remaining engine(s) operating within their approved limitations,

(ii) Center of gravity in the most unfavorable position permitted for take-off,

(iii) Landing gear extended,

(iv) The take-off safety speed as selected by the applicant (see § 7.114 (a) (2)), and

(v) Cowl flaps or other means of controlling the engine-cooling air supply in the position which provides adequate cooling in the hot-day condition.

(2) *Climb at maximum continuous power.* The steady rate of climb without ground effect shall not be less than 150 fpm for each weight, altitude, and temperature condition for which take-off data are to be scheduled with:

(i) The critical engine inoperative and the remaining engine(s) operating at maximum continuous power,

(ii) Center of gravity in the most unfavorable position permitted for take-off,

(iii) Landing gear retracted, if retractable,

(iv) The speed as selected by the applicant, and

(v) Cowl flaps or other means of controlling the engine-cooling air supply in the position which provides adequate cooling in the hot-day condition.

(3) *En route climb.* The steady rate of climb in feet per minute at any altitude at which the rotorcraft is expected to operate, and at any weight within the range of weights to be specified in the airworthiness certificate, shall be determined with:

(i) The critical engine inoperative, and the remaining engine(s) operating at the maximum continuous power available at such altitude,

(ii) Center of gravity in the most unfavorable position,

(iii) The landing gear retracted, if retractable,

(iv) The speed as selected by the applicant, and

(v) Cowl flaps or other means of controlling the engine-cooling air supply in the position which provides adequate cooling in the hot-day condition.

(b) *Category B.* The following climb requirements shall be applicable to Category B rotorcraft:

(1) For all rotorcraft, the steady rate of climb at the best rate-of-climb speed with maximum continuous power on all engines and landing gear retracted, if retractable; shall be determined over the range of weights, altitudes, and temperatures for which certification is sought (see § 7.740). For all rotorcraft except helicopters this rate of climb shall provide a steady gradient of climb under standard sea level conditions of not less than 1:6.

(2) For multiengine helicopters complying with the optional requirement of § 7.111 (c), the steady rate of climb or descent shall be determined at the best rate-of-climb or rate-of-descent speed with one engine inoperative and the remaining engine(s) operating at a maximum continuous power.

(3) For all helicopters, the steady angle of glide shall be determined at the minimum rate-of-descent speed in autorotation at maximum weight.

§ 7.116 *Hovering or minimum operating performance.* (a) Category A: The hovering performance shall be determined over the range of weights, altitudes, and temperatures for which take-off data are scheduled with not more than take-off power on all engines, landing gear extended, and at a height above the ground consistent with the procedure used in the establishment of take-off and accelerate-stop distance.

(b) Category B: Hovering performance for helicopters shall be determined over the range of weights, altitudes, and temperatures for which certification is sought with take-off power on all engines, landing gear extended, and in the ground effect at a height above the ground consistent with normal take-off

procedures. At maximum weight, under standard atmospheric conditions and under the aforementioned conditions, the hovering ceiling for helicopters shall not be less than 4,000 feet.

(c) For rotorcraft other than helicopters, the steady rate of climb at the minimum operating speed appropriate to the type with take-off power and landing gear extended shall be determined over the range of weights, altitudes, and temperatures for which certification is sought.

§ 7.117 *Landing; general.* (a) Category A: The landing performance shall be determined and scheduled in such a manner that, in the event of one engine becoming inoperative at any point in the approach path, it shall be possible for the rotorcraft to land and stop safely and, further, it shall be possible from a point in the approach path to climb out and attain a rotorcraft configuration and air speed at which compliance with the climb requirement of § 7.115 (a) (2) is met.

(b) The landing data required by § 7.118 shall be determined under the following conditions:

(1) At all weights, altitudes, and temperatures selected by the applicant, and

(2) With the operating engines not exceeding their approved limitations.

(c) The approach and landing shall be made in such a manner that its reproduction does not require an exceptional degree of skill on the part of the pilot or exceptionally favorable conditions.

(d) During the landing there shall be no excessive vertical acceleration and no tendency to bounce, nose over, ground loop, porpoise, or water loop. All landing data, when corrected, shall assume a level landing surface, and shall be determined on a smooth, dry, hard surface. (For wind and runway gradient corrections see appropriate operating rules of the regulations in this subchapter.)

§ 7.118 *Landing*—(a) *Category A; one engine inoperative.* The approach, balked landing, and landing paths shall be established. The approach and landing speeds shall be selected by the applicant and be appropriate to the type of rotorcraft being certificated. Such paths shall be established in the following manner:

(1) The approach and landing path shall be established such as to avoid flight within the critical areas of the limiting height-speed envelope as established in accordance with § 7.111 (a) or, alternatively, at the option of the applicant, an envelope established in accordance with the landing condition with one engine inoperative.

(2) The balked-landing path shall be established such that, from a height and speed combination in the approach path as selected by the applicant, a safe climb-out can be made and speeds attained corresponding to the speeds required in meeting the climb requirements of § 7.115 (a) (1) and (a) (2).

(3) The maneuvers specified in subparagraphs (1) and (2) of this paragraph shall be accomplished in such a manner as to provide safe and smooth transition between each stage.

(b) *Category A; complete failure of all power.* It shall be possible to make a safe landing on a prepared runway following complete failure of all power during normal cruising operating conditions (see § 7.743 (a) (2)).

(c) *Category B; autorotative landing.* The horizontal distance required to land and come to a complete stop (to a speed of approximately 3 mph for seaplanes or float planes) from a point at a height of 50 feet above the landing surface shall be determined. In making this determination the following shall apply:

(1) The approach speed or speeds in the glide shall be appropriate to the type of rotorcraft and shall be chosen by the applicant.

(2) The approach and landing shall be made with power off and shall be entered from steady autorotation.

(3) The approach and landing path shall be such as to avoid flight within the critical areas of the limiting height-speed envelope as established in accordance with § 7.111 (b).

(d) *Category B—Optional requirements for multiengined rotorcraft certificated in Transport Category B.* In lieu of compliance with the autorotative landing distance requirements specified in paragraph (c) of this section, a multiengined rotorcraft that complies with the powerplant installation requirements for Category A and § 7.384 (a) may, at the option of the applicant, comply with paragraphs (a) and (b) of this section, omitting the climb-out requirement specified in paragraph (a) (2) of this section.

### FLIGHT CHARACTERISTICS

§ 7.120 *General.* (a) The rotorcraft shall comply with the requirements prescribed in §§ 7.121 through 7.123 at all normally expected operating altitudes, under all critical loading conditions within the range of weight and center of gravity, and for all speeds, power, and rotor rpm conditions for which certification is sought.

(b) It shall be possible to maintain a flight condition and to make a smooth transition from one flight condition to another without requiring an exceptional degree of skill, alertness, or strength on the part of the pilot, and without danger of exceeding the limit load factor under all conditions of operation probable for the type, including those conditions normally encountered in the event of sudden powerplant failure.

(c) The eligibility of rotorcraft for night and instrument flight is contained in subparagraphs (1) and (2) of this paragraph.

(1) *Category A.* Rotorcraft in this category are eligible for night and instrument flight. To be eligible for night and instrument flight the rotorcraft shall be certificated in accordance with such additional flight characteristic rules as the Administrator finds are required for safe operations under these conditions.

(2) *Category B.* Rotorcraft in this category are not eligible for unlimited night and instrument flight. Rotorcraft in this category, however, are eligible for limited night flight; i. e., night flight under VFR conditions. To be eligible for limited night flight, compliance shall be shown with such requirements as the Administrator finds are necessary for safe operation under these conditions.

§ 7.121 *Controllability.* (a) The rotorcraft shall be safely controllable and maneuverable during steady flight and during the execution of any maneuver appropriate to the type of rotorcraft, including take-off, climb, level flight, turn, glide, and power-on or power-off landings.

(b) The margin of longitudinal and lateral cyclic control shall allow satisfactory pitching and rolling control at $V_{NE}$ (see § 7.711), with:

(1) Maximum weight,

(2) Critical center of gravity,

(3) Power on and power off, and

(4) Critical rotor rpm.

(c) Compliance with paragraph (b) of this section shall include a demonstration with a power failure at $V_H$ or $V_{NE}$, whichever is less.

(d) There shall be established a wind velocity in which the rotorcraft can be operated without loss of control on or near the ground at the critical center of gravity and the critical rotor rpm in any maneuver appropriate to the type of rotorcraft; e. g., cross-wind take-offs, sideward or rearward flight. This wind velocity shall not be less than 20 mph.

§ 7.122 *Trim.* It shall be possible in steady level flight at any speed appropriate to the type of rotorcraft to trim the steady longitudinal and lateral control forces to zero. The trim device shall not introduce any undesirable discontinuities in the force gradients.

§ 7.123 *Stability*—(a) *General.* It shall be possible to fly the rotorcraft in normal maneuvers, including a minimum of three take-offs and landings, for a continuous period of time appropriate to the operational use of the particular type of rotorcraft without the pilot experiencing undue fatigue or strain. In addition, the rotorcraft shall comply with the requirements of paragraph (b) of this section.

(b) *Static longitudinal stability.* In the following configurations the characteristics of the longitudinal cyclic control shall be such that, with constant throttle and collective pitch settings, a rearward displacement of longitudinal control shall be necessary to obtain and maintain speeds below the specified trim speed, and a forward displacement shall be necessary to obtain and maintain speeds above the specified trim speed for the ranges of altitude and rotor rpm for which certification is sought:

(1) *Climb.* The stick position curve shall have a stable slope over a speed range from 15 percent $V_Y$ or 15 mph, whichever is greater, below $V_Y$ to 20 percent of $V_Y$ or 15 mph, whichever is greater above $V_Y$, but in no case greater than 1.1 $V_{NE}$, with:

(i) Critical weight and center of gravity,

(ii) Maximum continuous power,

(iii) Landing gear retracted, and

(iv) Trim at best rate-of-climb speed ($V_Y$).

(2) *Cruise.* The stick position curve shall have a stable slope over a speed range from 0.7 $V_H$ or 0.7 $V_{NE}$, whichever is less, to 1.1 $V_H$ or 1.1 $V_{NE}$, whichever is less, with:

(i) Critical weight and center of gravity,

(ii) Power for level flight at 0.9 $V_H$ or 0.9 $V_{NE}$, whichever is less,

(iii) Landing gear retracted, and

(iv) Trimmed at 0.9 $V_H$, or 0.9 $V_{NE}$, whichever is less.

(3) *Autorotation.* The stick position curve shall have a stable slope throughout the speed range for which certification is sought, with:

(i) Critical weight and center of gravity,

(ii) Power off,

(iii) Landing gear both retracted, if retractable, and extended, and

(iv) Trim at the speed for minimum rate of descent.

(4) *Hovering.* In the case of helicopters the stick position curve shall have a stable slope between the maximum approved rearward speed and a forward speed of 20 mph, with:

(i) Critical weight and center of gravity,

(ii) Power required for hovering in still air,

(iii) Landing gear retracted, and

(iv) Trim for hovering.

### GROUND AND WATER HANDLING CHARACTERISTICS

§ 7.130 *General.* The rotorcraft shall be demonstrated to have satisfactory ground and water handling characteristics. There shall be no uncontrollable tendencies in any operating condition reasonably expected for the type.

§ 7.131 *Ground resonance.* There shall be no uncontrollable tendency for the rotorcraft to oscillate when the rotor is turning and the rotorcraft is on the ground.

§ 7.132 *Spray characteristics.* For rotorcraft equipped with floats, the spray characteristics during taxying, take-off, and landing shall be such as not to obscure the vision of the pilot nor produce damage to the rotors, propellers, or other parts of the rotorcraft.

### MISCELLANEOUS FLIGHT REQUIREMENTS

§ 7.140 *Flutter and vibration.* All parts of the rotorcraft shall be demonstrated to be free from flutter and excessive vibration under all speed and power conditions appropriate to the operation of the type of rotorcraft. (See also §§ 7.203 (f) and 7.711.)

## SUBPART C—STRUCTURE

### GENERAL

§ 7.200 *Loads.* (a) Strength requirements of this subpart are specified in terms of limit and ultimate loads. Unless otherwise stated, the specified loads shall be considered as limit loads. In determining compliance with these requirements the provisions set forth in paragraphs (b) through (e) of this section shall apply.

(b) The factor of safety shall be 1.5 unless otherwise specified, and shall apply to the external and inertia loads, unless its application to the resulting internal stresses is more conservative.

(c) Unless otherwise provided, the specified air, ground, and water loads shall be placed in equilibrium with inertia forces, considering all items of mass in the rotorcraft.

(d) All loads shall be distributed in a manner closely approximating or conservatively representing actual conditions.

(e) If deflections under load significantly change the distribution of external or internal loads, the redistribution shall be taken into account.

§ 7.201 *Strength and deformation.* (a) The structure shall be capable of supporting limit loads without suffering detrimental permanent deformations.

(b) At all loads up to limit loads the deformation shall not be such as to interfere with safe operation of the rotorcraft.

(c) The structure shall be capable of supporting ultimate loads without failure. It shall support the load during a static test for at least 3 seconds, unless proof of strength is demonstrated by dynamic tests simulating actual conditions of load application.

§ 7.202 *Proof of structure.* (a) Proof of compliance of the structure with the strength and deformation requirements of § 7.201 shall be made for all critical loading conditions.

(b) Proof of compliance by means of structural analysis shall be acceptable only when the structure conforms to types for which experience has shown such methods to be reliable. In all other cases substantiating tests shall be required.

(c) In all cases certain portions of the structure shall be tested as specified in § 7.203.

§ 7.203 *Structural and dynamic tests.* At least the following structural tests shall be conducted to show compliance with the strength criteria:

(a) Dynamic and endurance tests of rotors and rotor drives, including controls (see § 7.405).

(b) Control surface and system limit load tests (see § 7.323).

(c) Control system operation tests (see § 7.324).

(d) Flight stress measurements (see §§ 7.221, 7.250, and 7.251).

(e) Landing gear shock absorption tests (see § 7.332).

(f) Ground vigration tests to determine the natural frequencies of the blades and major structural components of the rotorcraft.

(g) Such additional tests as may be found necessary by the Administrator to substantiate new and unusual features of the design.

§ 7.204 *Design limitations.* The following values shall be established by the applicant for purposes of showing compliance with the structural requirements specified in this subpart:

(a) Maximum and minimum design weights,

(b) Power-on and power-off main rotor rpm ranges (see §§ 7.103 and 7.713 through 7.714 (b)),

(c) Maximum forward speeds for the power-on and power-off main rotor rpm ranges established in accordance with paragraph (b) of this section (see § 7.713),

(d) Maximum rearward and sideward flight speeds,

(e) Extreme positions of rotorcraft center of gravity to be used in conjunction with the limitations of paragraphs (b), (c), and (d) of this section,

(f) Rotational speed ratios between the powerplant and all connected rotating components, and

(g) Positive and negative limit maneuvering load factors.

### FLIGHT LOADS

§ 7.210 *General.* Flight load requirements shall be complied with at all weights from the design minimum weight to the design maximum weight, with any practicable distribution of disposable load within prescribed operating limitations stated in the Rotorcraft Flight Manual (see § 7.741).

§ 7.211 *Flight load factor.* The flight load factor shall be assumed to act normal to the longitudinal axis of the rotorcraft, and shall be equal in magnitude and shall be opposite in direction to the rotorcraft inertia load factor at the center of gravity.

§ 7.212 *Maneuvering conditions.* The rotorcraft structure shall be designed for a positive maneuvering limit load factor of 3.5 and a negative maneuvering limit load factor of 1.0, except that lesser values shall be allowed if the applicant shows by analytical study and flight demonstrations that the probability of exceeding the values selected is extremely remote. Where such lesser values of maneuvering load factor are selected, the values selected shall be appropriate to each design weight condition between design minimum and design maximum values. In no case shall the limit load factors be less than 2.0 positive and 0.5 negative. Air loads shall be assumed to be applied at the center(s) of the rotor hub(s) and at any auxiliary lifting surface(s) and to act in such directions with distributions of load among the rotor(s) and auxiliary lifting surface(s) as necessary to represent all critical maneuvering motions of the rotorcraft applicable to the particular type, including flight at the maximum design rotor tip speed ratio under power-on and power-off conditions.

§ 7.213 *Gust conditions.* The rotorcraft structure shall be designed to withstand the loading due to vertical and horizontal gusts of 30 fps in velocity in conjunction with the critical rotorcraft air speeds, including hovering.

§ 7.214 *Yawing conditions.* The rotorcraft shall be designed for loads resulting from conditions specified in this section. Unbalanced aerodynamic moments about the center of gravity shall be reacted in a rational or a conservative manner considering the principal masses furnishing the reacting inertia forces. With the maximum main rotor speed and at a forward speed up to $V_{NE}$ or $V_H$,

whichever is less, the following maneuvers shall be considered:

(a) With the rotorcraft in unaccelerated flight at zero yaw, it shall be assumed that the cockpit directional control is suddenly displaced to the maximum deflection as limited by the control stops or by maximum pilot effort.

(b) With the directional control deflected as in paragraph (a) of this section, it shall be assumed that the rotorcraft yaws to a resulting sideslip angle.

(c) With the rotorcraft yawed to the static sideslip angle corresponding with the directional control deflection specified in paragraph (a) of this section, it shall be assumed that the directional control is suddenly returned to neutral.

CONTROL SURFACE AND SYSTEM LOADS

§ 7.220 *General.* The structure of all auxiliary rotors (antitorque and control), fixed or movable stabilizing and control surfaces, and all systems operating any flight controls shall be designed to comply with the provisions of §§ 7.221 through 7.226.

§ 7.221 *Auxiliary rotor assemblies.* Auxiliary rotor assemblies shall be tested in accordance with the provisions of § 7.405 for rotor drives. In addition, auxiliary rotor assemblies with detachable blades shall be substantiated for centrifugal loads resulting from the maximum design rotor rpm. In the case of auxiliary rotors with highly stressed metal components, the vibration stresses shall be determined in flight, and it shall be demonstrated that these stresses do not exceed safe values for continuous operation.

§ 7.222 *Auxiliary rotor attachment structure.* The attachment structure for the auxiliary rotors shall be designed to withstand a limit load equal to the maximum loads in the structure occurring under the flight and landing conditions.

§ 7.223 *Tail rotor guard.* When a tail rotor is provided on a rotorcraft, it shall not be possible for the tail rotor to contact the landing medium during a normal landing. If a tail rotor guard is provided which will contact the landing medium during landings and thus prevent tail rotor contact, suitable design loads for the guard shall be established, and the guard and its supporting structure shall be designed to withstand the established loads.

§ 7.224 *Stabilizing and control surfaces.* Stabilizing and control surfaces shall be designed to withstand the critical loading from maneuvers or from combined maneuver and gust. In no case shall the limit load be less than 15 pounds per square foot or a load due to $C_N$=0.55 at the maximum design speed. The load distribution shall simulate closely the actual pressure distribution conditions.

§ 7.225 *Primary control systems; general.* Longitudinal, lateral, vertical (collective pitch), and directional control systems shall be designed to the minimum requirements set forth in paragraphs (a) and (b) of this section.

(a) Manually operated control systems, including their supporting structure, shall be designed to withstand the loads resulting from the limit pilot-applied forces as set forth in subparagraphs (1) through (3) of this paragraph, or the maximum loads which can be obtained in normal operation of the rotorcraft, including any single power boost system failure (see § 7.328), whichever is greater. Where it can be shown that the system design or the normal operating loads are such that a portion of the system cannot react the specified pilot-applied forces of subparagraphs (1) through (3) of this paragraph, that portion of the system shall be designed to withstand the maximum loads which can be obtained in normal operation of the rotorcraft, except that design loads less than those resulting from 0.60 of the specified pilot-applied forces shall not be employed.

(1) Foot-type controls—130 pounds.

(2) Stick-type controls—100 pounds fore and aft—67 pounds laterally.

(3) Wheel-type controls—100 pounds fore and aft—53*D* inch-pounds couple at the rim of the control wheel (where *D* is wheel diameter, inches).

(b) The reaction to the applied loads shall be provided as follows:

(1) By the control stops only,

(2) By the control locks only,

(3) By the irreversible mechanism only (with the irreversible mechanism locked and with the control surface in all critical positions for the affected portions of the system within its limit of motion),

(4) By the attachment of the control system to the rotor blade pitch control horn only (with the control in all critical positions for the affected portions of the system within the limits of its motion), and

(5) By the attachment of the control system to the control surface horn (with the control in all critical positions for the affected portions of the system within the limits of its motion).

§ 7.226 *Dual primary flight control systems.* (a) When dual controls are provided, the system shall be designed for the pilots operating in opposition, using individual pilot loads equal to 75 percent of those obtained in accordance with § 7.225.

(b) The control system shall be designed for the pilots acting in conjunction using individual pilot loads equal to 75 percent of those obtained in accordance with § 7.225.

LANDING LOADS

§ 7.230 *General*—(a) *Loads and equilibrium.* The limit loads obtained in the landing conditions shall be considered as external loads which would occur in a rotorcraft structure if it were acting as a rigid body. In each of the conditions the external loads shall be placed in equilibrium with the linear and angular inertia loads in a rational or conservative manner. In applying the specified conditions the provisions of paragraphs (b) through (e) of this section shall be complied with.

(b) *Center of gravity positions.* The critical center of gravity positions within the certification limits shall be selected so that the maximum design loads in each of the landing gear elements are obtained.

(c) *Design weight.* The design weight used in the landing conditions shall not be less than the maximum weight of the rotorcraft. It shall be acceptable to assume a rotor lift, equal to two-thirds the design maximum weight, to exist throughout the landing impact and to act through the center of gravity of the rotorcraft. Higher values of rotor lift shall be acceptable if substantiated by tests and/or data which are applicable to the particular rotorcraft.

(d) *Load factor.* The structure shall be designed for a limit load factor selected by the applicant, of not less than the value of the limit inertia load factor substantiated in accordance with the provisions of § 7.332, except in conditions in which other values of load factors are prescribed.

(e) *Landing gear position.* The tires shall be assumed to be in their static position, and the shock absorbers shall be assumed to be in the most critical position, unless otherwise prescribed.

(f) *Landing gear arrangement.* The provisions of §§ 7.231 through 7.236 shall be applicable to landing gear arrangements where two wheels are located aft and one or more wheels are located forward of the center of gravity.

§ 7.231 *Level landing conditions.* (a) Under loading conditions prescribed in paragraphs (b) and (c) of this section, the rotorcraft shall be assumed to be in the following two level landing attitudes:

(1) All wheels contacting the ground simultaneously, and

(2) The aft wheels contacting the ground with the forward wheel(s) being just clear of the ground.

(b) The following two level landing loading conditions shall be considered. Where the forward portion of the landing gear has two wheels, the total load applied to the forward wheels shall be divided between the two wheels in a 40 : 60 proportion.

(1) Vertical loads shall be applied in accordance with the provisions of § 7.230.

(2) The vertical loads specified in subparagraph (1) of this paragraph shall be combined with a drag load at each wheel. The drag loads shall not be less than 25 percent of the respective vertical loads. For the attitude prescribed in paragraph (a) (1) of this section the resulting pitching moment shall be assumed resisted by the forward gear, while for the attitude prescribed in paragraph (a) (2) of this section the resulting pitching moment shall be assumed resisted by angular inertia forces.

(c) Drag components simulating the forces required to accelerate the wheel rolling assembly up to the specified ground speed shall be combined with the vertical reactions existing at the instant of peak drag loads. The ground speed for determination of the spin-up loads shall be assumed equal to 75 percent of the optimum forward flight speed for minimum rate of descent in autorotative flight. The vertical loads under this loading condition shall be in accordance with the provisions of § 7.230 (d). It shall be acceptable to apply this condition only to the landing gear and the attaching structure.

§ 7.232 *Nose-up landing condition.* The rotorcraft shall be assumed in the maximum nose-up attitude permitting clearance of the ground by all parts of the rotorcraft. The ground loads shall be applied perpendicularly to the ground.

§ 7.233 *One-wheel landing condition.* The rotorcraft shall be assumed in the level attitude to contact the ground on one of the wheels located aft of the center of gravity. The vertical load shall be the same as that obtained on the one side in the condition specified in § 7.231 (b) (1). The unbalanced external loads shall be reacted by the inertia of the rotorcraft.

§ 7.234 *Lateral-drift landing condition.* (a) The rotorcraft shall be assumed in the level landing attitude. Side loads shall be combined with one-half the maximum ground reactions obtained in the level landing conditions of § 7.231 (b) (1). These loads shall be applied at the ground contact point, unless the landing gear is of the full-swiveling type in which case the loads shall be applied at the center of the axle. The conditions set forth in paragraphs (b) and (c) of this section shall be considered.

(b) Only the wheels aft of the center of gravity shall be assumed to contact the ground. Side loads equal to 0.8 of the vertical reaction acting inward (on one side) and 0.6 of the vertical reaction acting outward (on the other side) shall be combined with the vertical loads specified in paragraph (a) of this section.

(c) The forward and aft wheels shall be assumed to contact the ground simultaneously. Side loads on the wheels aft of the center of gravity shall be applied in accordance with paragraph (b) of this section. A side load at the forward gear equal to 0.8 of the vertical reaction shall be combined with the vertical load specified in paragraph (a) of this section.

§ 7.235 *Brake roll conditions.* The rotorcraft attitudes shall be assumed to be the same as those prescribed for the level landing conditions in § 7.231 (a), with the shock absorbers deflected to their static position. The limit vertical load shall be based upon a load factor of 1.33. A drag load equal to the vertical load multiplied by a coefficient of friction of 0.8 shall be applied at the ground contact point of each wheel equipped with brakes, except that the drag load need not exceed the maximum value based on limiting brake torque.

§ 7.236 *Taxiing condition.* The rotorcraft and its landing gear shall be designed for loads which occur when the rotorcraft is taxied over the roughest ground which it is reasonable to expect in normal operation.

§ 7.240 *Ski landing conditions.* The structure of a rotorcraft equipped with skis shall be designed in compliance with the loading conditions set forth in paragraphs (a) through (c) of this section:

(a) *Up load conditions.* (1) A vertical load of *Pn* and a horizontal load of *Pn*/4 shall be applied simultaneously at the pedestal bearings, *P* being the maximum static weight on each ski when the rotorcraft is loaded to the maximum design weight. The limit load factor *n* shall be determined in accordance with § 7.230 (d).

(2) A vertical load equal to 1.33 *P* shall be applied at the pedestal bearings. (For *P* see subparagraph (1) of this paragraph.)

(b) *Side-load condition.* A side load of 0.35 *Pn* shall be applied in a horizontal plane perpendicular to the center line of the rotorcraft at the pedestal bearing. (For *P* and *n* see paragraph (a) (1) of this section.)

(c) *Torque-load condition.* A torque load equal to 1.33 *P* (ft.-lb.) shall be applied to the ski about the vertical axis through the center line of the pedestal bearings. (For *P* see paragraph (a) (1) of this section.)

§ 7.245 *Float landing conditions.* The structure of a rotorcraft equipped with floats shall be designed in compliance with the loading conditions set forth in paragraphs (a) and (b) of this section:

(a) *Up load conditions.* (1) With the rotorcraft assumed in the static level attitude a load shall be applied so that the resultant water reaction passes vertically through the center of gravity of the rotorcraft. The limit load factor shall be determined in accordance with § 7.230 (d) or shall be assumed to be the same as the load factor determined for the ground type landing gear.

(2) The vertical load prescribed in subparagraph (1) of this paragraph shall be applied together with an aft component equal to 0.25 the vertical component.

(b) *Side load condition.* The vertical load in this condition equal to 0.75 the vertical load prescribed in paragraph (a) (1) of this section, divided equally between the floats, shall be applied together with a side component. The total side component shall be equal to 0.25 the total vertical load in this condition and shall be applied to one float only.

MAIN COMPONENT REQUIREMENTS

§ 7.250 *Main rotor structure.* The requirements of paragraphs (a) through (g) of this section shall apply to the main rotor assemblies including hubs and blades.

(a) The hubs, blades, blade attachments, and blade controls which are subject to alternating stresses shall be designed to withstand the repeated loading conditions likely to occur within the established service life for such parts. The stresses of critical parts shall be determined in flight in all attitudes appropriate to the type of rotorcraft throughout the ranges of limitations prescribed in § 7.204. The service life of such parts shall be established by the applicant on the basis of fatigue tests or other methods found acceptable to the Administrator.

(b) The main rotor structure shall be designed to withstand the critical flight loads prescribed in §§ 7.210 through 7.214.

(c) The main rotor structure shall be designed to withstand the limit loads prescribed in §§ 7.210 through 7.214 under conditions of autorotation necessary for normal operation.

(d) The rotor blades, hubs, and flapping hinges shall be designed to withstand a loading condition simulating the force of the blade impact against its stop during operation on the ground.

(e) The rotor assembly shall be designed to withstand loadings simulating other critical conditions which might be encountered in normal operation.

(f) The rotor assembly shall be designed to withstand, at all rotational speeds, including zero, the maximum torque likely to be transmitted thereto by the rotor drive in both directions. If a torque limiting device is provided in the transmission system, the design limit torque need not be greater than the torque defined by the limiting device, except that in no case shall the design limit torque be less than the limit torque specified in § 7.251 (c). The design torque shall be distributed to the rotor blades in a rational manner.

(g) The rotor assembly shall be designed to withstand the maximum torque likely to be transmitted thereto from sudden applications of the rotor brake if provided. The design torque shall be equally distributed among the rotor blades.

§ 7.251 *Fuselage and rotor pylon structure.* The requirements of paragraphs (a) through (e) of this section shall apply to the fuselage and rotor pylon structure.

(a) The structure shall be designed to withstand the critical loads prescribed in §§ 7.210 through 7.214. The balancing air loads and inertia loads occurring under the accelerated flight conditions as well as the thrust from auxiliary rotors and the torque reaction of the rotor drive systems shall be considered.

(b) The structure shall be designed to withstand the applicable ground loads prescribed in §§ 7.230 through 7.245.

(c) The engine mount and adjacent fuselage structure shall be designed to withstand loads occurring in the rotorcraft under the accelerated flight and landing conditions, including the effects of engine torque loads. In the case of engines having 5 or more cylinders, the limit torque shall be obtained by multiplying the mean torque as defined by the power conditions in § 7.1 (g) (3) by a factor of 1.33. For 4-, 3-, and 2-cylinder engines, the factors shall be 2, 3, and 4, respectively. When a gas turbine powerplant is used, the limit torque shall be obtained by multiplying the mean torque for maximum continuous power by a factor of 1.25.

(d) The structure shall be designed to withstand the loads prescribed in § 7.250 (d) and (g).

(e) Those parts of the basic structure which are directly subjected to alternating stresses and the sudden failure of which would threaten the structural integrity of the rotorcraft shall be designed to withstand the repeated loading conditions likely to occur within the established service life for such parts. The stresses of critical parts shall be determined in flight in all attitudes appropri-

ate to the type of rotorcraft throughout the ranges of limitations prescribed in § 7.204. The service life of such parts shall be established by the applicant on the basis of fatigue tests or other methods found acceptable to the Administrator.

§ 7.252 *Auxiliary lifting surfaces.* The requirements of paragraphs (a) through (c) of this section shall apply to the auxiliary lifting surfaces.

(a) The structure shall be designed to withstand the critical flight loads prescribed in §§ 7.210 through 7.214.

(b) The structure shall be designed to withstand the applicable ground loads of §§ 7.230 through 7.245.

(c) The structure shall be designed to withstand loadings simulating other critical conditions which might be encountered in normal operations.

EMERGENCY LANDING CONDITIONS

§ 7.260 *General.* The requirements of paragraphs (a) through (c) of this section deal with emergency conditions of landing on land or water in which the safety of the occupants is considered, although it is accepted that parts of the rotorcraft may be damaged.

(a) The structure shall be designed to give every reasonable probability that all of the occupants, if they make proper use of the seats, belts, and other provisions made in the design (see § 7.355), will escape serious injury in the event of a minor crash landing (with wheels up if the rotorcraft is equipped with retractable landing gear) in which the occupants experience the following ultimate inertia forces relative to the surrounding structure:

(1) Upward 1.5g (downward 4.0g).
(2) Forward 4.0g.
(3) Sideward 2.0g.

(b) The use of a lesser value of the downward inertia force specified in paragraph (a) of this section shall be acceptable if it is shown that the rotorcraft structure can absorb the landing loads corresponding with the design maximum weight and an ultimate descent velocity of 5 fps without exceeding the value chosen.

(c) The inertia forces specified in paragraph (a) of this section shall be applied to all items of mass which would be apt to injure the passengers or crew if such items became loose in the event of a minor crash landing, and the supporting structure shall be designed to restrain these items.

§ 7.261 *Fuel tank protection.* When fuel tanks are located within the fuselage and below the passenger floor level in an area where there is a likelihood of tank rupture from ground impact in the emergency landing condition (see § 7.260), the fuselage structure in the area of such fuel tanks shall be designed to resist the crash impact and protect the fuel tanks from rupture.

NOTE: Fuselage keels whose design and structural strength are such as to resist crash impacts associated with the emergency landing conditions of § 7.260 without extreme distortion which might tend to rupture the fuel tank may be considered to comply with the requirements of this section.

SUBPART D—DESIGN AND CONSTRUCTION

GENERAL

§ 7.300 *Scope.* The rotorcraft shall not incorporate design features or details which experience has shown to be hazardous or unreliable. The suitability of all questionable design details or parts shall be established by tests.

§ 7.301 *Materials.* The suitability and durability of all materials used in the rotorcraft structure shall be established on the basis of experience or tests and shall conform to approved specifications which will insure their having the strength and other properties assumed in the design data.

§ 7.302 *Fabrication methods.* The methods of fabrication employed in constructing the rotorcraft structure shall be such as to produce a consistently sound structure. When a fabrication process such as gluing, spot welding, or heat treating requires close control to attain this obejctive, the process shall be performed in accordance with the approved process specification.

§ 7.303 *Standard fastenings.* All bolts, pins, screws, and rivets used in the structure shall be of an approved type. The use of an approved locking device or method is required for all such bolts, pins, and screws. Self-locking nuts shall not be used on bolts which are subject to rotation in operation.

§ 7.304 *Protection.* (a) All members of the structure shall be suitably protected against deterioration or loss of strength in service due to weathering, corrosion, abrasion, or other causes.

(b) Provision for ventilation and drainage of all parts of the structure shall be made where necessary for protection.

(c) In rotorcraft equipped with floats, special precautions shall be taken against corrosion from salt water, particularly where parts made from different metals are in close proximity.

§ 7.305 *Inspection provisions.* Means shall be provided to permit the close examination of those parts of the rotorcraft which require periodic inspection, adjustment for proper alignment and functioning, and lubrication of moving parts.

§ 7.306 *Material strength properties and design values.* (a) Material strength properties shall be based on a sufficient number of tests of material conforming to specifications to establish design values on a statistical basis.

(b) The design values shall be so chosen that the probability of any structure being understrength because of material variations is extremely remote.

(c) ANC–5, ANC–18, and ANC–23, Part II, values shall be used unless shown to be inapplicable in a particular case.

NOTE: ANC–5, "Strength of Metal Aircraft Elements," ANC–18, "Design of Wood Aircraft Structures," and ANC–23, "Sandwich Construction for Aircraft," are published by the Subcommittee on Air Force-Navy-Civil Aircraft Design Criteria, and may be obtained from the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

(d) The strength, detail design, and fabrication of the structure shall be such as to minimize the probability of disastrous fatigue failure.

NOTE: Points of stress concentration are one of the main sources of fatigue failure.

§ 7.307 *Special factors*—(a) *General.* Where there is uncertainty concerning the actual strength of a particular part of the structure, or where the strength is likely to deteriorate in service prior to normal replacement of the part, or where the strength is subject to appreciable variability due to uncertainties in manufacturing processes and inspection methods, the factor of safety prescribed in § 7.200 (b) shall be multiplied by a special factor of a value such as to make the probability of the part being understrength from these causes extremely remote. The special factors set forth in paragraphs (b) through (d) of this section shall be acceptable for this purpose.

(b) *Casting factors.* (1) Where only visual inspection of a casting is to be employed, the casting factor shall be 2.0, except that it need not exceed 1.25 with respect to bearing stresses.

(2) It shall be acceptable to reduce the factor of 2.0 specified in subparagraph (1) of this paragraph to a value of 1.25 if such a reduction is substantiated by testing at least three sample castings and if the sample castings as well as all production castings are visually and radiographically inspected in accordance with an approved inspection specification. During these tests the samples shall withstand the ultimate load multiplied by the factor of 1.25 and in addition shall comply with the corresponding limit load multiplied by a factor of 1.15.

(3) Casting factors other than those contained in subparagraphs (1) and (2) of this paragraph shall be acceptable if they are found to be appropriately related to tests and to inspection procedures.

(4) A casting factor need not be employed with respect to the bearing surface of a part if the bearing factor used (see paragraph (c) of this section) is of greater magnitude than the casting factor.

(c) *Bearing factors.* (1) Bearing factors of sufficient magnitude shall be used to provide for the effects of normal relative motion between parts and in joints with clearance (free fit) which are subject to pounding or vibration.

(2) A bearing factor need not be employed on a part if another special factor prescribed in this section is of greater magnitude than the bearing factor.

(d) *Fitting factors.* (1) A fitting factor of at least 1.15 shall be used on all fittings the strength of which is not proven by limit and ultimate load tests in which the actual stress conditions are simulated in the fitting and the surrounding structure. This factor shall apply to all portions of the fitting, the means of attachment, and the bearing on the members joined.

(2) In the case of integral fittings the part shall be treated as a fitting up to the point where the section properties become typical of the member.

(3) The fitting factor need not be employed where a type of joint made in accordance with approved practices is based on comprehensive test data; e. g., continuous joints in metal plating, welded joints, and scarf joints in wood.

(4) A fitting factor need not be employed with respect to the bearing surface of a part if the bearing factor used (see paragraph (c) of this section) is of greater magnitude than the fitting factor.

MAIN ROTOR

§ 7.310 *Main rotor blades; pressure venting and drainage.* Internal pressure venting of the main rotor blades shall be provided. Drain holes shall be provided and, in addition, the blades shall be designed to preclude the possibility of water becoming trapped in any section of the blade.

§ 7.311 *Stops.* The rotor blades shall be provided with stops, as required for the particular design, to limit the travel of the blades about their various hinges. Provision shall be made to keep the blades from hitting the droop stops except during the starting and stopping of the rotor.

§ 7.312 *Rotor and blade balance.* Rotors and blades shall be mass-balanced to the degree necessary to prevent excessive vibrations and to safeguard against flutter at all speeds up to the maximum forward speed.

§ 7.313 *Rotor blade clearance.* Clearance shall be provided between the main rotor and all other parts of the rotorcraft to prevent the blades from striking any part of the rotorcraft during any operating condition.

CONTROL SYSTEMS

§ 7.320 *General.* All controls and control systems shall operate with ease, smoothness, and positiveness appropriate to their function. (See also §§ 7.350 and 7.353.)

§ 7.321 *Control system stops.* (a) All control systems shall be provided with stops which positively limit the range of motion of the pilot's controls.

(b) Control system stops shall be so located in the system that wear, slackness, or take-up adjustments will not affect appreciably the range of travel.

(c) Control system stops shall be capable of withstanding the loads corresponding with the design conditions for the control system.

§ 7.322 *Control locks.* If a device is provided for locking the control system while the rotorcraft is on the ground or water, the provisions of paragraphs (a) and (b) of this section shall apply.

(a) The device shall either automatically disengage when the pilot operates the controls in a normal manner, or it shall limit the operation of the rotorcraft in such a manner that the pilot receives unmistakable warning while on the ground prior to take-off.

(b) Means shall be provided to preclude the possibility of the lock becoming engaged during flight.

§ 7.323 *Static tests.* Tests shall be conducted on control systems to show compliance with limit load requirements in accordance with the provisions of paragraphs (a) through (c) of this section.

(a) The direction of the test loads shall be such as to produce the most severe loading in the control system.

(b) The tests shall include all fittings, pulleys, and brackets used in attaching the control system to the main structure.

(c) Analyses or individual load tests shall be conducted to demonstrate compliance with the special factor requirements for control system joints subjected to angular motion. (See §§ 7.307 and 7.325.)

§ 7.324 *Operation tests.* An operation test shall be conducted for each control system by operating the controls from the pilot compartment with the entire system loaded to correspond with loads specified for the control system. In this test there shall be no jamming, excessive friction, or excessive deflection.

§ 7.325 *Control system details; general.* All details of control systems shall be designed and installed to prevent jamming, chafing, and interference from cargo, passengers, and loose objects. Precautionary means shall be provided in the cockpit to prevent the entry of foreign objects into places where they would jam the control systems. Provisions shall be made to prevent the slapping of cables or tubes against other parts of the rotorcraft. The following detailed requirements shall be applicable with respect to cable systems and joints:

(a) *Cable systems.* (1) Cables, cable fittings, turnbuckles, splices, and pulleys shall be of an acceptable type.

(2) The design of cable systems shall preclude any hazardous change in cable tension throughout the range of travel under operating conditions and temperature variations.

(3) Cables smaller than 1/8 inch diameter shall not be used in the primary control system.

(4) Pulley types and sizes shall correspond to the cables with which they are used. The pulley-cable combinations and strength values specified in ANC–5 shall be used unless shown to be inapplicable for a particular installation.

(5) All pulleys shall be provided with closely fitted guards to prevent the cables being displaced or fouled.

(6) Pulleys shall lie in the plane passing through the cable within such limits that the cable does not rub against the pulley flange.

(7) Fairleads shall be so installed that they do not cause a change in cable direction of more than 3°.

(8) Clevis pins (excluding those not subject to load or motion) retained only by cotter pins shall not be used in the control system.

(9) Turnbuckles attached to parts having angular motion shall be installed to prevent positively any binding throughout the range of travel.

(10) Provision for visual inspection shall be made at all fairleads, pulleys, terminals, and turnbuckles.

(b) *Joints.* (1) Control system joints subjected to angular motion in push-pull systems, excepting ball and roller bearing systems, shall incorporate a special factor of not less than 3.33 with respect to the ultimate bearing strength of the softest material used as a bearing.

(2) It shall be acceptable to reduce the factor specified in subparagraph (1) of this paragraph to a value of 2.0 for joints in cable control systems.

(3) The manufacturer's static, non-Brinell rating of ball and roller bearings shall not be exceeded.

§ 7.326 *Spring devices.* The reliability of any spring device used in the control system shall be established by tests simulating service conditions, unless it is demonstrated that failure of the spring will not cause flutter or unsafe flight characteristics.

§ 7.327 *Autorotative control mechanism.* The main rotor blade pitch control mechanism shall be arranged to permit rapid entry into autorotative flight in the event of power failure.

§ 7.328 *Power boost systems.* If the rotorcraft is equipped with power boost controls, the design of the control system shall be such that the rotorcraft can be flown and landed safely in the event of any single failure in the power boost system.

LANDING GEAR

§ 7.330 *General.* The requirements of §§ 7.331 through 7.338 shall apply to the complete landing gear.

§ 7.331 *Shock absorbers.* (a) The shock absorbing elements for the main, nose, and rear wheel units shall be substantiated by the tests specified in § 7.332.

(b) The shock absorbing ability of the landing gear in taxying shall be demonstrated by taxying tests (see § 7.236).

§ 7.332 *Shock absorption tests.* Drop tests shall be conducted in accordance with paragraphs (a) and (b) of this section to substantiate the landing limit inertia load factor (see § 7.230 (d)) and to demonstrate the reserve energy absorption capacity of the landing gear. The drop tests shall be conducted with the complete rotorcraft or on units consisting of wheel, tire, and shock absorber in their proper relation.

(a) *Limit drop test.* The drop height in the limit drop test shall be 13 inches measured from the lowest point of the landing gear to the ground. A lesser drop height shall be permissible if it results in a drop test contact velocity found by the Administrator to be equal to the greatest probable sinking speed of the rotorcraft at ground contact in power-off landings likely to be made in normal operation of the rotorcraft. In no case shall the drop height be less than 8 inches. If rotor lift is considered (see § 7.230 (c)), it shall be introduced in the drop test by the use of appropriate energy absorbing devices or by the use of an effective mass.

NOTE: In lieu of more rational computations, the following may be employed when use is made of an effective mass:

$$W_e = W\left(\frac{h+(1-L)d}{h+d}\right)$$

where:

$W_e$ = the effective weight to be used in the drop test (pounds).

$W = W_M$ for main gear units (pounds), equal to the static reaction on the particular unit with the rotorcraft in the most critical attitude; a rational method may be used in computing the main gear static reaction, taking into consideration the distance between the direction of the main wheel reaction and the aircraft center of gravity.

$W = W_N$ for nose wheel units (pounds), equal to the vertical component of the ground reaction which would exist at the nose wheel, assuming the mass of the rotorcraft acting at the center of gravity and exerting a force of 1.0$g$ downward and 0.25$g$ forward.

$h$ = specified free drop height (inches).

$L$ = ratio of assumed rotor lift to the rotorcraft weight.

$d$ = deflection under impact of the tire (at the approved inflation pressure) plus the vertical component of the axle travel relative to the drop mass (inches).

(b) *Reserve energy absorption drop test.* The reserve energy absorption capacity shall be demonstrated by a drop test in which the drop height is equal to 1.5 times the drop height prescribed in paragraph (a) of this section, and the rotor lift is assumed to be not greater than 1.5 times the rotor lift used in the limit drop tests, except that the resultant inertia load factor need not exceed 1.5 times the limit inertia load factor determined in accordance with paragraph (a) of this section. In this test the landing gear shall not collapse.

NOTE: The effect of rotor lift may be considered in a manner similar to that prescribed in paragraph (a) of this section.

§ 7.333 *Limit load factor determination.* In determining the rotorcraft inertia load factor "$n$" from the free drop tests specified in § 7.332, the following formula shall be used:

$$n = n_j \frac{W_e}{W} + L;$$

where:

$n_j$ = load factor during impact developed on the mass used in the drop tests (i. e., the acceleration $dv/dt$ in g's recorded in the drop tests, plus 1.0). (See § 7.332 (a) for explanation of $W_e$, $W$, and $L$.)

§ 7.334 *Retracting mechanism*—(a) *General.* (1) The landing gear retracting mechanism, wheel well doors, and supporting structure shall be designed for the loads occurring in the flight maneuvering conditions when the gear is in the retracted position, and for the combination of friction, inertia, and air loads occurring during retraction and extension at any air speed up to the design maximum landing gear extended speed.

(2) The landing gear, the retracting mechanism, and the rotorcraft structure including wheel well doors shall be designed to withstand flight loads, including those in yawed flight, occurring with the landing gear in the extended position at any air speed up to the design maximum landing gear extended speed.

(b) *Landing gear lock.* A positive means shall be provided for the purpose of maintaining the landing gear in the extended position.

(c) *Emergency operation.* When other than manual power for the operation of the landing gear is employed, emergency means for extending the landing gear shall be provided, so that the landing gear can be extended in the event of any reasonably probable failure in the normal retraction system. In any case, the emergency system shall provide for the failure of any single source of hydraulic, electric, or equivalent energy supply.

(d) *Operation test.* Proper functioning of the landing gear retracting mechanism shall be demonstrated by operation tests.

(e) *Position indicator.* When a retractable landing gear is used, means shall be provided for indicating to the pilot when the gear is secured in the extended and in the retracted positions.

(f) *Control.* The location and operation of the landing gear retraction control shall be according to the provisions of § 7.353.

§ 7.335 *Wheels.* Landing gear wheels shall be of an approved type. The maximum static load rating of each wheel shall not be less than the corresponding static ground reaction under the maximum weight of the rotorcraft and the critical center of gravity position. The maximum limit load rating of each wheel shall not be less than the maximum radial limit load determined in accordance with the applicable ground load requirements of this part.

§ 7.336 *Brakes.* A braking device shall be installed, controllable by the pilot and usable during power-off landings, which is adequate to insure:

(a) Counteraction of any normal unbalanced torque when starting or stopping the rotor.

(b) Holding the rotorcraft parked on a 10° slope on a dry, smooth pavement.

§ 7.337 *Tires.* (a) Landing gear tires shall be of a proper fit on the rim of the wheel, and their approved rating shall be such that it is not exceeded under the following conditions:

(1) Rotorcraft weight equal to the maximum design weight.

(2) Load on each main wheel tire equal to the corresponding static ground reaction when considering the critical center of gravity position.

(3) Load on nose wheel tires (to be compared with the dynamic rating established for such tires) equal to the reaction obtained at the nose wheel assuming the mass of the rotorcraft concentrated at the most critical center of gravity and exerting a force of 1.0g downward and 0.25g forward, the reactions being distributed to the nose and main wheels by the principles of statics with the drag reaction at the ground applied only at those wheels which have brakes.

§ 7.338 *Skis.* (a) Landing gear skis shall have load ratings appropriate to the limit loads determined in accordance with the applicable ground load requirements of this part (see § 7.240).

(b) A stabilizing means shall be provided to maintain the ski in an appropriate position during flight and shall have sufficient strength to withstand the maximum aerodynamic and inertia loads to which the ski is subjected.

FLOATS

§ 7.340 *Buoyancy (main floats).* (a) Main floats shall have a buoyancy in excess of that required to support the maximum weight of the rotorcraft in fresh water as follows:

(1) 50 percent in the case of single floats;

(2) 60 percent in the case of multiple floats.

(b) Main floats shall contain at least 5 watertight compartments of approximately equal volume.

§ 7.341 *Float strength.* Floats shall be designed for the conditions set forth in paragraphs (a) and (b) of this section:

(a) *Bag type floats.* Bag type floats shall withstand the maximum pressure differential which might be developed at the maximum altitude for which certification with floats is sought. In addition, the floats shall withstand the vertical loads prescribed by § 7.245 (a) distributed along the length of the bag over three-quarters of the projected bag area.

(b) *Rigid floats.* Rigid type floats shall withstand the vertical, horizontal, and side loads prescribed in § 7.245. An appropriate load distribution under critical conditions shall be used.

PERSONNEL AND CARGO ACCOMMODATIONS

§ 7.350 *Pilot compartment; general.* (a) The arrangement of the pilot compartment and its appurtenances shall provide safety and assurance that the pilot will be able to perform all of his duties and operate the controls in the correct manner without unreasonable concentration and fatigue.

(b) When provision is made for a second pilot, the rotorcraft shall be controllable with equal safety from both seats.

(c) The pilot compartment shall be constructed to prevent leakage likely to be distracting to the crew or harmful to the structure when flying in rain or snow.

(d) Vibration and noise characteristics of cockpit appurtenances shall not interfere with the safe operation of the rotorcraft.

(e) A passageway between the pilot compartment and the passenger compartment shall be provided. Suitable means shall be provided to prevent passengers from entering the pilot compartment without permission.

§ 7.351 *Pilot compartment vision*—(a) *Nonprecipitation conditions.* (1) The pilot compartment shall be arranged to afford the pilot(s) a sufficiently extensive, clear, and undistorted view for the safe operation of the rotorcraft.

(2) It shall be demonstrated during the day and, where appropriate, during the night by flight tests that the pilot compartment is free of glare and reflection which would tend to interfere with the pilots' vision.

(b) *Precipitation conditions.* (1) Means shall be provided so that the pilot(s) is afforded a sufficiently extensive view to permit safe operation under the following conditions:

(i) In heavy rain at forward speeds up to $V_H$ and

(ii) In the most severe icing condition in which operation of the rotorcraft is approved.

(2) In addition to the means provided in subparagraph (1) of this paragraph, the pilot shall be provided with a window which is openable under the conditions prescribed in subparagraph (1) of this paragraph and which provides the view prescribed in that subparagraph.

§ 7.352 *Pilot windshield and windows.* All glass panes shall be of a nonsplintering safety type.

§ 7.353 *Controls.* (a) All cockpit controls shall be located to provide convenience in operation and in a manner tending to prevent confusion and inadvertent operation. (See also § 7.737.)

(b) The controls shall be so located and arranged with respect to the pilots' seats that there exists full and unrestricted movement of each control without interference from either the cockpit structure or the pilots' clothing when seated. This shall be demonstrated for individuals ranging from 5' 2" to 6' 0" in height.

§ 7.354 *Doors.* (a) Closed cabins shall be provided with at least one adequate and easily accessible external door.

(b) No passenger door shall be so located with respect to the rotor discs as to endanger persons using the door when appropriate operating instructions are employed.

(c) Means shall be provided for locking crew and external passenger doors and for safeguarding against their opening in flight either inadvertently by persons or as a result of mechanical failure. It shall be possible to open external doors from either the inside or the outside of the cabin while the rotorcraft is on the ground. The means of opening shall be simple and obvious and shall be so arranged and marked that it can be readily located and operated.

(d) Reasonable provisions shall be made to prevent the jamming of any external door as a result of fuselage deformation in a minor crash.

(e) Means shall be provided for a direct visual inspection of the locking mechanism by crew members to ascertain whether all external doors, including passenger, crew, service, and cargo doors are fully locked. In addition, visual means shall be provided to signal to appropriate crew members that all normally used external doors are closed and in the fully locked position.

(f) For outwardly opening external doors usable by persons for entrance or egress, an auxiliary safety latching device shall be provided which will prevent the door from coming open in the event of difficulties with the primary latching mechanism. If the door will not meet the requirements of paragraph (c) of this section with the auxiliary safety latching device in place, then suitable operating procedures shall be established to insure that the device shall not be in place during take-off or landing.

§ 7.355 *Seats and safety belts*—(a) *General.* At all stations designated as occupiable during take-off and landing, the seats, belts, harnesses (if used) and adjacent parts of the rotorcraft shall be such that a person making proper use of these facilities will not suffer serious injury in the emergency landing conditions as a result of inertia forces specified in § 7.260. Seats shall be of an approved type (see also § 7.643 concerning safety belts).

(b) *Arrangement.* (1) Passengers and crew shall be afforded protection from head injuries by one of the following means:

(i) Safety belt and shoulder harness which will prevent the head from contacting any injurious object;

(ii) Safety belt and the elimination of all injurious objects within striking radius of the head; or

(iii) Safety belt and a cushioned rest which will support the arms, shoulders, head, and spine.

(2) For arrangements which do not provide a firm handhold on seat backs, hand grips or rails shall be provided along aisles to enable passengers or crew members to steady themselves while using the aisles in moderately rough air.

(3) All projecting objects which would cause injury to persons seated or moving about the rotorcraft in normal flight shall be padded.

(c) *Strength.* All seats and their supporting structure shall be designed for an occupant weight of 170 pounds with due account taken of the maximum load factors, inertia forces, and reactions between occupant, seat, and safety belt or harness corresponding with all relevant flight and ground load conditions, including the emergency landing conditions prescribed in § 7.260. In addition, the following shall apply:

(1) Pilot seats shall be designed for the reactions resulting from the application of pilot forces to the flight controls as prescribed in § 7.225.

(2) In determining the strength of the seat attachments to the structure and the safety belt or shoulder harness (if installed) attachments to the seat or structure, the inertia forces specified in § 7.260 (a) shall be multiplied by a factor of 1.33.

§ 7.356 *Cargo and baggage compartments.* (See also § 7.382.) (a) Each cargo and baggage compartment shall be designed for the placarded maximum weight of contents and the critical load distributions at the appropriate maximum load factors corresponding with all specified flight and ground load conditions, excluding the emergency landing conditions of § 7.260.

(b) Provision shall be made to prevent the contents in the compartments from becoming a hazard by shifting under the loads specified in paragraph (a) of this section.

(c) Provision shall be made to protect the passengers and crew from injury by the contents of any compartment when the ultimate inertia force acting forward is 4g.

§ 7.357 *Emergency evacuation.* Crew and passenger areas shall be provided with emergency evacuation means to permit rapid egress in the event of crash landings, whether with the landing gear extended or retracted, taking into account the possibility of the rotorcraft being on fire. Passenger entrance, crew, and service doors shall be considered as emergency exits if they meet the applicable requirements of this section.

(a) *Flight crew emergency exits.* Flight crew emergency exits shall be located in the flight crew area on both sides of the rotorcraft or as a top hatch to provide for rapid evacuation. Such exits shall not be required on small rotorcraft where the Administrator finds that the proximity of passenger emergency exits to the flight crew area renders them convenient and readily accessible to the flight crew.

(b) *Passenger emergency exits; type and location.* The types of exits and their location shall be as follows:

(1) *Type I.* A rectangular opening of not less than 24 inches wide by 48 inches high, with corner radii not greater than 4 inches, located in the passenger area in the side of the fuselage at floor level and as far away as practicable from areas which might become potential fire hazards after a crash.

(2) *Type II.* Same as Type I (subparagraph (1) of this paragraph) except that the opening is not less than 20 inches wide by 44 inches high.

(3) *Type III.* A rectangular opening of not less than 20 inches wide by 36 inches high, with corner radii not greater than 4 inches, located in the passenger area in the side of the fuselage and as far away as practicable from areas which might become potential fire hazards after a crash.

(4) *Type IV.* A rectangular opening of not less than 19 inches wide by 26 inches high, with corner radii not greater than 4 inches, located in the side of the fuselage with a step-up inside the rotorcraft of not more than 29 inches.

NOTE: Larger openings than those specified in paragraph (b) of this section will be acceptable, whether or not of rectangular shape, provided the specified rectangular openings can be inscribed therein, and further provided that the base of the opening affords a flat surface not less than the width specified.

(c) *Passenger emergency exits; number required.* Emergency exits of the type and located as prescribed in paragraph (b) of this section shall be accessible to the passengers, and shall be provided in accordance with the following table:

| Passenger seating capacity | Emergency exits required on each side of fuselage | | | |
|---|---|---|---|---|
| | Type I | Type II | Type III | Type IV |
| 1 to 19 inclusive | ------ | ------ | 1 | ------ |
| 20 to 39 inclusive | ------ | 1 | ------ | 1 |
| 40 to 69 inclusive | 1 | ------ | ------ | 1 |

In addition to the number of exits required for the side of the fuselage, openings shall be provided in other parts of the fuselage (top, bottom, or ends) so that, in the event of a crash landing in which the fuselage comes to rest on its side, emergency exits shall be available for egress. When it can be satisfactorily demonstrated that the configuration of the rotorcraft is such that the probability of the rotorcraft rolling over and coming to rest on the side of the fuselage after a crash landing is extremely remote, it shall be acceptable to provide emergency exits in the side of the fuselage only.

(d) *Emergency exit arrangement.* (1) Emergency exits shall consist of movable doors or hatches in the external walls of the fuselage and shall provide an unobstructed opening to the outside.

(2) All emergency exits shall be openable from the inside and from the outside.

(3) The means of opening emergency exits shall be simple and obvious and shall not require exceptional effort of a person opening them.

(4) Means shall be provided for locking each emergency exit and for safeguarding against opening in flight either inadvertently by persons or as a result of mechanical failure.

(5) Provision shall be made to minimize the possibility of jamming of emergency exits as a result of fuselage deformation in a minor crash landing.

(6) For all emergency exits other than Type IV located above a wing (see paragraph (b) of this section) which are more than 6 feet from the ground with the rotorcraft on the ground and the landing gear extended, acceptable means shall be provided to assist the occupants in descending to the ground.

(7) The proper functioning of emergency exit installations shall be demonstrated by test.

(e) *Emergency exit marking.* (1) All emergency exits, their means of access, and their means of opening shall be marked conspicuously. The identity and location of emergency exits shall be recognizable from a distance equal to the width of the cabin. The location of the emergency exit operating handle and the instructions for opening shall be marked on or adjacent to the emergency exit and shall be readable from a distance of 30 inches.

(2) A source or sources of light, with an energy supply independent of the main lighting system, shall be installed to illuminate all emergency exit markings. Such lights shall be designed to function automatically in a crash landing and shall also be operable manually.

(3) All emergency exits and their means of opening shall be marked on the outside of the rotorcraft for guidance of rescue personnel.

(f) *Emergency exit access.* Passageways between individual compartments of the passenger area and passageways leading to Type I and Type II emergency exits (see paragraph (b) of this section) shall be unobstructed and shall be not less than 20 inches wide. Adjacent to emergency exits where assisting means are required by paragraph (d) (6) of this section, there shall be sufficient additional space to allow a crew member to assist in the evacuation of passengers without reduction in the unobstructed width of the passageway to such exit.

(g) *Width of main aisle.* The main passenger aisle at any point between seats shall be not less than 15 inches wide up to a height above the floor of 25 inches and not less than 20 inches wide above that height.

§ 7.358 *Ventilation.* (a) All passenger and crew compartments shall be ventilated and crew compartments shall be provided with a sufficient amount of fresh air to enable crew members to perform their duties without undue discomfort or fatigue.

NOTE: A fresh air supply of 10 cubic feet per minute is considered a minimum for each crew member.

(b) Crew and passenger compartment air shall be free from harmful or hazardous concentrations of gases or vapors. The concentration of carbon monoxide shall not exceed 1 part in 20,000 parts of air under conditions of forward flight. For other configurations of operation, suitable operating restrictions shall be provided if the carbon monoxide concentration exceeds this value.

(c) Provisions shall be made to insure the conditions prescribed in paragraph (b) of this section in the event of reasonably probable failures of the ventilating, heating, or other systems and equipment.

NOTE: Examples of acceptable provisions include secondary isolation, integral protective devices, and crew warning and shutoff provisions for equipment the malfunctioning of which could introduce harmful or hazardous quantities of smoke or gases.

§ 7.359 *Heaters.* Combustion heaters shall be of an approved type and shall comply with the fire protection requirements of § 7.383. Engine exhaust heaters shall comply with the provisions of § 7.467 (c) and (d).

FIRE PREVENTION

§ 7.380 *General.* Compliance shall be shown with the fire prevention requirements of §§ 7.381 through 7.385. Additional fire prevention requirements are prescribed in Subpart E, Powerplant Installation, and Subpart F, Equipment.

(a) *Hand fire extinguishers.* Hand fire extinguishers shall be of an approved type. The types and quantities of extinguishing agents shall be appropriate for the type of fires likely to occur in the compartments where the extinguishers are intended for use. Extinguishers intended for use in personnel compartments shall be such as to minimize the hazard of toxic gas concentrations.

(b) *Built-in fire extinguishers.* Where a built-in fire extinguishing system is required, its capacity in relation to the compartment volume and ventilation rate shall be sufficient to combat any fire likely to occur in the compartment. All built-in fire extinguishing systems shall be so installed that any extinguishing agent likely to enter personnel compartments will not be hazardous to the occupants and that any discharge of the extinguisher cannot result in structural damage.

§ 7.381 *Cabin interiors.* All compartments occupied or used by the crew or passengers shall comply with the provisions of paragraphs (a) through (f) of this section.

(a) The materials in no case shall be less than flash-resistant.

(b) The wall and ceiling linings, the covering of all upholstery, floors, and furnishings shall be flame-resistant.

(c) Compartments where smoking is to be permitted shall be equipped with ash trays of the self-contained type which are completely removable. All other compartments shall be placarded against smoking.

(d) All receptacles for used towels, paper, and waste shall be of fire-resistant materials and shall incorporate covers or other provisions for containing possible fires.

(e) At least one hand fire extinguisher shall be provided for use by the flight crew.

(f) In addition to the requirements of paragraph (e) of this section, at least the following number of hand fire extinguishers conveniently located for use in passenger compartments shall be provided according to the passenger capacity of the rotorcraft:

| Passenger capacity | Minimum number of hand fire extinguishers |
|---|---|
| 6 or less | 0 |
| 7 through 30 | 1 |
| 31 through 60 | 2 |

§ 7.382 *Cargo and baggage compartments.* (a) Cargo and baggage compartments shall be constructed of or completely lined with fire-resistant material. Compartments shall include no controls, wiring, lines, equipment, or accessories, the damage or failure of which would affect the safe operation of the rotorcraft, unless such items are shielded, isolated, or otherwise protected so that they cannot be damaged by movement of cargo in the compartment, and so that any breakage or failure of such items will not create a fire hazard. Design of inaccessible compartments and sealing of these compartments shall be such as to contain cargo compartment fires for a period of time sufficient to permit landing and safe evacuation of the occupants.

NOTE: For compartments having a volume not in excess of 500 cubic feet, an airflow of not more than 1,500 cubic feet per hour is considered acceptable. For larger compartments lesser airflow may be applicable.

(b) Cargo and baggage compartments shall be designed or provided with detection devices to insure detection of fires by a crew member while at his proper station, and to preclude the entrance of harmful quantities of smoke, flame, etc., into crew or passenger compartments.

(c) If compartments are intended to be accessible in flight, protective breathing equipment shall be available for the use of the appropriate crew member (see § 7.646).

(d) Compliance with the provisions of this section which refer to fire detection and the entry of hazardous quantities of smoke, extinguishing agents, or other noxious gases into the crew and passenger compartments shall be demonstrated in flight.

§ 7.383 *Combustion heater fire protection*—(a) *Combustion heater fire zones.* The following shall be considered as combustion heater fire zones and shall be protected against fire in accordance with the applicable provisions of §§ 7.480 through 7.486 and § 7.489:

(1) Region surrounding the heater, if such region contains any flammable fluid system components including the heater fuel system which might be damaged by heater malfunctioning or which, in case of leakage or failure, might permit flammable fluids or vapors to reach the heaters.

(2) That portion of the ventilating air passage which surrounds the combustion chamber, except that this area need not be provided with an extinguishing system if the passage is so constructed that it will contain and withstand any fire which may occur within the passage without damage to other rotorcraft components.

(b) *Ventilating air ducts.* (1) Ventilating air ducts which pass through fire zones shall be of fireproof construction.

(2) Unless isolation is provided by the use of fireproof valves or other equivalently effective means, the ventilating air duct downstream of the heater shall be of fireproof construction for a sufficient distance to assure that any fire originating from within the heater can be contained within the duct.

(3) Portions of ventilating ducts passing through regions in the rotorcraft where flammable fluid systems are located shall be so constructed or isolated from such systems that failure or malfunctioning of the flammable fluid system components cannot introduce flammable fluids or vapors into the ventilating airstream.

(c) *Combustion air ducts.* (1) Combustion air ducts shall be of fireproof construction for a distance sufficient to prevent damage from backfiring or reverse flame propagation.

(2) Combustion air ducts shall not communicate with the ventilating airstream unless it is demonstrated that flames from backfires or reverse burning cannot enter the ventilating airstream under any conditions of ground or flight operation including conditions of reverse flow or malfunctioning of the heater or its associated components.

(3) Combustion air ducts shall not restrict prompt relief of backfires which can cause heater failure due to pressures generated within the heater.

(d) *Heater controls; general.* Provisions shall be made to prevent hazardous accumulations of water or ice on or within any heater control components, control system tubing, or safety controls.

(e) *Heater safety controls.* (1) In addition to the components provided for normal continuous control of air temperature, air flow, and fuel flow, means independent of such components shall be provided with respect to each heater to shut off automatically that heater's ignition and fuel supply at a point remote from the heater when the heat exchanger temperature or ventilating air temperature exceeds safe limits or when either the combustion air flow or the ventilating flow becomes inadequate for safe operation. The means provided for this purpose for any individual heater shall be independent of all components serving other heaters, the heat output of which is essential to the safe operation of the rotorcraft. The means shall also be such that the heater will remain off until restarted by the crew.

(2) Warning means shall be provided to indicate to the crew when a heater, the heat output of which is essential to the safe operation of the rotorcraft, has been shut off by the operation of the automatic means prescribed in subparagraph (1) of this paragraph.

(f) *Air intakes.* Combustion and ventilating air intakes shall be so located that no flammable fluids or vapors can enter the heater system under any conditions of ground or flight operation either during normal operation or as a result of malfunctioning, failure, or improper operation of other rotorcraft components.

(g) *Heater exhaust.* Heater exhaust systems shall comply with the provisions of § 7.467 (a) and (b). In addition, the following shall apply:

(1) Exhaust shrouds shall be sealed so that flammable fluids and hazardous quantities of vapors cannot reach the exhaust systems through joints.

(2) Exhaust systems shall not restrict the prompt relief of backfires which can cause heater failure due to pressures generated within the heater.

(h) *Heater fuel systems.* Heater fuel systems shall comply with all portions of the powerplant fuel system requirements which affect safe heater operation. In addition, heater fuel system components within the ventilating airstream shall be protected by shrouds so that leakage from such components cannot enter the ventilating airstream.

(i) *Drains.* Means shall be provided for safe drainage of fuel accumulations which might occur within the combustion chamber or the heat exchanger. Portions of such drains which operate at high temperatures shall be protected in the same manner as heater exhausts (see paragraph (g) of this section). Drains shall be protected against hazardous ice accumulations in flight and during ground operation.

§ 7.384 *Fire protection of structure, controls, and other parts*—(a) *Category A.* All structure, controls, rotor mechanism, and other parts essential to controlled flight and landing of the rotorcraft which would be affected by powerplant fires shall be of fireproof construction.

(b) *Category B.* All structure, controls, rotor mechanism, and other parts essential to a controlled landing of the rotorcraft which would be affected by powerplant fires either shall be of fireproof construction or shall be otherwise protected, so that they can perform their essential functions for at least 5 minutes under all foreseeable powerplant fire conditions. (See also §§ 7.480 and 7.483 (a).)

§ 7.385 *Flammable fluid fire protection.* In areas of the rotorcraft where flammable fluids or vapors might be liberated by leakage or failure in fluid systems, design precautions shall be taken to safeguard against the ignition of such fluids or vapors due to the operation of other equipment or to control any fire resulting from such ignition.

MISCELLANEOUS

§ 7.390 *Leveling marks.* Reference marks shall be provided for use in leveling the rotorcraft to facilitate weight and balance determinations on the ground.

§ 7.391 *Ballast provisions.* Ballast provisions shall be so designed and constructed as to prevent the inadvertent shifting of the ballast in flight. (See also §§ 7.105, 7.738 (a), and 7.741 (c).)

§ 7.392 *Ice protection.* If certification for flight in icing conditions is desired, the rotorcraft shall be capable of operating safely in the range of conditions applicable to the operating limitations of the design.

SUBPART E—POWERPLANT INSTALLATION

GENERAL

§ 7.400 *Scope and general design.* The powerplant installation shall be considered to include all components of the rotorcraft which are necessary for its propulsion with the exception of the structure of the main and auxiliary rotors. It shall also be considered to include all components which affect the control of the major propulsive units or which affect their safety of operation between normal inspections or overhaul periods. (See §§ 7.604 and 7.613 for instrument installation and marking.) The general provisions of paragraphs (a) through (d) of this section shall be applicable.

(a) Reciprocating engine installations shall comply with the provisions of this subpart. Turbine engine installations shall comply with such of the provisions of this subpart as are found applicable to the specific type of installation and such other requirements as may be deemed necessary by the Administrator.

(b) All components of the powerplant installation shall be constructed, arranged, and installed in a manner which will assure their continued safe operation between normal inspections or overhaul periods.

(c) Accessibility shall be provided to permit such inspection and maintenance as is necessary to assure continued airworthiness.

(d) Electrical interconnections shall be provided to prevent the existence of differences of potential between major components of the powerplant installation and other portions of the rotorcraft.

§ 7.401 *Engines*—(a) *Type certification.* All engines shall be type certificated in accordance with the provisions of Part 13 of this subchapter.

(b) *Category A; engine isolation.* The powerplants shall be arranged and isolated each from the other to permit operation in at least one configuration in such a manner that the failure or malfunctioning of any engine, or the failure of any system of the rotorcraft which

can affect an engine, will not prevent the continued safe operation of the remaining engine(s) or require immediate action by crew members for their continued safe operation.

(c) *Category A; control of engine rotation.* Means shall be provided for stopping and restarting the rotation of any engine individually in flight. All components provided for this purpose which are located on the engine side of the fire wall and which might be exposed to fire shall be of fire-resistant construction unless more than one means is available for this purpose and provided further that the duplicate controls are so located that all are not likely to be damaged at the same time in case of fire.

§ 7.402 *Engine vibration.* The engine shall be installed to preclude harmful vibration of any of the engine parts or of any of the components of the rotorcraft. It shall be demonstrated by means of a vibration investigation that the addition of the rotor and the rotor drive system to the engine does not result in modification of engine vibration characteristics to the extent that the principal rotating portions of the engine are subjected to excessive vibratory stresses.

ROTOR DRIVE SYSTEM

§ 7.403 *Rotor drive system*—(a) *General.* The rotor drive system shall be considered to include all parts necessary to transmit power between the engine(s) and the main and/or auxiliary rotor hubs. This includes gear boxes, shafting, universal joints, couplings, rotor brake assembly, overrunning and other clutches, supporting bearings for shafting, and any attendant accessory pads or drives. Cooling fans which are not certificated as part of the engine shall also be considered a part of the rotor drive system.

(b) *Arrangement.* (1) The rotor drive system of a multiengine rotorcraft shall be so arranged that all rotors necessary for operation and control of the rotorcraft will continue to be driven by the remaining engine(s) in the event of failure of any of the engines.

(2) Category B: On single-engine rotorcraft the rotor drive system shall be so arranged that all rotors necessary for control of the rotorcraft in autorotative flight will continue to be driven by the main rotor(s) after disengagement of the engine from the main and auxiliary rotors.

(3) The rotor drive system shall incorporate a unit for each engine which will automatically disengage the engine from the drive system in the event of a power failure of the engine.

(4) If a torque limiting device is employed in the rotor drive system (see § 7.250 (f)), such device shall be located to permit continued control of the rotorcraft after the device becomes operative.

(5) On rotorcraft employing rotors which must be phased for intermeshing purposes, the rotor drive system shall provide constant and positive phase relationship under all operating conditions. If a rotor dephasing device is incorporated, means shall be provided to insure that the rotors are locked in proper phase prior to operation.

§ 7.404 *Rotor brakes.* If a means is provided to control the rotation of the rotor drive system independent of the engine, the limitations on the use of such means shall be specified, and the control for this means shall be guarded to prevent inadvertent operation.

§ 7.405 *Rotor drive system and control mechanism tests*—(a) *Endurance tests*—(1) *General.* The rotor drive system and rotor control mechanism shall be tested for not less than 200 hours. The test shall be conducted on the rotorcraft and the power shall be absorbed by the actual rotors to be installed. The endurance tests shall be conducted in 10-hour test cycles composed of the tests prescribed in subparagraphs (2) through (10) of this paragraph. Compliance with the endurance tests prescribed in this paragraph will be accepted for helicopter engine certification in lieu of the endurance testing specified in Part 13 of this subchapter. (The other phases of helicopter engine certification such as vibration, calibration, detonation, operation, and engine inspection will of course require compliance in accordance with Part 13 of this subchapter.)

(2) *Take-off power run.* The take-off power run shall consist of one hour of alternate runs of 5 minutes at take-off power and speed, and 5 minutes at as low an engine idle speed as practicable. The engine shall be declutched from the rotor drive system and the rotor brake, if furnished and so intended, shall be applied during the first minute of the idle run. During the remaining 4 minutes of the idle run, the clutch shall be engaged so that the engine drives the rotors at the minimum practical rpm. Acceleration of the engine and the rotor drive system shall be accomplished at the maximum rate. When declutching the engine, it shall be decelerated at a rate sufficiently rapid to permit the operation of the overrunning clutch. In the absence of a take-off rating, maximum continuous power and speed shall be substituted for take-off power and speed.

(3) *Maximum continuous run.* Three hours of continuous operation at maximum continuous power and speed as follows:

(i) During the run, the main rotor controls shall be operated at a minimum of 15 times each hour through the main rotor pitch positions of full vertical thrust, maximum forward thrust component, maximum aft thrust component, maximum left thrust component, and maximum right thrust component, except that the control movements need not produce loads or blade flapping motion exceeding the maximum loads or motions encountered in flight.

(ii) The directional controls shall be operated at a minimum of 15 times each hour through the control extremes of maximum right turning torque, neutral torque as required by the power applied to the main rotor, and maximum left turning torque.

(iii) Each control position shall be held at maximum for at least 10 seconds and the rate of change of control position shall be at least as rapid as for normal operation.

(4) *90 percent maximum continuous run.* One hour of continuous operation at 90 percent maximum continuous power at maximum continuous speed.

(5) *80 percent maximum continuous run.* One hour of continuous operation at 80 percent maximum continuous power and speed.

(6) *60 percent maximum continuous run.* Two hours of continuous operation at 60 percent maximum continuous power at minimum desired cruising speed or at 90 percent maximum continuous speed, whichever speed is lower.

(7) *Engine malfunctioning run.* It shall be determined whether malfunctioning of such components as the engine fuel or ignition systems or unequal power output from the various engines can result in dynamic conditions which might be detrimental to the drive system. If so, a suitable number of hours of operation shall be accomplished under such conditions, one hour of which shall be included in each cycle, and the remaining hours accomplished at the conclusion of the 20 cycles. If no detrimental condition results, an additional hour of operation as prescribed in subparagraph (2) of this paragraph shall be substituted.

(8) *Overspeed run.* One hour of continuous operation at 110 percent maximum continuous speed at maximum continuous power. In the event that the engine(s) installed are limited by the manufacturer to an overspeed of less than 110 percent of maximum continuous speed for the periods required, the speed employed shall be the highest speed permissible with the engine(s) involved.

(9) *Rotor control positions.* Whenever the rotor controls are not being cycled during the tie-down tests, the rotor shall be operated to produce each of the maximum thrust positions for the percentages of test time as follows, except that the control positions need not produce loads or blade flapping motion exceeding the maximum loads or motions encountered in flight, using the procedures of subparagraph (3) of this paragraph:

(i) Full vertical thrust, 20 percent.

(ii) Forward thrust component, 50 percent.

(iii) Right thrust component, 10 percent.

(iv) Left thrust component, 10 percent.

(v) Aft thrust component, 10 percent.

(10) *Clutch and brake engagements.* A total of at least 400 clutch and brake engagements including the engagements of paragraph (a) (2) of this section shall be made during the take-off power runs and, as necessary, at each change of power and speed throughout the test. In each clutch engagement, the shaft on the driven side of the clutch shall be accelerated from rest. The clutch engagements shall be accomplished at the speed and by the method prescribed in the operations manual. During deceleration after each clutch engagement, the engine(s) shall be stopped rapidly enough to allow the engine(s) to be automatically disengaged from the rotor(s) and/or rotor-drive(s). If a rotor brake is installed for the purpose of stopping the rotor, the clutch, during brake engagements, shall be disengaged above 40 percent maximum continuous rotor speed and the rotor(s) allowed to decelerate to 40 percent maximum continuous rotor speed at which time the rotor brake shall be applied. If the clutch design does not permit stopping the rotor(s) with the engine running, or if no clutch is provided, the engine shall be stopped before each application of the rotor brake, and then immediately restarted after the rotors have stopped.

(b) *Overspeed test.* After completion of the 200-hour tie-down test and without intervening major disassembly, the rotor drive system shall be subjected to 50 overspeed runs, each 30±3 seconds in duration at 120 percent maximum continuous speed. Overspeed runs shall be alternated with stabilizing runs of 1 to 5 minutes duration each at from 60 to 80 percent maximum continuous speed. Acceleration and deceleration shall be accomplished in a period not longer than 10 seconds, and the time for changing speeds shall not be deducted from the specified time for the overspeed runs. Overspeed runs should be made with the rotor(s) in the flattest pitch at which smooth operation can be obtained. In the event that the engine(s) installed is limited by the engine manufacturer to an overspeed of less than 120 percent of maximum continuous speed for the periods required, the speed employed shall be the highest speed permissible with the engine(s) involved.

(c) *Critical component reliability tests.* Components within the rotor drive system, the failure of which will result in an uncontrolled landing, components essential to the phasing of the rotors on multirotor rotorcraft, or as a driving link for essential control of rotors in autorotation, and components common to more than one engine on multiengine rotorcraft, shall be designed to have a level of safety equivalent to the main rotors. Components which are affected by flight maneuvering and gust loads shall be additionally investigated for the same flight conditions as the main rotor(s). The service life of such parts shall be determined by fatigue tests or by other methods found acceptable by the Administrator.

(d) *Special tests.* Rotor drive systems designed to operate at two or more gear ratios shall be subjected to special testing and durations found necessary by the Administrator to substantiate the airworthiness of the rotor drive system.

(e) *Category A; gear box bench tests.* Each gear box employed in the rotor drive system shall be tested for 150 hours at 110 percent of its maximum continuous power and speed. The components employed in this test need not be the same as those employed in the tests of paragraph (a) of this section.

§ 7.406 *Additional tests.* Such additional dynamic, endurance, and operational tests or vibratory investigations shall be conducted as are found necessary by the Administrator to substantiate the airworthiness of the rotor drive mechanism.

§ 7.407 *Critical shafting speeds.* An investigation shall be made to determine that the critical speeds of all shafting lie outside the range of permissible engine speeds under idling, power-on, and autorotative conditions. If critical vibration conditions (persistent or momentary) are found in the entire range of operations from and including clutch engagement to maximum overspeed, either during acceleration or deceleration, it shall be demonstrated in the rotorcraft that such vibration is within safe limits. Such demonstration may be made during the endurance testing (see § 7.405 (a)), in which case the test schedule may be altered to include the critical vibratory conditions in lieu of equivalent time in appropriate portions of the enduance test procedure.

§ 7.408 *Shafting joints.* All universal joints, slip joints, and other shafting joints shall have provision for lubrication, unless it is demonstrated that lack of lubrication will have no adverse effect on the operation of the rotorcraft.

FUEL SYSTEM OPERATION AND ARRANGEMENT

§ 7.410 *General.* (a) The fuel system shall be constructed and arranged in such a manner as to assure a flow of fuel to each engine at a rate and pressure which have been established for proper engine functioning under all normal conditions, including all maneuvers for which the rotorcraft is intended. (For fuel system instruments see § 7.604.)

(b) The fuel system shall be so arranged that no one engine or fuel pump can draw fuel from more than one tank at a time unless means are provided to prevent introducing air into the system.

§ 7.411 *Fuel system independence*—(a) *Category A.* The design of the fuel system shall comply with the requirements of § 7.401 (b). Unless other provisions are made in compliance with this requirement, the fuel system shall be arranged to permit the supply of fuel to each engine through a system independent of any portion of a system supplying fuel to any other engine.

(b) *Category B.* The design of the fuel system for multiengine rotorcraft shall be arranged to permit supplying fuel to each engine through a system independent of all portions of systems supplying fuel to the other engines, except that separate fuel tanks need not be provided for each engine.

§ 7.412 *Fuel lines in personnel and cargo compartments.* (a) Fuel lines shall not pass through portions of the rotorcraft intended to carry personnel or cargo, unless they are so located or protected by drained and ventilated shrouds or other means which will assure that in case of leakage, fuel and fumes will be carried safely overboard. Means shall be provided to permit the flight personnel to shut off the supply of fuel to such lines without affecting operation of more than one engine.

(b) Lines which can be isolated from the remainder of the fuel system by means of valves at each end shall incorporate provisions for the relief of excessive pressures which might result from exposure of the isolated line to high ambient temperatures.

§ 7.413 *Fuel flow and feed.* (a) The fuel supply system shall be arranged so that, insofar as practicable, the entire fuel supply can be utilized in the maximum inclinations of the rotorcraft for any sustained conditions of flight and so that the feed ports will not be uncovered during normal maneuvers involving moderate rolling or sideslipping. On rotorcraft with more than one fuel tank, the system shall feed promptly when the fuel supply becomes low in one tank and another tank is turned on (see § 7.438).

(b) The ability of the fuel system to provide the required fuel flow rate shall be demonstrated when the rotorcraft is in the attitude which represents the most adverse sustained condition, from the standpoint of fuel feed, which the rotorcraft is designed to attain. The demonstration may be accomplished by a ground test of the rotorcraft or on a representative operating mock-up of the fuel system. The following conditions are applicable to such demonstration:

(1) Category A: The critical attitude (or attitudes) selected shall be verified by a flight demonstration which takes into consideration all operating speeds, power settings, accelerated maneuvers, and engine inoperative conditions.

(2) The quantity of fuel in the tank being considered shall not exceed the amount established as the unusable fuel supply for that tank, as determined by demonstrating compliance with the provisions of § 7.416 (see also §§ 7.418 and 7.613 (b)), together with whatever minimum quantity of fuel it may be necessary to add for the purpose of conducting the flow test.

(3) The fuel shall be delivered to the engine at a pressure not less than the minimum inlet pressure established for proper engine operation in accordance with Part 13 of this subchapter.

(4) If a fuel flowmeter is provided, the meter shall be blocked during the flow test and the fuel shall flow through the meter by-pass.

(c) The fuel flow rate required for the demonstration specified in paragraph (b) of this section shall be as follows:

(1) For gravity feed systems: The fuel flow rate shall be 150 percent of the actual take-off power fuel consumption of the engine.

(2) For pump systems: The fuel flow rate shall be 0.9 pound per hour for each rated take-off horsepower or 125 percent of the actual take-off fuel consumption of the engine, whichever is greater.

§ 7.414 *Pump systems.* (a) The fuel flow rate specified in § 7.413 (c) shall be applicable to both the primary engine-driven pump and to emergency pumps. The fuel flow rate shall be available when the pump is running at the speed at which it normally would be operating during take-off. In the case of hand-operated pumps, the speed required shall be not more than 60 complete cycles (120 single strokes) per minute.

(b) Emergency pumps shall be provided to permit supplying all engines with fuel in case of failure of any one main fuel pump, except in the case of

installations in which the only fuel pump necessary is an engine fuel injection or fuel metering pump which is approved as an integral part of the engine.

(c) Category A: If the arrangement of the fuel system necessitates a fuel boost pump to maintain operating fuel flow and pressure for the range of altitudes and temperatures in which flight is expected, a duplicate boost pump shall be provided to serve as an emergency pump in case of failure of the main boost pump. Each pump shall be capable of supplying fuel flow at the rate specified in § 7.413 (c).

(d) Category A: Where the provisions of paragraph (c) of this section are applicable, and both boost pumps are dependent upon a common source of power, it shall be possible with these components inoperative to maintain cruising fuel flow and pressure for all engines. The limiting weights, speeds, and altitudes shall be demonstrated and the results recorded in the operating procedures portion of the Rotorcraft Flight Manual.

§ 7.415 *Transfer systems.* The provisions of § 7.413 shall apply to transfer systems, except that the required fuel flow rate for the engine or engines involved shall be established upon the basis of maximum continuous power and its corresponding speed.

§ 7.416 *Determination of unusable fuel supply.* The unusable fuel supply in each tank shall be that quantity at which the first evidence of malfunctioning occurs in any sustained flight condition at the most critical weight and center of gravity position within the approved limitations. The unusable fuel supply shall be determined for each tank used in normal operation. (See also §§ 7.104 and 7.613 (b).)

§ 7.417 *Fuel system hot weather operation.* (a) The fuel system shall be so arranged as to minimize the possibility of the formation of vapor in the system under all normal conditions of operation. Rotorcraft with suction lift fuel systems or systems which have features likely to produce vapor shall be demonstrated to be free from vapor lock when using fuel at a temperature of 110° F. under critical operating conditions.

(b) Category A: To prove satisfactory hot weather operation the rotorcraft shall be climbed from the altitude of the airport chosen by the applicant to an altitude of 5,000 feet above the terrain, or to the altitude at which the rotorcraft is expected to operate, whichever is greater. There shall be no evidence of vapor lock or other malfunctioning. The climb test shall be conducted under the following conditions:

(1) All engines shall operate at maximum continuous power, except that take-off power shall be used at the beginning of the demonstration for the maximum time interval for which take-off power is approved for use on the rotorcraft.

(2) The weight shall be with full fuel tanks, minimum crew, and only such ballast as is required to maintain the center of gravity within allowable limits.

(3) The speed of climb shall be the speed for best rate of climb under the conditions of the test.

(4) The fuel temperature shall be not less than 110° F. at the beginning of the demonstration.

(c) Category A: The test prescribed in paragraph (b) of this section shall be performed either in flight or on the ground closely simulating flight conditions. If a flight test is performed in weather sufficiently cold to interfere with the proper conduct of the test, the fuel tank surfaces, fuel lines, and other fuel system parts subjected to cooling action from cold air shall be insulated to simulate, insofar as practicable, flight in hot weather.

§ 7.418 *Flow between interconnected tanks.* (a) Where tank outlets are interconnected and permit flow through the interconnection due to gravity or flight accelerations, it shall not be possible for fuel to flow between tanks in quantities sufficient to cause an overflow of fuel from the tank vent when the rotorcraft is operated in any sustained flight condition.

(b) If it is possible to pump fuel from one tank to another in flight, the design of the fuel tank vents and the fuel transfer system shall be such that structural damage to tanks will not occur in the event of overfilling. In addition, means shall be provided to warn the crew before overflow through the vents occurs.

FUEL TANK CONSTRUCTION AND INSTALLATION

§ 7.420 *General.* (a) Fuel tanks shall be capable of withstanding without failure all vibration, inertia, fluid, and structural loads to which they may be subjected in operation.

(b) Fuel tanks and their installation shall be designed or protected so as to retain the fuel supply without leakage when the rotorcraft is subjected to the emergency landing conditions specified under § 7.260.

(c) Flexible fuel tank liners shall be of an approved type or shall be shown to be suitable for the particular application.

(d) Integral type fuel tanks shall be provided with facilities for inspection and repair of the tank interior.

§ 7.421 *Fuel tank tests.* (a) Fuel tanks shall be capable of withstanding the following pressure tests without failure or leakage. It shall be acceptable to apply the pressures in a manner simulating the actual pressure distribution in service (where this is practicable).

(1) Conventional metal tanks, nonmetallic tanks the walls of which are not supported by the rotorcraft structure, and integral tanks shall be submitted to a pressure of 3.5 psi unless the pressure developed during the maximum limit acceleration or emergency deceleration (see § 7.260) of the rotorcraft with a full tank exceeds this value, in which case a hydrostatic head, or equivalent test, shall be applied to duplicate the acceleration loads insofar as possible, except that the pressure need not exceed 3.5 psi on surfaces not exposed to the acceleration loading.

(2) Nonmetallic tanks the walls of which are supported by the rotorcraft structure shall be submitted to the following tests:

(i) A pressure test of at least 2.0 psi. The test may be conducted on the tank alone in conjunction with the test specified in subdivision (ii) of this subparagraph.

(ii) A pressure test, with the tank mounted in the rotorcraft structure, equivalent to the load developed by the reaction of the contents, when the tanks are full, during the maximum limit acceleration or emergency deceleration (see § 7.260) of the rotorcraft, except that the pressure need not exceed 2.0 psi on the surfaces not exposed to the acceleration loading.

(b) Tanks with large unsupported or unstiffened flat areas or other design or construction features the failure or deformation of which could cause fuel leakage shall be capable of withstanding the following test, or other equivalent test, without leakage or failure:

(1) The complete tank assembly together with its supports shall be subjected to a vibration test when mounted in a manner simulating the actual installation.

(2) The tank assembly shall be vibrated for 25 hours while filled two-thirds full of water or any suitable fluid. The amplitude of vibration shall not be less than one thirty-second of an inch, unless otherwise substantiated.

(3) The frequency of vibration shall be 90 percent of the maximum continuous rated speed of the engine unless some other frequency within the normal operating range of speeds of the engine or rotor system is more critical, in which case the latter speed shall be employed and the time of test shall be adjusted to accomplish the same number of vibration cycles.

(4) During the test, the tank assembly shall be rocked at the rate of 16 to 20 complete cycles per minute through an angle of 15° on either side of the horizontal (30° total) about the most critical axis for 25 hours. If motion about more than one axis is likely to be critical, the tank shall be rocked about each axis for 12½ hours.

§ 7.422 *Fuel tank installation.* (a) The method of support for fuel tanks shall not permit harmful concentrations of loads, resulting from the weight of the fuel in the tank, on unsupported tank surfaces. The following shall be applicable:

(1) Pads shall be provided, if necessary, to prevent chafing between the tank and its supports.

(2) Materials employed for padding shall be nonabsorbent or shall be treated to prevent the absorption of fluids.

(3) If flexible tank liners are employed they shall be so supported that the liner is not required to withstand fluid loads.

(4) Interior surfaces of tank compartments shall be smooth and free of projections which could cause wear of the liner, unless provisions are made for protection of the liner at such points or unless the construction of the liner itself provides such protection.

(b) Spaces adjacent to the surfaces of the tank shall be ventilated consistent with the size of the compartment to avoid accumulation of fuel or fumes in these spaces due to minor leakage. If the tank is in a sealed compartment, it shall be acceptable to limit the ventilation to that provided by drain holes of sufficient size and disposition to prevent clogging and to prevent excessive pressure resulting from altitude changes. If flexible tank liners ars installed, the design of the venting arrangement for the spaces between the liner and its container shall take into consideration the need for maintaining proper relationship to tank vent pressures for all expected flight conditions.

(c) Location of fuel tanks shall comply with the provisions of § 7.481 (b).

(d) No portion of rotorcraft skin which lies immediately adjacent to a major air egress opening from the engine compartment shall act as the wall of an integral tank.

(e) Fuel tanks shall be isolated from personnel compartments by means of fumeproof and fuelproof enclosures.

(f) Fuel tanks located in close proximity to personnel compartments, engines, or combustion heaters shall be so designed or protected and installed as to assure that they will retain their contents in accidents of a severity which will produce the decelerations specified in § 7.260.

§ 7.423 *Fuel tank expansion space.* Fuel tanks shall be provided with an expansion space of not less than 2 percent of the tank capacity. It shall not be possible to fill the fuel tank expansion space inadvertently when the rotorcraft is in the normal ground attitude.

§ 7.424 *Fuel tank sump.* (a) Each fuel tank shall be provided with a sump having a capacity of not less than either 0.10 percent of the tank capacity or one-sixteenth of a gallon, whichever is greater.

(b) The fuel tank sump capacity specified in paragraph (a) of this section shall be effective with the rotorcraft in all normal flight and ground attitudes, and shall be located so that the sump contents cannot be drawn out through the tank outlet opening. The fuel tank shall be constructed to permit drainage of any hazardous quantity of water from all portions of the tank to the sump when the rotorcraft is in the ground attitude.

(c) Fuel tank sumps shall be provided with an accessible and easily operable drain to permit complete drainage of the sump on the ground. The drain shall discharge clear of all portions of the rotorcraft and shall be provided with means for positive locking of the drain in the closed position, either manually or automatically.

§ 7.425 *Fuel tank filler connection.* (a) The design of fuel tank filler connections shall be such as to prevent the entrance of fuel into the fuel tank compartment or to any other portion of the rotorcraft other than the tank itself. The fuel tank filler shall be marked as prescribed in § 7.738 (b) (1).

(b) Recessed fuel tank filler connections which can retain any appreciable quantity of fuel shall incorporate a drain, and the drain shall discharge clear of all portions of the rotorcraft.

(c) The fuel tank filler cap shall provide a fuel-tight seal under the pressure expected to be encountered in normal operation.

(d) Category A: Fuel tank filler caps or filler cap covers shall incorporate features which provide a warning indication when caps are not fully locked or seated on the filler connection.

§ 7.426 *Fuel tank vents and carburetor vapor vents.* (a) Fuel tanks shall be vented from the top portion of the expansion space in such a manner that venting of the tank is effective under all normal flight conditions. The following shall be applicable:

(1) The vents shall be arranged to avoid stoppage by dirt or ice formation.

(2) The vent arrangement shall be constructed to preclude the possibility of siphoning fuel during normal operation.

(3) The venting capacity and vent pressure levels shall be appropriate for the tank installation so as to maintain acceptable differences of pressure between the interior and exterior of the tank during normal flight operation, during maximum rate of ascent and descent, and, if applicable, during refueling and defueling.

(4) Air spaces of tanks with interconnected outlets shall also be interconnected.

(5) There shall be no points in the vent line where moisture could accumulate with the rotorcraft in either the ground or the level flight attitude unless drainage is provided.

(6) Vents and drainage shall not terminate at points where the discharge of fuel from the vent outlet would constitute a fire hazard or from which fumes could enter personnel compartments.

(b) Carburetors which are provided with vapor elimination connections shall be provided with a vent line to lead vapors back to one of the fuel tanks. The vents shall comply with the following:

(1) Provisions shall be incorporated in the vent system to avoid stoppage by ice.

(2) If more than one fuel tank is provided and it is necessary to use the tanks in a definite sequence, the vapor vent return line shall lead back to the fuel tank used for take-off and landing.

§ 7.427 *Fuel tank outlet.* A fuel strainer of 8 to 16 meshes per inch shall be provided either for the fuel tank outlet or for the booster pump. Strainers shall comply with the following:

(a) The clear area of the fuel tank outlet strainer shall not be less than 5 times the area of the fuel tank outlet line.

(b) The diameter of the strainer shall not be less than the diameter of the fuel tank outlet.

(c) Finger strainers shall be accessible for inspection and cleaning.

§ 7.428 *Pressure refueling and fueling provisions below fuel level in the tank.* Fueling connections located below the fuel level in a tank shall be provided with means to prevent the escape of hazardous quantities of fuel from the tank in the event of malfunctioning of the fuel entry valve. For systems intended for pressure refueling, in addition to the normal means provided in the rotorcraft for limiting the tank content, a means shall be installed to prevent damage to the tank in case of failure of the normal means.

FUEL SYSTEM COMPONENTS

§ 7.430 *Fuel pumps*—(a) *Main pumps.* (1) If the engine fuel supply is maintained by means of pumps which are not an integral part of the fuel control system certificated as part of the engine, at least one fuel pump for each engine shall be engine-driven.

(2) All positive displacement fuel pumps shall incorporate an integral bypass unless provision is made for a continuous supply of fuel to all engines in case of failure of any one pump. Engine fuel injection pumps which are approved as an integral part of the engine need not incorporate a by-pass.

(b) *Emergency pumps.* Emergency fuel pumps shall be available for immediate use in case of failure of any other fuel pump. No manipulation of fuel valves shall be necessary on the part of the crew to make an emergency fuel pump available to the engine which it is normally intended to serve when the fuel system is being operated in the configuration complying with the provisions of § 7.411.

§ 7.431 *Fuel pump installation.* (a) Provision shall be made to maintain the fuel pressure at the inlet to the carburetor within the range of limits established for proper engine operation.

(b) When necessary for the maintenance of the proper fuel delivery pressure, a connection shall be provided to transmit the carburetor air intake static pressure to the proper fuel pump relief valve connection. In such cases, to avoid erroneous fuel pressure readings, the gauge balance lines shall be independently connected to the carburetor inlet pressure.

(c) The installation of fuel pumps having seals or diaphragms which may be susceptible to leakage shall incorporate provisions for draining away leaking fuel. Drain lines shall terminate at points where discharge of fuel will not create a fire hazard.

§ 7.432 *Fuel system lines and fittings.* (a) Fuel lines shall be installed and supported to prevent excessive vibration and to withstand loads due to fuel pressure, valve actuation, and accelerated flight conditions.

(b) Fuel lines which are connected to components of the rotorcraft between which relative motion could exist shall incorporate provisions for flexibility.

(c) Flexible connections in fuel lines which may be under pressure or subjected to axial loading shall employ flexible hose assemblies rather than hose clamp connections.

(d) Flexible hose shall be of an approved type suitable for the application.

(e) Flexible hoses which might be adversely affected by exposure to high temperatures shall not be employed in locations where excessive temperatures will exist during operation or after engine shutdown.

§ 7.433 *Fuel lines and fittings in designated fire zones.* Fuel lines and fittings in all designated fire zones (see

§ 7.480) shall comply with the provisions of § 7.483.

§ 7.434 *Fuel valves.* In addition to the requirements of § 7.482 for shutoff means, all fuel valves shall be provided with positive stops or suitable index provisions in the "on" and "off" positions, and they shall be supported so that loads resulting from their operation or from accelerated flight conditions are not transmitted to the lines attached to the valve.

§ 7.435 *Fuel strainer.* (a) A strainer incorporating a sediment trap and drain shall be provided in the fuel system between the fuel tanks and the engine and shall be installed in an accessible location.

(b) The strainer shall provide the necessary degree of protection for the fuel pumps, fuel controls, and the engine against dirt, sediment, and other foreign matter which might be present in the fuel. The screen or straining element shall be able to be easily cleaned.

(c) The strainer shall be mounted in a manner not to cause its weight to be supported by the connecting lines or by the inlet or outlet connections of the strainer itself.

§ 7.436 *Fuel system drains.* Complete drainage of the system shall be accomplished by fuel strainer drains and other drains as provided in § 7.424 with the rotorcraft in its normal ground attitude. The following shall apply:

(a) Drains shall discharge clear of all portions of the rotorcraft and shall incorporate means for positive locking of the drain in the closed position, either manually or automatically.

(b) All fuel system drains shall be accessible.

(c) If drainage of the fuel strainer permits compliance with paragraphs (a) and (b) of this section, no additional drains need be provided unless it is possible for a hazardous quantity of water or sediment to be trapped therein. (See also § 7.483 (c).)

§ 7.437 *Fuel quantity indicator.* The fuel quantity indicators (see §§ 7.604 (e) and 7.613 (b)) shall be installed to clearly indicate to the flight crew the quantity of fuel in each tank in flight. When two or more tanks are closely interconnected by a gravity feed system and vented, and it is impossible to feed from each tank separately, only one fuel quantity indicator need be installed.

§ 7.438 *Low fuel warning device.* On rotorcraft with more than one fuel tank there shall be installed in addition to the fuel quantity indicators (see § 7.604), warning devices to indicate when the fuel in any tank becomes low.

NOTE: The fuel in any tank is considered to be low when there remains approximately a five-minute usable fuel supply with the rotorcraft in the most critical sustained flight attitude.

OIL SYSTEM

§ 7.440 *General.* (a) Each engine shall be provided with an independent oil system capable of supplying the engine with an appropriate quantity of oil at a temperature not exceeding the maximum which has been established as safe for continuous operation. The oil system for components of the rotor drive system which require continuous lubrication shall be independent of the lubrication systems of the engines to whatever extent is necessary to assure the ability to operate with any engine inoperative and to assure the ability to autorotate safely. (For oil system instruments see §§ 7.604 and 7.735.)

(b) The usable oil capacity shall not be less than the product of the endurance of the rotorcraft under critical operating conditions and the maximum permissible oil consumption of the engine under the same conditions to which product a suitable margin shall be added to assure adequate circulation and cooling of the oil system. In lieu of a rational analysis of rotorcraft endurance and oil consumption, the total usable oil capacity of 1 gallon for each 40 gallons of usable fuel capacity, by volume, shall be considered acceptable for reciprocating engine installations.

(c) Oil-fuel ratios lower than those prescribed in paragraph (b) of this section shall be acceptable if substantiated by data on the actual oil consumption of the engine.

(d) The ability of the engine and rotor drive system oil cooling provisions to maintain the oil temperature at or below the maximum established value shall be demonstrated in accordance with pertinent provisions of §§ 7.450 through 7.455.

§ 7.441 *Oil tank construction.* The following requirements shall apply to the construction of the oil tank:

(a) *Oil tank expansion space.* (1) Oil tanks shall have an expansion space of not less than either 10 percent of the tank capacity or 0.5 gallon, whichever is greater.

(2) Reserve oil tanks which have no direct connection to any engine shall have an expansion space which is not less than 2 percent of the tank capacity.

(3) It shall not be possible to fill the oil tank expansion space inadvertently when the rotorcraft is in the normal ground attitude.

(b) *Oil tank filler connection.* (1) Recessed oil tank filler connections which can retain any appreciable quantity of oil shall incorporate a drain, and the drain shall discharge clear of all portions of the rotorcraft.

(2) The oil tank filler cap shall provide an oil-tight seal under the pressure expected to be encountered in operation.

(3) Category A: Oil tank filler caps or filler cap covers shall incorporate features which provide a warning indication when caps are not fully locked or seated on the filler connection.

(4) The oil filler shall be marked as prescribed in § 7.738 (b) (2).

(c) *Oil tank vent.* (1) Oil tanks shall be vented from the top portion of the expansion space in such a manner that venting of the tank is effective under all normal flight conditions.

(2) Oil tank vents shall be arranged so that condensation of water vapor which might freeze and obstruct the line cannot accumulate at any point. (See also § 7.483 (c).)

(d) *Oil tank outlet.* Provision shall be made either to prevent entrance into the tank itself or into the tank outlet of any foreign object which might obstruct the flow of oil through the system. The oil tank outlet shall not be enclosed by any screen or guard which would reduce the flow of oil below a safe value at any operating temperature condition.

(e) *Flexible oil tank liners.* Flexible oil tank liners shall be of an approved type or shall be shown to be suitable for the particular application.

§ 7.442 *Oil tank tests.* (a) Oil tanks shall be capable of withstanding without failure all vibration, inertia, and fluid loads to which they would be subjected in operation.

(b) The provisions of § 7.421 shall be applicable to oil tanks, except that the test pressure specified in § 7.421 (a) shall be 5 psi.

§ 7.443 *Oil tank installation.* The oil tank installation shall comply with the provisions of § 7.422, except that the location of an engine oil tank in a designated fire zone shall be acceptable if the tank and its supports are of fireproof construction to the extent that damage by fire to any nonfireproof parts would not result in leakage or spillage of oil.

§ 7.444 *Oil lines and fittings*—(a) *General.* The provisions of § 7.432 shall be applicable to oil lines.

(b) *Lines and fittings in designated fire zones.* Oil lines and fittings in all designated fire zones (see § 7.480) shall comply with the provisions of § 7.483.

(c) *Breather lines.* (1) Breather lines shall be arranged so that condensation of water vapor which might freeze and obstruct the line cannot accumulate at any point.

(2) Breathers shall discharge in a location which will not constitute a fire hazard in case foaming occurs and in a manner so that the emitted oil will not impinge upon the pilots' windshield.

(3) The breather shall not discharge into the engine air induction system. (See also § 7.483 (c).)

§ 7.445 *Oil valves.* (a) The requirements of § 7.482 for shutoff means shall be complied with. Closing of oil shutoff means shall not prevent autorotation of the rotors.

(b) All oil valves shall be provided with positive stops or suitable index provisions in the "on" and "off" positions, and they shall be supported so that loads resulting from their operation or from accelerated flight conditions are not transmitted to the lines attached to the valves.

§ 7.446 *Oil radiators.* (a) Oil radiators shall be capable of withstanding without failure all vibration, inertia, and oil pressure loads to which they would be subjected in operation.

(b) Oil radiator air ducts shall be located or so equipped that, in case of fire, flames cannot impinge directly upon the radiator with the air flow as it would exist either with the engine operating or inoperative.

§ 7.447 *Oil filters.* If the rotorcraft is equipped with an oil filter, the filter shall be constructed or installed in such a manner that complete blocking of the flow through the filter element will not prevent the safe operation of the engine or rotor drive oil supply systems.

§ 7.448 *Oil system drains.* Accessible drains shall be provided to permit safe drainage of the entire oil system and shall incorporate means for the positive locking of the drain in the closed position, either manually or automatically. (See also § 7.483 (c).)

COOLING SYSTEM

§ 7.450 *General.* The powerplant cooling provisions shall be capable of maintaining the temperatures of all powerplant components, engine fluids, and the carburetor intake air within safe values under all conditions of ground and flight operation. Cooling provisions shall also be provided to maintain the fluids in any power transmission within safe values under conditions of ground and flight operations. (For cooling system instruments see §§ 7.604 and 7.734.)

§ 7.451 *Cooling tests*—(a) *General.* Compliance with the provisions of § 7.450 shall be demonstrated by flight tests in which the temperatures of selected powerplant components, engine(s), and transmission fluids are obtained under critical ground, water, and flight operating conditions. If the tests are conducted under conditions which deviate from the maximum anticipated air temperature (see paragraph (b) of this section), the recorded powerplant temperatures shall be corrected in accordance with the provisions of paragraphs (c) and (d) of this section. The corrected temperatures determined in this manner shall not exceed the maximum established safe values. The fuel used during the cooling tests shall be of the minimum octane number approved for the engine(s) involved, and the mixture settings shall be those used in normal operation. The test procedures shall be as outlined in §§ 7.452 through 7.455.

(b) *Maximum anticipated air temperature.* The maximum anticipated air temperature (hot-day condition) shall be 100° F. at sea level, decreasing from this value at the rate of 3.6° F. per thousand feet of altitude above sea level until a temperature of −67° F. is reached above which altitude the temperature shall be constant at −67° F.

(c) *Correction factor for cylinder head, oil inlet, carburetor air, and engine and transmission coolant outlet temperatures.* The cylinder head, oil inlet, carburetor air, and engine coolant outlet temperatures shall be corrected by adding the difference between the maximum anticipated air temperature and the temperature of the ambient air at the time of the first occurrence of maximum head, oil, air, or coolant temperature recorded during the cooling test, unless a more rational correction is shown to be applicable.

(d) *Correction factor for cylinder barrel temperatures.* Cylinder barrel temperatures shall be corrected by adding 0.7 of the difference between the maximum anticipated air temperature and the temperature of the ambient air at the time of the first occurrence of the maximum cylinder barrel temperature recorded during the cooling test, unless a more rational correction is shown to be applicable.

§ 7.452 *Climb cooling test procedure.* Climb cooling tests shall be conducted on all Category A rotorcraft in accordance with paragraphs (a) through (d) of this section. Such tests shall be conducted on all multiengine Category B rotorcraft that are certificated in accordance with the Transport Category A powerplant installation requirements as well as with § 7.384 (a) at the steady rate of climb or descent established in accordance with § 7.115 (b) (2).

(a) The climb or descent cooling test shall be conducted with the engine inoperative which produces the most adverse cooling conditions for the engine(s) and powerplant components remaining in operation.

(b) All remaining engine(s) shall be operated at their maximum continuous power or at full throttle when above the critical altitude.

(c) After stabilizing temperatures in flight, the climb shall be started at or below the lower of the altitudes specified in subparagraphs (1) and (2) of this paragraph and shall be continued until at least 5 minutes after the occurrence of the highest temperature recorded, or until the maximum altitude is reached for which certification is desired. For Category B rotorcraft which do not have a positive rate of climb, the descent shall start at the all-engine-critical altitude and terminate at the higher of the altitudes specified in subparagraphs (3) and (4) of this paragraph:

(1) 1,000 feet below the engine critical altitude,

(2) 1,000 feet below the maximum altitude at which the rate of climb is equal to 150 fpm,

(3) The altitude at which level flight can be maintained with one engine operative, or

(4) Sea level.

(d) The climb or descent shall be conducted at an air speed selected to represent a normal operational practice for the configuration being tested. However, if it is determined that characteristics of the cooling provisions make them sensitive to rotorcraft speed, the most critical air speed shall be used, but need not exceed the speeds established in accordance with § 7.115 (a) (2) or (b) (2). It shall be acceptable to conduct the climb cooling test in conjunction with the take-off cooling test of § 7.453.

§ 7.453 *Category A; take-off cooling test procedure.* A take-off cooling test shall be conducted to demonstrate cooling during take-off and during subsequent climb with one engine inoperative. The following procedure shall be applicable:

(a) The take-off cooling test shall be commenced by stabilizing temperatures while hovering in ground effect with all engines operating at necessary power, with the appropriate cowl flap and shutter settings, and at the maximum weight for which certification is sought.

(b) After all temperatures have stabilized, the climb shall be started at the lowest practicable altitude and shall be conducted with one engine inoperative.

(c) The remaining engines shall be operated at take-off rpm and power (or at full throttle when above the take-off critical altitude) for the same time interval as take-off power is used during determination of the take-off flight path (see § 7.114 (a)).

(d) At the end of the time interval prescribed in paragraph (c) of this section the power shall be reduced to the maximum continuous power and the climb continued until at least 5 minutes after the occurrence of the highest temperature recorded.

(e) The speeds shall be those used during determination of the take-off flight path (see § 7.114 (a)).

§ 7.454 *Category B; cooling test procedure.* Cooling tests shall be conducted on all Category B rotorcraft in accordance with paragraphs (a) through (e) of this section (see § 7.452 for climb cooling tests where applicable).

(a) The cooling test shall be commenced by stabilizing temperatures while hovering in ground effect with necessary power and appropriate cowl flaps and shutter settings and at the maximum weight for which certification is sought.

(b) After all temperatures have stabilized, the climb shall be started at the lowest practicable altitude with take-off power.

(c) Take-off power shall be used for the same time interval as take-off power is used during determination of the take-off flight path (see § 7.114 (b)).

(d) At the end of the time interval prescribed in paragraph (c) of this section the power shall be reduced to the maximum continuous power and the climb continued until at least 5 minutes after the occurrence of the highest temperature recorded.

(e) The cooling test shall be conducted at an air speed corresponding to normal operational practice for the configuration being tested. However, if it is determined that characteristics of the cooling provisions make them sensitive to rotorcraft speed, the most critical air speed shall be used, but need not exceed the best rate-of-climb speed with maximum continuous power.

§ 7.455 *Hovering cooling test procedures.* Hovering cooling tests shall be conducted as follows:

(a) At maximum certificated weight or at the highest weight at which the rotorcraft is capable of hovering, if less than maximum certificated weight, at sea level using the power required to hover but not exceeding maximum continuous power, in the ground effect with still wind until at least 5 minutes after the occurrence of the highest temperature recorded.

(b) With all engines operating at maximum continuous power, the rotorcraft at maximum certificated weight, and the altitude resulting in zero rate of climb for this configuration until at lease five minutes after the occurrence of the highest temperature recorded.

INDUCTION AND EXHAUST SYSTEMS

§ 7.460 *General.* (a) The engine air induction system shall permit supplying the proper quantity of air to the engine under all conditions of operation.

(b) The induction system shall provide air for proper fuel metering and mixture distribution with the induction system valves in any position.

(c) Air intakes shall not open either within the engine accessory section or other areas of the powerplant compartment where emergence of backfire flame would constitute a fire hazard.

(d) Each engine shall be provided with an alternate air source.

(e) Alternate air intakes shall be so located as to preclude the entrance of rain, ice, or any other foreign matter.

§ 7.461 *Induction system de-icing and anti-icing provisions*—(a) *General.* The engine air induction system shall incorporate means for the prevention and elimination of ice accumulations.

(b) *Heat rise.* Unless it is demonstrated that other means will accomplish the intent of paragraph (a) of this section, compliance with the following heat-rise provisions shall be demonstrated in air free of visible moisture at a temperature of 30° F.:

(1) Rotorcraft equipped with sea level engines employing conventional venturi carburetors shall have a preheater capable of providing a heat rise of 90° F. when the engines are operating at 60 percent of their maximum continuous power.

(2) Rotorcraft equipped with sea level engines employing carburetors which embody features tending to reduce the possibility of ice formation shall have a preheater capable of providing a heat rise of 70° F. when the engines are operating at 60 percent of their maximum continuous power.

(3) Rotorcraft equipped with altitude engines employing conventional venturi carburetors shall have a preheater capable of providing a heat rise of 120° F. when the engines are operating at 60 percent of their maximum continuous power.

(4) Rotorcraft equipped with altitude engines employing carburetors which embody features tending to reduce the possibility of ice formation shall have a preheater capable of providing a heat rise of 100° F. when the engines are operating at 60 percent of their maximum continuous power.

§ 7.462 *Carburetor air preheater design.* Carburetor air preheater shall incorporate the following provisions:

(a) Means shall be provided to assure ventilation of the preheater when the engine is being operated with cold air.

(b) The preheater shall be constructed to permit inspection of exhaust manifold parts which it surrounds and also to permit inspection of critical portions of the preheater itself.

§ 7.463 *Induction system ducts.* Induction system ducts shall incorporate the following provisions:

(a) Induction system ducts ahead of the first stage of the supercharger shall be provided with drains to prevent hazardous accumulations of fuel and moisture in the ground attitude. The drains shall not discharge in locations which might cause a fire hazard.

(b) Sufficient strength shall be incorporated in the ducts to prevent induction system failures resulting from normal backfire conditions.

(c) Ducts which are connected to components of the rotorcraft between which relative motion could exist shall incorporate provisions for flexibility.

(d) Induction system ducts within any fire zone for which a fire-extinguishing system is required shall be of fire-resistant construction.

NOTE: Fireproof ducts are required in instances in which the duct may pass through a fire wall.

§ 7.464 *Induction system screens.* If induction system screens are employed, they shall comply with the following provisions:

(a) Screens shall be located upstream from the carburetor.

(b) Screens shall not be located in portions of the induction system which constitute the only passage through which air can reach the engine, unless the screen is so located that it can be deiced by heated air.

(c) De-icing of induction system screens by means of alcohol alone in lieu of heated air shall not be acceptable.

(d) It shall not be possible for fuel to impinge upon the screens.

§ 7.465 *Carburetor air cooling.* Installations employing two-stage superchargers shall be provided with means to maintain the air temperature at the inlet to the carburetor at or below the maximum established value. Demonstration of compliance with this provision shall be accomplished in accordance with § 7.451.

§ 7.466 *Inter-coolers and after-coolers.* Inter-coolers and after-coolers shall be capable of withstanding without failure all vibration, inertia, and air pressure loads to which they would be subjected in operation.

§ 7.467 *Exhaust system and installation components*—(a) *General.* (1) The exhaust system shall be constructed and arranged to assure the safe disposal of exhaust gases without the existence of a fire hazard or carbon monoxide contamination of air in personnel compartments.

(2) Unless appropriate precautions are taken, exhaust system parts shall not be located in hazardous proximity to portions of any system carrying flammable fluids or vapors nor shall they be located under portions of such systems where the latter could be subject to leakage.

(3) All rotorcraft components upon which hot exhaust gases might impinge, or which could be subjected to high temperatures due to proximity to exhaust system parts, shall be constructed of fireproof material. All exhaust system components shall be separated by means of fireproof shields from adjacent portions of the rotorcraft which are outside the engine compartment.

(4) Exhaust gases shall not discharge in a manner to cause a fire hazard with respect to any flammable fluid vent or drain.

(5) Exhaust gases shall not discharge at a location which will cause a glare seriously affecting pilot visibility at night.

(6) All exhaust system components shall be ventilated to prevent the existence of points of excessively high temperature.

(7) Exhaust shrouds shall be ventilated or insulated to avoid during normal operation a temperature sufficiently high to ignite any flammable fluids or vapors external to the shrouds.

(b) *Exhaust piping.* (1) Exhaust piping shall be constructed of material resistant to heat and corrosion, and shall incorporate provisions to prevent failure due to expansion when heated to operating temperatures.

(2) Exhaust pipes shall be supported to withstand all vibration and inertia loads to which they would be subjected in operation.

(3) Portions of the exhaust piping which are connected to components between which relative motion could exist shall incorporate provisions for flexibility.

(c) *Exhaust heat exchangers.* (1) Exhaust heat exchangers shall be constructed and installed to assure their ability to withstand without failure all vibration, inertia, and other loads to which they would be subjected in operation.

(2) Exhaust heat exchangers shall be constructed of materials which are suitable for continued operation at high temperatures and which are resistant to corrosion due to elements contained in exhaust gases.

(3) Provision shall be made for the inspection of all critical portions of exhaust heat exchangers.

(4) Exhaust heat exchangers shall incorporate cooling provisions wherever they are subject to contact with exhaust gases.

(5) Exhaust heat exchangers or muffs shall incorporate no stagnant areas or liquid traps which would increase the possibility of ignition of flammable fluids or vapors which might be present in case of failure or malfunctioning of components carrying flammable fluids.

(d) *Exhaust heating of ventilating air.* If an exhaust heat exchanger is used for heating ventilating air used by personnel, a secondary heat exchanger shall be provided between the primary exhaust gas heat exchanger and the ventilating air system, unless it is demonstrated that other means used preclude harmful contamination of the ventilating air.

### POWERPLANT CONTROLS AND ACCESSORIES

§ 7.470 *Powerplant controls; general.* The provisions of § 7.353 shall be applicable to all powerplant controls with respect to location and arrangement, and the provisions of § 7.737 shall be applicable to all powerplant controls with respect to marking. All flexible powerplant controls shall be of an approved type. In addition, all powerplant controls shall comply with the following:

(a) Controls shall be so located that they cannot be inadvertently operated by personnel entering, leaving, or making normal movements in the cockpit.

(b) Controls shall maintain any set position without constant attention by flight personnel. They shall not creep due to control loads or vibration.

(c) Controls shall have strength and rigidity to withstand operating loads without failure and without excessive deflection.

§ 7.471 *Throttle and A. D. I. system controls.* (a) A separate throttle control shall be provided for each engine. Throttle controls shall be grouped and arranged to permit separate control of each engine and also simultaneous control of all engines in such a manner that proper synchronization of the power of all engines can be readily achieved.

(b) Throttle controls shall afford a positive and immediately responsive means of controlling the engines.

(c) If an antidetonant injection system is provided, the control shall be incorporated in the throttle controls, except that a separate control may be provided for the antidetonant injection pump.

§ 7.472 *Ignition switches.* Ignition switches shall provide control for each ignition circuit on each engine. Means shall be provided for quickly shutting off all ignition by the grouping of switches or by providing a master ignition control. If a master ignition control is provided, a guard shall be incorporated to prevent inadvertent operation of the control.

§ 7.473 *Mixture controls.* (a) If mixture controls are provided, a separate control shall be provided for each engine. The mixture controls shall be grouped and arranged to permit separate control of each engine and also simultaneous control of all engines.

(b) Any intermediate position of the mixture controls which corresponds with a normal operating setting shall be provided with a means of identification by feel and by vision.

§ 7.474 *Carburetor air preheat controls.* Separate carburetor air preheat controls shall be provided to regulate the temperature of the carburetor air for each engine.

§ 7.475 *Supercharger controls.* Supercharger controls shall be accessible to the pilots, except where a separate flight engineer station with a control panel is provided, in which case they shall be accessible to the flight engineer.

§ 7.476 *Rotor brake controls.* It shall be physically impossible to apply inadvertently the rotor brake in flight. A means shall be provided to warn the crew if the rotor brake has not been completely released prior to take-off.

§ 7.477 *Powerplant accessories.* (a) Engine mounted accessories shall be of a type approved for installation on the engine involved, and shall utilize the provisions made on the engine for mounting.

(b) Items of electrical equipment subject to arcing or sparking shall be installed in such a way as to minimize the possibility of their igniting flammable fluids or vapors which might be present.

(c) If continued rotation of an engine-driven cabin supercharger or any remote accessory driven by the engine will constitute a hazard in case malfunctioning occurs, means shall be provided to prevent hazardous rotation of such accessory without interfering with the continued operation of the engine. (See also § 7.358 (c).)

NOTE: Hazardous rotation may involve consideration of mechanical damage or sustained air flows which may be dangerous under certain conditions.

§ 7.478 *Engine ignition systems.* (a) Battery ignition systems shall be supplemented with a generator which is automatically made available as an alternate source of electrical energy to permit continued engine operation in the event of the depletion of any battery.

(b) The capacity of batteries and generators shall be sufficient to meet the simultaneous demands of the engine ignition system and the greatest demands of any rotorcraft electrical system components which draw electrical energy from the same source.

(1) The design of the engine ignition system shall take into consideration the condition of an inoperative generator and the condition of a completely depleted battery when the generator is running at its normal operating speed.

(2) If only one battery is provided, the design of the engine ignition system shall take into consideration the condition in which the battery is completely depleted and the generator is operating at idling speed.

(3) Portions of magneto ground wires for separate ignition circuits which lie on the engine side of the fire wall shall be installed, located, or protected so as to minimize the possibility of simultaneous failure of two or more wires as a result of mechanical damage, electrical faults, etc.

(4) Ground wires for any engine shall not be routed through fire zones, except those associated with the engine which the wires serve, unless those portions of the wires which are located in such fire zones are fireproof or are protected against the possibility of damage by fire in a manner to render them fireproof. (See § 7.472 for ignition switches.)

(5) Ignition circuits shall be electrically independent of all other electrical circuits except circuits used for analyzing the operation of the ignition system.

(c) Means shall be provided to warn flight personnel if malfunctioning of any part of the electrical system is causing the continuous discharging of a battery which is necessary for engine ignition. (See § 7.472 for ignition switches.)

### POWERPLANT FIRE PROTECTION

§ 7.480 *Designated fire zones.* (a) Designated fire zones shall comprise the following regions: (See also § 7.385.)

(1) Engine power section,

(2) Engine accessory section,

(3) Complete powerplant compartments in which no isolation is provided between the engine power section and the engine accessory section,

(4) Auxiliary power unit compartments, and

(5) Fuel-burning heaters and other combustion equipment installations as defined by § 7.383.

(b) Designated fire zones shall be protected from fire by compliance with §§ 7.481 through 7.489.

NOTE: For Category B rotorcraft, the powerplant fire protection provisions are intended to insure that the main and auxiliary rotors and controls remain operable, that the essential rotorcraft structure remains intact, and that the passengers and crew are otherwise protected for a period of at least 5 minutes after the start of an engine fire to permit a controlled autorotative landing.

§ 7.481 *Flammable fluids.* (a) No tanks or reservoirs which are a part of a system containing flammable fluids or gases shall be located in designated fire zones, except where the fluid contained, the design of the system, the materials used in the tank and its supports, the shutoff means, all connections, lines, and controls are such as to provide an equally high degree of safety.

(b) Fuel tanks shall be isolated from the engines by a fire wall or shroud. Not less than one-half inch of clear airspace shall be provided between any tank or reservoir and a fire wall or shroud isolating a designated fire zone, unless other equivalent means are used to protect against heat transfer from the fire zone to the flammable fluid.

(c) If absorbent materials are located in proximity to flammable fluid system components which might be subject to leakage, such materials shall be covered or treated to prevent the absorption of hazardous quantities of fluids.

§ 7.482 *Shutoff means.* (a) Means shall be provided for shutting off or otherwise preventing hazardous quantities of fuel, oil, de-icer, and other flammable fluids from flowing into, within, or through any designated fire zone specified in § 7.480 (a), except that means need not be provided to shut off flow in lines forming an integral part of an engine. Closing any fuel shutoff valve for any engine shall not affect more than the selected engine.

(1) *Category A.* It shall be shown that no hazardous quantity of flammable fluid could drain into any designated fire zone after shutting off has been accomplished. Closing the fuel shutoff valve for any engine shall not make any of the fuel supply unavailable to the remaining engines.

(2) *Category B.* In installations using engines of less than 500 cubic inches displacement, shutoff means need not be provided for engine oil systems.

(b) Operation of the shutoff means shall not interfere with the subsequent emergency operation of other equipment, such as declutching the engine from the rotor drive.

(c) The shutoff means shall be located outside of designated fire zones, unless an equally high degree of safety is otherwise provided (see § 7.481).

(d) Provision shall be made to guard against inadvertent operation of the shutoff means, and to make it possible for the crew to reopen the shutoff means in flight after it has once been closed.

§ 7.483 *Lines and fittings.* All lines and fittings carrying flammable fluids or gases in areas subject to engine fire conditions shall comply with the provisions of paragraphs (a) through (c) of this section.

(a) Lines and fittings which are under pressure, or which attach directly to the engine, or which are subject to relative motion between components shall be

flexible, fire-resistant lines with fire-resistant end fittings of the permanently attached, detachable, or other approved types. The provisions of this paragraph shall not apply to those lines and fittings which form an integral part of the engine.

(b) Lines and fittings which are not subject to pressure or to relative motion between components shall be of fire-resistant materials.

(c) Vent and drain lines and fittings shall be subject to the provisions of paragraphs (a) and (b) of this section unless a failure of such line or fitting will not result in, or add to, a fire hazard.

§ 7.484 *Fire-extinguishing systems*—(a) *General.* (1) Fire-extinguishing systems shall be provided to serve all designated fire zones except that such systems need not be provided on Category B rotorcraft employing engines of 1,500 cubic inches or less displacement.

(2) On multiengine rotorcraft, the fire-extinguishing system, the quantity of extinguishing agent, and the rate of discharge shall be such as to provide two adequate discharges. It shall be possible to direct both discharges to any main engine installation. Individual "one-shot" systems shall be acceptable in the case of auxiliary power units, fuel-burning heaters, and other combustion equipment. On single-engine rotorcraft, the quantity of extinguishing agent and the rate of discharge shall be such as to provide one adequate discharge for the engine compartment.

(3) The fire-extinguishing system for a powerplant shall be capable of protecting simultaneously all zones of the powerplant compartment for which protection is provided.

(b) *Fire-extinguishing agents.* (1) Extinguishing agents employed shall be methyl bromide, carbon dioxide, or any other agent which has been shown to provide equivalent extinguishing action.

(2) If methyl bromide, carbon dioxide, or any other toxic extinguishing agent is employed, provision shall be made to prevent the entrance of harmful concentrations of fluid or fluid vapors into any personnel compartment either due to leakage during normal operation of the rotorcraft or as a result of discharging the fire extinguisher on the ground or in flight even though a defect may exist in the extinguishing system. Compliance with this requirement shall be demonstrated by appropriate tests.

(3) If a methyl bromide system is provided, the containers shall be charged with a dry agent and shall be sealed by the fire extinguisher manufacturer or by any other party employing appropriate recharging equipment.

(c) *Extinguishing agent container pressure relief.* Extinguishing agent containers shall be provided with a pressure relief to prevent bursting of the container due to excessive internal pressures. The following provisions shall apply:

(1) The discharge line from the relief connection shall terminate outside the rotorcraft in a location convenient for inspection on the ground.

(2) An indicator shall be provided at the discharge end of the line to provide a visual indication when the container has discharged.

(d) *Extinguishing agent container compartment temperature.* Under all conditions in which the rotorcraft is intended for operation, the temperature range of the extinguishing agent containers shall be maintained to assure that the pressure in the containers can neither fall below the minimum necessary to provide an adequate rate of extinguishing agent discharge nor rise above a safe limit so that the system will not be prematurely discharged.

(e) *Fire-extinguishing system materials.* Materials in the fire-extinguishing system shall not react chemically with the extinguishing agent so as to constitute a hazard. All components of the fire-extinguishing systems located in engine compartments shall be constructed of fireproof materials.

§ 7.485 *Fire-detector systems.* Quick-acting fire detectors of an approved type shall be provided in all designated fire zones, except on Category B rotorcraft employing engines of 900 cubic inches or less displacement. The fire detectors shall be sufficient in number and location to assure prompt detection of fire in such zones. Fire detectors shall comply with the following provisions:

(a) Fire detectors shall be constructed and installed to assure their ability to resist without failure all vibration, inertia, and other loads to which they would be subjected in operation.

(b) Fire detectors shall be unaffected by exposure to oil, water, or other fluids or fumes which might be present.

(c) Means shall be provided to permit the crew to check in flight the functioning of the electrical circuit associated with the fire-detector system.

(d) Wiring and other components of the fire-detector systems which are located in engine compartments shall be of fire-resistant construction.

(e) Detector system components for any fire zone shall not pass through other fire zones, unless they are protected against the possibility of false warnings resulting from fires in zones through which they pass. This requirement shall not be applicable with respect to zones which are simultaneously protected by the same detector and extinguishing systems.

§ 7.486 *Fire walls.* Engines shall be isolated from personnel compartments by means of fire walls, shrouds, or other equivalent means. They shall be similarly isolated from the structure, controls, rotor mechanism, and other parts essential to controlled flight and landing of the rotorcraft, unless such parts are protected in accordance with the provisions of § 7.384. All auxiliary power units, fuel-burning heaters, and other combustion equipment which are intended for operation in flight shall be isolated from the remainder of the rotorcraft by means of fire walls, shrouds, or other equivalent means. In complying with the provisions of this section, account shall be taken of the probable path of a fire as affected by the air flow in normal flight and in autorotation. The following shall apply:

(a) Fire walls and shrouds shall be constructed in such a manner that no hazardous quantity of air, fluids, or flame can pass from the engine compartment to other portions of the rotorcraft.

(b) All openings in the fire wall or shroud shall be sealed with close-fitting fireproof grommets, bushings, or fire-wall fittings.

(c) Fire walls and shrouds shall be constructed of fireproof material and shall be protected against corrosion.

§ 7.487 *Cowling.* (a) Cowling or engine compartment covering shall be constructed and supported so as to make it capable of resisting all vibration, inertia, and air loads to which it would be subjected in operation.

(b) Cowling shall have drainage and ventilation provisions as prescribed in § 7.489.

(c) On rotorcraft equipped with a diaphragm complying with § 7.488, the parts of the accessory section cowling which might be subject to flame in the event of a fire in the engine power section of the powerplant shall be constructed of fireproof material and shall comply with the provisions of § 7.486.

(d) Those portions of the cowling or engine compartment covering which would be subjected to high temperatures due to their proximity to exhaust system parts or exhaust gas impingement shall be constructed of fireproof material.

(e) Category A: The rotorcraft shall be so designed and constructed that fire originating in any fire zone cannot enter, either through openings or by burning through external skin, into any other zone or region where such fire would create additional hazards. If the rotorcraft is provided with a retractable landing gear, this provision shall apply with the landing gear retracted. Fireproof materials shall be used for all skin areas which might be subjected to flame in the event of a fire originating in the engine power or accessory sections.

§ 7.488 *Category A; engine accessory section diaphragm.* Unless equivalent protection can be shown by other means, a diaphragm shall be provided on air-cooled engines to isolate the engine power section and all portions of the exhaust system from the engine accessory compartment. This diaphragm shall comply with the provisions of § 7.486.

§ 7.489 *Drainage and ventilation of fire zones.* (a) Complete drainage of all portions of designated fire zones shall be provided to minimize the hazards resulting from failure or malfunctioning of components containing flammable fluids. The drainage provisions shall be effective under conditions expected to prevail when drainage is needed and shall be so arranged that the discharged fluid will not cause an additional fire hazard.

(b) All designated fire zones shall be ventilated to prevent the accumulation of flammable vapors. Ventilation openings shall not be placed in locations which would permit the entrance of flammable fluids, vapors, or flame from other zones. The ventilation provisions shall be so arranged that the discharged vapors will not cause an additional fire hazard.

(c) Category A: Except with respect to the engine power section of the powerplant compartment, provision shall be made to permit the crew to shut off sources of forced ventilation in any fire zone, unless the amount of extinguishing agent and rate of discharge are based on maximum air flow through the zone.

## SUBPART F—EQUIPMENT

### GENERAL

§ 7.600 *Scope.* The required basic equipment as prescribed in this subpart is the minimum which shall be installed in the rotorcraft for certification. Such additional equipment as is necessary for a specific type of operation is prescribed in the operating rules of the regulations in this subchapter.

§ 7.601 *Functional and installational requirements.* Each item of equipment installed in a rotorcraft shall be:

(a) Of a type and design appropriate to perform its intended function;

(b) Labeled as to its identification, function, or operational limitations, or any combination of these, whichever is applicable;

(c) Installed in accordance with specified limitations of the equipment; and

(d) Demonstrated to function properly in the rotorcraft.

§ 7.602 *Required basic equipment.* The equipment listed in §§ 7.603 through 7.605 shall be the required basic equipment. (See § 7.600.)

§ 7.603 *Flight and navigational instruments.* (See § 7.612 for installation requirements.)

(a) Air-speed indicating system.
(b) Altimeter (sensitive).
(c) Clock (sweep-second).
(d) Free-air temperature indicator.
(e) Gyroscopic bank and pitch indicator (non-tumbling type).
(f) Gyroscopic rate-of-turn indicator (with bank indicator).
(g) Gyroscopic direction indicator.
(h) Magnetic direction indicator.
(i) Rate-of-climb indicator (vertical speed).

§ 7.604 *Powerplant instruments.* (See § 7.613 for installation requirements.)

(a) Carburetor air temperature indicator for each engine.

(b) Cylinder head temperature indicator for each air-cooled engine, or coolant temperature indicator for each liquid-cooled engine.

(c) Category A: An individual fuel pressure indicator for each engine and either an independent warning device for each engine or a master warning device for all engines with means for isolating the individual warning circuit from the master warning device.

(d) Category B: An individual fuel pressure indicator for each engine.

(e) Fuel quantity indicator for each fuel tank. (See § 7.437.)

(f) Low fuel warning device for each tank if a multi-tank system is employed. (See § 7.416.)

(g) Manifold pressure indicator for each engine, if altitude engines are used.

(h) Category A: An individual oil pressure indicator for each engine and either an independent warning device for each engine or a master warning device for all engines with means for isolating the individual warning circuit from the master warning device.

(i) Category B: An individual oil pressure indicator for each engine.

(j) Oil pressure warning device for each pressure-lubricated gear box to indicate when the oil pressure falls below a safe value.

(k) Oil quantity indicator for each oil tank and each rotor drive gear box, if lubricant is self-contained. (See § 7.613 (d).)

(l) Oil temperature indicator for each engine.

(m) Oil temperature warning device to indicate when the oil temperature in any rotor drive gear box exceeds a safe value.

(n) Tachometer for each engine. (These tachometers may be combined in a single instrument with that required by paragraph (o) of this section, except that such an instrument shall indicate rotor rpm during autorotation.)

(o) Tachometer(s) to indicate rotor rpm of the main rotor(s), or for each main rotor, the speed of which can vary appreciably with respect to another main rotor.

(p) Category A: Fire warning indicators. (See § 7.485.)

(q) Category B: Fire warning indicators when fire detection is required. (See § 7.485.)

§ 7.605 *Miscellaneous equipment.* There shall be installed:

(a) Approved seats for all occupants. (See § 7.355.)

(b) Approved individual safety belts for all occupants. (See § 7.643.)

(c) Master switch arrangement for electrical circuits other than ignition. (See § 7.622 (c).)

(d) Source(s) of electrical energy. (See § 7.620.)

(e) Electrical protective devices. (See § 7.624.)

(f) Hand fire extinguishers. (See §§ 7.380 (a) and 7.381 (e) and (f).)

(g) Windshield wiper or equivalent for each pilot station. (See § 7.351 (b).)

(h) Radio communication system (two-way).

(i) Ignition switch for each and all engines. (See § 7.472.)

§ 7.606 *Equipment, systems, and installations*—(a) *Functioning and reliability.* All equipment, systems, and installations, the functioning of which is necessary in showing compliance with the regulations in this subchapter, shall be designed and installed to insure that they will perform their intended functions reliably under all reasonably foreseeable operating conditions.

(b) *Hazards.* All equipment, systems, and installations shall be designed to safeguard against hazards to the rotorcraft in the event of their malfunctioning or failure.

(c) *Category A; power supply.* Where an installation, the functioning of which is necessary in showing compliance with the regulations in this subchapter, requires a power supply, such installation shall be considered an essential load on the power supply, and the power sources and the system shall be capable of supplying the following power loads in probable operating combinations and for probable durations:

(1) All loads connected to the system with the system functioning normally.

(2) All essential loads after failure of any one prime mover, power converter, or energy storage device.

(3) All essential loads after failure of any one engine on two- or three-engine rotorcraft, or after failure of any two engines on rotorcraft with four or more engines.

(4) In determining the probable operating combinations and durations of essential loads for the partial power failure conditions prescribed in subparagraphs (2) and (3) of this paragraph, it shall be permissible to assume that the power loads are reduced in accordance with a monitoring procedure which is consistent with safety in the types of operations authorized. If a particular load is not required to maintain controlled flight, it need not be considered for the two-engine-inoperative condition on rotorcraft with four or more engines as prescribed in subparagraph (3) of this paragraph.

### INSTRUMENTS; INSTALLATION

§ 7.610 *General.* The provisions of §§ 7.611 through 7.613 shall apply to the installation of instruments in rotorcraft.

NOTE. It may be necessary to duplicate certain instruments at two or more crew stations to meet the instrument visibility requirements prescribed in § 7.611, or when required by the operating rules of the regulations in this subchapter for reliability or cross check purposes in particular types of operations. In this case independent operating systems are required in accordance with the provisions of § 7.612 (f).

§ 7.611 *Arrangement and visibility of instrument installations.* (a) Flight, navigation, and powerplant instruments for use by each pilot shall be plainly visible to him from his station with the minimum practicable deviation from his normal position and line of vision when he is looking out and forward along the flight path.

(b) The required instruments consisting of the air-speed indicator, gyroscopic direction indicator, gyroscopic bank and pitch indicator, gyroscopic turn and bank indicator, altimeter, rate-of-climb indicator, rotor tachometer(s), and manifold pressure indicator, shall be grouped and shall be centered as nearly as practicable about the vertical plane of the pilot's forward vision. Additional instruments considered of prime importance to the safe operation of the rotorcraft shall be included in the grouping.

(c) All other required powerplant instruments shall be closely grouped on the instrument panel.

(d) Identical powerplant instruments for the several engines shall be located to prevent any misleading impression as to the engines to which they relate.

(e) Powerplant instruments vital to the safe operation of the rotorcraft shall be plainly visible to the appropriate crew members.

(f) The vibration characteristics of the instrument panel shall be such as not to impair seriously the accuracy of the instruments or to damage them.

§ 7.612 *Flight and navigational instruments*—(a) *Air-speed indicating systems.* (1) Air-speed indicating instruments shall be calibrated to indicate true air speed at sea level in the standard atmosphere with a minimum practicable instrument calibration error when the corresponding pitot and static pressures are applied to the instrument.

(2) The air-speed indicating system shall be calibrated to determine the system error; i. e., the relation between IAS and CAS. This calibration shall be determined over an appropriate range of speeds:

(i) In flight for the flight conditions of climb, level flight, an autorotation; and,

(ii) In ground effect during the accelerated take-off run.

(3) The air-speed error of the installation, including the air-speed indicator instrument calibration error, shall not exceed 3 percent or 5 mph, whichever is greater:

(i) Throughout the speed range in level flight at forward speeds of 10 mph or over, and

(ii) Through the speed range in climb of 10 mph below the take-off climb-out safety speed (see § 7.114 (a)) to 10 mph above the best rate-of-climb speed.

(4) The air-speed indicating system shall be arranged insofar as practicable to preclude malfunctioning or serious error due to the entry of moisture, dirt, or other substances.

(5) The air-speed indicating system shall be provided with a heated pitot tube or equivalent means of preventing malfunctioning due to icing.

(b) *Static air vent and pressure altimeter systems.* (1) All instruments provided with static air case connections shall be vented to the outside atmosphere through an appropriate piping system.

(2) The vent(s) shall be so located on the rotorcraft that its orifices will be least affected by air flow variation, moisture, or other foreign matter.

(3) The installation shall be such that the system will be airtight, except for the vent into the atmosphere.

(4) Pressure altimeters shall be of an approved type and shall be calibrated to indicate pressure altitude in standard atmosphere with a minimum practicable instrument calibration error when the corresponding static pressures are applied to the instrument.

(5) The design and installation of the altimeter system shall be such that the error in indicated pressure altitude at sea level in standard atmosphere, excluding instrument calibration error, does not result in a reading more than 30 feet high nor more than 30 feet low in the level flight speed range 0 mph to 0.9 $V_H$.

(c) *Magnetic direction indicator.* (1) The magnetic direction indicator shall be installed so that its accuracy will not be excessively affected by the rotorcraft's vibration or magnetic fields of a permanent or transient nature.

(2) After the magnetic direction indicator has been compensated, the calibration shall be such that the deviation in level flight does not exceed ±10° on any heading.

(3) A calibration placard shall be provided as specified in § 7.733.

(d) *Automatic pilot system.* If an automatic pilot system is installed, it shall be of an approved type, and the following shall be applicable:

(1) The system shall be so designed that the automatic pilot can either:

(i) Be quickly and positively disengaged by the human pilots to prevent it from interfering with their control of the rotorcraft, or

(ii) Be sufficiently overpowered by one human pilot to enable him to control the rotorcraft.

(2) A means shall be provided to indicate readily to the pilot the alignment of the actuating device in relation to the control system which it operates, except when automatic synchronization is provided.

(3) The manually operated control(s) for the system's operation shall be readily accessible to the pilots.

(4) The automatic pilot system shall be of such design and so adjusted that, within the range of adjustment available to the human pilot, it cannot produce hazardous loads on the rotorcraft or create hazardous deviations in the flight path under any conditions of flight appropriate to its use either during normal operation or in the event of malfunctioning, assuming that corrective action is initiated within a reasonable period of time.

(e) *Category A; instruments utilizing a power supply.* Each required flight instrument utilizing a power supply shall be provided with two independent sources of power, a means of selecting either power source, and a means of indicating the adequacy of the power being supplied to the instrument. The installation and power supply system shall be such that failure of any flight instrument connected to one source, or of the energy supply from one source, or a fault in any part of the power distribution system, will not interfere with the proper supply of energy from the other source. (See also §§ 7.606, 7.620, and 7.654.)

(f) *Duplicate instrument systems.* If duplicate flight instruments are required by the operating regulations in this subchapter (see note under § 7.610), the operating system for a duplicate instrument shall be completely independent of the operating system for the duplicated instrument. Additional instruments shall not be connected to the first pitot system. If additional instruments are connected to the other system, provision shall be made to disconnect or isolate in flight such additional instruments.

§ 7.613 *Powerplant instruments*—(a) *Instrument lines.* (1) Powerplant instrument lines carrying flammable fluids or gases under pressure shall be provided with restricted orifices or equivalent safety devices at the source of the pressure to prevent the escape of excessive fluid or gas in case of line failure.

(2) The provisions of §§ 7.432 and 7.433 shall be made applicable to powerplant instrument lines.

(b) *Fuel quantity indicator.* Means shall be provided to indicate to the flight crew the quantity in gallons or equivalent units of usable fuel in each tank during flight. The following shall apply:

(1) Tanks, the outlets and air spaces of which are interconnected, shall be considered as one tank for the purpose of providing separate indicators.

(2) Exposed sight gauges shall be protected against damage.

(3) Fuel quantity indicators shall be calibrated to read zero during level flight when the quantity of fuel remaining in the tank is equal to the unusable fuel supply as defined by § 7.416. (See § 7.736.)

(c) *Fuel flowmeter system.* When a flowmeter system is installed, the metering component shall include a means for by-passing the fuel supply in the event that malfunctioning of the metering component results in a severe restriction to fuel flow.

(d) *Oil quantity indicator.* A stick gauge or other equivalent means shall be provided to indicate the quantity of oil in each tank and in each transmission gear box. (See § 7.735.)

ELECTRICAL SYSTEMS AND EQUIPMENT

§ 7.620 *General.* The provisions of §§ 7.621 through 7.626 shall apply to all electrical systems and equipment (see also § 7.606).

§ 7.621 *Electrical system capacity.* The required generating capacity and the number and type of power sources shall be determined by an electrical load analysis and shall comply with § 7.606.

§ 7.622 *Generating system.* (a) The generating system shall be considered to include electrical power sources, main power busses, transmission cables, and associated control, regulation, and protective devices.

(b) The generating system shall be so designed that the power sources function properly both when connected in combination and independently, and the failure or malfunctioning of any power source cannot create a hazard or impair the ability of the remaining sources to supply essential loads.

(c) Means accessible in flight to appropriate crew members shall be provided for the individual and collective disconnection of electrical power sources from the main bus.

(d) Means shall be provided to indicate to appropriate crew members those generating system quantities which are essential for the safe operation of the system.

NOTE: The voltage and current supplied by each generator are quantities considered essential.

§ 7.623 *Distribution system.* (a) The distribution system shall be considered to include all distribution busses, their associated feeders, and control and protective devices.

(b) Category A: Individual distribution systems shall be designed to insure that essential load circuits can be supplied in the event of reasonably probable faults or open circuits.

(c) Where two independent sources of electrical power for particular equipment or systems are required by the regulations in this subchapter, their electrical energy supply shall be assured.

NOTE: Various means may be used to assure a supply, such as duplicate electrical equipment, throw-over switching, and multichannel or loop circuits separately routed.

§ 7.624 *Electrical protection.* (a) Automatic protective devices shall be provided to minimize distress to the electrical system and hazard to the rotorcraft in the event of wiring faults or serious malfunctioning of the system or connected equipment.

(b) Category A: In the generating system, means shall be provided to automatically de-energize and disconnect from the main bus any power source which develops hazardous overvoltage.

(c) All resettable type circuit protective devices shall be so designed that, when an overload or circuit fault exists, they will open the circuit irrespective of the position of the operating control.

(d) Protective devices or their controls used in essential load circuits shall be accessible for resetting in flight.

(e) Circuits for essential loads shall have individual circuit protection.

NOTE: This provision does not necessarily require individual protection for each circuit in an essential load system; e. g., each position light in the system.

(f) If fuses are used, there shall be provided spare fuses for use in flight equal to at least 50 percent of the number of fuses of each rating required for complete circuit protection.

§ 7.625 *Electrical equipment and installation.* (a) In showing compliance with § 7.606 (a) and (b) with respect to the electrical system, equipment, and installation, consideration shall be given to critical environmental conditions.

NOTE: Critical environmental conditions may include temperature, pressure, humidity, ventilation, position, acceleration, vibration, and presence of detrimental substances.

(b) All electrical equipment, controls, and wiring shall be so installed that operation of any one unit or system of units will not affect adversely the simultaneous operation of any other electrical unit or system of units essential to the safe operation of the rotorcraft.

(c) Cables shall be grouped, routed, and spaced so that damage to essential circuits will be minimized in the event of faults in heavy current-carrying cables.

(d) Batteries and their installations shall provide for ventilation, drainage of fluids, venting of gases, and protection of other parts of the rotorcraft from corrosive battery fluids.

§ 7.626 *Electrical system fire and smoke protection.* The design and installation of all components of the electrical system shall comply with the pertinent fire and smoke protection provisions of §§ 7.358 (c) and 7.385. All electrical cables, terminals, and equipment which are necessary in emergency procedures and which are located in designated fire zones shall be fire-resistant.

LIGHTS

§ 7.630 *Instrument lights.* (a) Instrument lights shall provide sufficient illumination to make all instruments, switches, etc., easily readable.

(b) Instrument lights shall be so installed that their direct rays are shielded from the pilot's eyes and so that no objectionable reflections are visible to him.

§ 7.631 *Landing lights.* (a) When landing or hovering lights are required, they shall be of an approved type.

(b) Landing lights shall be installed so that there is no objectionable glare visible to the pilot and so that the pilot is not adversely affected by halation.

(c) Landing lights shall be installed in a location where they provide the necessary illumination for night operation including hovering and landing.

(d) A switch for each light shall be provided, except that where multiple lights are installed at one location a single switch for the multiple lights shall be acceptable.

§ 7.632 *Position light system installation*—(a) *General.* In addition to this section, the provisions of §§ 7.633 through 7.635 shall be applicable to the position light system as a whole. The position light system shall include the items specified in paragraphs (b) through (f) of this section.

(b) *Forward position lights.* Forward position lights shall consist of a red and a green light spaced laterally as far apart as practicable and installed forward on the rotorcraft in such a location that, with the rotorcraft in normal flying position, the red light is displayed on the left side and the green light is displayed on the right side. The individual lights shall be of an approved type.

(c) *Rear position lights.* Rear position lights shall consist of a red and a white light mounted on the rotorcraft as far aft as practicable and located in close proximity to each other. Individual lights shall be of an approved type.

(d) *Fuselage lights.* Fuselage lights shall consist of two white lights installed approximately in the same vertical plane as the forward position lights. One of these lights shall be mounted on the top of the fuselage, the other on the bottom. The individual lights shall be of an approved type.

(e) *Flasher.* A position light flasher of an approved type shall be installed and shall comply with subparagraphs (1) through (3) of this paragraph.

(1) The flashing frequency shall not be less than 65 and not more than 85 flashes per minute.

(2) The sequence of position lights shall conform to either one of the following:

(i) The forward position lights and fuselage lights flashing simultaneously at the rate specified in subparagraph (1) of this paragraph, with the rear red position light flashing simultaneously with one flash of the forward position and fuselage lights and the rear white position light flashing simultaneously with the next flash of the forward position and fuselage lights, or

(ii) The forward position lights and fuselage lights flashing alternately at the rate specified in subparagraph (1) of this paragraph, with the rear white light flashing simultaneously with the forward position lights and the rear red light flashing simultaneously with the fuselage lights.

(3) A switch shall be provided in the system to disconnect the flasher from the circuit so that continuous light can be supplied by the forward position lights and the rear white position light with the remaining lights de-energized.

(f) *Light covers and color filters.* Light covers or color filters used shall be of flame-resistant material and shall be constructed so that they will not change color or shape or suffer any appreciable loss of light transmission during normal use.

§ 7.633 *Position light system dihedral angles.* The forward and rear position lights as installed on the rotorcraft shall show unbroken light within dihedral angles specified in paragraphs (a) through (c) of this section.

(a) Dihedral angle *L* (left) shall be considered formed by two intersecting vertical planes, one parallel to the longitudinal axis of the rotorcraft and the other at 110° to the left of the first, when looking forward along the longitudinal axis.

(b) Dihedral angle *R* (right) shall be considered formed by two intersecting vertical planes, one parallel to the longitudinal axis of the rotorcraft and the other at 110° to the right of the first, when looking forward along the longitudinal axis.

(c) Dihedral angle *A* (aft) shall be considered formed by two intersecting vertical planes making angles of 70° to the right and 70° to the left, respectively, looking aft along the longitudinal axis, to a vertical plane passing through the longitudinal axis.

§ 7.634 *Position light distribution and intensities*—(a) *General.* The intensities prescribed in this section are those to be provided by new equipment with all light covers and color filters in place. Intensities shall be determined with the light source operating at a steady value equal to the average luminous output of the light source at the normal operating voltage of the rotorcraft. The light distribution and intensities of position lights shall comply with the provisions of paragraphs (b) and (c) of this section.

(b) *Forward and rear position lights.* The light distribution and intensities of forward and rear position lights shall be expressed in terms of minimum intensities in the horizontal plane, minimum intensities in any vertical plane, and maximum intensities in overlapping beams within dihedral angles *L*, *R*, and *A*, and shall comply with the provisions of subparagraphs (1) through (3) of this paragraph.

(1) *Intensities in horizontal plane.* The intensities in the horizontal plane shall not be less than the values given in Figure 7–1. (The horizontal plane is the plane containing the longitudinal axis of the rotorcraft and is perpendicular to the plane of symmetry of the rotorcraft.)

(2) *Intensities above and below horizontal.* The intensities in any vertical plane shall not be less than the appropriate value given in Figure 7–2, where *I* is the minimum intensity prescribed in Figure 7–1 for the corresponding angles in the horizontal plane. (Vertical planes are planes perpendicular to the horizontal plane.)

(3) *Overlaps between adjacent signals.* The intensities in overlaps between adjacent signals shall not exceed the values given in Figure 7–3, except that higher intensities in the overlaps shall be acceptable with the use of main beam intensities substantially greater than the minima specified in Figures 7–1 and 7–2 if the overlap intensities in relation to the main beam intensities are such as not to affect adversely signal clarity.

(c) *Fuselage lights.* The illuminating intensity of the top and the bottom fuselage lights individually shall be equivalent to that which would be furnished by a 32-candlepower lamp installed in a reflector of high reflective properties. The lights shall have a clear cover and the light distribution shall be reasonably uniform throughout approximately a hemisphere.

| Dihedral angle (light involved) | Angle from right or left of longitudinal axis, measured from dead ahead | Intensity (candles) |
|---|---|---|
| L and R (forward red and green) | 0° to 10° | 40 |
| | 10° to 20° | 30 |
| | 20° to 110° | 5 |
| A (rear white) | 110° to 180° | 20 |
| A (rear red) | 110° to 180° | 4 |

FIGURE 7-1—MINIMUM INTENSITIES IN THE HORIZONTAL PLANE OF FORWARD AND REAR POSITION LIGHTS

| Angle above or below horizontal | Intensity |
|---|---|
| 0° | 1.00 I. |
| 0° to 5° | 0.90 I. |
| 5° to 10° | 0.80 I. |
| 10° to 15° | 0.70 I. |
| 15° to 20° | 0.50 I. |
| 20° to 30° | 0.30 I. |
| 30° to 40° | 0.10 I. |
| 40° to 90° | At least 2 candles. |

FIGURE 7-2—MINIMUM INTENSITIES IN ANY VERTICAL PLANE OF FORWARD AND REAR POSITION LIGHTS

| Overlaps | Maximum intensity | |
|---|---|---|
| | Area A (candles) | Area B (candles) |
| Green in dihedral angle L | 10 | 1 |
| Red in dihedral angle R | 10 | 1 |
| Green in dihedral angle A | 5 | 1 |
| Red in dihedral angle A | 5 | 1 |
| Rear white in dihedral angle L | 5 | 1 |
| Rear white in dihedral angle R | 5 | 1 |

FIGURE 7-3—MAXIMUM INTENSITIES IN OVERLAPPING BEAMS OF FORWARD AND REAR POSITION LIGHTS

NOTE: Area A includes all directions in the adjacent dihedral angle which pass through the light source and which intersect the common boundary plane at more than 10 degrees but less than 20 degrees. Area B includes all directions in the adjacent dihedral angle which pass through the light source and which intersect the common boundary plane at more than 20 degrees.

§ 7.635 *Color specifications.* The colors of the position lights shall have the International Commission on Illumination chromaticity coordinates as set forth in paragraphs (a) through (c) of this section.

(a) *Aviation red.*

"*y*" is not greater than 0.335,
"*z*" is not greater than 0.002;

(b) *Aviation green.*

"*x*" is not greater than 0.440—0.320*y*,
"*x*" is not greater than "*y*"—0.170,
"*y*" is not less than 0.390—0.170*x*;

(c) *Aviation white.*

"*x*" is not less than 0.350,
"*x*" is not greater than 0.540,
"*y*"—"*yo*" is not numerically greater than 0.01,

"*yo*" being the "*y*" coordinate of the Planckian radiator for which *xo*=*x*.

§ 7.636 *Riding light.* (a) When a riding (anchor) light is required for a rotorcraft operated from water, it shall be capable of showing a white light for at least 2 miles at night under clear atmospheric conditions.

(b) Riding lights shall be installed so that they will show a maximum practicable unbroken light when the rotorcraft is moored or drifting on the water. Externally hung lights shall be permitted.

§ 7.637 *Anti-collision light.* In addition to the position light system prescribed in §§ 7.632 through 7.635, an approved anti-collision light shall be installed.

SAFETY EQUIPMENT

§ 7.640 *General.* Required safety equipment which the crew is expected to operate at a time of emergency such as flares and automatic life-raft releases, shall be readily accessible. (See also § 7.738 (e).)

§ 7.641 *Flares.* When parachute flares are installed, they shall be of an approved type and installed in accordance with § 7.642.

§ 7.642 *Flare installation.* (a) Parachute flares shall be releasable from the pilot compartment and installed to minimize the danger of accidental discharge.

(b) It shall be demonstrated in flight that the flare installation is such that ejection can be accomplished without hazard to the rotorcraft and its occupants.

(c) If recoil loads are involved in the ejection of the flares, the structure of the rotorcraft shall be designed to withstand such loads.

§ 7.643 *Safety belts.* Safety belts shall be of an approved type (see § 7.355 (c) (2)). When means are provided to indicate to the passengers when seat belts should be fastened, the device shall be so installed that it can be operated from the seat of either the pilot or copilot.

§ 7.644 *Emergency flotation and signaling equipment.* When emergency flotation and signaling equipment is required by the operating rules of the regulations in this subchapter, such equipment shall comply with the provisions of paragraphs (a) through (d) of this section.

(a) *Life rafts.* Life rafts shall be of an approved type. Unless excess rafts of sufficient capacity are provided, the buoyancy and seating capacity beyond the rated capacity of the rafts shall be such as to accommodate all occupants of the rotorcraft in the event of a loss of one life raft of the largest rated capacity on board. Each life raft shall be equipped with a trailing line and with a static line, the latter designed to hold the raft near the rotorcraft but to release it in case the rotorcraft becomes totally submerged. Each raft shall contain obvious markings of instruction on its operation.

(b) *Life-raft equipment.* Approved equipment intended for survival shall be attached to each life raft and marked for identification and method of operation.

NOTE: The extent and type of survival equipment will depend upon the route over which the rotorcraft is operated.

(c) *Long-range signaling device.* An approved long-range signaling device shall be provided for use in one of the life rafts.

(d) *Life preservers.* Life preservers shall be of an approved type. They shall be reversible and shall contain obvious markings of instruction on their use.

§ 7.645 *Stowage of safety equipment.* Special stowage provisions shall be made for all prescribed safety equipment to be used in emergencies. The stowage provisions shall be such that the equipment is directly accessible and its location is obvious. All safety equipment shall be protected against inadvertent damage. The stowage provisions shall be marked conspicuously to identify the contents and to facilitate removal of the equipment. In addition, the following shall specifically apply:

(a) *Emergency exit means.* The stowage provisions for the emergency exit descent device required by § 7.357 (d) (6) shall be located at the exits which they are intended to serve.

(b) *Life rafts.* Life rafts shall be stowed near exists through which the rafts can be launched during an unplanned ditching. Rafts automatically or remotely released on the outside of the rotorcraft shall be attached to the rotorcraft by means of the static line prescribed in § 7.644 (a).

(c) *Long-range signaling device.* The stowage provisions for the long-range signaling device required by § 7.644 (c) shall be located near an exit to be available during an unplanned ditching.

(d) *Life preservers.* Life preservers shall be so located that they are within easy reach of each occupant while seated.

§ 7.646 *Oxygen equipment and supply*—(a) *Protective breathing equipment.* When protective breathing equipment is required by the operating rules of the regulations in this subchapter, it shall be designed to protect the flight crew from the effects of smoke, carbon dioxide, and other harmful gases while on flight deck duty. The protective breathing equipment and the necessary supply of oxygen shall be in accordance with the following provisions:

(1) The protective breathing equipment shall include masks covering the eyes, nose, and mouth, or only the nose and mouth where accessory equipment is provided to protect the eyes.

(2) A supply of protective oxygen per crew member shall be of 10 minutes duration at a pressure altitude of 8,000 feet and a respiratory minute volume of 30 liters per minute BTPD.

NOTE: When a demand-type oxygen system is employed, a supply per crew member of 200 liters of free oxygen at 70° F. and 760 mm. Hg pressure is considered to be of 10 minutes duration at the prescribed altitude and minute volume. BTPD refers to body temperature conditions; i. e., 37° C. at ambient pressure, dry.

MISCELLANEOUS EQUIPMENT

§ 7.650 *Hydraulic systems; strength*—(a) *Structural loads.* All elements of the hydraulic system shall be designed to withstand, without detrimental permanent deformation, all structural loads which may be imposed simultaneously with the maximum hydraulic loads occurring in operation.

(b) *Proof pressure tests.* All elements of the hydraulic system shall be tested to a proof pressure of 1.5 times the maximum pressure to which the part will be subjected in normal operation. In such test, no part of the hydraulic system shall fail, malfunction, or suffer detrimental deformation.

(c) *Burst pressure strength.* Individual hydraulic system elements shall be designed to withstand pressures which are sufficiently increased over the pressures prescribed in paragraph (b) of this section to safeguard against rupture under service conditions.

NOTE: The following pressures, in terms of percentages of maximum operating pressures for particular elements, in most instances are sufficient to insure against rupture in service: 250 percent in units under oil pressure; 400 percent in units containing air and oil under pressure and in lines, hoses, and fittings; and 300 percent in units of system subjected to back pressure.

§ 7.651 *Hydraulic systems; design.* The provisions of § 7.606 shall apply to hydraulic systems and equipment.

(a) *Pressure indication.* A means shall be provided to indicate the pressure in each main hydraulic power system.

(b) *Pressure limiting provisions.* Provision shall be made to assure that pressures in any part of the system will not exceed a safe limit above the maximum operating pressure of the system and to insure against excessive pressures resulting from fluid volumetric changes in all lines which are likely to remain closed long enough for such changes to take place. In addition, consideration shall be given to the possible occurrence of detrimental transient (surge) pressures during operation.

(c) *Installation.* Hydraulic lines, fittings, and components shall be installed and supported to prevent excessive vibration and to withstand inertia loads. All elements of the installation shall be protected from abrasion, corrosion, and mechanical damage.

(d) *Connections.* Flexible hose, or other means of providing flexibility, shall be used to connect points in a hydraulic fluid line between which there is relative motion or differential vibration.

§ 7.652 *Hydraulic system fire protection.* When flammable type hydraulic fluid is used, the hydraulic system shall comply with the provisions of §§ 7.384 and 7.481 through 7.483.

§ 7.653 *Radio installation.* (a) Radio communication and navigational equipment installations in the rotorcraft should be free from hazards in themselves, in their method of operation, and in their effects on other components of the rotorcraft. In showing compliance with this requirement, consideration shall be given to critical environmental conditions.

NOTE: Critical environmental conditions may include temperature, pressure, humidity, ventilation, position, acceleration, vibration, and presence of detrimental substances.

(b) All radio communication and navigational equipment, controls, and wiring shall be so installed that operation of any one unit or system of units will not affect adversely the simultaneous operation of any other radio or electronic unit or system of units required by the regulations in this subchapter.

§ 7.654 *Vacuum systems.* (a) Means, in addition to the normal pressure relief, shall be provided to relieve automatically the pressure in the discharge lines from the vacuum air pump if the delivery temperature of the air reaches an unsafe value.

(b) Vacuum air system lines and fittings on the discharge side of the pump which might contain flammable vapors or fluids shall comply with § 7.483 if they are located in a designated fire zone. Other vacuum air system components located in designated fire zones shall be fire-resistant.

## SUBPART G—OPERATING LIMITATIONS AND INFORMATION

GENERAL

§ 7.700 *Scope.* (a) The operating limitations in §§ 7.710 through 7.718 shall be established as prescribed in this part.

(b) The operating limitations, together with any other information concerning the rotorcraft found necessary for safety during operation, shall be included in the Rotorcraft Flight Manual (§ 7.740), shall be expressed as markings and placards (§ 7.730), and shall be made available by such other means as will convey the information to the crew members.

OPERATING LIMITATIONS

§ 7.710 *Air-speed limitations; general.* When air-speed limitations are a function of weight, weight distribution, altitude, rotor speed, power, or other factors, the values corresponding with all critical combinations of these values shall be established.

§ 7.711 *Never-exceed speed $V_{NE}$.* (a) The never-exceed speed shall be established. It shall not be less than the best rate-of-climb speed with all engines operating at maximum continuous power, nor greater than either of the following:

(1) 0.9 *V* established in accordance with § 7.204, or

(2) 0.9 times the maximum speed demonstrated in accordance with § 7.140.

(b) It shall be permissible to vary the never-exceed speed with altitude and rotor rpm, provided that the ranges of these variables are sufficiently large to allow an operationally practical and safe variation of the never-exceed speeds.

§ 7.712 *Operating speed range.* An operating speed range shall be established for each rotorcraft.

§ 7.713 *Rotor speed.* Rotor rpm limitations shall be established as set forth in paragraphs (a) and (b) of this section. (See also § 7.710.)

(a) *Maximum power off (autorotation).* Not to exceed 95 percent of the maximum design rpm determined under § 7.204 (b) or 95 percent of the maximum rpm demonstrated during the type tests (see § 7.103 (b)), whichever is less.

(b) *Minimum*—(1) *Power off.* Not less than 105 percent of the higher of the following:

(i) The minimum demonstrated during the type test (see § 7.103 (b)), or

(ii) The minimum determined by design substantiation.

(2) *Power on.* Not less than the higher of the following:

(i) The minimum demonstrated during the type tests (see § 7.103 (a)), or

(ii) The minimum determined by design substantiation and not higher than a value determined in compliance with § 7.103 (a).

§ 7.714 *Powerplant limitations.* The powerplant limitations set forth in paragraphs (a) through (d) of this section shall be established for the rotorcraft. They shall not exceed the corresponding limits established as a part of the type certification of the engine(s) installed on the rotorcraft.

(a) *Take-off operation.* The take-off operation shall be limited by:

(1) The maximum rotational speed, which shall not be greater than the maximum value determined by the rotor design, nor greater than the maximum value demonstrated during type tests.

(2) The maximum permissible manifold pressure.

(3) The time limit for use of the power which corresponds with the values established in subparagraphs (1) and (2) of this paragraph.

(4) Where the time limit established in subparagraph (3) of this paragraph exceeds two minutes, the maximum allowable cylinder head or coolant outlet and oil temperatures.

(5) Maximum cylinder head or coolant outlet and oil temperatures, if these differ from the maximum limits for continuous operation.

(b) *Continuous operation.* The continuous operation shall be limited by:

(1) The maximum rotational speed, which shall not be greater than the maximum value determined by the rotor design, nor greater than the maximum value demonstrated during type tests.

(2) Maximum permissible manifold pressure.

(3) Maximum allowable cylinder head or coolant outlet and oil temperatures.

(4) The minimum rotational speed demonstrated in compliance with the

rotor speed requirements as prescribed in § 7.713 (b) (2).

(c) *Fuel octane rating.* The minimum octane rating of fuel required for satisfactory operation of the powerplant within the limitations prescribed in paragraphs (a) and (b) of this section.

(d) *Cooling limitations.* The maximum sea level temperature for which satisfactory cooling has been demonstrated.

§ 7.715 *Limiting height-speed envelope.* If a range of heights exists at any speed, including zero, within which it is not possible to make a safe landing following power failure, the range of heights and its variation with forward speed shall be established together with any other pertinent information, such as type of landing surface. (See §§ 7.11 (a) (1), 7.111 (b), and 7.741 (f).)

§ 7.716 *Rotorcraft weight and center of gravity limitations.* The rotorcraft weight and center of gravity limitations to be established are those required to be determined by §§ 7.101 and 7.102.

§ 7.717 *Minimum flight crew.* The minimum flight crew shall be established by the Administrator as that number of persons which he finds necessary for safety in the operations authorized under § 7.718. This finding shall be based upon the workload imposed upon individual crew members with due consideration given to the accessibility and the ease of operation of all necessary controls by the appropriate crew members.

§ 7.718 *Types of operation.* The type of operation to which a rotorcraft is limited shall be established on the basis of flight characteristics and the equipment installed. (See the operating parts of this subchapter.)

§ 7.719 *Maintenance manual.* The applicant shall furnish with each rotorcraft a maintenance manual to contain information which he considers essential for the proper maintenance of the rotorcraft. The maintenance manual shall include recommended limits on service life or retirement periods for major components of the rotorcraft. Such components shall be identified by serial numbers of by other equivalent means.

MARKINGS AND PLACARDS

§ 7.730 *General.* (a) The markings and placards specified in §§ 7.731 through 7.738 are required for all rotorcraft.

(b) Markings and placards shall be displayed in conspicuous places and shall be such that they cannot be easily erased, disfigured, or obscured.

(c) Additional information, placards, and instrument markings having a direct and important bearing on safe operation of the rotorcraft shall be required when unusual design, operating, or handling characteristics so warrant.

§ 7.731 *Instrument markings; general.* (a) When markings are placed on the cover glass of the instrument, provision shall be made to maintain the correct alignment of the glass cover with the face of the dial.

(b) All arcs and lines shall be of sufficient width and so located that they are clearly visible to the pilot.

§ 7.732 *Air-speed indicator.* Instrument indications shall be in terms of indicated air speed. The markings set forth in paragraphs (a) through (c) of this section shall be used to indicate to the pilot the maximum and minimum permissible speeds and the normal precautionary operating ranges. (See §§ 7.612 (a), 7.710, 7.711, 7.712, 7.713, and 7.715.)

(a) A red radial line shall be used to indicate the limit beyond which operation is dangerous.

(b) A yellow arc shall be used to indicate the precautionary operating range.

(c) A green arc shall be used to indicate the safe operating range.

§ 7.733 *Magnetic direction indicator.* A placard shall be installed on or in close proximity to the magnetic direction indicator which shall comply with the requirements of paragraphs (a) through (c) of this section. (See § 7.612 (c).)

(a) The placard shall contain the calibration of the instrument in a level flight attitude with engine(s) operating.

(b) The placard shall state whether the calibration was made with radio receiver(s) on or off.

(c) The calibration readings shall be in terms of magnetic headings in not greater than 45° increments.

§ 7.734 *Powerplant instruments; general.* All required powerplant instruments shall be marked as follows:

(a) The maximum and the minimum, if applicable, safe operational limits shall be marked with red radial lines.

(b) The normal operating ranges shall be marked with a green arc not extending beyond the maximum and minimum safe operational limits.

(c) The take-off and precautionary ranges shall be marked with a yellow arc.

(d) Engine or rotor speed ranges which are restricted because of excessive vibration stresses shall be marked with red arcs.

§ 7.735 *Oil quantity indicator.* Oil quantity indicators shall be marked in sufficient increments to indicate readily and accurately the quantity of oil. (See § 7.613 (d).)

§ 7.736 *Fuel quantity indicator.* When the unusable fuel supply for any tank exceeds 1 gallon or 5 percent of the tank capacity, whichever is greater, a red arc shall be marked on the indicator extending from the calibrated zero reading to the lowest reading obtainable in the level flight attitude. (See §§ 7.421 and 7.613 (b).) A notation in the Rotorcraft craft Flight Manual shall be made to indicate that the fuel remaining in the tank when the quantity indicator reaches zero is not usable in flight. (See § 7.741 (g).)

§ 7.737 *Control markings*—(a) *General.* All cockpit controls including those referred to in paragraphs (b) and (c) of this section shall be plainly marked as to their function and method of operation. (See § 7.353.)

(b) *Powerplant fuel controls.* The powerplant fuel controls shall be marked in accordance with subparagraphs (1) through (4) of this paragraph.

(1) Controls for fuel tank selector valves shall be marked to indicate the position corresponding with each tank with all existing cross-feed positions.

(2) When more than one fuel tank is provided, and if safe operation depends upon the use of tanks in a specific sequence, the fuel tank selector controls shall be marked adjacent to or on the control to indicate to the flight personnel the order in which the tanks must be used.

(3) On multiengine rotorcraft, controls for engine valves shall be marked to indicate the position corresponding with each engine.

(4) The capacity of each tank shall be indicated adjacent to or on the fuel tank selector control.

(c) *Accessory and auxiliary controls.* Accessory and auxiliary controls shall be marked in accordance with subparagraphs (1) and (2) of this paragraph.

(1) Where visual indicators are essential to the operation of the rotorcraft (such as a rotor pitch or retractable landing gear indicator), they shall be marked in such a manner that the crew members at all times can determine the position of the unit.

(2) Emergency controls shall be colored red and shall be marked to indicate their method of operation.

§ 7.738 *Miscellaneous markings and placards*—(a) *Baggage compartments and ballast location.* Each baggage and cargo compartment as well as the ballast location shall bear a placard stating the maximum allowable weight of contents and, if applicable, any other limitation on contents found necessary due to loading requirements. When the maximum permissible weight to be carried in a seat is less than 170 pounds (see § 7.102 (b)), a placard shall be permanently attached to the seat structure stating the maximum allowable weight of the occupant to be carried.

(b) *Fuel and oil filler openings.* The information required by subparagraphs (1) and (2) of this paragraph shall be marked on or adjacent to the appropriate filler cover.

(1) The word "fuel," the minimum permissible fuel octane number for the engines installed, and the usable fuel tank capacity. (See § 7.425 (a).)

(2) The word "oil" and the oil tank capacity. (See § 7.441 (b) (4).)

(c) *Emergency exit placards.* Emergency exit placards and operating controls shall be colored red. A placard shall be located adjacent to the controls which clearly indicates the location of the exit and the method of operation. (See § 7.357.)

(d) *Operating limitation placard.* A placard shall be provided in clear view of the pilot stating: "This (helicopter, gyrodyne, etc.) must be operated in compliance with the operating limitations specified in the CAA approved Rotorcraft Flight Manual."

(e) *Safety equipment.* (1) Safety equipment controls which the crew is expected to operate in time of emergency, such as flares, automatic life raft releases, etc., shall be plainly marked as to their method of operation.

(2) When fire extinguishers and signaling and other life-saving equipment are carried in lockers, compartments, etc., these locations shall be marked accordingly.

ROTORCRAFT FLIGHT MANUAL

§ 7.740 *General.* (a) A Rotorcraft Flight Manual shall be furnished with each rotorcraft.

(b) The portions of the manual listed in §§ 7.741 through 7.744 as are appropriate to the rotorcraft shall be verified and approved and shall be segregated, identified, and clearly distinguished from portions not so approved.

(c) Additional items of information having a direct and important bearing on safe operation shall be required when unusual design, operating, or handling characteristics so warrant.

§ 7.741 *Operating limitations.* The operating limitations set forth in paragraphs (a) through (g) of this section shall be furnished with each rotorcraft.

(a) *Air-speed and rotor limitations.* Sufficient information necessary for the marking of the limitations on or adjacent to the indicators shall be furnished. (See § 7.732.) In addition, the significance of the limitations and of the color coding used shall be explained.

(b) *Powerplant limitations.* Information shall be included to outline and to explain all powerplant limitations (see § 7.714) and to permit marking the instruments as required by §§ 7.734 through 7.736.

(c) *Weight and loading distribution.* The rotorcraft weights and center of gravity limits required by §§ 7.101 and 7.102 shall be included, together with the items of equipment on which the empty weight is based. Where the variety of possible loading conditions warrants, instructions shall be included to facilitate observance of the limitations.

(d) *Flight crew.* When a flight crew of more than one is required, the number and functions of the minimum flight crew determined in accordance with § 7.717 shall be described.

(e) *Type of operation.* The type(s) of operation(s) shall be listed for which the rotorcraft and its equipment installations have been approved. (See § 7.718.)

(f) *Limiting heights.* Sufficient information shall be included to outline the limiting heights and corresponding speeds for safe landing after power failure. (See § 7.715.)

(g) *Unusable fuel.* If the unusable fuel supply in any tank exceeds one gallon or 5 percent of the tank capacity, whichever is greater, warning shall be provided to indicate to the flight personnel that the fuel remaining in the tank when the quantity indicator reads zero cannot be used safely in flight. (See § 7.421.)

§ 7.742 *Operating procedures.* The section of the manual devoted to operating procedures shall contain information concerning normal and emergency procedures and other pertinent information peculiar to the rotorcraft's operating characteristics which are necessary for safe operation. If applicable, the procedures to be followed in the event of engine failure including minimum speeds, trim, operation of remaining engines, etc., shall be described.

§ 7.743 *Performance information*—(a) *Category A; performance data.* A summary of all performance data shall be given, including performance data necessary for the application of the operating rules of this subchapter, together with descriptions of the conditions, air speeds, etc., under which these data were determined. In addition, the information required by subparagraphs (1) through (3) of this paragraph shall be included.

(1) *Air speeds.* The indicated air speeds corresponding with those determined for take-off shall be listed together with the procedures to be followed in the event the critical engine becomes inoperative during take-off (see § 7.742). Airspeed calibrations shall be included. (See § 7.612 (a) (2) and (3).)

(2) *Autorotative landing technique.* Description of the techniques, associated airspeed, and rates of descent for autorotative landings shall be included. (See § 7.118 (b).)

(3) *Maximum allowable wind.* Information relative to the maximum allowable wind for safe operation near the ground shall be included. (See § 7.121 (d).)

(b) *Category B; performance information.* Information relative to the items of performance set forth in subparagraphs (1) through (5) of this paragraph, including any additional performance data necessary for the application of the operating rules of this subchapter, shall be given.

(1) The take-off distance and the take-off safety air speed together with any pertinent information defining the flight path with respect to the required autorotative landing in the event of an engine failure, including the calculated effect of altitude and temperature. (See § 7.114.)

(2) The steady rates of climb and hovering ceiling together with the corresponding air speeds and other pertinent information, including the calculated effect of altitude and temperature. (See §§ 7.115 and 7.116.)

(3) The landing distance, appropriate glide air speed, and the type of landing surface together with any pertinent information which might affect this distance, including the calculated effect of altitude and temperature. (See §§ 7.117 and 7.118.)

(4) Maximum wind allowable for safe operation near the ground (see § 7.121 (d)).

(5) The air-speed calibrations. (See § 7.612 (a) (2) and (3).)

§ 7.744 *Marking and placard information.* (See § 7.730.)

ROTORCRAFT IDENTIFICATION DATA

§ 7.750 *Identification plate.* A fireproof identification plate shall be securely attached to the structure in an accessible location where it will not likely be defaced during normal service. The identification plate shall not be placed in a location where it might be expected to be destroyed or lost in the event of an accident. The identification plate shall contain the identification data required by § 1.50 of this subchapter.

§ 7.751 *Identification marks.* The nationality and registration marks shall be permanently affixed in accordance with § 1.100 of this subchapter.

(Sec. 205 (a), 52 Stat. 984, 49 U. S. C. 425 (a). Interpret or apply secs. 601, 603, 52 Stat. 1007, 1009, as amended, 49 U. S. C. 551, 553)

By the Civil Aeronautics Board.

[Supp. 4]

PART 24—MECHANIC AND REPAIRMAN CERTIFICATES

AIRMAN IDENTIFICATION CARDS

This supplement revises the wording of the CAA rules of this part specifying the identification cards which are acceptable to the Administrator and the form and manner of applying for an Airman Identification Card. The purpose of this revision is to make the wording of these rules consistent with that for other airman certificates.

These rules do not impose any additional burden upon interested persons, and no useful purpose would be served by compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act. Therefore, compliance is unnecessary and is not required.

The following rules are hereby adopted:

1. Sections 24.10–1 and 24.10–2 are revised to read as follows:

§ 24.10–1 *Airman identification card (CAA rules which apply to § 24.10).* An Airman Identification Card, Form ACA–2135, is issued by the Administrator and may be used to meet the requirements of § 24.10.

§ 24.10–2 *Other identification cards which are acceptable to the Administrator (CAA rules which apply to § 24.10).* Identification cards which are acceptable in lieu of Form ACA–2135 to meet the requirements of § 24.10 are as follows:

(a) Aircrewman Identification Card, Form ACA–2116.1, issued by CAA.

(b) Crew Member Certificate, Form ACA–2116.1, issued by CAA. This certificate is a current revision of the Aircrewman Identification Card.

(c) Current identification cards issued to members on active duty or on reserve status by:

(1) U. S. Army.
(2) U. S. Navy.
(3) U. S. Air Force.
(4) U. S. Marine Corps.
(5) U. S. Coast Guard.
(6) U. S. Merchant Marine.
(7) National Guard.
(8) Civil Air Patrol.

2. Section 24.10–3 is redesignated § 24.10–4 and a new § 24.10–3 is added to read as follows:

§ 24.10–3 *Application (CAA rules which apply to § 24.10).* An applicant for an airman identification card shall comply with the following procedure:

(a) *Application.* The applicant shall apply in person to an Aviation Safety Agent or an Aviation Safety District Office.

(b) *Form.* Application for Airman Identification Card, Form ACA–2134, shall be completed in single copy, typed or printed in ink, and contain precise information on each item.

(c) *Proof of identity.* The applicant shall furnish proof of his identity. The agent may exercise his discretion in the method by which he identifies the applicant. Identification of the applicant may be established by one or more of the following means:

(1) Airman Identification Card, Form ACA–935, issued by the CAA to the applicant during World War II.

(2) The agent's knowledge of the applicant's identity.

(3) The applicant's identification by a person known to the agent.

(4) Combinations of identification cards and licenses held by the applicant.

(5) Comparison of the applicant's signature with that on other cards and licenses held by him.

(d) *Proof of place and date of birth.* The following documentary evidence is satisfactory evidence of place and date of birth:

(1) Airman Identification Card, Form ACA–935, issued by CAA during World War II. (If he held this card and lost it, he may write to CAA, Airman Records Branch, Washington 25, D. C., and obtain confirmation that it was issued to him and the information it contained.)

(2) Birth certificate. (When the applicant's birth certificate does not contain the exact name now used by him, he shall explain the difference on the application form.)

(3) Baptismal record if it contains the full name and place and date of birth.

(4) Naturalization papers if place and date of birth are shown.

(5) Passport, expired or current.

(6) Aircrewman Identification Card, or Crew Member Certificate, Form ACA–2116.1.

(7) Statement from any state or Federal Government agency which has the applicant's birth certification on file.

(8) Statement from any military, state, municipal, local, or Federal Government agency which has established, by investigation or otherwise, the applicant's place and date of birth.

(i) Applicants who cannot furnish any of the documents listed in subparagraphs (1) through (8) of this paragraph may present affidavits from attending physician, either parent, brother, sister, relative, or acquaintances who have personal knowledge of the applicant's place and date of birth.

(ii) Military identification cards, service records, discharge papers, drivers' licenses, and the like are not acceptable documentary evidence of place and date of birth.

(e) *Evidence of citizenship.* The following documentary evidence is satisfactory evidence of citizenship:

(1) Any document listed in paragraph (d) of this section, if citizenship is claimed in the country of birth.

(2) Naturalization papers.

(3) Currently valid passport.

(4) Statement from an appropriate official of a foreign government that the applicant is a citizen of that country.

(5) Civil Aeronautics Board waiver of citizenship requirements for the issuance of an airman certificate to stateless or other persons.

(6) Certified statements from persons, courts, or agencies in authority on cases of derivative citizenship, incompleted naturalization, or other complex citizenship status. Such statements must contain information on the current status of the applicant's citizenship.

(f) *Photographs.* The applicant shall furnish two photographs which are:

(1) Taken from the same negative.

(2) One-inch square, full face, head only.

(3) Taken within the past 12 months.

(4) Readily recognizable as photographs of applicant.

(g) *Fingerprints.* The applicant shall be fingerprinted only by an Aviation Safety Agent or other CAA employee authorized by the agent.

(h) *Reissuance of lost card.* An applicant who has lost his Airman Identification Card, Form ACA–2135, may obtain another by making application exactly as required for his original card, or by:

(1) Writing to the CAA Airman Records Branch, W–253, Washington 25, D. C., and explaining the circumstances of the loss, and requesting a letter verifying that such card has been issued, and

(2) Presenting the letter and two photographs, as required for original issuance, to an Aviation Safety Agent who will issue a duplicate card.

(Sec. 205, 52 Stat. 984, U. S. C. 425. Interpret or apply secs. 601, 602, 608, 52 Stat. 1007, 1008, 1011, as amended; 49 U. S. C. 551, 552, 558)

This supplement shall become effective July 17, 1956.

[SEAL] JAMES T. PYLE,
*Acting Administrator of Civil Aeronautics.*

[Reg. No. SR–417]

## PART 49—TRANSPORTATION OF EXPLOSIVES AND OTHER DANGEROUS ARTICLES

### SPECIAL CIVIL AIR REGULATION CONTAINING AUTHORITY TO DEVIATE FROM CERTAIN PROVISIONS OF CIVIL AIR REGULATIONS WITHIN TERRITORY OF ALASKA

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 28th day of May 1956.

By letter dated March 26, 1956, Morrison-Knudsen Company, Inc., contractors and engineers, Boise, Idaho, requested the Board to permit certain operators, notwithstanding the provisions of Part 49 of the Civil Air Regulations, to transport Class A explosives and other dangerous articles in civil aircraft, within the territory of Alaska, which are necessary to complete certain urgent construction work being accomplished by this company in the interest of National Defense.

The Civil Aeronautics Administration has notified the Board that certain contractors other than Morrison-Knudsen are involved in the same construction work as the Morrison-Knudsen Company in connection with the "White Alice" military defense contract and require similar authority to transport Class A explosives.

The Board has been advised by Morrison-Knudsen that these materials are essential in their construction work as a subcontractor to Western Electric Company, who, in turn, has a contract with the United States Air Force for important classified installation work throughout Alaska, and that all explosives or other dangerous articles will be shipped in accordance with Interstate Commerce Commission (ICC) packing and handling requirements. A listing of aircraft that are assigned under contract to the project concerned, together with the name of the contractor, base station, and area of operation was appended to Morrison-Knudsen's letter of March 26. The request for authority is to apply initially to the operators listed therein. Morrison-Knudsen proposed to notify the Board when additional aircraft are put under contract to engage in the same work.

The Board has been further advised by Morrison-Knudsen that such shipment of explosives and other dangerous articles will be restricted to aircraft operating exclusively in Alaska and in connection with a military defense project identified as AF–33 (600–29717) and known as ALCOM or White Alice Project.

Under the provisions of §§ 49.41 and 49.81 of Part 49 of the Civil Air Regulations, no explosive or dangerous article listed in Part 72 of the ICC Regulations as a Class A explosive * * * shall be carried on aircraft. Section 49.71, however, authorizes the Administrator, in emergency situations or where other forms of transportation are impracticable, to permit deviations from any of the provisions of this part for a particular flight where he finds that the conditions under which the articles are to be carried are such as to permit the safe carriage of persons and cargo. Since the authority requested by Morrison-Knudsen in this matter is not for a particular flight but for a series of flights, the Administrator is not authorized to grant the special authority requested.

To support the Board's grounds for granting special authority to carry explosives in emergency situations or where other forms of transportation are impracticable, reference is made to § 49.41 which permits transportation in cargo aircraft of any article packed, marked, and labeled in accordance with ICC Regulations for transportation by rail express. Under section 71.13 of the ICC Regulations, shipment of explosives may be made upon request of the Departments of the Army, Navy, and Air Force of the United States Government after compliance with certain handling and packing regulations.

The Board notes that the ICC, pursuant to section 71.13 of its regulations, has authorized the various United States military departments to transport Class A explosives, by rail, whenever critical situations dictated such authorization. In these situations, however, the ICC has required that certain stringent packing, stowing, and carriage provisions of its regulations be complied with as a condition of such authorization. In addition, it is noted that a number of air carriers were authorized to carry, in recent years during national emergency status, Class A explosives in civil aircraft where it was found necessary in the National Defense.

In a letter dated April 5, 1956, from cognizant authority in the Department of the Air Force, it is stated that the work under contract to Morrison-Knudsen "is behind schedule and the cargo involved is necessary for the completion of a major program which is in the interest of National Defense," and it is requested that deviation authority for the air carriers listed in Morrison-Knudsen's letter be granted for a period of not less than one year. The Board regards this justification as particularly compelling. Moreover, in view of the remoteness of the area to which these commodities are to be transported and the improbability of creating a hazard involving persons on the ground, the carriage of such commodities by air does not appear to affect the public interest adversely.

The provisions of this special regulation authorize deviations from Part 49 only with respect to the carriage of Class A explosives and the shipper and operator shall comply with the requirements of Part 49 in all other respects.

Prior to engaging in operations pursuant to this special regulation, each operator will be required to give notice to the Administrator of the type and registration number of the aircraft and the airports and other landing areas to be used.

Except for Class A explosives, the articles included in the list appended to Morrison-Knudsen's letter of March 26 are not prohibited by Part 49 of the Civil Air Regulations for cargo-carrying aircraft. Therefore, the authorization contained herein is limited to Class A explosives.

Since this Special Civil Air Regulation authorizes the transporting of Class A explosives in a remote area and does not appear to affect the safety of the public adversely, and because the Board has been advised by the Department of the Air Force that the White Alice Project is behind schedule and the cargo involved is necessary in the interest of National Defense, the Board finds that omission of notice and public procedure is not contrary to public interest and that good cause exists for making this regulation effective on less than 30 days' notice.

In consideration of the foregoing, the Civil Aeronautics Board hereby makes and promulgates the following Special Civil Air Regulation effective May 28, 1956:

1. Contrary provisions of Part 49 of the Civil Air Regulations notwithstanding, and subject to conditions hereinafter set forth, the operators listed in Appendix "A" and any other operator authorized by the Administrator to be added to such list pursuant to this regulation, may deviate from those provisions of Part 49 which prohibit the carriage of Class A explosives in aircraft, to the extent necessary to transport Class A explosives in civil aircraft to and from certain areas within Alaska as listed in Appendix "A", provided that:

a. Shipment of such explosives, by civil aircraft, shall be made only by operators authorized by Morrison-Knudsen Company, Inc., or other contractors acting under a military defense project known as Alcom, Dewline, or White Alice and identified as contract AF–33 (600–29717);

b. Each operator shall furnish the Administrator, prior to carriage of such explosives, with a list showing the type aircraft, registration number, and area in which the aircraft is to be operated, and no deviation from this listing shall be made without the express approval of the Administrator;

c. Each shipper and operator shall comply with all pertinent provisions of Part 49 and the ICC Regulations including packing, marking, labeling, and loading requirements and with any special instructions issued by the ICC for the handling of Class A explosives;

d. The crew of the aircraft shall be thoroughly briefed on the characteristics and proper handling of the cargo;

e. Shipments may be made to and from a civil airport only if prior arrangements have been made between the operator of the aircraft and local civil airport management;

f. The operations on and in the vicinity of civil airports shall be conducted in accordance with such special traffic rules as may be prescribed by the Administrator including weather minimums, airport approach and departure routes to avoid flight over congested areas, and notification to the airport control tower of the nature of the cargo aboard;

g. The aircraft shall not be used to carry persons other than crew members and shall be operated in accordance with the aircraft performance and weight limitations applicable to passenger-carrying aircraft unless otherwise authorized by the Administrator; and

h. Single-engine aircraft shall be operated in accordance with operation specifications approved by the Administrator.

2. That, upon notification by Morrison-Knudsen Company, Inc., or other bona fide contractors acting pursuant to the above-specified contract that certain other operators of aircraft have been put under contract to engage in the same work, the Administrator of Civil Aeronautics is authorized to add to the list in Appendix "A" any such operator who to him meets the requirements of this Special Civil Air Regulation.

This Special Civil Air Regulation shall expire June 1, 1957, unless sooner superseded or rescinded by the Board.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interprets or applies sec. 601, 902, 52 Stat. 1007, as amended; 1015, as amended; 49 U. S. C. 551, 622)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
*Secretary.*

APPENDIX "A" TO SPECIAL CIVIL AIR REGULATION NO. SR–417

*Operator and Area*

Morrison-Knudsen Company, Inc., District; all of Alaska except southeastern section.

Cordova Airlines: all of Alaska except southeastern section.

Safeway Airways; upper Yukon, Kuskokwim, Bristol Bay, Illamna.

Safeway Airways; Seward Peninsula.

Circle Air Trails; Bristol Bay and Illamna area.

Alaska Sportsmen; Kuskokwim bay area which includes Bethel and Platinum.

Bernard Blanchard; Galena, McGrath and Fairbanks area.

Foster Air Service; Seward Peninsula.

# TITLE 21—FOOD AND DRUGS

## Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

### Subchapter C—Drugs

### PART 146a—CERTIFICATION OF PENICILLIN AND PENICILLIN-CONTAINING DRUGS

### PART 146e—CERTIFICATION OF BACITRACIN AND BACITRACIN-CONTAINING DRUGS

MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in the Secretary of Health, Education, and Welfare by the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, 61 Stat. 11, 63 Stat. 409, 67 Stat. 389; sec. 701, 52 Stat. 1055; 21 U. S. C. 357, 371) and delegated to the Commissioner of Food and Drugs by the Secretary (20 F. R. 1996), the regulations for certification of antibiotic and antibiotic-containing drugs (21 CFR Parts 146a, 146e) are amended as indicated below:

1. In § 146a.77 *Benzathine penicillin G for aqueous injection,* subparagraph (1) (iii) of paragraph (c) *Labeling* is amended by changing the words "24 months" to read "24 months or 36 months".

2. Section 146e.402 *Bacitracin ointment* * * * is amended in the following respects:

a. Paragraph (a) *Standards of identity* * * * is amended by inserting immediately following the word "sulfonamides," the following new words: "one or more suitable proteolytic enzymes,".

b. In paragraph (c) *Labeling,* subparagraph (1) (iv) is amended by inserting after the word "ointment" the

following new words: "or if it contains one or more proteolytic enzymes,".

c. Paragraph (c) (2) is amended by deleting the comma after the word "sulfonamides" and inserting the following new words: "or one or more proteolytic enzymes,".

d. Paragraph (c) (5) is amended by deleting the comma and inserting after the word "sulfonamides" the following new words: "or one or more proteolytic enzymes,".

e. Paragraph (f) *Exemption of bacitracin ointment* * * * is amended by inserting after the words "derivative of cortisone" the following new words: ", or one or more proteolytic enzymes".

f. Paragraph (f) (3) is amended by deleting the comma after the word "sulfonamides" and inserting the following new words: "or proteolytic enzymes,".

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industry and since it would be against public interest to delay providing for the amendments set forth above.

*Effective date.* This order shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industry will benefit by the earliest effective date, and I so find.

(Sec. 701, 52 Stat. 1055. Interpret or apply sec. 507, 59 Stat. 463, 61 Stat. 11, 63 Stat. 409, 67 Stat. 389; 21 U. S. C. 357)

Dated: May 25, 1956.

[SEAL] GEO. P. LARRICK,
*Commissioner of Food and Drugs.*

[F. R. Doc. 56-4322; Filed, June 1, 1956; 8:49 a. m.]

## TITLE 26—INTERNAL REVENUE, 1954

### Chapter I—Internal Revenue Service, Department of the Treasury

Subchapter A—Income Tax

[T. D. 6179]

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

SALE OR EXCHANGE OF RESIDENCE

On July 28, 1955, notice of proposed rule making regarding regulations under section 1034 of the Internal Revenue Code of 1954, was published in the FEDERAL REGISTER (20 F. R. 5393). After consideration of all such relevant matter as was presented by interested persons regarding the rules proposed, the following regulations are hereby adopted:

§ 1.1034 *Statutory provisions; common nontaxable exchanges; sale or exchange of residence.*

SEC. 1034 *Sale or exchange of residence*—(a) *Nonrecognition of gain.* If property (in this section called "old residence") used by the taxpayer as his principal residence is sold by him after December 31, 1953, and, within a period beginning 1 year before the date of such sale and ending 1 year after such date, property (in this section called "new residence") is purchased and used by the taxpayer as his principal residence, gain (if any) from such sale shall be recognized only to the extent that the taxpayer's adjusted sales price (as defined in subsection (b)) of the old residence exceeds the taxpayer's cost of purchasing the new residence.

(b) *Adjusted sale price defined*—(1) *In general.* For purposes of this section, the term "adjusted sales price" means the amount realized, reduced by the aggregate of the expenses for work performed on the old residence in order to assist in its sale.

(2) *Limitations.* The reduction provided in paragraph (1) applies only to expenses—

(A) For work performed during the 90-day period ending on the day on which the contract to sell the old residence is entered into;

(B) Which are paid on or before the 30th day after the date of the sale of the old residence; and

(C) Which are—

(i) Not allowable as deductions in computing taxable income under section 63 (a) (defining taxable income), and

(ii) Not taken into account in computing the amount realized from the sale of the old residence.

(3) *Effective date.* The reduction provided in paragraph (1) applies to expenses for work performed in any taxable year (whether beginning before, on, or after January 1, 1954), but only in the case of a sale or exchange of an old residence which occurs after December 31, 1953.

(c) *Rules for application of section.* For purposes of this section:

(1) An exchange by the taxpayer of his residence for other property shall be treated as a sale of such residence, and the acquisition of a residence on the exchange of property shall be treated as a purchase of such residence.

(2) A residence any part of which was constructed or reconstructed by the taxpayer shall be treated as purchased by the taxpayer. In determining the taxpayer's cost of purchasing a residence, there shall be included only so much of his cost as is attributable to the acquisition, construction, reconstruction, and improvements made which are properly chargeable to capital account, during the period specified in subsection (a).

(3) If a residence is purchased by the taxpayer before the date of his sale of the old residence, the purchased residence shall not be treated as his new residence if sold or otherwise disposed of by him before the date of the sale of the old residence.

(4) If the taxpayer, during the period described in subsection (a), purchases more than one residence which is used by him as his principal residence at some time within 1 year after the date of the sale of the old residence, only the last of such residences so used by him after the date of such sale shall constitute the new residence.

(5) In the case of a new residence the construction of which was commenced by the taxpayer before the expiration of one year after the date of the sale of the old residence, the period specified in subsection (a), and the 1 year referred to in paragraph (4) of this subsection, shall be treated as including a period of 18 months beginning with the date of the sale of the old residence.

(d) *Limitation.* Subsection (a) shall not apply with respect to the sale of the taxpayer's residence if within 1 year before the date of such sale the taxpayer sold at a gain other property used by him as his principal residence, and any part of such gain was not recognized by reason of subsection (a) or section 112 (n) of the Internal Revenue Code of 1939.

(e) *Basis of new residence.* Where the purchase of a new residence results, under subsection (a) or under section 112 (n) of the Internal Revenue Code of 1939, in the nonrecognition of gain on the sale of an old residence, in determining the adjusted basis of the new residence as of any time following the sale of the old residence, the adjustments to basis shall include a reduction by an amount equal to the amount of the gain not so recognized on the sale of the old residence. For this purpose, the amount of the gain not so recognized on the sale of the old residence includes only so much of such gain as is not recognized by reason of the cost, up to such time, of purchasing the new residence.

(f) *Tenant-stockholder in a cooperative housing corporation.* For purposes of this section, section 1016 (relating to adjustments to basis), and section 1223 (relating to holding period), references to property used by the taxpayer as his principal residence, and references to the residence of a taxpayer, shall include stock held by a tenant-stockholder (as defined in section 216, relating to deduction for amounts representing taxes and interest paid to a cooperative housing corporation) in a cooperative housing corporation (as defined in such section) if—

(1) In the case of stock sold, the house or apartment which the taxpayer was entitled to occupy as such stockholder was used by him as his principal residence, and

(2) In the case of stock purchased, the taxpayer used as his principal residence the house or apartment which he was entitled to occupy as such stockholder.

(g) *Husband and wife.* If the taxpayer and his spouse, in accordance with regulations which shall be prescribed by the Secretary or his delegate pursuant to this subsection, consent to the application of paragraph (2) of this subsection, then—

(1) For purposes of this section—

(A) The taxpayer's adjusted sales price of the old residence is the adjusted sales price (of the taxpayer, or of the taxpayer and his spouse) of the old residence, and

(B) The taxpayer's cost of purchasing the new residence is the cost (to the taxpayer, his spouse, or both) of purchasing the new residence (whether held by the taxpayer, his spouse, or the taxpayer and his spouse); and

(2) So much of the gain on the sale of the old residence as is not recognized solely by reason of this subsection, and so much of the adjustment under subsection (e) to the basis of the new residence as results solely from this subsection shall be allocated between the taxpayer and his spouse as provided in such regulations.

This subsection shall apply only if the old residence and the new residence are each used by the taxpayer and his spouse as their principal residence. In case the taxpayer and his spouse do not consent to the application of paragraph (2) of this subsection then the recognition of gain on the sale of the old residence shall be determined under this section without regard to the rules provided in this subsection.

(h) *Members of Armed Forces.* The running of any period of time specified in subsection (a) or (c) (other than the 1 year referred to in subsection (c) (4)) shall be suspended during any time that the taxpayer (or his spouse if the old residence and the new residence are each used by the taxpayer and his spouse as their principal residence) serves on extended active duty with the Armed Forces of the United States after the date of the sale of the old residence and during an induction period (as defined in section 112 (c) (5)) except that any such period of time as so suspended shall not extend beyond the date 4 years after the date of the sale of the old residence. For purposes of this subsection, the term "extended active duty" means any period of active duty pursuant to a call or order to such duty for a period in excess of 90 days or for an indefinite period.

(i) *Special rule for involuntary conversions*—(1) *In general.* For purposes of this section, the destruction, theft, seizure, requisition, or condemnation of property, or the sale or exchange of property under threat or imminence thereof—

(A) If occurring after December 31, 1950, and before January 1, 1954, shall be treated as the sale of such property; and

(B) If occurring after December 31, 1953, shall not be treated as the sale of such property.

(2) *Cross reference.* For treatment of residences involuntarily converted after December 31, 1953, see section 1033 (relating to involuntary conversions).

(j) *Statute of limitations.* If after December 31, 1950, the taxpayer during a taxable year sells at a gain property used by him as his principal residence, then—

(1) The statutory period for the assessment of any deficiency attributable to any part of such gain shall not expire before the expiration of 3 years from the date the Secretary or his delegate is notified by the taxpayer (in such manner as the Secretary or his delegate may by regulations prescribe) of—

(A) The taxpayer's cost of purchasing the new residence which the taxpayer claims results in nonrecognition of any part of such gain,

(B) The taxpayer's intention not to purchase a new residence within the period specified in subsection (a), or

(C) A failure to make such purchase within such period; and

(2) Such deficiency may be assessed before the expiration of such 3-year period notwithstanding the provisions of any other law or rule of law which would otherwise prevent such assessment.

§ 1.1034-1 *Sale or exchange of residence—(a) Nonrecognition of gain; general statement.* Section 1034 provides rules for the nonrecognition of gain in certain cases where a taxpayer sells one residence after December 31, 1953, and buys, or builds, and uses as his principal residence, another residence within specified time limits before or after such sale. In general, if the taxpayer invests in a new residence an amount at least as large as the adjusted sales price of his old residence, no gain is recognized on the sale of the old residence (see paragraph (b) of this section for definition of "adjusted sales price", "new residence", and "old residence"). On the other hand, if the new residence costs the taxpayer less than the adjusted sales price of the old residence, gain is recognized to the extent of the difference. Thus, if an amount equal to or greater than the adjusted sales price of an old residence is invested in a new residence, according to the rules stated in section 1034, none of the gain (if any) realized from the sale shall be recognized. If an amount less than such adjusted sales price is so invested, gain shall be recognized, but only to the extent provided in section 1034. If there is no investment in a new residence, section 1034 is inapplicable and all of the gain shall be recognized. Whenever, as a result of the application of section 1034, any or all of the gain realized on the sale of an old residence is not recognized, a corresponding reduction must be made in the basis of the new residence. The provisions of section 1034 are mandatory, so that the taxpayer cannot elect to have gain recognized under circumstances where this section is applicable. Section 1034 applies only to gains; losses are recognized or not recognized without regard to the provisions of this section. Section 1034 affects only the amount of gain recognized, and not the amount of gain realized (see also section 1001 and regulations issued thereunder). Any gain realized upon disposition of other property in exchange for the new residence is not affected by section 1034.

(b) *Definitions.* The following definitions of frequently used terms are applicable for purposes of section 1034 (other definitions and detailed explanations appear in subsequent paragraphs of this regulation):

(1) "Old residence" means property used by the taxpayer as his principal residence which is the subject of a sale by him after December 31, 1953 (section 1034 (a); for detailed explanation see paragraph (c) (3) of this section).

(2) "New residence" means property used by the taxpayer as his principal residence which is the subject of a purchase by him (section 1034 (a); for detailed explanation and limitations see paragraph (c) (3) and (d) (1) of this section).

(3) "Adjusted sales price" means the amount realized reduced by the fixing-up expenses (section 1034 (b) (1); for special rule applicable in some cases to husband and wife see paragraph (f) of this section).

(4) "Amount realized" is to be computed by subtracting

(i) The amount of the items which, in determining the gain from the sale of the old residence, are properly an offset against the consideration received upon the sale (such as commissions and expenses of advertising the property for sale, of preparing the deed, and of other legal services in connection with the sale); from

(ii) The amount of the consideration so received, determined (in accordance with section 1001 (b) and regulations issued thereunder) by adding to the sum of any money so received, the fair market value of the property (other than money) so received. If, as part of the consideration for the sale, the purchaser either assumes a liability of the taxpayer or acquires the old residence subject to a liability (whether or not the taxpayer is personally liable on the debt), such assumption or acquisition, in the amount of the liability, shall be treated as money received by the taxpayer in computing the "amount realized."

(5) "Gain realized" is the excess (if any) of the amount realized over the adjusted basis of the old residence (see also section 1001 (a) and regulations issued thereunder).

(6) "Fixing-up expenses" means the aggregate of the expenses for work performed (in any taxable year, whether beginning before, on, or after January 1, 1954) on the old residence in order to assist in its sale, provided that such expenses (i) are incurred for work performed during the 90-day period ending on the day on which the contract to sell the old residence is entered into; and (ii) are paid on or before the 30th day after the date of the sale of the old residence; and (iii) are neither (a) allowable as deductions in computing taxable income under section 63 (a), nor (b) taken into account in computing the amount realized from the sale of the old residence (section 1034 (b) (2) and (3)). "Fixing-up expenses" does no include expenditures which are properly chargeable to capital account and which would, therefore, constitute adjustments to the basis of the old residence (see section 1016 and regulations issued thereunder).

(7) "Cost of purchasing the new residence" means the total of all amounts which are attributable to the acquisition, construction, reconstruction, and improvements constituting capital expenditures, made during the period beginning one year before the date of sale of the old residence and ending either (i) one year after such date in the case of a new residence purchased but not constructed by the taxpayer, or (ii) 18 months after such date in the case of a new residence the construction of which was commenced by the taxpayer before the expiration of one year after such date (section 1034 (a), (c) (2) and (c) (5); for detailed explanation see paragraph (c) (4) of this section; for special rule applicable in some cases to husband and wife see paragraph (f) of this section; see also paragraph (b) (9) of this section for definition of "purchase").

(8) "Sale" (of a residence) means a sale or an exchange (of a residence) for other property either of which occurs after December 31, 1953, or an involuntary conversion (of a residence) which occurs after December 31, 1950, and before January 1, 1954 (section 1034 (c) (1) and (i) (1) (A); for detailed explanation concerning involuntary conversion see paragraph (h) of this section.

(9) "Purchase" (of a residence) means a purchase or an acquisition (of a residence) on the exchange of property or the partial or total construction or reconstruction (of a residence) by the taxpayer (section 1034 (c) (1) and (2)). However, the mere improvement of a residence, not amounting to reconstruction, does not constitute "purchase" of a residence.

(c) *Rules for application of section 1034—(1) General rule; limitations on applicability.* Gain realized from the sale (after December 31, 1953) of an old residence will be recognized only to the extent that the taxpayer's adjusted sales price of the old residence exceeds the taxpayer's cost of purchasing the new residence, provided that the taxpayer either (i) within a period beginning one year before the date of such sale and ending one year after such date purchases property and uses it as his principal residence, or (ii) within a period beginning one year before the date of such sale and ending 18 months after such date uses as his principal residence a new residence the construction of which was commenced by him at any time before the expiration of one year after the date of the sale of the old residence (section 1034 (a) and (c) (5); for detailed explanation of use as "principal residence" see subparagraph (3) of this paragraph). The rule stated in the preceding sentence applies to a new residence purchased by the taxpayer before the date of sale of the old residence provided the new residence is still owned by him on such date (section 1034 (c) (3)). Whether the construction of a new residence was commenced by the taxpayer

before the expiration of one year after the date of the sale of the old residence will depend upon the facts and circumstances of each case. Section 1034 is not applicable to the sale of a residence if within the previous year the taxpayer made another sale of residential property on which gain was realized but not recognized (section 1034 (d)). For further details concerning limitations on the application of section 1034, see paragraph (d) of this section.

(2) *Computation and examples.* In applying the general rule stated in subparagraph (1) of this paragraph, the taxpayer should first subtract the commissions and other selling expenses from the selling price of his old residence, to determine the amount realized. A comparison of the amount realized with the cost or other basis of the old residence will then indicate whether there is any gain realized on the sale. Unless the amount realized is greater than the cost or other basis, no gain is realized and section 1034 does not apply. If the amount realized exceeds the cost or other basis, the amount of such excess constitutes the gain realized. The amount realized should then be reduced by the fixing-up expenses (if any), to determine the adjusted sales price. A comparison of the adjusted sales price of the old residence with the cost of purchasing the new residence will indicate how much (if any) of the realized gain is to be recognized. If the cost of purchasing the new residence is the same as, or greater than, the adjusted sales price of the old residence, then none of the realized gain is to be recognized. On the other hand, if the cost of purchasing the new residence is smaller than the adjusted sales price of the old residence, the gain realized is to be recognized to the extent of the difference. (It should be noted that any amount of gain realized but not recognized is to be applied as a downward adjustment to the basis of the new residence (for details see paragraph (e) of this section).) The application of the general rule stated above may be illustrated by the following examples:

*Example (1).* A taxpayer decides to sell his residence, which has a basis of $17,500. To make it more attractive to buyers, he paints the outside at a cost of $300 in April, 1954. He pays for the painting when the work is finished. In May, 1954, he sells the house for $20,000. Brokers' commissions and other selling expenses are $1,000. In October, 1954, the taxpayer buys a new residence for $18,000. The amount realized, the gain realized, the adjusted sales price, and the gain to be recognized are computed as follows:

| | |
|---|---|
| Selling price | $20,000 |
| Less: Commissions and other selling expenses | 1,000 |
| Amount realized | 19,000 |
| Less: Basis | 17,500 |
| Gain realized | 1,500 |
| Amount realized | 19,000 |
| Less: Fixing-up expenses | 300 |
| Adjusted sales price | 18,700 |
| Cost of purchasing new residence | 18,000 |
| Gain recognized | 700 |
| Gain realized but not recognized | $800 |
| Adjusted basis of new residence (see paragraph (e) of this section) | 17,200 |

*Example (2).* The facts are the same as in example (1), except that the selling price of the old residence is $18,500. The computations are as follows:

| | |
|---|---|
| Selling price | $18,500 |
| Less: Commissions and other selling expenses | 1,000 |
| Amount realized | 17,500 |
| Less: Basis | 17,500 |
| Gain realized | 0 |

NOTE: Since no gain is realized, section 1034 is inapplicable; it is, therefore, unnecessary to compute the adjusted sales price of the old residence and compare it with the cost of purchasing the new residence. No adjustment to the basis of the new residence is to be made.

*Example (3).* The facts are the same as in example (1), except that the cost of purchasing the new residence is $17,000. The computations are as follows:

| | |
|---|---|
| Selling price | $20,000 |
| Less: Commissions and other selling expenses | 1,000 |
| Amount realized | 19,000 |
| Less: Basis | 17,500 |
| Gain realized | 1,500 |
| Amount realized | 19,000 |
| Less: Fixing-up expenses | 300 |
| Adjusted sales price | 18,700 |
| Cost of purchasing the new residence | 17,000 |
| Gain recognized | 1,500 |

NOTE: Since the adjusted sales price of the old residence exceeds the cost of purchasing the new residence by $1,700, which is more than the gain realized, all of the gain realized is recognized. No adjustment to the basis of the new residence is to be made.

| | |
|---|---|
| Gain realized but not recognized | $0 |

*Example (4).* The facts are the same as in example (1), except that the fixing-up expenses are $1,100. The computations are as follows:

| | |
|---|---|
| Selling price | $20,000 |
| Less: Commissions and other selling expenses | 1,000 |
| Amount realized | 19,000 |
| Less: Basis | 17,500 |
| Gain realized | 1,500 |
| Amount realized | 19,000 |
| Less: Fixing-up expenses | 1,100 |
| Adjusted sales price | 17,900 |
| Cost of purchasing the new residence | 18,000 |
| Gain recognized | 0 |

NOTE: Since the cost of purchasing the new residence exceeds the adjusted sales price, none of the gain realized is recognized.

| | |
|---|---|
| Gain realized but not recognized | $1,500 |
| Adjusted basis of new residence (see paragraph (e) of this section) | 16,500 |

(3) *Property used by the taxpayer as his principal residence.* (i) Whether or not property is used by the taxpayer as his residence, and whether or not property is used by the taxpayer as his principal residence (in the case of a taxpayer using more than one property as a residence), depends upon all the facts and circumstances in each case, including the good faith of the taxpayer. The mere fact that property is, or has been, rented is not determinative that such property is not used by the taxpayer as his principal residence. For example, if the taxpayer purchases his new residence before he sells his old residence, the fact that he temporarily rents out the new residence during the period before he vacates the old residence may not, in the light of all the facts and circumstances in the case, prevent the new residence from being considered as property used by the taxpayer as his principal residence. Property used by the taxpayer as his principal residence may include a houseboat, a house trailer, or stock held by a tenant-stockholder in a cooperative housing corporation (as those terms are defined in section 216 (b) (1) and (2)), if the dwelling which the taxpayer is entitled to occupy as such stockholder is used by him as his principal residence (section 1034 (f)). Property used by the taxpayer as his principal residence does not include personal property such as a piece of furniture, a radio, etc., which, in accordance with the applicable local law, is not a fixture.

(ii) Where part of a property is used by the taxpayer as his principal residence and part is used for other purposes, an allocation must be made to determine the application of this section. If the old residence is used only partially for residential purposes, only that part of the gain allocable to the residential portion is not to be recognized under this section and only an amount allocable to the selling price of such portion need be invested in the new residence in order to have the gain allocable to such portion not recognized under this section. If the new residence is used only partially for residential purposes only so much of its cost as is allocable to the residential portion may be counted as the cost of purchasing the new residence.

(4) *Cost of purchasing new residence.* (i) The taxpayer's cost of purchasing the new residence includes not only cash but also any indebtedness to which the property purchased is subject at the time of purchase whether or not assumed by the taxpayer (including purchase-money mortgages, etc.) and the face amount of any liabilities of the taxpayer which are part of the consideration for the purchase. Commissions and other purchasing expenses paid or incurred by the taxpayer on the purchase of the new residence are to be included in determining such cost. In the case of an acquisition of a residence upon an exchange which is considered as a "purchase" under this section, the fair market value of the new residence on the date of the exchange shall be considered as the taxpayer's cost of purchasing the new residence. Where any part of the new residence is acquired by the taxpayer other than by "purchase", the value of such part is not to be included in determining the taxpayer's cost of the new residence (see paragraph (b) (9) of this section for definition of "purchase"). For example, if the taxpayer acquires a residence by gift or inheritance, and spends $20,000 in reconstructing such residence, only such $20,000 may be treated as his cost of purchasing the new residence.

(ii) The taxpayer's cost of purchasing the new residence includes only so much of such cost as is attributable to acquisition, construction, reconstruction, or improvements made within the 2-year or 30-month period of time, as the case may be, in which the purchase and use of the new residence must be made in order to have gain on the sale of the old residence not recognized under this section. Thus, if the construction of the new residence is begun two years before the date of sale of the old residence and completed on the date of sale of the old residence, only that portion of the cost which is attributable to the second year of such construction constitutes the taxpayer's cost of purchasing the new residence, for purposes of section 1034. Furthermore, the taxpayer's cost of purchasing the new residence includes only such amounts as are properly chargeable to capital account rather than to current expense. As to what constitutes capital expenditures, see section 263.

(iii) The provisions of this subparagraph may be illustrated by the following example:

*Example.* M began the construction of a new residence on January 15, 1955, and completed it on October 14, 1955. The cost of $18,000 was incurred ratably over the 9-month period of construction. On July 14, 1956, M sold his old residence and realized a gain of $7,200. In determining the extent to which the realized gain is not to be recognized under section 1034, M's cost of constructing the new residence shall include only the $6,000 which was attributable to the July 15–October 14, 1955, period (3 months at $2,000). The $12,000 balance of the cost of constructing the new residence was not attributable to the period beginning one year before the date of sale of the old residence and ending 18 months after such date and, under section 1034, is not properly a part of M's cost of constructing the new residence.

(d) *Limitations on application of section 1034.* (1) If a residence is purchased by the taxpayer prior to the date of the sale of the old residence, the purchased residence shall, in no event, be treated as a new residence if such purchased residence is sold or otherwise disposed of by him prior to the date of the sale of the old residence (section 1034 (c) (3)). And, if the taxpayer, during the period within which the purchase and use of the new residence must be made in order to have any gain on the sale of the old residence not recognized under this section, purchases more than one property which is used by him as his principal residence during the one year (or 18 months in the case of the construction of the new residence) succeeding the date of the sale of the old residence, only the last of such properties shall be considered a new residence (section 1034 (c) (4)). If within one year before the date of the sale of the old residence, the taxpayer sold other property used by him as his principal residence at a gain, and any part of such gain was not recognized under this section or section 112 (n) of the Internal Revenue Code of 1939, this section shall not apply with respect to the sale of the old residence (section 1034 (d)).

(2) The following example will illustrate the rules of subparagraph (1) of this paragraph:

*Example.* A taxpayer sells his old residence on January 15, 1954, and purchases another residence on February 15, 1954. On March 15, 1954, he sells the residence which he bought on February 15, 1954, and purchases another residence on April 15, 1954. The gain on the sale of the old residence on January 15, 1954, will not be recognized except to the extent to which the taxpayer's adjusted sales price of the old residence exceeds the cost of purchasing the residence which he purchased on April 15, 1954. Gain on the sale of the residence which was bought on February 15, 1954, and sold on March 15, 1954, will be recognized.

(e) *Basis of new residence.* (1) Where the purchase of a new residence results, under this section, in the nonrecognition of any part of the gain realized upon the sale of an old residence, then, in determining the adjusted basis of the new residence as of any time following the sale of the old residence, the adjustments to basis shall include a reduction by an amount equal to the amount of the gain which was not recognized upon the sale of the old residence (section 1034 (e); for special rule applicable in some cases to husband and wife, see paragraph (f) of this section). Such a reduction is not to be made for the purpose of determining the adjusted basis of the new residence as of any time preceding the sale of the old residence. For the purpose of this determination, the amount of the gain not recognized under this section upon the sale of the old residence includes only so much of the gain as is not recognized because of the taxpayer's cost, up to the date of the determination of the adjusted basis, of purchasing the new residence.

(2) The following example will illustrate the rule of subparagraph (1) of this paragraph:

*Example.* On January 1, 1954, the taxpayer buys a new residence for $10,000. On March 1, 1954, he sells for an adjusted sales price of $15,000 his old residence, which has an adjusted basis to him of $5,000 (no fixing-up expenses are involved, so that $15,000 is the "amount realized" as well as the "adjusted sales price"). Between April 1 and April 15 a wing is constructed on the new house at a cost of $5,000. Between May 1 and May 15 a garage is constructed at a cost of $2,000. The adjusted basis of the new residence is $10,000 during January and February, $5,000 during March, $5,000 following the completion of the construction in April, and $7,000 following the completion of the construction in May. Since the old residence was not sold until March 1, no adjustment to the basis of the new residence is made during January and February. Computations for March, April, and May are as follows:

| | |
|---|---|
| *March 1, 1954* | |
| Amount realized on sale of old residence | $15,000 |
| Less: Adjusted basis of old residence | 5,000 |
| Gain realized on sale of old residence | 10,000 |
| Adjusted sales price of old residence | $15,000 |
| Less: Cost of purchasing new residence | 10,000 |
| Gain recognized | $5,000 |
| Gain realized but not recognized | 5,000 |
| Cost of purchasing new residence | 10,000 |
| Less: Gain realized but not recognized | 5,000 |
| Adjusted basis of new residence | 5,000 |
| *April 15, 1954* | |
| Gain realized on sale of old residence | $10,000 |
| Adjusted sales price of old residence | 15,000 |
| Less: Cost of purchasing new residence | 15,000 |
| Gain recognized | 0 |
| Gain realized but not recognized | 10,000 |
| Cost of purchasing new residence | 15,000 |
| Less: Gain realized but not recognized | 10,000 |
| Adjusted basis of new residence | 5,000 |
| *May 15, 1954* | |
| Gain realized on sale of old residence | $10,000 |
| Adjusted sales price of old residence | 15,000 |
| Less: Cost of purchasing new residence | 17,000 |
| Gain recognized | 0 |
| Gain realized but not recognized | 10,000 |
| Cost of purchasing new residence | 17,000 |
| Less: Gain realized but not recognized | 10,000 |
| Adjusted basis of new residence | 7,000 |

(f) *Husband and wife.* (1) If the taxpayer and his spouse file the consent referred to in this paragraph, then the "taxpayer's adjusted sales price of the old residence" shall mean the taxpayer's, or the taxpayer's and his spouse's, adjusted sales price of the old residence, and the "taxpayer's cost of purchasing the new residence" shall mean the cost to the taxpayer, or to his spouse, or to both of them, of purchasing the new residence, whether such new residence is held by the taxpayer, or his spouse, or both (section 1034 (g)). Such consent may be filed only if the old residence and the new residence are each used by the taxpayer and his same spouse as their principal residence. If the taxpayer and his spouse do not file such a consent, the recognition of gain upon sale of the old residence shall be determined under this section without regard to the foregoing.

(2) The consent referred to in subparagraph (1) of this paragraph is a consent by the taxpayer and his spouse to have the basis of the interest of either of them in the new residence reduced from what it would have been but for the filing of such consent by an amount by which the gain of either of them on the sale of his interest in the old residence is not recognized solely by reason of the filing of such consent. Such reduction in basis is applicable to the basis of the new residence, whether such basis is that of the husband, of the wife, or divided between them. If the basis is divided between the husband and wife, the reduction in basis shall be divided between them in the same proportion as the basis (determined without regard to such reduction) is divided. Such con-

sent shall be filed with the district director with whom the taxpayer filed the return for the taxable year or years in which the gain from the sale of the old residence was realized.

(3) The following examples will illustrate the application of this rule:

*Example (1).* A taxpayer, in 1954, sells for an adjusted sales price of $10,000 the principal residence of himself and his wife, which he owns individually and which has an adjusted basis to him of $5,000 (no fixing-up expenses are involved, so that $10,000 is the "amount realized" as well as the "adjusted sales price"). Within a year after such sale he and his wife contribute $5,000 each from their separate funds for the purchase of their new principal residence which they hold as tenants in common, each owning an undivided one-half interest therein. If the taxpayer and his wife file the required consent, the gain of $5,000 upon the sale of the old residence will not be recognized to the taxpayer, and the adjusted basis of the taxpayer's interest in the new residence will be $2,500 and the adjusted basis of his wife's interest in such property will be $2,500.

*Example (2).* A taxpayer and his wife, in 1954, sell for an adjusted sales price of $10,000 their principal residence, which they own as joint tenants and which has an adjusted basis of $2,500 to each of them ($5,000 together) (no fixing-up expenses are involved, so that $10,000 is the "amount realized" as well as the "adjusted sales price"). Within a year after such sale, the wife spends $10,000 of her own funds in the purchase of a principal residence for herself and the taxpayer and takes title in her name only. If the taxpayer and his wife file the required consent, the adjusted basis to the wife of the new residence will be $5,000, and the gain of the taxpayer of $2,500 upon the sale of the old residence will not be recognized. The wife, as a taxpayer herself, will have her gain of $2,500 on the sale of the old residence not recognized under the general rule.

(g) *Members of Armed Forces.* (1) Section 1034 (h) provides a special rule for members of the Armed Forces with respect to the period after the sale of the old residence within which the acquisition of a new residence may result in a nonrecognition of gain on such sale. The running of the 1-year period after the sale of the old residence in the case of the purchase of a new residence, or the 18-month period after such sale in the case of the construction of a new residence, is suspended during any time that the taxpayer serves on extended active duty with the Armed Forces of the United States during an induction period (as defined in section 112 (c) (5)). However, in no event may such suspension extend for more than four years after the date of the sale of the old residence the period within which the purchase or construction of a new residence may result in a nonrecognition of gain. For example, if the taxpayer is on extended active duty with the Army from January 1, 1951, to December 31, 1953, and if he sold his old residence on January 1, 1951, the latest date on which the taxpayer may use a new residence constructed by him and have any part of the gain on the sale of the old residence not recognized under this section is January 1, 1955, the date four years after the date of sale of the old residence.

(2) This suspension covers not only the Armed Forces service of the taxpayer but if the taxpayer and his same spouse used both the old and the new residences as their principal residence, then the extension applies in like manner to the time the taxpayer's spouse is on extended active duty with the Armed Forces of the United States.

(3) The time during which the running of the period is suspended is part of such period. Thus, construction costs during such time are includible in the cost of purchasing the new residence under paragraph (c) (4) of this section.

(4) The running of the 1-year (or 18-month) period after the date of sale of the old residence referred to in section 1034 (c) (4) and in paragraph (d) of this section is not suspended; neither is the running of the 1-year period prior to the date of the sale of the old residence within which the new residence may be purchased in order to have gain on the sale of the old residence not recognized under this section.

(5) The term "extended active duty" means any period of active duty which is served pursuant to a call or order to such duty for a period in excess of 90 days or for an indefinite period. If the call or order is for a period of more than 90 days, it is immaterial that the time served pursuant to such call or order is less than 90 days, if the reason for such shorter period of service occurs after the beginning of such duty. As to what constitutes active service as a member of the Armed Forces of the United States, see § 1.112–1 (i). As to who are members of the Armed Forces of the United States, see section 7701 (a) (15), and the regulations thereunder.

(h) *Special rule for involuntary conversions.* Section 1034 is inapplicable to involuntary conversions of personal residences occurring after December 31, 1953 (section 1034 (i) (1) (B)). However, for purposes of section 1034, an involuntary conversion of a personal residence occurring after December 31, 1950, and before January 1, 1954, is treated as a sale of such residence (section 1034 (i) (1) (A); see paragraph (b) (8) of this section). For the purposes of this section an involuntary conversion is defined as the destruction in whole or in part, theft, seizure, requisition, or condemnation of property, or the sale or exchange of property under threat or imminence thereof. See section 1033 for treatment of residences involuntarily converted after December 31, 1953.

(i) *Statute of limitations.* (1) Whenever a taxpayer sells property used as his principal residence at a gain, the statutory period prescribed in section 6501 (a) for the assessment of a deficiency attributable to any part of such gain shall not expire prior to the expiration of three years from the date of receipt, by the district director with whom the return was filed for the taxable year or years in which the gain from the sale of the old residence was realized (section 1034 (j)), of a written notice from the taxpayer of—

(i) The taxpayer's cost of purchasing the new residence which the taxpayer claims result in nonrecognition of any part of such gain,

(ii) The taxpayer's intention not to purchase a new residence within the period when such a purchase will result in nonrecognition of any part of such gain, or

(iii) The taxpayer's failure to make such a purchase within such period.

Any gain from the sale of the old residence which is required to be recognized shall be included in gross income for the taxable year or years in which such gain was realized. Any deficiency attributable to any portion of such gain may be assessed before the expiration of the 3-year period described in this paragraph, notwithstanding the provisions of any law or rule of law which might otherwise bar such assessment.

(2) The notification required by the preceding subparagraph shall contain all pertinent details in connection with the sale of the old residence and, where applicable, the purchase price of the new residence. The notification shall be in the form of a written statement and shall be accompanied, where appropriate, by an amended return for the year in which the gain from the sale of the old residence was realized, in order to reflect the inclusion in gross income for that year of gain required to be recognized in connection with such sale.

(j) *Effective date.* Pursuant to section 7851 (a) (1) (C), paragraphs (a), (b), (c), (d), (f), (g), and (i) of this section apply in the case of any "sale" (as defined in subparagraph (8) of paragraph (b) of this section) made after December 31, 1953, although such sale may occur in a taxable year subject to the Internal Revenue Code of 1939. Similarly, the rule in paragraph (h) of this section that involuntary conversions of personal residences are not to be treated as sales for purposes of section 1034 but are governed by section 1033 applies to any such involuntary conversion made after December 31, 1953, although such involuntary conversion may occur in a taxable year subject to the Internal Revenue Code of 1939. The rule in paragraph (e) of this section requiring an adjustment to the basis of a new residence, the purchase of which results (under section 1034, or section 112 (n) of the Internal Revenue Code of 1939) in the nonrecognition of gain on the sale of an old residence, applies in determining the adjusted basis of the new residence at any time following such sale, although such sale may occur in a taxable year subject to the Internal Revenue Code of 1939.

(Sec. 7805, 68A Stat. 917; 26 U. S. C. 7805. Interpret or apply sec. 1034, 68A Stat. 306; 26 U. S. C. 1034)

[SEAL] RUSSEL C. HARRINGTON,
*Commissioner of Internal Revenue.*

Approved: May 29, 1956.

DAN THROOP SMITH,
*Special Assistant to the Secretary in Charge of Tax Policy*

[T. D. 6178]

## PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

### GAIN OR LOSS ON DISPOSITION OF PROPERTY

On December 1, 1955, notice of proposed rule making regarding the regulations for taxable years beginning after December 31, 1953, and ending after August 16, 1954, under parts IV, V, VI, and VII of subchapter O of chapter 1 (relating to gain or loss on disposition of property) of the Internal Revenue Code of 1954, was published in the FEDERAL REGISTER (20 F. R. 8816). After consideration of all such relevant matter as was presented by interested parties regarding the rules proposed, the following regulations are hereby adopted:

Sec.
1.1051 Statutory provisions; property acquired during affiliation.
1.1051–1 Basis of property acquired during affiliation.
1.1052 Statutory provisions; basis established by the Revenue Act of 1932 or 1934 or by the Internal Revenue Code of 1939.
1.1052–1 Basis of property established by Revenue Act of 1932.
1.1052–2 Basis of property established by Revenue Act of 1934.
1.1052–3 Basis of property established by the Internal Revenue Code of 1939.
1.1053 Statutory provisions; basis of property acquired before March 1, 1913.
1.1053–1 Property acquired before March 1, 1913.
1.1054 Statutory provisions; cross references.

CHANGES TO EFFECTUATE F. C. C. POLICY

1.1071 Statutory provisions; gain from sale or exchange to effectuate policies of Federal Communications Commission.
1.1071–1 Gain from sale or exchange to effectuate policies of Federal Communications Commission.
1.1071–2 Nature and effect of election.
1.1071–3 Reduction of basis of property pursuant to election under section 1071.
1.1071–4 Manner of election.

EXCHANGES IN OBEDIENCE TO S. E. C. ORDERS

1.1081 Statutory provisions; exchanges and distributions in obedience to orders of the Securities and Exchange Commission; nonrecognition of gain or loss.
1.1081–1 Terms used.
1.1081–2 Purpose and scope of exception.
1.1081–3 Exchanges of stock or securities solely for stock or securities.
1.1081–4 Exchanges of property for property by corporations.
1.1081–5 Distribution solely of stock or securities.
1.1081–6 Transfers within system group.
1.1081–7 Sale of stock or securities received upon exchange by members of system group.
1.1081–8 Exchanges in which money or other nonexempt property is received.
1.1081–9 Requirements with respect to order of Securities and Exchange Commission.
1.1081–10 Nonapplication of other provisions of the Internal Revenue Code of 1954.
1.1081–11 Records to be kept and information to be filed with returns.
1.1082 Statutory provisions; basis of property acquired in exchanges and distributions made in obedience to orders of the Securities and Exchange Commission.
1.1082–1 Basis for determining gain or loss.
1.1082–2 Basis of property acquired upon exchanges under section 1081 (a) or (e).
1.1082–3 Reduction of basis of property by reason of gain not recognized under section 1081 (b).
1.1082–4 Basis of property acquired by corporation under section 1081 (a), 1081 (b), or 1081 (e) as contribution of capital or surplus, or in consideration for its own stock or securities.
1.1082–5 Basis of property acquired by shareholder upon tax-free distribution under section 1081 (c) (1) or (2).
1.1082–6 Basis of property acquired under section 1081 (d) in transactions between corporations of the same system group.
1.1083 Statutory provisions; exchanges and distributions in obedience to orders of the Securities and Exchange Commission; definitions.
1.1083–1 Definitions.

WASH SALES OF STOCKS OR SECURITIES

1.1091 Statutory provisions; losses from wash sales of stock or securities; basis.
1.1091–1 Losses from wash sales of stock or securities.
1.1091–2 Basis of stocks or securities acquired in "wash sales".

AUTHORITY: §§ 1.1051 to 1.1091–2 issued under sec. 7805, 68A Stat. 971; 26 U. S. C. 7805. Interpret or apply secs. 1051, 1071, 1081, 1082, 1091; 68A Stat. 310, 311, 312, 315, 319; 26 U. S. C. 1051, 1071, 1081, 1082, 1091.

### SPECIAL RULES

**§ 1.1051 *Statutory provisions; property acquired during affiliation.***

SEC. 1051. *Property acquired during affiliation.* In the case of property acquired by a corporation, during a period of affiliation, from a corporation with which it was affiliated, the basis of such property, after such period of affiliation, shall be determined in accordance with regulations prescribed by the Secretary or his delegate, without regard to inter-company transactions in respect of which gain or loss was not recognized. For purposes of this section, the term "period of affiliation" means the period during which such corporations were affiliated (determined in accordance with the law applicable thereto) but does not include any taxable year beginning on or after January 1, 1922, unless a consolidated return was made, nor any taxable year after the taxable year 1928. The basis in case of property acquired by a corporation during any period, in the taxable year 1929 or any subsequent taxable year, in respect of which a consolidated return was made by such corporation under chapter 6 of this subtitle (sec. 1501 and following) or under section 141 of the Internal Revenue Code of 1939 or of the Revenue Act of 1938, 1936, 1934, 1932, or 1928 shall be determined in accordance with regulations prescribed under section 1502 or in accordance with regulations prescribed under the appropriate section 141, as the case may be. The basis in the case of property held by a corporation during any period, in the taxable year 1929 or any subsequent taxable year, in respect of which a consolidated return was made by such corporation under chapter 6 of this subtitle or such section 141 shall be adjusted in respect of any items relating to such period, in accordance with regulations prescribed under section 1502 or in accordance with regulations prescribed under the appropriate section 141, as the case may be.

**§ 1.1051–1 *Basis of property acquired during affiliation.*** (a) (1) The basis of property acquired by a corporation during a period of affiliation from a corporation with which it was affiliated shall be the same as it would be in the hands of the corporation from which acquired. This rule is applicable if the basis of the property is material in determining tax liability for any year, whether a separate return or a consolidated return is made in respect of such year. For the purpose of this section, the term "period of affiliation" means the period during which such corporations were affiliated (determined in accordance with the law applicable thereto), but does not include any taxable year beginning on or after January 1, 1922, unless a consolidated return was made, nor any taxable year after the taxable year 1928.

(2) The application of subparagraph (1) of this paragraph may be illustrated by the following example:

*Example.* The X Corporation, the Y Corporation, and the Z Corporation were affiliated for the taxable year 1920. During that year the X Corporation transferred assets to the Y Corporation for $120,000 cash, and the Y Corporation in turn transferred the assets during the same year to the Z Corporation for $130,000 cash. The assets were acquired by the X Corporation in 1916 at a cost of $100,000. The basis of the assets in the hands of the Z Corporation is $100,000.

(b) The basis of property acquired by a corporation during any period, in the taxable year 1929 or any subsequent taxable year, in respect of which a consolidated return was made or was required under the regulations governing the making of consolidated returns, shall be determined in accordance with such regulations. The basis in the case of property held by a corporation during any period, in the taxable year 1929 or any subsequent taxable year, in respect of which a consolidatd return is made or is required under the regulations governing the making of consolidated returns, shall be adjusted in respect of any items relating to such period in accordance with such regulations.

(c) Except as otherwise provided in the regulations promulgated under section 1502, or the regulations under section 141 of the Internal Revenue Code of 1939 or the Revenue Acts of 1938, 1936, 1934, 1932, or 1928, the basis of property after a consolidated return period shall be the same as the basis immediately prior to the close of such period.

**§ 1.1052 *Statutory provisions; basis established by the Revenue Act of 1932 or 1934 or by the Internal Revenue Code of 1939.***

SEC. 1052. *Basis established by the Revenue Act of 1932 or 1934 or by the Internal Revenue Code of 1939.*—(a) *Revenue Act of 1932.* If the property was acquired, after February 28, 1913, in any taxable year beginning before January 1, 1934, and the basis thereof, for purposes of the Revenue Act of 1932 was prescribed by section 113 (a) (6), (7), or (9) of such Act (47 Stat. 199), then for purposes of this subtitle the basis shall be the same as the basis therein prescribed in the Revenue Act of 1932.

(b) *Revenue Act of 1934.* If the property was acquired, after February 28, 1913, in any taxable year beginning before January 1, 1936, and the basis thereof, for purposes of the Revenue Act of 1934, was prescribed by section 113 (a) (6), (7), or (8) of such Act (48 Stat. 706), then for purposes of this subtitle the basis shall be the same as the basis therein prescribed in the Revenue Act of 1934.

(c) *Internal Revenue Code of 1939.* If the property was acquired, after February 28,

1913, in a transaction to which the Internal Revenue Code of 1939 applied, and the basis thereof, for purposes of the Internal Revenue Code of 1939, was prescribed by section 113 (a) (6), (7), (8), (13), (15), (18), (19), or (23) of such code, then for purposes of this subtitle the basis shall be the same as the basis therein prescribed in the Internal Revenue Code of 1939.

§ 1.1052–1 *Basis of property established by Revenue Act of 1932.* Section 1052 (a) provides that if property was acquired after February 28, 1913, in any taxable year beginning before January 1, 1934, and the basis of the property, for the purposes of the Revenue Act of 1932, was prescribed by section 113 (a) (6), (7), or (9) of that act, then for purposes of subtitle A the basis shall be the same as the basis prescribed in the Revenue Act of 1932. For the rules applicable in determining the basis of stocks or securities under section 113 (a) (9) of the Revenue Act of 1932 in case of certain distributions after December 31, 1923, and in any taxable year beginning before January 1, 1934, see 26 CFR (1939) 39.113 (a) (12)–1 (Regulations 118).

§ 1.1052–2 *Basis of property established by Revenue Act of 1934.* Section 1052 (b) provides that if property was acquired after February 28, 1913, in any taxable year beginning before January 1, 1936, and the basis of the property for the purposes of the Revenue Act of 1934 was prescribed by section 113 (a) (6), (7), or (8) of that act, then for purposes of subtitle A the basis shall be the same as the basis prescribed in the Revenue Act of 1934. For example, if after December 31, 1920, and in any taxable year beginning before January 1, 1936, property was acquired by a corporation by the issuance of its stock or securities in connection with a transaction which is not described in section 112 (b) (5) of the Internal Revenue Code of 1939 but which is described in section 112 (b) (5) of the Revenue Act of 1934, the basis of the property so acquired shall be the same as it would be in the hands of the transferor, with proper adjustments to the date of the exchange.

§ 1.1052–3 *Basis of property established by the Internal Revenue Code of 1939.* Section 1052 (c) provides that if property was acquired after February 28, 1913, in a transaction to which the Internal Revenue Code of 1939 applied and the basis thereof was prescribed by section 113 (a) (6), (7), (8), (13), (15), (18), (19) or (23) of such code, then for purposes of subtitle A the basis shall be the same as the basis prescribed in the Internal Revenue Code of 1939. In such cases see section 113 (a) of the Internal Revenue Code of 1939 and the regulations thereunder.

§ 1.1053 *Statutory provisions; basis of property acquired before March 1, 1913.*

SEC. 1053. *Property acquired before March 1, 1913.* In the case of property acquired before March 1, 1913, if the basis otherwise determined under this part, adjusted (for the period before March 1, 1913) as provided in section 1016, is less than the fair market value of the property as of March 1, 1913, then the basis for determining gain shall be such fair market value. In determining the fair market value of stock in a corporation as of March 1, 1913, due regard shall be given to the fair market value of the assets of the corporation as of that date.

§ 1.1053–1 *Property acquired before March 1, 1913—*(a) *Basis for determining gain.* In the case of property acquired before March 1, 1913, the basis as of March 1, 1913, for determining gain is the cost or other basis, adjusted as provided in section 1016 and other applicable provisions of chapter 1, or its fair market value as of March 1, 1913, whichever is greater.

(b) *Basis for determining loss.* In the case of property acquired before March 1, 1913, the basis as of March 1, 1913, for determining loss is the basis determined in accordance with part II of subchapter O, or other applicable provisions of chapter 1, without reference to the fair market value as of March 1, 1913.

(c) *Example.* The application of paragraphs (a) and (b) of this section may be illustrated by the following example:

*Example.* (i) On March 1, 1908, a taxpayer purchased for $100,000, property having a useful life of 50 years. Assuming that there were no capital improvements to the property, the depreciation sustained on the property before March 1, 1913, was $10,000 (5 years @ $2,000), so that the original cost adjusted, as of March 1, 1913, for depreciation sustained prior to that date is $90,000. On that date the property had a fair market value of $94,500 with a remaining life of 45 years.

(ii) For the purpose of determining gain from the sale or other disposition of the property on March 1, 1954, the basis of the property is the fair market value of $94,500 as of March 1, 1913, adjusted for depreciation allowed or allowable after February 28, 1913, computed on $94,500. Thus, the substituted basis, $94,500, is reduced by the depreciation adjustment from March 1, 1913, to February 28, 1954, in the aggregate of $86,100 (41 years @ $2,100), leaving an adjusted basis for determining gain of $8,400 ($94,500 less $86,100).

(iii) For the purpose of determining loss from the sale or other disposition of such property on March 1, 1954, the basis of the property is its cost, adjusted for depreciation sustained before March 1, 1913, computed on cost, and the amount of depreciation allowed or allowable after February 28, 1913, computed on the fair market value of $94,500 as of March 1, 1913. In this example, the amount of depreciation sustained before March 1, 1913, is $10,000 and the amount of depreciation determined for the period after February 28, 1913, is $86,100. Therefore, the aggregate amount of depreciation for which the cost ($100,000) should be adjusted is $96,100 ($10,000 plus $86,100), and the adjusted basis for determining loss on March 1, 1954, is $3,900 ($100,000 less $96,100).

(d) *Fair market value.* The determination of the fair market value of property on March 1, 1913, is generally a question of fact and shall be established by competent evidence. In determining the fair market value of stock or other securities, due regard shall be given to the fair market value of the corporate assets as of such date, and other pertinent factors. In the case of property traded in on public exchanges, actual sales on or near the basic date afford evidence of value. In general, the fair market value of a block or aggregate of a particular kind of property is not to be determined by a forced-sale price, or by an estimate of what a whole block or aggregate would bring if placed upon the market at one and the same time. In such a case the value should be determined by ascertaining as the basis the fair market value of each unit of the property. All relevant facts and elements of value as of the basic date should be considered in each case.

§ 1.1054 *Statutory provisions; cross references.*

SEC. 1054. *Cross references.* (1) For nonrecognition of gain in connection with the transfer of obsolete vessels to the Maritime Administration under section 510 of the Merchant Marine Act, 1936, see subsection (e) of that section, as amended August 4, 1939 (46 U. S. C. 1160).

(2) For recognition of gain or loss in connection with the construction of new vessels, see section 511 of such Act, as amended (46 U. S. C. 1161).

(3) For nonrecognition of gain in connection with vessels exchanged with the Maritime Administration under section 8 of the Merchant Ship Sales Act of 1946, see subsection (a) of that section (50 U. S. C. App. 1741).

CHANGES TO EFFECTUATE F. C. C. POLICY

§ 1.1071 *Statutory provisions; gain from sale or exchange to effectuate policies of Federal Communications Commission.*

SEC. 1071. *Gain from sale or exchange to effectuate policies of F. C. C.—*(a) *Nonrecognition of gain or loss.* If the sale or exchange of property (including stock in a corporation) is certified by the Federal Communications Commission to be necessary or appropriate to effectuate the policies of the Commission with respect to the ownership and control of radio broadcasting stations, such sale or exchange shall, if the taxpayer so elects, be treated as an involuntary conversion of such property within the meaning of section 1033. For purposes of such section as made applicable by the provisions of this section, stock of a corporation operating a radio broadcasting station, whether or not representing control of such corporation, shall be treated as property similar or related in service or use to the property so converted. The part of the gain, if any, on such sale or exchange to which section 1033 is not applied shall nevertheless not be recognized, if the taxpayer so elects, to the extent that it is applied to reduce the basis for determining gain or loss on sale or exchange of property, of a character subject to the allowance for depreciation under section 167, remaining in the hands of the taxpayer immediately after the sale or exchange, or acquired in the same taxable year. The manner and amount of such reduction shall be determined under regulations prescribed by the Secretary or his delegate. Any election made by the taxpayer under this section shall be made by a statement to that effect in his return for the taxable year in which the sale or exchange takes place, and such election shall be binding for the taxable year and all subsequent taxable years.

(b) *Basis.* For basis of property acquired on a sale or exchange treated as an involuntary conversion under subsection (a), see section 1033 (c).

§ 1.1071–1 *Gain from sale or exchange to effectuate policies of Federal Communications Commission.* (a) At the election of the taxpayer, section 1071 in effect postpones the recognition of gain upon the sale or exchange of property, if the Federal Communications Commission certifies such sale or exchange to be necessary or appropriate to effectuate the policies of the Commission with respect to the ownership and control of radio broadcasting stations. Any taxpayer desiring to obtain the benefits of section 1071 shall file with the Commissioner of Internal Revenue, or the district director of internal revenue for the district in which the income tax return of the taxpayer is required to be filed, a certificate from the Federal Communications Commission clearly identifying the property and showing that the sale or exchange of such property is necessary or appropriate to effectuate the policies of the Commission with respect to the ownership and control of radio broadcasting stations. Such certificate shall be accompanied by a detailed statement showing: The kind of property, the date of acquisition, the cost or other basis of the property, the date of sale or exchange, the name and address of the transferee, and the amount of money and the fair market value of the property other than money received upon such sale or exchange.

(b) Section 1071 applies only in the case of a sale or exchange made necessary by reason of the Federal Communications Commission's policies as to ownership or control of radio facilities. Section 1071 does not apply in the case of a sale or exchange made necessary as a result of other matters, such as the operation of a broadcasting station in a manner determined by the Commission to be not in the public interest or in violation of Federal or State law.

(c) An election to have the benefits of section 1071 shall be made in the manner prescribed in § 1.1071–4.

(d) For purposes of section 1071, the term "radio broadcasting" includes telecasting.

§ 1.1071–2 *Nature and effect of election—*(a) *Alternative elections.* (1) A taxpayer entitled to the benefits of section 1071 in respect of a sale or exchange of property may elect—

(i) To treat such sale or exchange as an involuntary conversion under the provisions of section 1033; or

(ii) To treat such sale or exchange as an involuntary conversion under the provisions of section 1033, and in addition elect to reduce the basis of property, in accordance with the regulations prescribed in § 1.1071–3, by all or part of the gain that would otherwise be recognized under section 1033; or

(iii) To reduce the basis of property, in accordance with the regulations prescribed in § 1.1071–3, by all or part of the gain realized upon the sale or exchange.

(2) The effect of the provisions of subparagraph (1) of this paragraph is, in general, to grant the taxpayer an election to treat the proceeds of the sale or exchange as the proceeds of an involuntary conversion subject to the provisions of section 1033, and a further election to reduce the basis of certain property owned by the taxpayer by the amount of the gain realized upon the sale or exchange to the extent of that portion of the proceeds which is not treated as the proceeds of an involuntary conversion.

(3) An election in respect to a sale or exchange under section 1071 shall be irrevocable and binding for the taxable year in which the sale or exchange takes place and for all subsequent taxable years.

(b) *Application of section 1033.* (1) If the taxpayer elects, under either paragraph (a) (1) (i) or (ii) of this section, to treat the sale or exchange as an involuntary conversion, the provisions of section 1033, as modified by section 1071, together with the regulations prescribed under such sections, shall be applicable in determining the amount of recognized gain and the basis of property acquired as a result of such sale or exchange. For the purposes of section 1071 and the regulations thereunder, stock of a corporation operating a radio broadcasting station shall be treated as property similar or related in service or use to the property sold or exchanged. Securities of such a corporation other than stock, or securities of a corporation not operating a radio broadcasting station, do not constitute property similar or related in service or use to the property sold or exchanged. If the taxpayer exercises the election referred to in paragraph (a) (1) (i) of this section, the gain realized upon such sale or exchange shall be recognized to the extent of that part of the money received upon the sale or exchange which is not expended in the manner prescribed in section 1033 and the regulations thereunder. If, however, the taxpayer exercises the elections referred to in paragraph (a) (1) (ii) of this section, the amount of the gain which would be recognized, determined in the same manner as in the case of an election under paragraph (a) (1) (i) of this section, shall not be recognized but shall be applied to reduce the basis of property, remaining in the hands of the taxpayer after such sale or exchange or acquired by him during the same taxable year, which is of a character subject to the allowance for depreciation under section 167. Such reduction of basis shall be made in accordance with and under the conditions prescribed by § 1.1071–3.

(2) In the application of section 1033 to determine the recognized gain and the basis of property acquired as a result of a sale or exchange pursuant to an election under paragraph (a) (1) (i) or (ii) of this section, the entire amount of the proceeds of such sale or exchange shall be taken into account.

(c) *Example.* The application of the provisions of section 1071 may be illustrated by the following example:

*Example.* A, who makes his return on a calendar year basis, sold in 1954, for $100,000 cash, stock of X Corporation, which operates a radio broadcasting station. A's basis of this stock was $75,000. The sale was certified by the Federal Communications Commission as provided in section 1071. Soon after, in the same taxable year, A used $50,000 of the proceeds of the sale to purchase stock in Y Corporation, which operates a radio broadcasting station. A elected in his 1954 return to treat such sale and purchase as an involuntary conversion subject to the provisions of section 1033. He also elected at the same time to reduce the basis of depreciable property by the amount of the gain that otherwise would be recognized under the provisions of section 1033, as made applicable by section 1071. The sale results in a recognized gain of $25,000 under section 1033. However, this gain is not recognized in this case because the taxpayer elected to reduce the basis of other property by the amount of the gain. This may be shown as follows:

| | |
|---|---|
| (1) Sale price of X Corporation stock | $100,000 |
| Basis for gain or loss | 75,000 |
| Gain realized | 25,000 |
| Proceeds of sale | 100,000 |
| Amount expended to replace property sold | 50,000 |
| Amount not expended in manner prescribed in section 1033 | 50,000 |
| Realized gain, recognized under section 1033 (not to exceed the unexpended portion of proceeds of sale) | 25,000 |
| Less: Amount applied as a reduction of basis of depreciable property | 25,000 |
| Recognized gain for tax purposes | None |

(2) The basis of Y Corporation stock in the hands of A is $50,000, computed in accordance with section 1033 and the regulations prescribed under that section. The $50,000 basis is computed as follows:

| | |
|---|---|
| Basis of property sold (converted) | $75,000 |
| Less: Amount of proceeds not expended | 50,000 |
| Balance | 25,000 |
| Plus amount of gain recognized under section 1033 | 25,000 |
| Basis of Y Corporation stock in A's hands | 50,000 |

§ 1.1071–3 *Reduction of basis of property pursuant to election under section 1071—*(a) *General rule.* (1) In addition to the adjustments provided in section 1016 and other applicable provisions of chapter 1, which adjustments are required to be made with respect to the cost or other basis of property, a further adjustment shall be made in the amount of the unrecognized gain under section 1071, if the taxpayer so elects. Such further adjustment shall be made only with respect to the cost or other basis of property which is of a character subject to the allowance for depreciation under section 167 (whether or not used in connection with a broadcasting business), and which remains in the hands of the taxpayer immediately after the sale or exchange in respect of which the election is made, or which is acquired by the taxpayer in the same taxable year in which such sale or exchange occurs. If the property is in the hands of the taxpayer immediately after the sale or exchange, the time of reduction of the basis is the date of the sale or exchange; in all other cases the time of reduction of the basis is the date of acquisition.

(2) The reduction of the basis under section 1071 in the amount of the unrecognized gain shall be made in respect of the cost or other basis, as of the time prescribed, of all units of property of the specified character. The cost or other basis of each unit shall be decreased in an amount equal to such proportion of the unrecognized gain as the adjusted basis (for determining gain, determined without regard to this section) of such unit bears to the aggregate of such ad-

justed bases of all units of such property, but the amount of the decrease shall not be more than the amount of such adjusted basis. If in the application of such rule the adjusted basis of any unit is reduced to zero, the process shall be repeated to reduce the adjusted basis of the remaining units of property by the portion of the unrecognized gain which is not absorbed in the first application of the rule. For such purpose the "adjusted basis" of the remaining units shall be the adjusted basis for determining gain reduced by the amount of the adjustment previously made under this section. The process shall be repeated until the entire amount of the unrecognized gain has been absorbed.

(3) The application of the provisions of this section may be illustrated by the following example:

*Example.* Using the facts given in the example set forth in § 1.1071–2 (c), except that the taxpayer elects to reduce the basis of depreciable property in accordance with paragraph (a) (1) (iii) of § 1.1071–2, the computation may be illustrated as follows:

| | |
|---|---|
| Sale price of X Corporation stock | $100,000 |
| Basis for gain or loss | 75,000 |
| Realized gain (recognized except for the election under § 1.1071–1) | 25,000 |
| Adjusted basis of other depreciable property in hands of A immediately after sale: | |
| Building | 80,000 |
| Transmitter | 16,000 |
| Fixtures | 4,000 |
| Total | 100,000 |
| Computation of reduction: | |
| Building $\frac{80,000}{100,000}\times\$25,000$ (gain) | 20,000 |
| Transmitter $\frac{16,000}{100,000}\times\$25,000$ | 4,000 |
| Fixtures $\frac{4,000}{100,000}\times\$25,000$ | 1,000 |
| Total reduction | 25,000 |
| New basis of assets: | |
| Building ($80,000 minus $20,000) | 60,000 |
| Transmitter ($16,000 minus $4,000) | 12,000 |
| Fixtures ($4,000 minus $1,000) | 3,000 |
| Total adjusted basis after reduction under section 1071 | 75,000 |
| Realized gain upon sale of X Corporation stock | 25,000 |
| Less: Amount applied as a reduction to basis of depreciable property | 25,000 |
| Recognized gain for tax purposes | None |

(b) *Special cases.* With the consent of the Commissioner, the taxpayer may, however, have the basis of the various units of property of the class specified in section 1071 and this section adjusted in a manner different from the general rule set forth in paragraph (a) of this section. Variations from such general rule may, for example, involve adjusting the basis of only certain units of such property. The request for variations from such general rule should be filed by the taxpayer with his return for the taxable year in which he elects to have the basis of property reduced under section 1071. Agreement between the taxpayer and the Commissioner as to any variations from such general rule shall be effective only if incorporated in a closing agreement entered into under the provisions of section 7121.

§ 1.1071–4 *Manner of election.* (a) An election under the provisions of section 1071 shall be in the form of a written statement and shall be executed and filed in duplicate. Such statement shall be signed by the taxpayer or his authorized representative. In the case of a corporation the statement shall be signed with the corporate name, followed by the signature and title of an officer of the corporation empowered to sign for the corporation, and the corporate seal must be affixed. An election under section 1071 to reduce the basis of property and an election under such section to treat the sale or exchange as an involuntary conversion under section 1033 may be exercised independently of each other. An election under section 1071 must be filed with the return for the taxable year in which the sale or exchange occurs. Where practicable, the certificate of the Federal Communications Commission required by § 1.1071–1 should be filed with the election.

(b) If, in pursuance of an election to have the basis of its property adjusted under section 1071, the taxpayer desires to have such basis adjusted in any manner different from the general rule set forth in § 1.1071–3 (a), the precise method (including allocation of amounts) should be set forth in detail on separate sheets accompanying the election. Consent by the Commissioner to any departure from such general rule shall be effected only by a closing agreement entered into under the provisions of section 7121.

EXCHANGES IN OBEDIENCE TO S. E. C. ORDERS

§ 1.1081 *Statutory provisions; exchanges and distributions in obedience to orders of the Securities and Exchange Commission; nonrecognition of gain or loss.*

SEC. 1081. *Nonrecognition of gain or loss on exchanges or distributions in obedience to orders of S. E. C.*—(a) *Exchanges of stock or securities only.* No gain or loss shall be recognized to the transferor if stock or securities in a corporation which is a registered holding company or a majority-owned subsidiary company are transferred to such corporation or to an associate company thereof which is a reigstered holding company or a majority-owned subsidiary company solely in exchange for stock or securities (other than stock or securities which are nonexempt property), and the exchange is made by the transferee corporation in obedience to an order of the Securities and Exchange Commission.

(b) *Exchanges and sales of property by corporations*—(1) *General rule.* No gain shall be recognized to a transferor corporation which is a registered holding company or an associate company of a registered holding company, if such corporation, in obedience to an order of the Securities and Exchange Commission, transfers property in exchange for property, and such order recites that such exchange by the transferor corporation is necessary or appropriate to the integration or simplification of the holding company system of which the transferor corporation is a member. Any gain, to the extent that it cannot be applied in reduction of basis under section 1082 (a) (2), shall be recognized.

(2) *Nonexempt property.* If any such property so received is nonexempt property, gain shall be recognized unless such nonexempt property or an amount equal to the fair market value of such property at the time of the transfer is, within 24 months of the transfer, under regulations prescribed by the Secretary or his delegate, and in accordance with an order of the Securities and Exchange Commission, expended for property other than nonexempt property or is invested as a contribution to the capital, or as paid-in surplus, of another corporation, and such order recites that such expenditure or investment by the transferor corporation is necessary or appropriate to the integration or simplification of the holding company system of which the transferor corporation is a member. If the fair market value of such nonexempt property at the time of the transfer exceeds the amount expended and the amount invested, as required in the preceding sentence, the gain, if any, to the extent of such excess, shall be recognized.

(3) *Cancellation or redemption of stock or securities.* For purposes of this subsection, a distribution in cancellation or redemption (except a distribution having the effect of a dividend) of the whole or a part of the transferor's own stock (not acquired on the transfer) and a payment in complete or partial retirement or cancellation of securities representing indebtedness of the transferor or a complete or partial retirement or cancellation of such securities which is a part of the consideration for the transfer shall be considered an expenditure for property other than nonexempt property, and if, on the transfer, a liability of the transferor is assumed, or property of the transferor is transferred subject to a liability, the amount of such liability shall be considered to be an expenditure by the transferor for property other than nonexempt property.

(4) *Consents.* This subsection shall not apply unless the transferor corporation consents, at such time and in such manner as the Secretary or his delegate may by regulations prescribe to the regulations prescribed under section 1082 (a) (2) in effect at the time of filing its return for the taxable year in which the transfer occurs.

(c) *Distribution of stock or securities only*—(1) *In general.* If there is distributed, in obedience to an order of the Securities and Exchange Commission, to a shareholder in a corporation which is a registered holding company or a majority-owned subsidiary company, stock or securities (other than stock or securities which are nonexempt property), without the surrender by such shareholder of stock or securities in such corporation, no gain to the distributee from the receipt of the stock or securities so distributed shall be recognized.

(2) *Special rule.* If—

(A) There is distributed to a shareholder in a corporation rights to acquire common stock in a second corporation without the surrender by such shareholder of stock in the first corporation,

(B) Such distribution is in accordance with an arrangement forming a ground for an order of the Securities and Exchange Commission issued pursuant to section 3 of the Public Utility Holding Company Act of 1935 (49 Stat. 810; 15 U. S. C. 79c) that such corporation is exempt from any provision or provisions of such Act, and

(C) Before January 1, 1958, the first corporation disposes of all of the common stock in the second corporation which it owns,

then no gain to the distributee from the receipt of the rights so distributed shall be recognized. If the first corporation does not, before January 1, 1958, dispose of all

of the common stock which it owns in the second corporation, then the periods of limitation provided in sections 6501 and 6502 on the making of an assessment or the collection by levy or a proceeding in court shall, with respect to any deficiency (including interest and additions to the tax) resulting solely from the receipt of such rights to acquire stock, include one year immediately following the date on which the first corporation notifies the Secretary or his delegate whether or not the requirements of subparagraph (C) of the preceding sentence have been met; and such assessment and collection may be made notwithstanding any provision of law or rule of law which would otherwise prevent such assessment and collection.

(d) *Transfers within system group*—(1) *General rule.* No gain or loss shall be recognized to a corporation which is a member of a system group—

(A) If such corporation transfers property to another corporation which is a member of the same system group in exchange for other property, and the exchange by each corporation is made in obedience to an order of the Securities and Exchange Commission, or

(B) If there is distributed to such corporation as a shareholder in a corporation which is a member of the same system group, property, without the surrender by such shareholder of stock or securities in the corporation making the distribution, and the distribution is made and received in obedience to an order of the Securities and Exchange Commission.

If an exchange by or a distribution to a corporation with respect to which no gain or loss is recognized under any of the provisions of this paragraph may also be considered to be within the provisions of subsection (a), (b), or (c), then the provisions of this paragraph only shall apply.

(2) *Sales of stock or securities.* If the property received on an exchange which is within any of the provisions of paragraph (1) consists in whole or in part of stock or securities issued by the corporation from which such property was received, and if in obedience to an order of the Securities and Exchange Commission such stock or securities (other than stock which is not preferred as to both dividends and assets) are sold and the proceeds derived therefrom are applied in whole or in part in the retirement or cancellation of stock or of securities of the recipient corporation outstanding at the time of such exchange, no gain or loss shall be recognized to the recipient corporation on the sale of the stock or securities with respect to which such order was made; except that if any part of the proceeds derived from the sale of such stock or securities is not so applied, or if the amount of such proceeds is in excess of the fair market value of such stock or securities at the time of such exchange, the gain, if any, shall be recognized, but in an amount not in excess of the proceeds which are not so applied, or in an amount not more than the amount by which the proceeds derived from such sale exceed such fair market value, whichever is the greater.

(e) *Exchanges not solely in kind*—(1) *General rule.* If an exchange (not within any of the provisions of subsection (d)) would be within the provisions of subsection (a) if it were not for the fact that property received in exchange consists not only of property permitted by such subsection to be received without the recognition of gain or loss, but also of other property or money, then the gain, if any, to the recipient shall be recognized, but in an amount not in excess of the sum of such money and the fair market value of such other property, and the loss, if any, to the recipient shall not be recognized.

(2) *Distribution treated as dividend.* If an exchange is within the provisions of paragraph (1) and if it includes a distribution which has the effect of the distribution of a taxable dividend, then there shall be taxed as a dividend to each distributee such an amount of the gain recognized under such paragraph as is not in excess of his ratable share of the undistributed earnings and profits of the corporation accumulated after February 28, 1913. The remainder, if any, of the gain recognized under paragraph (1) shall be taxed as a gain from the exchange of property.

(f) *Conditions for application of section.* Except in the case of a distribution described in subsection (c) (2), the provisions of this section shall not apply to an exchange, expenditure, investment, distribution, or sale unless—

(1) The order of the Securities and Exchange Commission in obedience to which such exchange, expenditure, investment, distribution, or sale was made recites that such exchange, expenditure, investment, distribution, or sale is necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935 (49 Stat. 820; 15 U. S. C. 79k (b)),

(2) Such order specifies and itemizes the stock and securities and other property which are ordered to be acquired, transferred, received, or sold on such exchange, acquisition, expenditure, distribution, or sale, and, in the case of an investment, the investment to be made, and

(3) Such exchange, acquisition, expenditure, investment, distribution, or sale was made in obedience to such order, and was completed within the time prescribed therefor.

(g) *Nonapplication of other provisions.* If a distribution described in subsection (c) (2), or an exchange or distribution made in obedience to an order of the Securities and Exchange Commission, is within any of the provisions of this part and may also be considered to be within any of the other provisions of this subchapter or subchapter C (sec. 301 and following, relating to corporate distributions and adjustments), then the provisions of this part only shall apply.

§ 1.1081–1 *Terms used.* The following terms, when used in this section and §§ 1.1081–2 to 1.1083–1, inclusive, shall have the meanings assigned to them in section 1083: "Order of the Securities and Exchange Commission"; "registered holding company"; "holding company system"; "associate company"; "majority-owned subsidiary company"; "system group"; "nonexempt property"; and "stock or securities". Any other term used in this section and §§ 1.1081–2 to 1.1083–1, inclusive, which is defined in the Internal Revenue Code of 1954, shall be given the respective definition contained in such Code.

§ 1.1081–2 *Purpose and scope of exception.* (a) The general rule is that the entire amount of gain or loss from the sale or exchange of property is to be recognized (see section 1002) and that the entire amount received as a dividend is to be included in gross income. (See sections 61 and 301.) Exceptions to the general rule are provided elsewhere in subchapters C and O of chapter 1, one of which is that made by section 1081 with respect to exchanges, sales, and distributions specifically described in section 1081. Section 1081 provides the extent to which gain or loss is not to be recognized on (1) the receipt of a distribution described in section 1081 (c) (2), or (2) an exchange or sale, or the receipt of a distribution, made in obedience to an order of the Securities and Exchange Commission, which is issued to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935 (15 U. S. C. 79k (b)). Section 331 provides that a distribution in liquidation of a corporation shall be treated as an exchange. Such distribution is to be treated as an exchange under the provisions of sections 1081 to 1083, inclusive. The order of the Securities and Exchange Commission must be one requiring or approving action which the Commission finds to be necessary or appropriate to effect a simplification or geographical integration of a particular public utility holding company system. For specific requirements with respect to an order of the Securities and Exchange Commission, see section 1081 (f).

(b) The requirements for nonrecognition of gain or loss as provided in section 1081 are precisely stated with respect to the following general types of transactions:

(1) The exchange that is provided for in section 1081 (a), in which stock or securities in a registered holding company or a majority-owned subsidiary company are exchanged for stock or securities.

(2) The exchange that is provided for in section 1081 (b), in which a registered holding company or an associate company of a registered holding company exchanges property for property.

(3) The distribution that is provided for in section 1081 (c) (1), in which stock or securities are distributed to a shareholder in a corporation which is a registered holding company or a majority-owned subsidiary company, or the distribution that is provided for in section 1081 (c) (2), in which a corporation distributes to a shareholder, rights to acquire common stock in a second corporation.

(4) The transfer that is provided for in section 1081 (d), in which a corporation which is a member of a system group transfers property to another member of the same system group.

Certain rules with respect to the receipt of nonexempt property on an exchange described in section 1081 (a) are prescribed in section 1081 (e).

(c) These exceptions to the general rule are to be strictly construed. Unless both the purpose and the specific requirements of sections 1081 to 1083, inclusive, are clearly met, the recognition of gain or loss upon the exchange, sale, or distribution will not be postponed under those sections. Moreover, even though a taxable transaction occurs in connection or simultaneously with a realization of gain or loss to which nonrecognition is accorded, nevertheless, nonrecognition will not be accorded to such taxable transaction. In other words, the provisions of section 1081 do not extend in any case to gain or loss other than that realized from and directly attributable to a disposition of property as such, or the receipt of a corporate distribution as such, in an exchange, sale, or distribution specifically described in section 1081.

(d) The application of the provisions of sections 1081 to 1083, inclusive, is intended to result only in postponing the

recognition of gain or loss until a disposition of property is made which is not covered by such provisions, and, in the case of an exchange or sale subject to the provisions of section 1081 (b), in the reduction of basis of certain property. The provisions of section 1082 with respect to the continuation of basis and the reduction in basis are designed to effect these results. Although the time of recognition may be shifted, there must be a true reflection of income in all cases, and it is intended that the provisions of sections 1081 to 1083, inclusive, shall not be construed or applied in such a way as to defeat this purpose.

§ 1.1081–3 *Exchanges of stock or securities solely for stock or securities.* The exchange, without the recognition of gain or loss, that is provided for in section 1081 (a) must be one in which stock or securities in a corporation which is a registered holding company or a majority-owned subsidiary company are exchanged solely for stock or securities other than stock or securities which constitute nonexempt property. An exchange is not within the provisions of section 1081 (a) unless the stock or securities transferred and those received are stock or securities as defined by section 1083 (f). The stock or securities which may be received without the recognition of gain or loss are not limited to stock or securities in the corporation from which they are received. An exchange within the provisions of section 1081 (a) may be a transaction between the holder of stock or securities and the corporation which issued the stock or securities. Also the exchange may be made by a holder of stock or securities with an associate company (i. e., a corporation in the same holding company system with the issuing corporation) which is a registered holding company or a majority-owned subsidiary company. In either case, the nonrecognition provisions of section 1081 (a) apply only to the holder of the stock or securities. However, the transferee corporation must be acting in obedience to an order of the Securities and Exchange Commission directed to such corporation, if no gain or loss is to be recognized to the holder of the stock or securities who makes the exchange with such corporation. See also section 1081 (b), in case the holder of the stock or securities is a registered holding company or an associate company of a registered holding company. An exchange is not within the provisions of section 1081 (a) if it is within the provisions of section 1081 (d), relating to transfers within a system group. For treatment when nonexempt property is received, see section 1081 (e); for further limitations, see section 1081 (f).

§ 1.1081–4 *Exchanges of property for property by corporations*—(a) *Application of section 1081 (b).* Section 1081 (b) applies only to the transfers specified therein with respect to which section 1081 (d) is inapplicable, and deals only with such transfers if gain is realized upon the sale or other disposition effected by such transfers. If loss is realized section 1081 (b) is inapplicable and the application of other provisions of subtitle A must be determined. See section 1081 (g). If section 1081 (b) is applicable, the other provisions of subchapters C and O relating to the nonrecognition of gain are inapplicable, and the conditions under which, and the extent to which, the realized gain is not recognized are set forth in paragraphs (b), (c), (d), (e), and (f) of this section.

(b) *Nonrecognition of gain; no nonexempt proceeds.* No gain is recognized to a transferor corporation upon the sale or other disposition of property transferred by such transferor corporation in exchange solely for property other than nonexempt property, as defined in section 1083 (e), but only if all of the following requirements are satisfied:

(1) The transferor corporation is, under the definition in section 1083 (b), a registered holding company or an associate company of a registered holding company;

(2) Such transfer is in obedience to an order of the Securities and Exchange Commission (as defined in section 1083 (a)) and such order satisfies the requirements of section 1081 (f);

(3) The transferor corporation has filed the required consent to the regulations under section 1082 (a) (2) (see paragraph (g) of this section); and

(4) The entire amount of the gain, as determined under section 1001, can be applied in reduction of basis under section 1082 (a) (2).

(c) *Nonrecognition of gain; nonexempt proceeds.* If the transaction would be within the provisions of paragraph (b) of this section if it were not for the fact that the property received in exchange consists in whole or in part of nonexempt property (as defined in section 1083 (e)), then no gain is recognized if such nonexempt property, or an amount equal to the fair market value of such nonexempt property at the time of the transfer,

(1) Is expended within the required 24-month period for property other than nonexempt property; or

(2) Is invested within the required 24-month period as a contribution to the capital, or as paid-in surplus, of another corporation;

but only if the expenditure or investment is made

(3) In accordance with an order of the Securities and Exchange Commission (as defined in section 1083 (a)) which satisfies the requirements of section 1081 (f) and which recites that such expenditure or investment by the transferor corporation is necessary or appropriate to the integration or simplification of the holding company system of which the transferor corporation is a member; and

(4) The required consent, waiver, and bond have been executed and filed. See paragraphs (g) and (h) of this section.
